Executive Summary

This report provides an analysis of the performance of the non-life insurance industry for the nine months ended 30 September 2018. The volume of business generated by non-life insurers as measured by total Gross Premium Written (GPW) amounted to \$198.45 million. This reflects a 16.88% growth from \$169.79 million that was reported in the comparative period in 2017. The increase in GPW was mainly on the back of significant growth recorded in motor and fire insurance, which growth amounted to a total \$21.28 million. The overall growth in GPW could also be a reflection of upward review of the policy limits across the board, and the corresponding upward review of premiums.

Non-life reinsurers, on the other hand, reported GPW of \$86.54 million for the nine months ended 30 September 2018, which was an 8.54% growth from \$79.73 million which was recorded for the comparative period in 2017. The key drivers for the growth in GPW of non-life reinsure's were increases experienced on miscellaneous accident, hail and motor insurance books.

Total assets for the insurance industry grew by 7.30% from \$444.38 million as at 30 June 2018 to \$476.84 million as at 30 September 2018. Non-life insurers reported total assets of \$279.72 million which accounted for 58.66% of the total assets for the industry as at 30 September 2018. This was followed by reinsurance companies which reported total assets of \$167.08 million which contributed 35.04% of the total industry assets.

Following IPEC engagement with the insurance players, investments in prescribed assets for the whole insurance industry rose by 3.24% from \$39.17 million as at 30 June 2018 to \$40.44 million as at 30 September 2018.

The total investments in prescribed assets as at 30 September 2018 translated into an industry average prescribed asset ratios of 9.12% and 12.84% for non-life insurers and non-life reinsurers respectively, which were above the regulatory minimum of 5%. The Commission has since penalised all the non-compliant players and tasked them to submit compliance plans.

A total of eighteen (18) out of twenty (21) insurers reported capital positions which were above \$2.5 million as at 30 September 2018. The reported capital positions were computed without accounting for non-admissible assets as stipulated in Statutory Instrument 95 of 2017. All the registered non-life reinsurers reported capital positions that were above the minimum capital requirement of \$5 million.

The non-life insurers reported total profit after tax of \$13.22 million for the nine months ended 30 September 2018, which was a 63.17% decrease from \$35.89 million reported in the comparative period in 2017. This significant decrease in the total profit after tax was mainly driven by an upsurge in claims, commissions as well as operating expenses, which upsurge amounted to a total of \$23.35 million. The total profit after tax for non-life reinsurers decreased from \$11.51 million for the nine months ended 30 September 2017 to \$ 6.25 million for the nine months ended 30 September 2018.

For the nine months ended 30 September 2018, Insurance brokers wrote \$86.08 million in premium income. This represented a 19% increase in business written from \$72.34 million reported for the same period in 2017. In addition, they recorded \$14.15 million net brokerage commission for the nine months ended 30 September 2018. Compared to the same period in 2017, this represented a 23.37% increase from \$11.47 million reported.

As at 30 September 2018, one insurance broker reported a capital position that was below the required minimum of \$100,000. The Commission is still closely monitoring the recapitalisation plan which the non-compliant broker submitted.

Reinsurance brokers reported \$72.92 million in gross premium for the nine months ended 30 September 2018 reflecting an increase of 24.81% from the \$58.43 million reported for the same period in 2017. The reinsurance broking industry recorded an average commission ratio of 22.83%, which was a decrease from 23.05% reported in the same period in 2017.

1. Architecture of the Non-Life Insurance Industry

There were six hundred and thirty (630) registered entities/persons in the non-life insurance industry as at 30 September 2018. Out of the 21 registered short-term insurers, Regal Insurance Company was suspended from writing new business on the 25th of September 2018. The architecture of the industry is as shown in Table 1 below:

Table 1 : Architecture of the Non-Life Insurance Industry

Type of Institution	Number of Registered Entities/Persons as at....			
	30-Sep-17	31-Dec-17	30-Jun-18	30-Sep-18
Insurance Companies**	20	20	20	21

Corporate Agents	109	109	113	113
Sole Agents	369	369	410	410
Total	579	578	629	630

*Five reinsurers namely Emeritus Reinsurance Company, FBC Reinsurance Company, First Mutual Reinsurance Company, Grand Reinsurance Company and PTA Reinsurance Company (Zep Re) are composite reinsurers who also write life business. However, the figures in this report pertain to their non-life business only.

**Two insurers namely FBC Insurance Company and Alliance Insurance Company are composite insurers, however the figures in this report pertain to their non-life business only.

**One insurance company, Regal Insurance, was suspended from writing new business hence the statistics of this company are those for the quarter ended 30 June 2018.

SECTION A

2. Short-Term (Non-Life) Insurance Companies

Please refer to Appendix 1A-C for detailed statistics for each of the non-life insurers.

2.1. Performance in Terms of Business Written

Total Gross Premium Written (GPW) by non-life insurers amounted to \$198.45 million for the nine months ended 30 September 2018, reflecting a 16.88% increase from \$169.79 million reported for the comparative period in 2017. The increase in GPW during the period under review was mainly attributable to growth in business generated from motor insurance and fire insurance. The real growth of GPW, after accounting for inflation of 5.39% for the period under review, was 11.49%. Figure 1 below shows the trend in volume of the business generated during the nine months ended 30 September by non-life insurers since 2014.

Figure 1 : Trend in Written Business

Table 2 below shows the percentage growth in GPW for different class of business.

Table 2 : Non-Life Insurers' Gross Premium Written by Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	30-Sep-17	30-Sep-18	
Aviation	2,081,352	1,594,900	-23,37%
Bonds/Guarantee	9,169,251	11,494,809	25,35%
Engineering	9,369,441	12,934,224	38,05%
Farming	1,024,301	2,428,680	137,11%
Fire	30,592,500	35,028,690	14,50%
Hail	2,732,318	58,734	-97,85%
Hire Purchase	2,443,607	2,822,082	15,49%
Marine	4,238,773	4,123,245	-2,73%
Miscellaneous Accident	13,391,378	14,359,804	7,23%
Motor	77,286,782	94,130,027	21,79%
Personal Accident	14,904,210	15,527,081	4,18%
Personal Liability	2,555,364	3,943,239	54,31%
Total	169,789,277	198,445,515	16,88%

Motor, fire and accident insurance remained the largest sources of business in terms of GPW as they accounted for a total of \$159.05 million of the total GPW during the nine months ended 30 September 2018.

The distribution of business generated during the aforesaid period across different business classes is shown in Figure 2 below:

Figure 2 : Distribution of GPW across Business Classes

Insurance players are encouraged to maximise utilisation of new technologies in the distribution of products to tap into the unserved insurance market.

2.2. Capitalisation

A total of sixteen (18) out of twenty (21) insurers reported capital positions which were above \$2.5 million as at 30 September 2018. The reported capital positions were computed without accounting for non-admissible assets as stipulated in Statutory Instrument 95 of 2017. The capital positions reported by non-life insurers are shown in table 3 below:-

Table 3 : Reported Capital Positions for Non-Life Insurers

Name of Insurance Company	Reported Capital Position (\$)			
	31-Dec-17	31-Mar-18	30-Jun-18	30-Sep-18
1. Alliance Insurance Company	6,412,157	8,122,556	8,913,563	8,868,841

13. Nicoz Diamond Insurance Company	15,353,594	14,528,581	15,065,130	15,328,967
14. Old Mutual Insurance Company	34,070,698	32,010,579	35,167,690	38,294,703
15. Quality Insurance Company	2,902,158	3,013,000	3,094,000	3,249,000
16. Regal Insurance Company	2,513,027	2,802,932	2,513,026	2,513,026
17. Safel Insurance Company	2,872,964	3,532,778	3,656,723	4,737,563
18. Sanctuary Insurance Company	1,886,708	1,816,216	1,741,693	1,829,870

Name of Insurance Company	Reported Capital Position (\$)			
	31-Dec-17	31-Mar-18	30-Jun-18	30-Sep-18
19. THI Insurance (Pvt) Ltd	2,530,808	2,687,201	2,384,857	2,586,016
20. Tristar Insurance Company	3,135,239	2,805,791	2,728,526	2,590,801
21. Zimnat Lion Insurance Company	11,565,964	11,576,948	12,412,133	12,888,460

Key:

	The insurer reported a capital position that was above the requirement of \$2.5 million.
	The insurer reported a capital position which was below \$2.5 million.

*Econet Insurance Company was registered on 18 July 2018.

2.3. Asset Quality

Total assets for non-life insurers grew significantly from \$256.77 million as at 30 June 2018 to \$279.72 million as at 30 September 2018. This significant growth in total assets was mainly driven by an increase in technical and cash assets that grew by \$8.17 million and \$11.94 million respectively. The trend in total assets is shown in Figure 3 below.

Figure 3 : Trend in Total Assets

The asset base of non-life insurers, continued to be fairly distributed across different investment classes as shown in Figure 4 below. This situation is good for the management of concentration risk.

Figure 4 : Distribution Non-life Insurers' Total Assets

NB: Technical assets refer to reinsurers' share of outstanding claims and deferred acquisition costs.

Premium debtors declined from \$48.75 million reported in the previous quarter to \$36.84 million reported for the nine months ended 30 September 2018. The decline in the premium debtors was mainly attributed to significant payments of premiums of annual policies that are payable on a monthly basis as well as the introduction of premiums-upfront policies.

In most cases, the decrease in premium debtors during the period under review is in line with trends noted during the same period over the years. Investments in prescribed assets marginally rose by 5.53% from \$21.04 million as at 30 June 2018 to \$22.21 million as at 30 September 2018. However, twelve (12) insurance companies were not compliant with the required 5% investment in prescribed assets threshold. The Commission has since penalized them.

2.4. Reinsurance

The industry average retention ratio rose from 61.32% for the nine months ended 30 September 2017 to 63.62% for the nine months ended 30 September 2018 indicating increased risk appetite among non-life insurance players.

Retention ratios for individual insurers ranged from 23.49% to 100% as shown in Figure 5 below:

Figure 5 : Retention Ratios for Non-Life Insurance Companies

The average reinsurance creditors to reinsurance premium ratio was 25.51% as at 30 September 2018, compared to 30.12% reported as at 30 September 2017. The ratio gradually decreased from 95.33% which was reported for the quarter ended 31 March 2018 indicating significant settlement of reinsurance premiums as the year progresses.

2.5. Actuarial Matters

The non-life insurance industry reported a 3.03% increase in total technical liabilities from \$70.67 million as at 30 June 2018 to \$72.81 million as at 30 September 2018.

The industry was considered to be holding sufficient liquid assets to back its technical liabilities as the average liquid assets to total technical reserves ratio was 127.57% as at 30 September 2018 as compared to 92.43% as at 30 June 2018. Notwithstanding the recorded industry's average liquid assets to reserves ratio, some insurers reported ratios which were significantly below 100%, indicating that their reserves were not backed by liquid assets. (See Appendix 1C for the performance indicators of insurance companies in terms of Actuarial matters).

2.6. Earnings

The non-life insurers reported total profit after tax for the nine months ended 30 September 2018 of \$13.22 million, which was a 63.17% decrease from \$35.89 million reported in the comparative period in 2017. The decrease in profit was mainly attributed to an upsurge in claims and operating expenses, which upsurge amounted to \$19.60 million.

The increase in claims and operating expenses was on the back of increasing parallel market exchange rates owing to acute foreign currency shortages.

This resulted in a depressed underwriting result of \$5.89 million for the nine months ended 30 September 2018 from \$8.50 million reported in the comparative period in 2017. This translated to an increase in the industry average loss ratio from 43.22% for the nine months ended 30 September 2017 to 46.77% for the nine months period under review. The industry average combined ratio for non-life insurers also increased from 91.13% for the nine months ended 30 September 2017 to 95.14% for the period under review.

The industry's average return on assets (ROA) and return on equity (ROE) was 5.49% and 10.55% for the period under review. As at 30 September 2017, ROA was 16.59% and ROE 32.43%. (For more performance indicators on profitability see Appendix 1C).

2.7. Liquidity

Total cash and near cash assets in the form of money market and short term prescribed assets increased from \$66.17 million as at 30 June 2018 to \$84.43 million as at 30 September 2018.

The net effect was an increase in the acid test ratio from 60.36% recorded as at 30 June 2018 to 83.93% registered as at 30 September 2018. This shows that the insurance players improved their ability to meet their liabilities when they fall due. The acid test ratio for individual insurers as at 30 September 2018 ranged from 1.65% to 1111.58% as shown in Appendix 1C.

2.8. Market Share for Non-life Insurers

Old Mutual Insurance, Zimnat Lion and Nicoz Diamond were the market leaders in terms of GPW with a combined market share of 43.19%. Figure 6 below shows market share in terms of GPW and NPW for all insurers.

Old Mutual, Nicoz Diamond and Alliance were the market leaders in terms of total assets with a combined market share of 41.82% as shown in Figure 7 below.

Therefore, the non-life insurance industry is continuously controlled by a few companies, signifying an oligopolistic market as was reported in the previous quarter which ended 30 June 2018.

Figure 6 : Market Share for Insurers in Terms of GPW and NPW

Figure 7 : Market Share for Insurers in Terms of Total Assets

SECTION B

3. Reinsurance Companies

Please note that the figures for PTA Reinsurance Company (Zep-Re) contained in this report are only for the institution's Regional Hub Office located in Zimbabwe.

Detailed statistics for all reinsurers are shown in Appendix 2A-C.

3.1. Performance in Terms of Business Written

The volume of business written by non-life reinsurers during the nine months ended 30 September 2018 grew, albeit negative year on year growth rates were recorded in 2016 and 2017. Gross Premium Written (GPW) for the non-life reinsurers amounted to \$86.54 million for the nine months ended 30 September 2018, reflecting an 8.54% increase from \$79.73 million reported in the comparative period in 2017.

The increase in the GPW was mainly driven by growth in accident and motor insurance business. Figure 8 below shows the trend in volume of business written by non-life reinsurers in the half year period from 2014 to 2018.

Figure 8 : Trend in Business Written

Hail and health insurance continuously remain the fastest growing classes of business in terms of GPW. Aviation and farming insurance recorded the largest percentage decreases in GPW. Changes in the volume of business written in different classes are shown in Table 4 below.

Table 4 : Reinsurers' Gross Premium Written By Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	30-Sep-17	30-Sep-18	
Aviation	1,675,253	1,216,471	-27,39%
Bonds/Guarantee	494,535	404,156	-18,28%
Engineering	4,083,249	4,805,522	17,69%
Farming	9,470,746	3,703,202	-60,90%
Fire	33,650,338	34,854,660	3,58%
Hail	89,440	1,310,760	1365,52%
Health	622,925	1,808,329	190,30%
Hire Purchase	98,582	107,003	8,54%
Marine	2,000,952	1,828,454	-8,62%
Miscellaneous Accident	9,182,838	16,709,139	81,96%
Motor	11,859,063	13,234,482	11,60%
Personal Accident	3,782,069	3,877,381	2,52%
Personal Liability	2,720,593	2,683,198	-1,37%
Total	79,730,583	86,542,757	8,54%

Fire and miscellaneous accident were the dominant classes of business as they constituted 59.58% of the overall business written for the nine months ended 30 September 2018. Historically motor insurance has been a dominant class of business as compared to other classes of businesses.

Figure 9 : Distribution of Reinsurers' GPW by Business Class

The industry is encouraged to design strategies that are meant to tap business opportunities that exist in the market.

3.2. Capitalisation

As at 30 September 2018, all the registered non-life reinsurers reported capital positions which were above the minimum capital requirement of \$5 million. However, these reported capital positions were not adjusted in line with the provisions of Statutory Instrument (SI) 95 of 2017 which, among other things, discounts non-permissible assets. Table 5 below shows the capital positions for non-life reinsurers.

Table 5 : Reported Capital Positions for Non-Life Reinsurers

Reinsurance Company	Reported Capital Position (\$)			
	31-Dec-17	31-Mar-18	30-Jun-18	30-Sept-18
1. Colonnade Re.	635,489	1,835,765	5,205,000	5,390,504
2. Emeritus Re.	37,217,605	37,445,383	38,256,000	37,116,987
3. FBC Re.	13,564,028	13,990,329	14,277,000	14,596,813
4. FMRE	8,108,635	7,495,418	8,225,000	7,820,012
5. Grand Re.	9,290,172	9,784,812	9,821,000	10,552,117
6. Tropical Re.	4,773,920	4,275,690	5,303,000	5,585,347
7. PTA Re.	5,890,118	5,399,008	6,257,000	6,688,746
8. ZB Re.	10,221,561	10,283,710	10,629,000	10,919,000

The average solvency margin for non-life reinsurers was 137.95% as at 30 September 2018, which was above 136.98% reported as at 30 June 2018. All the reinsurers were compliant with the minimum solvency margin of 25% stipulated in Section 24(1a) (ii) of the Insurance Act [Chapter 24:07]. The solvency margin for individual reinsurers as at 30 September 2018 ranged from 56.57% to 517.60 % as shown in appendix 2C.

3.3. Asset Quality

Non-life reinsurers reported an asset base of \$167.08 million as at 30 September 2018, reflecting a 7.09% increase from the \$156.02 million reported as at 30 June 2018. The growth in the asset base is mainly attributable to substantial increase in the value of technical assets and money market investment from \$16.65 million as at 30 June 2018 to \$29.87 million as at 30 September 2018. Figure 10 below shows asset trends from 31 March 2017.

Figure 10 : Trend in Total Assets

Total investments in prescribed assets for non-life insurers continued on an upward trend and amounted to \$18.23 million as at 30 September 2018, reflecting a 0.59% marginal increase from \$18.13 million invested as at 30 June 2018.

As reported in the previous quarter ended 30 June 2018, premium debtors continue on a downward trend. Premium debtors were \$26.78 million as at 30 September 2018, reflecting an 8.21% decrease from \$29.18 million reported as at 30 June 2018. This is reflective of huge payments of premiums by line insurers as treaty programmes are now edging towards their policy anniversaries in the same way alluded in Section 2.3 above.

Equities, investments in associated companies and premium debtors were the major asset classes which accounted for 51.46% of the non-life reinsurers' total asset base as at 30 September 2018. (See Appendix 2B). Figure 11 below shows a breakdown of total assets as at 30 September 2018.

Figure 11 : Breakdown of Non-life Reinsurers' Total Assets

The reinsurance industry had an average minimum prescribed asset ratio of 12.84% as at 30 September 2018 which was in excess of the minimum required threshold of 5%.

However, two reinsurers remained non-compliant as at 30 September 2018.

3.4. Retrocession

The industry's average retention ratio was 68.37% for the nine months ended 30 September 2018 compared to 65.08% that was reported for the comparative period in 2017. This reflects a general increase in risk appetite by the reinsurance players. Individual reinsurers reported retention ratios ranging from 35.44% to 83.86% for the period under review as shown in Figure 12 below.

Figure 12 : Retention Ratios for Reinsurers

The industry's average retrocession creditors to retrocession premiums ratio increased significantly from 18.15% for the nine months ended 30 September 2017 to 33.63% for the period under review.

The increase signifies that the performance of non-life reinsurers in terms of remittances of retrocession premiums is still lagging behind. The increase is an indication of the challenges which the economy is experiencing with relation to foreign currency issue.

3.5. Actuarial Matters

Total technical liabilities increased from \$47.90 million as at 30 June 2018 to \$58.55 million as at 30 September 2018. The largest proportion of technical liabilities was attributable to gross outstanding claims, which amounted to \$28.49 million and accounted for 48.65% of the total technical liabilities.

A marked increase in the non-life reinsurance sector's average total liquid investments to reserves ratio was noted during the quarter under review. This ratio rose from 148.48% as at 30 June 2018 to 158.84% as at 30 September 2018. The above indicates that the reinsurance players have adequate resources to match their technical liabilities.

Appendix 2C shows the ratio of liquid assets to total reserves for individual reinsurers which ranged from 83.62% to 711.17% as at 30 September 2018.

3.6. Earnings

Total profit after tax for non-life reinsurers decreased from \$11.51 million for the nine months ended 30 September 2017 to \$6.25 million for the quarter ended 30 September 2018. The decrease was mainly attributable to an increase in unearned premium reserves as well as increased premiums ceded to retrocessionaires.

As a result of the decrease in profit after tax, the industry average return on equity (ROE) and return on assets (ROA) significantly decreased from 13.63% and 8.36% respectively for the period ended 30 September 2017 to 7.07% and 4.12% for comparative period in 2018. The industry average loss ratio was 45.15% as at 30 September 2018, which was an improvement from the 48.35% reported for the comparative period in 2017. This resulted in the combined ratio decreasing from 100.64% as at 30 September 2017 to 95.48% for the period under review.

3.7. Liquidity

The liquid assets held by non-life reinsurers increased from \$49.98 million as at 30 June 2018 to \$52.01 million as at 30 September 2018. The net effect was an increase in the average acid test ratio for individual non-life reinsurers from 93.74% as at 30 June 2018 to 97.84% as at 30 September 2018. The acid test ratio indicates that for every dollar of the industry's total current liabilities, the industry had about 94 cents to back such current liabilities. The acid test ratios for non-life reinsurers is shown on Appendix 2C.

3.8. Market Share for Reinsurers

As shown in Figure 13 below, Grand Re, ZB Re and FBC Re reportedly controlled 52.65% of Gross Premium Written (GPW) and also 50.08% of the Net Written Premium (NWP) as at 30 September 2018.

Figure 13 : Market Share for Non-life Reinsurers in terms of GPW and NPW

In terms of share of total assets, Emeritus Reinsurance Company, FBC Reinsurance Company and Grand Re were the market leaders, with a combined market share of 61.84%. Figure 14 below shows the market shares of each reinsurer.

Figure 14 : Market Share for Non-life Reinsurers in terms of Total Assets

SECTION C

4. INSURANCE BROKERS

4.1. Business Written

Insurance brokers reported premium income totalling \$86.08 million for the nine months ended 30 September 2018 reflecting a 19% increase from \$72.34 million reported for the comparative period in 2017. Insurance brokers recorded \$14.15 million net brokerage commission for the period under review, which was a 23.37% increase from \$11.47 million reported for the similar period ended 30 September 2017.

The total commission translated to an industry average commission rate of 17.86% for the nine months ended 30 September 2018 which compared favourably with 16.52% reported for the same period in 2017. Table 6 below shows key indicators for the business written by the insurance brokers (in \$).

Table 6: Indicators of Business Written for Insurance Brokers

Indicator	30 Sep 2017	30 Sep 2018	% Change
Premium Written	72,337,983	86,081,096	19.00%
Premium Payable	60,390,317	70,706,821	17.08%

32. Zimbabwe Insurance Brokers	114,994	164,348	168,040	229,883

Key: * First Sun Alliance started operating in June 2018

	The broker reported a capital position that was above the requirement of \$100,000.
	The broker reported a capital position that was below the requirement of \$100,000.

4.3. Asset Quality

The asset base for insurance brokers decreased from \$31.57 million as at 30 June 2018 to \$30.01 million reported as at 30 September 2018. This was caused by decreases in premium receivables, cash and cash equivalents, investments, and other assets.

Figure 15: Insurance Brokers' breakdown of Total Assets

As shown above, the asset base for insurance brokers remained skewed towards property and equipment, as well as cash and cash equivalents.

4.4. Profitability

Insurance brokers reported a 76.39% increase in total profit after tax from \$1.40 million for the nine months ended 30 September 2017 to \$2.47 million for the current period. The industry average return on equity (ROE) and return on assets (ROA) for the reporting period were 18.89% and 8.23% respectively.

4.5. Market Share for Insurance Brokers

Minerva Risk Solutions, Marsh Insurance Brokers Zimbabwe and HRIB dominated the market in terms of both business written as well as brokerage income. Figure 16 below shows the market share for the top ten insurance brokers in terms of net brokerage commission and premium written.

Figure 16: Market Share in Terms of Net Brokerage Commission and GPW

In terms of total assets, Minerva Risk Solutions, Marsh Insurance Brokers, Progressive Insurance Brokers, Hunt Adams and Associates and SATIB Insurance Brokers, were the market leaders as shown in Figure 17 below.

Figure 17: Market Share for Insurance Brokers in Terms of Total Assets

SECTION D

5. REINSURANCE BROKERS

5.1. Business Written

Reinsurance brokers reported \$72.92 million in gross premium for the nine months ended 30 September 2018 reflecting an increase of 24.81% from the \$58.43 million reported for the same period in 2017. The industry average commission ratio for reinsurance brokers was 22.83% for the nine months ended 30 September 2018, a decrease from 23.05% reported for the same period in 2017. The table below shows the key indicators of business written by reinsurance brokers (in \$).

Table 8: Indicators of Business Written by Reinsurance Brokers

Indicator	30-Sep-17	30-Sep-18	% Change
Premium Written	58,429,928	72,924,566	24.81%
Premium Payable	44,962,787	56,274,547	25.16%
Brokerage Commission	13,467,141	16,650,018	23.63%
Commission Paid	10,737,974	13,697,642	27.56%
Net Brokerage Commission	2,729,167	2,952,376	8.18%
Other Income	55,045	52,168	-5.23%
Operating Expenses	1,892,298	2,112,204	11.62%
Profit Before Tax	891,914	892,341	0.05%
Taxation	242,349	216,054	-10.85%
Profit After Tax	649,565	676,286	4.11%

5.2. Capitalisation

All of the reinsurance brokers reported capital positions which were above \$100,000 as at 30 September 2018. Table 9 below shows the capital positions reported by all reinsurance brokers:

Table 9: Capital Levels for Reinsurance Brokers

Name of Reinsurance Broker	31-Dec-17	31-Mar-18	30-Jun-18	30-Sep-18
1. Afro-Asian Reinsurance Brokers	106,312	107,481	95,280	145,058
2. Capitol Reinsurance Brokers*	-	-	-	105,804
3. Classic Reinsurance Brokers	114,599	115,251	115,903	115,707
4. Marsh Reinsurance Brokers	105,472	200,445	146,371	161,626
5. Minerva Re (Private) Limited	2,680,412	2,873,834	3,225,249	3,230,592
6. Pan African Re	422,716	398,472	515,478	493,598
7. Reinsurance Broker International	177,044	162,738	149,951	267,836

*Capitol reinsurance started operating on the 31st of July 2018.

5.3. Asset Quality

Reinsurance brokers reported total assets amounting to \$32.82 million as at 30 September 2018, reflecting a 7.69% increase from \$30.48 million reported for as at 30 June 2018. This increase was mainly attributed to increases in commission receivable, investments.

5.4. Earnings for Reinsurance Brokers

Total profit after tax for reinsurance brokers increased by 4.11% from \$0.65 million for the nine months ended 30 September 2017 to \$0.68 million for the nine months ended 30 September 2018. This increase in profit after tax was a result of a 10.85% decrease in taxation for the nine months ended 30 September 2018. The slowdown in growth witnessed in profit after tax is confirmed by the industry average return on equity (ROE) which fell from 17.7% as at 30 September 2017 to 14.96%, while return on assets (ROA) eased from 2.83% to 2.06% in the current period.

5.5. Market Share for Reinsurance Brokers

Minerva Re (Private) Limited remained dominant throughout the first nine months of the year in terms of business written, net brokerage commission and total assets for the reinsurance broking market. The market share for all the reinsurance brokers for the period under review is as shown in Table 10 below.

Table 10: Market Share for Reinsurance Brokers

Name of Reinsurance Broker	Net Brokerage Commission	Premium Written	Total Assets
1. Afro-Asian Reinsurance Brokers	4.86%	7.00%	1.49%
2. Capitol Reinsurance Brokers	1.11%	1.32%	2.53%
3. Classic Reinsurance Brokers*	0.16%	0.00%	0.35%
4. Marsh Reinsurance Brokers	5.16%	9.75%	10.96%
5. Minerva Re (Private) Limited	86.48%	66.89%	73.67%
6. Pan African Re	1.86%	14.19%	6.89%
7. Reinsurance Brokers International	0.71%	0.86%	4.11%
Total	100%	100%	100%

**The reinsurance broker did not write any business during the period under review.*
