Executive Summary

This report provides an analysis of the performance of the non-life insurance industry for the quarter ended 30 June 2018. Total Gross Premium Written (GPW) by non-life insurers amounted to \$144.18 million for the half year ended 30 June 2018, reflecting a 15.44% increase from \$124.90 million reported for the comparative period in 2017. On the other hand, GPW reported by non-life reinsurers declined from \$60.19 million for the half year ended 30 June 2017 to \$57.83 million for the half year ended 30 June 2018, representing a drop of 3.9%. This drop comes in the wake of an increase in risk appetite by direct non-life insurers as reflected by a significant increase in average retention ratio from 60.21% for the half year ended 30 June 2017 to 70.21% for the period under review.

Total assets for the insurance industry shrunk by 5.54% from \$470.44 million as at 31 March 2018 to \$444.38 million as at 30 June 2018. Non-life insurers reported total assets of \$256.77 million which accounted for 57.78% of the total assets for the industry as at 30 June 2018. This was followed by reinsurance companies which reported total assets of \$156.02 million which contributed 35.11 of the total industry assets.

Investments in prescribed assets for the whole insurance industry rose by 3.82% from \$37.73 million as at 31 March 2018 to \$39.17 million as at 30 June 2018. The total investments in prescribed assets as at 30 June 2018 translated into an industry average prescribed asset ratios of 9.25% and 12.88% for non-life insurers and non-life reinsurers respectively, which were above the regulatory minimum of 5%. Notwithstanding the above position, eleven (11) non-life insurers and two (2) non-life reinsurers were not compliant with the regulatory minimum threshold for prescribed assets as at 30 June 2018. The Commission has since engaged the companies to address the regulatory anomaly.

A total of sixteen (16) out of twenty (20) insurers reported capital positions which were above \$2.5 million as at 30 June 2018. The reported capital positions were computed without accounting for non-admissible assets as stipulated in Statutory Instrument 95 of 2017. All the registered non-life reinsurers reported capital positions that were above the minimum capital requirement of \$5 million.

The non-life insurers reported total profit after tax for the half year ended 30 June 2018 of \$16.94 million, which was 52.34% increase from \$11.12 million reported in the comparative period in 2017 while total profits after tax for non-life reinsurers decreased from \$5.0 million for the half year ended 30 June 2017 to \$ 4.8 million for the half year ended 30 June 2018.

Insurance brokers wrote \$59.04 million in premium income for the half year ended 30 June 2018. This represented a 22.33% increase in business written by insurance brokers from \$48.26 million reported for the same period in 2017. Insurance brokers recorded \$9.26 million net brokerage commission since 1 January 2018. Compared to the same period in 2017, this represented a 15.79% increase from \$7.99 million reported.

One (1) out of 31 insurance brokers was not compliant with the minimum capital required to establish and operate an insurance broking firm. The Commission is closely monitoring the recapitalisation plan which the broker submitted.

Reinsurance brokers reported \$42,87 million in gross premium for the half year ended 30 June 2018 reflecting an increase of 20.10% from the \$35,70 million reported for the same period in 2017. The industry average commission ratio for reinsurance brokers was 23.50% for the half year ended 30 June 2018, an increase from 19.80% reported for the same period in 2017. All reinsurance brokers, except one (1), reported capital positions which were above \$100,000 as at 30 June 2018.

1. Architecture of the Non-Life Insurance Industry

There were six hundred and twenty-nine (629) registered entities/persons in the non-life insurance industry as at 30 June 2018. The architecture of the industry is as shown in Table 1 below:

Table 1 : Architecture of the Non-Life Insurance Industry

Type of Institution	Number of Registered Entities/Persons as at....			
	30-Jun-17	30-Sep-17	31-Dec-17	30-Jun-18

*Five reinsurers namely Emeritus Reinsurance Company, FBC Reinsurance Company, First Mutual Reinsurance Company, Grand Reinsurance Company and PTA Reinsurance Company (Zep Re) are composite reinsurers who also write life business. However, the figures in this report pertain to their non-life business only.

**Two insurers namely FBC Insurance Company and Alliance Insurance Company are composite insurers, however the figures in this report pertain to their non-life business only.

SECTION A

2. Short-Term (Non-Life) Insurance Companies

Please refer to Appendix 1A-C for detailed statistics for each of the non-life insurers.

2.1. Performance in Terms of Business Written

Total Gross Premium Written (GPW) by non-life insurers amounted to \$144.18 million for the half year ended 30 June 2018, reflecting a 15.44% increase from \$124.90 million reported for the comparative period in 2017. Figure 1 below shows the trend in volume of the business generated during the half years ended 30 June by non-life insurers since 2014.

Figure 1 : Trend in Written Business

The increase in GPW during the period under review was mainly attributable to growth in business generated from motor insurance and personal accident insurance, growth amounted to \$18.33 million.

Table 2 below shows the percentage growth in GPW for different class of business.

Table 2 : Non-Life Insurers' Gross Premium Written by Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	30-Jun-17	30-Jun-18	
Aviation	2,041,761	700,535	-65,69%
Bonds/Guarantee	6,353,092	8,128,547	27,95%
Engineering	8,233,664	9,650,496	17,21%
Farming	589,125	704,495	19,58%
Fire	24,763,982	26,320,890	6,29%
Hail	88,622	103,763	17,08%
Hire Purchase	1,837,778	1,946,343	5,91%
Marine	2,853,107	2,656,511	-6,89%
Miscellaneous Accident	10,018,372	6,482,726	-35,29%
Motor	56,576,266	69,886,461	23,53%
Personal Accident	9,958,701	14,977,928	50,40%
Personal Liability	1,590,498	2,619,016	64,67%
Total	124,904,968	144,177,711	15,43%

Motor and fire insurance classes remained the largest sources of business in terms of GPW. These two business classes accounted for a total of 66.00% of total GPW during the half year ended 30 June 2018. The distribution of business generated during the half year ended 30 June 2018 across different business classes is shown in Figure 2 below.

Figure 2 : Distribution of GPW across Business Classes

Insurance players are continuously encouraged to innovate and design new products to avoid reliance on few lines of business.

2.2. Capitalisation

A total of sixteen (16) out of twenty (20) insurers reported capital positions which were above \$2.5 million as at 30 June 2018. The reported capital positions were computed without accounting for non-admissible assets as stipulated in Statutory Instrument 95 of 2017. The capital positions reported by non-life insurers for half ended 30 June 2018 are shown in table 3 below:-

Table 3 : Reported Capital Positions for Non-Life Insurers

Name of Insurance Company	Reported Capital Position (\$)			
	30-Jun-17	31-Dec-17	31-Mar-18	30-Jun-18
1. Alliance Insurance Company	4,432,633	6,412,157	8,122,556	8,913,563
2. Allied Insurance Company	1,804,316	2,044,665	2,007,281	2,068,750
3. C.B.Z Insurance Company	5,897,032	7,220,301	11,321,420	7,799,908
4. Cell Insurance Company	5,087,053	5,806,891	6,732,099	8,790,610
5. Champions Insurance Company	2,908,747	3,322,001	4,191,830	4,404,903
6. Clarion Insurance Company	2,067,792	1,771,732	2,338,306	2,116,809
7. Credit Insurance Zimbabwe	1,716,901	2,913,620	4,172,350	4,213,554
8. FBC Insurance Company	2,871,557	7,163,586	7,088,691	7,154,607
9. Evolution Insurance Company	6,628,782	4,512,844	4,703,565	4,821,781
10. ECGC	4,335,703	3,021,051	3,056,046	4,054,243
11. Hamilton Insurance Company	1,745,763	1,699,295	2,787,502	2,683,216
12. Nicoz Diamond Insurance Company	13,728,426	15,353,594	14,528,581	15,065,130
13. Old Mutual Insurance Company	25,985,269	34,070,698	32,010,579	35,167,690
14. Quality Insurance Company	2,220,943	2,902,158	3,013,000	3,094,000
15. Regal Insurance Company	3,535,639	2,513,027	2,802,932	2,513,026
16. Safel Insurance Company	2,137,237	2,872,964	3,532,778	3,656,723
17. Sanctuary Insurance Company	1,593,188	1,886,708	1,816,216	1,741,693
18. THI Insurance (Pvt) Ltd	2,237,207	2,530,808	2,687,201	2,384,857
19. Tristar Insurance Company	2,109,733	3,135,239	2,805,791	2,728,526
20. Zimnat Lion Insurance Company	8,674,046	11,565,964	11,576,948	12,412,133

Key:

	The insurer reported a capital position that was above the requirement of \$2.5 million.
	The insurer reported a capital position which was below \$2.5 million.

2.3. Asset Quality

Total assets for non-life insurers decreased marginally from \$258.43 million reported as at 31 March 2018 to \$256.77 million reported as at 30 June 2018. The decrease in total assets during the quarter under review is in tandem with trends noted during the same period over the years. The trend in total assets is shown in Figure 3 below.

Figure 3 : Trends in Total Assets

The asset base of non-life insurers continued to be fairly distributed across different investment classes as shown in Figure 4 below. This situation remains positive for the management of concentration risk which may result in ripple effect if it goes unchecked.

However, premium debtors as was reported in the quarter ending 31 March 2018 remained the largest asset class accounting for 18.99% of total assets. Although the asset class remained with the highest proportion of the total assets, it is notable that its contribution to total assets has decreased marginally from 21.24% contribution to total assets as at 31 March 2018 to 18.99% as at 30 June 2018. The prevalence of premium debtors call for robust credit risk management systems by insurers as was advised in the previous report.

Investments in prescribed assets decreased by 10.39% from \$23.48 million as at 31 March 2018 to \$21.04 as at 30 June 2018. The Commission continuously engaged non-compliant players with regards to the minimum prescribed asset ratio.

Figure 4 : Distribution Non-life Insurers’ Total Assets

NB: Technical assets refer to reinsurers’ share of outstanding claims and deferred acquisition costs.

The industry’s average prescribed assets ratio as at 30 June 2018 was 9.25% against the minimum requirement of 5%. However, eleven (11) insurers were not compliant with the minimum prescribed assets ratio with four (4) of these insurers not having any investments in prescribed assets.

The insurers risk being penalised as non-compliance with prescribed assets is a serious regulatory concern and the Commission is on a drive to ensure full compliance with this statutory requirement. Appendix 1C shows other indicators of asset quality.

2.4. Reinsurance

The industry average retention ratio rose from 60.21% for the quarter ended 30 June 2017 to 70.21% for the quarter under review. This signifies an increase in risk appetite among the non-life insurance industry. Retention ratios for individual insurers ranged from 21.94% to 100% as shown in Figure 5 below:

Figure 5 : Retention Ratios for Non-Life Insurance Companies

The average reinsurance creditors to reinsurance premium ratio was 54.67% as at 30 June 2018, compared to 51.05% reported as at 30 June 2017. The ratio decreased from 95.33% which was reported for the quarter ended 31 March 2018 indicating significant settlement of reinsurance premiums as the year progresses. The Commission is continuously engaging the Reserve Bank of Zimbabwe (RBZ) to ensure high priority is placed on retrocession payments as reinsurance has an impact on the financial soundness of the regulated entities. (See Appendix 1C for more indicators).

2.5. Actuarial Matters

The non-life insurance industry reported a 4.79% increase in total technical liabilities from \$67.44 million as at 31 March 2018 to \$70.67 million as at 30 June 2018.

Although the average liquid assets to total technical reserves ratio of 92.43% as at 30 June 2018 was below the idle 100%, the industry was still considered to be holding sufficient liquid assets to back its technical liabilities. Notwithstanding the recorded industry's average liquid assets to reserves ratio, some insurers reported ratios which were significantly below 100%, indicating that their reserves were not backed by liquid assets. (See Appendix 1C for the performance indicators of insurance companies in terms of Actuarial matters).

2.6. Earnings

The non-life insurers reported total profit after tax for the half year ended 30 June 2018 of \$16.94 million, which was 52.34% increase from \$11.12 million reported in the comparative period in 2017. The increase in total profit after tax was mainly attributable to an increase in Gross Premium Written alluded to Section 2.1, coupled with a decreased usage of reinsurance as evidenced by an increase in the retention ratio reported in section 2.4 of this report.

There was an increase in underwriting result from \$6.6 million for the quarter ended 30 June 2017 to \$14.81 million for the period under review. This translated into an improvement in the industry average loss ratio from 48.01% for the half year ended 30 June 2017 to 40.02% for the quarter under review. The industry average combined ratio for non-life insurers also improved from 90.07% for the half year ended 30 June 2017 to 83.57% for the period under review.

The industry's average return on assets (ROA) and return on equity (ROE) was 7.39% and 14.86% for the period under review. As at 30 June 2017, ROA was 5.29% and ROE 11.20%. This increase in such returns is a function of the increase in total assets and total revenue for the half year ending 30 June 2018. (For more performance indicators on profitability see Appendix 1C).

2.7. Liquidity

Total cash and near cash assets in the form of money market and short term prescribed assets increased from \$61.56 million as at 31 March 2018 to \$66.17 million as at 30 June 2018. The net effect was an increase in the acid test ratio from 55.41% recorded as at 31 March 2018 to 60.36% registered as at 30 June 2018. Given the prevailing acute foreign currency shortages in the formal market, investment of assets in liquid assets may expose the insurers to the vagaries of inflation emanating from volatile parallel market exchange rates. The acid test ratio for individual insurers as at 30 June 2018 ranged from 1.65% to 631.17% as shown in Appendix 1C.

2.8. Market Share for Non-life Insurers

Old Mutual Insurance, Zimnat Lion and Nicoz Diamond were the market leaders in terms of GPW with a combined market share of 42.59%. Figure 6 below shows market share in terms of GPW and NPW for all insurers.

Figure 6 : Market Share for Insurers in Terms of GPW and NPW

The same insurers were the market leaders in terms of total assets with a combined market share of 52.49% as shown in Figure 7 below:

Figure 7 : Market Share for Insurers in Terms of Total Assets

Therefore, the non-life insurance is significantly controlled by a few companies, signifying an oligopolistic market as was reported in the previous quarter which ended 31 March 2018.

SECTION B

3. Reinsurance Companies

Please note that the figures for PTA Reinsurance Company (Zep-Re) contained in this report are only for the institution's Regional Hub Office located in Zimbabwe and not for the company as a regional institution. The Regional Hub Office writes business in Zimbabwe, Swaziland, Botswana, Namibia, and South Africa, among others. PTA Reinsurance Company was formed under the auspices of COMESA and writes business in all COMESA member States. The Regional Hub Office is supported by the balance sheet of Zep-Re as a whole.

Detailed statistics for all reinsurers are shown in Appendix 2A-C.

3.1. Performance in Terms of Business Written

The total business written by non-life reinsurers slightly decreased from \$60.19 million for the half year ended 30 June 2017 to \$57.83 million for the period under review. This was mainly due to an increase in the risk appetite by direct non-life insurers as reflected by a significant increase in the average retention ratio as alluded in Section 2.4 above. Figure 8 below shows the trend in volume of business written by non-life reinsurers in the half year period from 2014 to 2018.

Figure 8 : Trend in Business Written

Fire and motor insurance remained dominant classes of businesses as they constituted 60.44% of the overall business written for the half year ended 30 June 2018. The Commission continues to encourage the industry to manage concentration risk in terms of their portfolios.

Table 4 : Reinsurers' Gross Premium Written By Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	30-Jun-17	30-Jun-18	
Aviation	1,770,417	961,078	-45,71%
Bonds/Guarantee	561,352	236,411	-57,89%
Engineering	2,928,436	3,512,453	19,94%
Farming	8,943,272	3,271,928	-63,41%
Fire	26,807,310	25,224,151	-5,91%
Hail	93,181	1,366,810	1,366,83%
Health	427,698	1,533,316	258,50%
Hire Purchase	70,378	110,254	56,66%
Marine	1,061,615	1,206,858	13,68%
Miscellaneous Accident	5,748,250	7,523,674	30,89%
Motor	7,448,975	9,727,888	30,59%
Personal Accident	2,835,636	2,004,640	-29,31%
Public Liability	1,489,020	1,151,380	-22,68%
Total	60,185,540	57,830,841	-3,91%

Hail and health insurance remained the fastest growing classes of business in terms of GPW while bonds and farming insurance recorded the largest percentage decreases in GPW. Changes in the volume of business written in different classes are shown in Figure 9 below.

Figure 9 : Distribution of Reinsurers' GPW by Business Class

The Commission continuously encourages the industry to take advantage of the opportunities that are prevalent in the farming sector through provision of innovative agro-based insurance policies in the wake of command agriculture schemes by the Government of Zimbabwe.

3.2. Capitalisation

As at 30 June 2018, all the registered non-life reinsurers reported capital positions which were above the minimum capital requirement of \$5 million. However, these reported capital positions were not adjusted in line with the provisions of Statutory Instrument (SI) 95 of 2017 which, among other things, discounts non-permissible assets.

The Commission is still in the process of verifying capital position of all reinsurers in line with Statutory Instrument 95 of 2017. Table 5 below shows the capital positions for non-life reinsurers.

Table 5 : Reported Capital Positions for Non-Life Reinsurers

Reinsurance Company	Reported Capital Position (\$)			
	30-Sep-17	31-Dec-17	31-Mar-18	30-Jun-18
1. Colonnade Re.	604,337	635,489	1,835,765	5,205,000
2. Emeritus Re.	37,375,064	37,217,605	37,445,383	38,256,000
3. FBC Re.	14,141,340	13,564,028	13,990,329	14,277,000
4. FMRE	8,852,503	8,108,635	7,495,418	8,225,000
5. Grand Re.	7,616,393	9,290,172	9,784,812	9,821,000
6. Tropical Re.	3,321,310	4,773,920	4,275,690	5,303,000
7. PTA Re.	5,825,917	5,890,118	5,399,008	6,257,000
8. ZB Re.	12,100,686	10,221,561	10,283,710	10,629,000

The average solvency margin for non-life reinsurers was 136.98% as at 30 June 2018, which was above 133.15% reported as at 31 March 2018. All the reinsurers were compliant with the minimum solvency margin of 25% stipulated in Section 24(1a) (ii) of the Insurance Act [Chapter 24:07]. The solvency margin for individual reinsurers as at 30 June 2018 ranged from 59.5% to 634.06 % as shown in appendix 2C.

3.3. Asset Quality

Non-life reinsurers had an asset base of \$156.02 million as at 30 June 2018, reflecting a 3.49% increase from the \$150.75 million reported as at 31 March 2018. The growth in the asset base was mainly due to the significant increase in the value of listed equities and money market investment from \$16.81 million as at 31 March 2018 to \$23.65 million as at 30 June 2018. Figure 10 below shows asset trends from 31 March 2017.

Figure 10 : Trend in Total Assets

In addition, investments in prescribed assets improved significantly as the players had \$18.13 million invested in such assets as at 30 June 2018, translating to a contribution of 11, 62% of the total assets. The prescribed assets rose by 27.23% from \$14.25 million value which was reported as at 31 March 2018.

A decrease in premium debtors during the second quarter was also observed, reflecting perhaps a change in the credit risk management processes of companies. However, over the years the trend has been that the amount of premium debtors declines as the underwriting year progresses.

Cash and money market investments, investments in associated companies and premium debtors were the major asset classes which accounted for 55.41% of the non-life reinsurers’ total asset base as at half year 2018. Despite the fact that the level of investments in associated companies remained the same, these figures were reported only from three companies. (See Appendix 2B). Figure 11 below shows a breakdown of total assets as at 30 June 2018.

Figure 11 : Breakdown of Non-life Reinsurers’ Total Assets

As shown in figure 11 above, total asset base for the reinsurance industry was skewed towards cash and money market investments, investment in associated companies and premium debtors as explained above. It is a statutory requirement that all the reinsurance players invested in prescribed assets. The reinsurance industry had an average minimum prescribed asset ratio of 10.28% as at 30 June 2018, thus exceeding the minimum required of 5%. However, two companies were not compliant with the required ratio. The non-compliant players have since being engaged to rectify the anomaly failure of which the Commission will apply stern regulatory measures against them.

3.4. Retrocession

The industry's average retention ratio was 68.37% for the quarter ending 30 June 2018 compared to 63.18% that was reported for the quarter ending 30 June 2017. This reflects a general increase in risk appetite by the reinsurance players. Individual reinsurers reported retention ratios ranging from 42.97% to 104.72% for the quarter under review as shown in Figure 12 below.

Figure 12 : Retention Ratios for Reinsurers (%)

The industry's average retrocession creditors to retrocession premiums ratio increased significantly from 27.92% for the half year ended 30 June 2017 to 51.95% for the period under review. The increase signifies that the performance of non-life reinsurers in terms of remittances of retrocession premiums is lagging behind and unfavourable.

The current foreign currency challenges the economy is experiencing has a deep bearing on such retrocession obligations with possible net effect of negatively impacting the operations of insurance industry as a whole. The Commission is continuously engaging the Reserve Bank of Zimbabwe to prioritise such critical payments which also forms the backbone of the insurance industry.

3.5. Actuarial Matters

Total technical liabilities increased from \$35.07 million as at 31 March 2018 to \$47.90 million as at 30 June 2018. The largest proportion of total reserves was attributable to Unearned Premium Reserve (UPR), which amounted to \$17.10 million and accounted for 35.65% of the total technical liabilities. Actuarial expertise and guidance is critical in the determination of these reserves.

There was a marked increase in the non-life reinsurance sector's average total liquid investments to reserves ratio from 119.64% as at 31 March 2018 to 148.48% as at 30 June 2018. The above indicates that the re-insurance players had adequate resources to match the technical liabilities.

Appendix 2C shows the ratio of liquid assets to technical liabilities for individual reinsurers which ranged from 76.88% to 4339, 84% as at 30 June 2018. The huge rise on one of the reinsurer's liquid asset ratios was a function of capital injection. However, the reinsurer has since been advised to review their reserving policies to align them with the injected capital.

3.6. Earnings

Total profit after tax for non-life reinsurers decreased from \$5 million for the half year ended 30 June 2017 to \$4.8 million for the half year ended 30 June 2018. This decrease was mainly attributable to increase in operating expenses and taxation, which amounted to \$8.17 million and \$324,000 respectively, for the half year ended 30 June 2018.

As a result of the decrease in profit after tax, the industry average return on equity (ROE) and return on assets (ROA) decreased from 6.13% and 3.69% respectively for the half year 2017 to 5.42% and 3.27% for comparative period in 2018. The industry average loss ratio was 39.79% as at 30 June 2018, which was an improvement from the 48.01% reported for the comparative period in 2017. This resulted in the combined ratio decreasing from 98.66% as at 31 March 2018 to 91.27% for the period under review.

3.7. Liquidity

There was a huge movement in liquid assets held by non-life reinsurers, which increased from \$40.00 million as at 31 March 2018 to \$49.98 million as at 30 June 2018. The average acid test ratio for individual non-life reinsurers rose from 77.18% as at 31 March 2018 to 93.74% as at 30 June 2018. The acid test ratio indicates that for every dollar of the industry's total current liabilities, the industry had about 93 cents in readily liquid assets to back such current liabilities. The acid test ratios for non-life reinsurers is shown on Appendix 2C under liquidity.

3.8. Market Share for Reinsurers

As shown in Figure 13 below, ZB Re, Grand Re and Zep-Re reportedly controlled 51.18% of Gross Premium Written (GPW) for the half year ended 30 June 2018.

On the other hand, FBC Re, Grand Re and ZB Re were the market leaders in terms of NPW with a combined 48.25% of the Net Premium Written (NPW) as at 30 June 2018.

Figure 13 : Market Share for Non-life Reinsurers in terms of GPW and NPW

In terms of share of total assets, Emeritus Reinsurance Company, FBC Reinsurance Company and Grand Re were the market leaders, with a combined market share of 59.76%. Figure 14 below shows the market shares of each reinsurer.

Figure 14 : Market Share for Non-life Reinsurers in terms of Total Assets

SECTION C

4. INSURANCE BROKERS

4.1. Business Written

Insurance brokers wrote \$59.04 million in premium income for the half year ended 30 June 2018. This represented a 22.33% increase in business written by insurance brokers from \$48.26 million reported for the same period in 2017. Insurance brokers recorded \$9.26 million net brokerage commission for the half year period ended 30 June 2018. Compared to the same period in 2017, this represented a 15.79% increase from \$7.99 million reported.

The total commission translated to an industry average commission rate of 16.57% for the half year ended 30 June 2018 which, lower than the 17.08% reported for the same period in 2017. Table 6 below shows key indicators for the business written by the insurance brokers (in \$).

Table 6: Indicators of Business Written for Insurance Brokers

Indicator	30 Jun 2017 (\$)	30 Jun 2018 (\$)	Percentage Change
Premium Written	48,264,600	59,043,744	22.33%
Premium Payable	40,023,193	37,699,790	-5.81%
Brokerage Commission	8,241,408	9,781,852	18.69%
Commission Paid	244,850	76,145	-68.90%

32. Zimbabwe Insurance Brokers	243,290	114,994	164,348	168,040

Key:

	The insurer reported a capital position that was above the requirement of \$100,000.
	The insurer reported a capital position that was below the requirement of \$100,000.

4.3. Asset Quality

The asset base for insurance brokers increased from \$26.89 million as at 31 March 2018 to \$31.57 million reported as at 30 June 2018. This was caused by sharp increases in accrued investment income, property and equipment, premium receivables and cash and cash equivalents. These items increased by 189%, 108%, 97%, and 61% respectively from the period of 31 March 2018 to 30 June 2018.

Figure 15: Insurance Brokers' breakdown of Total Assets

As shown above, the asset base for insurance brokers remained skewed towards property and equipment, as well as cash and cash equivalents.

4.4. Earnings

Insurance brokers reported a 45.18% increase in total profit after tax from \$0.67 million for the half year ended 30 June 2017 to \$0.98 million for the current period. This was due to a sharp increase in commissions paid under the current period. The industry average return on equity (ROE) and return on assets (ROA) for the reporting period were 7.61% and 3.11% respectively.

4.5. Market Share for Insurance Brokers

Minerva Risk Solutions, HRIB and Marsh Insurance Brokers Zimbabwe dominated the market in terms of both business written as well as brokerage income for the half year ended 30 June 2018. Figure 16 below shows the market share for the top ten insurance brokers in terms of net brokerage commission and premium written.

Figure 16: Market Share in Terms of Net Brokerage Commission and GPW

Figure 17: Market Share for Insurance Brokers in Terms of Total Assets

In terms of total assets, Minerva Risk Solutions, Marsh Insurance Brokers, HRIB Insurance Brokers Progressive Insurance Brokers and CBZ Risk, were the market leaders as shown in Figure 17 above.

SECTION D

5. REINSURANCE BROKERS

5.1 Business Written

Reinsurance brokers reported \$42,87 million in gross premium for the half year ended 30 June 2018 reflecting an increase of 20.10% from the \$35,70 million reported for the same period in 2017. The industry average commission ratio for reinsurance brokers was 23.50% for the half year ended 30 June 2018, an increase from 19.80% reported for the same period in 2017.

The table below shows the key indicators of business written by reinsurance brokers (in \$).

Table 8: Indicators of Business Written for Reinsurance Brokers

Indicator	30-Jun-17	30-Jun-18	Percentage Change
Premium Written	35,696,293	42,870,564	20.10%
Premium Payable	28,626,805	32,796,533	14.57%
Brokerage Commission	7,069,488	10,074,031	42.50%
Commission Paid	5,120,554	8,061,924	57.44%
Net Brokerage Commission	1,948,934	2,012,107	3.24%
Other Income	35,442	21,509	-39.31%
Operating Expenses	1,323,195	1,399,061	5.73%
Profit Before Tax	661,181	634,554	-4.03%
Taxation	178,816	172,803	-3.36%
Profit After Tax	482,365	461,752	-4.27%

5.2 Capitalisation

Most of the reinsurance brokers reported capital positions which were above \$100,000 as at 30 June 2018 except for Afro-Asian Reinsurance Brokers. Table 9 below shows the capital positions reported by all reinsurance brokers:

Table 9: Capital Levels for Reinsurance Brokers

Name of Reinsurance Broker	30-Sep-17 (\$)	31-Dec-17 (\$)	31-Mar-18 (\$)	30-Jun-18 (\$)
1. Afro-Asian Reinsurance Brokers	110,044	106,312	107,481	95,280
2. Classic Reinsurance Brokers	114,777	114,599	115,251	115,903
3. Marsh Insurance Brokers	132,751	105,472	200,445	146,371
4. Minerva Re (Private) Limited	2,794,987	2,680,412	2,873,834	3,225,249
5. Pan African Re	310,092	422,716	398,472	515,478
6. Reinsurance Broker International	198,572	177,044	162,738	149,951

5.3 Asset Quality

Reinsurance brokers reported total assets amounting to \$30.48 million as at 30 June 2018, reflecting an 11% decrease from \$34.37 million reported for as at 31 March 2018. This decrease was mainly attributed to decreases in debtors, cash and cash equivalents, commission receivable and premium receivables by 54%, 19%, 13% and 6% respectively when compared to 31 March 2018. The asset distribution for reinsurance brokers included property and equipment, land and buildings and other assets.

5.4 Earnings for Reinsurance Brokers

Total profit after tax for reinsurance brokers decreased by 4.27% from \$0.46 million for the half year ended 30 June 2017 to \$0.46 million for the half year ended 30 June 2018. This decrease in profit after tax was a result of a 57.44% increase in commission paid, a 39.31% decrease in other income and a 5.73% increase in expenses for the half year ended 30 June 2018. The slowdown in growth witnessed in profit after tax is confirmed by the industry average return on equity (ROE) which fell from 20.20% as at 30 June 2017 to 10.87%, while return on assets (ROA) eased from 2.24% to 1.52% in the current period.

5.5 Market Share for Reinsurance Brokers

Minerva Re (Private) Limited remained dominant throughout the half year in terms of business written, net brokerage commission and total assets for the reinsurance broking market. The market share for all the reinsurance brokers for the period under review is as shown in Table 10 below.

Table 10: Market Share for Reinsurance Brokers

Name of Reinsurance Broker	Net Commission	Brokerage	Premium Written	Total Assets
1. Minerva Re (Private) Limited		71.12%	66.94%	73.47%
2. Pan African Reinsurance Brokers		15.20%	19.39%	7.99%
3. Marsh		9.91%	11.39%	13.44%
4. Reinsurance Brokers International		0.71%	1.13%	3.06%
5. Afro-Asian Reinsurance Brokers		3.07%	1.15%	1.65%
6. Classic Reinsurance Brokers*		0.00%	0	0.38%
Total		100%	100%	100%

**The reinsurance broker did not write any business during the period under review.*
