Acknowledgement

The insurance information contained in this report has been extracted from the quarterly unaudited returns submitted to the Commission in line with Section 30 of the Insurance Act (Chapter 24:7). No adjustments have been made to the returns' data except where necessary in consultation with the insurer(s) or reinsurer(s).

Executive Summary

This report details the performance of the non-life insurance sector during the year ended 31 March 2017.

The number of registered players, including insurance agents and loss adjusters, increased from 573 as at 31 December 2016 to 575 as at 31 March 2017.

Non-life insurers reported total gross premium written (GPW) amounting to \$68.22 million for the first quarter which ended on 31 March 2017 compared to \$66.59 million reported during the same period in 2016. Insurance brokers generated \$24.09 million of gross premium for the quarter ended 31 March 2017, a 2.02% decline from the \$24.59 million written for the quarter ended 31 March 2016.

The business written by reinsurers also decreased from \$35.52 million written for the quarter ended 31 March 2016 to \$32.60 million for the quarter ended 31 March 2017. Reinsurance brokers contributed 52.7% of the reinsurer's total premiums, writing \$17.18 million premiums for the quarter ended 31 March 2017.

Of the 20 operational insurers and 8 operational reinsurers, only one player, a reinsurer reported a capital position below the regulatory minimum capital requirement of \$1.5 million as at 31 March 2017. As at 31 March 2017, 11 of the insurers were already compliant with the proposed US\$ 2.5 million capital level.

The asset base for the insurance industry increased from \$390.30 million as at 31 March 2016 to \$409.62 million as at 31 March 2017. The industry average prescribed assets ratios for non-life insurers and reinsurers were 12.3% and 13.64% respectively as at 31 March 2017, compared to the minimum requirement of 5%. This demonstrates a much higher commitment than required.

However, 9 insurers and 1 reinsurer were not compliant with the minimum prescribed asset ratio. The retention ratio, which shows risk appetite, for insurance companies averaged 59.70% as at 31 March 2017, increasing from the 53.90% average as at 31 March 2016. There was however, a decline in the retention ratio for non-life reinsurance companies from 63.85% to 56.23% reported as at 31 March 2016 and 2017 respectively.

Profit after tax for direct insurance companies was \$3.83 million increasing from the \$2.39 million reported as at 31 March 2016. Non-life reinsurers reported a profit after tax of \$3.03 million for the quarter under review which is a decrease from \$3.82 million reported for the quarter ended 31 March 2016. The increases in profit after tax for non-life insurers were due to a rise in net premium written and reductions in operational expenses.

1. Architecture of the Non-Life Insurance Industry

As at 31 March 2017, there were five hundred and seventy-five (575) registered entities/persons in the non-life insurance industry. The breakdown of the registered persons is shown in Table 1 below:

Table 1: Architecture of the Non-Life Insurance Industry

Type of Institution	Number of Registered Entities/Persons			Number of Suspended/ Non-Operating Entities
	30 Sep 16	31 Dec 16	31 Mar 17	31 Mar 17
Insurance Companies	22	20	20	-
Reinsurance Companies*	8	8	8	-
Insurance Brokers**	32	32	32	-
Reinsurance Brokers	6	6	6	-
Loss Assessors	27	30	31	-
Corporate Agents	119	111	109	-
Sole Agents	397	366	369	-
Total	611	573	575	-

*Three of the reinsurers namely FBC Reinsurance Company, First Mutual Reinsurance Company, and Grand Reinsurance Company are composite reinsurers who also write life business. However, the figures in this report pertain to their non-life business only.

**As at the time of compiling this report, Entwide Insurance Brokers had not yet commenced operations.

SECTION A

2. SHORT-TERM (NON-LIFE) INSURANCE COMPANIES

Appendix 1A-C has detailed statistics for all the non-life insurers

2.1 Performance in Terms of Business Written

The volume of business written by the non-life insurance industry in terms of Gross Premium Written (GPW) increased by 2% from \$66.59 million for the quarter ended 31 March 2016 to \$68.22 million for the quarter ended 31 March 2017. Figure 1 below shows the trend in the volume of business since the first quarter of 2011 both in terms of GPW and Net Premium Written (NPW).

Figure 1: Trend in Business Written Since 2012

The increase of 2 percent in business written in terms of total GPW was mainly driven by a 14 percent growth in motor insurance business in the first quarter of 2017 as compared to the first quarter of 2016. This marks the beginning of an upward trend in first quarter GPW growth after a two-year decline which bottomed up at -6.06 percent in 2016. The trend in business written under different classes of is as shown in Table 2 below.

Table 2: Non-life Insurers' Gross Premium Written by Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	31 Mar 2016	31 Mar 2017	
Aviation	558,366	258,143	-116%
Bonds/Guarantee	4,155,583	4,176,325	0%
Engineering	5,745,920	5,365,588	-7%
Farming	918,549	450,336	-104%
Fire	15,380,624	14,852,470	-4%
Hail	25,047	38,677	35%
Health	15,123	0	-100%
Hire Purchase	360,402	1,314,011	73%
Marine	1,838,611	1,511,616	-22%
Miscellaneous Accident	5,993,890	5,487,564	-9%
Motor	24,731,960	28,633,999	14%
Personal Accident	6,074,851	5,317,969	-14%
Personal Liability	793,862	815,784	3%
Total	66,592,788	68,222,482	2%

The business generated by non-life insurers during the quarter ended 31 March 2017 was largely skewed towards two business classes which are motor and fire insurance, generating 63.74 percent of total gross premium written. This is typical of most developing countries where insurance penetration ratios are still low. Figure 2 below shows the distribution of total gross premium written across different business classes for the quarter under review.

Figure 2: Distribution of Insurers' Gross Premium Written by Business Class.

2.2 Capitalisation.

All the registered non-life insurance companies reported capital positions which were compliant with the minimum capital requirement of \$1.5 million, as at 31 March 2017. The reported capital positions do not however, account for non-admissible assets as stipulated by Circular 1 of 2014 which is a guidance on calculation of capital for short term insurers and reinsurers. Insurers are required to conduct self-assessments of their capital position in line with the said Circular.

A snapshot on the current capital position of the industry players shows that eleven (11) of the twenty (20) insurers were compliant with the new proposed capital level. Table 3 below shows the capital positions reported by all registered non-life insurers.

Table 3: Reported Capital Positions for Non-life Insurers

Name of Insurance Company	Reported Capital Position (\$)			
	30-Jun-16	30-Sep-16	31 Dec-16	31-Mar-17

10. ECGC	2,816,151	3,057,871	3,160,996	3,315,615
11. Hamilton Insurance Company	1,916,211	2,371,305	2,029,696	1,816,055
12. Nicoz Diamond Insurance Company	11,128,780	11,167,380	12,123,000	13,241,000
13. Old Mutual Insurance Company	21,051,511	22,003,574	22,676,652	21,832,771
14. Quality Insurance Company	1,648,000	1,714,000	1,727,000	1,668,785
15. Regal Insurance Company	2,907,922	3,177,592	3,032,468	3,070,529
16. Safel Insurance Company	1,732,115	1,763,556	1,673,534	2,141,901
17. Sanctuary Insurance Company	1,414,063	1,502,822	1,564,233	1,603,451
18. THI Insurance (Pvt) Ltd	1,565,682	1,666,889	1,846,570	2,216,765
19. Tristar Insurance Company	2,362,375	2,188,814	2,294,938	2,223,485
20. Zimnat Lion Insurance Company	7,544,167	7,935,395	8,158,327	8,727,485

Key:

	The insurer reported a capital position that was compliant with the minimum capital requirement of \$1.5 million for non-life insurers.
	The insurer reported a capital position which was not compliant with the minimum capital requirement of \$1.5 million.

The non-life insurance industry reported an industry average solvency margin of 76.18% as at 31 March 2017 which compared favorably with 71.77% which was reported as at 31 March 2016. Solvency margins reported by all non-life insurance companies were above the prescribed minimum of 25% as at 31 March 2017. Other capital indicators are shown in Appendix 1C.

2.3 Asset Quality

Total assets for non-life insurance companies increased by 12.87% to \$221.38 million as at 31 March 2017 from \$196.13 million as at 31 March 2016. The increase in total assets was mainly driven by major increases in equities and the reinsurance's share of outstanding claims which increased by 70.56% and 45.41% respectively. The observed increase in total assets during the quarter under review is in line with the general trend observed since 2012. Figure 3 below shows the trend in total assets since 2012.

The asset base for non-life insurers was considered moderately concentrated, cash and cash equivalents as well as premium debtors being the two major asset classes accounting for 21% and 20% of total assets respectively, as at 31 March 2017. Figure 4 below shows the distribution of total assets across different asset classes.

Figure 3: Trend in Total Assets

The main concern of the Commission is on the significance of the proportion of total assets of 36% being held in fixed assets and premium debtors. Such concentration of assets in less liquid investments does not augur well for timeous settlement of claims. The Commission encourages insurers to structure the profile of their assets such that they increase the amount of liquid assets to match their liabilities.

The non-life insurance industry reported an industry average prescribed assets ratio of 12.3% as at 31 March 2017, which was compliant with the minimum requirement of 5%. However, despite the industry average prescribed assets ratio being compliant with the minimum requirement, only eleven (11) out of the twenty (20) operating insurers were compliant with the minimum prescribed assets ratio. A total of two (2) insurers did not have any investments in prescribed assets. It is a statutory requirement for Insurers to invest in prescribed assets. (See Appendix 1 C for more indicators of asset quality).

Figure 4: Distribution of Non-Life Insurers' Total Assets

NB: Technical assets refer to reinsurers' share of outstanding claims and deferred acquisition cost.

2.4 Reinsurance

The non-life insurance sector's risk tolerance increased its retention ratio from 53.90% for the quarter ended 31 March 2016 to 59.70% for the quarter ended 31 March 2017.

The industry's reinsurance premium remittances decreased significantly as evidenced by the increase in the industry average reinsurance creditors to reinsurance premium ratio from 79.91% for the quarter ended 31 March 2016 to 95.07% for the quarter ended 31 March 2017. This could be a result of most treaty premiums being outstanding in the first quarter.

The Commission noted with concern the number of insurers who had high ratios of reinsurance creditors to reinsurance premiums indicating that a number of insurers are not up to date with their premium remittances. (See Appendix 1C).

Figure 5: Retention Ratios for Short Term Insurance Companies

2.5 Actuarial Matters

Total technical liabilities for non-life insurers increased from \$57.82 million as at 31 March 2016 to \$61.20 million as at 31 March 2017. This was mainly attributed to an upward movement in unearned premium reserves from \$32.84 million as at 31 March 2016 to \$34.94 million as at 31 March 2017.

For the quarter under review the non-life direct insurance industry was considered to have adequate assets to match technical liabilities. This is demonstrated by the ratio of liquid assets to total reserves which was 115.53%. Despite the average ratio being above 100% some insurers had inadequate liquid resources to match their reserves given that their reported ratios were below 100%. The ratios ranged from 5.60% to 2,313.62% across the insurers as at 31 March 2017. (See Appendix 1C).

2.6 Earnings

Total profit after tax for non-life insurers increased significantly from \$2.39 million for the quarter ended 31 March 2016 to \$3.83 million for the quarter ended 31 March 2017. This was mainly driven by an increase in net premium written of \$2.93 million and a decline in operating expenses from \$12.7million for the quarter ended 31 March 2016 to \$12.3 million for the quarter under review. This resulted in the industry average return on assets (ROA) and return on equity (ROE) increasing from 1.25% and 2.89% for the quarter ended 31 March 2016 to 1.83% and 3.98% respectively for the quarter under review.

Technical profit (as measured by the underwriting margin) continues to be the major income driver for non-life insurers contributing 13.77% while investments income to net premium written was 1.9% for the quarter ended 31 March 2017. The underwriting profitability for non-life insurers improved during the period under review as indicated by the decrease in the combined ratio from 87.75% for the quarter ended 31 March 2016 to 86.23% for the quarter ended 31 March 2017.

2.7 Liquidity

Total liquid assets i.e. cash and near cash assets, money market investments and prescribed assets for the non-life insurance industry amounted to \$70.71 million as at 31 March 2017, representing a 3.96% increase from \$68.01 million that was reported as at 31 March 2016. Liquidity of the non-life insurance industry during the quarter under review did not change significantly as evidenced by the marginal decrease in the acid test ratio from 69.80% as at 31 March 2016 to 69.37% as at 31 March 2017. This indicates that the industry had approximately \$0.69 in every dollar of liquid assets for every dollar of current liabilities. This indicates that, in

the highly unlikely case that all their liabilities become payable at the same time, they will not be able to meet their current liabilities. The acid test ratio for the industry as at 31 March 2017 ranged from 4.53% to 1,644.86% (see Appendix 1C).

2.8. Market Share for Non-Life Insurers

The non-life insurance market recorded Herfindahl Indices of 0.088 and 0.097 in terms of Gross Premium Written (GPW) and Net Premium Written (NPW) for the quarter ended 31 March 2017, respectively. This shows that the non-life insurance market was considered to be moderately concentrated. The 3 market leaders in terms of business written are Old Mutual Insurance Company, Zimnat Lion Insurance Company and NicozDiamond Insurance Company as shown in Figure 6 below with combined market shares of 45.69% and 53.18% in terms GPW and NPW respectively.

However, in terms of total assets the market leaders as at 31 March 2017 were Alliance Insurance Company, Old Mutual Insurance Company and NicozDiamond Insurance company as depicted in Figure 7.

Figure 6: Market Share for Insurers in Terms of GPW and NPW

Figure 7: Market Share for Insurers in Terms of Total Assets

SECTION B

3. REINSURANCE COMPANIES

Please note that the figures for PTA Reinsurance Company (Zep-Re) contained in this report are only for the institution's Regional Hub Office located in Zimbabwe and not for the company as a whole. The Regional Hub Office writes business in Zimbabwe, Swaziland, Botswana, Namibia, and South Africa among others. PTA Reinsurance Company was formed under the auspices of COMESA and writes business in all COMESA member states. The Regional Hub Office is supported by the balance sheet of Zep-Re as a whole. Detailed statistics for all reinsurers are shown in Appendix 2A-C.

3.1 Performance in Terms of Business Written

The volume of business written by non-life reinsurers shrank as evidenced by an 8% decrease in total gross premium written (GPW) from \$35.52 million for the quarter ended 31 March 2016 to \$32.61 million for the quarter ended 31 March 2017. The decrease in total GPW was mainly attributable to the contraction in motor, engineering and miscellaneous accident classes by a total of \$4.53 million during the period under review. Figure 8 below shows the trend in the volume of business since 2011.

Figure 8: Trend in Business Written Since 2011.

Bonds/guarantees, fire and personal accident reinsurance recorded the highest growth for non-life reinsurers in terms of GPW for the period under review as shown in Table 4 below which indicates the growth recorded in different classes of business for non-life reinsurers.

Table 4: Reinsurers' Gross Premium Written by Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	31 March 2016	31 March 2017	
Aviation	822,625	710,633	-14%
Bonds/Guarantee	156,802	466,918	198%
Engineering	1,871,883	1,120,224	-40%
Farming	2,909,562	2,505,010	-14%
Fire	16,185,345	18,070,737	12%
Hail	105,350	85,714	-19%
Health	255,045	86,405	-66%
Hire Purchase	47,016	30,343	-35%
Marine	675,127	625,654	-7%
Miscellaneous Accident	3,930,445	2,739,820	-30%
Motor	6,464,911	3,875,072	-40%
Personal Accident	1,065,462	1,177,179	10%
Personal Liability	1,027,247	1,111,104	8%
Total	35,516,820	32,604,812	-8%

Fire and motor classes continue to be the largest sources of business for reinsurers. When combined the two classes of business account for 67.3% of total gross premium written during the quarter under review. Generally, fire insurance business is characterized by high insured values hence insurers usually pass on this risk to reinsurers as they do not have adequate capacity for this type of risk. This is indicated by reinsurers (after adjusting for retrocessions inwards) writing more business than direct insurers (of \$18.07 million compared to \$14.85 million) in fire insurance business for the quarter under review. Figure 9 below shows the distribution of gross premium written for the quarter under review across different classes of business.

Figure 9: Distribution of Reinsurers' GPW by Business Class.

3.2 Capitalisation

As at 31 March 2017 all operational non-life reinsurers except Colonnade Reinsurance Company were compliant with the minimum capital requirement of \$1.5 million, stipulated in Statutory Instrument 21 of 2013. Table 6 below shows capital positions for all reinsurance companies.

The Minister of Finance and Economic Development reviewed the minimum capital requirement in the 2016 Budget Statement to \$5 million of which five (5) reinsurers were already compliant with the proposed requirement as at 31 March 2017.

The industry average solvency margin for non-life reinsurers was 123.91% as at 31 March 2017 which was significantly above the minimum requirement of 25%. The solvency margin for reinsurers as at 31 March 2017 ranged from 47.58% to 460.29%. See Appendix 2C for more information.

Table 5: Capital Positions for Non-Life Reinsurers

Name of Company	Reported Capital Position (\$)			
	30 Jun 16	30 Sep 16	31 Dec 16	31 Mar 17
1. Baobab Reinsurance Company	32,221,052	32,210,817	33,016,919	33,822,126
2. Colonnade Reinsurance Company	1,520,580	1,530,642	1,176,658	1,294,198
3. FBC Reinsurance Company	12,325,991	12,140,139	12,755,334	13,007,224
4. First Mutual Reinsurance Company	6,142,739	8,567,092	9,194,578	8,708,788
5. Grand Reinsurance Company	10,400,580	5,550,325	5,320,775	6,316,628
6. Tropical Reinsurance Company	4,010,510	4,449,450	4,634,960	4,237,930
7. ZB Reinsurance Company	9,269,310	9,798,680	10,036,060	10,256,040
8. PTA Reinsurance Company (Zep Re)	3,530,448	4,349,263	2,947,813	6,585,991

Key:

	The reinsurer reported a capital position that was compliant with the then minimum capital requirement of \$1.5 million.
	The reinsurer reported a capital position which was not compliant with the then minimum capital requirement.

3.3 Asset Quality

Non-life reinsurers' total assets decreased by 4.15% from \$143.23 million as at 31 March 2016 to \$137.29 million as at 31 March 2017. There was an increase of \$6.18 million in the uptake of prescribed assets. However, there was a mixed movement in assets with other assets growing while others were declining and this resulted in an overall decline in the asset base of non-life reinsurers by \$5.94 million mainly driven by a decline of \$7.77 million in cash and cash equivalents. The decline in cash and cash equivalents was a result of companies moving some of their investments to prescribed assets in order to ensure compliance with statutory requirements. The trend in total assets from 31 March 2012 to 31 March 2017 is shown in figure 10 on the next page.

Figure 10: Trend in Total Assets

The asset base of the non-life reinsurers was spread among various asset classes as shown in figure 11 below. However, 22% of total assets were invested in cash, cash & equivalents and money markets. Another 22% of total assets was comprised of premium debtors, this is as a result of most treaty payments being outstanding since only a quarter of the treaty year has expired.

Figure 11: Breakdown of Non-Life Reinsurers' Total Assets

The industry average prescribed asset ratio was 13.64% as at 31 March 2017, which was higher than the 8.18% as at 31 March 2017. One reinsurer remains non-compliant with the minimum prescribed asset ratio of 5%. See Appendix 2C for more information.

3.4 Retrocession

The industry average retention ratio decreased to 56.23% for the quarter ended 31 March 2017 compared to 76.79% that was reported for the quarter ended 31 March 2016. The change reflects a reduction in the risk appetite of the reinsurers. The retention ratios for individual reinsurers for the quarter under review ranged from 31.84% to 81.13%. The retention ratios for reinsurers for the quarter ended 31 March 2017 are shown in figure 12 below.

As at 31 March 2017 the average ratio of retrocession premium creditors as a percentage of retrocession premium for non-life reinsurers was 52.63% a decrease from 82.39 recorded on 31 March 2016. This shows a significant improvement in remittance of premiums by reinsurers to retrocession reinsurers. The same ratio for the sector ranged from nil to 392.58% as at 31 March 2017. (See Appendix 2C).

Figure 12: Retention Ratios for Reinsurers

3.5 Actuarial Matters

As at 31 March 2017, non-life reinsurers' total technical liabilities amounted to \$30.31 million, reflecting a 5.93% decrease from \$32.22 million as at 31 March 2016. The largest proportion of total reserves was attributable to unearned premium reserves (UPR) which amounted to \$15.12 million and accounted for 49.89% of total technical liabilities.

The non-life reinsurance sector's average total liquid investments to reserves ratio was 311.78% as at 31 March 2017. This means that on average the sector had adequate resources to match the technical liabilities as at 31 March 2017, with the exception of two reinsurers who reported ratios which were below 100%, an indication that they may not have adequate liquid assets to match their reserves. (See Appendix 2C).

3.6 Earnings

Total profit after tax for non-life reinsurers for the quarter ended on 31 March 2017 was \$3.03 million, which is a 20.68 % decrease from \$3.82 million reported for the quarter which ended on 31 March 2016. The decrease in total profit after tax was mainly attributable to an increase in

net incurred claims by 44.27 % from \$3.88 million for the quarter ended 31 March 2016 to \$5.59 million for the quarter ended 31 March 2017. As a result of the decline in profit after tax, the industry average return on equity (ROE) and return on assets (ROA) decreased from 4.59% and 2.75% for the quarter ended 31 March 2016 to 3.71% and 2.24% respectively, for the quarter under review.

Underwriting was the major income driver for non-life reinsurers with underwriting profit accounting for 80.10% (\$2.74 million) of the \$3.42 million pre-tax profits for the quarter ended 31 March 2017. Investment income and unrealized gains on investments accounted for 17.69% (\$0.60 million) of pre-tax profit for the quarter ended 31 March 2017, while other income accounted for 2.21%.

As a result of the increase in the average loss ratio from 21.44% as at 31 March 2016 to 33.08% as at 31 March 2017, industry average combined ratio increased from 76.39% for the quarter ended 31 March 2016 to 83.81% for the quarter under review.

Health, motor and farming reinsurance reported the highest loss plus commission ratios for the year ended 31 March 2017. On the other hand, hire purchase, personal liability and engineering were the most profitable classes of business in terms of the loss plus commission ratios as shown in Table 6 below:

Table 6: Loss Ratios by Class of Business for Reinsurers

Business Class	Loss Ratio	Net Commission Ratio	Loss + Commission Ratio
Bonds/Guarantees	10.56%	36.57%	47.13%
Farming	128.52%	18.10%	146.62%
Motor	58.08%	24.95%	83.03%
Miscellaneous Accident	37.50%	28.16%	65.66%
Personal Accident	32.47%	33.54%	66.01%
Hail	50.00%	23.38%	73.38%
Hire Purchase	0.24%	26.46%	26.70%
Fire	14.80%	27.68%	42.48%
Engineering	-33.48%	17.59%	-15.89%
Health	385.98%	11.27%	397.25%
Personal Liability	-18.28%	12.22%	-6.06%
Marine	53.38%	18.98%	72.36%
Aviation	25.75%	21.18%	46.90%
Industry Average	30.50%	25.49%	55.99%

3.7 Liquidity

The liquid assets held by non-life reinsurers improved from \$45.96 million as at 31 March 2016 to \$47.35 million as at 31 March 2017. The liquid asset increase was a result of an increase of \$6.18 million in prescribed assets for the sector. The average acid test ratio for non-life reinsurers as at 31 March 2017 was 98.82%. This indicated a slightly less than adequate liquidity level for the sector needed to meet liabilities to insurers and policyholders' as they are incurred. The acid test ratios for non-life reinsurers ranged from 11.69% to 202.79% (see Appendix 2C under Liquidity).

3.8 Market Share for Reinsurers

The non-life reinsurance industry recorded a Herfindahl Index of 0.143 in terms of gross premium written and 0.150 in terms of net premium written for the year ended 31 March 2017. As a result, the Zimbabwean non-life reinsurance industry was therefore considered moderately concentrated. ZB Reinsurance Company, ZEP Reinsurance Company and Grand Reinsurance

Company were the market leaders in terms of GPW with combined market shares of 54.46%, while basing on NPW the three leading reinsurers were FBC Reinsurance Company, Grand Reinsurance Company and Tropical Reinsurance Company with a combined market share of 47.77% as shown in Figure 13 below.

Figure 13: Market Share for Reinsurers in Terms of GPW and NPW

Baobab Reinsurance Company, FBC Reinsurance Company and First Mutual Reinsurance Company were the market leaders, in terms of total assets. These three reinsurers had a combined market share of 62.39% as at 31 March 2017. Figure 14 below shows the relative size of all reinsurers in terms of total assets.

Figure 14: Relative Size for Reinsurers in Terms of Total Assets

SECTION C

4. INSURANCE BROKERS

4.1 Business Written

Insurance brokers wrote \$24.09 million in business for the quarter ended 31 March 2017, accounting for 35.31 % of the total GPW for non-life insurers. The business written by insurance brokers was 2.02% lower than the \$24.59 million reported for the quarter ended 31 March 2016. Insurance brokers received \$4.17 million net brokerage commission for year under review, reflecting a 2.78% decline from \$4.29 million reported for the quarter ended 31 March 2016.

The total commission translated to an industry average commission rate of 17.33% for the quarter ended 31 March 2017, a marginal decrease from the 17.46% reported in the first quarter of 2016. Table 8 below shows key indicators for the business written by the insurance brokers (in US\$).

Table 7: Indicators of Business Written for Insurance Brokers

Indicator	31 Mar 2016 (\$)	31 Mar 2017 (\$)	Percentage Change
Premium Written	24,590,085	24,092,904	-2.02%
Brokerage Commission	4,293,593	4,174,323	-2.78%
Premium Written Less Commission	20,296,492	19,918,581	-1.86%
Commission Paid	173,091	192,878	11.43%
Net Brokerage Commission	4,120,496	3,981,445	-3.37%
Other Income	301,969	270,948	-10.27%
Operating Expenses	3,893,206	3,753,241	-3.60%
Profit Before Tax	529,260	499,152	-5.69%
Taxation	144,246	188,966	31.00%
Profit After Tax	385,014	310,186	-19.44%

4.2 Capitalisation

As at 31 March 2017, two insurance brokers namely, Rainbow Insurance Brokers and Ambassador Insurance Brokers reported capital positions which were below \$100,000. The capital positions for the insurance brokers ranged from \$ 14,272 to \$1.42 million as shown in Table 8 below:

Table 8: Reported Capital Levels for Insurance Brokers

Name of Insurance Broker	30-Sep-16 (\$)	31-Dec-16 (\$)	31-Mar-17 (\$)

28. TIB Insurance Brokers	101,372	120,583	121,465
29. Victory Insurance Brokers	250,754	292,678	283,793
30. WFDR Risk Services	284,219	367,042	367,083
31. Zimbabwe Insurance Brokers	208,250	175,352	200,071

Key:

	The insurance broker reported a capital position that was above \$100,000.
	The insurance broker reported a capital position that was below \$100,000.

4.3 Asset Quality

The asset base for insurance brokers marginally increased from \$27.14 million as at 31 March 2016 to \$27.18 million as at 31 March 2017. This was mainly attributable to a growth in investments from \$0.66 million to \$1.28 million reported as at 31 March 2016 and 31 March 2017 respectively. The asset base for insurance brokers was skewed towards property, premium debtors as well as cash and cash equivalents which accounted for more than 51% of the total assets as at 31 March 2017.

4.4 Earnings

Insurance brokers reported a 19.44% decrease in total profit after tax from \$0.39 million for the quarter ended 31 March 2016 to \$0.31 million for the quarter ended 31 March 2017. This was mainly due to an increase of 11.43% in commission paid and a decrease in other income by 10.27% for the quarter ended 31 March 2017 as compared with the previous quarter ending 31 March 2016. The industry average return on equity (ROE) and return on assets (ROA) also decreased from 4.18% and 1.42% as at 31 March 2016 to 2.89% and 1.15% respectively as at 31 March 2017.

4.5 Market Share for Insurance Brokers

From the reported business written for the quarter ended 31 March 2017, Minerva Risk Solutions, Marsh Insurance Brokers Zimbabwe and HRIB were the market leaders in terms of both business written as well as brokerage income, with combined market shares of 43.96% and 44.17% respectively. Figure 15 below shows the market shares for insurance brokers in terms of net brokerage commission and premium written.

In terms of total assets, Minerva Risk Solutions, Marsh Insurance Brokers, Progressive Insurance Brokers and HRIB were the market leaders as shown in Figure 15 below.

Figure 15: Market Share in Terms of Net Brokerage Commission and Gross Premium Written

Figure 16: Market Share for Insurance Brokers in Terms of Total Assets

SECTION D
5. REINSURANCE BROKERS

5.1 Business Written

Reinsurance brokers wrote \$17.18 million gross premium for the quarter ended 31 March 2017 reflecting a decrease of 11.73% from the \$19.46 million reported for the quarter ended 31 March 2016. The business generated by reinsurance brokers accounted for 52.69% of the total gross premium written by non-life reinsurers. This indicates that the business of non-life reinsurers is also broker driven. The industry average commission ratio for reinsurance brokers was 21.18% for the quarter ended 31 March 2017, reflecting a decrease from 25.02% reported for the comparative period in 2016. Key indicators of business written by reinsurance brokers (in US\$) are shown in Table 9 below:

Table 9: Indicators of Business Written for Reinsurance Brokers

Indicator	31-Mar-16 (\$)	31-Mar-17 (\$)	Percentage Change
Premium Written	19,462,453	17,180,340	-11.73%
Brokerage Commission	4,868,758	3,638,180	-25.27%
Premium Written Less Commission	14,593,695	13,542,160	-7.21%
Commission Paid	3,903,058	2,618,252	-32.92%
Net Brokerage Commission	965,700	1,019,928	5.62%
Other Income	11,063	9,427	-14.79%
Operating Expenses	631,596	650,014	2.92%
Profit Before Tax	345,167	379,341	9.90%
Taxation	83,904	102,580	22.26%
Profit After Tax	261,263	276,761	5.93%

5.2 Capitalisation

All the reinsurance brokers reported capital positions which were above \$100,000 as at 31 March 2017. Table 10 below shows the capital positions reported by all reinsurance brokers:

Table 10: Capital Levels for Reinsurance Brokers

Name of Reinsurance Broker	30-Jun-16 (\$)	30-Sep-16 (\$)	31-Dec-16 (\$)	31-Mar-17 (\$)
1. Afro-Asian Reinsurance Brokers	108,295	110,937	104,623	125,579
2. Classic Reinsurance Brokers	117,082	117,982	117,382	115,732
3. Marsh Insurance Brokers	103,120	51,647	111,264	141,864
4. Minerva Re (Private) Limited	2,125,426	2,476,440	2,301,582	1,825,379
5. Pan African Re	666,575	719,082	750,567	787,551
6. Reinsurance Brokers International	141,694	170,725	155,081	177,375

5.3 Asset Quality

Reinsurance brokers reported total assets amounting to \$23.13 million as at 31 March 2017, reflecting a 12.32% decrease from \$25.98 million reported as at 31 March 2016. This decrease was mainly attributed to a decrease in premium receivables from \$21.42 million reported as at 31 March 2016 to \$16.52 million as at 31 March 2017. Premium receivables and cash and cash equivalents respectively accounted for 69.48% and 18.80% of the total assets for reinsurance brokers as at 31 March 2017, indicating high exposure to credit risk and an uneven distribution of assets.

5.4 Earnings for Reinsurance Brokers

Total profit after tax for reinsurance brokers increased by 5.3% from \$261,263 for the quarter ended 31 March 2016 to \$275,111 for the quarter ended 31 March 2017. The growth in profit after tax was a result of a 5.62% increase in net brokerage income coupled with a 32.92% reduction in commission payments for the quarter ended 31 March 2017 compared to the quarter ended 31 March 2016.

Notwithstanding the above-mentioned increase in profit after tax, the industry average return on equity (ROE) decreased from 8.75% as at 31 March 2016 to 8.67% as at 31 March 2017, while return on assets (ROA) increased from and 1.01% as at 31 March 2016 to 1.16% for the period under review.

5.5 Market Share for Reinsurance Brokers

Minerva Re (Private) Limited continues to be the most dominant reinsurance broker in terms of business written, commission generated and total assets. The market share for all the reinsurance brokers for the period under review is as shown in Table 11 below:

Table 11: Market Share for Reinsurance Brokers

Name of Reinsurance Broker	Net Brokerage Commission	Premium Written	Total Assets
1. Minerva Re (Private) Limited	69.33%	62.43%	77.97%
2. Pan African Reinsurance Brokers	11.61%	20.42%	8.13%
3. Marsh	16.18%	14.44%	8.92%
4. Reinsurance Brokers International	0.17%	0.16%	2.31%
5. Afro-Asian Reinsurance Brokers	2.71%	2.55%	2.19%
6. Classic Reinsurance Brokers*	-	-	0.49%
Total	100%	100%	100%

**The reinsurance broker did not write any business during the period under review.*
