DISCLAIMER

This report, including any enclosures and attachments, has been prepared by the Insurance and Pensions Commission (IPEC), solely for informative purposes to the insurance sector stakeholders. The report may not be reproduced, redistributed, communicated to a third party, or relied upon by any other person for any other purpose without the Commission's prior written consent. The Commission does not accept any liability if this report is used for any other purposes other than the above-mentioned intended purpose.

This report relates to short term insurance business written by short-term insurers, short term reinsurers, brokers, reinsurance brokers and micro-insurers.

Growth referred to in this report is nominal growth unless stated otherwise.

* Income statement figures were adjusted using year-on-year inflation of 280.40% reported for September 2022 reported by the Reserve Bank of Zimbabwe. (www.rbz.co.zw)

**Balance sheet figures were not adjusted due to the unavailability of quarterly inflation figures. Therefore, balance sheet figures are compared on a nominal basis.

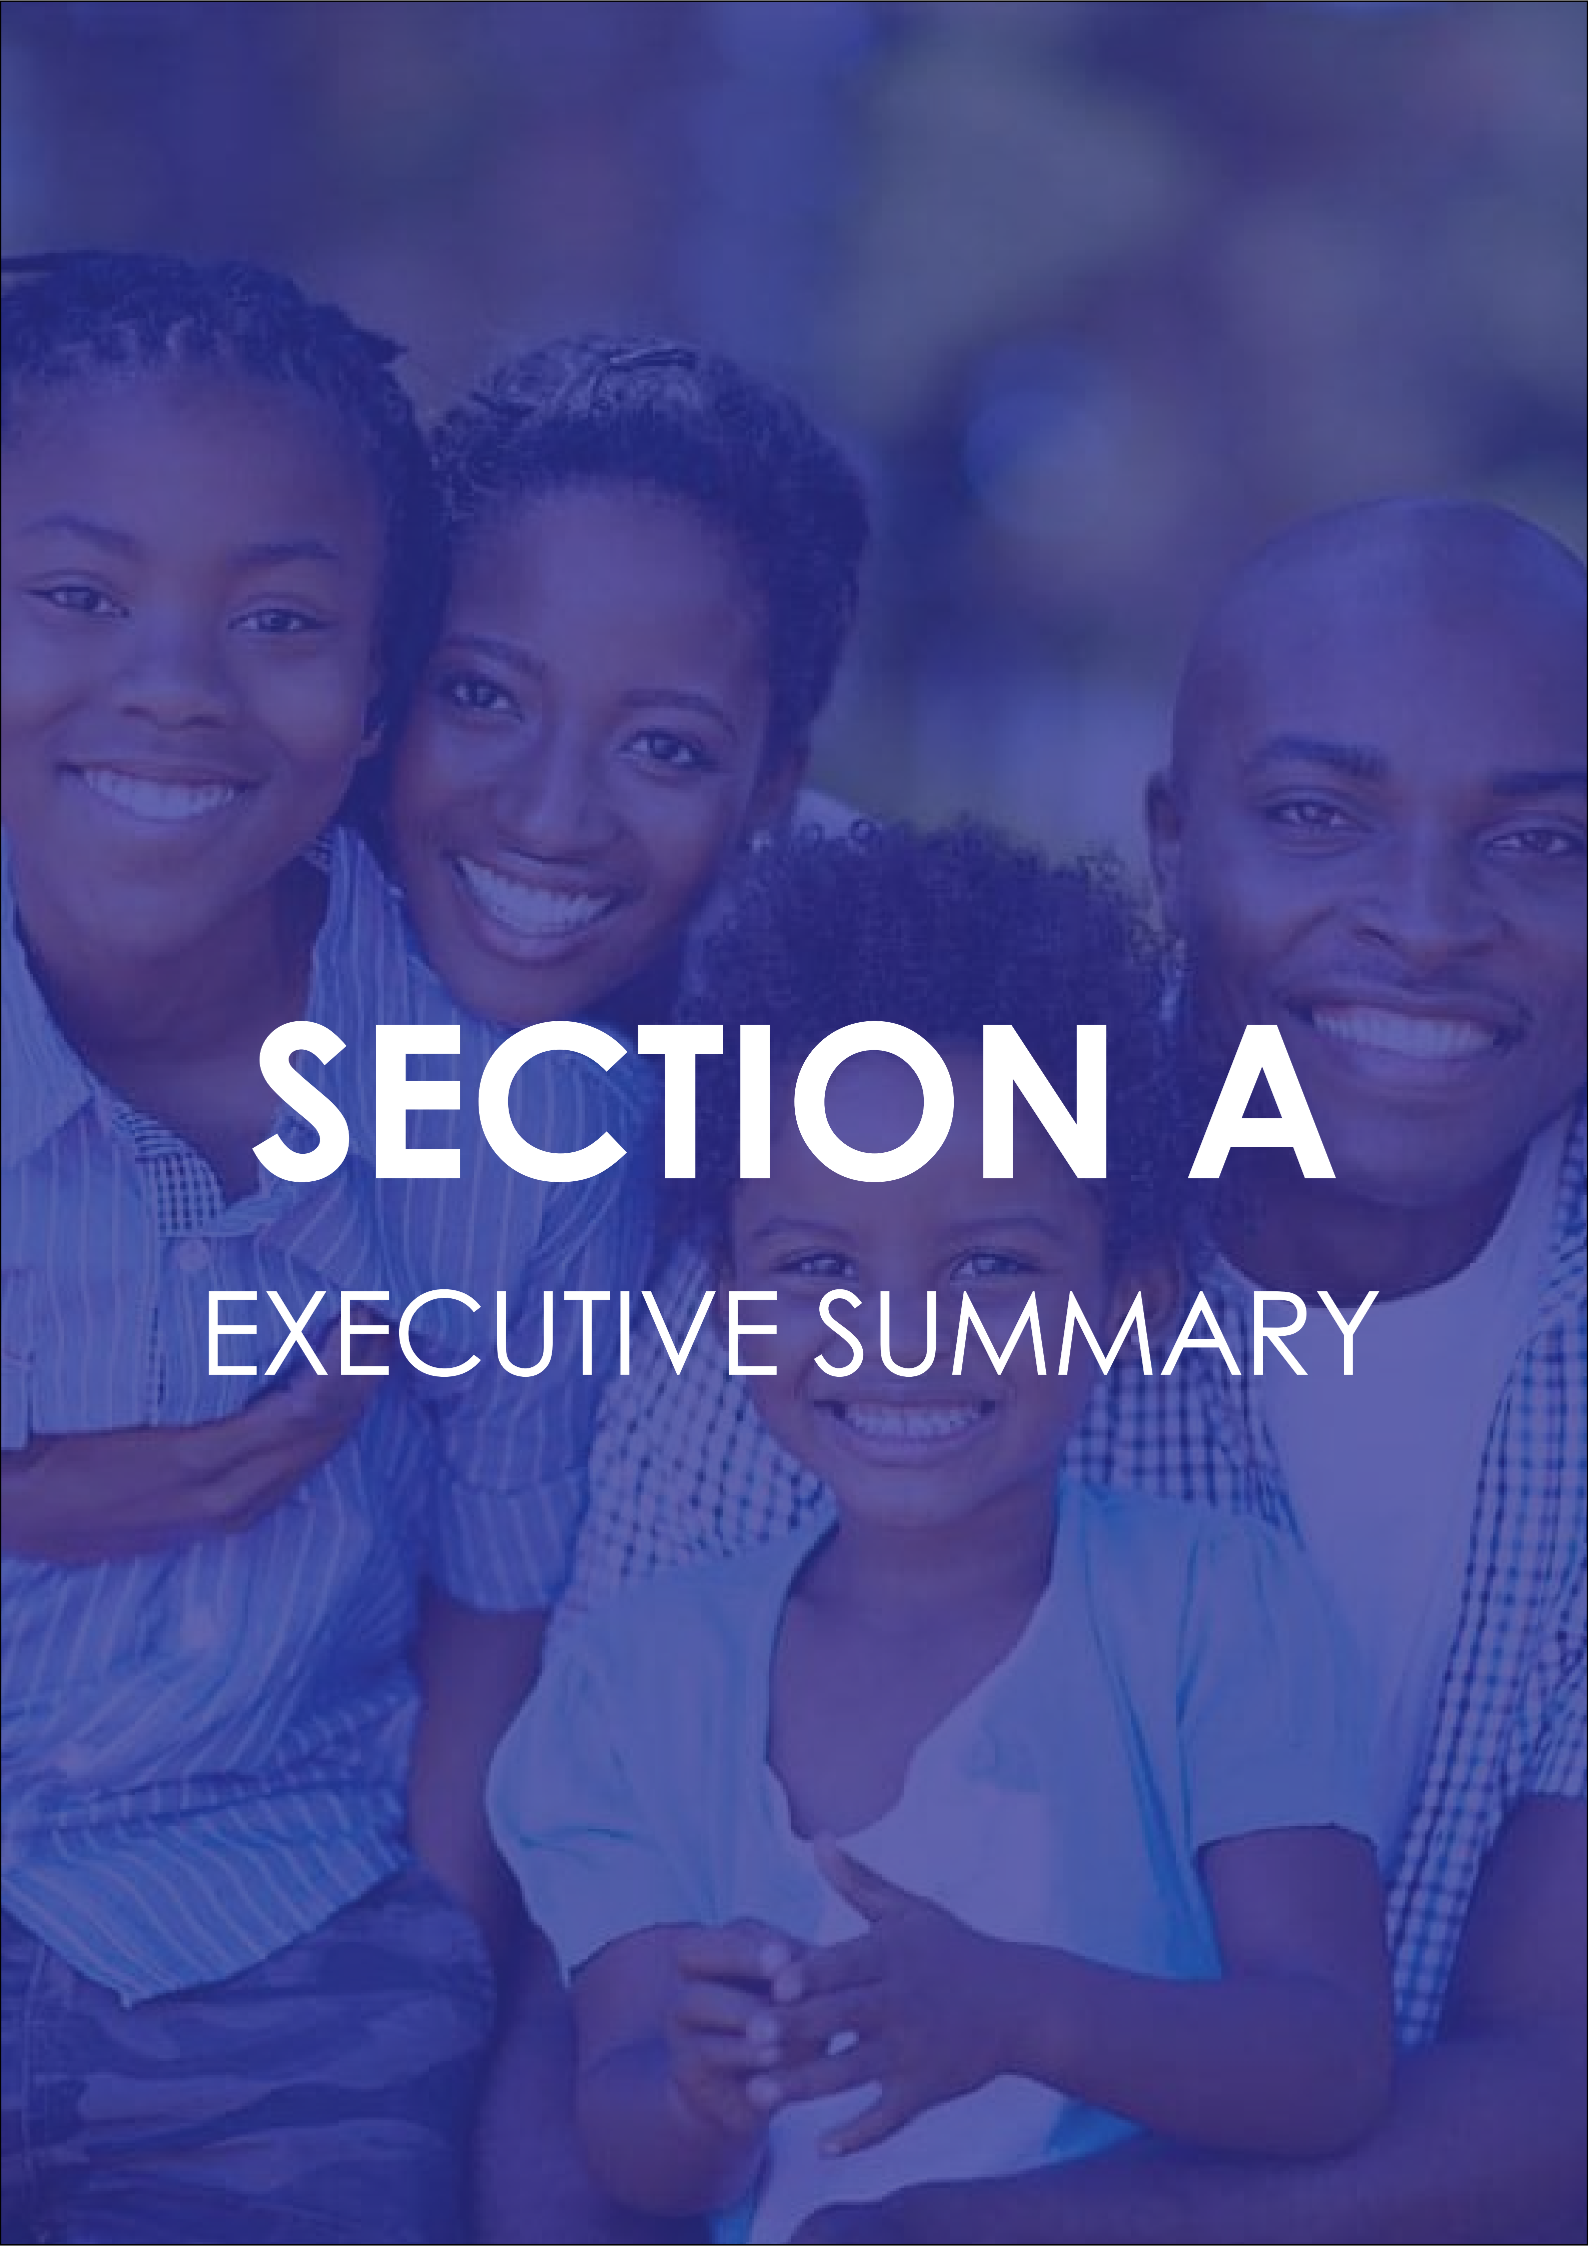
UPR	-	Unearned Premium Reserve



SECTION A

EXECUTIVE SUMMARY

Executive Summary

The report provides an analysis of the performance of the short-term insurance sector, key economic indicators, investment markets and highlights of the Commission's regulatory activities for the nine months ended 30 September 2022.

Total Gross Premium Written (GPW) by short-term insurers increased nominally by 359% from ZW$14.14 billion in September 2021 to ZW$64.89 billion during the comparative period in 2022. Foreign-currency denominated business increased by 26% from US$74.26 million reported for the nine months ended 30 September 2021 to US$93.49 million for the nine months ended 30 September 2022.

The total business written by short-term reinsurers increased by 364% from ZW$8.13 billion for the nine months ended 30 September 2021 to ZW$37.71 billion during the period under review. In terms of foreign-currency denominated business, the reinsurers reported a 38% increase from US$66.89 million reported during the first nine months of 2021 to US$92.34 million during the comparative period in 2022.

Total assets reported by short-term insurers increased from ZW$15.06 billion as at 30 September 2021 to ZW$76.13 billion as at 30 September 2022. Investments in prescribed assets by short-term insurers increased by 650% from ZW$0.22 billion as at 30 September 2021 to ZW$1.65 billion as at 30 September 2022. Only one out of nineteen short-term insurers was compliant with the minimum prescribed asset ratio of 10%. Only one out of nineteen insurers reported capital position below the minimum capital requirement (MCR) of ZW$37.5 million.

Short-term reinsurers had an asset base of ZW$60.48 billion as at 30 September 2022, reflecting a 447% increase from the ZW$11.06 billion reported as at 30 September 2021. Investments in prescribed assets increased from ZW$1.28 billion as at 30 September 2021 to ZW$9.63 billion as at 30 September 2022. However, only three (3) out of the nine (9) reinsurers were compliant with the minimum prescribed asset threshold of 10%. As at 30 September 2022, all the short-term reinsurers were compliant with the minimum capital requirement of ZW$75 million.

The total business written by the micro-insurers increased by 290% from ZW$0.39 billion reported during the first nine months of 2021 to ZW$1.52 billion reported during the same period in 2022.

Direct brokers wrote a total of ZW$38.98 billion in GPW, registering a 422% nominal increase from ZW$7.47 billion recorded during the first nine months of 2021. This represents 60% of the total business written by short-term insurers, which was also a slight increase from the 52% recorded during the first nine months of 2021. Business written by reinsurance brokers increased by 521% from ZW$5.3 billion during the nine months of 2021 to ZW$32.8 billion recorded during the comparative period in 2022.

SECTION B: ECONOMIC OVERVIEW

1. ECONOMIC OVERVIEW

Global and Regional Economic Outlook

Global output growth forecast for 2022 was unchanged at 3.2%, whilst that of 2023 was revised down to 2.7% (IMF, 2022). Economic, geopolitical and ecological changes continue to impact on the global outlook. The souring global inflation excerbated by the war in Ukraine has led to tightening of monetary policies and household budgets.

Advanced economies are expected to grow by 2.4% in 2022, and Emerging Markets by 3.7% (Table 1). Sub-Sharan Africa (SSA) growth is projected at 3.6% in 2022, and to marginally improve to 3.7% in 2023. The World Bank forecasts a slightly lower growth of 3.3% for SSA in 2022 on the back of slowing down of the global economy, tightening global financial conditions, rising food and fuel prices, adverse weather conditions, and rising risk of debt distress.

Table 1: World Economic Outlook Projections

	2021	2022	2023
World Output	6.0	3.2	2.7
Advanced Economies	5.2	2.4	1.1
USA	5.7	1.6	1.0
Euro Area	5.2	3.1	0.5
Emerging Markets and Developing Economies	6.6	3.7	3.7
China	8.1	3.2	4.4
Sub-Saharan Africa	4.7	3.6	3.7
Nigeria	3.6	3.2	3.0
South Africa	4.9	2.1	1.1
Zimbabwe	7.8	4.6	5

Source: October 2022 World Economic Outlook Update, IMF Projections

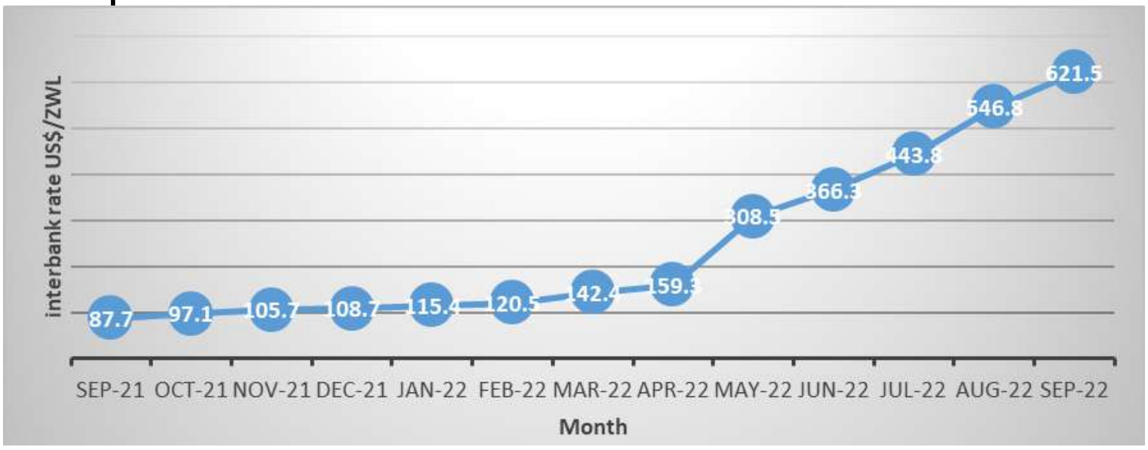
Domestic Economic Outlook

The economy is projected to grow by 4.6% in 2022, a downward revision from an initial 5.5% projection (Ministry of Finance, 2022). The 2022 growth projection is supported by increased activity in all the productive sectors except agriculture that was weighed down by the unfavourable rainfall season and high input costs. In the outlook, the economy is projected to continue on the growth trajectory, with an expected growth of 5% in 2023 underpinned by favourable international commodity prices, stable macroeconomic environment and improved production in all sectors of the economy.

Exchange Rate Developments

The Zimbabwean dollar depreciated against the US dollar from an average of US$1:ZW$366.3 as at 30June 2022 to US$1:ZW$621.5 as at 30 September 2022. High demand for foreign currency as a store of value, as well as forward exchange rate pricing due to high inflation expectations, contributed to the exchange rate depreciation.

Figure 1: Interbank Exchange Rate September 2021 to September 2022 (US$/ZWL) End of period



Inflation Developments

The year on year inflation rate increased to 280.4% in September of 2022, from 191.6% recorded in June 2022, driven by imported inflation and speculative behaviour by economic agents. The month-on-month inflation rate was 3.5% as at 30 September 2022, down from 30.7% recorded as at 30 June 2022 on account of the decrease in food and non-food inflation following the introduction of fiscal and monetary stabilisation measures during the period under review. Figure 2 illustrates the inflation trend from September 2021 to September 2022.

Figure 2: Inflation profile (%) September 2021 to September 2022

Source: Zimbabwe National Statistics Agency

Zimbabwe Stock Exchange Performance

The Zimbabwe Stock Exchange (ZSE) was characterized by bearish sentiments for the third quarter. Consequently, the All Share, Top 10, Top 15 indices and Medium Cap declined by 17.41%, 20.03%, 18.65%, and 12.09% to close the quarter at 13 705.12 points, 8 209.35 points, 9 199.73 points and 29 026.80 points, respectively. Similarly, the resources index shed 22.72% to close at 15 473.37 points. In the short to medium term, the bearish sentiments on the ZSE are expected to continue, on the back of the tight monetary and fiscal policy measures, which have significantly reduced speculative liquidity in the economy.

Figure 3: ZSE All Share and Top Ten Indices

Source: Zimbabwe Stock Exchange

The market capitalization closed at ZW$1,819.16 billion in September 2022. On a year-on-year basis, ZSE capitalization rose by ZW$786.68 billion, or 76.19%.

Victoria Falls Stock Exchange (VFEX) Performance

The VFEX was bullish in the third quarter which resulted in a 24% increase in the VFEW All Share Index to close the quarter at 143.16 points from 115.39 recorded in the second quarter. Total market turnover declined by 81% to reach US$0.595 million as at 30 September 2022, from US$3.19 million in the previous quarter. The market capitalisation increased by 25% from the previous quarter, to end at US$341.67 million.

Money Market Developments

Savings Deposit Rates

The annual inflation rate of 280.4% as at 30 September 2022, exceeds interest rates on savings deposits, which averaged around 20%. This suggests that money market investments continue to yield negative real returns.

SECTION C: ABOUT THE COMMISSION

2. About the Commission

The Insurance and Pensions Commission (IPEC) is a statutory body mandated with regulating, supervising and developing the insurance and pensions industry for the protection of policyholders and pension scheme members in Zimbabwe. This report outlines the short-term insurance sector developments and IPEC's various activities consistent with its statutory mandate during the nine months ended 30 September 2022.

Term of Reference

The activities of the Commission are guided by the following Acts:

- Insurance and Pensions Commission Act [*Chapter 24:21*];
- Pension and Provident Funds Act [*Chapter 24:32*];
- Insurance Act [*Chapter 24:07*];
- Money Laundering and Proceeds of Crime Act [*Chapter 09:24*];
- Finance Act [*Chapter 23:04*];
- Public Entities and Corporate Governance Act [*Chapter 10:31*];
- Public Finance Management Act [*Chapter 22:19*]; and
- Public Procurement and Disposal of Public Assets Act [*Chapter 22:23*]

3. The Architecture of the Short-Term Insurance Industry

There were one thousand and eighty-one (1081) registered entities/persons in the short-term insurance industry as at 30 September 2022. The architecture of the industry is shown in Table 2 below:

Table 2: Architecture of the Short-Term Insurance Industry

Type of institution	Number of registered entities/ Persons as at	
	30- September-2022	30-September-2021
Insurance Companies	20	19
Microinsurance Companies	9	4
Reinsurance Companies	10	8
Insurance Brokers	28	30
Reinsurance Brokers	8	8
Underwriting Management Agencies	4	2
Loss assessors	53	49
Corporate agents	175	160
Sole agents	774	651
Total	**1081**	**931**

*AFC Insurance Company was recently registered and was given exemption for submission of third quarter 2022 returns. Therefore the insurance sector reported figures pertains to 19 insurers.

*Four reinsurers namely Emeritus Reinsurance Company, FBC Reinsurance Company, First Mutual Reinsurance Company and Zep Re are composite reinsurers who also write life business. However, the figures in this report pertain to their short-term business only.

4. Licensing

Registration of new Players

During the third quarter ended 30 September 2022, the Commission registered 15 entities as listed in the table 3 below:

Table 3: Entities registered during the quarter ended 30 September 2022

Name of entity	Class of Business	Date of Registration
Guardian Risk Loss Adjusters	Loss Adjusters	18 July 2022
Leadways Multiple Agent	Multiple Agent	18 July 2022
RapidPay Multiple Agent	Multiple Agent	18 July 2022
Neshgroup Multiple Agent	Multiple Agent	19 July 2022
AFC Insurance	Short-term Insurance Company	1 August 2022
Henfield Multiple Agent	Multiple Agent	1 August 2022
Primax Multiple Agent	Multiple Agent	4 August 2022
Bayce Microinsurance	Microinsurance	25 August 2022
Bluefin Risk Metrics UMA	Underwriting Management Agent (UMA)	1 September 2022
Cornerstone Loss Adjusters	Loss Adjusters	1 September 2022

Macfam Multiple Agent	Multiple Agent	2 September 2022
Snit Multiple Agent	Multiple Agent	29 September 2022
Taftsok Loss Adjusters	Loss Adjusters	29 September 2022
Zero seven zero nine Multiple Agent	Multiple Agent	29 September 2022

SECTION D: INSURANCE COMPANIES

5. Insurance Companies

Performance in terms of business written

Total GPW by short-term insurers increased by 359% in nominal terms from ZW$14.14 billion reported in September 2021 to ZW$64.89 billion during the comparative period in 2022. This growth is mainly attributable to insurance premiums tracking inflation developments. Figure 4 below shows the trend in volume of business generated by short-term insurers from September 2017.

Figure 4: Short-Term Insurers' growth trend in business written (Sept 17 – Sept 22)

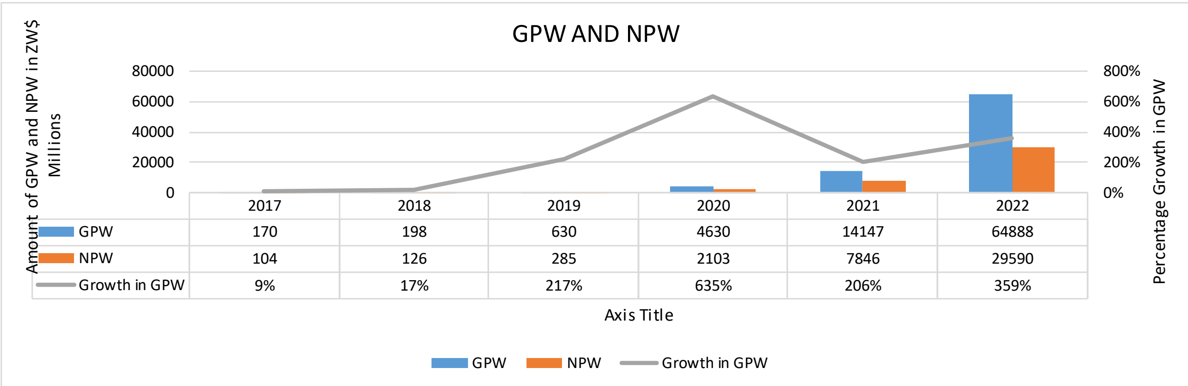

Table 4 below shows the percentage growth in GPW for different business lines:

Table 4: Short-Term Insurers' GPW by Line of Business

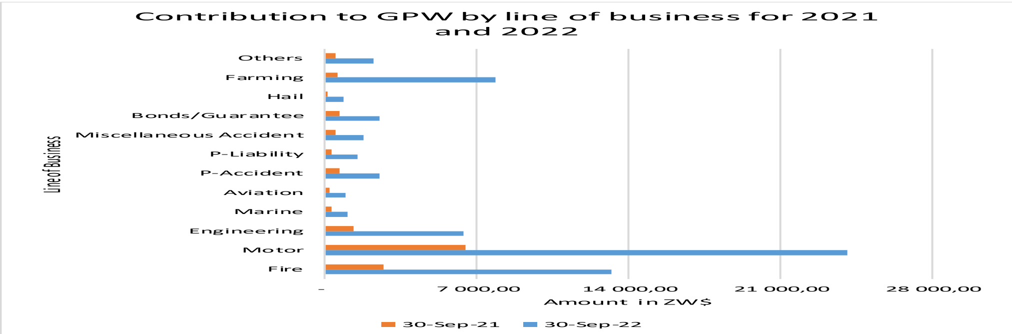
Class of Business	Gross Premium Written (ZW$ Million)			Nominal % change	Inflation adjusted % change
	30-Sept-22 Inflation Adjusted	30-Sept-22 Nominal	30-Sep-21		
Fire	3 464	13 176	2 688	390%	29%
Motor	6 331	24 083	6 493	271%	-2%
Engineering	1 675	6 372	1 305	388%	28%
Marine	268	1 021	280	264%	-4%
Aviation	248	945	175	438%	42%
P-Accident	658	2 504	669	274%	-2%
P-Liability	396	1 508	301	400%	32%
Miscellaneous Accident	470	1 788	443	303%	6%
Bonds/Guarantee	670	2 548	669	281%	0%
Hail	219	832	112	645%	96%
Farming	2 073	7 887	564	1299%	268%
Other	585	2 224	448	396%	30%
Total	**17 058**	**64 888**	**14 149**	**359%**	**21%**

**Other comprises of casualty, directors' liability, health, hire purchase.*

As shown in Table 4 above, the real increase in GPW during the first nine months of 2022 was 21%. In terms of real growth, Motor, Marine and Personal Accident had negative growth rates. Motor insurance business went down by nine (9) percentage points in nominal terms from 46% in 2021 to 37% in 2022. The decline is partly due to statutory rating limits on RTA which dominates motor insurance business. Farming insurance constituted 12% of the short-term industry gross premiums for the nine months ending 30 September 2022 up from 4% recorded during the comparative period in 2021. The increase in the contribution of farming insurance business to the total business written by the industry is testimony to the Government efforts towards financial inclusion especially agriculture given its strategic position in the Zimbabwean economy.

Figure 5 below shows the breakdown of GPW by line of business.

Figure 5: Comparative Analysis of contribution to GPW by line of business for the first nine months of 2021 and 2022



Others comprise of casualty, directors' liability, health, hire purchase

Motor and fire insurance maintained their dominance as the major sources of business contributing 57% of the GPW during the first nine months of 2022 although this is a decline from 65% for the comparative period in 2021. The continued dominance of motor insurance as a mandatory class of insurance business in the short-term insurance industry space calls for concerted efforts by both Government and industry players to demystify insurance as an input as opposed to an expense to business operations including consumer education to increase the insurance penetration to achieve Vision 2030 and Agenda 2063.

Foreign Currency Denominated Business

Gross Premium Written in foreign currency during the nine months ended 30 September 2022 was US$93.49 million representing a 26% increase from the US$74.26 million reported during the comparative period in 2021. Figure 6 below shows the trend in volume of foreign currency denominated business generated by short-term insurers from September 2020.

Figure 6: Short-Term Insurers' growth trend in business written (Sept 2020 – Sept 2022)

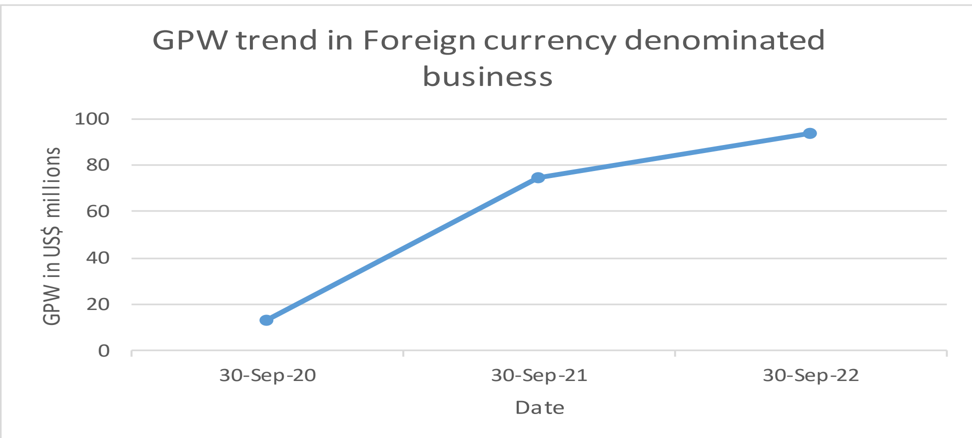


Table 5 below shows the breakdown of foreign currency denominated business by line of business for September 2021 and September 2022.

Table 5: Short-term insurers' USD GPW by line of business

Line of Business	USD '000 000' GPW		
	30-Sep-22	30-Sep-21	% Change
Motor	30,28	19,04	59%
Fire	17,21	10,5	64%
Asset all risk	16,15	15,82	2%
P/Accident	4,17	3,92	6%
Misc acc	4,03	2,72	48%
P/Liability	3,37	1,51	123%
Engineering	3,17	1,92	65%
Bonds	3,10	2,86	8%
Marine	3,07	2,62	17%
Aviation	2,44	2,03	20%
Farming	1,72	3,48	-51%
Hail	1,63	1,21	35%
Other	3,15	6,62	-52%
Total	**93,49**	**74,25**	**26%**

**Others include Bankers Blanket Policy, Contractors All Risk and Health*

Figure 7: Short-term insurers' USD GPW by line of business

	Motor	Fire	Asset all risk	P/Accident	Misc acc	P/Liability	Engineering	Bonds	Marine	Aviation	Farming	Hail	Other
30-Sep-22	30,28	17,21	16,15	4,17	4,03	3,37	3,17	3,10	3,07	2,44	1,72	1,63	3,15
30-Sep-21	19,04	10,50	15,82	3,92	2,72	1,51	1,92	2,86	2,62	2,03	3,48	1,21	6,62

**Other include Bankers Blanket Policy, Contractors All Risk and Health*

As shown in figure 7 above and in line with trends in the Zimbabwe dollar denominated business, the major sources of foreign currency denominated business for short-term insurers were motor and fire, contributing a combined 51% of GPW during the nine months ended 30 September 2022.

Capitalisation

Only one (1) out of nineteen (19) insurers reported a capital position below the minimum capital requirement of ZW$37.5 million as at 30 September 2022. The unaudited reported capital positions did not take account of the dictates of Statutory Instrument 95 of 2017 in terms of inadmissible assets. The reported capital positions are shown in Table 6.

Table 6: Reported Capital Positions for Short-Term Insurers

Name of Company	Reported capital positions in ZW$ millions	
	30-Sep-22	30-Sep-21
Alliance	2 320,17	616,22

Zimnat Lion	3 612,50	491,35
Total	**28 039,75**	**7 098,54**

* *Empaya was not yet registered in September 2021.*

**AFC was recently registered and was exempted from submitting third quarter 2022 returns.*

Key

(green)	Above minimum capital requirement of ZW$37.5 million
(red)	Below minimum capital requirement of ZW$37.5 million

Insurers are being urged to adequately prepare for the risk-based capital regime, which will be implemented under the auspices of the Zimbabwe Integrating Capital & Risk Programme (ZICARP) in January 2023. Gazetting of the USD indexed minimum capital requirements is expected before the end of 2022 at which point, they become effective.

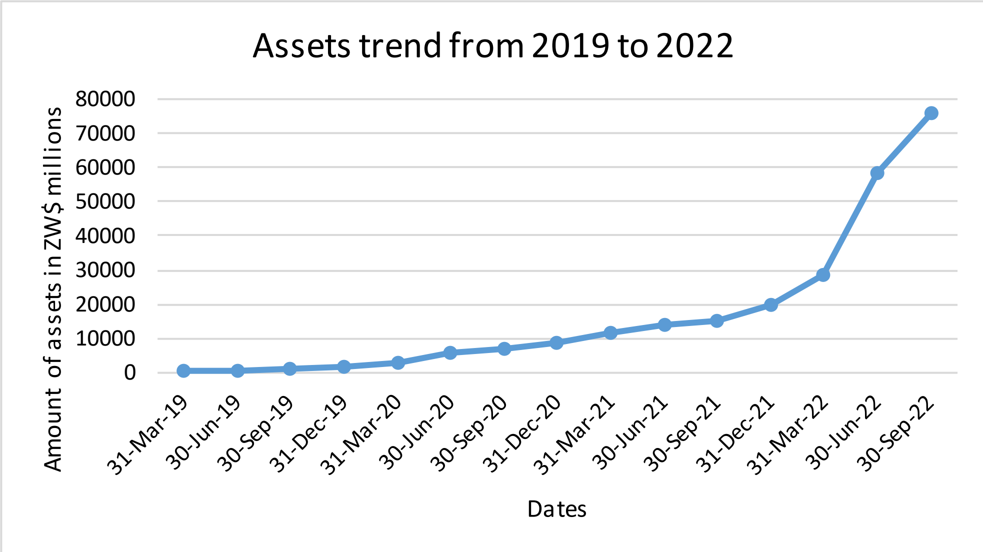
Sixteen out of the nineteen short term insurers were compliant with the minimum solvency margin of 25% as stipulated in Section 24(1a) (ii) of the Insurance Act [*Chapter 24:07*] as shown in Appendix 1C.

Asset quality

Total assets for short-term insurers increased by 406% from ZW$15.06 billion reported as at 30 September 2021 to ZW$76.13 billion reported as at 30 September 2022. The increase in assets is mainly attributable to an increase in premium debtors that accounted for 28% of total assets. Premium debtors increased by 487% from ZW$3.58 billion reported as at 30 September 2021 to ZW$21.03 billion as at 30 September 2022 in nominal terms. The continued undesirable increase in premium debtors is a sign of weak credit risk management by insurers. While the increase in premium debtors has remained a cause for concern, industry players are encouraged to operationalise the No Premium No Cover self-regulation as a stop-gap measure as the Commission continues to engage relevant authorities for the approval and gazetting of the No Premium No Cover Policy Statutory Instrument to address the challenge of premium debtors.

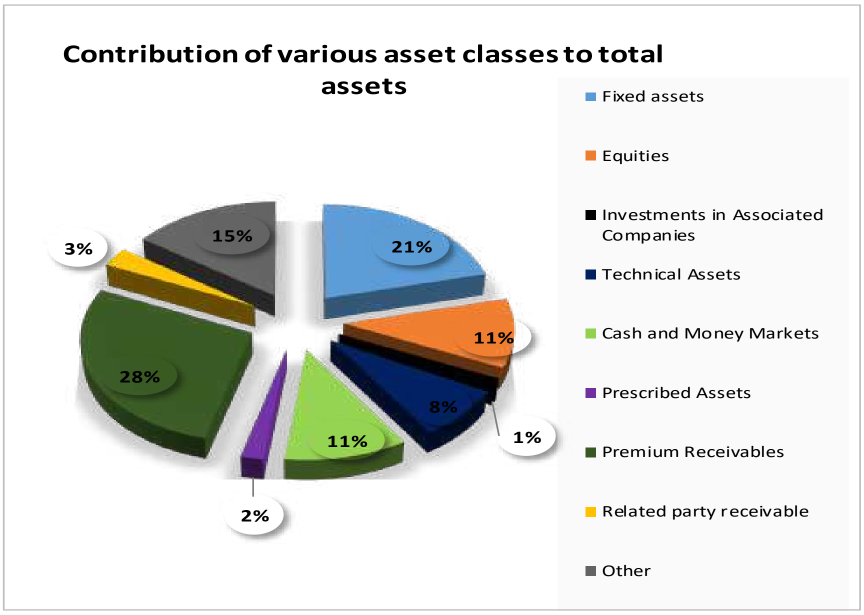
Figure 8 below shows the trend in industry assets from 31 March 2019 to 30 September 2022.

Figure 8: Trend in Total Assets



Investments in prescribed assets increased by 650% from ZW$0.22 billion as at 30 September 2021 to ZW$1.65 billion as at 30 September 2022. Despite the increase in prescribed asset investments, only one of the nineteen short-term insurers was compliant with the minimum prescribed asset ratio of 10%.
Compliance with prescribed asset requirements remains significantly very low. To ensure compliance with prescribed asset requirements, the Commission will be escalating regulatory measures in line with Statutory Instrument 206 of 2019.
The breakdown of total assets by asset class as at 30 September 2022 is shown in Figure 9 below:

Figure 9: The breakdown of total assets by class



Fixed assets and premium receivables were the two major asset classes accounting for 49% of total assets. Fixed assets alone constituted 21% against a limit of 10% while premium debtors and other assets contributed 28% and 15% respectively against limits of 5% in violation of Circular 2 of 2013 on investment limits.

Short-term insurance players are encouraged to structure their investment portfolios in ways that enable not only preservation of policyholder value but also promote balanced investment mix in line with the Commission's investment limits and asset/liability profiles.

Reinsurance

The industry's average retention ratio decreased from 55% for the nine months ended 30 September 2021 to 46% for the nine months ended 30 September 2022. This shows a decrease in the average risk appetite by the direct short-term insurers. Retention ratios for individual insurers during the period under review ranged from 11% to 100 %.

Technical Position

Technical liabilities for the short-term insurers increased by 410% from ZW$3.4 billion as at 30 September 2021 to ZW$17.33 billion as at 30 September 2022. The average liquid assets to technical reserves for the period under review decreased from 105% in September 2021 to 78% during the comparative period in 2022. The decrease in the average liquid assets to technical reserves indicates a decline in cautiousness by industry players, as less liquid assets were set aside for unexpected claims.

The technical assets for the short-term insurance sector increased by 833% from ZW$0.63 billion as at 30 September 2021 to ZW$5.88 billion as at 30 September 2022. Technical assets were ZW$11.45 billion lower than the technical liabilities. Third Party Insurance is the major source of business for short-term which is not reinsured thus reducing the assets which may be recovered from the reinsurers. Also, the highest proportion of the insurer's technical assets is the UPR which is not recoverable from the reinsurers. The industry is encouraged to improve on claims settlement pattern to reduce outstanding liabilities.

Earnings

Short-term insurers reported a total profit after tax of ZW$13.64 billion for the nine months ending 30 September 2022, indicating a nominal increase of 473% from the ZW$2.38 billion reported during the comparative period in 2021.

The combined ratio for short-term insurers deteriorated from 99% during the nine months ending 30 September 2021 to 102% during the same period in 2022. This translated in an underwriting loss of ZW$3.86 billion compared to an underwriting loss of ZW$0.12 billion during the comparative period in 2021. The increase in combined ratio to levels above 100% is undesirable as it indicates underwriting losses by insurers. Eleven (11) out of nineteen (19) short-term insurers reported underwriting losses during the reporting period in 2022.

The average net commission ratio was 10% during the period under review compared to 11% during the comparative period in 2021. The decrease shows that the industry reduced the commissions paid to intermediaries as compared to the previous reporting period. The decrease in the average commission rate is in line with the Commission's corrective measures following the Thematic Offsite Inspection on commissions. The highest net commission paid by a short-term insurer during the period under review was 39% of earned premiums compared to 58% during the same period in 2021. Insurers are reminded to observe the dictates of Circular 2 of 2009 with regards to commissions. (For more performance indicators, please refer to Appendix 1C).

The industry's average return on assets (ROA) and return on equity (ROE) were 36% and 97% respectively for the period under review, compared to 31% and 66% respectively for the first nine months of 2021. The increase in ROA shows that the short-term insurance sector is fairly utilising its investment assets to increase profitability. (For more performance indicators on profitability refer to Appendix 1C under earnings).

The average operating ratio was 56%. A ratio of more than 100% indicates reduced profitability from underwriting and investment. Only two entities had a ratio above 100%. The industry is encouraged to invest in assets that preserve value whilst earning high returns and improve the underwriting process. (For more performance indicators on profitability refer to Appendix 1C under earnings).

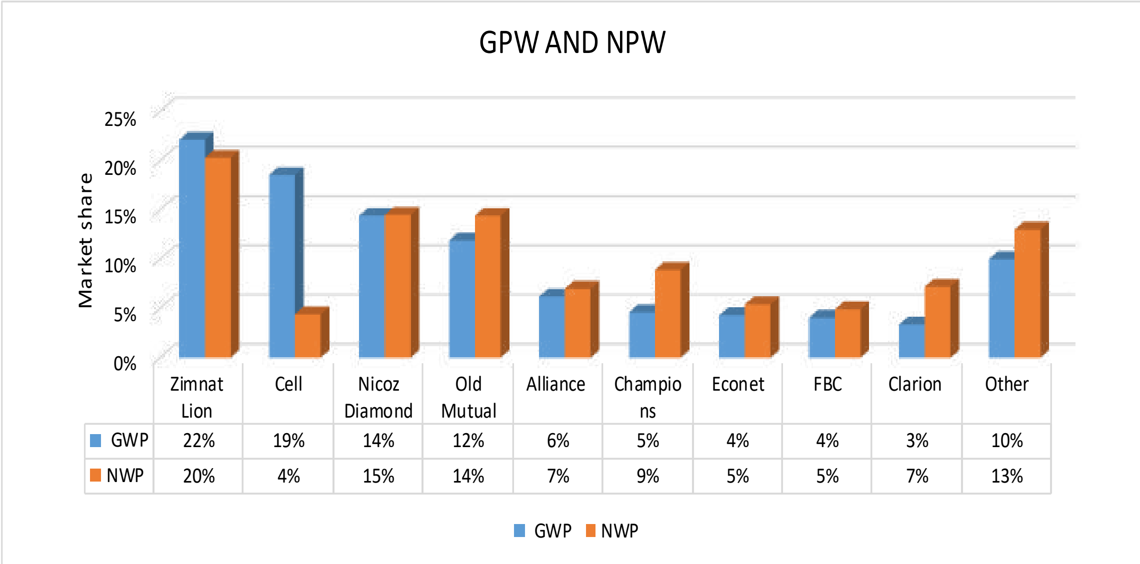
Liquidity

Liquid assets in the form of cash and money market instruments increased by 337% from ZW$2 billion as at 30 September 2021 to ZW$8.74 billion as at 30 September 2022. Nine (9) out of the nineteen short-term insurers reported negative working capital ratios while the industry's acid test ratio averaged 24% as at 30 September 2022. The low ratio is a cause for concern as short-term insurers face a high liquidity risk leading to low capacity to meet short-term financial obligations. The acid test ratio for insurers as at 30 September 2022 ranged from 3% to 318% as shown in Appendix 1C.

Market share

The market leaders in terms of GPW were Zimnat Lion Insurance Company, Cell Insurance Company, Nicoz Diamond Insurance Company and Old Mutual with a combined market share of 65% for the nine months ended 30 September 2022. Figure 10 below shows market share in terms of GPW and NPW:

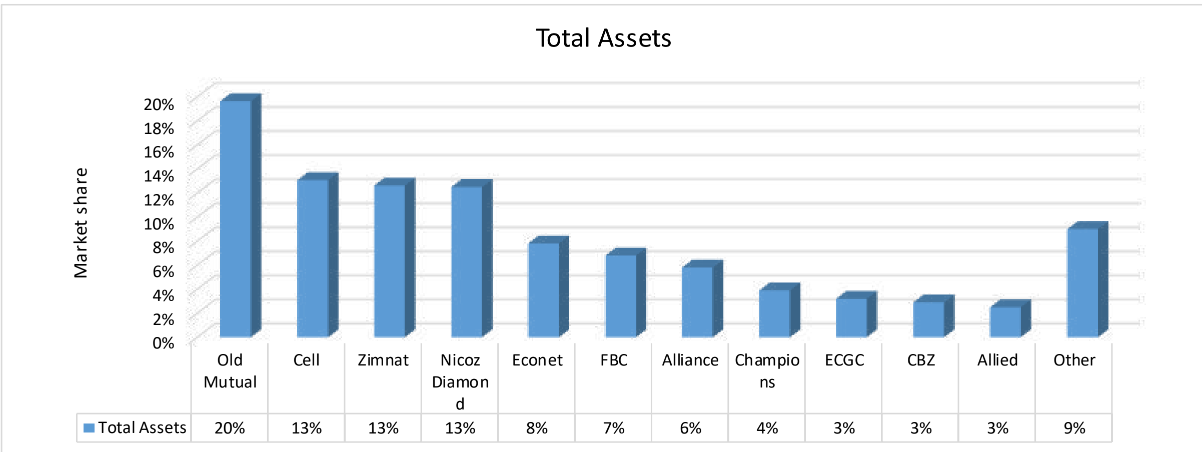
Figure 10: Market Share for Short Term Insurers in Terms of GPW



**Other includes Allied, Empaya, CBZ, Credit Insurance, ECGC, Evolution, Hamilton, Quality, Safel and Sanctuary*

In terms of total assets, the market leader was Old Mutual Insurance with a market share of 20% as shown in figure 11 below.

Figure 11: Market Share for Short Term Insurers in Terms of Assets

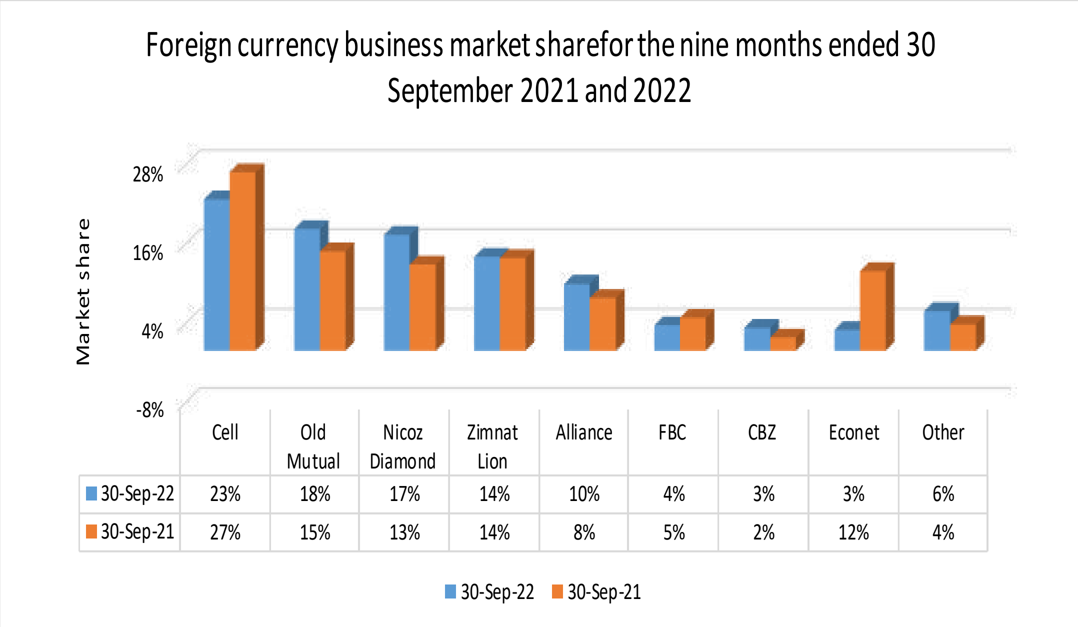


**Other includes Empaya, Clarion, Credsure, Evolution, Hamilton, Quality, Safel and Sanctuary.*

Market share in terms of foreign currency denominated business

During the nine months ended 30 September 2022, Cell Insurance Company, Old Mutual Insurance, Nicoz Diamond Insurance Company and Zimnat Lion dominated the market with a combined market share of 72% in terms of foreign currency denominated GPW. The market share in terms of foreign currency denominated business is shown in Figure 12 below.

Figure 12: Market Share of USD Business for Short-Term Insurers for the nine months ended 30 September 2022



**Other includes Allied, Champions, Clarion, Credsure, ECGC, Empaya, Evolution, Hamilton, Quality, Safel and Sanctuary.*

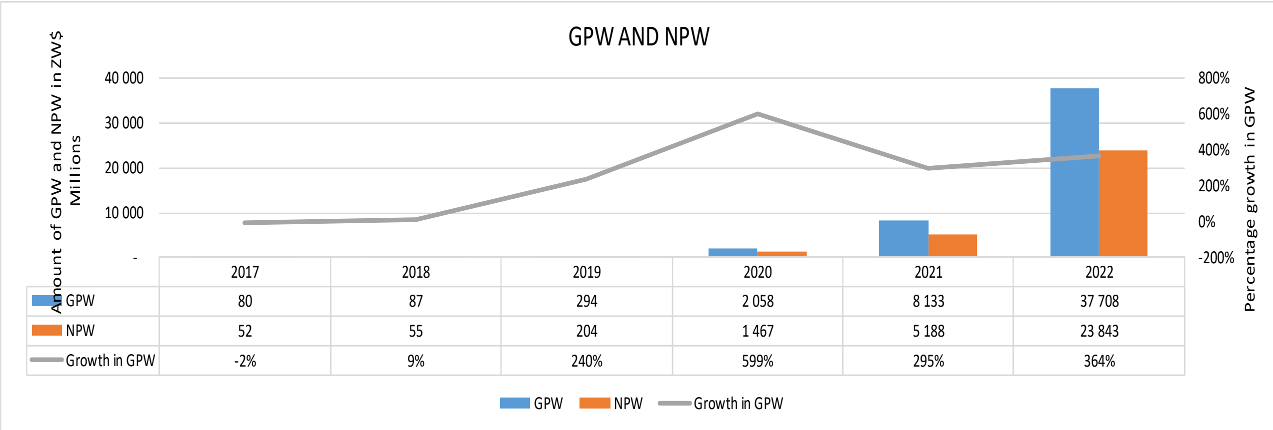
SECTION E: REINSURANCE COMPANIES

6. Reinsurance Companies

Performance in terms of business written

The total business written by short-term reinsurers increased by 364% in nominal terms from ZW$8.13 billion for the nine months ended 30 September 2021 to ZW$37.71 billion for the comparative period in 2022. The growth in GPW for short term reinsurers is in line with the growth by cedants of 359%. Figure 13 below shows the trend in volume of business written by short-term reinsurers from 2017 to 2022:

Figure 13: Short-term reinsurers' trend in business written from 2017 to 2022



The significant increase in business written by reinsurers between 2019 and 2022 can be attributed to premium reviews in line with inflation developments and exchange rate volatility. Table 7 below shows the percentage growth in terms of GPW for different lines of business.

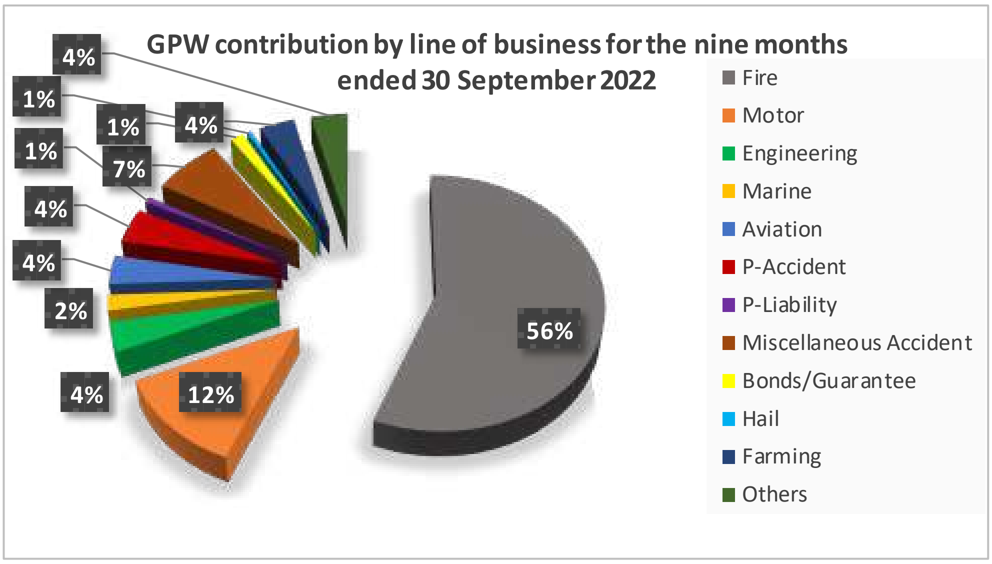
Table 7: GPW by line of business for the nine months ended 30 September 2022 and 30 September 2021

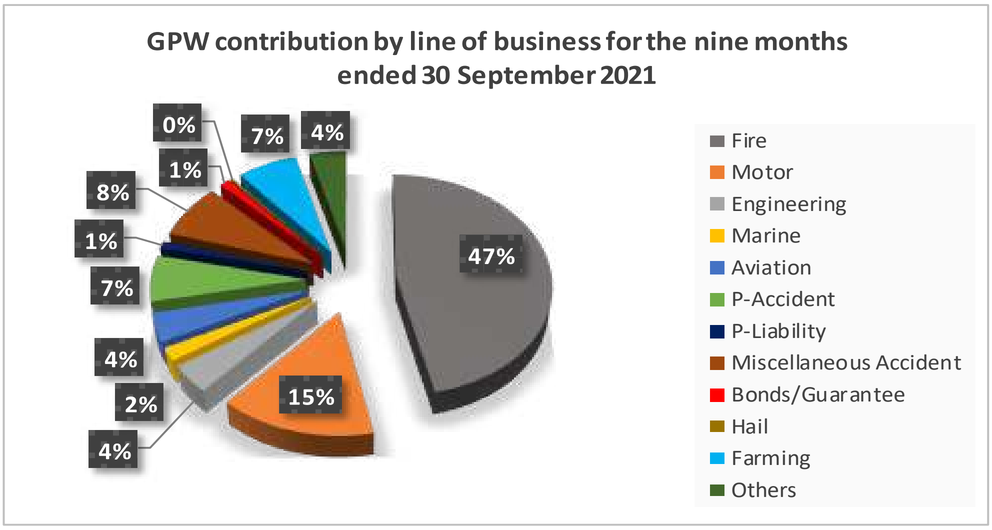
Class of Business	Gross Premium Written (ZW$ Million)			Nominal % change	Inflation adjusted % change
	30-Sept-22 Inflation Adjusted	30-Sept-22 Nominal	30-Sep-21		
Fire	5 567	21 178	3 798	458%	47%
Motor	1 230	4 679	1 208	287%	2%
Engineering	372	1 415	338	318%	10%
Marine	197	750	156	381%	26%
Aviation	362	1 376	339	306%	7%
P-Accident	435	1 655	551	201%	-21%
P-Liability	76	288	86	236%	-12%
Miscellaneous Accident	732	2 783	650	328%	13%
Bonds/Guarantee	146	554	93	494%	56%
Hail	47	177	22	688%	107%

**Other comprises of hire purchase, health and casualty.*

As shown in Table 7 above, GPW for the nine months ended 30 September 2022 increased by 22% in real terms from ZW$8 billion in September 2021 to ZW$9.9 billion. Three (3) lines of business namely Personal Accident, Public Liability and Farming experienced decreases in real terms. Figure 14 below shows the contribution to GPW by line of business for short-term reinsurers.

Figure 14: The contribution to GPW by line of business for short-term reinsurers





In line with developments in the short-term direct business, fire and motor lines of business were the major sources of business for the nine months ended 30 September 2021 and 30 September 2022. The two lines of business contributed 68% of the total GPW up from 62% during the same period in 2021. While fire insurance was the major source of business for reinsurers, motor insurance was the major source of business for direct underwriters indicating that direct underwriters retained the major portion of motor insurance risk confirming that third party motor insurance has remained the major source of business in the local market.

Foreign currency denominated business

The total foreign currency denominated business written by short-term reinsurers increased by 38% from US$66.89 million reported during 2021 to US$92.34 million during the comparative period in 2022. Table 8 shows the GPW by line of business for the nine months ended 30 September 2022:

Table 8: GPW by line of business for the nine months ended 30 September 2022

Line of Business	GPW in US$	Market share
Fire	52 691 157,94	57%
Motor	8 888 743,98	10%
Engineering	2 721 487,66	3%
Marine	1 724 569,63	2%
Aviation	3 563 063,15	4%
P/Accident	5 215 094,50	6%
P/Liability	304 963,11	0%
Miscellenous Accident	6 893 239,91	7%
Bonds/Guarantee	1 177 910,46	1%
H/Purchase	143 768,38	0%
Hail	340 913,78	0%
Health	473 305,22	1%
Farming	5 141 940,63	6%
Casualty	2 067 375,83	2%
Directors Liability	13 946,27	0%
Other	975 274,46	1%
Total	92 336 754,91	100%

* *Other include credit insurance, medical excess loss and hospital cash plan*

In line with developments in the short-term direct business, fire and motor lines of business were the major sources of foreign currency denominated business for the nine months ended 30 September 2022 contributing 67% of the total foreign currency GPW. While fire insurance was the major source of foreign currency denominated business for reinsurers, motor insurance was the major source of business for direct underwriters buttressing the fact that insurers retained more of motor business.

Capitalisation

As at 30 September 2022, all the registered short-term reinsurers reported capital positions compliant with the minimum capital requirement of ZW$75 million. Reported capital positions did not take into account Statutory Instrument 95 of 2017 on admissible and inadmissible assets. The reported capital positions for short-term reinsurers as at 30 September 2021 and 30 September 2022 are shown in Table 9 below.

Table 9: Reported capital position for short term reinsurers

	Reported capital positions (ZW$ Millions)	
Name of Reinsurance Company	30-Sep-22	30-Sep-21
Emeritus Re	2 849,50	814,76
FBC Re	2 750,14	776
FM RE	1 219,74	614,97
Grand Re	1 877,75	330,64
Tropical Re	1 527,25	432,26
Waica Re	4 570,00	808,46
ZB Re	4 812,34	761,83
Muca Re	1 002,62	N/A
Zep - Re	8 622,48	801,17
Total	**29 231,82**	**5 340,09**

* *Muca Re was not part of the registered entities in September 2021.*

Key

Green	Above minimum capital requirement of ZW$75 million
Red	Below minimum capital requirement of ZW$75 million

Reinsurers are being urged to adequately prepare for the risk-based capital regime, which will be implemented under the auspices of the Zimbabwe Integrating Capital & Risk Programme (ZICARP) in January 2023. Gazetting of the USD indexed minimum capital requirements is expected before the end of 2022 at which point, they become effective.

All the reinsurers were compliant with the minimum solvency margin of 25% as stipulated in Section 24(1a) (ii) of the Insurance Act [*Chapter 24:07*]. The solvency margin for individual reinsurers as at 30 September 2022 ranged from 62% to 493% as shown in Appendix 2C.

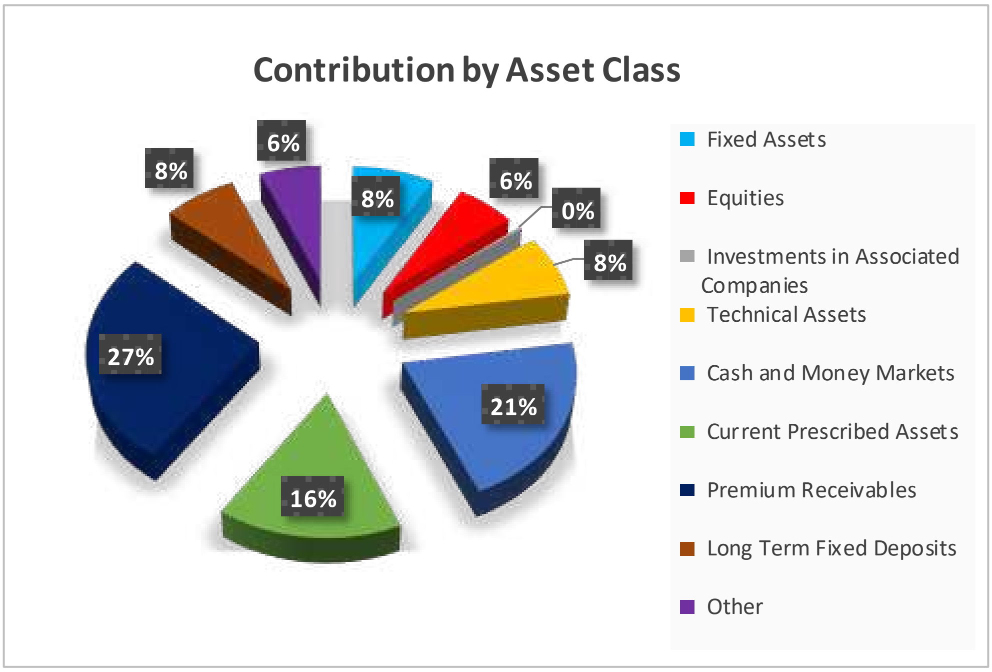
Asset quality

The asset base for short-term reinsurers increased by 447% from ZW$11.06 billion reported as at 30 September 2021 to ZW$60.48 billion as at 30 September 2022. Investments in prescribed assets increased from ZW$1.28 billion as at 30 September 2021 to ZW$9.63 billion as at 30 September 2022. However, only three (3) out of the nine (9) reinsurers were compliant with the minimum prescribed asset threshold of 10%.

Premium receivables increased from ZW$2.09 billion as at 30 September 2021 to ZW$16.17 billion as at 30 September 2022, indicating an increase of 674%. The increase in premium receivables remains a cause for concern as it indicates ineffectiveness of credit control systems to manage credit risk by players.

The contribution of various asset classes to total assets as at 30 September 2022 is shown in Figure 15 below:

Figure 15: Short-Term Reinsurers' Total Assets: Contribution by Asset Class



**Other includes mortgages and loans, long term fixed deposits and intangible assets*

Premium receivables and cash and money market instruments were the major asset classes contributing 27% and 24% of total assets respectively.

Technical Position

Total technical liabilities increased from ZW$3.58 billion as at 30 September 2021 to ZW$17 billion as at 30 September 2022 indicating an increase of 375%. Unearned Premium Reserves, which amounted to ZW$10.15 billion accounted for 60% of the total technical liabilities.
The technical assets increased from ZW$0.76 billion as at as at 30 September 2021 to ZW$4.73 billion as at 30 September 2022 indicating an increase of 522%. Technical assets are ZW$12.27 billion lower than the technical liabilities. The highest proportion of the reinsurers' technical assets is the UPR which is not recoverable from the retrocessionaires. The industry is encouraged to improve on claims settlement pattern to reduce outstanding liabilities.

Retrocession

Reinsurers' average retention ratio was 63% for the nine months ended 30 September 2022 compared to 64% during the comparative period in 2021. This reflects a slight decrease in risk appetite by the short-term reinsurance companies. Reinsurers' reported retention ratios ranging from 29% to 92% for the period under review. (See Appendix 2C for more ratios).

Earnings

Total profit after tax for short-term reinsurers increased by 562% from ZW$1.59 billion for the period ended 30 September 2021 to ZW$10.53 billion for the period ended 30 September 2022.

The average net commission ratio was 30% for the period under review compared to 29% for the first nine months of 2021. This shows that the average commission paid by short-term reinsurers slightly increased when compared to the same period in 2021. The highest net commission ratio paid by a short-term reinsurer during the period under review was 35% of earned premiums, in violation of the limits prescribed by Circular 2 of 2009.

The average combined ratio for the short-term reinsurers deteriorated from 72% for the nine months ended 30 September 2021 to 94% for the period under review. The increase indicates a decline in underwriting profit. The combined ratio and other ratios that relate to profitability for short-term reinsurers is shown in Appendix 2C under earnings.

The industry's average return on assets (ROA) and return on equity (ROE) were 35% and 72% for the period under review, compared to 28% and 59% respectively for the first nine months of 2021. The increase in ROA shows that the short-term insurance sector is fairly utilising investment assets to increase profitability. (For more performance indicators on profitability refer to Appendix 2C under earnings).

The average operating ratio was 33%. A ratio of more than 100% indicates that a company is not able to make a profit from its underwriting and investment operations. Only a single entity had a ratio above 100%. The industry is encouraged to invest in assets that preserve value whilst earning high returns and improve the underwriting process. (For more performance indicators on profitability refer to Appendix 2C under earnings).

Liquidity

Liquid assets in the form of cash and money market instruments held by short-term reinsurers increased by 289% from ZW$3.44 billion as at 30 September 2021 to ZW$14.76 billion as at 30 September 2022. One (1) out of the nine (9) short-term reinsurers had negative working capital ratio and is encouraged to invest in liquid assets to ensure the timely settlement of claims. The acid test ratio averaged 75% as at 30 September 2022 indicating a 12 percentage point increase from 63% reported during the comparative period in 2021. The increase in average acid test ratio indicates a decrease in liquidity risk for short term reinsures. The acid test ratios for short-term reinsurers are shown in Appendix 2C under liquidity.

Market share for reinsurers

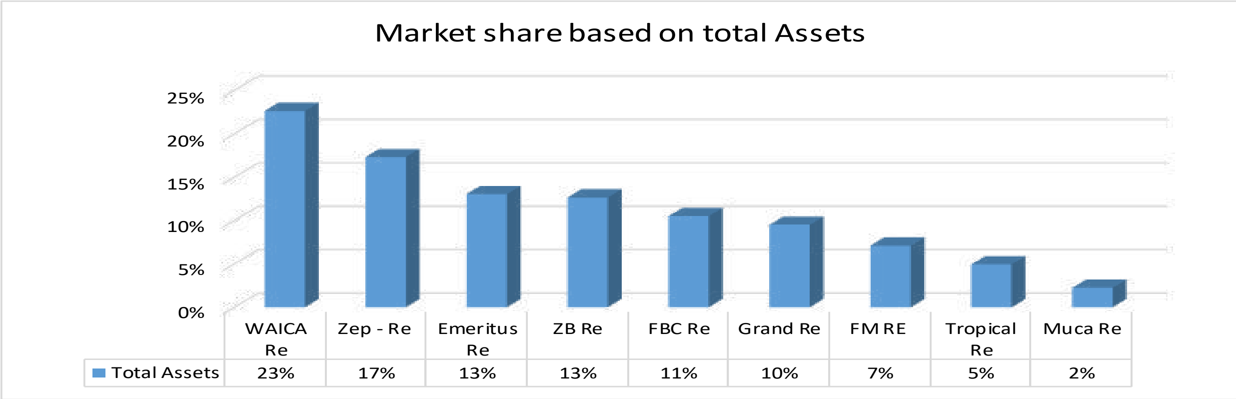
As shown in Figure 16 below, the market leaders by GPW were Grand Re, ZB Re and WAICA Re. These reinsurers controlled 50% of the market share in terms of Gross Premium Written (GPW) for the nine months ended 30 September 2022. The market leaders in terms of the Net Premium Written (NPW) were WAICA Re, ZB Re and Emeritus Re collectively controlling 52% of the market for the first nine months of 2022.

Figure 16: Market Share for Short -Term Reinsurers in Terms of GPW and NPW

	Grand Re	ZB Re	WAICA Re	Zep - Re	Emeritus Re	Tropical Re	FBC Re	FM RE	Muca Re
GPW	17%	17%	16%	12%	11%	10%	8%	7%	2%
NPW	10%	19%	20%	9%	13%	10%	11%	6%	1%

In terms of total assets WAICA Re, Zep Re, Emeritus Re and ZB Re were the market leaders for the nine months ended 30 September 2022, with a combined market share of 66% as depicted in Figure 17.

Figure 17: Market Share for Short -Term Reinsurers in Terms of Assets



Foreign currency denominated business

In terms of foreign currency denominated GPW, WAICA Re, Zep Re and Grand Re were the market leaders. These reinsurers controlled 55% of the market during the first nine months of 2022 as shown in Table 10 below.

Table 10: Foreign currency denominated GPW by company for the nine months ended 30 September 2022

Reinsurer	GPW (US$)	Market share
Emeritus Re	9 315 551,30	10%
Grand Re	13 830 425,52	15%

SECTION F: MICROINSURANCE COMPANIES

7. Microinsurance Companies

Introduction

There were nine (9) registered micro-insurers as at 30 September 2022.

These were:

Coverlink Micro-insurance,

Golden Knot Micro-insurance,

EBA Micro-insurance,

Microsure Micro-insurance Company,

Rise Capital Micro-insurance,

Clientsure Micro-insurance,

Zambuko Micro-insurance,

Ethical Micro-insurance and

Bayce Microinsurance.

However, only Coverlink and Golden Knot were operating during the nine month ended 30 September 2022. The other micro-insurers were recently registered and not yet operating.

Business Written

The total GPW by micro-insurers amounted to ZW$1.52 billion for the nine months ended 30 September 2022, reflecting a 290% nominal increase from ZW$0.39 billion reported for the comparative period in 2021. The significant nominal growth is mainly attributable to insurance premiums tracking inflation developments.

Table 11: Micro-insurers' Contribution to GPW by line of business

Line of Business	GPW (ZW$)	Market share
Legal Aid	1 314 020 593,67	87%
Special Savings Plan	159 724 378,33	11%
Funeral Cash plan	24 988 733,85	2%
Health	17 561 196,68	1%
Total	1 516 294 902,53	100%

According to Table 11 above, the major source of business for micro-insurers was Legal Aid which amounted to ZW$1.31 billion constituting 87% of the total GPW for the nine months ended 30 September 2022.

Foreign currency denominated business

In terms of foreign currency denominated business, micro-insurers wrote business amounting to US$37 364 for the nine months ended 30 September 2022 compared to US$1 327 for the same period in 2021.

Table 12: Micro-insurers' foreign currency denominated business contribution to GPW by line of business

Line of Business	GPW (US$)	Market share
Legal Aid	26 752,55	72%
Funeral Cash plan	8 963,00	24%
Special Savings Pla	1 595,00	4%
Health	53,00	0%
Total	37 363,55	100%

In line with Zimbabwe dollar denominated business and as shown in Table 12 above, the major source of foreign currency denominated business for micro-insurers was Legal Aid which amounted to US$26 753.00 constituting 72% of the total foreign currency GPW for the nine months ended 30 September 2022.

Capitalisation

As shown in Table 13 below, both micro-insurers were compliant with the minimum capital requirement of ZW$4.5 million as at 30 September 2022.

Table 13: Reported Capital Positions for Micro-insurers

	Reported Capital Position (ZW$ Million)	
Micro-insurer	**30-Sep-22**	**30-Sep-21**
Coverlink	1 089,96	146,21
Golden Knot	166,22	58,55
Total	**1 256,18**	**204,76**

Key

Above minimum capital requirement of ZW$4.5 million
Below minimum capital requirement of ZW$4.5 million

Microinsurers are being urged to adequately prepare for the risk-based capital regime, which will be implemented under the auspices of the Zimbabwe Integrating Capital & Risk Programme (ZICARP) in January 2023. Gazetting of the USD indexed minimum capital requirements is expected before the end of 2022 at which point, they become effective.

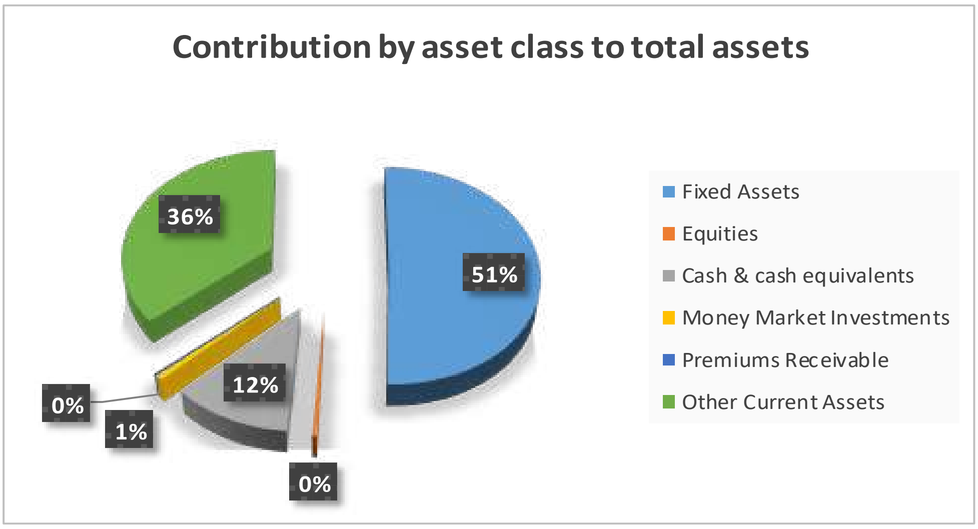
Both micro-insurers were compliant with the minimum solvency margin of 25% as stipulated in Section 24(1a) (ii) of the Insurance Act [*Chapter 24:07*] as shown in Appendix 1C.

Asset quality

The micro-insurers reported a total asset base of ZW$1.87 billion as at 30 September 2022, indicating a 484% increase from ZW$0.32 billion reported as at 30 September 2021.

Premium receivables significantly decreased by 69% from ZW$8.54 million as at 30 September 2021 to ZW$2.64 million as at 30 September 2022. The decrease in premium debtors is a sign of effective credit risk management by micro-insurers. The contribution of various asset classes to total assets as at 30 September 2022 is shown in Figure 19 below:

Figure 19: Micro-insurance: Breakdown of Total Assets by Class



Fixed assets were the major asset class, constituting 51% of total assets.

Earnings

The two micro-insurers recorded a total profit after tax of ZW$603.99 million for the nine months ended 30 September 2022 compared to ZW$113.33 million reported the same period in 2021. This indicates a 433% nominal increase in profit after tax.

Liquidity

The two micro-insurers reported cash and near-cash assets amounting to ZW$233.49 million as at 30 September 2022 which was a 1035% increase from the ZW$20.58 million reported as at 30 September 2021.

Market share for micro-insurers

As shown in Figure 20 and 21 below, Coverlink Microinsurance Company has remained the market leader in terms of both GPW and total assets controlling 71% and 82% of the market respectively during the nine months ended 30 September 2022.

Figure 20: Market Share for Micro-insurers in Terms of GPW

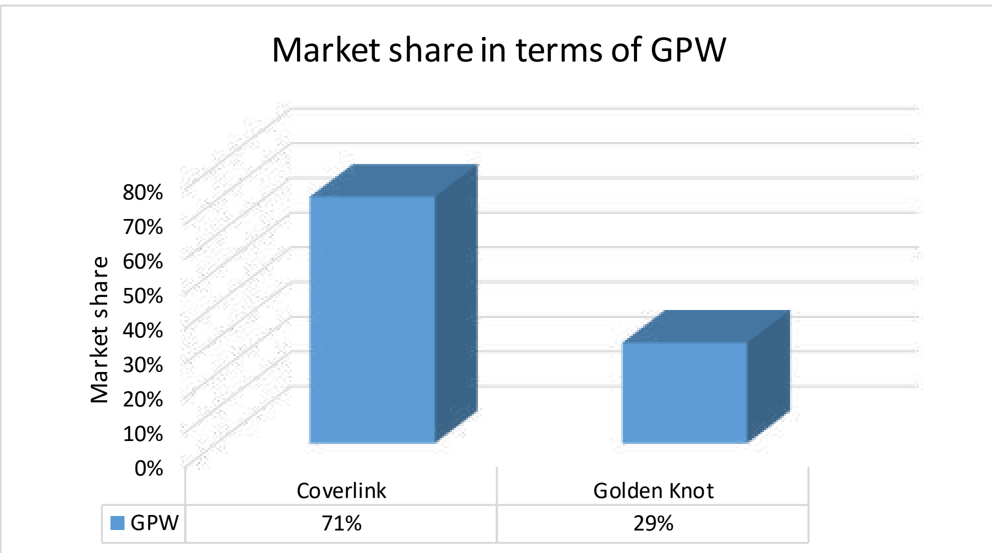


Figure 21: Market Share for Micro-insurers in Terms of Total Assets

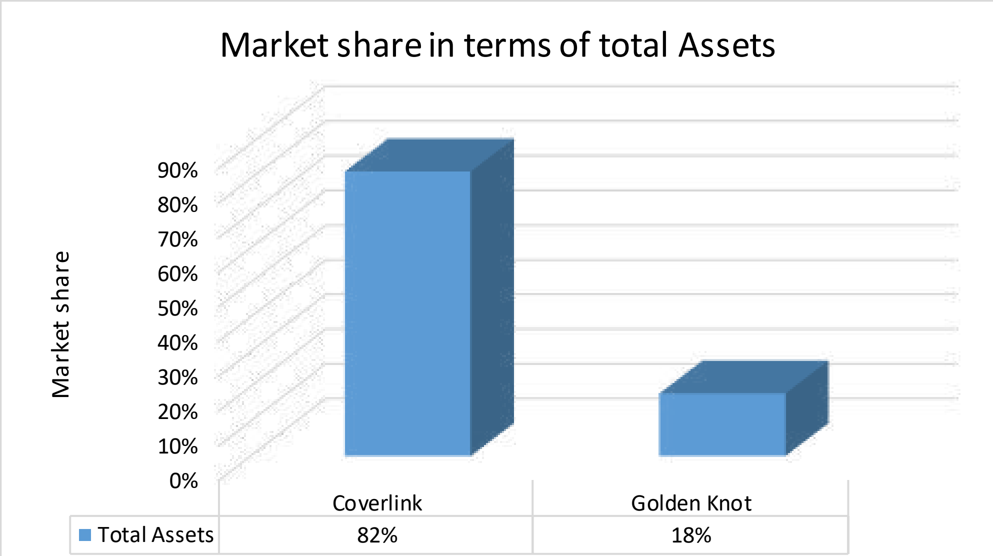

Figure 22: Market Share for Micro-insurers in Terms of foreign currency denominated business

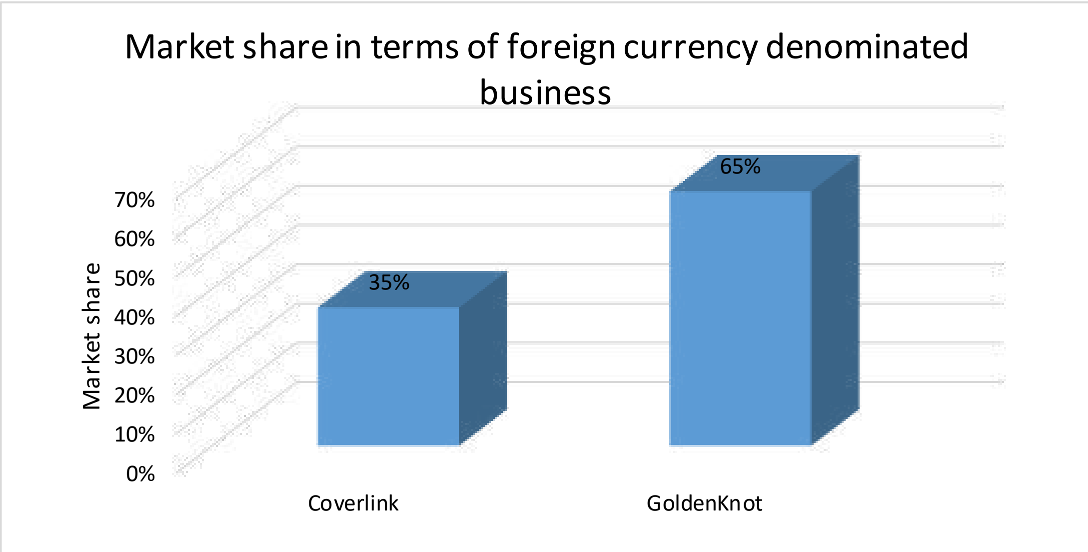
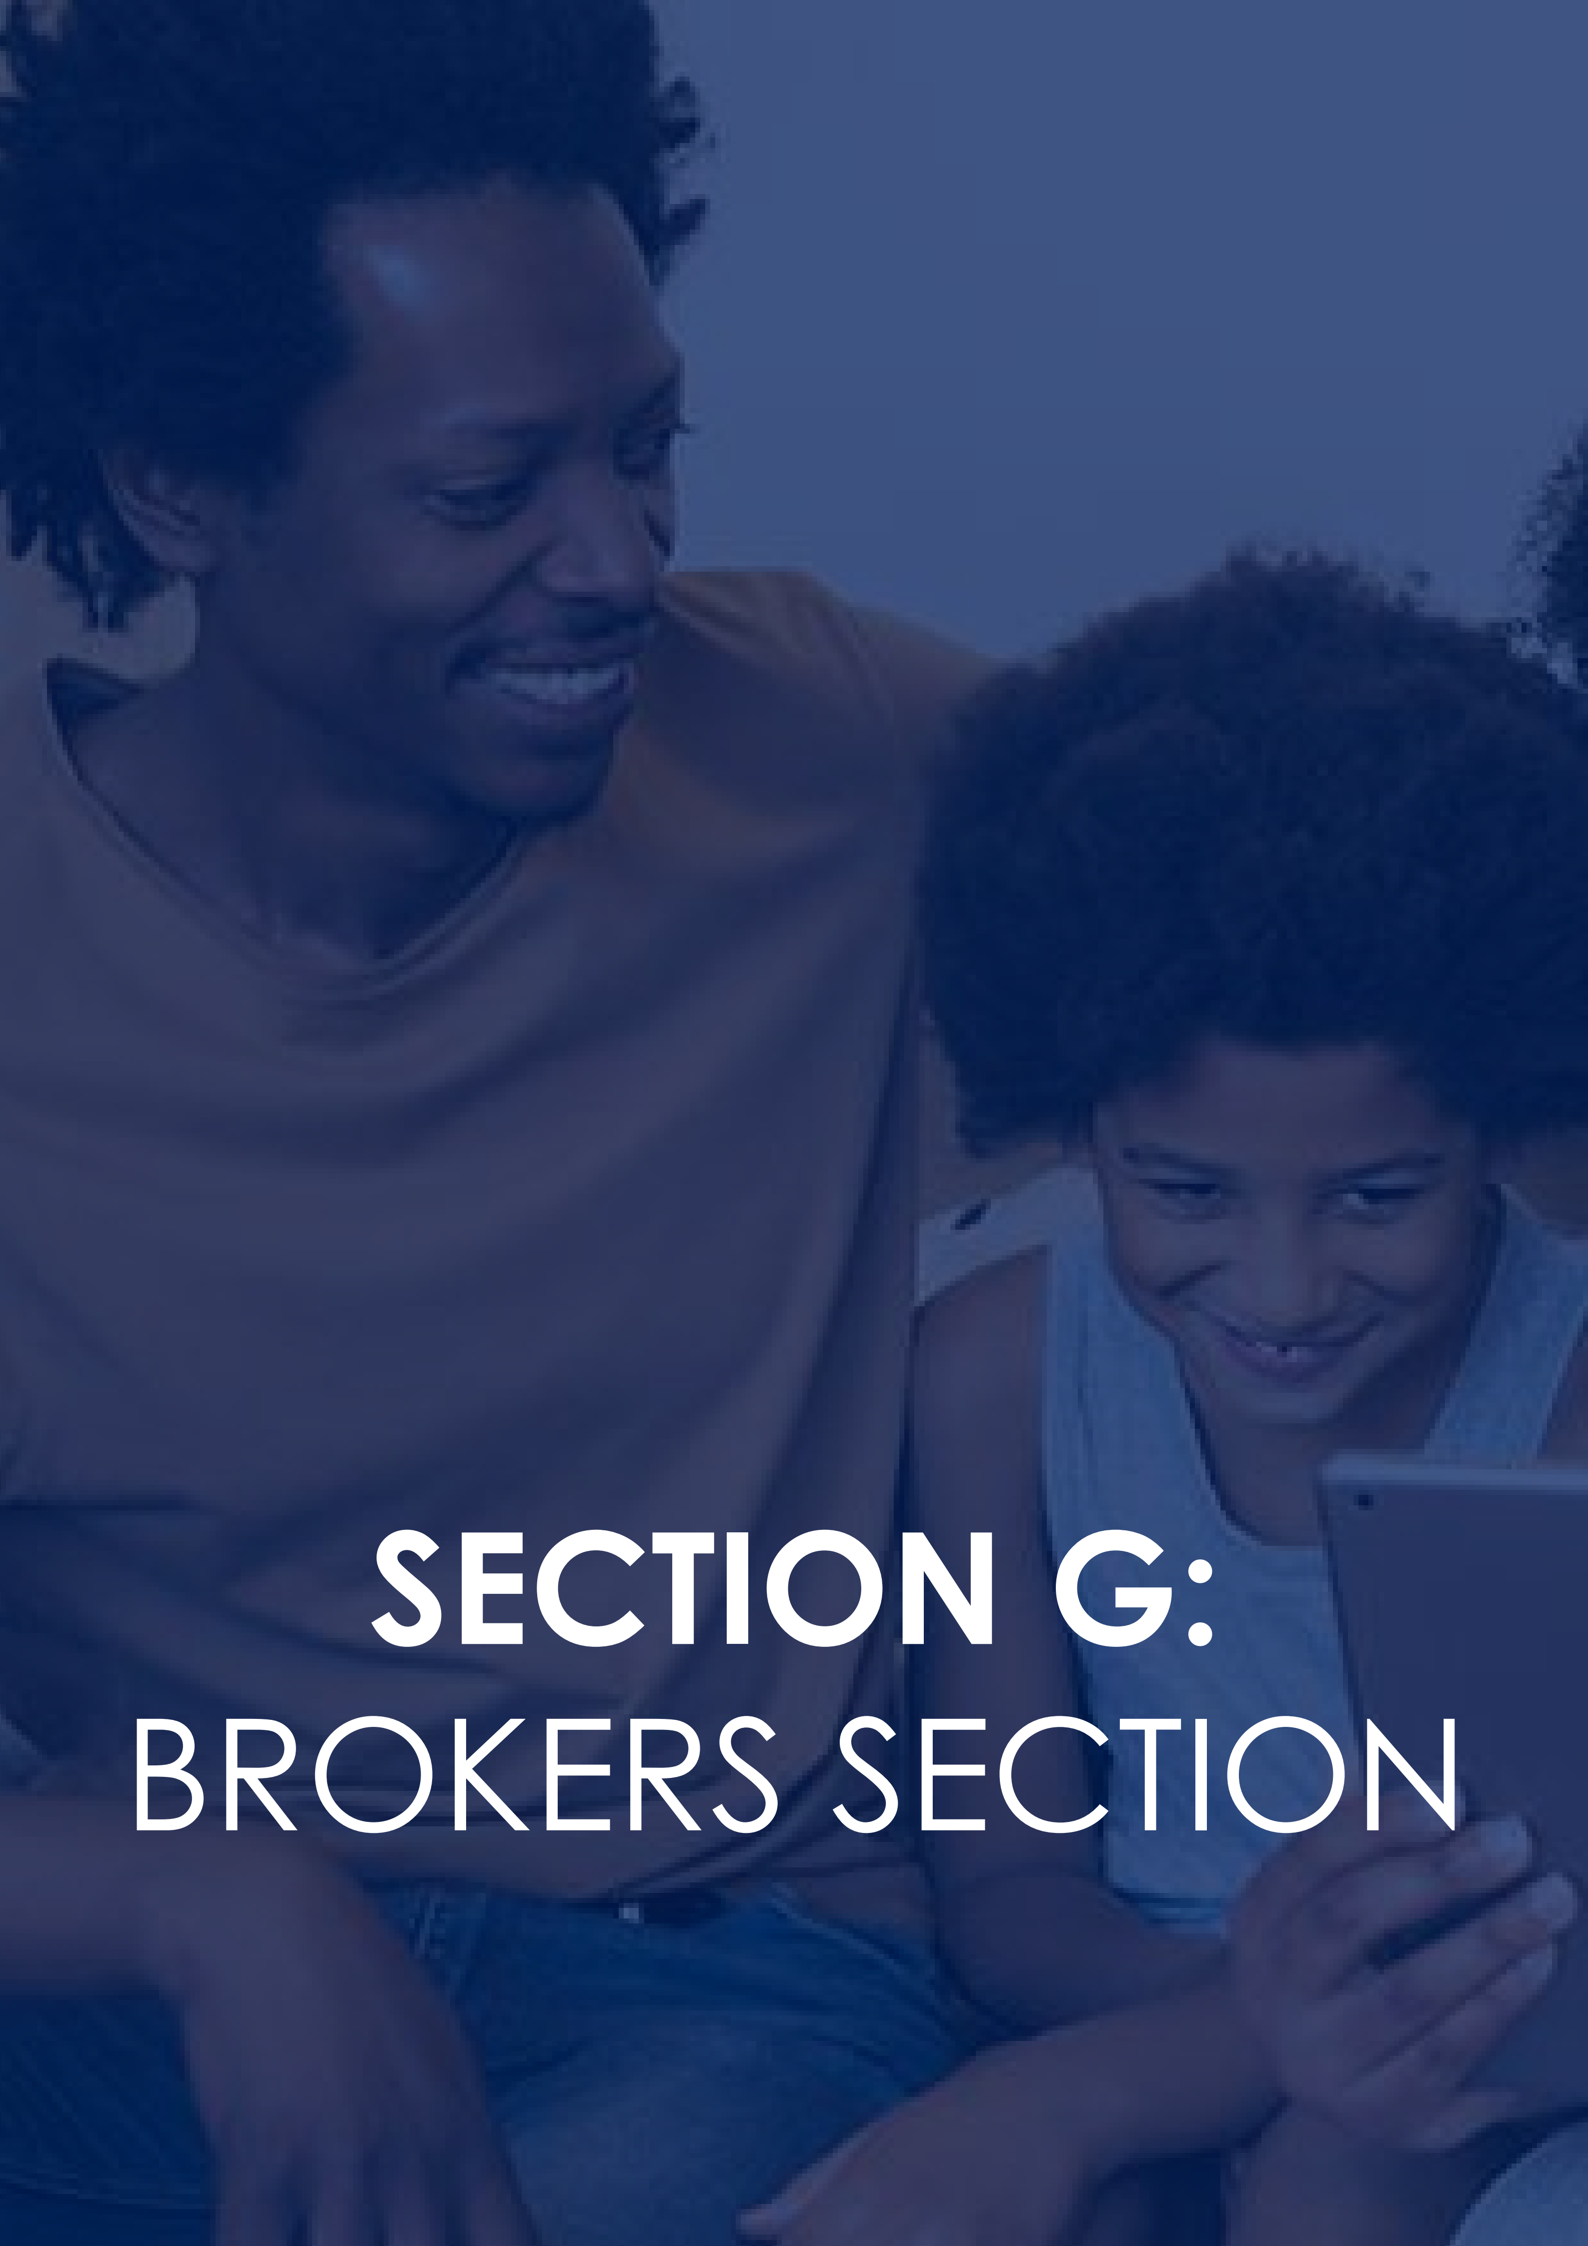


The market leader in terms of foreign currency denominated business was Golden Knot with a market share of 65%.



SECTION G:
BROKERS SECTION

8. Broker Section

Introduction

This section outlines the performance of all 28 registered insurance brokers.

During the period under review, there were no registration and deregistration of any direct insurance broker.

Business Written by Insurance Brokers

Gross premium receivable by insurance brokers increased by 422% in nominal terms from ZW$7.47 billion for the nine months ended 30 September 2021 to ZW$38.98 billion for the nine months ended 30 September 2022. The high growth rate is attributable to premiums tracking inflation.

Table 14: Key Indicators for the business brokered by Insurance Brokers for the third quarter ended September 2022.

Indicator	30 September-2021 (ZW $million)	30 September-2022 (ZW $million)	Percentage Change
Gross Premium Receivable	7,467	38,982	422%
Gross Premium Payable	6,362	34,591	444%
Brokerage Commission	1,099	4,117	275%
less Commission paid	62	252	305%

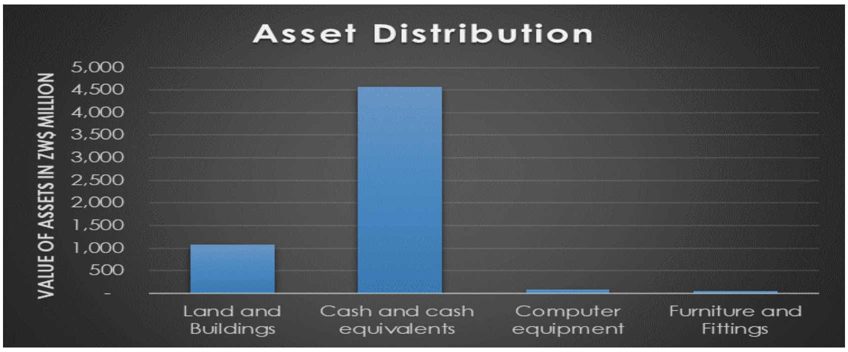
(green)	Above minimum capital requirement of $1.5 million

Assets Distribution

As at 30 September 2022 the insurance brokers held total assets amounting to ZW$5.8 billion. Cash and cash equivalents constituted the major chunk of these assets, as shown in the graph below.

Figure 23: Asset distribution for insurance brokers for the quarter ended September 2022.



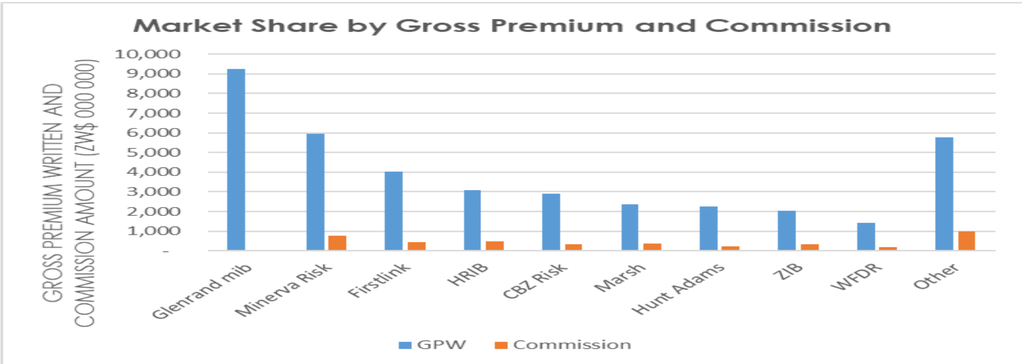
Earnings

For the nine months ended 30 September 2022, insurance brokers reported a combined profit after tax of ZW$2.3 billion, representing a nominal increase of 619% from the same period ended 30 September 2021. The primary contributor to the substantial increase in profit during the period under review were premium adjustments tracking inflation.

Market Share for Insurance Brokers in terms of Gross Premium and Commission

The graph below depicts the distribution of market share among insurance brokers for the quarter ending 30 September 2022. Glenrand MIB, Minerva, Firstlink, HRIB and CBZ Risk Advisory dominated the market in terms of gross premium written during the period under review.

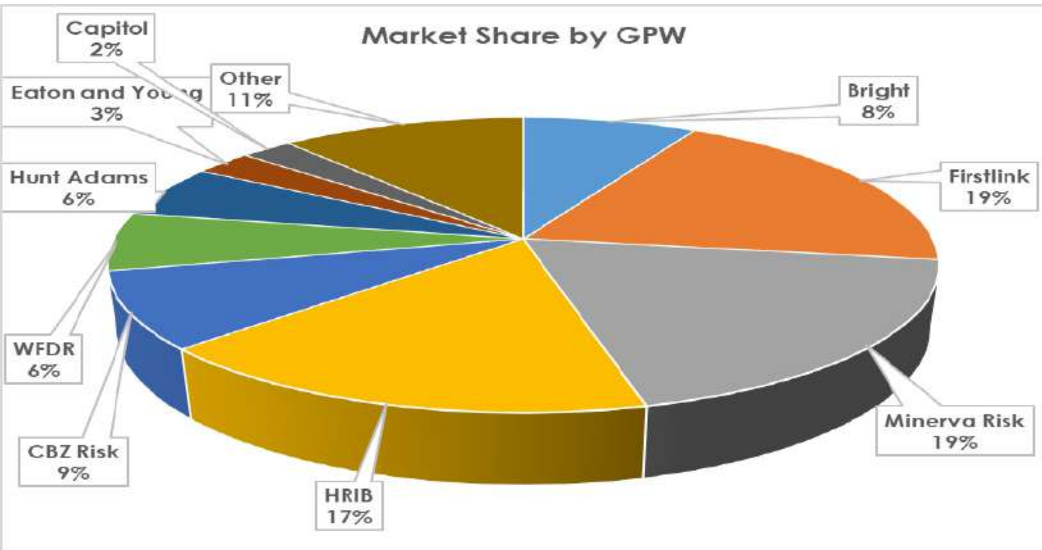
Figure 24: Market share for insurance brokers for the quarter ended September 2022



Foreign Currency Business by Insurance Brokers

All twenty-eight insurance brokers submitted their USD returns with the Commission for the quarter ended 30 September 2022. Insurance brokers recorded a total of US$49 million Gross Premium for the period under review. The pie chart below shows the forex business market share as at 30 September 2022.

Figure 25: Short-term Insurance Brokers USD-Denominated Market Share for the quarter ended 30 September 2022.



SECTION H:
REINSURANCE BROKERS

9. Reinsurance Brokers

Premium Written

For the nine months ended 30 September 2022, reinsurance brokers reported a significant nominal increase in gross premium written of 521% from ZW$5.3 billion reported in September 2021 to ZW$32.8 billion. The table 16 below displays key indicators of business written by reinsurance brokers.

Table 16: Key Indicators of Reinsurance Brokers business for the nine months ended 30 September 2022.

Indicator	30-September-2021 (ZW$ million)	30-September-2022 (ZW$ million)	Percentage change
Gross Premium Receivable	5,279	32,790	521%
Gross Premium Payable	4,088	31,914	681%
Brokerage Commission	1,191	847	-29%
less Commission paid	1,000	23	-98%
Net Brokerage Commission	191	853	347%
Other Income	8	716	8866%
Operating Expenses	132	526	299%
Profit Before Tax	85	1,051	1139%
Taxation	17	246	1339%
Profit After Tax	68	805	1088%

Capitalisation

As at 30 September 2022, all reinsurance brokers reported capital positions that exceeded the minimum capital requirement of ZW$1.5 million as shown in Table 17 below.

Table 17: Capitalisation levels of reinsurance brokers for the nine months ended 30 September 2022.

Name of Reinsurance Broker	30-Sep-22	30-Sep-21
Afro-Asian	17.38	8.56

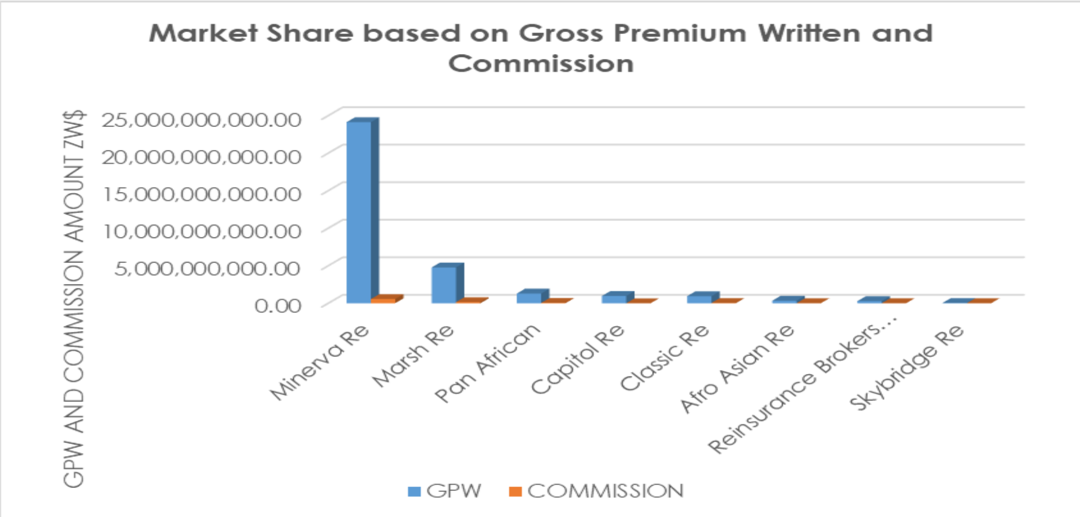
	Below minimum capital requirement of $1.5 million

Market share for Reinsurance Brokers in terms of Gross Premium Receivable and Brokerage Commission

In terms of the Gross premium written, Minerva Reinsurance brokers had the largest market share during the period under review. Figure 26 below shows Reinsurance brokers` market share in terms of gross premium written and brokerage commission as at 30 September 2022.

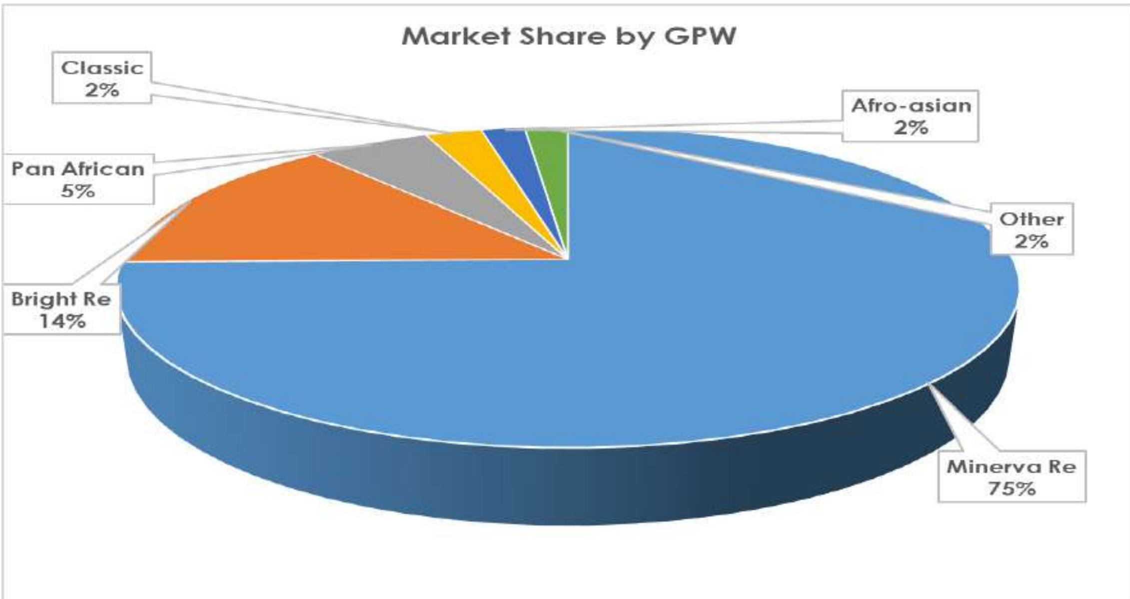
Figure 26: Market share distribution for reinsurance brokers for the nine months ended September 2022.



Foreign Currency-denominated business

All 8 reinsurance brokers submitted foreign currency-denominated returns in line with Circular Number 15 of 2020. Reinsurance Brokers reported a total of USD63.4 million in gross premium receivable for the nine months ending 30 September 2022. Minerva Re had the largest market share in term of gross premium written.

Figure 27: Gross Premium in USD for reinsurance brokers for the nine months ended September 2022.



SECTION I: COMPLAINTS HANDLING

10. Complaints Handling

During the three quarters under review, the Commission received 40 complaints against short term insurance companies, and of these complaints 29 were resolved while 11 were still outstanding as at 30 September. Delay in settlement of claims by short-term insurers continuous to be the major source of complaints, constituting half of the complaints, while repudiations constituted 28% percent of total complaints. Unsatisfactory service and low RTA payments constituted 15% and 8% respectively

Table 18: Breakdown of complaints by nature

Nature of complaints	Number of complaints	Percentage of total
Delay in settlement	20	**50%**
Repudiation	11	**28%**
Low RTA claim payments	3	**8%**
Not satisfied with service	6	**15%**
Total	**40**	**100%**

The Commission implores sector players to pay all claims within reasonable timeframes as delay in settlement exposes policyholders to loss of value due to rising inflation. Insurers should at all times treat policyholders fairly and provide the level of service agreed to avoid complaints against them, because of non-satisfactory service.

Breakdown of complaints by player

For the short-term sector 58% of complaints were against 4 players which are Alliance, Zimnat Lion, Clarion, and Econet Insurance with 22%, 15%, 12% and 9% respectively. The remaining 42% of complaints were against the remaining 15 players. Figure 28 below shows the breakdown of complaints by player.

Figure 28: Breakdown of complaints

AML/CFT/CPF

11. AML/CFT/CPF

Implementation of Targeted Financial Sanctions Against Terrorist and Proliferation Financing

Introduction

1. The Financial Action Taskforce (FATF) Recommendation 6 and 7 requires countries to implement the targeted financial sanctions regimes to comply with the United Nations Security Council resolutions (UNSCRs or resolutions) relating to the prevention and suppression of terrorism and terrorist financing[1] and proliferation financing[2].
2. The objective of the requirements is to prevent designated persons and entities involved in financing of terrorism or in proliferation of weapons of mass destruction from raising, moving and using funds.
3. In line with the country's international obligations as mandated by the United Nations and the Financial Action Task Force, Zimbabwe has in place the legal framework for implementation of targeted financial sanctions. The country enacted the Suppression of Foreign and International Terrorism Act [*Chapter11:21*], and the supporting regulations statutory instruments SI. 76 of 2014 and SI. 110 of 2021 (which repealed SI. 56 of 2019).
4. The Financial Intelligence Unit (FIU) issued a Guidance on '*Targeted Financial Sanctions Relating to Financing of Terrorism and Financing Proliferation of Weapons of Mass Destruction*' in July 2021.
5. Recommendation 6 is intended to assist countries in implementing the targeted financial sanctions contained in the UNSCRs relating to the prevention and suppression of terrorism and terrorist financing:
   (i) UNSCR 1267 (1999) and its successor resolutions (the Al-Qaida/Taliban sanctions regimes);
   (ii) UNSCR 1373 (2001) (designated by the country); and
   (iii) any future UNSCRs which impose targeted financial sanctions in the terrorist financing context.
6. The resolutions require countries to freeze, without delay, the funds or other assets of, and to ensure that no funds or other assets are made available, directly or indirectly, to or for the benefit of, any person or entity designated.
7. Targeted financial sanctions relating to proliferation financing are applicable to:
   (a) persons or entities engaging in or providing support for, including through illicit means, proliferation-sensitive activities and programmes;
   (b) persons acting on behalf of, or controlled by, or at the direction of designated persons or entities;
   (c) persons or entities assisting designated persons or entities in evading sanctions or violating resolution provisions.

---

1 Terrorist financing is the financing of terrorist acts, and of terrorists and terrorist organisations.

2 Proliferation financing means the act of providing funds or financial services which are used, in whole or in part, for the manufacture, acquisition, possession, development, export, transhipments, brokering, transport, transfer, stockpiling or use of nuclear, chemical or biological weapons and their means of delivery and related materials (including both technologies and dual-use goods used for non-legitimate purposes), in contravention of national laws or, where applicable, international obligations.

SANCTIONS SCREENING OBLIGATIONS FOR IPEC REGULATED ENTITIES

8. All regulated entities have to comply with targeted financial sanctions directed at people or organisations sanctioned for reasons related to terrorism or the financing of proliferation.
9. All regulated entities are required to screen names and addresses against the consolidated list of designated persons and entities (including entities owned or controlled by them) published by the UN Security Council or its Committee in ensuring compliance with all elements of targeted financial sanctions.
10. Entities should apply targeted financial sanctions to persons/entities acting on behalf of or at the direction of designated persons/entities
11. They should also apply other preventative measures to combat increasingly prevalent use of sophisticated sanctions evasion techniques by proliferation networks (*e.g. the use of multiple shell and front companies*) in identifying and detecting the persons, entities, and transactions related to proliferation financing.

When Should Entities Conduct Screening

12. Regulated entities are required to review the UN Consolidated List and the Zimbabwe List prior to:
    (i) conducting any transaction;
    (ii) undertaking any financial service; or
    (iii) entering into any relationship with any person or entity to ascertain whether or not the name of such a person or entity is on the Lists.
13. In line with Section 10 of SI 110 of 2021 Regulated entities should conduct sanctions screening:
    (i) Whenever a new designation is announced by the UNSCR;
    (ii) When a new customer is being on boarded;
    (iii) When a walk-in customer or a customer who wants to engage in a once off transaction is being attended.
14. Where the name of a person or an entity is confirmed to be on the Lists, the regulated entity shall:
    a) **freeze, without delay and without prior notice**, the funds or other assets identified as belonging to the person or entity on the Lists, in accordance with subsections 8(1) and 9(1)-(2) of S.I 110 of 2021.
    b) ensure that;
    (i) the accounts, properties or assets are not operated;
    (ii) no financial services are provided to the designated person;
    (iii) they forward to the FIU any "Suspicious Transaction Report" as well as reports or information on all actions taken to freeze the funds and other assets, and any attempted transactions, in accordance with subsection 9(4) of the MLPC Act;
    (iv) **They file a nil return to the FIU** where no positive matches have been identified.
15. **Effective Screening and Monitoring Systems:** Entities must maintain real-time sanctions screening systems in place for all cross border transactions (both incoming and

outgoing), that are capable of identifying a match against any internal and vendor supplied UNSCR lists maintained by the institution. Where an entity uses a screening list provided by a third-party vendor, the vendor's Service Level Agreement with the entity should ensure that the list is updated immediately upon any new designation as required.

16. The systems should be capable of screening and monitoring all aspects of customer onboarding as well as payment messages, including all additional information provided by the ordering institution or the customer when conducting wire transfers.
17. **Internal Controls:** Entities are required to develop and maintain adequate internal controls (including due diligence procedures and training programs as appropriate) to identify existing accounts, transactions, funds or other assets of designated persons and entities. The controls should guide the entity in fulfilling the obligation of immediately freezing any identified funds or other assets held or controlled by designated persons and entities.
18. Entities should implement reasonable procedures to prevent designated persons and entities from conducting transactions with or through them. Institutions should consider the level of risk when obtaining beneficial owners, signatories and powers of attorney information with respect to accounts or transactions when searching for activities by designated persons or entities.
19. **Reporting:** Section 12 of SI 110 stipulates that every financial institutions and designated non-financial businesses and professions shall report to the FIU any assets frozen or actions taken in compliance with the prohibition requirements of the relevant UNSCRs, including attempted transactions, for review and utilization by the FIU.
20. A nil report will also be made to the FIU when no funds or other assets are identified. A nil report must also be submitted when a new listing is made by the UNSCR and no match is found in the designated institution's books.
21. Where there is suspicion of TF/PF, a suspicious transaction report (STR) must be filed with the FIU.
22. ALL reports to the FIU should be submitted through the GoAML platform.
23. **Record Keeping**: Section 24 of the MLPC Act sets out the record-keeping obligations, prescribing what must be covered by such records as well as the minimum length of time for which such records should be kept. The record-keeping obligations are meant to assist the FIU and law enforcement agencies should the need arise to investigate a customer or a transaction.
24. **Cooperation:** Regulated entities are required to counter terrorist and proliferation financing through adequate cooperation and coordination between themselves and the FIU in order to ensure there is no sanction evasion.

PENALTIES FOR NON-COMPLIANCE WITH CFT/CPF OBLIGATIONS

25. Non-compliance by regulated entity with any of the CFT/CFP obligations relating to the implementation of Targeted Financial Sanctions under Statutory Instruments 76 of 2014 and 110 of 2021, attracts either criminal sanctions or civil penalties (or both). Administrative penalties are enforceable by the FIU and competent supervisors under section 5 of the MLPC Act.

SECTION J: REGULATORY DEVELOPMENTS

12. Regulatory Developments

12.1 Regulatory Developments for the nine months ended 30 September 2022

Circulars and Statutory Instruments

12.1.1 The Commission issued the following Statutory Instruments and Circulars to the Insurance Industry as shown in Table 19 below.

Table 19: Statutory Instruments and Circulars issued

Statutory Instrument (S.I.)	Date Gazetted	Purpose
S.I. 45 of 2022	18 March 2022	Revision of fees payable to the Commission.
S.I. 46 of 2022	18 March 2022	Revision of levies payable to the Commission.
Circulars	**Date of Issue**	**Purpose**
Circular 3 of 2022	7 February 2022	2022 Global Money Week Activities.
Circular 4 of 2022	3 February 2022	International Financial reporting standard (IFRS) 17 Training.
Circular 5 of 2022	7 February 2022	Zimbabwe Integrating Capital and Risk Programme (ZICARP) Pillar 1 31 December 2021 reporting.
Circular 8 of 2022	14 February 2022	Financial Intelligence Unit Directive on revised thresholds for cash transaction reports, electronic funds transfer, and international funds transfers.
Circular 9 of 2022	15 February 2022	Appointment of Beacon Actuarial Services to Develop Mortality tables for the Zimbabwean Insurance and Pensions industry.
Circular 10 of 2022	4 March 2022	Guidance Paper implementation: Clarification on the roles of Fund Administrators, Actuaries, Accountants and Asset Managers.
Circular 12 of 2022	29 March 2022	Registration requirements for Individual Agents.
Circular 13 of 2022	18 March 2022	Notification of Publication of the Insurance and Pensions (Levy) Regulations, 2022 and Insurance (Amendment) Regulations, 2022.

Circular 14 of 2022	29 March 2022	Amendment to the Directive on Governance and Risk Management for Insurance Companies.
Circular 15 of 2022	24 March 2022	Zimbabwe Integrating Capital and Risk Programme (ZICARP) Training Way Forward.
Circular 16 of 2022	23 March 2022	Registration of Insurance and Pensions industry players on go AML.
Circular 17 of 2022	28 March 2022	Mortality Tables Development Project- Industry Workshop.
Circular 20 of 2022	03 May 2022	Mortality Tables Development Project- Request for data.
Circular 21 of 2022	09 May 2022	Call for inputs-Insurance and Pensions Industry response paper to policy measures to restore confidence, preserve value and restore macro-economic stability-President's speech (07 May 2022)
Circular 22 of 2022	12 May 2022	Presentation of Mock Own Risk and Solvency Assessment (ORSA) results.
Circular 26 of 2022	15 June 2022	Request for the Insurance and Pensions Industry's input into the 2022 mid-term national budget review.
Circular 29 of 2022	15 July 2022	Invitation to the industry engagement workshop on the pre-2009 loss of value (2009 Compensation) Regulations and Modalities.
Circular 31 of 2022	25 July 2022	Request for Industry Comments on Draft Pre-2009 Compensation Regulations.
Circular 35 of 2022		Sponsorship Request for the Inaugural Insurance and Pension Industry Awards.
Circular 37 of 2022	25 August 2022	Guidance Paper implementation: Waiving of Peer Review and June Valuation.
Circular 38 of 2022	14 September 2022	Request for Insurance and Pensions Industry's Inputs into 2023 National Budget.
Circular 39 of 2022	19 September 2022	Gold Coin Investment by the Insurance and Pensions Industry.
