2.0 Industry Overview

The report is centered on 13 standalone funds, 3 fund administrators and two life insurers for the quarter ended 31 March 2013. Comparative figures for the first quarter of 2012 were however not available because we commenced reporting for this sector mid last year. Fines were levied on players who failed to submit returns by 21 April 2013, the mandatory 3 weeks after the end of the quarter.

For the period under review, self administered funds reported contributions amounting to \$136million though only \$27million or 20% was collected. The balance of \$109million was cumulative as reflected in the balance sheets. The expense ratio, excluding \$11 million paid in benefits, was 15%.

Insurer administered funds realized total contributions in the sum of \$22million although 58% were in arrears whilst \$4million was paid in benefits. The expense-to- contribution ratio was 15%.

Fund administrators reported total contributions amounting to \$41million but \$23million was in arrears. Total benefits and expenditure was \$6million apiece or 332% of received contributions reflecting a 32% expense ratio.

Total asset base for the industry was \$1,6billion and a reported 2% prescribed asset ratio (See Table 1,below).

SECTION A

STAND ALONE FUNDS

3.0 Standalone Self Administered Pension Funds

This report is based on 13 standalone funds (See Table 1, below). Funds which failed to submit their returns on time were fined in terms of the Act.

4.0 Pension Fund Membership

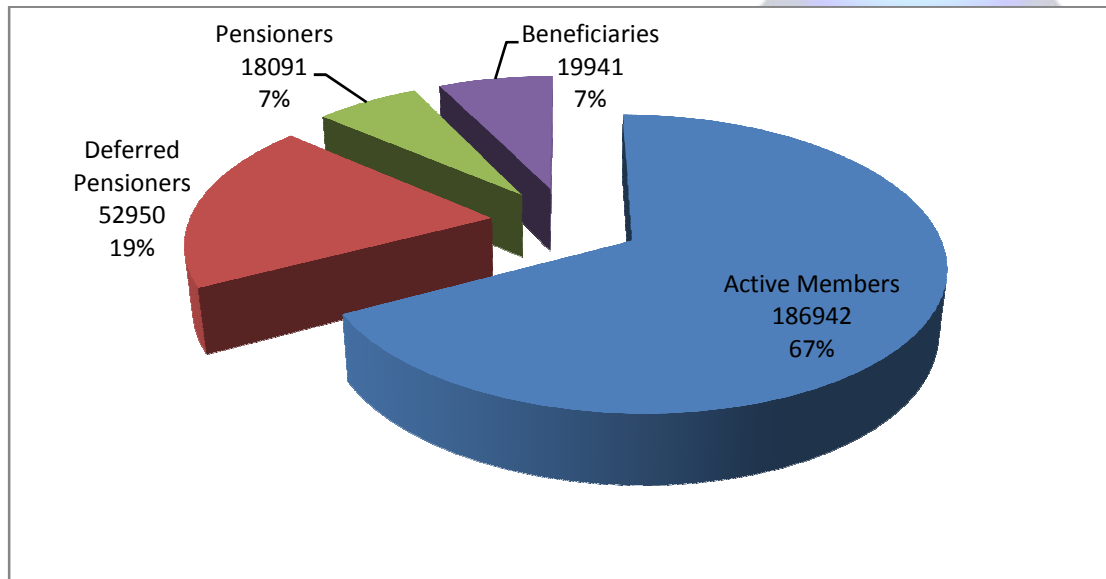

Total fund membership distribution was made up of 187 000 or 67% being actives, 53 000 or 19% deferred members, 7% or 18 091 being pensioners and 7% or 19 941 were beneficiaries. Exits numbered 2 000. Unfortunately, we do not have statistics for the comparable period last year (See Table 2 and Figure 1, below).

Figure 1: Membership for Stand alone Funds for the first quarter ended 31 March 2013

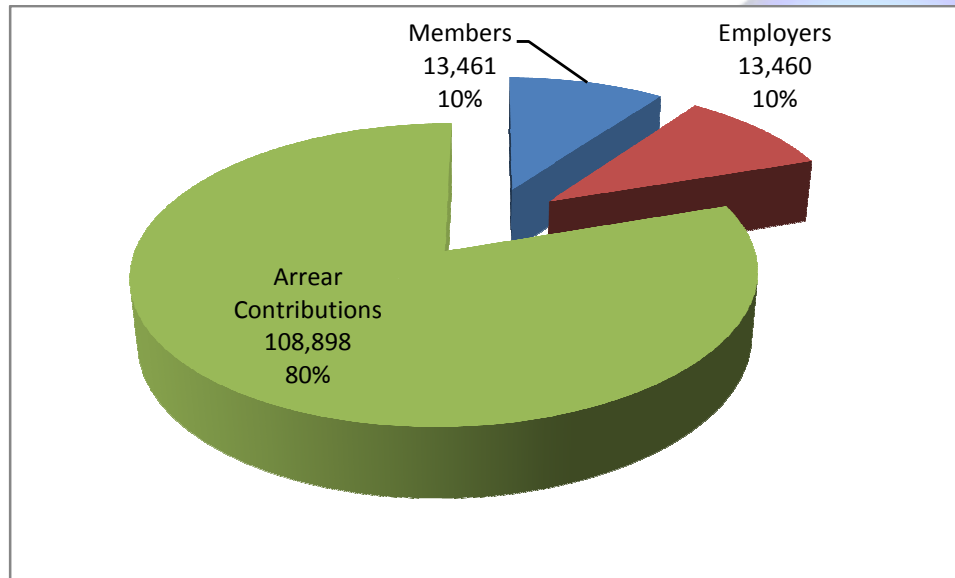

5.0 Contributions

Employer contributions amounted to \$120million or 88% of total contributions .Members contributed \$16million or 12% of total contributions. However \$109million or 80% of total contributions was made up of arrears which have been accumulating on respective funds' balance sheets over the preceding years .Rehabilitative measures are continuing in consultation with key stakeholders (See Table 3 and Figure 2,below).

6.0 Income and Expenditure

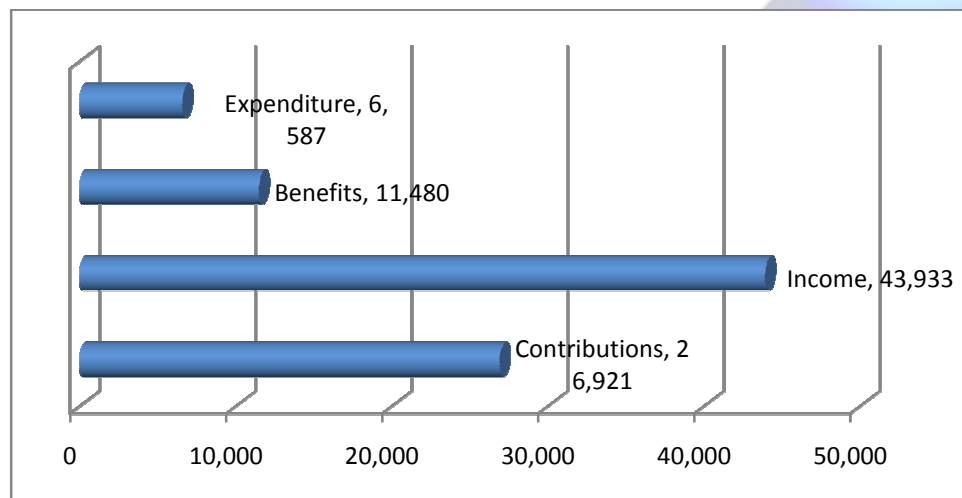

For the quarter ended 31 March 2013, total received contributions were \$27million against total expenditure bill of \$7million.

Funds reported an expense ratio of 15% against the recommended ceiling of up to 10% .As advised previously, our ongoing on site visits will probe both the rationale and the general breakdown of such high expenditure levels which corrodes member values (See Table 4 and Figure 3 below).

Table 4: Income and Expenditure per Stand alone Fund for the first quarter ended 31 March 2013(\$000)

Figure 3: Income and Expenditure for Standalone Funds for the first quarter ended 31 March 2013 (\$'000)

7.0 Fund Assets

For the quarter under review, Standalone funds invested \$528million or 53% in properties,15% or \$147million in capital market securities,5% or \$50million in money market securities equities,27% or \$268million in other securities and 1% in prescribed assets (See Table 5 and Figure 4, below).

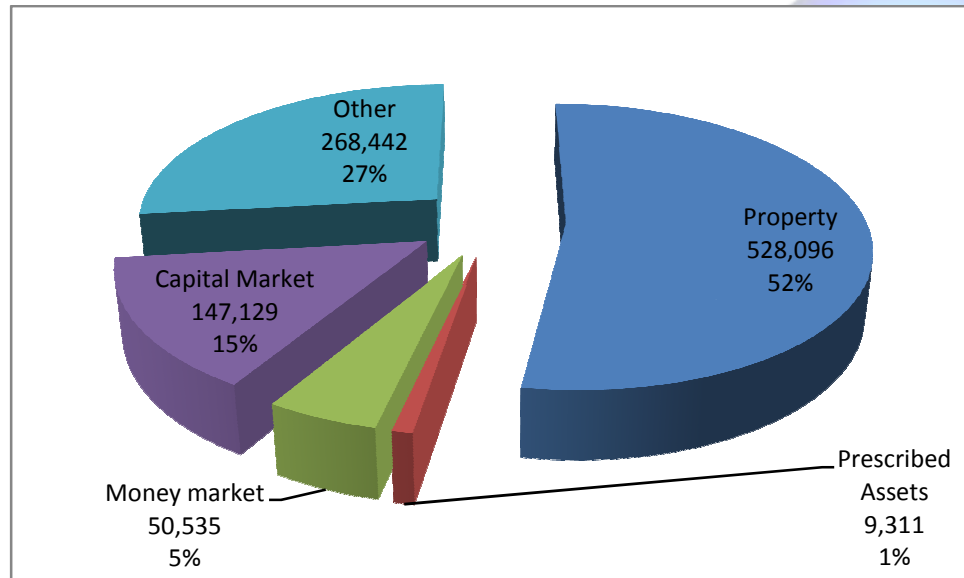

Over the reporting period, there has not been any paper which was accorded prescribed asset status although there are two applications which are still under internal vetting.

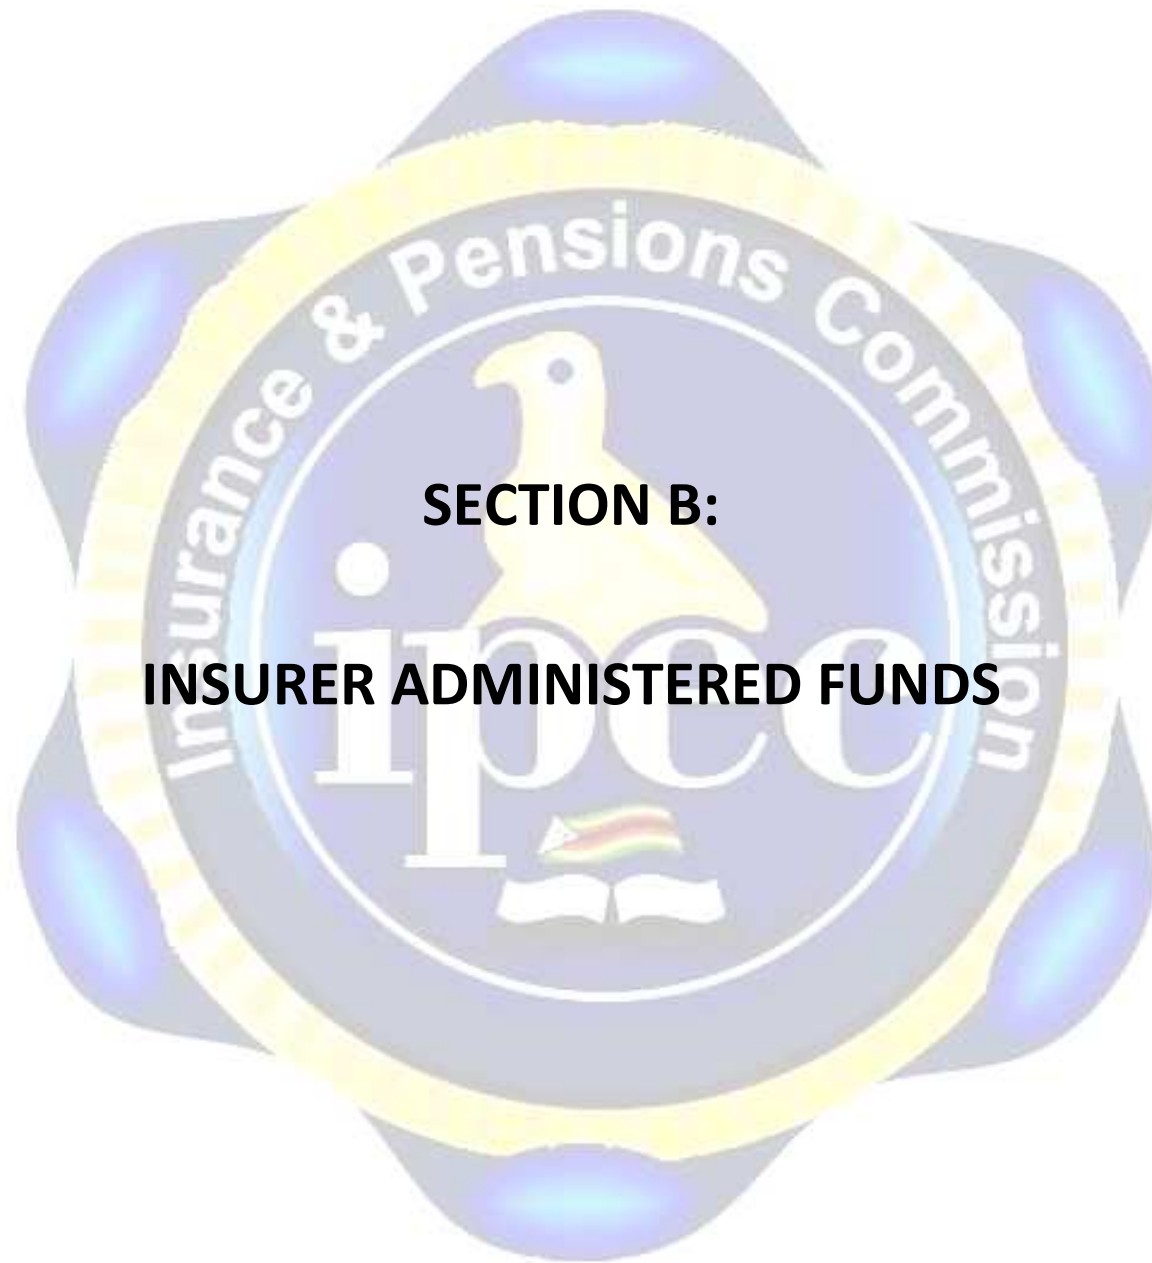

Funds must stand guided by Circular No.1 of 2013 which gave upper limits on investment guidelines per each asset class. Failure to comply by the set deadline will force the Commission to invoke the law and penalize offenders.

SECTION B:
INSURER ADMINISTERED FUNDS

1.0 Insurer Self Administered Pension Funds

This report covers 29 funds administered by 2 players .Comparable statistics were not at hand since our inaugural report was published mid year of 2012(See Table 1, below).

Table 1: Fund Administrators

Insurer	Mar 2013
First Mutual	6
Old Mutual	23
TOTALS	29

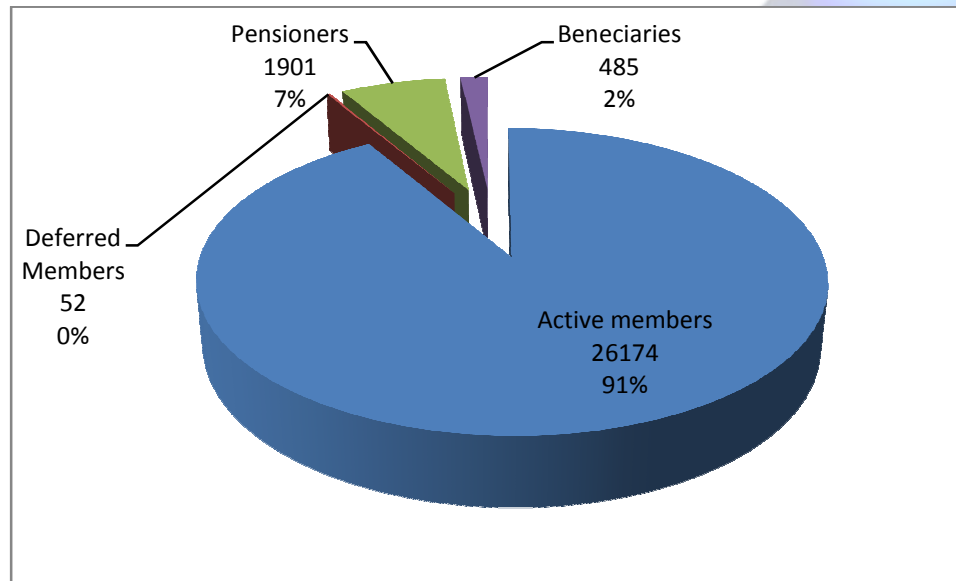

2.0 Pension Fund Membership

Total fund membership for insurer administered funds was 29 000 spread between 26 000 actives (91%),pensioners(7%) and the balance being beneficiaries and deferred members .The dominance of active members might be due to the reluctance by pensionable age groups' to retire and some coming out of retirement as a cushion from generally low pension payouts in the market (See Table 2 and Figure 1, below).

Table 2: Membership for Insured Self Administered Pension Funds for the first quarter ended 31 March 2013

Figure 1: Membership Statistics for Insured Self Administered Funds for the first quarter ended 31 March 2013

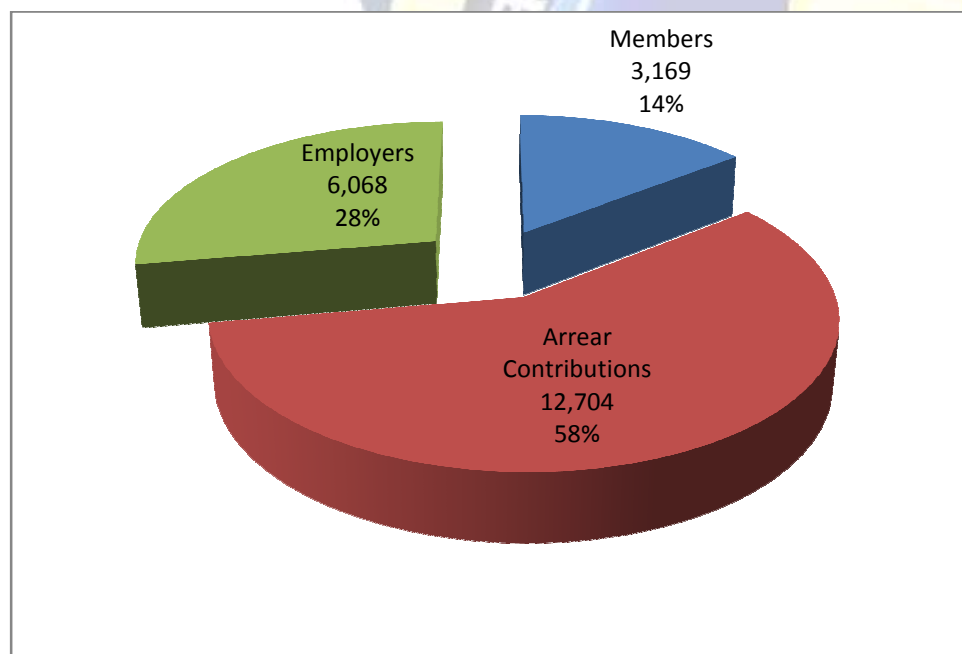

3.0 Contributions

Total contributions receivable by insurer administrators amounted to \$22million for the first quarter ended 31March 2013.Of this figure, a cumulative \$13million or 58% was in arrears as reflected in player's balance sheets. IPEC will continue to engage all key stakeholders with a view to ensuring that these long outstanding debts are retired (See Table 3 and Figure 2 below).

Table 3: Contributions Statistics for Insured Self Administered Funds for the first quarter ended 31 March 2013

Figure 2: Contribution Statistics for Insured Self Administered Funds for the first quarter ended 31 March 2013 \$(000)

4.0 Income and Expenditure

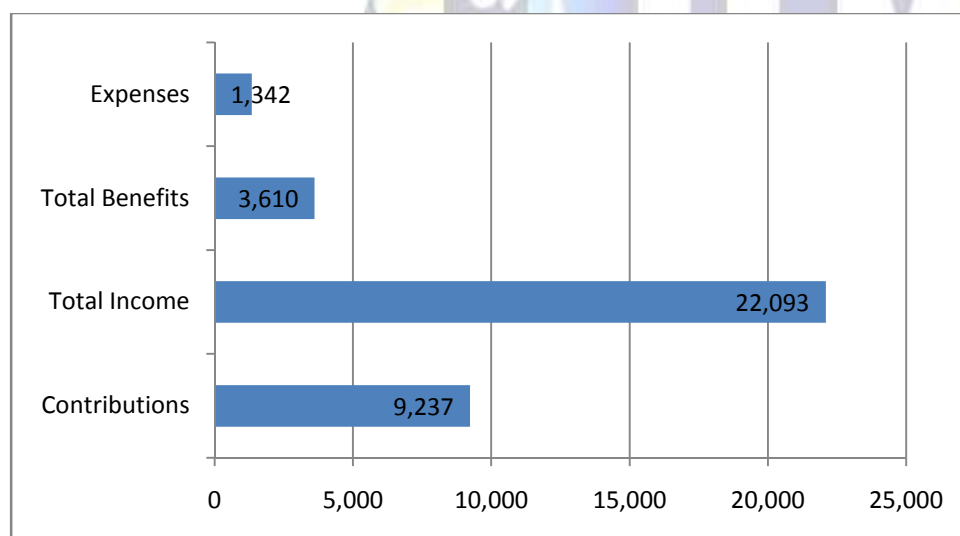

For the reporting period under review, insurers received \$9million in contributions and a total income of \$22million against an expenditure bill of just above \$1million.

Resultantly the expenses to contributions and expenses to income ratios were 15% and 6% respectively. Although insurers compare favorably with their peers, the Commission recommends an expenditure ceiling of not more than 10% in a bid to at least preserve member values given poor revenue inflows given the current economic challenges .Any expense ratio above 10% will find insurers in a difficult situation to guarantee a real return to pensioners in our volatile investment environment (See Table 4 and Figure 3 below).

Table 4: Income and Expenditure per Insurer for Self Administered Funds for the first quarter ended 31 March 2013

Figure 3: Income and Expenditure for Insured Self Administered Funds for the first quarter ended 31 March 2013 (\$000)

5.0 Fund Assets

For the current reporting period, Insurer administered funds invested \$52million or 23% in properties, 54% or \$121million in capital market securities, 14% or \$32million in money market securities, 7% or \$15million in other securities and 2% in prescribed assets (See Table 5 and Figure 4, below).

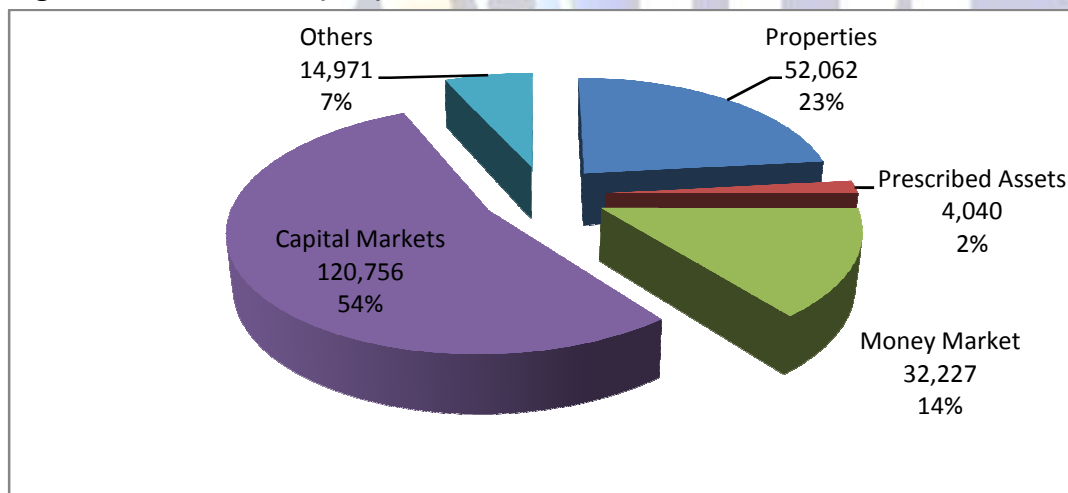

Over the quarter, there was no new paper which was granted prescribed asset status although we have two submissions which are still under consideration.

In conjunction with actuarial input, players must also be stand guided by Circular No.1 of 2013 on investment allocations.

SECTION C:
FUND ADMINISTRATORS

1.0 Fund Administrators

This report is based on 131 funds in the books of the listed administrators (See Table 1, below).As mentioned earlier, statistics for the comparable quarter are not at hand since we commenced

Table 1: Fund Administrators

Fund Administrator	Mar 2013
Aon Consulting	58
Comarton Consultants	29
Marsh	44
TOTALS	131

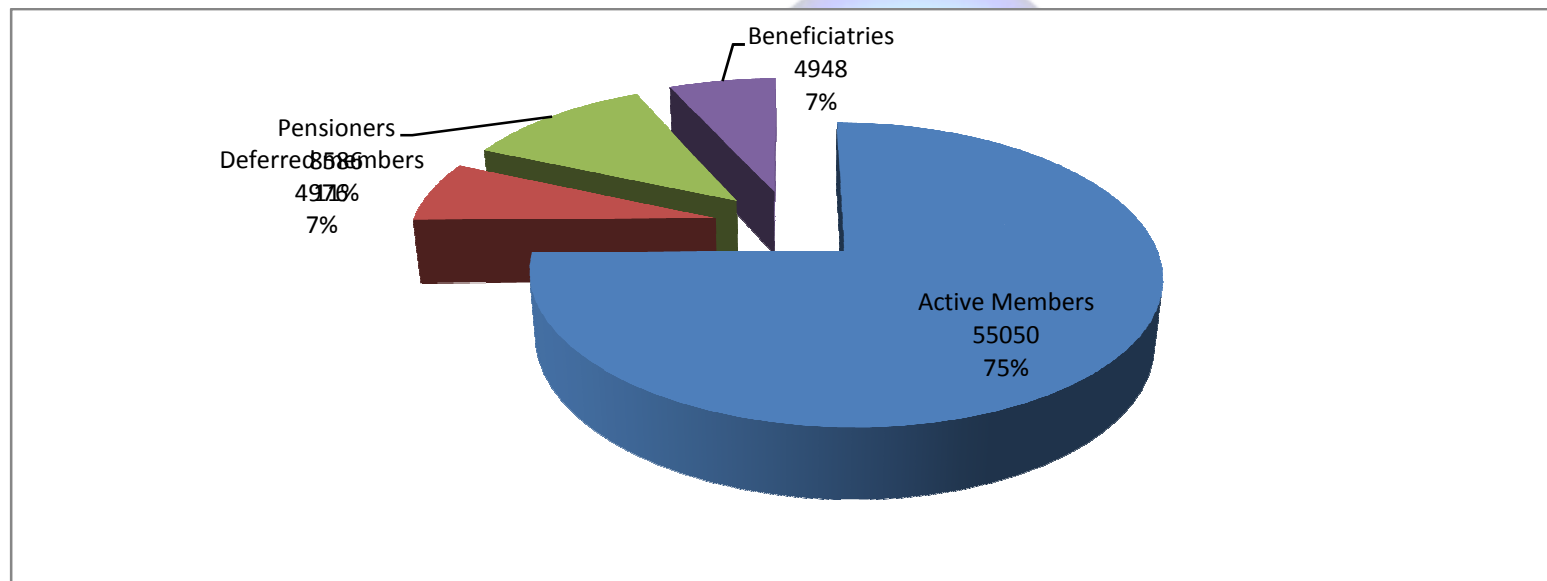

2.0 Pension Fund Membership

Fund membership was composed of 74 000 people contributed by 55 000 actives (75%), pensioners 9 000 (12%) and the balance equally spread between beneficiaries and deferred members .The dominance of active members might be due to the reluctance by pensionable age groups' to retire and some coming out of retirement as a cushion against generally low pension payouts in the market (See Table 2 and figure 1 below).

3.0 Contributions

For the quarter under review, fund administrators reported their contribution statistics as shown in Table 3 and Figure 2 below.

Table 3: Contributions Statistics for Self Administered Funds for the first quarter ended 31 March 2013

Fund Name	Contributions \$(000)						Arrear Contributions \$(000)						Total Contributions \$(000)		
	Members			Employers			Members			Employers					
	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth
Aon	-	3,157		-	6,825		-	1,642		-	2,899		-	14,523	
Comarton	-	375		-	881		-	505		-	10,760		-	12,521	
Marsh	-	3,113		-	4,278		-	-		-	6,847		-	14,238	
Total	-	6,645		-	11,984		-	2,147		-	20,506		-	41,282	

Figure 2: Contributions \$(000)

Total contributions by fund administrators totaled \$41million for the current reporting period. However, \$23million or 55% was in arrears. Various measures are being pursued with key stakeholder buy-in in order to arrest this challenge.

4.0 Income and Expenditure

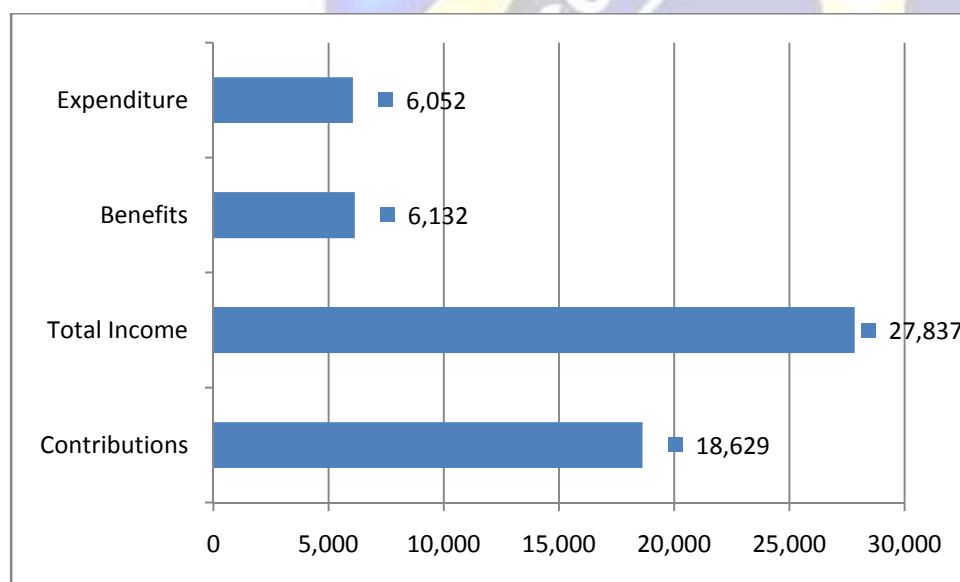

For quarter under review, fund administrators realized \$19million in contributions and \$28million in total income vis-avis a total expenditure of \$6million.

The expenses-to-contributions and expenses-to-income ratios were 32% and 22% respectively. Compared to other fund administrators, professional administrators continued to record the highest expense ratios well beyond the recommended maximum of 10%. The Commission will continue to engage players with a view to rationalize their expenses (See Table 4 and Figure 3 below).

Table 4: Income and Expenditure for Self Administered Funds for the first quarter ended 31 March 2013

Fund Name	Total Contributions(Excl arrears) \$(000)			Total Income \$(000)			Total Paid Benefits \$(000)			Expenses \$(000)			(Expenses/Contributions)%			(Expenses/Total Income)%		
	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth
Aon	-	9,982		-	15,186		-	3,186		-	2,369		-	24%		-	16%	
Comarton	-	1,256		-	2,265		-	780		-	1,185		-	94%		-	52%	
Marsh	-	7,391		-	10,386		-	2,166		-	2,498		-	34%		-	24%	
Totals	-	18,629		-	27,837		-	6,132		-	6,052		-	32%		-	22%

5.0 Fund Assets

For the quarter ended 31 March 2013, fund administrators invested \$65million or 16% in properties,54% or \$215 million in capital market securities,16% or \$80million in money market securities ,6% or \$25million in other securities and 3% in prescribed assets (See Table 5 and Figure 4, below).

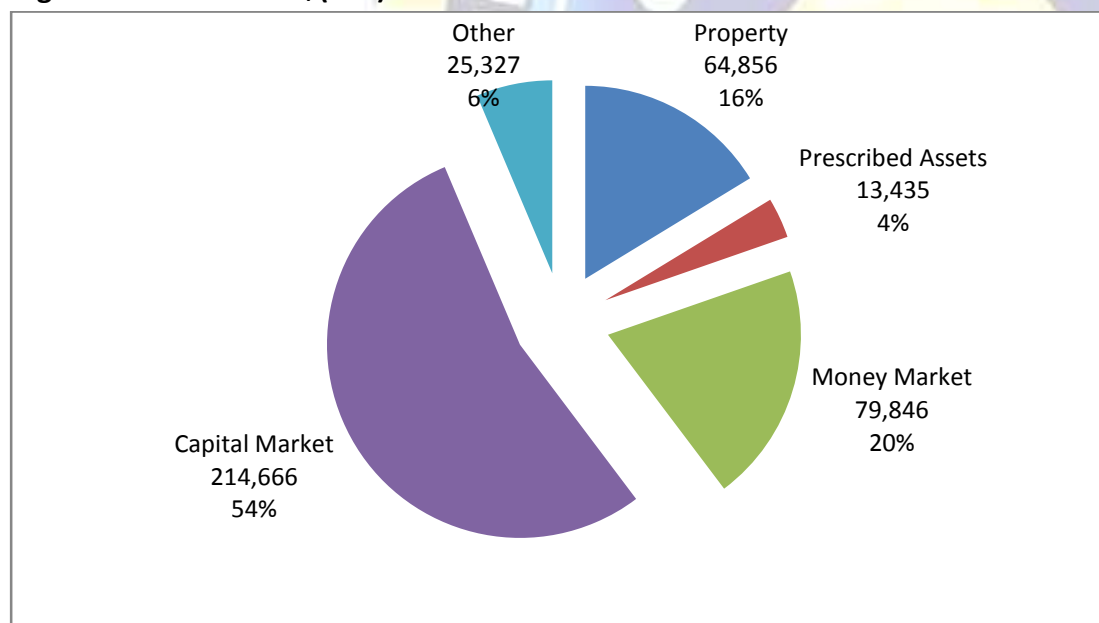

Over the quarter, there was no new paper which was granted prescribed asset status. The market will be appraised as and when new applications will be approved.

In conjunction with actuarial input, players must also be stand guided by Circular No.1 of 2013 on investment thresholds.

Table 5: Fund Asset Statistics at Market Value for Self Administered Funds for the first quarter ended 31 March 2013

Fund Name	Immovable Property \$(000)			Prescribed Assets \$(000)			Money Market Securities \$(000)			Capital Market Securities \$(000)			Other \$(000)			Total \$(000)		
	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth	Mar 2012	Mar 2013	Growth
Aon	-	21,469		-	8,070		-	47,580		-	85,841		-	9,569		-	172,529

6.0 Circulars and Statutory Instruments

For the quarter under review the Commission issued the following circulars and statutory instruments to guide the industry on various issues affecting the operations of the industry:-

Table6: Issued Circulars and Statutory Instruments for the quarter year ended 31 March 2013

Details	Subject Matter	Issue date
Circular No.1 of 2013	Investment guidelines	20 March 2013
Statutory Instrument 20 of 2013	Capital Requirements for fund administrators	22 February 2013
Statutory Instrument 21 of 2013	Capital Requirements for Insurance companies	22 February 2013

Conclusion

Arrear contributions, pension payout arrears and above -10% expense ratios continue to be the biggest challenges. Employers and pension funds should be reminded that the Commission will not hesitate to invoke appropriate statutes in order to protect pension fund members' interest in line with the law. Pension funds should be aware that ALL assets of the fund should be available to pay benefits to members should liquid assets fail to cater for current pension payouts.
