RE: MICROPENSIONS FRAMEWORK

1. Following the call for input into the draft Micro- pensions Framework, the Commission is pleased to advise that it has finalised drafting of the Micro-pensions Framework.
2. The framework was developed with the goal of enhancing financial inclusion through providing a platform for the development and registration of pension products that suit the need of the underserved population, particularly the low income earners and the informal sector of the economy.
3. The industry is encouraged to harness the opportunity of providing pensions arrangements for the excluded segments of the population. The framework is attached to this circular for your reference.
4. Please be guided accordingly.
