DISCLAIMER

i. This report, including any enclosures and attachments, has been prepared by the Insurance and Pensions Commission (IPEC), solely for informative purposes to the insurance sector stakeholders. The report may not be reproduced, redistributed, communicated to a third party, or relied upon by any other person for any other purpose without the Commission's prior written consent. The Commission does not accept any liability if this report is used for any other purposes other than the above-mentioned intended purpose.

ii. This report relates to the Funeral Assurance business written by Funeral Assurers only and does not relate to the Funeral Assurance business written by Life Assurers. The Funeral Assurance business generated by Life Assurers is reported in the life assurance report.

iii. Growth referred to in this report is nominal growth unless stated otherwise.

iv. Please Note: All Monetary Figures are in ZW$ except where stated.

v. Income statement figures were adjusted using year-on-year inflation of 280.40% reported for September 2022. Source:
https://www.rbz.co.zw/index.php/research/markets/inflation

vi. Balance sheet figures were not adjusted due to the unavailability of quarterly inflation figures. Therefore, balance sheet figures are compared on a nominal basis.

TCF	Treating Customers Fairly
ZICARP	Zimbabwe Integrating Capital and Risk Programme

1. Executive Summary

1.1 For the nine months ended 30 September 2022, the number of registered and operating funeral assurers stood at eight (8).

1.2 The nominal Gross Premium Written by the Funeral Assurance Sector for the nine months ended 30 September 2022 amounted to ZW$3.29 billion. This is an increase of 287.23% from ZW$850.82 million recorded for the nine months ended 30 September 2021.

1.3 The inflation-adjusted Gross Premium Written for the Funeral Assurance Sector increased by 1.79% from ZW$850.82 million reported for the nine months ended 30 September 2021 to ZW$866.09 million for the nine months ended 30 September 2022.

1.4 In terms of Forex Business, the Sector recorded a gross premium of US$221,139 and ZAR163,088 for the nine months ended 30 September 2022.

1.5 As at 30 September 2022, seven (7) out of the eight (8) Funeral Assurers were compliant with the Minimum Capital Requirement (MCR) of ZW$62.50 million, as prescribed in Statutory Instrument 59 of 2020. All the Funeral Assurers are required to comply with the MCR as prescribed in S.I. 59 of 2020.

1.6 Total assets for the Funeral Assurance Sector increased by 12.25% from ZW$5.16 billion as at 30 June 2022 to ZW$5.80 billion as at 30 September 2022. The increase in the asset base is partly due to inflation-driven revaluation gains on asset values.

1.7 All Funeral Assurers were not compliant with the minimum Prescribed Asset ratio. The Sector had an average Prescribed Asset ratio of 0.07% against a required ratio of 10.00%, as stipulated in Statutory Instrument 206 of 2019. Since all the entities are non-compliant, they are required to submit compliance roadmaps as stipulated in S.I. 206 of 2019.

1.8 The total amount invested in Prescribed Assets was only ZW$4.21 million against the required minimum amount of ZW$579.54 million to comply with the minimum Prescribed Asset threshold of 10.00%.

1.9 Total technical liabilities for the Funeral Assurance Sector increased by 4.56% in nominal terms from ZW$2.42 billion as at 30 June 2022 to ZW$2.53 billion as at 30 September 2022, with future policyholders' benefits being the major component constituting 99.61% of the technical liabilities.

1.10 Profit before tax for the Funeral Assurance Sector increased by 409.87% in nominal terms from ZW$139.68 million for the nine months ended 30 September 2021 to ZW$712.19 million for the comparative period in 2022. After adjusting for inflation, the profit before tax increased by 34.03% from ZW$139.68 million to ZW$187.22 million over the same period.

1.11 For the nine months ended 30 September 2022, two players dominated the Funeral Assurance Sector in terms of GPW, with a total market share of 84.14%. The remaining six (6) Funeral Assurers accounted for the difference of 15.86%.

1.12 None of the Funeral Assurers had any Reassurance arrangement(s) in place for the nine months ended 30 September 2022.

2. Introduction

2.1 The Insurance and Pensions Commission (IPEC) is a Statutory Body, mandated with regulating, supervising, and developing the Insurance and Pensions Industry for the protection of policyholders and pension scheme members in Zimbabwe.

2.2 This report outlines the Funeral Assurance Sector developments and IPEC's various activities in the sector consistent with its statutory mandate during the nine months ended 30 September 2022.

3. Terms of Reference

3.1 The activities of the Commission are guided by the following Acts and their Regulations:

3.1.1. Insurance and Pensions Commission Act [*Chapter 24:21*];
3.1.2. Pension and Provident Funds Act [*Chapter 24:32*];
3.1.3. Insurance Act [*Chapter 24:07*];
3.1.4. Money Laundering and Proceeds of Crime Act [*Chapter 09:24*];
3.1.5. Finance Act [*Chapter 23:04*];
3.1.6. Public Entities and Corporate Governance Act [Chapter 10:31];
3.1.7. Public Finance Management Act [*Chapter 22:19*]; and
3.1.8. Public Procurement and Disposal of Public Assets Act [*Chapter 22:23*]

4. Economic Overview

4.1. Global and Regional Economic Outlook

Global output growth forecast for 2022 was unchanged at 3.2%, whilst that of 2023 was revised down to 2.7% (IMF, 2022). Economic, geopolitical and ecological changes continue to impact on the global outlook. The souring global inflation exacerbated by the war in Ukraine has led to tightening of monetary policies and household budgets.

Advanced economies are expected to grow by 2.4% in 2022, and Emerging Markets by 3.7% (Table 1). Sub-Sharan Africa (SSA) growth is projected at 3.6% in 2022, and to marginally improve to 3.7% in 2023. The World Bank forecasts a slightly lower growth of 3.3% for SSA in 2022 on the back of slowing down of the global economy, tightening global financial conditions, rising food and fuel prices, adverse weather conditions, and rising risk of debt distress.

Table 1: World Economic Outlook Projections

	2021	2022	2023
World Output	6.0	3.2	2.7
Advanced Economies	5.2	2.4	1.1
USA	5.7	1.6	1.0
Euro Area	5.2	3.1	0.5
Emerging Markets and Developing Economies	6.6	3.7	3.7
China	8.1	3.2	4.4
Sub-Saharan Africa	4.7	3.6	3.7
Nigeria	3.6	3.2	3.0
South Africa	4.9	2.1	1.1
Zimbabwe	7.8	4.6	5

Source: October 2022 World Economic Outlook Update, IMF Projections

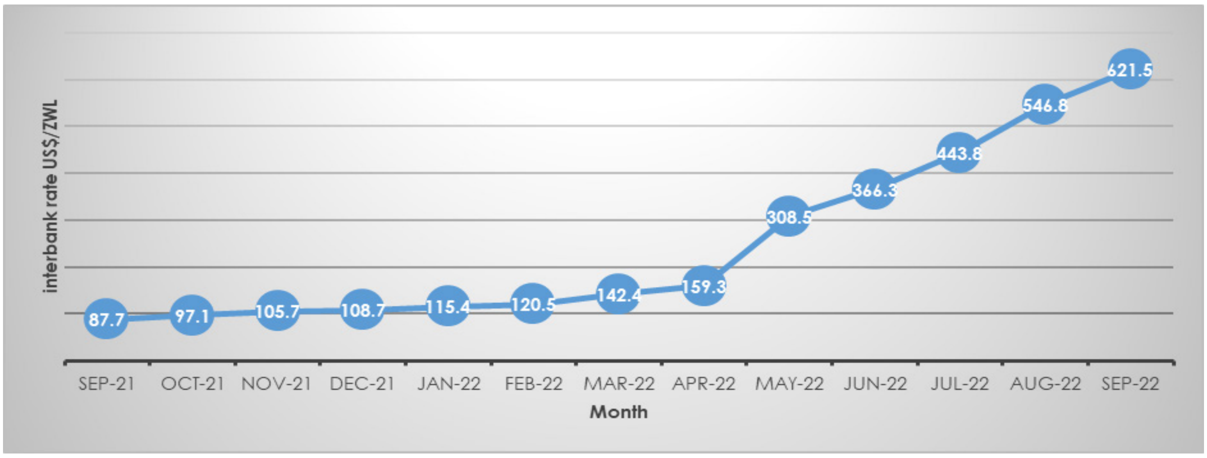
4.2. Domestic Economic Outlook

The economy is projected to grow by 4.6% in 2022, a downward revision from an initial 5.5% projection (Ministry of Finance, 2022). The 2022 growth projection is supported by increased activity in all the productive sectors except agriculture that was weighed down by the unfavourable 2021/22 rainfall season and high input costs. In the outlook, the economy is projected to continue on the growth trajectory, with an expected growth of 5% in 2023 underpinned by favourable international commodity prices, stable macroeconomic environment, and improved production in all sectors of the economy.

4.3. Exchange Rate Developments

The Zimbabwean dollar depreciated against the US dollar from an average of US$1:ZW$366.3 as at 30June 2022 to US$1:ZW$621.5 as at 30 September 2022. Higher demand for foreign currency as a store of value, as well as forward exchange rate pricing due to high inflation expectations, contributed to the exchange rate depreciation.

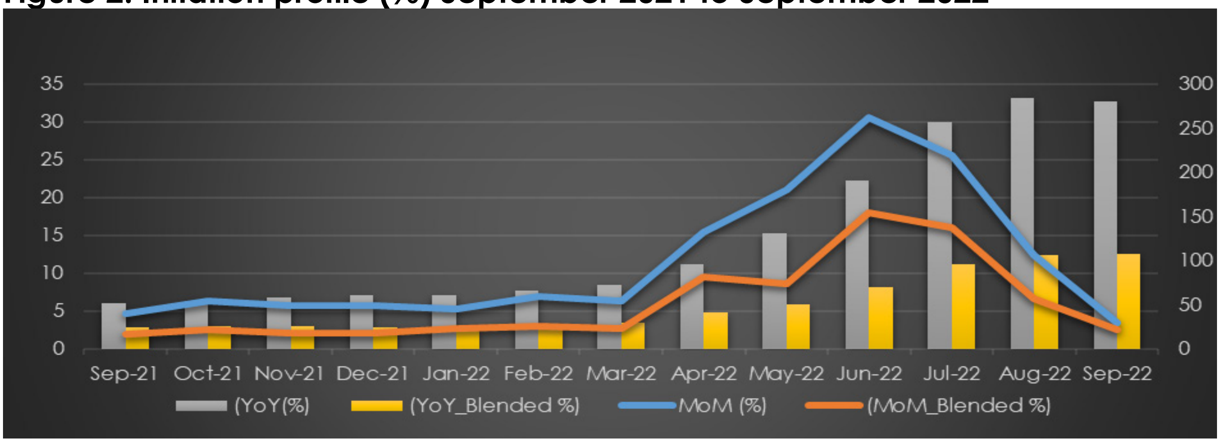
Figure 1: Interbank Exchange Rate September 2021 to September 2022 (US$/ZWL) End of period



Inflation Developments

The year-on-year inflation rate increased to 280.4% in September of 2022, from 191.6% recorded in June 2022, driven by imported inflation and speculative behaviour by economic agents. The month-on-month inflation rate was 3.5% as at 30 September 2022, down from 30.7% recorded as at 30 June 2022 on account of the decrease in food and non-food inflation following the introduction of fiscal and monetary stabilisation measures during the period under review. Figure 2 illustrates the inflation trend from September 2021 to September 2022.

Figure 2: Inflation profile (%) September 2021 to September 2022

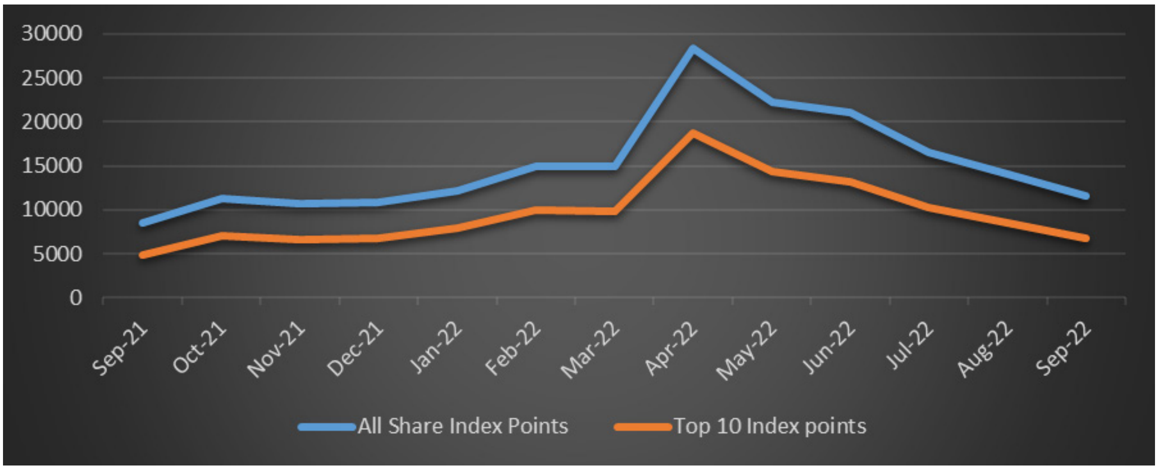


Source: Zimbabwe National Statistics Agency

4.4. Zimbabwe Stock Exchange Performance

The Zimbabwe Stock Exchange (ZSE) was characterized by bearish sentiments for the third quarter. Consequently, the All Share, Top 10, Top 15 indices and Medium Cap declined by 17.41%, 20.03%, 18.65%, and 12.09% to close the quarter at 13 705.12 points, 8 209.35 points, 9 199.73 points and 29 026.80 points, respectively. Similarly, the resources index shed 22.72% to close at 15 473.37 points. In the short to medium term, the bearish sentiments on the ZSE are expected to continue, on the back of the tight monetary and fiscal policy measures, which have significantly reduced speculative liquidity in the economy.

Figure 3: ZSE All Share and Top Ten Indices



Source: Zimbabwe Stock Exchange

The market capitalization closed at ZW$1,819.16 billion in September 2022. On a year-on-year basis, ZSE capitalization rose by ZW$786.68 billion, or 76.19%.

Victoria Falls Stock Exchange (VFEX) Performance

The VFEX was bullish in the third quarter which resulted in a 24% increase in the VFEW All Share Index to close the quarter at 143.16 points from 115.39 recorded in the second quarter. Total market turnover declined by 81% to reach US$0.595 million as at 30 September 2022, from US$3.19 million in the previous quarter. The market capitalisation increased by 25% from the previous quarter, to end at US$341.67 million.

4.5. Money Market Developments

Savings Deposit Rates

The annual inflation rate of 280.4% as at 30 September 2022, exceeds interest rates on savings deposits, which averaged around 20%. This suggests that money market investments continue to yield negative real returns.

5. Performance in terms of Business Written

5.1. The Funeral Assurance Sector recorded nominal Gross Premium of ZW$3.29 billion for the nine months ended 30 September 2022, an increase of 287.23% compared to ZW$850.82 million reported for the nine months ended 30 September 2021.

5.2. After adjusting for inflation, the Funeral Assurance Sector's GPW increased by 1.79% from ZW$850.82 million reported for the nine months ended 30 September 2021 to ZW$866.09 million for the nine months ended 30 September 2022.

5.3. In terms of Forex Business, the Sector wrote Gross Premium of US$221,139 and ZAR163,088 for the nine months ended 30 September 2022.

5.4. For the period under review, new business contributed 2.59% of GPW and the remaining 97.41% was from recurring business, a drop in new business contribution as compared to 2.67% new business contribution for the same period in 2021.

5.5. New business premium increase was 275.07% from ZW$22.76 million for the first nine months of 2021 to ZW$85.35 million for the comparative reporting period in 2022. This indicates an increase in the uptake of funeral assurance policies by the insuring public. However, the overall contribution of new business premiums to the total Gross Premium Written remains low.

5.6. Besides new business, the increase in GPW was also on account of recurring premium increases as funeral assurers sought to align both the premiums and policyholder benefits in response to the volatile and dynamic inflationary macroeconomic environment.

5.7. This is evidenced by an increase in recurring premium of 287.56% from ZW$828.07 million for the nine months ended 30 September 2021 to ZW$3.21 billion for the nine months ended 30 September 2022.

5.8. In nominal terms, all the eight (8) players recorded significant growth rates (above 100%) in GPW.

5.9. For the nine months ended 30 September 2022, life assurers wrote nominal gross funeral assurance business amounting to ZW$26.12 billion which was approximately eight times more than the ZW$3.29 billion written by the dedicated funeral players.

5.10. The Commission implores funeral assurance players to prepare for the implementation of the IFRS 17 Standard whose implementation date is 1 January 2023.

5.11. Players should take the IFRS 17 Standard seriously and deploy the required resources to ensure that their financial statements are compliant starting from the first reporting date.

5.12. A detailed breakdown of GPW per funeral assurer in terms of recurring and new business is shown in Appendix 4.

Table 2: Gross Premium Written Per Company (ZW$000)

Name of Company	Sep-21	Sep-22	Sep-2022 Inflation Adjusted	Change - Inflation Adjusted	Nominal Change
First Funeral	176,885	672,044	176,667	-0.12%	279.93%
Foundation	34,497	109,570	28,804	-16.50%	217.62%
Moonlight	513,409	2,099,998	552,047	7.53%	309.03%
Orchid	1,515	4,080	1,073	-29.20%	169.31%
Passion	40,586	128,872	33,878	-16.53%	217.53%
Ruvimbo	22,870	66,862	17,577	-23.15%	192.35%
Sunset	7,146	16,229	4,266	-40.30%	127.09%
Vineyard	53,915	196,968	51,779	-3.96%	265.33%
TOTAL	**850,824**	**3,294,623**	**866,090**	**1.79%**	**287.23%**

6. Capitalisation

6.1. As at 30 September 2022, seven (7) out of the eight (8) funeral assurers were compliant with the regulatory Minimum Capital Requirements (MCR) of ZW$62.50 million as prescribed by Statutory Instrument 59 of 2020. All the Funeral Assurers are required to comply with the MCR as prescribed in S.I. 59 of 2020.

6.2. Regulatory action is being taken on the non-compliant entity.

6.3. There has been an increase in minimum capital compliance from 62.50% as at the end of Q3 of 2021 to 87.50% as at the end of Q3 of 2022. The increase was attributed to inflation-driven revaluation gains on the sector's assets, at the back of fixed capital requirements.

6.4. All the players are required to be always well capitalised. The sector is further required to adequately prepare for the new risk-based capital regime, which will be brought about by the implementation of the Zimbabwe Integrating Capital & Risk Programme (ZICARP) in 2023.

6.5. The sector should also expect the promulgation of the United States Dollars indexed capital requirements in the first quarter of 2023. The proposed USD indexed capital requirement for Funeral Assurers is USD750, 000.00.

6.6. As at 30 September 2022, capital positions for funeral assurers ranged from ZW$5.13 million to ZW$ 813.55 million as shown in Table 3 below.

Table 3: Capitalisation Trend Levels

Name of Company	Sep-21 (ZW$000)	Sep-22 (ZW$000)
First Funeral	161,857	528,801
Foundation	76,621	193,277
Moonlight	110,956	813,553
Orchid	6,087	5,130
Passion	23,067	82,113
Ruvimbo	62,163	181,571

Total	**611,985**	**2,061,598**

Key

(red)	Undercapitalised
(green)	Capitalised

7. Asset Quality

7.1. Total assets for the Funeral Assurance Sector increased by 12.25% from ZW$5.16 billion as at 30 June 2022 to ZW$5.80 billion as at 30 September 2022.

7.2. The asset base for the sector remains highly concentrated in operational property consisting of 71.38% of the total assets. This concentration in operational property mainly arises from the need by the sector to invest in assets that are used for funeral service provision.

7.3. The Commission calls for prudent investment practices by funeral assurers, considering the need to continuously hold assets that match their liability profiles.

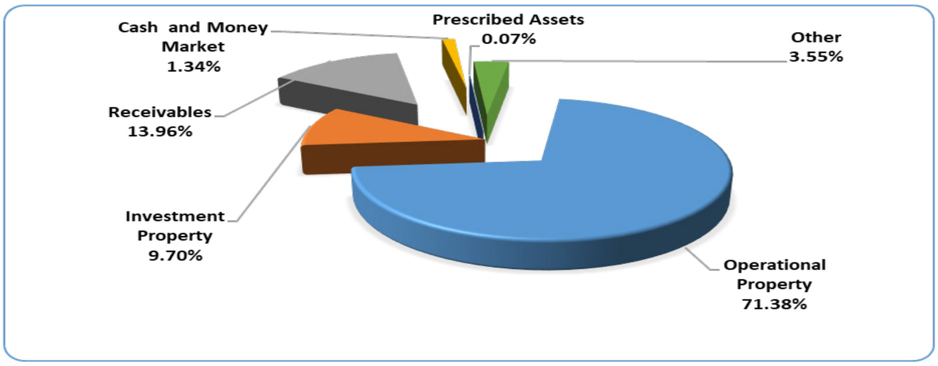
7.4. The sector continues to hold investments in equities, cash and money market instruments in very small proportions relative to the overall asset portfolio.

7.5. The Commission also reminds the Funeral Assurance Sector that the choice of the policyholder at the claims stage, on whether to be paid cash or to be provided with services should be respected as enshrined under section 58(3)(a) of the Insurance Act.

7.6. Funeral Assurance players are required to always adhere to the requirement of Section 29 of the Insurance Act [Chapter 24:07] by making sure that Policyholders' and Shareholders' assets are kept separately.

7.7. The distribution of assets for the Funeral Assurance Sector is shown in Figure 4 below.

Figure 4: Breakdown of Assets



7.8. As at 30 September 2022, all Funeral Assurers were not compliant with the minimum Prescribed Asset ratio of 10.00%, as stipulated by Statutory Instrument 206 of 2019. Prescribed asset investments were very small as they accounted for an average of only 0.07% of the total asset portfolio.

7.9. All the Funeral Assurers are required to comply with the Minimum Prescribed Asset ratio of 10.00% as stipulated in S.I 206 of 2019. Since all the entities are non-compliant, they are required to submit compliance roadmaps as highlighted in S.I. 206 of 2019.

7.10. The total amount invested in prescribed assets was ZW$4.21 million against an expected minimum amount of ZW$579.54 million, for the sector to comply with the 10.00% minimum prescribed asset threshold.

7.11. With the introduction of Gold Coins, which have been accorded Prescribed Asset Status, the Commission expects compliance ratios to improve.

7.12. The Commission also continues to recommend the development of Sector-specific Projects that speak to the Funeral Assurance Industry's needs, for possible conferment of Prescribed Asset Status as this will go a long way in enhancing compliance.

7.13. Table 4 below shows the compliance levels with Prescribed Assets for each Funeral Assurance player.

Table 4: Prescribed Assets (PA) Levels as at 30 September 2022

Company name	PA Investments	Total assets	PA ratio	Amount required to be compliant	Variance in compliance
Orchid	-	11,533	0.00%	1,153	10.00%
First Funeral	-	638,756	0.00%	63,876	10.00%
Foundation	-	426,336	0.00%	42,634	10.00%
Moonlight	3,991	4,028,567	0.10%	402,857	9.90%
Passion	-	111,355	0.00%	11,136	10.00%
Ruvimbo	216	189,441	0.11%	18,944	9.89%
Sunset	-	105,179	0.00%	10,518	10.00%
Vineyard	1	284,256	0.00%	28,426	10.00%
Total	**4,208**	**5,795,424**	**0.07%**	**579,542**	**9.93%**

Table 5 below shows the Key Financial Highlights for the Funeral Assurance Sector as at 30 September 2022.

Table 5: Key Performance Indicators

Key Performance Indicator	Sep-21	Sep-22	Change	Sep-22 Inflation Adjusted	Change - Inflation Adjusted

Prescribed Asset Ratio	0.08%	0.07%	-10.68%		

8. Reassurance

8.1. All Funeral Assurers had no reassurance arrangements in place for the nine months ended 30 September 2022.

8.2. The Commission is aware of various engagements that the Sector is having with the Reassurers to ensure that there are suitable reassurance arrangements in place.

8.3. The Sector is however encouraged to expedite the process, to ensure that players are effectively reassured, to enable them to pay high claims in the event of catastrophes.

9. Technical Section

9.1. Total technical liabilities for the Funeral Assurance Sector increased by 4.56% in nominal terms from ZW$2.42 billion as at 30 June 2022 to ZW$2.53 billion as at 30 September 2022. Future Policyholders' benefits continue to be the major component constituting 99.61% of the technical liabilities, while unearned premium, gross outstanding claims and incurred but not reported claims reserves accounted for a smaller portion of 0.39%.

9.2. The increase shows that Funeral Assurance Companies are increasing their reserves in line with the increase in the values of promised benefits.

9.3. Funeral Assurers should approach reserving with prudence and the determination of their reserves should be actuarially driven to ensure that they are reflective of the various risks that players are exposed to.

9.4. In addition, since the Funeral Assurance players offer benefit policies whose cost moves in line with inflation, they should continuously review their reserves to align them with their liabilities.

9.5. The Commission notes that the development of Mortality Tables which is currently underway will improve reserving and pricing of the products by the sector.

10. Earnings

10.1. For the period under review, six (6) Funeral Assurers reported positive profit before interest and tax while two (2) players reported losses.

10.2. The Funeral Assurance Sector reported a nominal increase of 409.87% in profit before interest and tax from ZW$139.68 million for the nine months ended 30 September 2021 to ZW$712.19 million for the comparable period in 2022.

10.3. An increase in profit before interest and tax was on account of a notable increase in nominal GPW as players reviewed premiums in line with the prevailing inflationary macroeconomic environment.

10.4. The Funeral Assurance Sector's average expense ratio decreased from 59.76% for the nine months ended 30 September 2021 to 40.57% for the nine months ended 30 September 2022. This implies that for every dollar of the premium received, forty-one cents were spent on commissions and operational expenses.

10.5. It is important for all sector players to continuously monitor their expenses so that they are sustainable.

10.6. The average claims ratio and combined ratio stood at 19.95% and 60.52% respectively.

10.7. A summary of the claims incurred, operating expenses, commissions, and total costs for each funeral assurer for the nine months to 30 September 2022, is shown in Appendix A5.

11. Liquidity

11.1. The Funeral Assurance Sector reported an average current ratio of 95.98% indicating insufficient current assets to cover short-term contractual obligations and other current liabilities.

11.2. The Commission continues to urge the Funeral Assurers to endeavor to match their asset profiles with their liability profiles in terms of maturity and timing.

11.3. Asset-liability mismatch may result in players encountering liquidity problems.

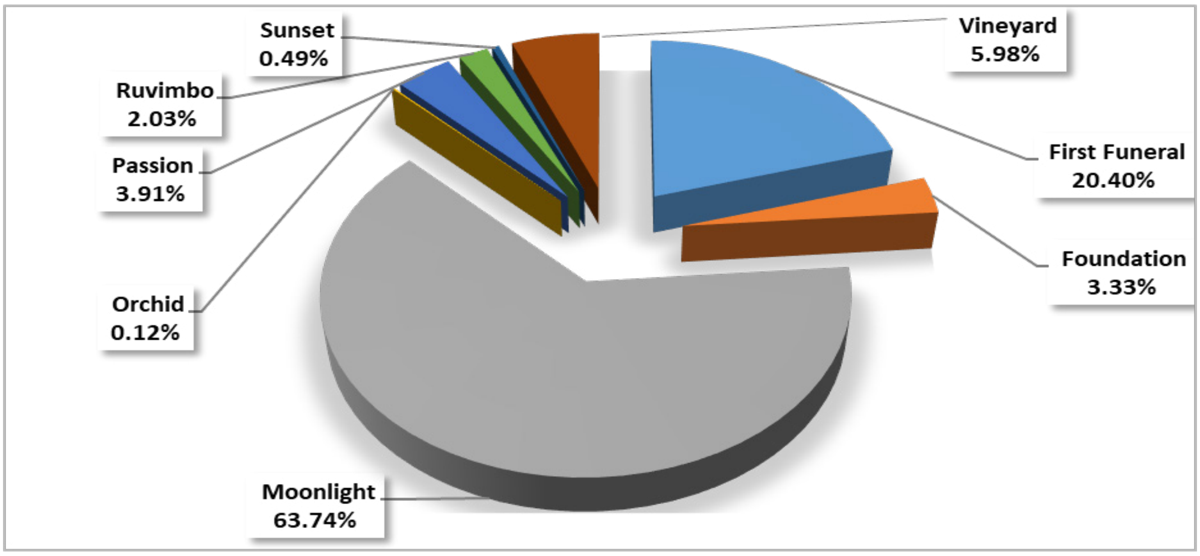
11.4. Funeral Assurers are encouraged to hold adequate and appropriate short–term assets that can be easily liquidated to allow them to meet their statutory short-term debts, operational expenses and fulfil their claim obligations.

12. Market Share

12.1. For the nine months ended 30 September 2022, two players dominated the Funeral Assurance Sector in terms of GPW, with a total market share of 84.14%. The remaining six (6) funeral assurers accounted for the 15.86% difference.

12.2. The distribution of the market share in terms of GPW for the eight (8) Funeral Assurers is shown in Figure 5 below.

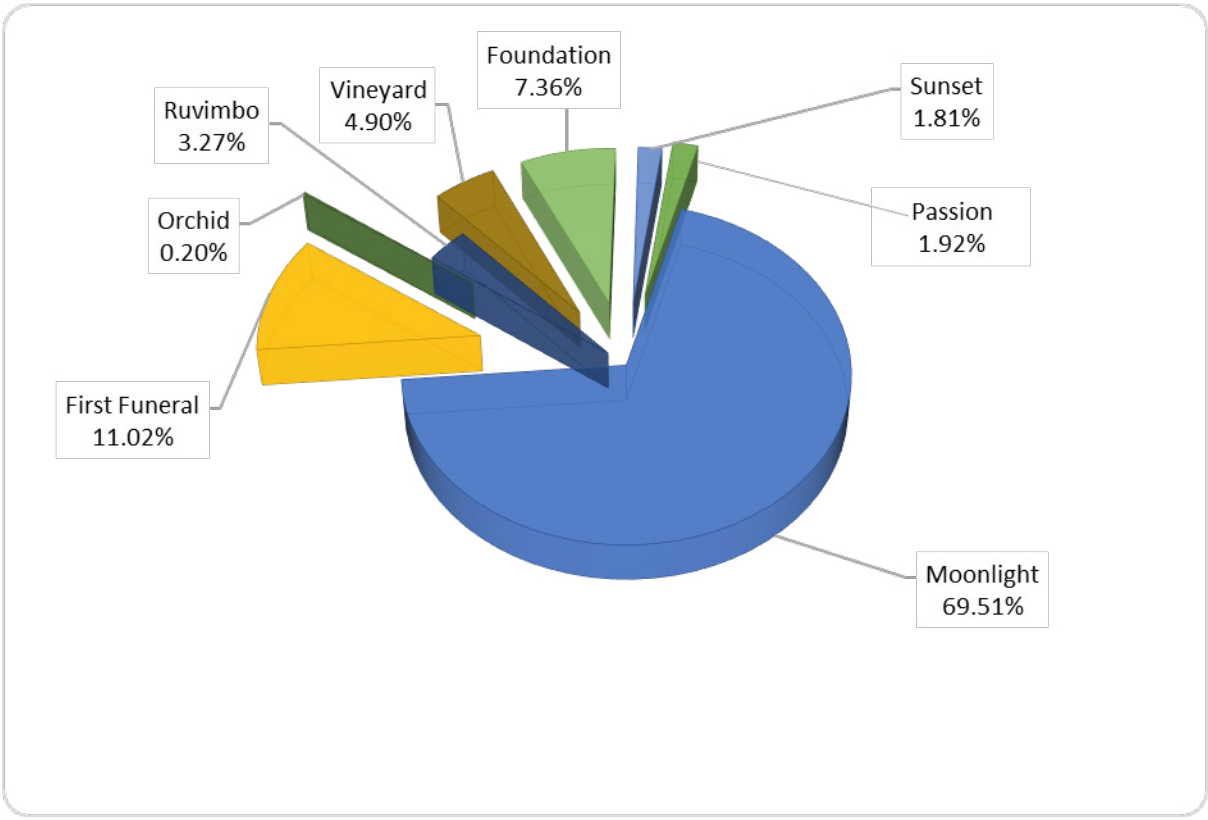
Figure 5: Market Share in terms of GPW as at 30 September 2022



12.3. In terms of assets, two (2) players dominated the Funeral Assurance Sector with a total market share of 80.53% whilst the remaining six (6) players constituted the remaining

19.47% as at 30 September 2022. This is shown in the Figure 6 below.

Figure 6: Market Share in terms of Assets as at 30 September 2022



13. Regulatory Developments for the nine months ended 30 September 2022 Circulars and Statutory Instruments

The Commission issued the following Statutory Instruments and Circulars to the Insurance Industry as shown in Table 6 below.

Table 6: Statutory Instruments and Circulars issued

Statutory Instrument (S.I.)	Date Gazetted	Purpose
S.I. 45 of 2022	18 March 2022	Revision of fees payable to the Commission.
S.I. 46 of 2022	18 March 2022	Revision of levies payable to the Commission.
Circulars	**Date of Issue**	**Purpose**
Circular 3 of 2022	7 February 2022	2022 Global Money Week Activities.

14. Funeral Assurance Sector Complaints

14.1. For the third quarter under review, the Commission received ten (10) Funeral Assurance related complaints. All these complaints were solved during the quarter.

14.2. Unsatisfactory service was the major contributor to complaints, accounting for 60% of all the Funeral Assurance complaints for the quarter. Complaints due to low value on claim payment and repudiation accounted for 30% and 10% respectively.

14.3. Table 7 below shows the complaints raised against the Funeral Assurance Sector.

Table 7: Complaints for the Funeral Assurance Sector

Nature of Complaints	Number of Complaints	Percentage of Total
Low values	3	30%
Repudiation	1	10%
Not satisfied with service	6	60%
Total	**10**	**100%**

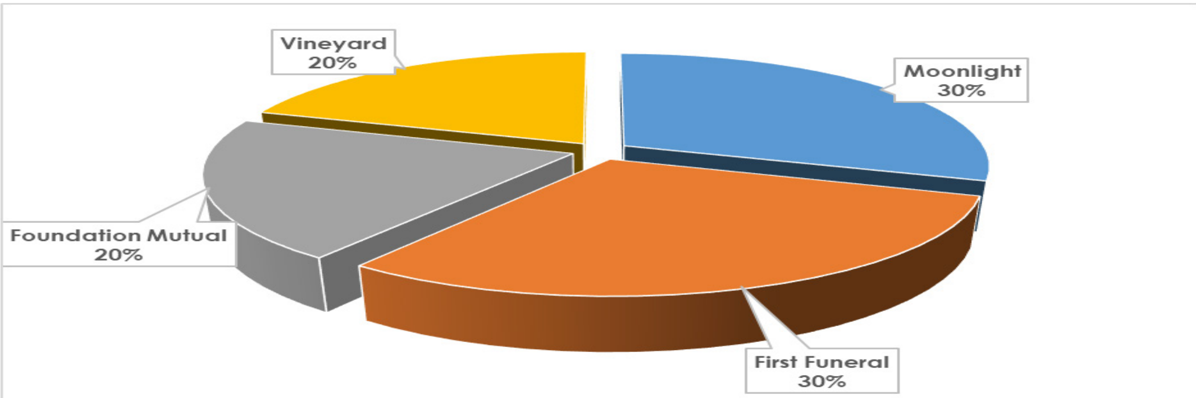
14.4. Funeral Assurance claims are time sensitive and Funeral Assurance Sector players should pay claims or provide the agreed service timely to avoid inconveniencing policyholders or their beneficiaries. Sector players should also provide policy wordings that are written in a simple and understandable way and avoid small prints, to enhance understanding of the wordings by policyholders.

14.5. After various social media complaints from the public, the Commission is in the process of crafting reforms to the Funeral Assurance Sector, focusing on possible introduction of paid-up terms, solutions to multiple policies among other issues.

14.6. In terms of distribution of complaints by player, Moonlight Funeral Assurance and First Funeral Assurance had 30 percent of complaints against each of them, while Vineyard Funeral Assurance and Foundation Mutual Society had 20 percent of complaints against each of them.

14.7. The distribution of complaints by player is shown in Figure 7 below.

Figure 7: Complaints distribution by player



15. ANTIMONEY LAUNDERING AND COMBATING THE FINANCING OF TERRORISM AND PROLIFERATION FINANCING

Implementation of Targeted Financial Sanctions Against Terrorist and Proliferation Financing

Introduction

15.1. The Financial Action Taskforce (FATF) Recommendation 6 and 7 requires countries to implement the targeted financial sanctions regimes to comply with the United Nations Security Council resolutions (UNSCRs or resolutions) relating to the prevention and suppression of terrorism and terrorist financing[1] and proliferation financing[2].

15.2. The objective of the requirements is to prevent designated persons and entities involved in financing of terrorism or in proliferation of weapons of mass destruction from raising, moving and using funds.

15.3. In line with the country's international obligations as mandated by the United Nations and the Financial Action Task Force, Zimbabwe has in place the legal framework for implementation of targeted financial sanctions. The country enacted the Suppression of Foreign and International Terrorism Act [*Chapter11:21*], and the supporting regulations statutory instruments SI.76 of 2014 and SI.110 of 2021 (which repealed SI. 56 of 2019).

15.4. The Financial Intelligence Unit (FIU) issued a Guidance on '*Targeted Financial Sanctions Relating to Financing of Terrorism and Financing Proliferation of Weapons of Mass Destruction*' in July 2021.

15.5. Recommendation 6 is intended to assist countries in implementing the targeted financial sanctions contained in the UNSCRs relating to the prevention and suppression of terrorism and terrorist financing:

(i) UNSCR 1267 (1999) and its successor resolutions (the Al-Qaida/Taliban sanctions regimes);
(ii) UNSCR 1373 (2001) (designated by the country); and
(iii) any future UNSCRs which impose targeted financial sanctions in the terrorist financing context.

15.6. The resolutions require countries to freeze, without delay, the funds or other assets of, and to ensure that no funds or other assets are made available, directly or indirectly, to or for the benefit of, any person or entity designated.

---

1 Terrorist financing is the financing of terrorist acts, and of terrorists and terrorist organisations.

2 Proliferation financing means the act of providing funds or financial services which are used, in whole or in part, for the manufacture, acquisition, possession, development, export, transhipments, brokering, transport, transfer, stockpiling or use of nuclear, chemical or biological weapons and their means of delivery and related materials (including both technologies and dual-use goods used for non-legitimate purposes), in contravention of national laws or, where applicable, international obligations.

15.7. Targeted financial sanctions relating to proliferation financing are applicable to:

(a) persons or entities engaging in or providing support for, including through illicit means, proliferation-sensitive activities and programmes;
(b) persons acting on behalf of, or controlled by, or at the direction of designated persons or entities;
(c) persons or entities assisting designated persons or entities in evading sanctions or violating resolution provisions.

SANCTIONS SCREENING OBLIGATIONS FOR IPEC REGULATED ENTITIES

15.8. All regulated entities have to comply with targeted financial sanctions directed at people or organisations sanctioned for reasons related to terrorism or the financing of proliferation.

15.9. All regulated entities are required to screen names and addresses against the consolidated list of designated persons and entities (including entities owned or controlled by them) published by the UN Security Council or its Committee in ensuring compliance with all elements of targeted financial sanctions.

15.10. Entities should apply targeted financial sanctions to persons/entities acting on behalf of or at the direction of designated persons/entities

15.11. They should also apply other preventative measures to combat increasingly prevalent use of sophisticated sanctions evasion techniques by proliferation networks (*e.g. the use of multiple shell and front companies*) in identifying and detecting the persons, entities, and transactions related to proliferation financing.

When Should Entities Conduct Screening

15.12. Regulated entities are required to review the UN Consolidated List and the Zimbabwe List prior to:

(i) conducting any transaction;
(ii) undertaking any financial service; or
(iii) entering into any relationship with any person or entity to ascertain whether or not the name of such a person or entity is on the Lists.

15.13. In line with Section 10 of SI 110 of 2021 Regulated entities should conduct sanctions screening:

(i) Whenever a new designation is announced by the UNSCR;
(ii) When a new customer is being on boarded;
(iii) When a walk-in customer or a customer who wants to engage in a once off transaction is being attended.

15.14. Where the name of a person or an entity is confirmed to be on the Lists, the regulated entity shall:

a) **freeze, without delay and without prior notice**, the funds or other assets identified as belonging to the person or entity on the Lists, in accordance with subsections 8(1) and 9(1)-(2) of S.I 110 of 2021.

b) ensure that;

(i) the accounts, properties or assets are not operated;

(ii) no financial services are provided to the designated person;

(iii) they forward to the FIU any "Suspicious Transaction Report" as well as reports or information on all actions taken to freeze the funds and other assets, and any attempted transactions, in accordance with subsection 9(4) of the MLPC Act.

(iv) **They file a nil return to the FIU** where no positive matches have been identified.

15.15. **Effective Screening and Monitoring Systems:** Entities must maintain real-time sanctions screening systems in place for all cross-border transactions (both incoming and outgoing), that are capable of identifying a match against any internal and vendor supplied UNSCR lists maintained by the institution. Where an entity uses a screening list provided by a third-party vendor, the vendor's Service Level Agreement with the entity should ensure that the list is updated immediately upon any new designation as required.

15.16. The systems should be capable of screening and monitoring all aspects of customer onboarding as well as payment messages, including all additional information provided by the ordering institution or the customer when conducting wire transfers.

15.17. **Internal Controls:** Entities are required to develop and maintain adequate internal controls (including due diligence procedures and training programs as appropriate) to identify existing accounts, transactions, funds or other assets of designated persons and entities. The controls should guide the entity in fulfilling the obligation of immediately freezing any identified funds or other assets held or controlled by designated persons and entities.

15.18. Entities should implement reasonable procedures to prevent designated persons and entities from conducting transactions with or through them. Institutions should consider the level of risk when obtaining beneficial owners, signatories and powers of attorney information with respect to accounts or transactions when searching for activities by designated persons or entities.

15.19. **Reporting:** Section 12 of SI 110 stipulates that every financial institution and designated non-financial businesses and professions shall report to the FIU any assets frozen or actions taken in compliance with the prohibition requirements of the relevant UNSCRs, including attempted transactions, for review and utilization by the FIU.

15.20. A nil report will also be made to the FIU when no funds or other assets are identified. A nil report must also be submitted when a new listing is made by the UNSCR and no match is found in the designated institution's books.

15.21. Where there is suspicion of TF/PF, a suspicious transaction report (STR) must be filed with the FIU.

15.22. ALL reports to the FIU should be submitted through the GoAML platform.

15.23. **Record Keeping**: Section 24 of the MLPC Act sets out the record-keeping obligations, prescribing what must be covered by such records as well as the minimum length of time for which such records should be kept. The record-keeping obligations are meant to assist the FIU and law enforcement agencies should the need arise to investigate a customer or a transaction.

15.24. **Cooperation:** Regulated entities are required to counter terrorist and proliferation financing through adequate cooperation and coordination between themselves and the FIU in order to ensure there is no sanction evasion.

PENALTIES FOR NON-COMPLIANCE WITH CFT/CPF OBLIGATIONS

Non-compliance by regulated entity with any of the CFT/CFP obligations relating to the implementation of Targeted Financial Sanctions under Statutory Instruments 76 of 2014 and 110 of 2021, attracts either criminal sanctions or civil penalties (or both). Administrative penalties are enforceable by the FIU and competent supervisors under section 5 of the MLPC Act.

16. Conclusion

16.1. The Funeral Assurance Sector players should be always compliant with all applicable laws and regulations particularly the Minimum Capital Requirements and Prescribed Asset ratios.

16.2. In addition, the Sector should also take all compliance issues seriously to avoid regulatory sanctions going forward.

16.3. The Sector is urged to revisit its Business Model so that it deals with the compliance issues and increased competition from the Life Assurance Sector amongst other things and this may also require Funeral Assurers to realign their balance sheets.

16.4. The Commission also urges Sector players to offer relevant products that address the needs of the insuring public.

16.5. Sector players are also urged to have reassurance arrangements in place as a Risk Management Tool to manage loss experiences.

16.6. The Commission reminds all Funeral Assurers that their business requires them to meet the promised benefits which include timely settlement of claims.
