**Disclaimer**

This report, including any enclosures and attachments, has been prepared by the Insurance and Pension Commission solely for informative purposes to the insurance industry stakeholders, and may not be reproduced, redistributed, communicated to a third party or relied upon by any other person for any other purpose without the Commission's prior written consent. The Commission does not accept any liability if this report is used for any other purposes other than the above mentioned intended purpose.

1. Executive Summary

- 1.1 There were 9 registered and operating funeral assurance companies as at 30 June 2018, the same number recorded as at 31 March 2018.
- 1.2 All registered life assurers also wrote funeral assurance business for the half year which ended on 30 June 2018. The details of this business is in the life assurance industry report.
- 1.3 Gross written premium for the industry for the half year ended 30 June 2018 amounted to \$20.97 million, an increase of 6.45% from \$19.70 million reported for the comparable period in 2017.
- 1.4 Uptake of reinsurance remains very low for funeral assurance industry with a retention ratio of 99.96%. There seems to be no other risk transfer mechanisms being utilized by funeral assurers to manage risk.
- 1.5 The asset base of the funeral assurance industry stood at \$71.62 million as at 30 June 2018 representing a decrease of 3.35% from \$74.10 million reported as at 31 March 2018.
- 1.6 As at 30 June 2018 the funeral assurance industry reported investments in prescribed asset ratio of \$1.46 million which represents a 7.19% percent decrease from \$1.57 million reported as at 31 March 2018. This translates to a prescribed asset ratio of 2.04%, which is significantly below the required minimum prescribed asset ratio of 7.5%.
- 1.7 The Commission will take necessary measures to ensure that funeral assurance industry players are compliant with the minimum prescribed asset ratio.
- 1.8 As at 30 June 2018, 6 out of 9 players in the funeral assurance industry were undercapitalized. The Commission will engage these players so that they regularize their capital positions and comply with the provisions of the law for the protection of policyholders interests.
- 1.9 For the half year ended 30 June 2018 the funeral assurance industry reported net profit after tax of \$2.86 million representing 2.47% increase from \$2.79 million reported for the comparable period in 2017.
- 1.10 Total claims incurred for the half year to 30 June 2018 amounted to \$5.83 million, an increase of 15.82% from \$5.03 million reported for the same period in 2017.

- 1.11 The outlook for the funeral assurance industry continues to be positive. Players should embrace new technology in the areas of product distribution and internal processes as a way of cutting costs and modernizing their business processes.
- 1.12 Table below summarises the key financial highlights discussed above for the funeral assurance industry as at 30 June 2018

Table1: Key Performance Indicators

Performance Indicator	June-17	June-18	Growth
Gross Written Premium	\$19,704,000	\$20,974,000	6.45%
Total Gross Claims	\$5,032,000	\$5,828,000	15.82%
Management Expenses	\$9,797,000	\$9,531,000	-2.72%
Commissions	\$1,615,000	\$1,885,000	16.72%
Total Costs	\$16,444,000	\$17,244,000	4.86%
Net Profit after tax	\$2,789,000	\$2,858,000	2.47%
	March- 18	June-18	
Total Assets	\$74,103,000	\$71,623,000	-3.35%
Total Liabilities	\$38,173,000	\$35,818,000	-6.17%
Capital to liability Ratio	94.00%	100.00%	5.96%
Prescribed Assets	\$1,572,000	\$1,459,000	-7.19%
Prescribed Asset Ratio	2.120%	2.04%	

2. Performance in Terms of Business Written

- 2.1 The funeral assurance industry's total gross written premium amounted to \$20.97 million for the half year ended 30 June 2018, representing a 6.45% growth from \$19.41 million reported for the same period in 2017.
- 2.2 The growth in gross written premium reported by the funeral assurance industry was driven by positive growth in gross written premium of 4 players ranging from 2.1% to 28.57%. The remaining players reported negative growth ranging from 2.03 percent to 53.13 as shown in table 2 below.
- 2.3 Funeral assurers should take advantage of the proliferation of new information and communication technology (ICT) platforms such as mobile transfer systems to develop

new distribution channels as a way to increase business. Moreso with the increase in competition from life assurers selling the same product, players are encouraged to be competitive in pricing and product structuring.

Table 2: Trend in Gross Written Premium Per Company (\$ 000)

Name of Company	June 2017	June 2018	Growth
1. Doves	8,410	9,768	16.15%
2. First Funeral	3,561	3,230	-9.30%
3. Foundation	533	522	-2.06%
4. Moonlight	5,821	5,943	2.10%
5. Orchid	32	15	-53.13%
6. Passion	499	616	23.45%
7. Ruvimbo	299	292	-2.34%
8. Sunset	56	40	28.57%
9. Vineyard	493	548	11.16%
Total	19,704	20,974	6.45%

- 2.4 Business mix for the funeral assurance industry by source to be heavily skewed towards individual business which accounted for 54 percent of total gross written premium. The remaining 46 percent of the gross written premium came from corporate business.
- 2.5 The funeral assurance industry remains heavily reliant in recurring business which accounted for 95 percent of total gross written premium for the period ended 30 June 2018. New business was scarce contributing only 5 percent of total gross written business.

3. Capitalisation

- 3.1 Funeral assurers are required to meet the minimum regulatory capital of \$2.5 million after adjusting assets and liabilities prescribed by Statutory Instrument 95 of 2017.
- 3.2 As at 30 June 2018, the unadjusted capital positions for assurance players ranged from \$0.70 million to \$17.7 million.

3.3 The Commission urges undercapitalized players to consider downgrading their licences to microinsurance as this type of licence requires lower capital.

3.4 Players who meet the minimum capital requirements of \$2.5 million were only 3 out of 9 players in the industry as at 30 June 2018 as shown in Table 3 below.

Table 3: Capitalisation Trend Levels.

Company	Capital Position				
	Jun-17	Sep-17	Dec-17	Mar-18	Jun-18
Doves	21228	22289	14 666	17 126	17 704
First Funeral	5 264	5 079	5 524	5 353	5 948
Foundation	1 026	907	909	911	819
Moonlight	3 774	3 552	3 484	4 735	4 005
Orchid	685	688	560	710	701
Passion	410	605	556	577	582
Ruvimbo	1 632	2212	1 972	2 650	2 175
Sunset	1 482	1353	1 547	1 657	1 530
Vineyard	1 972	2055	999	2 211	2 339
Total	37 473	38 740	35 328	36 930	35 803

3.5 Capitalisation levels for all assurers stated in this report are based on their unaudited assets and liabilities as at 31 June 2018. These figures were not adjusted in terms of Statutory Instrument 95 of 2017.

3.6 The Commission is worried that undercapitalized funeral assurance players have been consistently reporting capital levels below the minimum capital requirement for more than 4 quarters without taking strides to address the situation.

4. Asset Quality

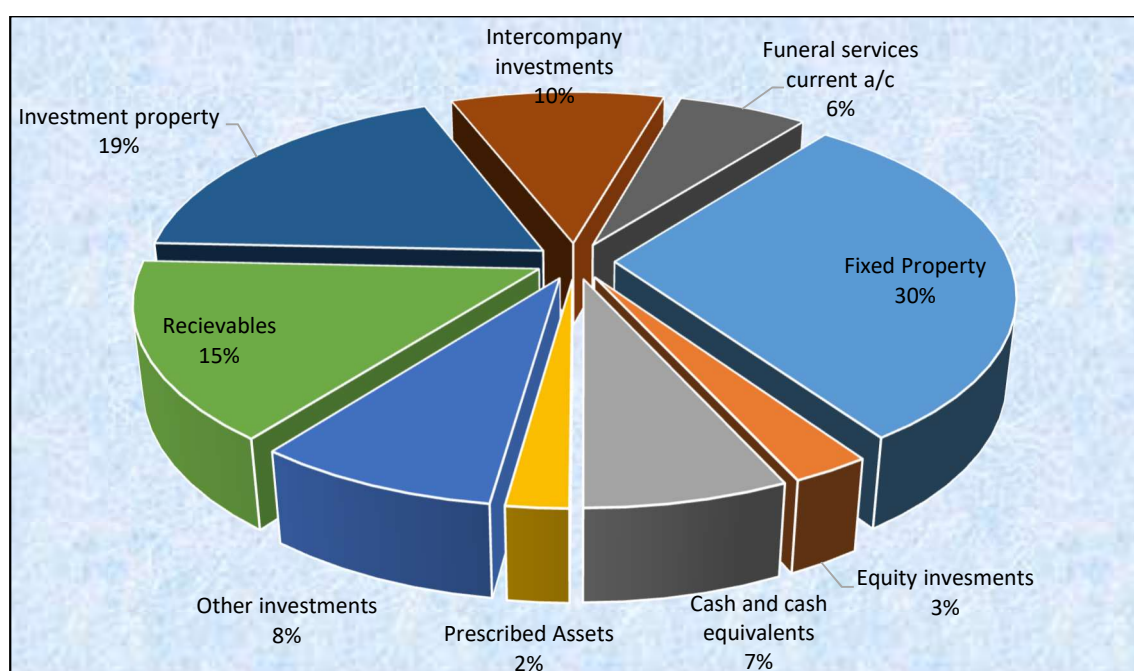

4.1 The funeral assurance industry's asset base experienced a negative growth of 3.35 percent from \$74.10 million as at 31 March 2018 to \$71.63 million as at 30 June 2018.

4.2 The asset base for the assurance industry is mainly concentrated in 3 asset classes. These are properties constituting 49 percent, (with operational property constituting 30% and investment property 19%) premium receivables of 15% and intercompany investments of 10% of total assets.

- 4.3 The Commission continues to urge funeral assurance players to structure their investment portfolios in compliance with the dictates of Circular 1 of 2013. Due regard should also be taken of the provisions of Section 58(3) of the Insurance Act [Chapter 24:07], which provides an option to policyholders to get cash in lieu of services that approximate the sum assured.
- 4.4 The industry prescribed asset investments decreased by 7.19% from \$1.57 million as at 31 March 2018 to \$1.46 million as at 30 June 2018, this translates to a prescribed asset ratio of 2.04% which is below the minimum required ratio requirement of 7.5%.
- 4.5 This Commission is concerned by the industry's defiance to abide by the provision of the law with regards to prescribed asset ratio. Corrective measures will be instituted by the Commission to enforce compliance.
- 4.6 Cash and cash equivalents for the industry were 7 percent of total assets as at 30 June 2018. Funeral assurers are required to have adequate liquid assets to meet cash portion of claims and to cater for those claimants who opt for cash in lieu of funeral services.
- 4.7 Premium debtors for the industry accounted for 15% of total assets. Players should ensure that their ability to settle claims is not compromised by having less liquid assets such as debtors. This can be achieved through more effective credit control measures.

Figure 1 below shows assets breakdown by class.

Figure 1: Breakdown of Assets

- 4.8 The funeral assurance industry had intercompany investments accounting for 10% of total assets as at 30 June 2018. This proportion remains high and at the upper limit of the dictates of Circular 1 of 2013 subsection (VII) of section 2. Players are encouraged not to divert policyholders fund to non-core business activities.
- 4.9 Player should strive to maintain an insurance fund in segregated assets and accounts and maintain an asset profile that closely mimic the liability profile.

5. Reinsurance

- 5.1 The Commission noticed that reinsurance uptake was low as evidenced by average retention ratio of 99.96%. This is despite numerous calls by the Commission for industry players to enter into reinsurance arrangements to protect their balance sheets from high claims experience which may occur.
- 5.2 The Commission continues to encourage players in the funeral assurance industry to arrange tailor made reinsurance solutions with reinsurance companies.
- 5.3 Funeral assurers should be able to properly manage their business risk as this is fundamental for maintaining good reputation and the survival of the industry players in the long term.

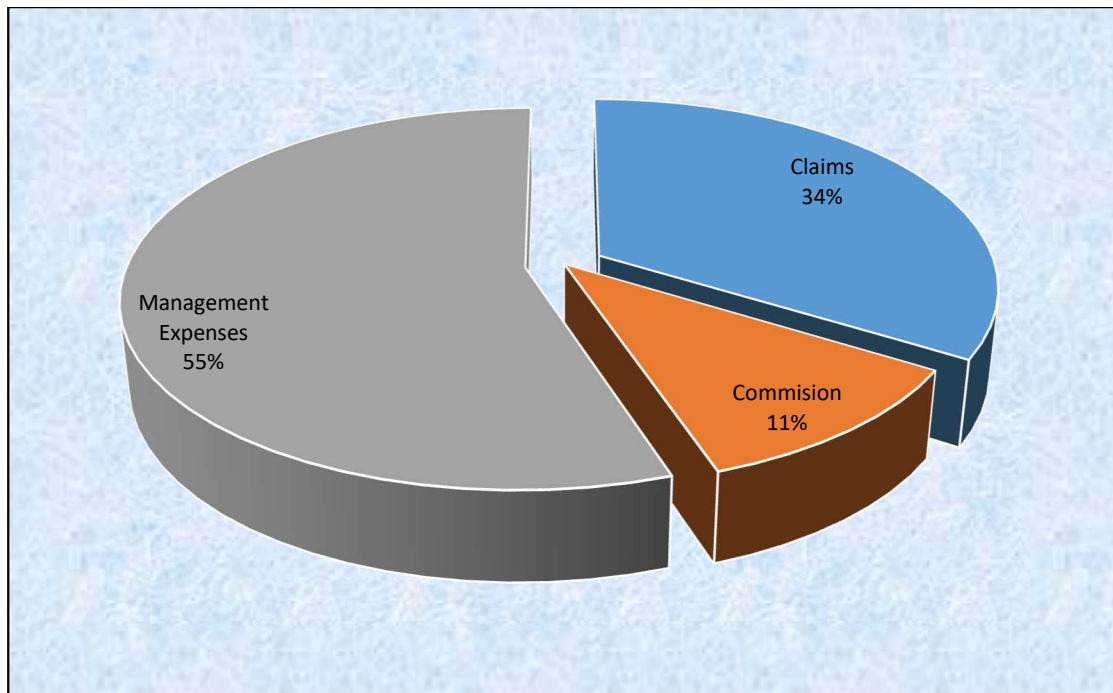

6. Actuarial Matters

- 6.1 Total technical liabilities for the funeral assurance industry as at 30 June 2018 amounted to \$19.75 million. This represents 6.8 % decrease from \$21.03 reported as at 31 March 2018.
- 6.2 Future policyholder benefits (FPB) with an amount of \$19.68 million was the major component of technical liabilities.
- 6.3 The capital to liability ratio for the funeral assurance industry 100% as at 30 June 2018, an increase from 94% as at 31 March 2018. This shows a deteriorating solvency position for the industry.
- 6.4 The commission continues to urge Industry players to periodically review their reserving policies to ensure that they adequately reserve for liabilities that they would have assumed during the course of their business.
- 6.5 In doing so players should be mindful of the fact that they are in the long term insurance business and that their liabilities are also long-term in nature.

7 Earnings

- 7.1 Net profit after tax for the funeral assurance industry increased by 2.47 % from \$2.79 million reported for the half year ended 30 June 2017 to \$2.86 million reported for the half year ended 30 June 2018.
- 7.2 Notwithstanding the increase in volume of business written by 6.45%, profit after tax increased by only 2.47%. Lower growth in net profit compared to growth in gross written premium of 6.45% was attributable to an increase in total costs of 4.86%.
- 7.3 Average return on equity for the industry was 7.96% and return on assets of 3.98% for the half year ended 30 June 2018. This shows above average levels of profitability, especially taking into account that inflation for the year was predominantly below 2%.
- 7.4 Management expenses for the industry were abnormally high at \$9.53 million, representing 45.44% of gross written premium.
- 7.5 Management expenses coupled with commission accounted for a total of 54.43% of total gross written premium. This is worrisome to the Commission as it indicates that a large chunk of premiums are being channeled towards management expenses and commissions as opposed to settlement of claims and reserving for future claims.
- 7.6 On total cost analysis management expenses constituted 55% of total costs while claims constituted 34% of total costs as shown in figure 2 below.
- 7.7 The Commission strongly urges players to find lasting solutions on cost rationalisation through the use of modern technology such as digitalisation to eliminate some business processes and take advantage of information and communication enabled cheaper distribution channels.

Figure 2: Cost Distribution for the Quarter Ended 30 June 2018

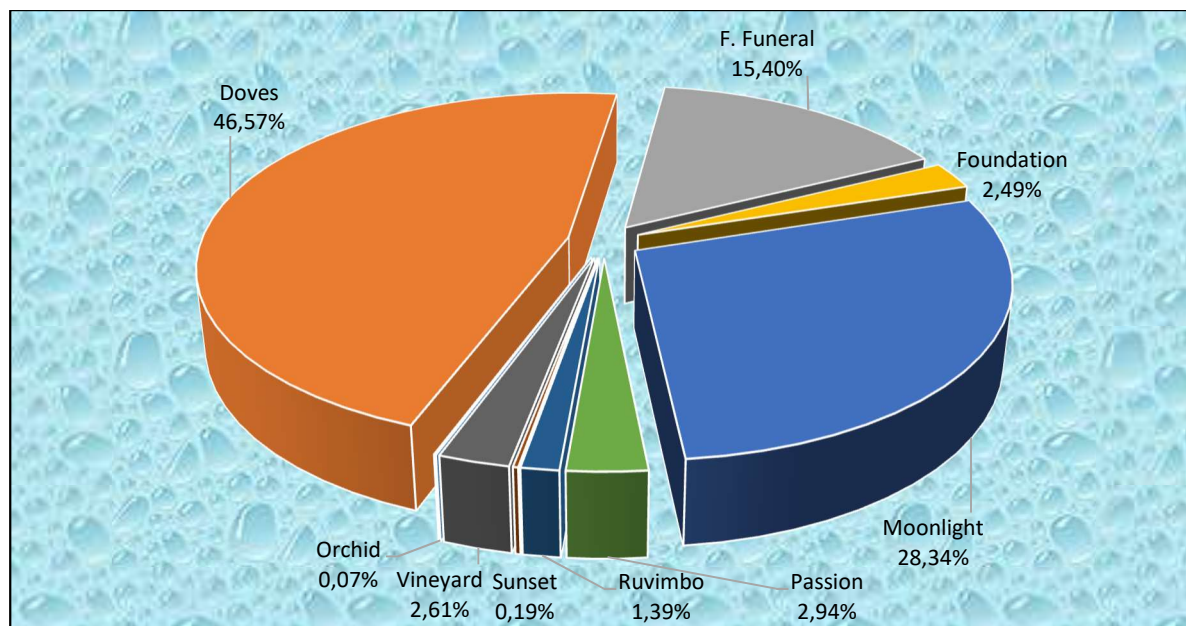

8 Liquidity

- 8.1 Total assets of the funeral assurance industry amounted to \$71.62 million as at 30 June 2018. Of these assets 7% of were considered liquid and ready to meet obligations.
- 8.2 Working capital for the industry as at 31 March 2018 was \$22.49 million, a decrease from \$25.4 million reported on 31 March 2018.
- 8.3 The industry average ratio of liquid assets to total assets remains low at 8%. This may be partly due to the long term nature of industry contractual liabilities which needs long term assets to match them.
- 8.4 Nevertheless industry players should have adequate liquidity at each and every point in time to meet claims as and when they fall due.

9 Market share

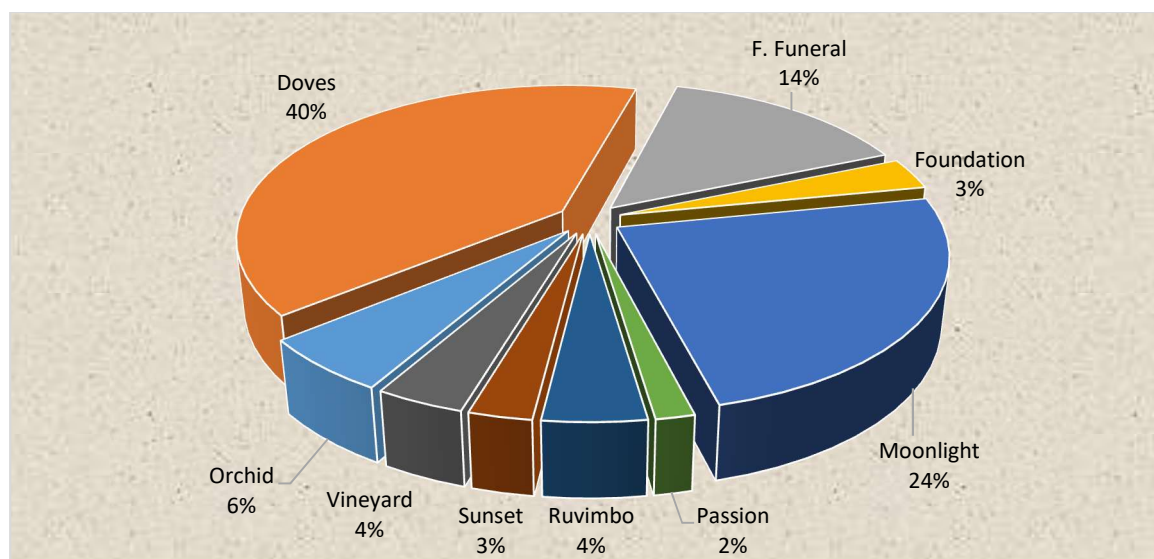

- 9.1 Market share for the funeral assurance industry in terms of gross written premium remains concentrated in 3 players who account for 90.31%. The remaining 6 players shared 9.69% as shown in figure 3 below.

Figure 3: Market Share by Gross Written Premium

9.2 Funeral assurance industry players who dominated the industry in terms of gross written premium also dominated in terms of market share by assets as shown in figure 4 below.

Figure 4: Market Share Based on Assets

9.3 The three dominant companies accounts for 78% of the industry total assets. All the 3 companies with sizable share of industry assets reported unadjusted capital levels above the minimum capital requirement.
