Executive Summary

This report details the performance of the non-life insurance sector during the quarter ended 30 September 2016. Total gross premium written by non-life insurers increased by 1.11% from \$153.60 million for the nine months ended 30 September 2015. The increase was driven by growth in business generated from Motor insurance which growth could be attributable to the issuance of electronic cover notes. Insurance brokers handled business whose total premium amounted to \$70.46 million during the period under review. Non-life insurers reported an increased risk retention from 56.28% for the nine months ended 30 September 2015 to 59.36% for the nine months' period under review. As a result of the increase in the risk retention by direct non-life insurers, total gross premium written by non-life reinsurers decreased from \$83.37 million for the nine months ended 30 September 2015 to \$81.52 million for the nine months ended 30 September 2016. The business generated by reinsurance brokers during the nine months' period under review amounted to \$65.12 million. Motor and fire insurance remained the dominant classes of insurance in the non-life insurance sector. All the underwriters reported capital positions which were above the minimum regulatory requirement as at 30 September 2016. Although the insurers reported capital positions which were above the minimum requirements, some insurers exhibited weaknesses in respect of liquidity since the bulk of their assets were tied up in illiquid assets such as properties. Total assets for the insurance industry decreased from \$391.07 million as at 30 June 2016 to \$381.07 million as at 30 September 2016. The decrease was mainly driven by a fall in premium debtors. Non-life insurers and reinsurers reported industry average prescribed assets ratios of 13.36% and 9.84% respectively as at 30 September 2016 which ratios were above the minimum requirement of 5%. Notwithstanding the above position, seven (7) insurers and one reinsurer were not compliant with the minimum prescribed asset ratio. Total profit after tax for insurers and reinsurers increased from \$3.65 million and \$3.56 million for the nine months ended 3 September 2015 to \$9.85 million and \$5.53 million for the nine months ended 30 September 2016 respectively. The increase in profit after tax for both direct insurers and reinsurers was on the back of decreasing operating expenses and as well as increased risk retention.

1. Architecture of the Non-Life Insurance Industry

There were six hundred and eleven (611) registered entities/persons in the non-life insurance industry as at 30 September 2016. The architecture of the industry is shown in Table 1 below.

Table 1: Architecture of the Non-life Insurance Industry

Type of Institution	Number of Registered Entities/Persons			Number of Suspended/ Non-Operating Entities
	31 Mar 16	30 Jun 16	30 Sep 16	30 Sep 16
Insurance Companies	23	22	22	2
Reinsurance Companies	8	8	8	-
Insurance Brokers	29	29	32	2
Reinsurance Brokers	6	6	6	-
Loss Assessors	24	26	27	-
Corporate Agents	129	116	119	-
Sole Agents	390	381	397	-
Total	609	588	611	4

Although Excellence Insurance Company and Heritage Insurance Company were suspended from initiating and renewing insurance business as at 30 September 2016, by the time of compiling this report, they had been deregistered. The Commission, as at 30 September 2016, had registered two additional insurance brokers namely Entwide Insurance Brokers and CBZ Risk Advisory Services. However, the two brokers were yet to commence operating as at 30 September 2016.

SECTION A

2. SHORT-TERM (NON-LIFE) INSURANCE COMPANIES

Please note that the analysis of performance of the non-life insurance sector does not include statistics for companies which were under suspension as at the reporting date. Appendix 1A-C has detailed statistics for all the non-life insurers.

2.1. Performance in Terms of Business Written

Total Gross Premium Written (GPW) by direct non-life insurers amounted to \$155.31 million for the nine months ended 30 September 2016 reflecting a 1.11% increase from \$153.60 million reported for the comparative period in 2015. The increase in total GPW was driven by the growth in motor insurance business which grew by 7.70% during the period under review. This growth could be attributable to issue of electronic cover notes which implies that most motor vehicles which had fake insurance now have genuine insurance reported in the books of duly registered insurers. Table 2 below shows the growth in each class of non-life insurance during the period under review. The distribution of business written in terms of GPW remained skewed towards motor and fire insurance with the two classes accounting for 63.17% of the total business written during the period under review.

Table 2: Non-life Insurers' Gross Premium Written by Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	30 Sep 2015	30 Sep 2016	
Aviation	1,743,661	2,657,328	52.40%
Bonds/Guarantee	9,262,092	8,014,513	-13.47%
Engineering	8,792,719	9,109,713	3.61%
Farming	747,434	1,152,131	54.14%
Fire	30,837,573	29,883,370	-3.09%
Hail	-	89,752	-
Health*	188,421	-	-100.00%
Credit/Hire Purchase	1,333,877	702,866	-47.31%
Marine	4,063,829	4,013,499	-1.24%
Miscellaneous Accident	14,442,994	13,935,068	-3.52%
Motor	63,349,096	68,224,013	7.70%
Personal Accident	16,690,288	15,793,233	-5.37%
Personal Liability	2,014,374	1,731,505	-14.04%
Total	153,600,660	155,306,991	1.11%

2.2. Capitalization

All the operating non-life insurance companies reported capital positions which were above \$1.5 million as well as solvency margins which were above the minimum regulatory requirement of 25% as at 30 September 2016. The industry average solvency margin was 77.65% as at 30 September 2016. Notwithstanding the reported capital positions which were above the regulatory minimum, a close analysis of the statements of financial positions shows that some insurers were not compliant with minimum capital requirements if non-permissible assets such as deferred acquisition cost, related party exposures, premium debtors aged more than 90 days, among others, are to be deducted from the capital computation for regulatory purposes. (See Appendix 1B for the composition of each insurer's asset base).

Table 3: Reported Capital Positions for Non-life Insurers

Name of Insurance Company	Reported Capital Position (\$)			
	31 Dec-15	31-Mar-16	30-Jun-16	30-Sep-16
1. Alliance Insurance Company	5,284,413	5,462,628	5,549,530	5,702,963

11. Hamilton Insurance Company	2,174,021	1,731,100	1,916,211	2,371,305
12. Nicoz Diamond Insurance Company	11,149,430	10,922,150	11,128,780	11,167,380
13. Old Mutual Insurance Company	18,060,853	19,480,169	21,051,511	22,003,574
14. Quality Insurance Company	1,675,000	1,518,000	1,648,000	1,714,000

Name of Insurance Company	Reported Capital Position (\$)			
	31 Dec-15	31-Mar-16	30-Jun-16	30-Sep-16
15. Regal Insurance Company	2,818,931	2,907,921	2,907,922	3,177,592
16. Safel Insurance Company	1,753,874	1,823,493	1,732,115	1,763,556
17. Sanctuary Insurance Company	1,665,088	1,566,526	1,414,063	1,502,822
18. THI Insurance (Pvt) Ltd	1,830,717	2,002,317	1,565,682	1,666,889
19. Tristar Insurance Company	2,549,386	2,435,622	2,362,375	2,188,814
20. Zimnat Lion Insurance Company	6,668,371	7,112,916	7,544,167	7,935,395

Key:

	The insurer reported a capital position that was above the requirement of \$1.5 million.
	The insurer reported a capital position which was below \$1.5 million.

2.3. Asset Quality

Total assets for non-life insurers decreased from \$191.06 million as at 30 June 2016 to \$188.01 million as at 30 September 2016. The decrease in total assets was mainly owing to a decline in investments in prescribed assets and money market investments which decline totaled \$17.39 million. The decrease in money market investments was in tandem with the reported increase in investments in prescribed assets implying that the investments in prescribed assets could have been mainly funded by disinvestments from money market investments. The decrease in total assets experienced is in line with the trend observed over the years where premium debtors on annual policies are realized and written off as policies reach their anniversary date.

The asset base for non-life insurers was fairly distributed across different asset classes as shown in Figure 1 below. However, the Commission notes with concern the significant proportions of assets which were tied up in fixed assets and premium debtors. Such assets may not be readily available to meet policyholder obligations as and when they fall due. The Commission urges the industry players to come up with strategies to reduce assets in such classes. On the other hand, total assets attributable to cash and cash equivalents, prescribed assets and equities which can easily match non-life insurance liabilities accounted for 51.65% as at 30 September 2016.

Figure 1: Distribution Non-life Insurers' Total Assets

NB: Technical assets refer to reinsurers' share of outstanding claims and deferred acquisition cost.

Notwithstanding the fact that the industry average prescribed assets ratio of 13.36% reported as at 30 September 2016 was compliant with the minimum requirement of 5%, a total of seven (7) insurers were not compliant with the minimum prescribed assets ratio. Other indicators of asset quality are shown in Appendix 1C.

2.4. Reinsurance

The non-life insurance industry witnessed an increase in the risk appetite as evidenced by the increase in the industry average retention ratio from 56.28% for nine months ended 30 September 2015 to 59.36% for the nine months ended 30 September 2016. The retention ratio for individual insurers for the period under review ranged from 11.02% to 100%.

The non-life insurance industry reported a marginal improvement in reinsurance premium remittances. This is evidenced by a decrease in the industry average reinsurance creditors to reinsurance premium ratio from 29.14% for the nine months ended 30 September 2015 to 27.94% for the nine months ended 30 September 2016.

The Commission notes with concern that some insurers exhibited that they have high levels of long outstanding reinsurance premiums as indicated by high reinsurance creditors to reinsurance premium ratios going to as high as 7,710.80% (See Appendix 1C). Non-remittance of reinsurance premiums compromises reinsurance arrangements in place thereby heightening the insurer's exposure to underwriting risk.

2.5. Actuarial Matters

The non-life insurance sector reported a decrease in total technical liabilities from \$54.90 million as at 30 June 2016 to \$52.31 million as at 30 September 2016. The industry was considered to be having adequate liquid assets to match the total technical liabilities. This is shown by the industry average liquid assets to total technical reserves of 129.58% reported as at 30 September 2016 which had improved from 125.36% reported as at 30 June 2016. Notwithstanding the industry average liquid assets to reserves ratio recorded, some insurers reported ratios which were significantly below 100%, a position which indicates that the said insurers may not be having adequate liquid assets to match their technical liabilities given the short-term nature of non-life insurance liabilities. (See Appendix 1C for the performance indicators of insurance companies in terms of Actuarial matters).

2.6. Earnings

Total profit after tax for non-life insurers amounted to \$9.85 million for the nine months ended 30 September 2016 reflecting a tremendous increase, of 169.79%, from \$3.65 million reported in the comparative period in 2015. The increase in profit after tax was mainly buoyed by reduced uptake of reinsurance coupled with a reduction in unrealized losses from valuation of assets as well as a decrease in operating expenses. The major income driver for non-life insurers was underwriting which is their core business. This is shown by the industry average investment income to net premium written ratio of 3.19% for the period under review. Income derived from core business is sustainable in the long term. The profitability of underwriting also improved significantly as evidenced by the decrease in the combined ratio from 94.68% for the year to 30 September 2015 to 89.60% for the period under review.

The industry average return on assets (ROA) and return on equity of (ROE) improved from 2.13% and 4.79% for the nine months ended 30 September 2015 to 5.32% and 11.57% for the period under review. (For more performance indicators on profitability see Appendix 1C).

2.7. Liquidity

Total cash and near cash assets in form of money market and short term prescribed assets decreased from \$68.82 million as at 30 June 2016 to \$67.78 million as at 30 September 2016. Notwithstanding the decrease in cash and near cash assets the overall liquidity position of the non-life insurance sector improved during the quarter ended 30 September 2016. This is evidenced by the increase in the industry acid test ratio from 76.68% as at 30 June 2016 to 80.56% as at 30 September 2016. The acid test ratio indicates the proportion of current liabilities that can be covered by readily available liquid assets. The acid test ratio for individual insurers as at 30 September 2016 ranged from 8.06% to 766.56% as shown in Appendix 1C.

2.8. Market Share for Non-life Insurers

The market for non-life insurance remained moderately concentrated as evidenced by Herfindahl Indices of 0.11 and 0.12 in terms of Gross Premium Written (GPW) and Net Premium Written (NPW), respectively for the nine months ended 30 September 2016. Old Mutual Insurance Company, Nicoz Diamond Insurance Company and Zimnat Lion Insurance Company were the market leaders in terms of both GPW during the period under review and total assets as at 30 September 2016 with combined market shares of 45.08% and 50.67% respectively. Market shares for insurers are shown in Figure 2 and 3 below.

Figure 2: Market Share for Insurers in Terms of GPW and NPW

Figure 3: Market Share for Insurers in Terms of Total Assets

SECTION B

3. REINSURANCE COMPANIES

Please note that the figures for PTA Reinsurance Company (Zep-Re) contained in this report are only for the institution's Regional Hub Office located in Zimbabwe and not for the company as a whole. The Regional Hub Office writes business in Zimbabwe, Swaziland, Botswana, Namibia, and South Africa among others. PTA Reinsurance Company was formed under the auspices of COMESA and writes business in all COMESA member states. The Regional Hub Office is supported by the balance sheet of Zep-Re as a whole. Detailed statistics for all reinsurers are shown in Appendix 2A-C.

3.1. Performance in Terms of Business Written

The volume of business written by non-life reinsurers in terms of total gross premium written amounted \$81.52 million for the nine months ended 30 September 2016 which was below \$83.37 million reported in the comparative period in 2015. The decrease in the gross premium of 2.22% was mainly owing to reduced uptake of reinsurance by direct non-life insurers implying that less business was ceded to reinsurers during the period under review compared to the nine months ended 30 September 2015. The business generated by non-life reinsurers from outside Zimbabwe amounted to \$0.21 million and accounted for 12.52% of total GPW.

Fire, and motor insurance were the dominant classes of business accounting for 56.42% of total gross premium written for the nine months ended 30 September 2016. Table 4 below shows the growth of business during the period under review in terms of business classes.

Table 4: Reinsurers' Gross Premium Written by Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	30 Sep 2015	30 Sep 2016	
Aviation	820,624	3,036,343	270.00%
Bonds/Guarantee	752,782	501,430	-33.39%
Engineering	6,431,067	4,967,952	-22.75%
Farming	7,170,285	8,754,800	22.10%
Fire	35,116,686	33,314,792	-5.13%
Hail	251,680	248,910	-1.10%
Health	319,378	627,092	96.35%
Hire Purchase	87,972	61,533	-30.05%
Marine	2,684,605	2,515,932	-6.28%

Total	83,371,807	81,522,948	-2.22%

I P E C / 2 0 1 6 / 0 3

3.2. Capitalization

As at 30 September 2016, all the registered non-life reinsurers reported capital positions which were compliant with the minimum capital requirement of \$1.5 million. However, these reported capital positions do not account for non-permissible assets. The industry average solvency margin for reinsurers was 104.91% which was above the minimum regulatory requirement of 25%. Table 5 below shows the capital positions for all non-life reinsurers.

Table 5: Capital Positions for Non-life Reinsurers

Name of Company	Reported Capital Position (\$)			
	31 Dec 15	31 Mar 16	30 Jun 16	30 Sep 16
1. Baobab Reinsurance Company	30,798,757	32,434,261	32,221,052	32,210,817
2. Colonnade Reinsurance Company	1,524,117	1,617,922	1,520,580	1,530,642
3. FBC Reinsurance Company	11,843,893	12,286,986	12,325,991	12,140,139
4. FMRE Property & Casualty	6,902,717	6,454,792	6,986,218	8,567,092
5. Grand Reinsurance Company	13,150,970	13,716,369	5,282,497	5,550,325
6. Tropical Reinsurance Company	3,723,475	4,134,220	4,253,100	4,499,450
7. ZB Reinsurance Company	9,474,645	9,657,160	9,995,310	9,798,680
8. PTA Reinsurance Company (Zep Re)	3,504,129	4,852,037	4,705,323	4,349,263

3.3. Asset Quality

Total assets for non-life reinsurers amounted to \$140.42 million as at 30 September 2016, reflecting a 1.05% increase from \$138.96 million that was reported as at 30 June 2016. The increase in total assets was mainly driven by an increase in investments in money market instruments as well as prescribe assets which amounted to a total of \$6.58 million.

Cash and money market investments accounted for the largest proportion of total assets as at 30 September 2016 as shown in Figure 4 below, a position which is commendable given the short-term profile of non-life reinsurers' liabilities. However, the Commission is concerned with the significant proportion of the total assets attributable to investments in associated companies as well as premium debtors which accounted for a total of 39.88% of total assets. Such assets may not be readily liquid to meet the reinsurers' obligations as and when they fall due. Figure 4 below shows breakdown of total assets as at 30 September 2016.

Figure 4: Breakdown of Non-life Reinsurers' Total Assets

Only one non-life reinsurance company was not compliant with the minimum prescribed asset ratio as at 30 September 2016. The industry average prescribed asset ratio was 9.84% which was significantly above the minimum requirement of 5%.

3.4. Retrocession

The non-life reinsurance industry reported a decrease in industry average retention ratio from 69.89% for the nine months ended 30 September 2015 to 66.85% for the nine months ended 30 September 2016. Individual reinsurers reported retention ratios ranging from 51.46% to 82.77% for the year to 30 September 2016.

The non-life reinsurance industry improved tremendously in terms of their remittance of premiums to retrocessionaires. This is shown by the decrease in the industry average retrocession creditors to retrocession premiums from 41.36% for the nine months ended 30 September 2015 to 33.63% for the period under review. The same ratio ranged from nil to 335.22% for the period under review.

3.5. Actuarial Matters

Non-life reinsurers reported total actuarial liabilities amounting to \$33.65 million as at 30 September 2016, reflecting a 5.44% increase from \$31.91 million that was reported as at 30 June 2016. Notwithstanding the increase in total actuarial liabilities, the non-life reinsurance industry was considered to be having adequate assets to match the said actuarial liabilities. This is evidenced by the industry average total liquid investments to technical liabilities ratio which was 139.02% as at 30 September 2016 and compared favorably to 138.86% reported as at 30 June 2016. This ratio indicates the amount of liquid assets relative to total actuarial liabilities. As shown in Appendix 2C the ratio of liquid assets to technical liabilities for individual reinsurers ranged from 35.06% to 315.16%.

3.6. Earnings

Total profit after tax for non-life reinsurers amounted to \$5.53 million for the nine months ended 30 September 2016 reflecting a 55.18% increase from \$3.56 million reported for the comparative period in 2015. The increase in total profit after tax was mainly driven by a decrease in operating expenses from \$15.60 million for the nine months ended 30 September 2015 to \$11.18 million for period under review. The increase in profit after tax translated to an improvement in the industry average return on equity (ROE) and return on assets (ROA) from 4.52% and 2.73% for the nine months ended 30 September 2015 to 6.92% and 4.02% for the period under review, respectively.

Underwriting was the major income driver for non-life reinsurers. This is shown by the low industry average investment income to net premium income which was only 3.85% for the period under review. Underwriting profitability improved as evidenced by the decrease in combined ratio from 94.81% for the nine months ended 30 September 2015 to 91.98% for the period under review. The industry average loss ratio was 41.42% for the nine months ended 30 September 2016 which compared unfavourably with 38.05% reported for the comparative period in 2015.

3.7. Liquidity

Total liquid assets for non-life reinsurers increased from \$44.31 million as at 30 June 2016 to \$46.78 million as at 30 September 2016. The increase was mainly driven by the growth in investments in money markets from \$1.89 million as at 30 June 2016 to \$5.73 million as at 30 September 2016. The non-life reinsurers' overall ability to meet obligations as and when they fall due improved during the quarter under review. This is evidenced by the increase in the industry average acid test ratio from 87.30% as at 30 June 2016 to 94.50% as at 30 September 2016. As shown in Appendix 2C, the acid test ratio for individual reinsurers ranged from 18.66% to 186.42% as at 30 September 2016.

3.8. Market Share for Reinsurers

The market for non-life reinsurers was considered moderately concentrated as shown by a Herfindahl Index of 0.14 that was recorded in terms of both gross premium written (GPW) and net premium written (NPW) for the nine months ended 30 September 2016. As shown in Figure 5 below ZB Reinsurance Company, FMRE, and FBC Reinsurance Company were the market leaders in terms of GPW with a combined market share of 48.97%.

Figure 5: Market Share for Non-life Reinsurers in terms of GPW and NPW

On the other hand, Baobab Reinsurance Company, FBC Reinsurance Company, and FMRE were the market leaders, in terms of total assets with a combined market share of 62.95%. Figure 6 below shows the market shares of each reinsurer.

Figure 6: Market Share for Non-life Reinsurers in terms of Total Assets

SECTION C

4. INSURANCE BROKERS

4.1 Business Written

Insurance brokers witnessed a marginal increase in the volume of business in terms of total premium from \$69.96 million for the nine months ended 30 September 2015 to \$70.46 million for the nine months ended 30 September 2016. Notwithstanding the increase business written in terms of total premium, the net brokerage commission generated by insurance brokers amounted to \$11.52 million for the nine months ended 30 September 2016, reflecting a 6.07% decrease from \$12.26 million reported for the comparative period in 2015. The business generated by insurance companies was mainly through agents and direct clients. This is evidenced by the proportion of business written by non-life insurers through brokers which was only 45.37% of total GPW for the period under review.

The total commission translated into an industry average commission rate of 16.86% reflecting a decrease from 18.15% reported for the nine months ended 30 September 2015. Table 6 below shows the indicators of the business written by the insurance brokers.

Table 6: Indicators of Business Written for Insurance Brokers (\$)

Indicator	30 Sep 2015	30 Sep 2016	Percentage Change
Premium Written	69,959,928	70,455,179	0.71%
Brokerage Commission	12,701,131	11,882,166	-6.45%

Taxation	313,659	311,762	-0.60%
Profit After Tax	1,097,643	772,362	-29.63%

4.2 Capitalization

As at 30 September 2016, only three insurance brokers namely Ambassador Insurance Brokers, Broksure Insurance Brokers and Rainbow Insurance Brokers reported capital positions which were below \$100,000. The capital positions for the individual insurance brokers ranged from \$14,247 to \$1.34 million as shown in Table 7 below.

Table 7: Reported Capital Levels for Insurance Brokers

Name Insurance Broker	31-Dec-15	31-Mar-16	30-Jun-16	30-Sep-16

29. Zimbabwe Insurance Brokers	222,636	178,782	209,330	208,250

Key:

	The insurance broker reported a capital position that was above \$100,000.
	The insurance broker reported a capital position that was below \$100,000.

4.3 Asset Quality

The asset base for insurance brokers decreased from \$31.15 million as at 30 June 2016, to \$26.92 million as at 30 September 2016. The decrease in total assets was mainly attributable to a shrinkage in premium receivable during the quarter under review which shrinkage amounted to \$1.59 million. The asset base for insurance brokers remained skewed towards property as well as cash and cash equivalents which accounted for a total of 47.59% of total assets as at 30 September 2016.

4.4 Earnings

Insurance brokers reported a 29.63% decrease in total profit after tax from \$1.10 million for the nine months ended 30 September 2015 to \$772,362 for the nine months ended 30 September 2016. The decrease in total profit after tax was mainly owing to softening commission rates. The industry average return on equity (ROE) and return on assets (ROA) improved from 12.73% and 4.11% for the nine months ended 30 September 2015 to 8.09% and 2.87% respectively for the nine months under review.

4.5 Market Share for Insurance Brokers

Based on the business written for the nine months ended 30 September 2016, the insurance brokers' sector was considered unconcentrated as shown by the by the Herfindahl index of 0.09 which was recorded in terms of net brokerage commission. Minerva Risk Solutions, Marsh Insurance Brokers Zimbabwe and ZIB were the market leaders in terms of both business written as well as brokerage income, with combined market shares of 40.39% and 39.9% respectively. Figure 7 below shows the market shares for insurance brokers.

In terms of total assets, Minerva Risk Solutions, Progressive Insurance Brokers and Marsh Insurance Brokers were the market leaders as shown in Figure 8 below.

Figure 7: Market Share in Terms of Net Brokerage Commission and Premium Written

Figure 8: Market Share for Insurance Brokers in Terms of Total Assets

SECTION D
5. REINSURANCE BROKERS

5.1 Business Written

Reinsurance brokers witnessed a 25.80% growth in business written in terms of gross premium from \$51.76 million for the nine months ended 30 September 2015 to \$65.12 million for the nine months ended 30 September 2016. The business generated by reinsurance brokers was equivalent to 79.88% of total gross premium written by non-life reinsurers. This indicates that the business of non-life reinsurers is mainly broker driven. The industry average commission ratio for reinsurance brokers was 21.50% for the nine months ended 30 September 2016, reflecting a marginal improvement from 20.24% reported in the comparative period in 2015. Key indicators of business written by reinsurance brokers are shown in Table 8 below.

Table 8: Indicators of Business Written for Reinsurance Brokers (\$)

Indicator	30 Sep 2015	30 Sep 2016	Percentage Change
Premium Written	51,766,564	65,124,148	25.80%
Brokerage Commission	10,479,934	13,999,880	33.59%
Premium Written Less Commission	41,286,629	51,124,268	23.83%
Commission Paid	8,062,924	11,267,431	39.74%
Net Brokerage Commission	2,417,010	2,732,449	13.05%
Other Income	65,309	69,741	6.79%
Operating Expenses	1,677,008	1,889,963	12.70%
Profit Before Tax	805,311	912,227	13.28%
Taxation	240,281	255,791	6.45%
Profit After Tax	565,030	656,436	16.18%

5.2 Capitalization

All the reinsurance brokers with the exception of Marsh reported capital positions which were above \$100,000 as at 30 September 2016. Table 9 below shows the capital positions reported by all reinsurance brokers.

Table 9: Capital Levels for Reinsurance Brokers

Name of Company	Reported Capital Position (\$)			
	31 Dec 2015	31 Mar 2016	30 Jun 2016	30 Sep 2016
1. Afro-Asian Reinsurance Brokers	118,087	120,494	108,295	110,937
2. Classic Reinsurance Brokers	122,172	119,182	117,082	117,982
3. Marsh Insurance Brokers	(3,448)	54,539	103,120	51,647
4. Minerva Re (Private) Limited	1,745,965	1,922,268	2,125,426	2,476,440
5. Pan African Re	609,776	616,238	666,575	719,082
6. Reinsurance Brokers International	139,087	154,063	141,694	170,725

5.3 Asset Quality

Total assets for reinsurance brokers decreased from \$29.90 million as at 30 June 2016 to \$25.71 million as at 30 September 2016. The decrease in total assets was mainly driven by a shrinkage in premiums receivable from \$24.52 million as at 30 June 2016 to \$19.82 million as at 30 September 2016. Such a trend is normal since most policyholders clear their arrears as their insurance policies approach their anniversary dates. Although the premiums receivable decreased during the period under review, they remained the largest asset class accounting for 77.09% of total assets as at 30 September 2016.

5.4 Earnings for Reinsurance Brokers

Total profit after tax for reinsurance brokers increased by 16.18% from \$565,030 for the nine months ended 30 September 2015 to \$656,436 for the nine months ended 30 September 2016. The growth in profit after tax was on the back of increased volume of business volumes which translated into a rise in commission income for the reinsurance brokers. Notwithstanding the above-mentioned increase in profit after tax, the industry average return on equity (ROE) and return on assets (ROA) deteriorated from 20.66% and 4.18% for the nine months ended 30 September 2015 to 18.00% and 2.55% respectively for the period under review.

5.5 Market Share for Reinsurance Brokers

There were no significant changes reported in terms of market shares with Minerva Re (Private) Limited remaining the largest reinsurance broker in terms of business written, commission generated as well as total assets. The market shares for all the reinsurance brokers for the period under review are as shown in Table 10 below.

Table 10: Market Share for Reinsurance Brokers

Name of Reinsurance Broker	Net Brokerage Commission	Premium Written	Total Assets
1. Minerva Re (Private) Limited	72.49%	65.15%	84.84%
2. Pan African Reinsurance Brokers	13.06%	15.17%	7.70%
3. Marsh	12.21%	17.13%	4.21%
4. Reinsurance Brokers International	1.71%	1.91%	2.07%
5. Afro-Asian Reinsurance Brokers	0.53%	0.64%	0.72%
6. Classic Reinsurance Brokers*	-	-	0.46%
Total	100%	100%	100%

**The reinsurance broker did not write any business during the period under review.*
