TO: All Insurers
All Brokers

RE: QUARTERLY RETURNS: ADDITIONAL REPORTING REQUIREMENTS

1. The above matter refers.
2. Pursuant to Circular 3 of 2020, all insurance industry players are required to apply the applicable prevailing interbank exchange rate to convert foreign currency denominated business to ZW\$ to facilitate the reporting of a combined ZW\$ position when submitting the online return for consistency.
3. The Commission urges the industry to avoid using parallel market exchange rates to convert their foreign currency denominated business to ZW\$ as this results in inflated figures which in turn affects the accuracy and comparability of the data.
4. In a bid to promote data accuracy, transparency and integrity of the quarterly reports, industry is now required to submit an additional ZW\$ manual return reflecting pure ZW\$ denominated business.

5. Therefore, beginning first quarter 2023, the Commission expects to receive three (3) separate quarterly returns as follows:
- a) Return number 1: Pure US\$ denominated insurance business return submitted via email;
 - b) Return number 2: Pure ZW\$ denominated insurance business return submitted via email; and
 - c) Return number 3: Combined return (ZW\$ + US\$) submitting a combined position for the pure US\$ business and pure ZW\$ business submitted via the online portal.
6. Please note that an entity that fails to submit its returns within the stipulated timelines shall be held in default and liable to a fine payable to the Commission in terms of Statutory 69 of 2020.

Please be guided accordingly.
