Executive Summary

Non-life insurers reported total Gross Premium Written (GPW) amounting to \$75.31 million for the quarter ended 31 March 2018, which translated to a 10.39% growth from \$68.22 million reported for the comparative period in 2017. On the other hand, there was an insignificant change in the volume of business written by non-life reinsurers during the quarter under review. This is evidenced by the marginal increase in GPW from \$32.60 million for the quarter ending 31 March 2017 to \$33.05 million for the quarter ending 31 March 2018.

Total assets for the insurance industry grew by 9.27% from \$430.52million as at 31 December 2017 to \$470.44 million as at 31 March 2018. Non-life insurers contributed 54.93% of the total assets for the industry with US\$258.43 million, followed by reinsurance companies with US\$150.75 million, signifying a 32.04% of non-life market share as at 31 March 2018.

Investments in prescribed assets for the whole insurance industry rose by 7.19% from US\$35.20 million as at 31 December 2017 to US\$37.73 million as at 31 March 2018. This shows a positive response to the Commission's efforts in addressing regulatory and compliance gaps in the asset spread.

A total of seventeen (17), out of the twenty (20) registered insurers reported capital positions which were above the minimum capital level of \$2.5 million. However, the reported capital positions were not adjusted in line with provisions of Statutory Instrument 95 of 2017. All the registered non-life reinsurers, with the exception of two reinsurers, reported capital positions that were above the minimum capital requirement of \$5 million.

Insurance brokers reported \$31.2 million in premium income for the quarter ended 31 March 2018, which shows a 29.63% increase in business written from \$24.09 million reported for the same period in 2017. They further recorded a \$4.87 million net brokerage commission for the quarter ended 31 March 2018, which was a 22.34% growth from \$3.98 million recorded during the same period in 2017.

Two (2) out of 31 insurance brokers were not compliant with the minimum capital required to establish and operate an insurance broking firm. The two brokers have since submitted their recapitalisation plans.

Reinsurance brokers reported \$19.62 million in Gross Premium for the quarter under review, marking an increase of 14.24% from the \$17.18 million reported for the same period in 2017. In terms of capitalisation as at 31 March 2018, all the reinsurance brokers were compliant with the minimum capital required to operate such form of business.

1. Architecture of the Non-Life Insurance Industry

There were six hundred and fifteen (615) registered entities/persons in the non-life insurance industry as at 31 March 2018. The architecture of the industry is shown in Table 1 below:

Table 1 : Architecture of the Non-Life Insurance Industry

Type of Institution	Number of Registered Entities/Persons			
	31-Mar-17	30-Sep-17	30-Dec-17	31-Mar-18
Insurance Companies	20	20	20	20

Corporate Agents	109	109	109	115
Sole Agents	369	369	369	399
Total	575	579	578	615

*Five reinsurers namely Emeritus Reinsurance Company, FBC Reinsurance Company, First Mutual Reinsurance Company, Grand Reinsurance Company and PTA Reinsurance Company (Zep Re) are composite reinsurers who also write life business. However, the figures in this report pertain to their non-life business only.

**Two insurers namely FBC Insurance Company and Alliance Insurance Company are composite insurers, however the figures in this report pertain to their non-life business only.

SECTION A

2. Short-Term (Non-Life) Insurance Companies

Please refer to Appendix 1A-C for detailed statistics for each of the non-life insurers.

2.1. Performance in Terms of Business Written

Total Gross Premium Written (GPW) by non-life insurers amounted to \$75.31 million for the quarter ended on 31 March 2018, reflecting a 24.69% increase from \$68.22 million reported for the comparative period in 2017. Figure 1 below shows the trend in volume of the business generated during the first quarter by non-life insurers since 2014.

Figure 1 : Trend in Written Business

The increase in GPW during the quarter under review was mainly attributable to growth in business generated from motor insurance, as well as personal liability insurance classes. The two business classes recorded a combined growth in GPW amounting to \$5.49 million during the quarter ended 31 March 2018. The growth reported under different classes of business is shown in Table 2 overleaf.

Table 2 : Non-Life Insurers' Gross Premium Written by Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	31-Mar-17	31-Mar-18	
Aviation	258,143	670,479	159,73%
Bonds/Guarantee	4,176,325	4,757,514	13,92%
Engineering	5,365,588	5,151,060	-4,00%
Farming	450,336	392,984	-12,74%
Fire	14,852,470	15,369,797	3,48%
Hail	38,677	73,894	91,05%
Health	-	7,034	100%
Hire Purchase	1,314,011	1,091,412	-16,94%
Marine	1,511,616	1,151,051	-23,85%
Miscellaneous Accident	5,487,564	5,190,473	-5,41%
Motor	28,633,999	32,920,130	14,97%
Personal Accident	5,317,969	6,508,528	22,39%
Personal Liability	815,784	2,023,555	148,05%
Total	68,222,482	75,307,911.00	10,39%

Motor and fire insurance remained as major sources of business as the two classes accounted for \$48.29 million of the total GPW of \$75.31 million, which translated to 64.12% of total GPW for the quarter under review. The distribution of business generated during the quarter ended 31 March 2018 across different business classes is shown in Figure 2 below.

Figure 2 : Distribution of GPW Across Business Classes

Insurance players are encouraged to innovate and design new products to avoid reliance on few lines of viable business.

2.2. Capitalisation

A total of seventeen (17) out of twenty (20) insurers reported capital positions which were above \$2.5 million as at 31 March 2018. The reported capital positions were computed without accounting for the dictates of Statutory Instrument 95 of 2017 that deals with non-admissible assets. The capital positions reported by non-life insurers as at 31 March 2018 are shown in table 3 below:-

Table 3 : Reported Capital Positions for Non-Life Insurers

Name of Insurance Company	Reported Capital Position (\$)			
	30-Jun-17	30-Sep-17	31-Dec-17	31-Mar-18
1. Alliance Insurance Company	4,432,633	5,021,683	6,412,157	8,122,556
2. Allied Insurance Company	1,804,316	1,897,208	2,044,665	2,007,281
3. C.B.Z Insurance Company	5,897,032	8,282,086	7,220,301	11,321,420
4. Cell Insurance Company	5,087,053	5,355,557	5,806,891	6,732,099
5. Champions Insurance Company	2,908,747	2,980,732	3,322,001	4,191,830
6. Clarion Insurance Company	2,067,792	2,523,747	1,771,732	2,338,306
7. Credit Insurance Zimbabwe	1,716,901	1,899,991	2,913,620	4,172,350
8. FBC Insurance Company	2,871,557	6,833,876	7,163,586	7,088,691
9. Evolution Insurance Company	6,628,782	4468 607	4,512,844	4,703,565
10. ECGC	4,335,703	2,889,770	3,021,051	3,056,046
11. Hamilton Insurance Company	1,745,763	1,849,167	1,699,295	2,787,502
12. Nicoz Diamond Insurance Company	13,728,426	16,242,810	15,353,594	14,528,581
13. Old Mutual Insurance Company	25,985,269	39,533,128	34,070,698	32,010,579
14. Quality Insurance Company	2,220,943	4,322,158	2,902,158	3,013,000
15. Regal Insurance Company	3,535,639	2,637,929	2,513,027	2,802,932
16. Safel Insurance Company	2,137,237	2,600,613	2,872,964	3,532,778
17. Sanctuary Insurance Company	1,593,188	1,542,122	1,886,708	1,816,216
18. THI Insurance (Pvt) Ltd	2,237,207	1,014,125	2,530,808	2,687,201
19. Tristar Insurance Company	2,109,733	2,057,298	3,135,239	2,805,791
20. Zimnat Lion Insurance Company	8,674,046	10,616,739	11,565,964	11,576,948

Key:

	The insurer reported a capital position that was above the requirement of \$2.5 million.
	The insurer reported a capital position which was below \$2.5 million.

2.3. Asset Quality

Total assets for non-life insurers grew by 10% from \$235.42 million reported as at 31 December 2017 to \$258.43 million as at 31 March 2018. The growth in total assets was mainly due to increase in premium debtors and technical assets, which increase totalled \$1 million. The trend in total assets is shown in Figure 3 below.

Figure 3 : Trends in Total Assets

The asset base of non-life insurers was fairly distributed across different investment classes as shown in Figure 4 below. This scenario augers well for management of concentration risk. Notwithstanding the observation above, the Commission notes with concern the fact that premium debtors were the largest asset class accounting for 21.24% of total assets. Although generally the level of premium debtors normally declines as the calendar year progresses, the prevalence of premium debtors call for robust credit risk management systems by insurers.

Investments in prescribed assets increased by 10.81% from US\$21.19 million as at 31 December 2017 to US\$23.48 million as at 31 March 2018. The increase signal non-life insurers' heed to the Commission's call to comply with minimum prescribed asset ratio.

Figure 4 : Distribution Non-life Insurers' Total Assets

NB: Technical assets refer to reinsurers' share of outstanding claims and deferred acquisition costs.

The industry's average prescribed assets ratio as at 31 March 2018 was 10.45% against the minimum requirement of 5%. However, ten (10) insurers were not compliant with the minimum prescribed assets ratio. The insurers risk being penalised as non-compliance with prescribed assets is a serious regulatory concern. Appendix 1C shows other indicators of asset quality.

2.4. Reinsurance

The industry average retention ratio rose from 59.70% for the quarter ended 31 March 2017 to 61.53% for the quarter under review. This indicates an improvement in risk appetite among the non-life insurance industry. Retention ratios for individual insurers ranged from 16.96% to 100% as shown in Figure 5 below:

Figure 5 : Retention Ratios for Non-Life Insurance Companies

The average reinsurance creditors to reinsurance premium ratio was 95.33% for the quarter ended 31 March 2018, compared to 95.07% reported for the comparative period in 2017. Insurance players are encouraged to ensure that they settle their treaty premiums in accordance with their treaty contracts timely. The Commission is continuously engaging the Reserve Bank of Zimbabwe (RBZ) to ensure high priority is placed on retrocession payments. The insurance players are further reminded that inability to have a functional treaty programme in place is a regulatory and compliance issue. (See Appendix 1C for more indicators).

The Commission continuously checks and verifies payment of reinsurance premiums as the payments have a strong bearing on the industry's financial soundness and safety.

2.5. Actuarial Matters

The non-life insurance industry reported a 21.78% increase in total technical liabilities from \$55.38 million as at 31 December 2017 to \$67.44 million as at 31 March 2018.

The industry had adequate liquid assets to match its total technical liabilities as indicated by the average liquid assets to total technical reserves of 94.60% as at 31 March 2018. However, the average liquid asset to technical reserves declined from 111.35%, which was reported as at 31 December 2017.

Notwithstanding the recorded industry's average liquid assets to reserves ratio, some insurers reported ratios which were significantly below 100%, indicating that the reserves were not backed by liquid assets. The Commission has since advised the respective players to ensure that adequate reserves are in place for the current and foreseeable obligations. (See Appendix 1C for the performance indicators of insurance companies in terms of Actuarial matters).

2.6. Earnings

The non-life insurers reported total profit after tax for the three months ending 31 March 2018 of \$0.176 million, which was 95.40% decrease from \$3.83 million reported in the comparative period in 2017. The decrease in total profit after tax was mainly attributable to a US\$2.8 million upsurge in operating expenses and huge incurred claims for the period under review.

The industry's average return on assets (ROA) and return on equity (ROE) was 0.08% and 0.015% for the period under review. As at 31 March 2017, ROA was 1.83% and ROE 3.98. (For more performance indicators on profitability see Appendix 1C).

2.7. Liquidity

Total cash and near cash assets in the form of money market and short term prescribed assets decreased from \$65.48 million as at 31 December 2017 to \$61.56 million as at 31 March 2018. The net effect was a decrease in the acid test ratio from 65.67% recorded as at 31 December 2017 to 55.41% registered as at 31 March 2018. The acid test ratio for individual insurers as at 31 March 2018 ranged from 1.04% to 242.50% as shown in Appendix 1C.

2.8. Market Share for Non-life Insurers

Three companies namely Cell Insurance, Zimnat Lion and Old Mutual were the market leaders in terms of GPW with a combined market share of 47.92%. Figure 6 below shows market share in terms of GPW and NPW for all insurers.

Figure 6 : Market Share for Insurers in Terms of GPW and NPW

Four companies namely Old Mutual, Nicos Diamond, Zimnat Lion and Alliance Insurance Company were the market leaders in terms of their share of total assets for the non-life insurance business, with a combined market share of 52.69% as shown in Figure 7 below:

Figure 7 : Market Share for Insurers in Terms of Total Assets

Therefore, the non-life insurance is significantly controlled by a few companies, signifying an oligopolistic market.

SECTION B

3. Reinsurance Companies

Please note that the figures for PTA Reinsurance Company (Zep-Re) contained in this report are only for the institution's Regional Hub Office located in Zimbabwe and not for the company as a regional institution. The Regional Hub Office writes business in Zimbabwe, Swaziland, Botswana, Namibia, and South Africa, among others. PTA Reinsurance Company was formed under the auspices of COMESA and writes business in all COMESA member States. The Regional Hub Office is supported by the balance sheet of Zep-Re as a whole.

Detailed statistics for all reinsurers are shown in Appendix 2A-C.

3.1. Performance in Terms of Business Written

There was an insignificant change in the volume of business written by non-life reinsurers during the quarter under review. This is evidenced by the marginal increase in GPW from \$32.60 million for the quarter ending 31 March 2017 to \$33.05 million for the quarter ending 31 March 2018. The insignificant change in the GPW by non-life reinsurers is in tandem with the negligible change in risk appetite exhibited by direct non-life insurers as reflected by a small change in retention ratio highlighted in Section 1.5 above.

Figure 8 below shows the trend in volume of business written by non-life reinsurers in the first quarter of the period 2014 to 2018.

Figure 8 : Trend in Business Written

Although there were insignificant changes in GPW written, non-life reinsurers made significant strides in growing the business generated from hail and motor insurance as shown by the table below.

Table 4 : Reinsurers' Gross Premium Written By Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	31-Mar-17	31-Mar-18	
Aviation	710 633	834 327	17,41%
Bonds/Guarantee	466 918	138 235	-70,39%
Engineering	1 120 224	2 396 402	113,92%
Farming	2 505 010	1 846 611	-26,28%
Fire	18 070 737	9 484 073	-47,52%
Hail	85 714	1 365 110	1492,63%
Health	86 405	220 022	154,64%
Hire Purchase	30 343	62 443	105,79%
Marine	625 654	604 141	-3,44%
Miscellaneous Accident	2 739 820	4 744 151	73,16%
Motor	3 875 072	10 000 364	158,07%
Personal Accident	1 177 179	761 413	-35,32%
Personal Liability	1 111 104	594 150	-46,53%
Total	32 604 813	33 051 442	1,37%

Fire and motor insurance business remained dominant classes of insurance business as they accounted for 59.00% of the total Gross Premium Written for the quarter ended 31 March 2018. The Commission encourages the industry to explore product innovation to manage concentration risk related to overreliance on a few product lines, particularly motor insurance. Figure 9 below shows GPW distribution by business

Figure 9 : Distribution of Reinsurers' GPW by Business Class

The low business written from the farming community presents opportunities for the insurance sector to target farmers through agricultural and climate insurance in general. This is particularly important given that the economy is largely agro-based.

3.2. Capitalisation

As at 31 March 2018, most registered non-life reinsurers, with the exception of Colonnade and Tropical Reinsurance companies reported capital positions which were above the minimum capital requirement of \$5 million. However, the reported capital positions were not adjusted in line with the provisions of Statutory Instrument (SI) 95 of 2017 which, among other things, discount non-permissible assets.

The Commission is still in the process of verifying capital position of all reinsurers in line with Statutory Instrument 95 of 2017. Table 5 below shows the capital positions for non-life reinsurers.

Table 5 : Reported Capital Positions for Non-Life Reinsurers

Reinsurance Company	Reported Capital Position (\$)			
	31 Mar-17	30-Sep-17	31-Dec-17	31-Mar-18
1. Colonnade Re.	1,294,198	604,337	635,489	1,835,765
2. Emeritus Re.	33,822,126	37,375,064	37,217,605	37,445,383
3. FBC Re.	13,007,224	14,141,340	13,564,028	13,990,329
4. FMRE	8,708,788	8,852,503	8,108,635	7,495,418
5. Grand Re.	6,316,628	7,616,393	9,290,172	9,784,812
6. Tropical Re.	4,237,930	3,321,310	4,773,920	4,275,690
7. PTA Re.	6,585,991	5,825,917	5,890,118	5,399,008
8. ZB Re.	10,256,040	12,100,686	10,221,561	10,283,710

The industry average solvency margin for reinsurers was 133.15%, which was above the minimum regulatory requirement of 25%. The solvency margin for individual reinsurers as at 31 March 2018 ranged from 48.01% to 509.60% as shown in appendix 2C.

3.3. Asset Quality

Total assets for non-life reinsurers increased by 7.04% from \$140.83 million as at 31 December 2017 to \$150.75 million as at 31 March 2018. The increase in total assets was mainly due to increase in the value of listed equities and premium receivables, which grew by \$5.9 million and \$5.2 million respectively. The growth in premium debtors during the first quarter is a trend that has been observed over the years. The trend has been that the amount of premium debtors declines as the underwriting year progresses. On the other hand, the growth in listed equity investments was mainly due to the Zimbabwe Stock Exchange's good performance during the period under review. Figure 10 below shows the trend in total assets since 2013.

Figure 10 : Trend in Total Assets

Cash and money market investments, related party investments in associated companies and premium debtors were the major asset classes that accounted for 56.82% of the non-life reinsurers’ total asset base as at 31 March 2018. Although investments in associated companies may not adequately match the liabilities of reinsurers, the Commission takes comfort in the fact that the said investments were concentrated in one reinsurer. (See Appendix 2B). Figure 11 below shows a breakdown of total assets as at 31 March 2018.

Figure 11 : Breakdown of Non-life Reinsurers’ Total Assets

Only two out of 8 non-life reinsurers were non-compliant with the minimum prescribed asset ratio of 5% as at 31 March 2018. The non-compliant players risk being penalised by the Commission as this is a serious compliance concern. The non-life reinsurance industry average prescribed asset ratio as at 31 March 2018 was 11.11%.

3.4. Retrocession

The industry's average retention ratio was 61.63% for the quarter ending 31 March 2018 compared to 56.23% that was reported for the quarter ending 31 March 2017. Individual reinsurers reported retention ratios ranging from 27.95% to 84.90% for the quarter under review as shown in Figure 12 below.

Figure 12 : Retention Ratios for Reinsurers

The non-life reinsurers were not up to date with their retrocession premium remittance as shown by the average reinsurance creditors to reinsurance premiums ratio of 55.13% in the period under review. The reinsurance players must ensure that they settle their retrocession obligations in order to avoid the gradual negative effects of underwriting risk.

3.5. Actuarial Matters

As at 31 March 2018, non-life reinsurers' total technical liabilities increased by 22.67% from US\$28.59 million reported as at 31 December 2017 to \$35.07 million. The largest proportion of total reserves was attributable to Unearned Premium Reserve (UPR), which amounted to \$15.91 million and accounted for 45.37% of the total technical liabilities. Actuarial expertise is key in the determination and valuation of these reserves.

The non-life reinsurance sector's average total liquid investments to reserves ratio was 119.64% as at 31 March 2018.

The above indicates that the insurance players had adequate resources to match the technical liabilities. Appendix 2C shows the ratio of liquid assets to technical liabilities for individual reinsurers which ranged from 35.33% to 319.92% as at 31 March 2018.

3.6. Earnings

Total profit after tax for non-life reinsurers decreased from US\$3.03 million for the quarter ended 31 March 2017 to US\$0.84 million for the quarter ended 31 March 2018. The decrease in total profit after tax was mainly attributable to increase in retrocession premiums, operating expenses and incurred claims which were \$12.68 million, \$4.30 million and \$5.90 million, respectively, for the quarter ended 31 March 2018.

As a result of the decrease in profit after tax, the industry average return on equity (ROE) and return on assets (ROA) decreased to 0.98% and 0.59% for the quarter ended 31 March 2018 from 3.71% and 2.24% for the quarter ended 31 March 2017 respectively.

The industry average loss ratio was 35.49% for the quarter ended 31 March 2018, which was an increase from the 33.08% reported for the comparative period in 2017. This resulted in the combined ratio rising from 83.81% to 89.83% for the period under review.

3.7. Liquidity

There was a minor movement in liquid assets held by non-life reinsurers, which increased from US\$39.75 million as at 31 December 2017 to \$40.00 million as at 31 March 2018. The average acid test ratio for individual non-life reinsurers as at 31 March 2018 was 77.18%, reflecting a deterioration from 92.42% reported as at 31 December 2017. The acid test ratio indicates that for every dollar of the industry's total current liabilities, the industry had about 77 cents in readily liquid assets to back such current liabilities. The acid test ratios for non-life reinsurers is shown on Appendix 2C under liquidity.

3.8. Market Share for Reinsurers

As shown in Figure 13 below, Zep-Re, Grand Re and ZB Re reportedly controlled over 66% of Gross Premium Written (GPW) for the quarter ended 31 March 2018. The top three leaders in terms of Net Premium Written (NPW) for the same quarter under review were FBC Re, Grand Re and ZB Re.

Figure 13 : Market Share for Non-life Reinsurers in terms of GPW and NPW

In terms of share of total assets, Emeritus Reinsurance Company, FBC Reinsurance Company, and Grand Re were the market leaders, with a combined market share of 60.64%. Figure 14 below shows the market shares of each reinsurer

Figure 14 : Market Share for Non-life Reinsurers in terms of Total Assets

SECTION C

4. Insurance Brokers

4.1. Business Written

For the quarter ended 31 March 2018, insurance brokers wrote \$31.2 million in premium income. This represented a 29.63% increase in business written by insurance brokers from \$24.09 million reported for the same period in 2017. Insurance brokers recorded \$4.87 million net brokerage commission for the quarter ended 31 March 2018, which is a 22.34% increase from \$3.98 million reported for the same period in 2017.

In percent terms, the average commission received by brokers for the quarter ended 31 March 2018 was 16.48%, which is lower than the 17.33% reported for the same period in 2017. Table 6 below shows key indicators for the business written by the insurance brokers.

Table 6: Indicators of Business Written for Insurance Brokers

Indicator	31 Mar 2017 (\$)	31 Mar 2018 (\$)	Percentage Change
Gross Premium Written	24,092,904	31,231,318	29.63%
Gross Premium Less Commission	19,918,581	26,082,299	30.94%
Brokerage Commission	4,174,323	5,149,019	23.35%
Commission Paid (Intermediaries)	192,878	277,967	44.12%
Net Brokerage Commission	3,981,445	4,871,052	22.34%
Other Income	270,948	345,146	27.38%
Operating Expenses	3,753,241	4,291,242	14.33%
Profit Before Tax	499,152	924,957	85.31%
Taxation	188,966	169,896	-10.09%
Profit After Tax	310,186	684,890	120.80%

Reinsurance brokers reported a 14.24% increase in gross premium written, from the \$17.18 million reported in the first quarter 2017, to \$19.62 million for the quarter ended 31 March 2018.

The insurance brokers reported a 14.33% increase in operating expenses, from the US\$3.75 million reported in the first quarter of 2017 to US\$4.87 for the quarter ended 31 March 2018. The major driver for the upsurge in operating expenses are the ICT projects which most players has embarked on. They are replacing legacy core systems with state of the art standard systems, which in our view, is a continuous processes.

4.2. Capitalisation

As at 31 March 2018, two out of thirty-one insurance brokers reported capital positions that were below the required minimum of \$100,000. The capital positions for individual insurance brokers ranged from \$ 15,210 and \$1.51 million, respectively as shown in Table 7 below:

Table 7: Reported Capital Levels for Insurance Brokers

Name of Insurance Company	Reported Capital Position (\$)			
	30-Jun-17	30-Sep-17	31-Dec-17	31-Mar-18

29. Victory Insurance Brokers	276,027	284,215	279,358	249,891
30. WFDR Risk Services	485,758	386,143	432,444	303,121
31. Zimbabwe Insurance Brokers	196,790	243,290	114,994	164,348

Key:

	The insurer reported a capital position that was above the requirement of \$100,000.
	The insurer reported a capital position that was below the requirement of \$100,000.

The Commission has since engaged the non-compliant insurance broking players to submit comprehensive recapitalisation plans least they lose their operating licence.

4.3. Asset Quality

The asset base for insurance brokers decreased from \$28.25 million as at 31 December 2017 to \$26.84 reported as at 31 March 2018. This was mainly as a result of decreases in cash and cash equivalence, as well as commission receivables from \$7.71 million and \$4.81 million reported at 31 December 2017, to \$5.39 and \$4.2 million recorded as at 31 March 2018, respectively. As shown below, the asset base for insurance brokers was skewed towards property and equipment, as well as cash and cash equivalents.

Figure 15: Insurance Brokers' breakdown of Total Assets

4.4. Earnings

Insurance brokers reported a 120.80% increase in total profit after tax from \$0.31 million for the year ended 31 March 2017 to \$0.68 million for the current period. This was as a result of \$889,607 increase in net brokerage commission as shown in table 7 above. The industry average return on equity (ROE) and return on assets (ROA) for the reporting period were 6.14% and 2.55% respectively.

4.5. Market Share for Insurance Brokers

For the quarter ended 31 March 2018, Minerva Risk Solutions, Marsh Insurance Brokers Zimbabwe and HRIB dominated the market in terms of both business written, as well as brokerage income. Figure 16 below shows the market share for the top ten insurance brokers in terms of net brokerage commission and premium written:

Figure 16: Market Share in Terms of Net Brokerage Commission and Gross Premium Written

In terms of total assets, Minerva Risk Solutions, Progressive Insurance Brokers, HRIB Insurance Brokers and Marsh Insurance Brokers were the market leaders as shown in Figure 17 below:

Figure 17: Market Share for Insurance Brokers in Terms of Total Assets

SECTION D

5. Reinsurance Brokers

5.1. Business Written

Reinsurance brokers reported a 14.24% increase in gross premium written, from the \$17.18 million reported in the first quarter 2017, to \$19.62 million for the quarter ended 31 March 2018. The industry's average net commission ratio for reinsurance brokers was 24.69% for the quarter ended 31 March 2018, which is a marginal decrease from 21.18% reported for the same period in 2017. The table below are key indicators of business written by reinsurance brokers (in US\$).

Table 8: Indicators of Business Written for Reinsurance Brokers

Indicator	31-Mar-17	31-Mar-18	Percentage Change
Premium Written	17,180,340	19,626,029	14.24%
Brokerage Commission	3,638,180	4,845,082	33.17%
Premium Written Less Commission	13,542,160	14,780,947	9.15%
Commission Paid (intermediaries)	2,618,252	3,873,301	47.93%
Net Brokerage Commission	1,019,928	971,781	-4.72%
Other Income	9,427	14,274	51.42%
Operating Expenses	650,014	666,540	2.54%
Profit Before Tax	379,341	319,515	-15.77%
Taxation	102,580	80,582	-21.44%
Profit After Tax	276,761	238,933	-13.67%

5.2. Capitalisation

All the reinsurance brokers reported capital positions which were above the minimum capital requirement (MCR) of \$100,000 as at 31 March 2018.

Table 9 below shows the capital positions reported by all reinsurance brokers:

Table 9: Capital Levels for Reinsurance Brokers (\$)

Name of Reinsurance Broker	30-Jun-17	30-Sep-17	31-Dec-17	31-March-18
1. Afro-Asian Reinsurance Brokers	125,877	110,044	106,312	107,481
2. Classic Reinsurance Brokers	115,282	114,777	114,599	115,251
3. Marsh Insurance Brokers	155,895	132,751	105,472	200,445
4. Minerva Re (Private)Limited	1,560,987	2,794,987	2,680,412	2,873,834
5. Pan African Re	318,315	310,092	422,716	398,472
6. Reinsurance Brokers International	113,404	198,572	177,044	162,738

5.3. Asset Quality

Reinsurance brokers reported total assets amounting to \$34.37 million as at 31 March 2018, reflecting a 32.16% increase from \$26.01 million as at 31 December 2017. This increase was mainly attributed to increases in premium receivables and cash and cash equivalents, which increased by \$8.16 million and \$1.06 million respectively. The asset distribution for reinsurance brokers included cash and cash equivalents (21.34%), premium receivable (68.57%) and inventory (6.67%).

5.4. Earnings for Reinsurance Brokers

Total profit after tax for reinsurance brokers decreased by 13.67% from \$276,761 reported for the quarter ended 31 March 2017 to \$238,933 reported for the current period. This was mainly due to an increase in commissions paid by the brokers from \$2.62 million as at 31 March 2017 to \$3.87 million as at 31 March 2018. The decrease in profit after tax translated into the deterioration of industry average return on equity (ROE) and return on assets (ROA) from 8.75% and 1.01% as at 31 March 2017 to 6.19% and 0.70% respectively, as at 31 March 2018.

5.5. Market Share for Reinsurance Brokers

Minerva Re (Private) Limited and Marsh Reinsurance Brokers commanded the largest share of business written, net brokerage commission and total assets for the reinsurance broking market. The market share for all the reinsurance brokers for the period under review is as shown in Table 10 below:

Table 10: Market Share for Reinsurance Brokers

Name of Reinsurance Broker	Net Brokerage Commission	Premium Written	Total Assets
1. Minerva Re (Private) Limited	80.30%	71.14%	73.69%
2. Marsh	16.68%	13.91%	13.10%
3. Pan African Reinsurance Brokers	2.07%	12.02%	9.65%
4. Reinsurance Brokers International	0.13%	0.75%	1.82%
5. Afro-Asian Reinsurance Brokers	0.82%	2.17%	1.39%
6. Classic Reinsurance Brokers*	-	-	0.34%
Total	100%	100%	100%

**The reinsurance broker did not write any business during the period under review.*

SECTION E

6. CONCLUSION

6.1. Conclusion

The insurance industry though not immune to the global challenges inherent in the sectors it has been stable and demonstrates resilience through being innovative, which the Commission continuously encourage and is supportive. Considerable developments have been noted in the digital marketing and distribution of insurance products. The industry is warming up to blockchain technology which, in our opinion will go a very long way in addressing issues like insurance fraud and unethical market conduct.

The Commission has further been driving the implementation of risk based anti-money laundering and counter terrorism financing reporting and mechanisms to augment the Government of Zimbabwe efforts to curb anti-money laundering. The insurance players are not only encouraged but continuously advised to ensure capacitation of their staff with skills of dictating and curbing anti-money laundering risks. The Commission in collaboration with the Reserve Bank of Zimbabwe (RBZ), has been guiding the players on this critical area of regulation.

In the nearest future, the insurance industry is poised for greater growth and progression as witnessed by the high appetite to grasp new information communication technologies and digital marketing along advancement of financial inclusion goals.
