List of Acronyms and Abbreviations

DAC	-	Deferred Acquisition Cost
GPW	-	Gross Premium Written
IBNR	-	Incurred But Not Reported
IPEC/Commission	-	Insurance and Pensions Commission
NEP	-	Net Earned Premium
NPW	-	Net Premium Written
O/S Claims	-	Outstanding Claims
ROA	-	Return on Assets
ROE	-	Return on Equity
UCR	-	Unearned Commission Reserve
UPR	-	Unearned Premium Reserve

Note: Unless stated otherwise, all monetary figures are in United States Dollars.

Executive Summary

This report details the performance of the non-life insurance sector during the year ended 31 December 2016. The number of registered players, including insurance agents and loss adjusters, decreased from 611 as at 30 September 2016 to 573 as at 31 December 2016 mainly due to a reduction in the number of sole agents by 31 participants.

Non-life insurers reported total gross premium written (GPW) amounting to \$215.97 million for the year ended 31 December 2016 compared to the audited GPW of \$213.44 million reported during the previous year. Insurance brokers generated \$90.06 million of gross premium for the year ended 31 December 2016, a 2.97% decline from the \$92.77 million written for the year ended 31 December 2015.

The business written by reinsurers also decreased from \$103.83 million written for the year ended 31 December 2015 to \$99.93 million for the year ended 31 December 2016. Reinsurance brokers contributed 81.22% of the reinsurer's total premiums, writing \$81.16 million premiums for the year ended 31 December 2016.

Of the 20 operational insurers and 8 operational reinsurers, only two players, an insurer and reinsurer reported capital positions below the regulatory minimum capital requirement of \$1.5 million as at 31 December 2016. As at 31 December 2016, 55% (i.e. 11 out of 20) of the insurers were already compliant with the proposed \$2.5 million capital level.

The asset base for the insurance industry increased marginally from \$371.12 million as at 31 December 2015 to \$375.57 million as at 31 December 2016. The industry average prescribed assets ratios for non-life insurers and reinsurers were 12.08% and 12.26% respectively as at 31 December 2016, compared to the minimum requirement of 5% demonstrating a much higher commitment than required.

However, 9 insurers and 1 reinsurer were not compliant with the minimum prescribed asset ratio. The retention ratio, which shows risk appetite, for insurance companies averaged 59.59% as at 31 December 2016, increasing from the 55.64% average as at 31 December 2015. There was however, a slight decline in the retention ratio for non-life reinsurance companies from 72.20% to 69.89% reported as at 31 December 2015 and 2016 respectively.

Profit after tax for direct insurance companies and reinsurers was \$13.4 million \$8.63 million respectively for the year ended 31 December 2016, increasing from the \$4.62 million and \$3.94 million respectively reported for the year ended 31 December 2015. The increases in profit after tax were due to a rise in net premium written and reductions in underwriting and operational expenses.

1. Architecture of the Non-Life Insurance Industry

As at 31 December 2016, there were five hundred and seventy-three (573) registered entities/persons in the non-life insurance industry. The breakdown of the registered persons is shown in Table 1 below:

Table 1: Architecture of the Non-life Insurance Industry

Type of Institution	Number of Registered Entities/Persons			Number of Suspended/ Non-Operating Entities
	30 Jun 16	30 Sep 16	31 Dec 16	31 Dec 16
Insurance Companies	22	22	20	-
Reinsurance Companies*	8	8	8	-
Insurance Brokers**	29	32	32	2
Reinsurance Brokers	6	6	6	-
Loss Assessors	26	27	30	-
Corporate Agents	116	119	111	-
Sole Agents	381	397	366	-
Total	588	611	573	2

*Three of the reinsurers namely FBC Reinsurance Company, First Mutual Reinsurance Company, and Grand Reinsurance Company are composite reinsurers who also write life business. However, the figures in this report pertain to their non-life business only.

**As at 31 December 2016, two insurance brokers namely CBZ Risk Advisory Services and Entwide Insurance Brokers were yet to commence operations pending pre-opening inspections. As at the time of compiling this report, CBZ Risk Advisory Services had commenced operations.

SECTION A

2. SHORT-TERM (NON-LIFE) INSURANCE COMPANIES

Appendix 1A-C has detailed statistics for all the non-life insurers.

2.1. Performance in Terms of Business Written

The volume of business written by the non-life insurance industry in terms of Gross Premium Written (GPW) increased by 1.19% from \$213.44 million for the year ended 31 December 2015 to \$215.97 for the year ended 31 December 2016. Figure 1 below shows the trend in the volume of business since 2012 both in terms of GPW and Net Premium Written (NPW).

Figure 1: Trend in Business Written Since 2012

The slight overall increase recorded in business written in terms of total GPW was mainly driven by the growth in motor insurance business. Total gross premium generated from motor insurance increased by \$7.41 million from \$85.74 million for the year ended 31 December 2015 to \$93.14 million for the year under review. The increase could be explained by the introduction of electric cover notes which meant that most motor vehicles previously insured using fake cover notes are now insured with genuine electronic cover notes and a natural growth in vehicle population. The trend in business written under different classes of business is as shown in Table 2 on the next page.

Table 2: Non-life Insurers' Gross Premium Written by Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	31 Dec 2015	31 Dec 2016	
Aviation	3,004,716	2,845,666	-5.29%
Bonds/Guarantee	11,434,520	9,931,501	-13.14%
Engineering	10,421,805	10,272,157	-1.44%
Farming	2,340,712	1,903,008	-18.70%
Fire	46,540,727	47,026,675	1.04%
Hail	4,254,597	3,636,609	-14.53%
Health	265,079	-	-100.00%
Hire Purchase	1,924,196	1,140,772	-40.71%
Marine	5,851,883	5,585,349	-4.55%
Miscellaneous Accident	17,881,754	18,166,417	1.59%
Motor	85,735,425	93,143,960	8.64%
Personal Accident	22,078,520	19,927,550	-9.74%
Personal Liability	2,972,230	2,393,080	-19.49%
Total	214,706,164	215,972,742	0.59%

*(Note that figures for 2015 in Table 2 are unaudited, hence different Total GPW from that in Figure 1 above).

The business generated by non-life insurers during the year ended 31 December 2016 was largely skewed towards motor and fire insurance which is typical of non-life business in Zimbabwe. The two business classes accounted for 64.90% of total gross premium written. Figure 2 below shows the distribution of total gross premium written across different business classes for the year under review.

Figure 2: Distribution of Insurers' Gross Premium Written by Business Class

2.2. Insurance Penetration and Density

Notwithstanding the marginal increase in the volume of business written by the non-life industry, the contribution of the same industry to the country's GDP as measured by the insurance penetration ratio remained constant at 1.52%. On the other hand, the average per capita spending on non-life insurance as measured by the non-life insurance density decreased marginally from \$15.31 for the year ended 31 December 2015 to \$15.17 for the year ended 31 December 2016. Table 3 below shows the statistics relating to non-life insurance penetration and density since 2012.

Table 3: Non-life Insurance Penetration Ratio and Insurance Density

	2012	2013	2014	2015	2016
GPW (million)	189.92	207.69	208.02	213.44	215.97
Nominal GDP (million)*	12,472.42	13,490.23	14,196.91	14,059.47	14,164.90
Population**	13,061,239	13,368,620	13,652,297	13,943,242	14,240,168
Penetration Ratio	1.52%	1.54%	1.47%	1.52%	1.52%
Insurance Density	\$14.54	\$15.54	\$15.24	\$15.31	\$15.17

**Source: Zimstat - Population Projections Thematic Report

2.3. Capitalisation

All the registered non-life insurance companies, except Credit Insurance Company, reported capital positions which were compliant with the minimum capital requirement of \$1.5 million, as at 31 December 2016. The reported capital positions do not however, account for non-admissible assets. The Commission is in the process of promulgating a Statutory Instrument that will see an upward review of minimum capital requirements for non-life insurers to \$2.5 million as well as accounting for admissible assets for the capital computations. A total of eleven (11) of the twenty (20) insurers were compliant with the proposed \$2.5 million capital level. Table 4 below shows the capital positions reported by all registered non-life insurers.

Table 4: Reported Capital Positions for Non-life Insurers

Name of Insurance Company	Reported Capital Position (\$)			
	31-Dec-15	30-Jun-16	30-Sep-16	31-Dec-16
1. Alliance Insurance Company	5,284,413	5,549,530	5,702,963	5,072,004
2. Allied Insurance Company	1,656,247	1,624,712	1,675,506	1,671,164
3. C.B.Z Insurance Company	4,210,147	4,908,467	5,010,309	5,108,606
4. Cell Insurance Company	1,501,238	1,882,354	2,022,217	4,184,007
5. Champions Insurance Company	2,154,603	2,127,212	2,396,260	3,102,802
6. Clarion Insurance Company	1,682,230	2,091,580	1,755,110	1,634,918

12. Nicoz Diamond Insurance Company	11,149,430	11,128,780	11,167,380	12,123,000
13. Old Mutual Insurance Company	18,060,853	21,051,511	22,003,574	22,676,562
14. Quality Insurance Company	1,675,000	1,648,000	1,714,000	1,727,000
15. Regal Insurance Company	2,818,931	2,907,922	3,177,592	3,032,468
16. Safel Insurance Company	1,753,874	1,732,115	1,763,556	1,673,534
17. Sanctuary Insurance Company	1,665,088	1,414,063	1,502,822	1,564,233

Name of Insurance Company	Reported Capital Position (\$)			
	31-Dec-15	30-Jun-16	30-Sep-16	31-Dec-16
18. THI Insurance (Pvt) Ltd	1,830,717	1,565,682	1,666,889	1,846,570
19. Tristar Insurance Company	2,549,386	2,362,375	2,188,814	2,294,938
20. Zimnat Lion Insurance Company	6,668,371	7,544,167	7,935,395	8,158,327

Key:

	The insurer reported a capital position that was compliant with the minimum capital requirement of \$1.5 million for non-life insurers.
	The insurer reported a capital position which was not compliant with the minimum capital requirement of \$1.5 million.

The non-life insurance industry reported an industry average solvency margin of 73.28% as at 31 December 2016 which compared unfavorably with 77.65% which was reported as at 30 September 2016. All non-life insurance companies reported solvency margins which were above the prescribed minimum of 25% as at 31 December 2016. Other capital indicators are shown in Appendix 1C.

2.4. Asset Quality

Total assets for non-life insurance companies increased by 5.01% to \$197.43 million as at 31 December 2016 from \$188.01 million as at 30 September 2016. The increase in total assets was mainly driven by an increase in total premium debtors from \$30.09 million as at 30 September 2016 to \$36.81 million as at 31 December 2016. The observed increase in total assets during the quarter under review is in line with the trend observed since 2012, which is attributable to tobacco insurance, where premiums are only collected in arrears at the end of the tobacco farming season. Figure 3 below shows the trend in total assets since 2012.

The asset base for non-life insurers was considered moderately concentrated, cash and cash equivalents as well as premium debtors being the two major asset classes accounting for 24.77% and 18.64% of total assets respectively, as at 31 December 2016. Figure 4 below shows the distribution of total assets across different asset classes.

Figure 3: Trend in Total Assets

The Commission noted with concern the significant proportion of total assets i.e. 36.54% that was tied up in fixed assets and premium debtors as at 31 December 2016. Having a significant proportion of total assets tied in such assets compromises the insurers' ability to meet their obligations since assets such as fixed assets and premium debtors cannot provide quick liquidity to expunge the liabilities of non-life insurers. The Commission encourages insurers to devise strategies that will ensure increasing the amount of liquid assets to match their liabilities.

The industry average prescribed assets ratio decreased marginally from 13.36% as at 30 September 2016 to 12.08% as at 31 December 2016. It is of concern that nine (9) non-life insurers were not compliant with the minimum regulatory prescribed asset ratio of 5%. (See Appendix 1C for more indicators of asset quality).

Figure 4: Distribution Non-life Insurers' Total Assets

NB: Technical assets refer to reinsurers' share of outstanding claims and deferred acquisition cost.

2.5. Reinsurance

The non-life insurance sector exhibited a modest increase in their risk appetite as evidenced by growth in retention ratio from 55.64% for the year ended 31 December 2015 to 59.59% for the year ended 31 December 2016. The retention ratios for individual insurers for the year ended 31 December 2016 are shown in figure 5 below and the trend from the year ended 31 December 2009 to the year ended 31 December 2016 is shown in Figure 6 below.

The non-life insurance industry recorded an improvement in premium remittances towards their reinsurance programmes. This is evidenced by the decrease in reinsurance creditors to reinsurance premium ratio from 28.06% for the year ended 31 December 2015 to 20.53% for the year ended 31 December 2016. However, some insurers still reported significant outstanding obligations to their reinsurers, with the ratio of reinsurance creditors to reinsurance premiums for individual insurers ranging from negative 3.86% to 10,857% for the year under review. Ratios above 100% may indicate that the insurers have outstanding reinsurance obligations dating back before 1 January 2016. Such a scenario compromises reinsurance arrangements of insurers for effective spreading of risk.

Figure 5: Retention Ratios for Non- Life insurers (year ended 31 December 2016)

Figure 6: Retention Ratios for Short Term Insurance Companies (2009 -2016)

2.6. Actuarial Matters

Total technical liabilities for non-life insurers increased from \$52.31 million as at 30 September 2016 to \$55.38 million as at 31 December 2016. The increase emanated from an upward movement in unearned premium reserves from \$25.66 million as at 30 September 2016 to \$27.28 million as at 31 December 2016.

The non-life direct insurance industry was noted to have adequate assets to match technical liabilities. This is evidenced by the ratio of liquid assets to total reserves which was 126.47% as at 31 December 2016. However, some insurers had inadequate liquid resources to match their reserves since they reported ratios of liquid assets to reserves which were below 100%. The same ratio ranged from 7.19% to 2,343.49% across the insurers as at 31 December 2016. (See Appendix 1C).

2.7. Earnings

Total profit after tax for non-life insurers increased significantly from \$4.62 million for the year ended 31 December 2015 to \$13.40 million for the year ended 31 December 2016. The increase in profit after tax was driven by an increase in net premium written by \$9.94 million and a decline in operating expenses from \$54.13 million for the year ended 31 December 2015 to \$49.97 million for the year under review. Owing to the increase in profit after tax, the industry average return on assets (ROA) and return on equity of (ROE) improved from 2.54% and 5.78% for the year ended 31 December 2015 to 7.06% and 15.35% respectively, for the year under review.

Underwriting remained the major income driver for non-life insurers as reflected by the low ratio of investment income to net premium written which was 3.95% for the year ended 31 December 2016. The underwriting profitability of non-life insurers improved during the year under review as indicated by the decrease in the combined ratio from 97.34% for the year ended 31 December 2015 to 93.32% for the year ended 31 December 2016.

2.8. Liquidity

Total readily liquid assets i.e. cash and near cash assets, money market investments and prescribed assets, for the non-life insurance industry amounted to \$70.03 million as at 31 December 2016, representing a 3.32% increase from \$67.78 million that was reported as at 31 September 2016. Notwithstanding the increase in total cash and cash equivalents, there were no significant changes in the liquidity of the non-life insurance industry during the quarter under review. This is evidenced by the marginal decrease in the acid test ratio from 80.56% as at 30 September 2016 to 80.37% as at 31 December 2016. The acid test ratio indicates that the industry had approximately \$0.81 in every dollar of readily liquid assets for every dollar of current liabilities. The acid test ratio for the industry as at 31 December 2016 ranged from 5.88% to 656.19% (see Appendix 1C).

2.9. Market Share for Non-Life Insurers

The non-life insurance market recorded Herfindahl Indices of 0.11 and 0.12 in terms of Gross Premium Written (GPW) and Net Premium Written (NPW) for the year ended 31 December 2016, respectively. As a result, the non-life insurance market was considered to be moderately concentrated. Old Mutual Insurance Company, Alliance Insurance Company and Nicoz Diamond Insurance Company were the market leaders in terms of business written as shown in Figure 7 on the next page. The three insurers had combined market shares of 45.62% and 47.01% in terms GPW and NPW respectively.

The same insurers were also the market leaders in terms of total assets reported as at 31 December 2016 as depicted in Figure 8 on the next page.

Figure 7: Market Share for Insurers in Terms of GPW and NPW

Figure 8: Market Share for Insurers in Terms of Total Assets

SECTION B

3. REINSURANCE COMPANIES

Please note that the figures for PTA Reinsurance Company (Zep-Re) contained in this report are only for the institution's Regional Hub Office located in Zimbabwe and not for the company as a whole. The Regional Hub Office writes business in Zimbabwe, Swaziland, Botswana, Namibia, and South Africa among others. PTA Reinsurance Company was formed under the auspices of COMESA and writes business in all COMESA member states. The Regional Hub Office is supported by the balance sheet of Zep-Re as a whole. Detailed statistics for all reinsurers are shown in Appendix 2A-C.

3.1. Performance in Terms of Business Written

The volume of business written by non-life reinsurers shrunk marginally as evidenced by a 2.67% decrease in total gross premium written (GPW) from \$103.83 million for the year ended 31 December 2015 to \$99.93 million for the year ended 31 December 2016. The decrease in total GPW was mainly attributable to the contraction in engineering and personal accident by a total of \$5.27 million during the period under review. Figure 9 below shows the trend in the volume of business since 2012.

Figure 9: Trend in Business Written

Aviation and health reinsurance recorded the highest growth for non-life reinsurers in terms of GPW for the period under review. However, health insurance had no premium indicated for non-life insurers due to classification differences between non-life insurers and reinsurers. Table 5 below shows the growth recorded in different classes of business for non-life reinsurers.

Table 5: Reinsurers' Gross Premium Written by Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	31 December 2015	31 December 2016	
Aviation	1,042,320	3,385,611	224.81%
Bonds/Guarantee	842,606	699,577	-16.97%
Engineering	8,934,146	6,083,699	-31.91%
Farming	8,822,344	9,849,677	11.64%
Fire	41,273,901	41,572,801	0.72%
Hail	1,747,910	335,700	-80.79%
Health	329,956	735,860	123.02%
Hire Purchase	120,556	103,562	-14.10%
Marine	3,621,893	3,340,864	-7.76%
Miscellaneous Accident	11,092,742	11,203,091	0.99%
Motor	16,365,617	15,676,216	-4.21%
Personal Accident	6,562,481	4,143,818	-36.86%
Personal Liability	3,069,286	2,801,630	-8.72%
Total	103,825,758	99,932,105	-3.75%

*(Note that figures for 2015 in Table 5 are unaudited, hence different Total GPW from that in Figure 9 above).

Fire and motor classes were the largest sources of business for reinsurers and the two business classes accounted for 41.60% and 15.69% of total gross premium written during the year under review respectively. Generally, fire insurance business is characterized by low frequency but high severity claims hence insurers usually pass on this risk to reinsurers. This is indicated by the \$41.57 million fire premium written by reinsurers accounting for 88.40% of the \$47.03 million written by non-life insurers (subject to minor adjustments for foreign reinsurance business written). Figure 10 below shows the distribution of gross premium written for the year under review across different classes of business.

Figure 10: Distribution of Reinsurers' GPW by Business Class

3.2. Capitalisation

All operational non-life reinsurers except Colonnade Reinsurance Company were compliant with the minimum capital requirement of \$1.5 million, stipulated in Statutory Instrument 21 of 2013, as at 31 December 2016. Table 6 below shows capital positions for all reinsurance companies.

The Commission is drafting a Statutory Instrument for the implementation of the \$5 million minimum capital requirement for reinsurers as announced by the Minister of Finance and Economic Development in the 2016 Budget Statement. A total of five (5) out of eight (8) (62.5%) of the reinsurers were already compliant with the proposed \$5 million requirement as at 31 December 2016.

The industry average solvency margin for non-life reinsurers was 116.34% as at 31 December 2016 which was significantly above the minimum requirement of 25%. The solvency margin for reinsurers as at 31 December 2016 ranged from 44.36% to 449.33%. See Appendix 2C for more information.

Table 6: Reported Capital Positions for Non-Life Reinsurers

Name of Company	Reported Capital Position (\$)			
	31 Dec 15	30 Jun 16	30 Sep 16	31 Dec 16
1. Baobab Reinsurance Company	30,798,757	32,221,052	32,210,817	33,016,919
2. Colonnade Reinsurance Company	1,524,117	1,520,580	1,530,642	1,176,658
3. FBC Reinsurance Company	11,843,893	12,325,991	12,140,139	12,755,334
4. FMRE Property & Casualty	6,902,717	6,986,218	8,567,092	9,194,578
5. Grand Reinsurance Company	13,150,970	5,282,497	5,550,325	5,320,775
6. Tropical Reinsurance Company	3,723,475	4,253,100	4,499,450	4,634,960
7. ZB Reinsurance Company	9,474,645	9,995,310	9,798,680	10,036,060
8. PTA Reinsurance Company (Zep Re)	3,504,129	4,705,323	4,349,263	2,947,813

Key:

	The reinsurer reported a capital position that was compliant with the then minimum capital requirement of \$1.5 million.
	The insurer reported a capital position which was not compliant with the then minimum capital requirement.

3.3. Asset Quality

Non-life reinsurers' total assets decreased by 5.39% to \$132.85 million from \$140.21 million as at 31 December 2016 and 30 September 2016 respectively. Though there was an increase of \$2.01 million in the uptake of prescribed assets, the overall decline in the asset base of non-life reinsurers was a result of a combination of variables that include a \$1.84 million decline in money market investments as well as \$2.65 million reduction in premium receivables. The decline in money market investments was a result of companies moving some of their investments to prescribed assets in order to comply with statutory requirements. The decline in premium debtors was mainly due to the tenors of most annual treaty agreements expiring at year end and being settled as well as the writing-off of some irrecoverable premium debts. The trend in total assets from 1 January 2012 to 31 December 2016 is shown in figure 11 on the next page.

Figure 11: Trend in Total Assets

The asset base of the non-life reinsurers was spread among various asset classes as shown in figure 12 below. However, 19.93% of total assets invested in associated companies may compromise the ability of the reinsurance sector to appropriately match liabilities.

Figure 12: Breakdown of Non-Life Reinsurers' Total Assets

The industry average prescribed asset ratio was 12.26% as at 31 December 2016, which was higher than the 9.84% as at 30 September 2016. Only one reinsurer was not compliant with the minimum prescribed asset ratio of 5%. See Appendix 2C for more information.

3.4. Retrocession

The industry average retention ratio was 68.02% for the year ended 31 December 2016 compared to 72.20% that was reported for the year ended 31 December 2015. The change reflects a reduction in the risk appetite of the reinsurers. The retention ratios for individual reinsurers from the year ended 31 December 2016 and the trend for all reinsurers from the year ended 31 December 2010 to the year ended 31 December 2016 are shown in figures 13 and 14 below.

Unlike in the case of direct non-life insurers, non-life reinsurers were fairly up to date with their retrocession premium remittances. This is evidenced by the low industry average reinsurance creditors to reinsurance premiums which was 16.03% as at 31 December 2016 compared to 26% reported as at 31 December 2015. The same ratio for the sector ranged from nil to 130.71% as at 31 December 2016. (See Appendix 2C).

Figure 13: Retention Ratios for Reinsurers (year ended 31 December 2016)

I P E C / 2 0 1 6 / 0 4

Figure 14: Retention Ratios for Reinsurers (2010 – 2016)

3.5. Actuarial Matters

As at 31 December 2016, non-life reinsurers' total technical liabilities amounted to \$30.33 million, reflecting a 9.87% decrease from \$33.65 million reported as at 30 September 2016. The largest proportion of total reserves was attributable to unearned premium reserves (UPR) which amounted to \$16.49 million and accounted for 54.37% of total technical liabilities. The predominance of the UPR reserve in technical liabilities was a result of treaty programs for the year 2017 which are generally concluded during the fourth quarter.

The non-life reinsurance sector's average total liquid investments to reserves ratio was 156.03% as at 31 December 2016. This means that the sector had adequate resources to match the technical liabilities as at 31 December 2016. However, two reinsurers reported ratios which were below 100%, an indication that they may not have adequate liquid assets to match their reserves. (See Appendix 2C). The Commission will engage the two reinsurers with a view to take corrective action.

3.6. Earnings

Total profit after tax for non-life reinsurers increased significantly from \$3.94 million for the year ended 31 December 2015 to \$8.63 million for the year ended 31 December 2016. The increase in total profit after tax was mainly attributable to decreases in operating expenses by a total of \$5.11 million during the year ended 31 December 2016 compared to the 31 December 2015 reported figures. As a result of the growth in profit after tax, the industry average return on equity (ROE) and return on assets (ROA) improved from 5.30% and 3.12% for the year ended 31 December 2015 to 10.77% and 6.46% respectively, for the year under review.

Underwriting was the major income driver for non-life reinsurers with underwriting profit accounting for 50.31% (\$5.05 million) of the \$10.04 million pre-tax profits for the year ended 31 December 2016. Investment income accounted for 38.22% (\$3.84 million) of pre-tax profit for the year ended 31 December 2016, while the other 11.47% was made up of unrealized gains on investments and other income.

The loss ratio as at 31 December 2016 remained largely constant at 40.87% compared to the previous year figure of 40.99%. There was a decrease in the net expenses ratio from 27.52% recorded for the previous year to 22.40% for the year ended 31 December 2016. This resulted in the combined ratio improving from 97.34% for the year ended 31 December 2015 to 92.67% for the year under review.

Hail, bonds/guarantees and farming reinsurance reported the highest loss plus commission ratios for the year ended 31 December 2016. On the other hand, hire purchase, personal liability and aviation were the most profitable classes of business in terms of the loss plus commission ratios as shown in Table 7 below:

Table 7: Loss Ratios by Class of Business for Reinsurers

Business Class	Loss Ratio	Net Commission Ratio	Loss + Commission Ratio
Hail	449.14%	28.55%	477.69%
Bonds/Guarantees	66.38%	65.16%	131.54%
Farming	79.79%	30.39%	110.18%
Motor	64.85%	27.06%	91.91%
Health	60.44%	14.46%	74.90%
Miscellaneous Accident	30.00%	33.08%	63.08%
Marine	43.04%	19.81%	62.85%
Fire	30.54%	28.28%	58.82%
Personal Accident	25.86%	29.90%	55.76%
Engineering	19.00%	21.92%	40.92%
Aviation	17.22%	20.55%	37.77%
Personal Liability	1.63%	10.77%	12.40%
Hire Purchase	5.06%	26.56%	31.62%
Industry Average	40.87%	29.40%	70.27%

3.7. Liquidity

The liquid assets held by non-life reinsurers improved from \$46.78 million as at 30 September 2016 to \$47.32 million as at 31 December 2016. The liquid asset increase was a result of the mentioned \$2.01 million increase in prescribed assets for the sector. The average acid test ratio for individual non-life reinsurers as at 31 December 2015 was 104.28%. This indicated an adequate liquidity level for the sector needed to meet liabilities to insurers and policyholders' as they are incurred. The acid test ratios for non-life reinsurers ranged from 13.56% to 213.48% (see Appendix 2C under Liquidity).

3.8. Market Share for Reinsurers

The non-life reinsurance industry recorded a Herfindahl Index of 0.14 in terms of gross premium written and 0.15 in terms of net premium written for the year ended 31 December 2016. As a result, the Zimbabwean non-life reinsurance industry was therefore considered moderately concentrated. ZB Reinsurance Company, First Mutual Reinsurance Company and FBC Reinsurance Company remained the market leaders in terms of both GPW and NPW with combined market shares of 50.42% and 53.82% respectively as shown in Figure 15 below.

Figure 15: Market Share for Reinsurers in Terms of GPW and NPW

Baobab Reinsurance Company, FBC Reinsurance Company and Grand Reinsurance Company remained the market leaders, in terms of total assets. These three reinsurers had a combined market share of 64.51% as at 31 December 2016. Figure 16 on the next page shows the market share of all reinsurers in terms of total assets.

Figure 16: Market Share for Reinsurers in Terms of Total Assets

SECTION C
INSURANCE BROKERS

4.1 Business Written

Insurance brokers wrote \$90.06 million in business for the year ended 31 December 2016, accounting for 41.70 % of the total GPW for non-life insurers. The business written by insurance brokers was 2.92% lower than the \$92.77 million reported for the year ended 31 December 2015. Of the \$90.06 million total premium written for the year 2016, 22% was written in the fourth quarter of the year with 23%, 28% and 27% being written in the third, second and first quarter respectively. The percentage distribution of business per quarter indicates that brokers wrote most of their business in the first half of 2016. Insurance brokers received \$15.82 million net brokerage commission for year under review, reflecting a 6.30% decline from \$16.89 million reported for the year ended 31 December 2015.

The total commission translated to an industry average commission rate of 17.04% for the year ended 31 December 2016, a marginal decrease from the 17.52% reported in the prior year. Table 8 below shows key indicators for the business written by the insurance brokers (in \$).

Table 8: Indicators of Business Written for Insurance Brokers

Indicator	31 Dec 2015	31 Dec 2016	Percentage Change
Premium Written	92,770,029	90,060,234	-2.92%
Brokerage Commission	16,888,200	15,824,473	-6.30%
Premium Written Less Commission	75,881,829	74,235,761	-2.17%
Commission Paid	631,228	476,516	-24.51%
Net Brokerage Commission	16,256,971	15,347,956	-5.59%
Other Income	1,067,573	1,202,536	12.64%
Operating Expenses	15,699,831	15,118,032	-3.71%
Profit Before Tax	1,624,713	1,432,460	-11.83%
Taxation	417,674	412,207	-1.31%
Profit After Tax	1,207,034	1,020,253	-15.47%

4.2 Capitalisation

As at 31 December 2016, three insurance brokers namely Ambassador Insurance Brokers, Broksure Insurance Brokers and Rainbow Insurance Brokers reported capital positions which were below \$100,000. The capital positions for the insurance brokers ranged from \$15 071 to \$1.36 million as shown in Table 9 below:

Table 9: Reported Capital Levels for Insurance Brokers

Name Insurance Broker	31-Mar-16	30-Jun-16	30-Sep-16	31-Dec-16
1. Ambassador Insurance Brokers	77,379	94,530	96,047	99,150

29. WFDR Risk Services	283,829	295,806	284,219	367,042
30. Zimbabwe Insurance Brokers	178,782	209,330	208,250	175,352

Key:

	The insurance broker reported a capital position that was above \$100,000.
	The insurance broker reported a capital position that was below \$100,000.

4.3 Asset Quality

The asset base for insurance brokers increased from \$25.48 million as at 31 December 2015 to \$25.82 million as at 31 December 2016. The increase in assets was mainly attributable to a growth in investments from \$0.47 million to \$1.34 million reported as at 31 December 2015 and 31 December 2016 respectively. The asset base for insurance brokers was skewed towards property as well as cash and cash equivalents which accounted for more than 46% of the total assets as at 31 December 2016.

4.4 Earnings

Insurance brokers reported a 15.47% decrease in total profit after tax from \$1.21 million for the year ended 31 December 2015 to \$1.02 million for the year ended 31 December 2016. This was mainly due to a decrease in net brokerage commission from \$16.25 million for the year ended 31 December 2015 to \$15.35 million for the year under review. The industry average return on equity (ROE) and return on assets (ROA) also decreased from 13.45% and 4.74% as at 31 December 2015 to 9.85% and 3.95% respectively as at 31 December 2016.

4.5 Market Share for Insurance Brokers

Based on the business written for the year ended 31 December 2016, Minerva Risk Solutions, Marsh Insurance Brokers Zimbabwe and HRIB were the market leaders in terms of both business written as well as brokerage income, with combined market shares of 39.99% and 39.78% with respect to these two aspects. Figure 17 below shows the market shares for insurance brokers in terms of net brokerage commission and premium written.

In terms of total assets, Minerva Risk Solutions, Progressive Insurance Brokers and Marsh Insurance Brokers were the market leaders as shown in Figure 18 below.

Figure 17: Market Share in Terms of Net Brokerage Commission and Gross Premium Written

Figure 18: Market Share for Insurance Brokers in Terms of Total Assets

SECTION D
REINSURANCE BROKERS

5.1 Business Written

Reinsurance brokers wrote \$81.16 million gross premium for the year ended 31 December 2016 reflecting a 15.74% increase from the \$70.12 million reported for the year ended 31 December 2015. The business generated by reinsurance brokers accounted for 81.22% of the total gross premium written by non-life reinsurers. This indicates that the business of non-life reinsurers is mainly broker driven. The industry average commission ratio for reinsurance brokers was 22.04% for the year ended 31 December 2016, reflecting a marginal improvement from 20.13% reported for the comparative period in 2015. Key indicators of business written by reinsurance brokers (in US\$) are shown in Table 10 below:

Table 10: Indicators of Business Written for Reinsurance Brokers

Indicator	31 Dec 2015 (\$)	31 Dec 2016 (\$)	Percentage Change
Premium Written	70,117,146	81,156,272	15.74%
Brokerage Commission	14,111,378	17,887,712	68.06%
Premium Written Less Commission	56,006,038	63,268,559	12.97%
Commission Paid	11,110,136	14,501,436	31.82%
Net Brokerage Commission	3,110,242	3,386,276	8.88%
Other Income	84,204	75,450	-10.40%
Operating Expenses	2,392,219	2,455,222	2.63%
Profit Before Tax	802,226	1,006,504	25.46%
Taxation	251,797	299,186	18.82%
Profit After Tax	550,429	707,318	28.50%

5.2 Capitalisation

All the reinsurance brokers reported capital positions which were above \$100,000 as at 31 December 2016. Table 11 below shows the capital positions reported by all reinsurance brokers:

Table 11: Capital Levels for Reinsurance Brokers

Name of Company	Reported Capital Position (\$)			
	31-Mar-16	30-Jun-16	30-Sep-16	31-Dec-16
1. Afro-Asian Reinsurance Brokers	120,494	108,295	110,937	104,623
2. Classic Reinsurance Brokers	119,182	117,082	117,982	117,382
3. Marsh Insurance Brokers	54,539	103,120	51,647	111,264
4. Minerva Re (Private) Limited	1,922,268	2,125,426	2,476,440	2,301,582
5. Pan African Re	616,238	666,575	719,082	750,567
6. Reinsurance Brokers International	154,063	141,694	170,725	155,081

5.3 Asset Quality

Reinsurance brokers reported total assets amounting to \$21.32 million as at 31 December 2016, reflecting a 23.52% increase from \$17.26 million reported as at 31 December 2015. The increase was mainly buoyed by an increase in cash and cash equivalents from \$1.75 million reported as at 31 December 2015 to \$4.68 million as at 31 December 2016. Premiums receivable and cash and cash equivalents respectively accounted for 66.80% and 21.96% of the total assets for reinsurance brokers as at 31 December 2016, indicating high exposure to credit risk and an uneven distribution of assets.

5.4 Earnings for Reinsurance Brokers

Total profit after tax for reinsurance brokers increased by 28.50% from \$550 429 for the year ended 31 December 2015 to \$707 318 for the year ended 31 December 2016. The growth in profit after tax was on the back of an \$11.4 million increase in GPW for the year ended 31 December 2016 which translated into a rise in net commission income for the reinsurance brokers from \$3.1 million reported as at 31 December 2015 to \$3.9 million as at 31 December 2016.

Notwithstanding the above-mentioned increase in profit after tax, the industry average return on equity (ROE) and return on assets (ROA) deteriorated from 20.15% and 3.19% as at 31 December 2015 to 19.98% and 3.32% respectively for the period under review.

5.5 Market Share for Reinsurance Brokers

Minerva Re (Private) Limited continues to be the most dominant reinsurance broker in terms of business written, commission generated and total assets. The market share for all the reinsurance brokers for the period under review is as shown in Table 12 below:

Table 12: Market Share for Reinsurance Brokers

Name of Reinsurance Broker	Net Brokerage Commission	Premium Written	Total Assets
1. Minerva Re (Private) Limited	69.49%	61.46%	79.91%
2. Pan African Reinsurance Brokers	15.72%	19.52%	9.15%
3. Marsh	12.47%	16.79%	7.09%
4. Reinsurance Brokers International	1.83%	1.62%	2.44%
5. Afro-Asian Reinsurance Brokers	0.49%	0.62%	0.86%
6. Classic Reinsurance Brokers*	-	-	0.55%
Total	100%	100%	100%

**The reinsurance broker did not write any business during the period under review.*
