Disclaimer

This report does not cover the public-sector pension scheme, National Social Security Authority (NSSA). The report is based on unaudited financial statements of insured, stand-alone self-administered funds, as well as self-administered funds under insurers and professional fund administrators. The report, including any attachments, has been prepared by the Insurance and Pensions Commission solely for informative purposes to the pension industry stakeholders, and may not be reproduced, redistributed, communicated to a third party or relied upon by any other person or for any other purpose without the Commission's prior written consent. The Commission does not accept any liability if the report is used for any other purpose other than for the above-mentioned intended purpose.

Definition of Terms

Insured Fund – A fund under the administration of an insurance company, whose contributions are used to buy assets which are registered in the name of the insurer, charged with the administration of the fund and not the in the name of that fund.

Self-Administered Fund – For the purposes of this report, self-administered funds are those under dedicated fund administrators and insurers but their assets are registered in the respective names of the funds.

Stand-Alone Fund – These are self-administered funds which own and control their administration structures (having own employees) for the purpose of operating the fund.

Pension Fund member – in relation to a fund, means any person who is a member of that fund in terms of the rules thereof.

Active member – Members of a fund who are actively contributing to the fund, including those on contribution holiday for a period of time.

Pensioner – a person in receipt of pension benefits from a pension fund.

Deferred Pensioner – A member whose pension benefits are preserved within the fund until the member attains the retirement age.

Suspended pensioner – A pensioner whose pension benefits are withheld by the pension fund on account of not providing proof of his/her existence.

Members with unclaimed benefits – Members of a fund who have not claimed their benefits when they were entitled to receive such benefits and cannot be located by the fund.

1 Industry Overview

The key performance indicators for the pensions industry as at 31 March 2019 are as shown in Table 1.

Table 1: Key Highlights of the Pensions Industry as at 31 March 2019

Indicator	Insured Funds	Self-Administered Funds	Stand-Alone Funds	Total
Number of Funds	900	172	16	1,088
Active funds	469	130	16	615
Members ¹	339,433	118,564	335,394	793,391
Share of total membership	42.78%	14.94%	42.27%	100.00%
Total Income (\$)	92,259,951	59,669,345	62,475,179	214,404,475
Total Contributions (\$)	26,722,858	30,474,345	33,653,194	90,850,397
Rental Income (\$)	297,772	1,877,614	10,451,789	12,627,176
Investment Income ²	66,372,949	15,482,091	16,947,871	98,802,910
Investment Income over total assets	4.41%	0.78%	0.89%	1.84%
Total Expenditure ³ (\$)	20,999,396	99,069,755	45,619,304	165,688,456
Total Benefits Incurred (\$)	18,784,836	20,895,410	26,958,487	66,638,732
Average monthly pension benefits per pensioner	184.17	115.51	201.91	180.43
Expenses ⁴ /Contributions	7.43%	25.87%	33.00%	23.09%
Expenses ⁴ /Total Income	2.15%	13.21%	17.78%	9.78%
Income Surplus(Deficit)	71,260,555	(39,400,410)	16,855,875	48,716,020
Total Assets (\$)	1,505,281,122	1,974,240,987	1,899,386,498	5,378,908,607
Average assets per member	4,435	16,651	5,663	6,780
Percentage of Total Assets	27.98%	36.70%	35.31%	100.00%
Prescribed Assets (\$)	165,058,337	159,037,971	69,817,909	393,914,218
Prescribed Assets Ratio	10.97%	8.06%	3.68%	7.32%
Contribution Arrears (\$)	49,253,814	52,680,879	501,141,179	603,075,872

Notes:

1. Total membership excludes fund beneficiaries (widows and orphans of members).
2. Total Investment income is made up of rental income, dividends, interest on investments, profit on disposal on assets and fair value gains.
3. Total Expenditure for the industry includes benefits paid, transfer to reserves, revaluation losses and provisions.
4. Expenses are calculated as total expenditure excluding items such as expenditure on benefits, transfers to reserves and revaluation losses.

As shown in Table 1 above, the pensions industry had 1,088 registered occupational pension funds as at 31 March 2019, decreasing from the 1,102 funds as at 31 December 2018. The decline was mainly due to the dissolution of some insured funds within the industry. There were 1,036 defined contribution schemes and 52 defined benefit schemes as at 31 March 2019.

Of the 1,088 registered funds, 615 were active which constituted 56.53% of the total number of funds. There were 473 inactive funds, 431 being insured funds, which were deemed to be in paid-up status or undergoing dissolution.

Membership

The total membership for registered occupational schemes was 793,391 as at 31 March 2019, decreasing from 795,444 members reported as at 31 December 2018. The decline was mainly a result of exits totalling 10,074 members for the quarter ended 31 March 2019. The breakdown of membership as at 31 December 2018 and 31 March 2019 is shown in Table 2 below:-

Table 2: Quarterly Breakdown in Membership

Membership type	Membership as at ...	
	31 March 2019	31 December 2018
New Entrants	3,905	13,567
Actives	325,094	314,337
Pensioners	38,093	40,681
Deferred Pensioners	359,563	364,423
Suspended Pensioners	18,137	12,478
Unclaimed Benefits	48,826	49,958
Total Membership (excluding beneficiaries)	793,618	795,444
Beneficiaries	14,209	15,298
Total Membership (including beneficiaries)	807,827	810,742
Exits	10,074	8,684

1.1 Asset Quality

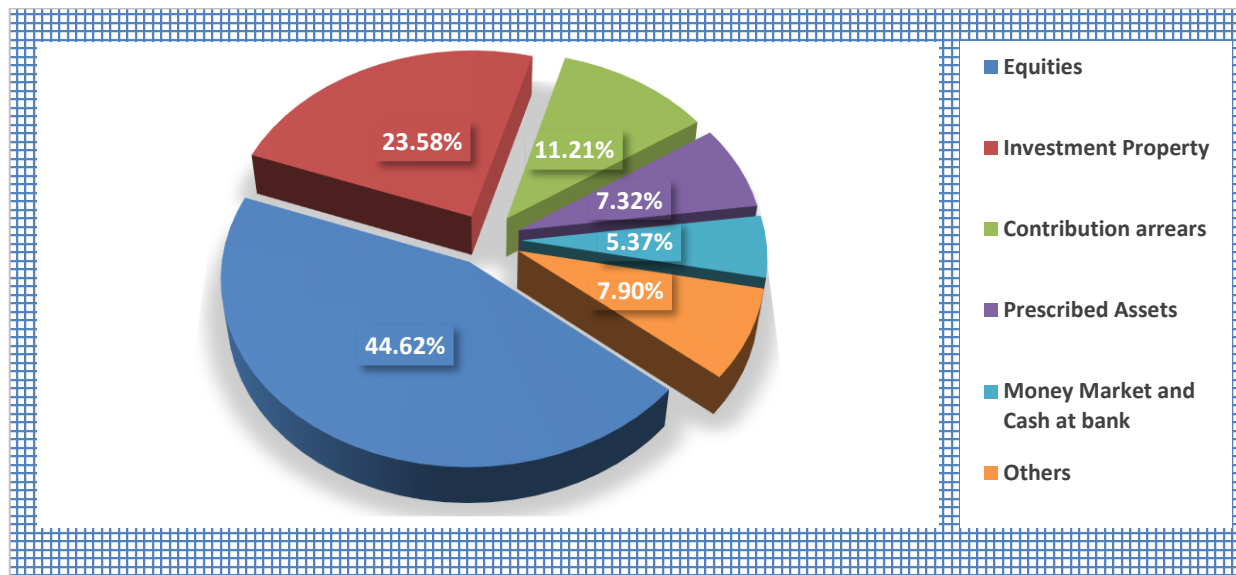

The industry had an asset base of \$5.38 billion as at 31 March 2019, from \$5.22 billion as at 31 December 2018, an increase of 3.07%. The industry's asset base as at 31 March 2019 translated to an average capital accumulation of \$6,778 per member. The trend of the asset base from 31 March 2017 to 31 March 2019 is shown in figure 1 below:-

Figure 1: Trend in Industry Assets Growth

The distribution of the industry's assets as at 31 March 2019 is shown in figure 2 below:-

Figure 2: Distribution of Pension Industry Assets as at 31 March 2019

As shown in figure 2 above, equities investments totalling \$2.40 billion accounted for 44.62% of the total assets. The investment in equities however decreased from the \$2.52 billion reported as at 31 December 2018. The decline was a result of a decline in the values of quoted equities on the Zimbabwe Stock Exchange during the quarter ended 31 March 2019.

Investment property totalling \$1.27 billion accounted for 23.58% of total assets as at 31 March 2019. The value of investment property increased from \$1.10 billion as at 31 December 2018. The increase may be due to the revaluation of investment properties. Contribution arrears totalling \$603.08 million accounted for 11.21% of the total asset base for the industry, increasing from \$596.24 million as at 31 December 2018. The magnitude and growth of the arrears continues to be a major regulatory concern.

The prescribed asset ratio increased from 6.24% as at 31 December 2018 to 7.32% as at 31 March 2019. The increase in the prescribed asset ratio was a result of an increase in the amount invested in prescribed assets from \$325.65 million as at 31 December 2018 to \$393.91 million as at 31 March 2019. Table 3 below shows the compliance levels of prescribed assets from 31 March 2018 to 31 December 2018.

Table 3: Compliance levels for prescribed assets

Date	Amount Invested	Compliance Level
31 March 2018	\$306.93 million	7.39%
30 June 2018	\$323.04 million	7.37%
30 September 2018	\$434.87 million	9.35%
31 December 2018	\$325.65 million	6.24%
31 March 2019	\$393.91 million	7.32%

It is important to note that in the 2019 Budget announced in October 2018, government increased prescribed asset ratios from 10% to 20% for pension funds by 31 December 2019.

Liabilities

The industry's total liabilities amounted to \$5.49 billion, indicating a mismatch of \$109.70 million with the assets as at 31 March 2019. The mismatch was attributable to the underfunding of defined benefit liabilities.

The industry reported pension benefit arrears totalling \$74.91 million as at 31 March 2019, marginally increasing from \$72.54 million reported as at 31 December 2018. The arrears were mainly attributable to funds with high contribution arrears as well as those with liquidity challenges. The unclaimed benefit liabilities declined from \$27.01 million as at 31 December 2018 to \$24.94 million as at 31 March 2019. The Commission continues to urge funds to come up with strategies to locate the affected members or their beneficiaries and reduce the liability.

1.2 Earnings

The industry reported a surplus of \$48.72 million for the 3 months ended 31 March 2019, improving from \$9.45 million reported for the same period in 2018. It should however, be noted that the surplus position was subdued as a result of revaluation losses totalling \$71 million incurred by self-administered and stand-alone funds during the period under review.

The industry reported total income of \$214.40 million for the 3 months ended 31 March 2019. The income was mainly driven by contributions totalling \$90.85 million and investment income totalling \$98.80 million. Total income for the quarter ended 31 March 2019 was higher than the \$99.41 million reported for the same period in the year 2018 on account of higher investment returns.

The investment income to investment expenses ratio for the industry was 1.23 times for the period under review, indicating that investment income was 1.23 times higher than the expenses incurred for investments.

Pension benefits totalled \$66.64 million for the period under review, increasing from \$61.42 million for the same period in 2018. Administrative expenses (excluding revaluation losses, transfer to reserves and other provisions) totalled \$20.98 million. The administration expenses resulted in average expense ratios of 23.09% and 9.78% to total contributions and total income respectively, compared to 18.27% and 16.14% respectively for the comparable period in 2018. The commission will continue to monitor the expense ratios in line with its drive to reduce administrative expenditure for the industry.

2 INSURED SCHEMES

2.1 Sector Architecture

There were 900 insured pension funds as at 31 March 2019, decreasing from 913 funds as at 31 December 2018. The decline was mainly due to the dissolution of some pension funds by Old Mutual Life Assurance Company. The distribution of the pension funds among insurers as at 31 March 2019 and 31 December 2018 is shown in Table 4 below.

Table 4: Distribution of Insured Pension Funds as at 31 March 2019 and 31 December 2018

Life Assurer	31 March 2019	31 December 2018
CBZ Life	3	3
Fidelity Life	71	70
First Mutual Life	181	186
Old Mutual Life	331	340
ZB Life	151	151
Zimnat Life	163	163
Total	900	913

Although there were 897 funds administered, there were only 469 active funds which constituted 52.29% of the total insured funds administered. The high number of inactive funds was mainly due to some sponsoring employers failing to contribute to pension funds since 2009, owing to viability challenges.

2.2 Membership

Membership for insured pension funds declined to 339,660 as at 31 March 2019 from 345,094 members reported as at 31 December 2018. The decline in membership was mainly due to dissolution of some funds as well as exits totaling 6,849 for the quarter under review. The breakdown of membership for insured funds 31 March 2019 and 31 December 2018 is shown in Table 5 below.

Table 5: Insured Funds Membership

Membership Class	Number of Insured Schemes as at...	
	31 March 2019	31 December 2018
New Entrants	1,640	7,415
Active Members (Excluding new Entrants)	104,787	102,026
Pensioners	8,163	8,037
Deferred Pensioners	221,534	222,706
Suspended Pensioners	1,531	1,404
Members with unclaimed Benefits	2,005	3,506
Total	339,660	345,094
Exits	6,849	405

2.3 Asset Quality

Insured funds reported assets totalling \$1.51 billion as at 31 March 2019, constituting 27.98% of the industry's total assets. The asset base as at 31 March 2019 translated to an average capital accumulation of \$4,432 per member.

The asset base as at 31 March 2019 reflected a 13.53% increase from \$1.33 billion as at 31 December 2018. The increase in the asset base was mainly due to an increase in prescribed asset investments from \$76.99 million to \$165.06 million and an increase in investment property from \$199.20 million as at 31 December 2018 to \$255.45 million as at 31 March 2019.

The growth of insured fund assets from 31 March 2017 to 31 March 2019 is shown in figure 3 below.

Figure 3: Growth of insured fund assets from 31 March 2017 to 31 March 2019

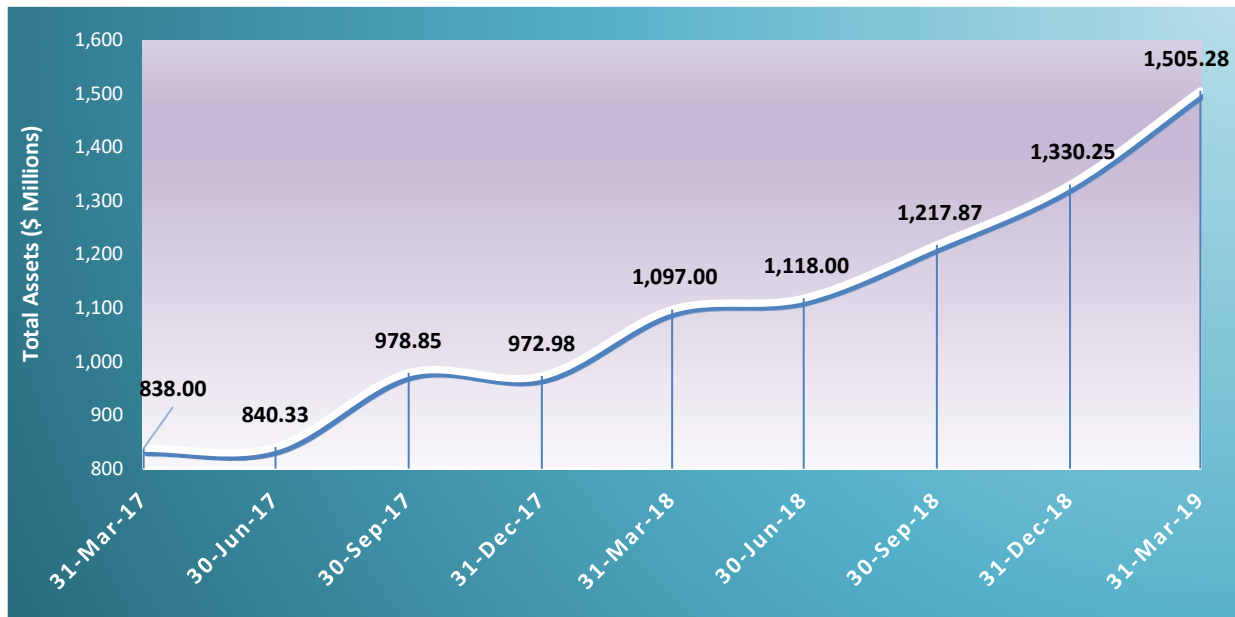

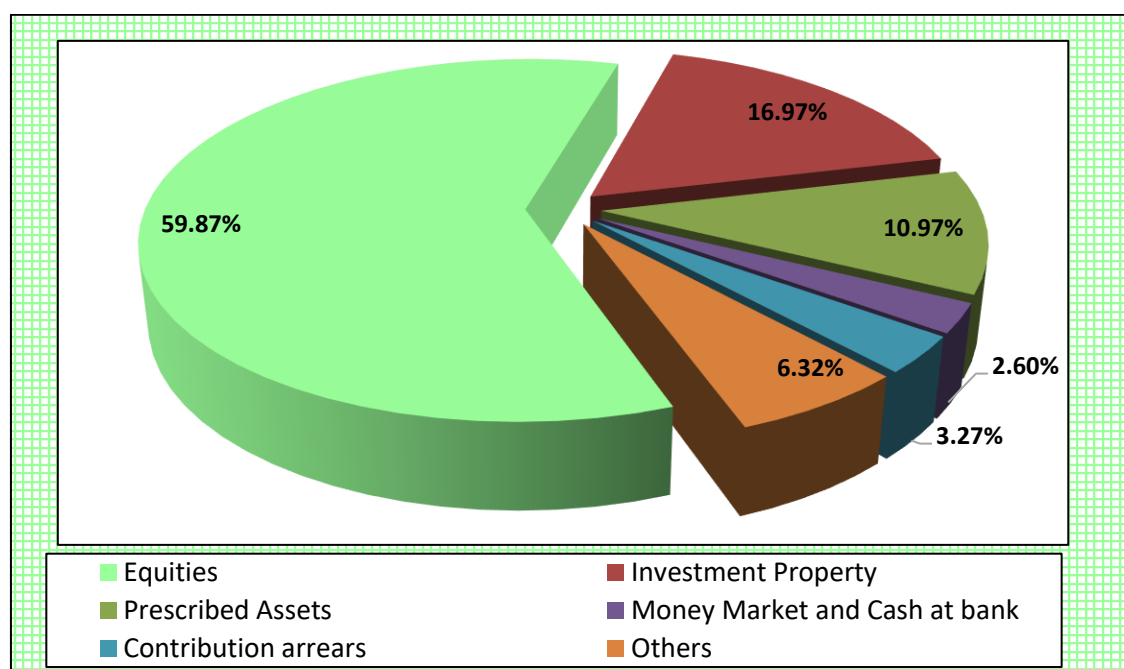

Figure 3 above indicates that insured pension fund assets have been on an upward trajectory from 31 March 2017 to 31 March 2019.

As at 31 March 2019, equities and investment property accounted for a combined total of \$1.16 billion, constituting 76.84% of the total asset base. The balance of \$0.35 billion, representing 23.16% of insured funds' total assets was invested in various other asset classes as shown in Figure 4 below.

Figure 4: Composition of Insured fund assets as at 31 March 2019

As depicted in figure 4 above, investments in prescribed assets was \$165.01 million, constituting 10.97% of the sector's total assets as at 31 March 2019. The ratio was below the regulatory minimum of 20%.

2.4 Earnings

Insured schemes reported a surplus of \$71.26 million for the 3 months ended 31 March 2019. The surplus was driven by total income of \$92.26 million. Fair value gains accounted for \$63.06 million, attributable to 68.35% of the total income for the period under review. The total income was higher than the \$47.89 million reported for the same period in 2018 owing to the relatively higher fair value gains for the 3 months ended 31 March 2019.

Total expenditure amounted to \$21.00 million for the period under review. The expenditure was composed of pension benefits totalling \$18.78 million and total administrative expenditure totalling \$2.21 million. The total expenditure for the period under review was higher than the \$16.04 million reported for the same period during 2018. The higher total expenditure was on account of higher pension benefit costs for the 3 months ended 31 March 2019, that increased from \$14.87 million for the same period in 2018.

The average expense ratios for the period under review were 7.43% and 2.15% to contributions and total income respectively, compared to 6.11% and 3.18% for the same period in 2018.

The Statements of Comprehensive Income for Insured Schemes for the year ended 31 March 2019 are shown on Annexure 3.

3 SELF-ADMINISTERED FUNDS

3.1 Sector Architecture

There were 172 registered self-administered funds as at 31 March 2019, decreasing from 173 self-administered funds as at 31 December 2018. The decline in the number of funds was a result of the dissolution of Autotyres Pension Fund, which was under the administration of Minerva Benefits Consulting.

The 172 funds as at 31 March 2019 were being administered by 5 administrators and 5 life offices. The number of self-administered pension funds as at 31 March 2019 and 31 December 2018 are shown in Table 5 below.

Table 6 : Number of Self administered Funds as at 31 March 2019 and 31 December 2018

Name of Administrator/Insurer*	Number of Pension Funds as at....	
	31 March 2019	31 December 2018
Professional Administrators		
Capitol Insurance Broker	1	1
Comarton Consultants	29	29
Marsh Employee Benefits	44	44
Minerva Benefit Consulting	58	59
Zimbabwe Insurance Brokers	5	5
Sub-total	137	138
Life Companies		
Fidelity Life Assurance Company	1	1
First Mutual Life Assurance Company	5	5
Old Mutual Life Assurance Company	25	25
Nyaradzo Life Assurance Company	2	2
Zimnat Life Assurance Company	2	2
Sub-total	35	35
Grand Total	172	173

*Not all registered life offices (life assurance companies) are involved in pension administration

3.2 Membership

Notwithstanding new entrants totaling 1,432 the total membership for self-administered funds decreased from 119,217 as at 31 December 2018 to 118,564 members as at 31 March 2019. The reduction in membership was a result of a high number of exits, totaling 2,943 for the quarter under review. The distribution of self-administered pension fund membership as at 31 March 2019 and 31 December 2018 is depicted in table 6 below.

Table 7: Distribution of Membership for Self - Administered Funds

Membership Class	Number of members as at.....	
	31 March 2019	31 December 2018
New Entrants	1,432	4,672
Active Members (excluding new)	67,728	65,622
Pensioners	7,482	6,973
Deferred Pensioners	34,984	34,805
Suspended Pensioners	2,767	3,017
Unclaimed Benefits	4,171	4,128
Total Membership	118,564	119,217
Exits	2,449	6,460

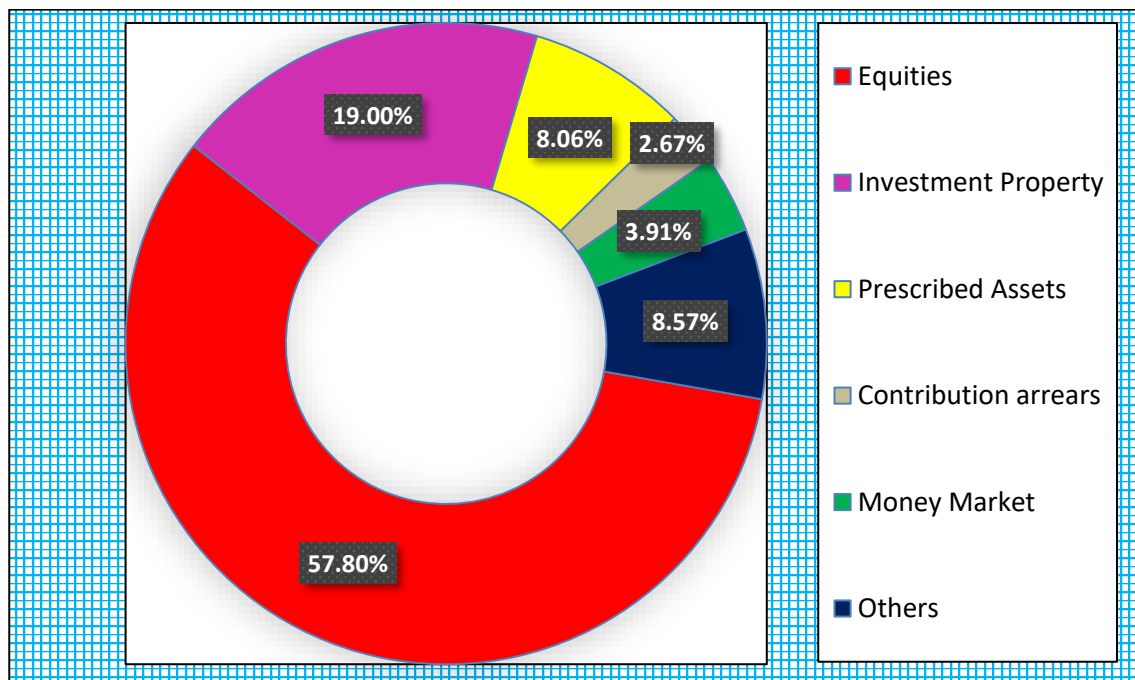

3.3 Asset Quality

The sector had an asset base of \$1.97 billion as at 31 March 2019, the same value as the asset base as at 31 December 2018. However, there was a 30.96% increase in the value of investment property from \$286.35 million as at 31 December 2018 to \$375.01 million as at 31 March 2019. The increase in investment property was, however, offset by an \$83.95 million decrease in the value of equities. The decrease in investment in equities was mainly due to the decline in the value of listed equities on the Zimbabwe Stock Exchange.

The sector's assets contributed 36.70% of the pension industry's \$5.38 billion asset base. The sector's asset base translated to an average capital accumulation per member of \$16,651.27 as at 31 March 2019.

Figure 5 below shows the distribution of self-administered funds' assets as at 31 March 2019. See Annexure 6, the Consolidated Statement of Financial Position for more details.

Figure 5: Distribution of Self-Administered Funds Assets

As shown in Figure 5 above, the total asset base for self-administered funds was mainly composed of long term investments in the form of equities totaling \$1.14 billion and investment properties totaling \$375.01 million respectively, accounting for a combined 76.80% of total assets as at 31 March 2019. This was mainly on account of the need to preserve the value of funds in the inflationary environment.

There was a 12.47% decrease in prescribed assets investments from \$181.70 million as at 31 December 2018 to \$159.04 million as at 31 March 2019. The prescribed asset investments translated to ratio of 8.06% of the total asset base. The prescribed asset investment ratio was below the regulatory threshold of 20%.

3.4 Earnings

Self-administered funds reported a deficit of \$39.40 million for the 3 months ended 31 March 2019. The deficit was mainly driven by fair value losses totaling \$69.80 million and benefit

payments totaling \$20.90 million respectively. The total expenditure for the period under review was \$99.07 million and was higher than the \$36.37 million reported for the same period in 2018. The comparative increase was mainly due to the high fair value losses during the 3 months ended 31 March 2019.

Administrative expenditure, (excluding fair value losses, transfer to reserves, amortisation, depreciation, provisions and other similar expenses) translated to expense ratios of 13.21% and 25.87% of total income and total contributions respectively. The Commission is concerned by the high administrative expense ratios and is in the process of putting in place measures to contain these expenditures in order to improve and protect member values.

The sector reported total income of \$59.67 million for the 3 months ended 31 March 2019. The income was mainly driven by contributions totaling to \$30.47 million, translating to 51.07% of total income for the period under review. See annexure 5 for further details on insured funds' income and expenditure.

4 STAND-ALONE PENSION FUNDS

4.1 Overview of Stand-Alone Funds Sector

There were 16 stand-alone pension funds as at 31 March 2019, the same as the number reported as at 31 December 2018.

4.2 Membership

Total membership for stand-alone pension funds increased from 334,616 as at 31 December 2018 to 335,394 members as at 31 March 2019. The increase was mainly on account of new entrants totalling 833 for the quarter under review.

Table 8 : Membership Statistics for Stand-Alone Pension Funds

Membership Category	Number of members as at...	
	31 March 2019	31 December 2018
New entrants	833	5,556
Active members	152,579	146,194
Pensioners	22,448	25,673
Deferred Pensioners	103,045	106,812
Suspended Pensioners	13,839	8,057
Unclaimed benefits	42,650	42,324
Totals	335,394	334,616
Exit members	776	562

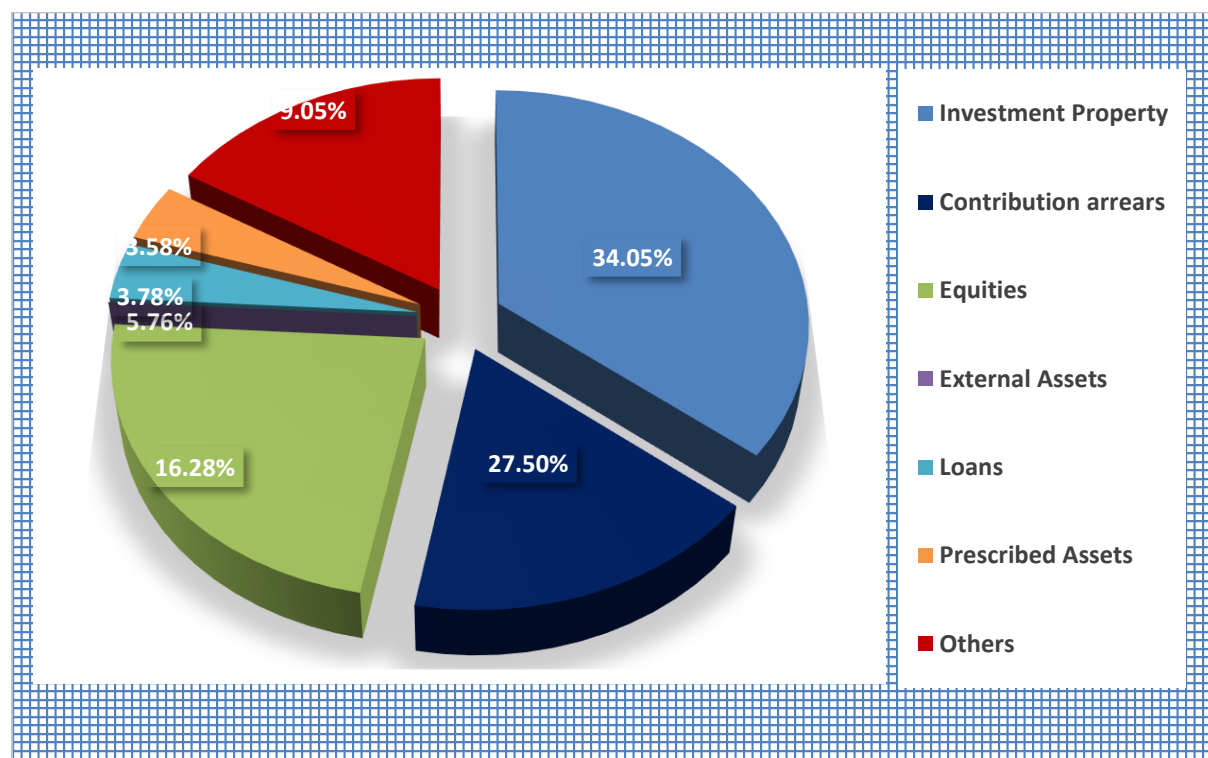

As shown in Table 8 above, unclaimed benefits have remained high in the sector, owing to poor data management due to legacy issues coupled with high labour mobility and closure of companies. The number of suspended pensioners increased from 8,057 members as at 31 December 2018 to 13,839 members as at 31 March 2019. The increase in suspended pensioners reflects that pensioners are not submitting their certificates of existence timeously.

4.3 Asset Base

Stand-alone pension funds reported total assets amounting to \$1.90 billion as at 31 March 2019. The total asset base was marginally lower than the \$1.92 billion reported as at 31 December 2018. The decline in the sector's asset base was mainly attributable to a \$49.90 million decrease in quoted equity values, from \$378.90 million as at 31 December 2018 to \$329.01 million as at 31 March 2019.

The sector's asset base accounted for 35.31% of the industry's total asset base, and translated to an average asset accumulation of \$5,663 per member. The distribution of assets for stand-alone pension funds as at 31 March 2019 is shown in Figure 6.

Figure 6: Distribution of Assets for Stand-Alone Funds

As shown in figure 6 above, the sector reported contribution arrears totalling \$501.14 million, increasing from \$493.88 million reported as at 31 December 2018. The arrears constituted 27.50% of the total assets of the sector and also accounted for 83.10% of the industry's total contribution arrears. The contribution arrears were concentrated in six pension funds, namely the Mining Industry Pension Fund, Local Authorities Pension Fund, Zimbabwe Electricity

Industry Pension Fund, Unified Councils Pension Fund, National Railways Contributory Pension Fund and Communication and Allied Industries Pension Fund. The 6 funds accounted for 95.37% of contribution arrears for stand alone funds, attributable to \$477.96 million.

The contribution arrears and rental arrears amounted to \$523.45 million as at 31 March 2019 and continued to be the main drivers of liquidity challenges in stand-alone pension funds.

As at 31 March 2019, stand-alone funds had \$69.82 million invested in prescribed assets, translating to 3.58% of the total assets. This was way below the regulatory requirement of 10%.

4.4 Liabilities

Stand alone funds reported arrear pension benefits totaling \$71.54 million as at 31 March 2019, increasing from \$68.29 million reported for the period ending 31 December 2018. This was mainly as a result of low liquidity within the affected pension funds. The sector reported unclaimed benefits totaling \$17.52 million as at 31 March 2019, a marginal decrease from the \$17.71 million reported as at 31 December 2018. The arrear pension benefits and unclaimed benefits continue to be issues of regulatory concern.

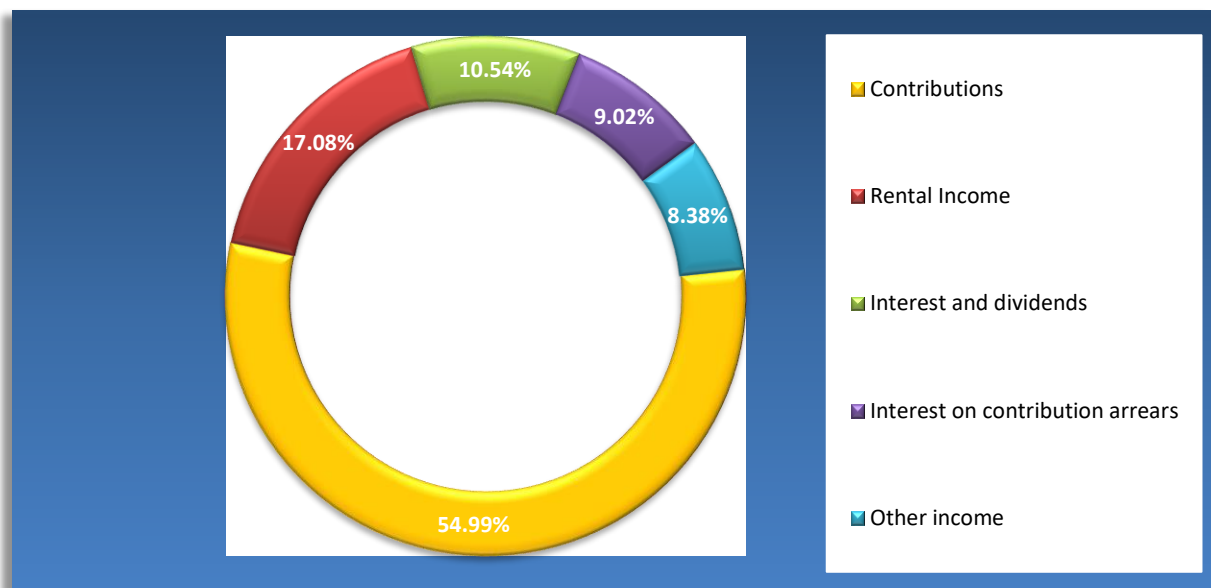

See Annexure 8 for a detailed breakdown of stand alone pension funds' liabilities.

4.5 Earnings

The Stand alone pension funds reported total income and total expenditure amounting to \$62.48 million and \$45.62 million respectively, resulting in net income of \$16.86 million for the quarter ending 31 March 2019. The income was mainly made up of contributions and rental income which amounted to \$33.65 million and \$10.45 million respectively, accounting for a combined 70.60% of total income for the sector.

The sector's total income was marginally higher than the \$61.95 million reported for the corresponding period in 2018. The breakdown of income for the quarter ended 31 March 2019 is summarised in Figure 7 below. Refer to Annexure 7 for detailed statements of comprehensive income for stand-alone funds.

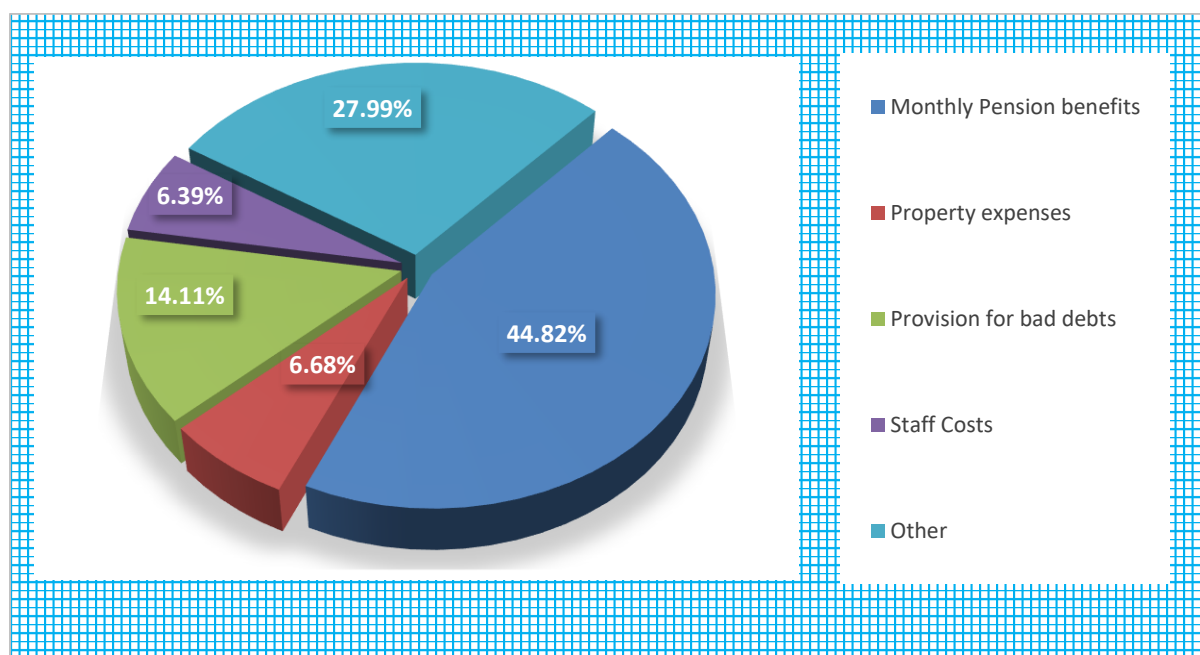

Figure 7: Income Distribution for Stand-Alone Funds

Total expenditure for stand-alone pension funds was 22.70% higher than the \$37.18 million recorded for the quarter ended 31 March 2018. The relatively higher total expenditure was on account of higher pension benefits, investment expenses and property expenses. The total monthly pension benefits payments amounted to \$19.88 million, which translated to 43.57% of total expenditure for the sector.

The breakdown of the total expenditure for stand-alone pension funds for the period under review is shown in Figure 8 below.

Figure 8: Expenditure Distribution for Stand-Alone Funds

The total administrative expenditure for stand-alone funds was 33.00% of contributions and 17.78% of total income respectively. Pension funds are encouraged to rationalise their cost structures in order to ensure sustainability of the pension funds and reasonable member values, taking into consideration the prevailing inflationary environment.

5 REGULATORY DEVELOPMENTS

5.1 During the 3 months ended 31 March 2019, the Commission issued the following circulars to the Industry;

Document	Release Date	Content
Circular 1 of 2019	3 January 2019	Currency of payment for levies
Circular 2 of 2019	4 March 2019	Reporting guidelines for Insurance companies and pension funds after 20 February 2019 Monetary Policy Statement
Circular 3 of 2019	12 March 2019	Requested compliance plans for new minimum prescribed asset thresholds

6 FEBRUARY 2019 MONETARY POLICY STATEMENT

On 20 February 2019, the Governor of the Reserve Bank of Zimbabwe presented a Monetary Policy Statement which had the following implications:-

- 6.1** Through Statutory Instrument 32 of 2019, government introduced the RTGS\$ as legal tender in Zimbabwe.
- 6.2** Through Statutory Instrument 33 of 2019, government required all financial accounts (except Nostro accounts) expressed in US\$ as at 22 February 2019 to be converted to RTGS\$ at a rate of 1:1 with the US\$.
- 6.3** Furthermore, the Reserve Bank of Zimbabwe in terms Section 35 (1) of the Exchange Control Regulations, Statutory Instrument 109 of 1996, issued the Exchange Control Directive RU28/2019 on 22 February 2019, which created an Interbank Market and mechanisms for the trading of RTGS\$ balances and bond notes with the US\$ and other international currencies.
- 6.4** Although most US\$ denominated assets and liabilities prior to the announcement of the policy would be converted to RTGS\$ at a rate of 1:1, the Interbank Market started trading in US\$ at a rate of US\$1: 2.5.

- 7** The main implications of the Monetary Policy Statement announcement on the Pensions Industry were as follows:-
- 7.1** All liquid financial accounts (except Nostro account balances), member accumulations, pension benefits, contribution arrears and other assets denominated in US\$ prior to 20 February 2019 were converted to RTGS\$ at a rate of US\$1:1;
 - 7.2** Pensioners outside the country would have their benefits denominated in RTGS\$ from 22 February 2019 going forward, converted to foreign currency on each payment date at the prevailing interbank rate. This has resulted in erosion of value of pensions and consequently an outcry from the pensioners;
 - 7.3** All financial statements, returns and other documents to the Commission would be reported in RTGS\$ in line with Government policy; and
 - 7.4** The Commission requested all pension funds to prepare financial statements for the year ended 31 December 2018 according to Public Auditors and Accountants Board recommendations, which among other recommendations requested an impact analysis on all US\$ denominated assets and investments held as at 31 December 2018.

8 SECTION D: ANNEXURES

Annexure 1: Consolidated Industry Statement of Comprehensive Income for the 3 months ended 31 March 2019
