## Executive Summary

The report provides an analysis of the performance of the short-term insurance industry, key economic indicators, investment markets and highlights of the Commission's regulatory activities for the quarter ended 31 March 2021.

All short-term insurers and reinsurers managed to submit their first quarter returns on the IPEC online portal, and this is commendable.

The majority of the short-term insurance industry players had outstanding levy and annual fees balances with the Commission. Industry players are encouraged to submit their proof of payments to the Commission to enable receipting of their payments and clearing of balances.

Total Gross Premium Written (GPW) by short-term insurers amounted to ZW\$3.99 billion, reflecting a 387.97% increase from ZW\$817.93 million reported for the comparative period in 2020. The total business written by short-term reinsurers increased from ZW\$461.27 million for the quarter ended 31 March 2020 to ZW\$2.17 billion for the period under review.

Total assets for short-term insurers increased from ZW\$8.87 billion reported as at 31 December 2020 to ZW\$11.44 billion as at 31 March 2021. Investments in Prescribed Assets by short-term insurers increased by 12.57% from ZW\$315.10 million as at 31 December 2020 to ZW\$354.72 million as at 31 March 2021. In the period under review, none of the short-term insurers were compliant with the Minimum Prescribed Asset ratio of 10%. All eighteen (18) insurers reported capital positions which were above the Minimum Capital Requirement (MCR) of ZW\$37.5 million as at 31 March 2021.

Short-term reinsurers had an asset base of ZW\$7.59 billion as at 31 March 2021, reflecting an 18.59% increase from the ZW\$6.40 billion reported as at 31 December 2020. Investments in Prescribed Assets by short-term reinsurers increased by 13.89% from ZW\$1.08 billion as at 31 December 2020 to ZW\$1.23 billion as at 31 March 2021. In the period under review, three out of eight short-term reinsurers were compliant with the Minimum Prescribed Asset ratio of 10%. As at 31 March 2021, all the registered short-term reinsurers reported capital positions that were above the minimum capital requirement of ZW\$75 million.

The total business written by micro-insurers amounted to ZW\$91.48 million for the period under review. The micro-insurers had total assets of ZW\$205.47 million as at 31 March 2021. Both micro-insurers were compliant with the minimum capital requirement of ZW\$4.5 million.

# **1. Economic Developments**

## **1.1. COVID-19 Impact on Global Economic Developments**

It is one year since World Health Organization (WHO) declared COVID-19 a global pandemic. The accumulating death toll remains a concern despite the growth in the vaccine rollout coverage aimed at reducing the number of infections as well as COVID-19 related complications. For the period between January and March 2021 COVID-19 confirmed cases recorded globally were 46 135 152 and associated deaths 935 353. The first quarter 2021 cases were, however, 5.9 percent lower than those recorded in the fourth quarter of 2020, an improvement attributed to vaccine administration.

A high level of uncertainty surrounds global output in the outlook. Economic recovery is expected to be uneven across jurisdictions depending on vaccination rollouts, policy support measures and the adjustment by sectors to new ways of doing business.

## **1.2. Covid-19 Impact on Businesses**

The pandemic accelerated the digitalisation of both supervisory processes and the insurance business value chain. For regulators, key learnings from the Covid-19 crisis have been used to future-proof supervision. Consequently, going forward some supervisory processes shall be streamlined to ensure agility effectively backed by resilient digital infrastructure.

For the industry, Covid-19 presented an opportunity to leapfrog digitalisation. However, as with the law of unintended consequences the automation process resulted in increased operational efficiency and excess staff. Redundancy risk leading to calls for voluntary retrenchments in the industry have heightened with corporate restructuring and streamlining of operations. The Commission has noted that entities with clients offering tourism related activities have remained hamstrung due to the pandemic with some struggling to keep up with paying premiums. Others, in cross border transportation services have also reduced fleet

size and retrenched work force. However, the full impact of the pandemic on the industry is still unfolding.

### **1.3. Global and Regional Economic Outlook**

The International Monetary Fund projects global output to grow by 6.0% in 2021 from an estimated contraction of -3.3% in 2020, before moderating to 4.4% in 2022. The growth forecasts are underpinned by additional fiscal support in large economies such as the United States, adaptation to the new ways of conducting business, and the anticipated vaccine-powered recovery. The World Bank's world output forecast for 2021 is slightly lower at 4% and is expected to moderate to 3.8% in 2022, weighed down by the pandemic's lasting damage to potential growth.

Advanced economies are expected to grow by 5.1% in 2021, a 0.8 percentage point's improvement from IMF's January 2021 projection of 4.3%. The expected growth is a reflection of business adapting to the challenging health situation through resorting to teleworking and improving COVID-19 containment measures.

GDP growth for emerging markets and developing economies (EMDEs) is projected to expand by 6.7% in 2021 (IMF 2021). China remains the fastest growing economy and is expected to register a growth rate of 8.4% in 2021 and 5.6% in 2022, supported by strong policies and resilient exports. The global economic outlook projections are summarised in Table 1.

**Table 1: World Economic Outlook Projections (Percentage Change)**

|                                                  | 2020 | 2021* | 2022* |
|--------------------------------------------------|------|-------|-------|
| <b>World Output</b>                              | -3.3 | 6.0   | 4.4   |
| <b>Advanced Economies</b>                        | -4.7 | 5.1   | 3.6   |
| <b>USA</b>                                       | -3.5 | 6.4   | 3.5   |
| <b>Euro Area</b>                                 | -6.6 | 4.4   | 3.8   |
| <b>Emerging Markets and Developing countries</b> | -2.2 | 6.7   | 5.0   |
| <b>China</b>                                     | 2.3  | 8.4   | 5.6   |
| <b>Sub-Saharan Africa</b>                        | -1.9 | 3.4   | 4.0   |
| <b>Nigeria</b>                                   | -1.8 | 2.5   | 2.3   |
| <b>South Africa</b>                              | -7.0 | 3.1   | 2.0   |

Source: April 2021 World Economic Outlook, IMF. \* Projections

The Sub-Saharan Africa (SSA) region is projected to grow by 3.4% in 2021 (IMF 2021). The World Bank sets the region's growth at between 2.3% and 3.4% in 2021 supported by improved exports and commodity prices, along with a recovery in both private consumption and investment. The episodes of virus resurgence and mutations may undermine the growths prospects for the SSA region in 2021.

#### **1.4. Domestic Economic Outlook**

The Zimbabwean economy is expected to recover from a projected contraction of 4.5% in 2020 to a growth of 7.4% in 2021 and 5.5% in 2022. All sectors of the economy are expected to register growth in 2021, with the agriculture and mining sectors expected to record the highest growth rates of about 11% each, tourism (6.8%), and electricity (10%) Financial, banking and insurance activities (7.1%), among the major sectors. Economic activity is expected to improve in 2022, with GDP growing at around 5%, as consistent implementation of the National Development Strategy 1 reforms starts bearing fruit.

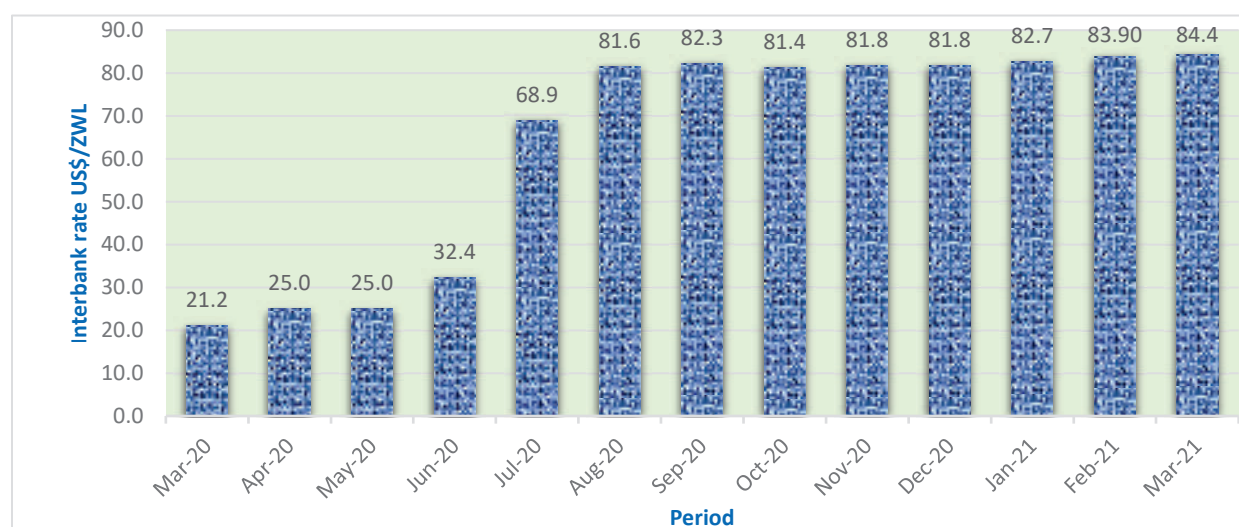

The IMF and World Bank economic growth projections for the country in 2021 are conservatively set at 3.1% and 2.9% respectively and that of 2022 at 4.0% and 3.1%.

### 1.5. Exchange Rate Movements

During the first quarter of 2021 the Zimbabwean dollar depreciated by 3.2% from an interbank rate of ZW\$81.8 as at 1st of January 2021 to ZW\$84.4 as at 31 March 2021. The weakening of local currency emanated from high foreign exchange demand, as businesses were gearing for re-stocking anticipating the opening up of the economy. However, of concern has been the diverging alternative market premium, which has been built into the pricing structures. Accordingly, there are still some headwinds as repricing of claims is marked at the parallel market and not at the official rate.

Figure 1 shows the interbank exchange rate movements during the period March 2020 to March 2021.

**Figure 1: Interbank Exchange Rate March 2020 to March 2021 (US\$/ZWL) – End of Period**

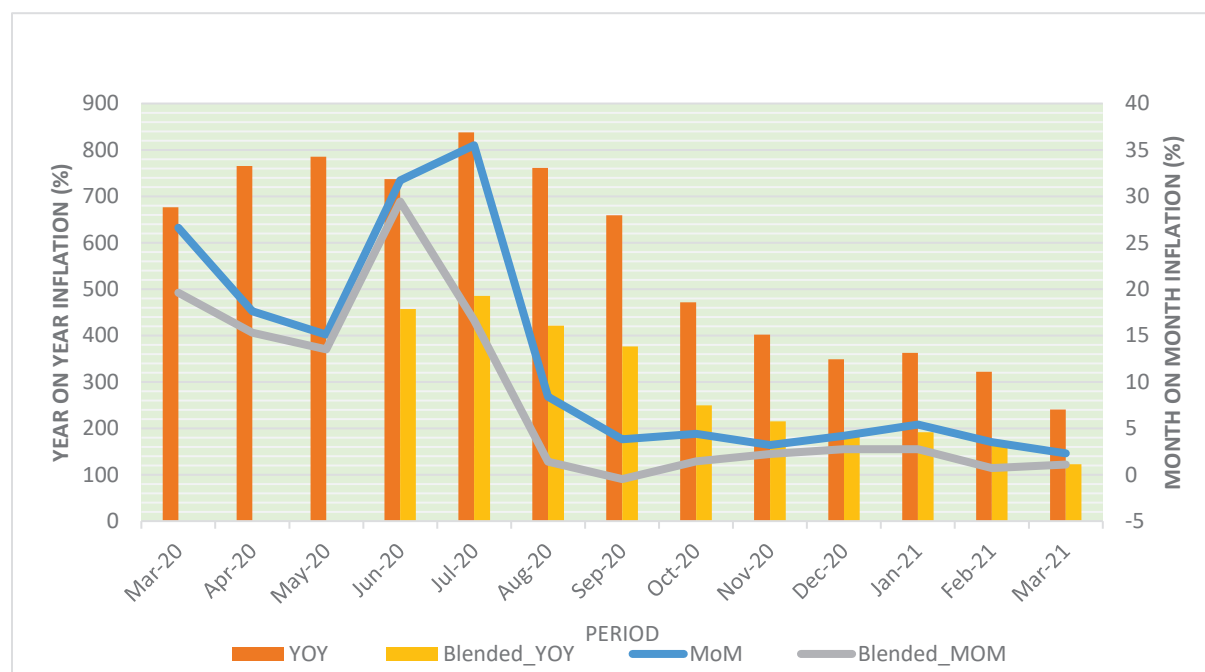

Source: Reserve Bank of Zimbabwe

### 1.6. Inflation Developments

Annual inflation in January 2021 increased to 362.6% from the December 2020 figure of 348.6% mainly attributable to adjustments of electricity, fuel and rates at

the beginning of the year. However, stability was maintained in the rest of the quarter as inflation decreased to 240.6% in March 2021. Similarly, the annual blended inflation rate decreased from 191.5% in January 2021, to 122.3% in March 2021. The changes in inflation rates for the period of March 2020 to March 2021 are illustrated in Figure 2.

**Figure 2: Year on Year Inflation profile (%), March 2020-March 2021.**

Source: Zimbabwe National Statistics Agency

Month on month inflation rate declined from 5.4% in January 2021 to 3.5% in March 2021. Notable declines were registered in clothing and footwear from 104.2% in January 2021 to 103.21% in March 2021 and education from 116.0% to 113.70% over the same period.

Whilst the decline in inflation rate is commendable as it is assisting in boosting business and consumer confidence, more still needs to be done to bring down inflation to a single digit level (below 10%) as projected, by December 2021.

## 1.7. Zimbabwe Stock Exchange and Victoria Falls Stock Exchange Developments

### Equity market highlights

Local equities were bullish in the first quarter of 2021, as investors continue with hedging activities seeking a safe haven for their wealth in light of limited investment options. The All -Share index went up by 68.11%, from 2,636.34 points recorded in December 2020 resulting in a real return of 50.8% after factoring quarterly inflation. Major indices recorded positive growth in the first quarter of 2021 with the Top 10, Medium Cap and Small Cap indices gaining 54.37%, 90.98% and 297.2% to close at 2,580.33 points, 10,487.48 points and 47,327.53 points, respectively. The quarter under review also witnessed a mining index gain of 33.82% to close at 5,532.09 points. However, the value of shares traded decreased by 16.17% in the first quarter of 2021 compared to the fourth quarter of 2020 and market turnover declined by 7.66% during the quarter under review. Table 2 illustrate the key stock market development indicators in the fourth quarter of 2020 and first quarter of 2021.

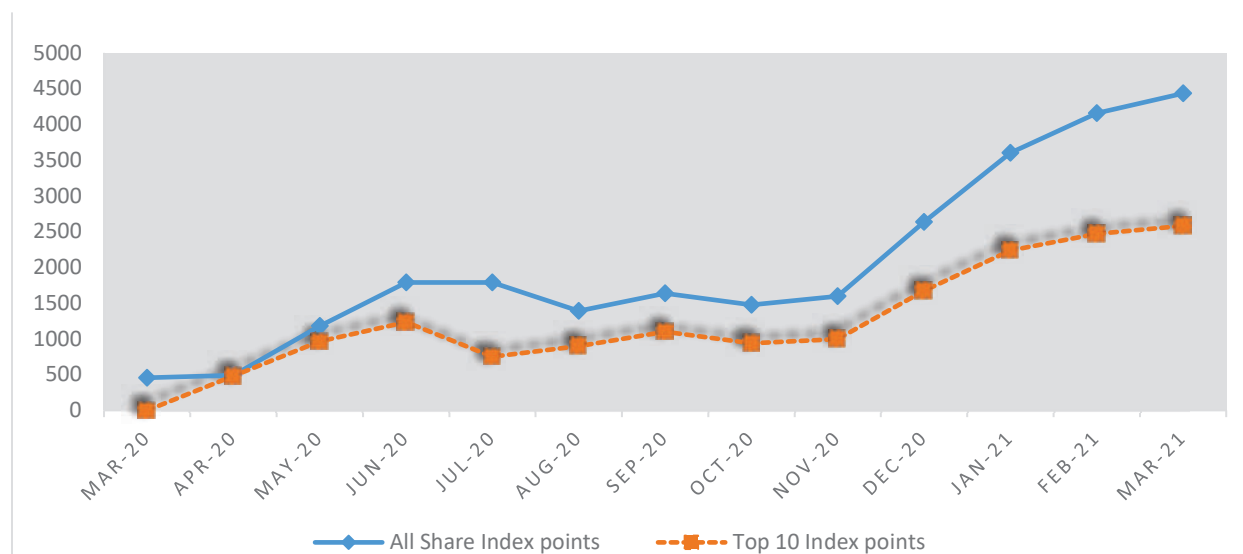

**Table 2: Key stock market development indicators**

| <b>ZSE Indicator</b>                          | <b>Dec-2020</b> | <b>Mar-2021</b> | <b>Change (%)</b> |

## **Victoria Falls Stock Exchange (VFEX)**

Since the bourse was launched on the 23rd of October 2020, Seedco International is still the only counter listed on the Victoria Falls Stock Exchange. There were no trades on the Victoria Falls Stock Exchange (VFEX) in January and February of 2021. There were US\$2,686 worth of trades in Seedco International on the Victoria Falls Stock Exchange (VFEX) in March 2021 resulting in Seedco International's share price going up by 11.1% to US\$0.2.

## **1.8. Money Market Developments**

### **Savings and Deposit Interest Rates**

Real interest rates remained negative during the quarter under review, following the high annual inflation rate, which ended the quarter at 240.6% against nominal interest below 20%.

The annual nominal savings deposit rates registered declines in the quarter from maximum of 4.69% as at 29 January 2021 to 4.04% as at 26 March 2021, translating to an end of quarter real return of -69% . Marginal improvements were however, recorded in the One-month and Three-month nominal deposit rates in the quarter. One-month nominal deposit rates improved from a maximum of 9.55% end of December 2020 to 10.83% at 26 March 2021, resulting in a negative real return of 67%. The three-month nominal deposit rates increased slightly from a maximum of 11.15% end of January to 11.80% end of March, resulting in a real return of -67% at the end of the quarter.

## **2. Introduction**

The Insurance and Pensions Commission (IPEC) is a statutory body mandated with regulating, supervising and developing the insurance and pensions industry for the protection of policyholders and pension scheme members in Zimbabwe. This report outlines IPEC's various activities consistent with its statutory mandate for the three months ended 31 March 2021 as well as the state of the short-term insurance industry for the same period.

### **Terms of Reference**

The activities of the Commission are guided by the following acts and their regulations:

- Insurance and Pensions Commission Act [Chapter 24:21]

- Pension and Provident Funds Act [Chapter 24:09]

- Insurance Act [Chapter 24:07]

- Money Laundering and Proceeds of Crime Act [Chapter 09:24]

- Finance Act [Chapter 23:04]

- Public Entities and Corporate Governance Act [Chapter 10:31]

- Public Finance Management Act [Chapter 22:19]

- Public Procurement and Disposal of Public Assets Act [Chapter 22:23]

#### **2.1. Circulars and Statutory Instruments**

The Commission issued the following circulars and Statutory Instruments for the review period: -

| <b>Circular/Statutory Instrument (SI)</b> | <b>Date Issued/<br/>Gazetted</b> | <b>Purpose</b>                                                                                              |
|-------------------------------------------|----------------------------------|-------------------------------------------------------------------------------------------------------------|
| S.I. 85 of 2021                           | 26 March 2021                    | Revision of fees payable to the Commission                                                                  |
| S.I. 86 of 2021                           | 26 March 2021                    | Revision of levies payable to the Commission                                                                |
| Circular 10 of 2021                       | 05 March 2021                    | Deadline extension for the submission of 2020 Audited Financial Statements and Actuarial Valuation Reports. |
| Circular 9 of 2021                        | 04 March 2021                    | Submission of monthly management accounts by funeral assurers to the Commission                             |
| Circular 8 of 2021                        | 24 February 2021                 | Issuance of the treating customers fairly framework                                                         |
| Circular 5 of 2021                        | 17 February 2021                 | 2021 Global Money Week Commemorations                                                                       |
| Circular 4 of 2021                        | 28 January 2021                  | Request for currency reforms compensation framework proposals                                               |
| Circular 3 of 2021                        | 19 January 2021                  | Request of information on foreign currency denominated business                                             |
| Circular 2 of 2021                        | 12 January 2021                  | Delivery of electronic mail to IPEC                                                                         |
| Circular 1 of 2021                        | 04 January 2021                  | Provision of necessary services during lockdown.                                                            |

## **2.2. Offsite Inspection on Commissions**

The Commission recently carried out an industry-wide offsite inspection on the commissions. The inspection noted that some entities are paying commissions as high as 50% of the gross premium written. Players are urged to ensure that they maintain their commissions rates at levels within the dictates of Circular 2 of 2009 to ensure the protection of policyholders.

## **2.3. Capacitation of the Industry**

In line with the Commission's mandate of capacitating industry, technical assistance was offered to individual entities that requested for assistance on the E-filing of returns.

## **2.4. International Engagements**

The Commission actively participated in activities of regional and international bodies such as the International Organisation of Pension Supervisors, the International Association of Insurance Supervisors and the Committee of Insurance, Securities and Non-banking Financial Authorities (CISNA). These include participation in surveys, meetings, workshops and training.

### 3. Architecture of the Short-Term Insurance Industry

There were seven hundred and thirty-five (735) registered entities/persons in the short-term insurance industry as at 31 March 2021. The architecture of the industry is as shown in Table 3 below:

**Table 3 : Architecture of the Short-Term Insurance Industry**

| Type of Institution              | Number of Registered Entities/Persons as at.... |               |               |
|----------------------------------|-------------------------------------------------|---------------|---------------|
|                                  | 31-March 2019                                   | 31-March 2020 | 31-March 2021 |
| Insurance Companies*             | 18                                              | 18            | 18            |
| Micro-insurers                   | 2                                               | 1             | 2             |

| Loss Assessors                   | 36                                              | 36            | 36            |
| Corporate Agents                 | 122                                             | 140           | 147           |
| Sole Agents                      | 530                                             | 480           | 483           |
| <b>Total</b>                     | <b>756</b>                                      | <b>724</b>    | <b>734</b>    |

\* Two insurers namely FBC Insurance Company and Alliance Insurance Company are composite insurers, however the figures in this report pertain to their short -term business only.

\*\*Five reinsurers namely Emeritus Reinsurance Company, FBC Reinsurance Company, First Mutual Reinsurance Company, Grand Reinsurance Company and Zep Re are composite reinsurers who also write life business. However, the figures in this report pertain to their short-term business only.

\*\*\* The number of insurance brokers went down to 31 following the cancellation of the licence for Ambassador Insurance Brokers during the first quarter.

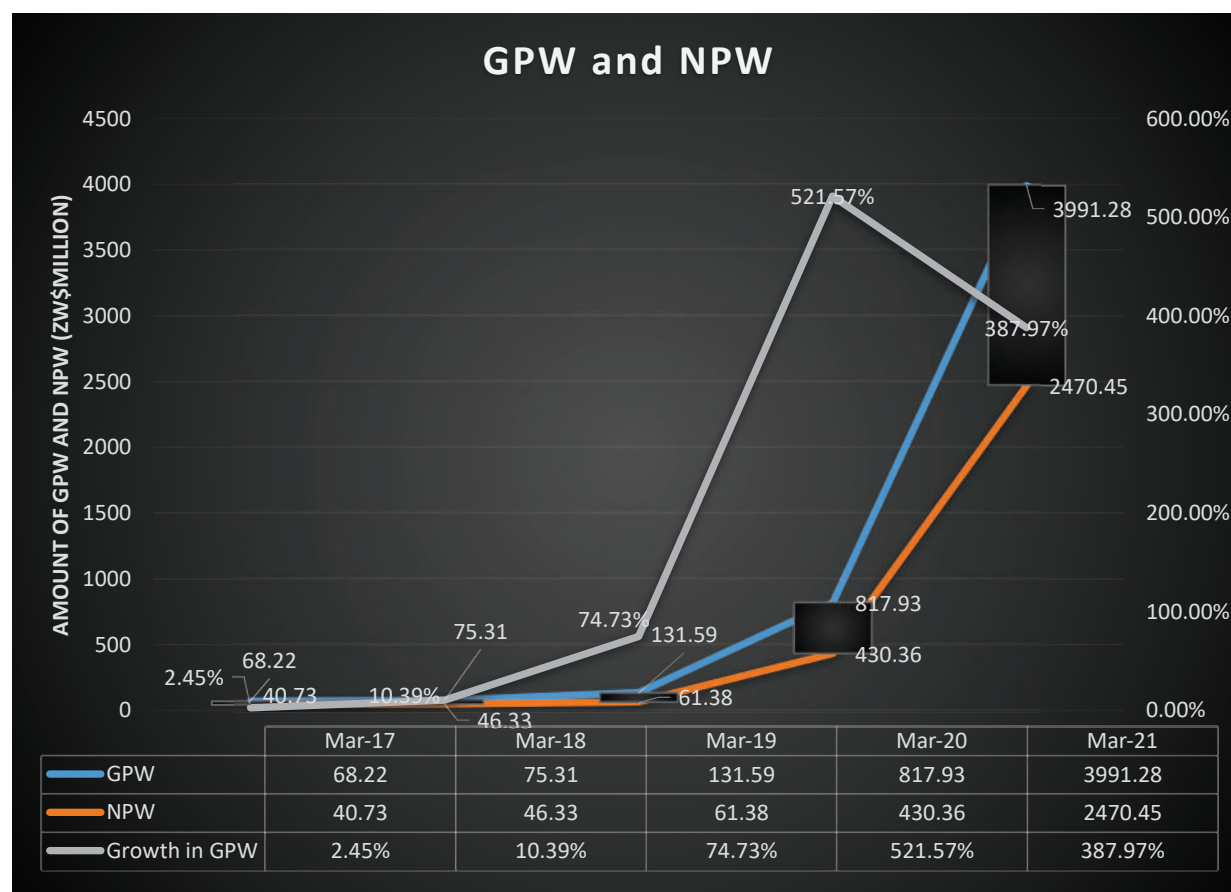

## 4. Short-Term Insurance Companies

Please refer to Appendix 1A-C for detailed statistics for each of the short-term insurers.

### Performance in Terms of Business Written

The total Gross Premium Written (GPW) by short-term insurers amounted to ZW\$3.99 billion, reflecting a 387.97% nominal increase from ZW\$817.93 million reported for the comparative period in 2020. Figure 5 below shows the trend in volume of the business generated by short-term insurers from 2017 to 2021.

Figure 5: Trend in Short-Term Insurance Written Business (March 2017 – March 2021)

The sizeable jump in the nominal volume of business written by the short-term insurance companies between 2019 and 2021, as seen in Figure 5 above, was on account of premiums tracking inflation following currency reforms.

Table 4 below shows the percentage growth in GPW for different classes of business:

**Table 4 : Short-Term Insurers' GPW by Class of Business**

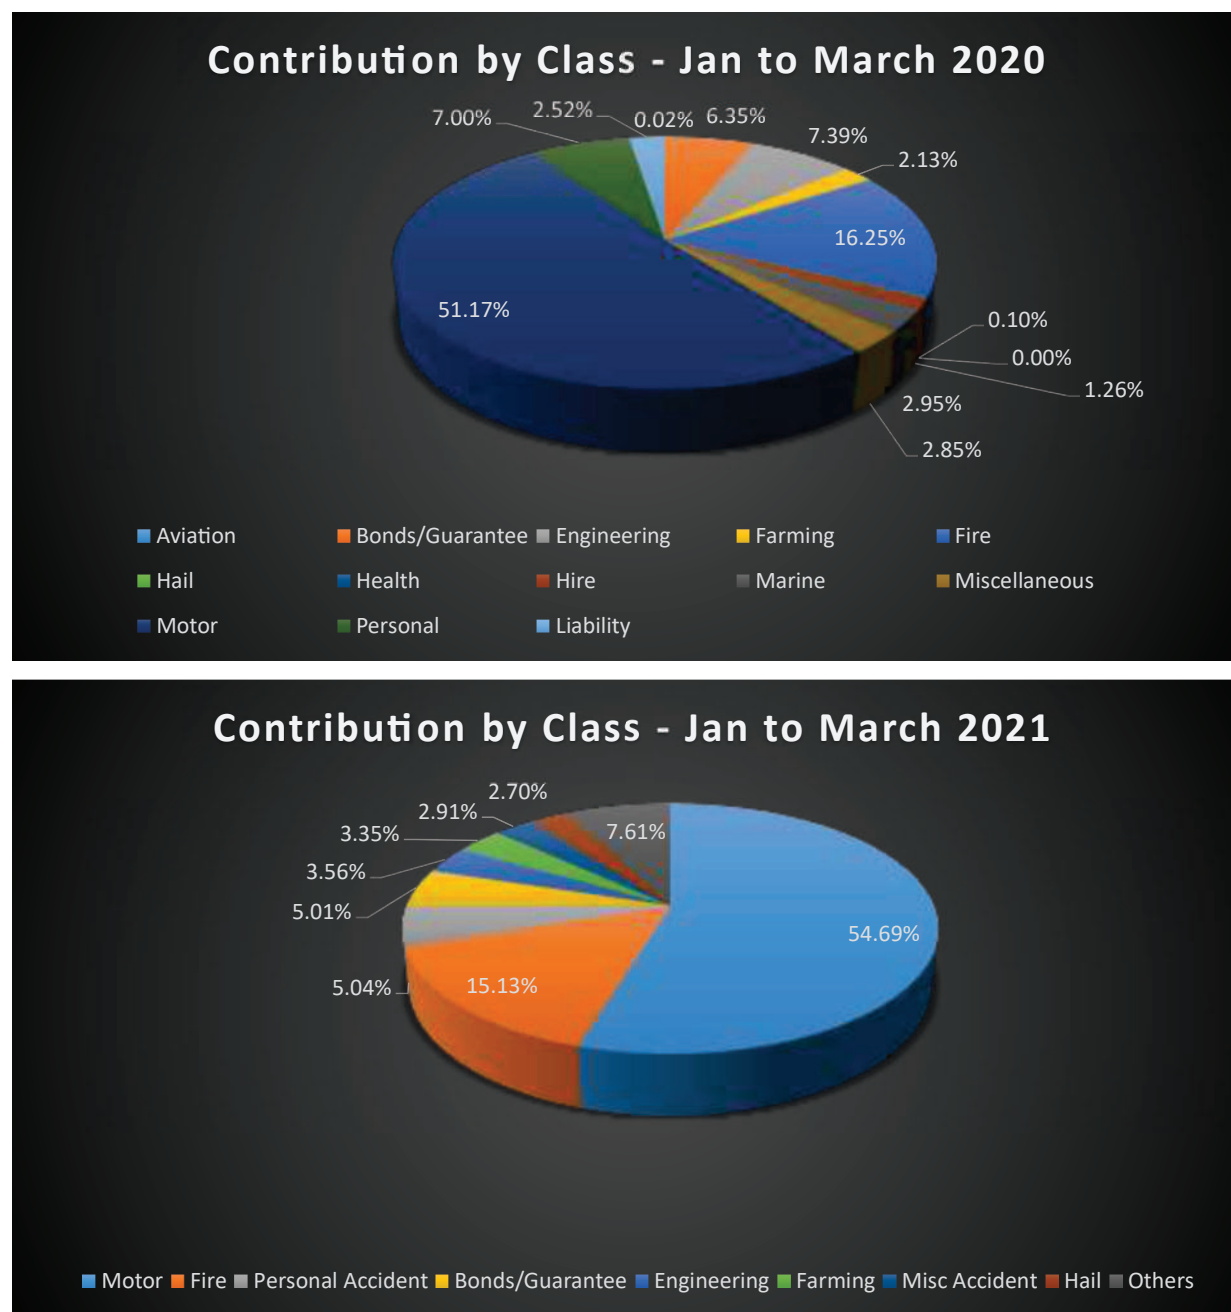

| Class of Business      | Gross Premium Written (ZW\$ MILLION) |                       |           | Nominal<br>% change | Inflation<br>adjusted<br>% change |
|------------------------|--------------------------------------|-----------------------|-----------|---------------------|-----------------------------------|
|                        | 31-Mar-20                            | 31-Mar-21             | 31-Mar-21 |                     |                                   |

| <b>Misc Accident</b>   | 23.31                                | 34.07                 | 116.04    | 397.90%             | 46.18%                            |
| <b>Motor</b>           | 418.57                               | 640.85                | 2,182.74  | 421.47%             | 53.10%                            |
| <b>P- Accident</b>     | 57.26                                | 59.12                 | 201.36    | 251.68%             | 3.25%                             |
| <b>P Liability</b>     | 20.62                                | 29.16                 | 99.31     | 381.57%             | 41.39%                            |
| <b>Others</b>          | 10.33                                | 21.70                 | 73.90     | 615.13%             | 109.96%                           |
| <b>Total</b>           | 817.93                               | 1, 171.84             | 3, 991.28 | 387.97%             | 43.27%                            |

\*Others comprise of directors' liability, health, hire purchase.

As shown in Table 4 above, the real increase in Gross Premium Written for the quarter ended 31 March 2021 was 43.27%, which shows that there was real growth in short-term insurance business. Only two classes of short-term insurance business namely engineering and marine experienced a decrease in the real Gross Premium Written.

The contribution of Gross Premium Written by class of business for short-term insurance is illustrated in Figure 6 below.

Figure 6: Contribution of Short-Term Insurance GPW by class of business

\*Others comprise of Aviation, Marine, Public liability, Directors' liability, Health, Hire Purchase

Motor insurance maintained the pole position as the major contributor in terms of GPW for the first quarter of 2021 at 54.69% from 51.175% for the first quarter ending 31 March 2020.

## Foreign Currency Denominated Business

Gross Premium Written in foreign currency for the quarter ended 31 March 2021 was US\$18.37 million, which is 38.85% of total GPW, as shown in Table 5 below.

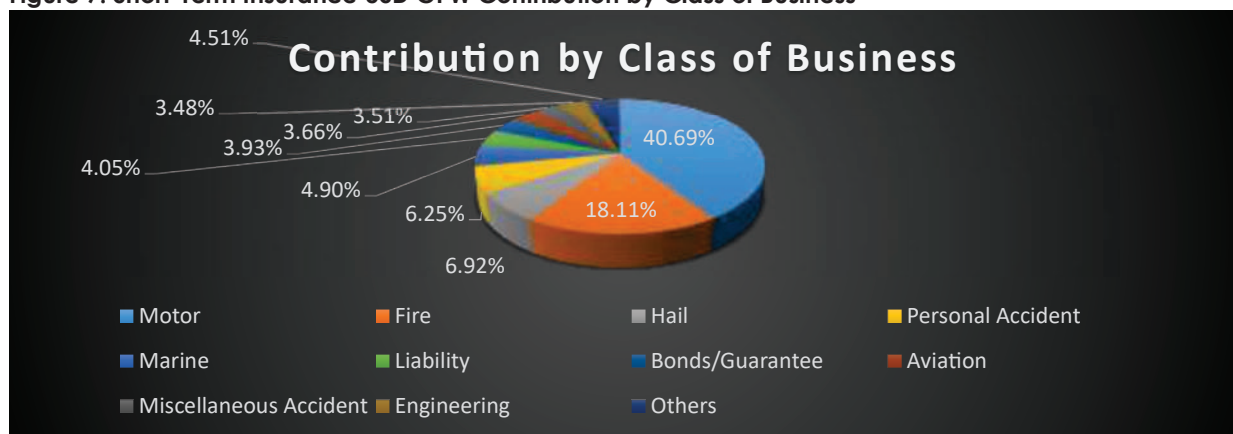

**Table 5: Short-Term Insurers' USD GPW By Class of Business**

| Class of Business      | GPW (US\$'000)   | GPW %          |
|------------------------|------------------|----------------|
| Aviation               | 673.36           | 3.66%          |
| Bonds/Guarantee        | 721.39           | 3.93%          |
| Engineering            | 640.29           | 3.48%          |
| Fire                   | 3,326.91         | 18.11%         |
| Hail                   | 1,270.75         | 6.92%          |
| Liability              | 743.48           | 4.05%          |
| Marine                 | 899.72           | 4.90%          |
| Miscellaneous Accident | 644.41           | 3.51%          |
| Motor                  | 7,476.31         | 40.69%         |
| Personal Accident      | 1,149.24         | 6.25%          |
| Others                 | 828.48           | 4.51%          |
| <b>Total</b>           | <b>18,374.34</b> | <b>100.00%</b> |

\*Others include Farming and Directors' liability.

The contribution of foreign currency denominated business by class of business is shown in Figure 7 below:

**Figure 7: Short-Term Insurance USD GPW Contribution by Class of Business**

Consistent with trends in Zimbabwe dollar denominated business, motor insurance business class was the major contributor of foreign currency denominated business for short-term insurance, accounting for 40.69% of GPW for the quarter ended 31 March 2021.

## Capitalisation

All eighteen (18) insurers reported capital positions that were above the minimum capital requirement of ZW\$37.5 million as at 31 March 2021 including CBZ insurance and Clarion Insurance which had capital positions below the minimum requirement as at 31 March 2020. The reported capital positions were computed without accounting for non-admissible assets as stipulated in Statutory Instrument 95 of 2017. The reported capital positions are shown in Table 6 below.

**Table 6: Reported Capital Positions for Short-Term Insurers**

| Name of Insurance Company | Reported Capital Position (ZW\$ MILLION) |                  |

|  | Above minimum capital requirement of ZW\$37.5 million |
|  | Below minimum capital requirement of ZW\$37.5 million |

## **Asset Quality**

Total assets for short-term insurers increased by 28.97% in nominal terms from ZW\$8.87 billion reported for the period ended 31 December 2020 to ZW\$11.44 billion reported as at 31 March 2021. The increase in assets is mainly attributable to an increase in equities, investment in properties and equipment and premium debtors.

Equities increased by 90.52% from ZW\$1.16 billion reported as at 31 December 2020 to ZW\$2.21 billion as at 31 March 2021%. The increase in equities is mainly attributable to equity prices tracking inflation.

Investment in properties and equipment had a nominal increase of 28.18% from ZW\$2.20 billion as at 31 December 2020 to ZW\$2.82 billion as at 31 March 2021. The increase in value is mainly because of revaluation of properties.

Premium debtors rose significantly from ZW\$2.49 billion reported as at 31 December 2020 to ZW\$3.08 billion for the three months ended 31 March 2021, reflecting a nominal increase of 23.69%. The undesirable continued increase in premium debtors is a sign of weak credit risk management by the sector. To this end, the Commission is finalising the No Premium No Cover regulations to protect both the industry and policyholders against the negative impact of the issuance of cover on credit.

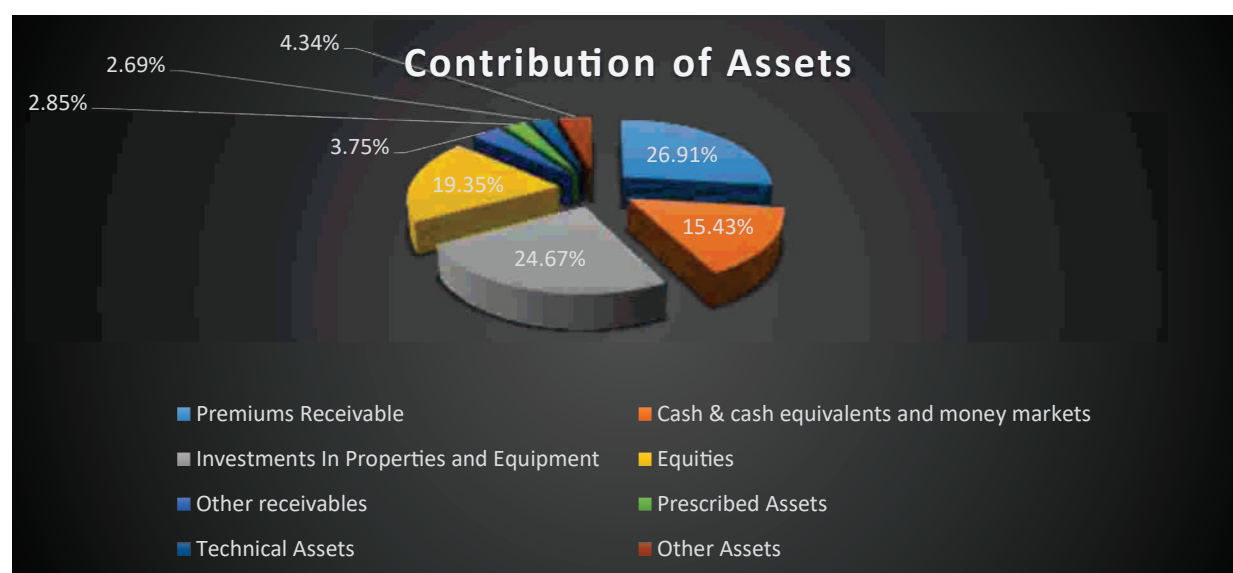

Investments in prescribed assets increased by 12.57% from ZW\$315.10 million as at 31 December 2020 to ZW\$354.72 million as at 31 March 2021. None of the eighteen short-term insurers was compliant with the minimum prescribed asset ratio of 10%.

The Commission in consultation with the industry recently reviewed the prescribed asset framework to widen the assets recognised for prescribed asset purposes in line with the National Development Strategy 1 (NDS 1) by including private projects. The realignment took into cognisance industry needs to ensure

preservation of investor and policyholder funds. The industry has also been called upon to come up with projects that can be accorded prescribed asset status as a way of improving compliance. In view of the foregoing, the Commission will be coming up with a raft of measures to cause compliance given that industry has been given a chance to come up with own projects for consideration as prescribed assets.

The contribution of various asset classes to total assets as at 31 March 2021 is shown in Figure 8 below:

**Figure 8: Short-Term Insurers Contribution of various assets as at 31 March 2021**

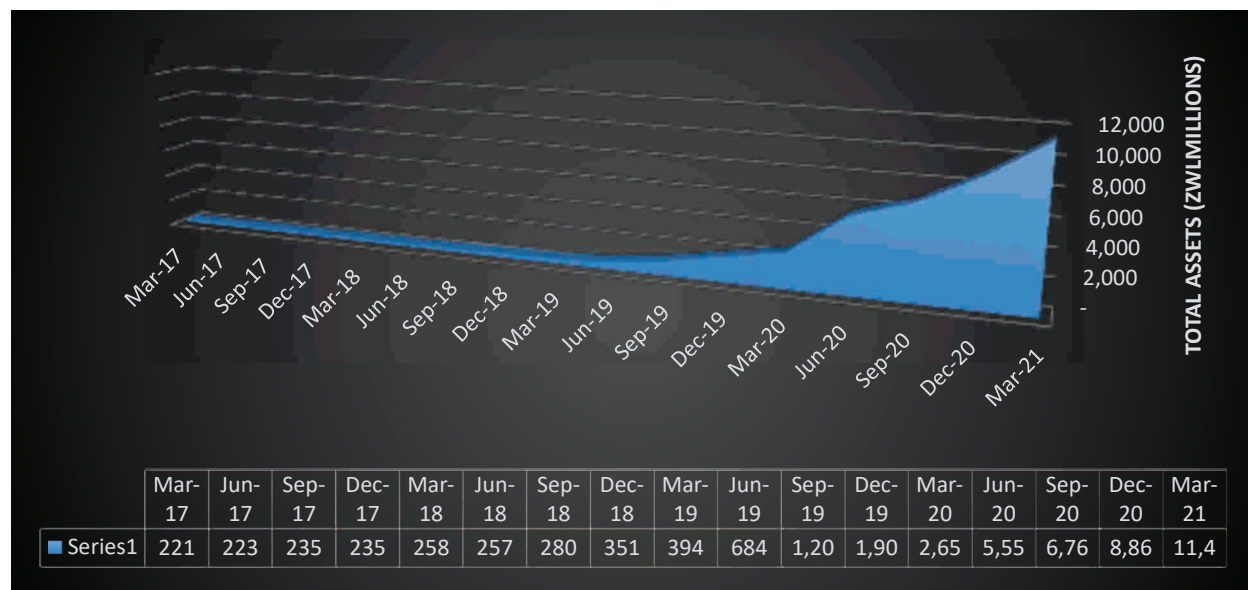

\*Other Assets include Mortgages, Loans, Fixed Deposits, Investments in Associated Companies, Intangible Assets and Related Party Receivables.

Premium receivables, investment in properties and equipment and equities were the three major classes of assets accounting for 70.94% of total assets. Property and equipment alone constituted 24.66% against a limit of 10% while premium debtors contributed 26.91% against a limit of 5% in violation of Circular 2 of 2013 on investment limits.

Short term insurance players are encouraged to ensure that they structure their investment portfolios in a way that enables them not only to preserve policyholder value but also to ensure a balanced investment mix in line with the

Commission's investment limits. Figure 9 below shows the trend in short-term insurance industry assets from 2017 to 2020.

**Figure 9: Short-Term Insurance Industry Assets Trend (March 2017-March 2021)**

The sizeable jump in total industry assets between 2018 and 2021 as shown in Figure 9 above was on account of inflation spikes.

### Reinsurance

The industry's average retention ratio increased from 52.62% for the quarter ended 31 March 2020 to 62.04% for the quarter ended 31 March 2021. This shows an average increase in the risk appetite by the direct short-term insurers. Retention ratios for individual insurers ranged from 36.74% to 99.62%.

The average reinsurance share of outstanding claims to gross outstanding claims ratio was 10.86% as at 31 March 2021, compared to 85.58% reported as at 31 March 2020. This shows that reinsurance companies have significantly improved their payment of claims and the bulk of the outstanding claims are now due to the direct insurers. (See Appendix 1C for more indicators).

### Actuarial Matters

The short-term insurance industry reported a significant increase of 25.97% in total technical liabilities from ZW\$1.54 billion as at 31 December 2020 to ZW\$1.94 billion as at 31 March 2021.

The average liquid assets to total technical reserves ratio for the period under review was 92.41% as compared to 121.36% for the previous comparative period in 2020. The ratio measures the degree to which an insurer can cover its technical obligations by holding cash and other liquid investments to meet unexpected cash needs without the sale of investments that may result in substantial realised losses. This drop shows the decrease in caution by industry players by decreasing liquid assets set aside for unexpected claims. (See Appendix 1C for the performance indicators of insurance companies in terms of Actuarial matters).

### **Earnings**

The short-term insurers reported total profit after tax of ZW\$1.04 billion for the quarter ended 31 March 2021, which was a 518.75% nominal increase from ZW\$168.83 million reported in the comparative period in 2020. The significant increase in profit after tax was mainly driven by significant increases in GPW and unrealised gains of 387.97% and 583.16% respectively.

There was a slight decrease in the combined ratio for the short-term insurers from 89.35% for the quarter ended 31 March 2020 to 84.41% for the period under review. Generally, a combined ratio of below 100% is desirable as it indicates that the insurers are making underwriting profits while the opposite is true for a ratio above 100%. As at 31 March 2021, the underwriting profit of the short-term insurers was ZW\$449.18 million as compared to ZW\$37.13 million reported in the previous year, loosely translating to a nominal increase of 1,109.75%. Three (3) out of the eighteen (18) short-term insurers posted underwriting losses during the quarter under review.

The average net commission ratio was 17.52% for the period under review compared to 11.51% for the first quarter of 2020. This increase shows that the industry paid more commission to intermediaries as compared to the previous reporting period. The highest net commission paid by a short-term insurer for the

period under review was 54.69% of earned premiums. The short term insurers are encouraged to pay commissions in line with Circular 2 of 2009. (For individual short-term insurers' net commission ratios, please refer to Appendix 1C).

The industry's average return on assets (ROA) and return on equity (ROE) were 18.26% and 35.93% respectively for the period under review, compared to 23.68% and 11.88% respectively for the quarter ended 31 March 2020. The decrease in ROA shows that the short-term insurance sector is not fully utilising its investment assets to increase profitability. (For more performance indicators on profitability refer to Appendix 1C under earnings).

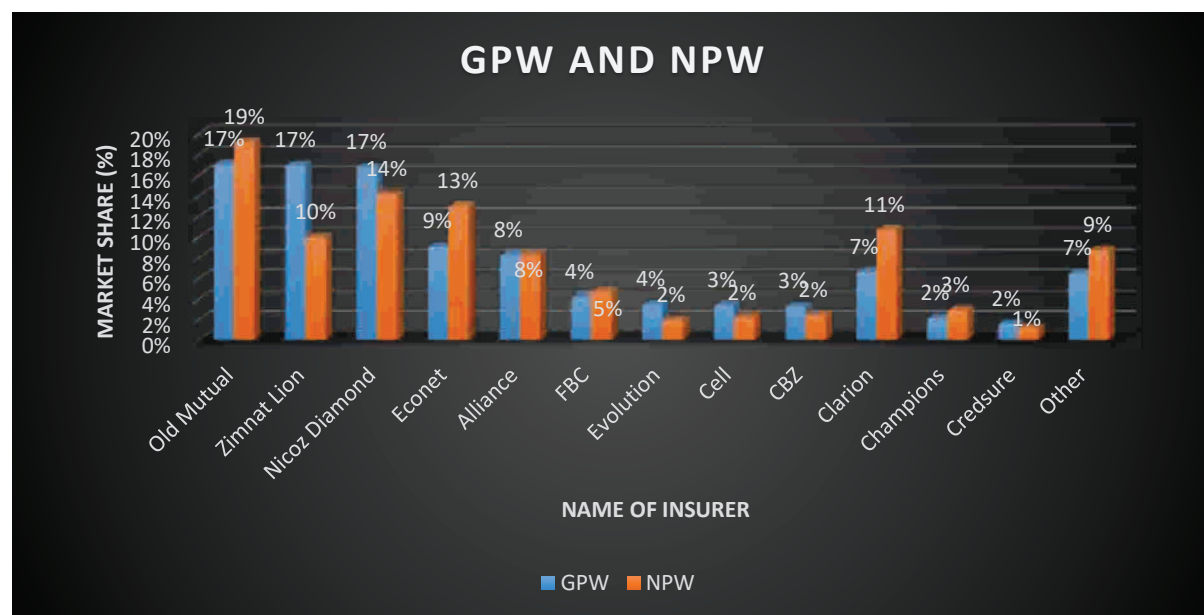

### **Liquidity**

Total cash and near cash assets in the form of money market instruments increased from ZW\$1.48 billion as at 31 December 2020 to ZW\$1.77 billion as at 31 March 2021. Ten out of the eighteen short-term insurers had negative working capital ratios while the industry's acid test ratio averaged 32.74% as at 31 March 2021. The low ratio is a cause for concern as short-term insurers face a high liquidity risk leading to low capacity to meet short-term financial obligations. The acid test ratio for individual insurers as at 31 March 2021 ranged from 3.62% to 153.97% as shown in Appendix 1C.

### **Market Share for Short-Term Insurers**

Old Mutual, Zimnat Lion and Nicoz Diamond were the market leaders in terms of GPW with a combined market share of 51% for the quarter ended 31 March 2021. Figure 10 below shows market share in terms of GPW and NPW for all insurers:

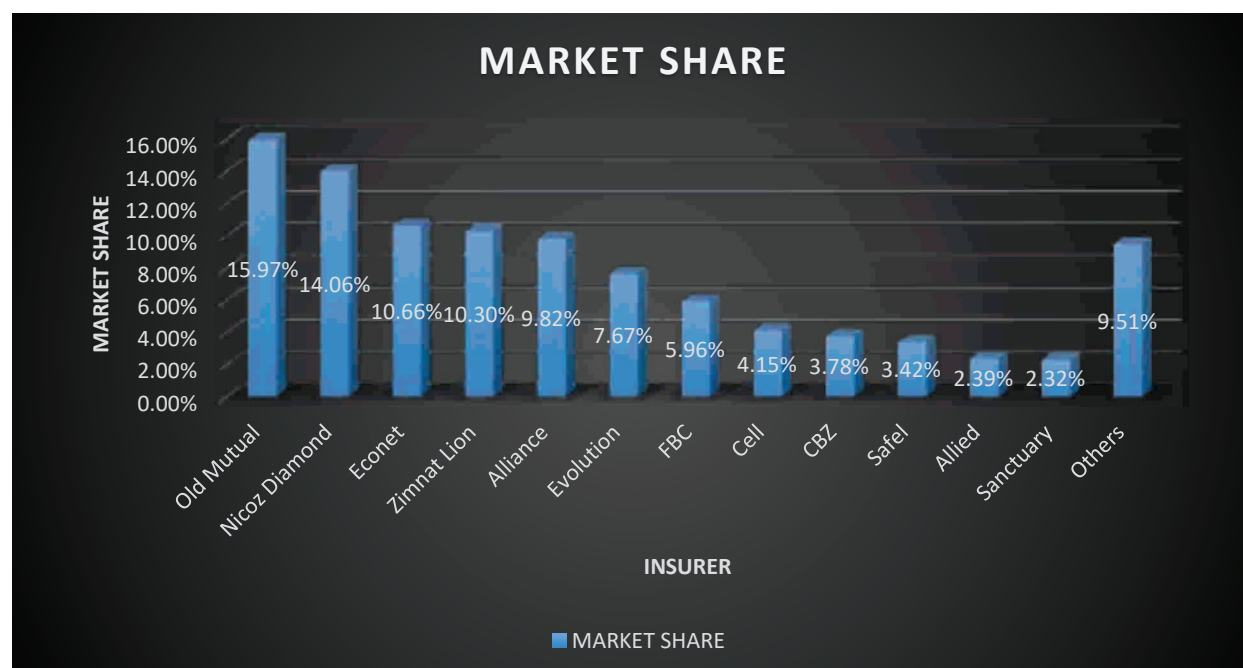

Figure 10: Market Share for Short Term Insurers in Terms GPW and NPW as at 31 March 2021

\*Others comprises of Allied, ECGC, Hamilton, Quality, Safel and Sanctuary.

In terms of total assets, Old Mutual, Nicoz Diamond and Econet were the market leaders with a combined market share of 40.68% as shown in Figure 11 below:

Figure 11: Market Share for Short-Term Insurers in Terms of Total Assets as at 31 March 2021

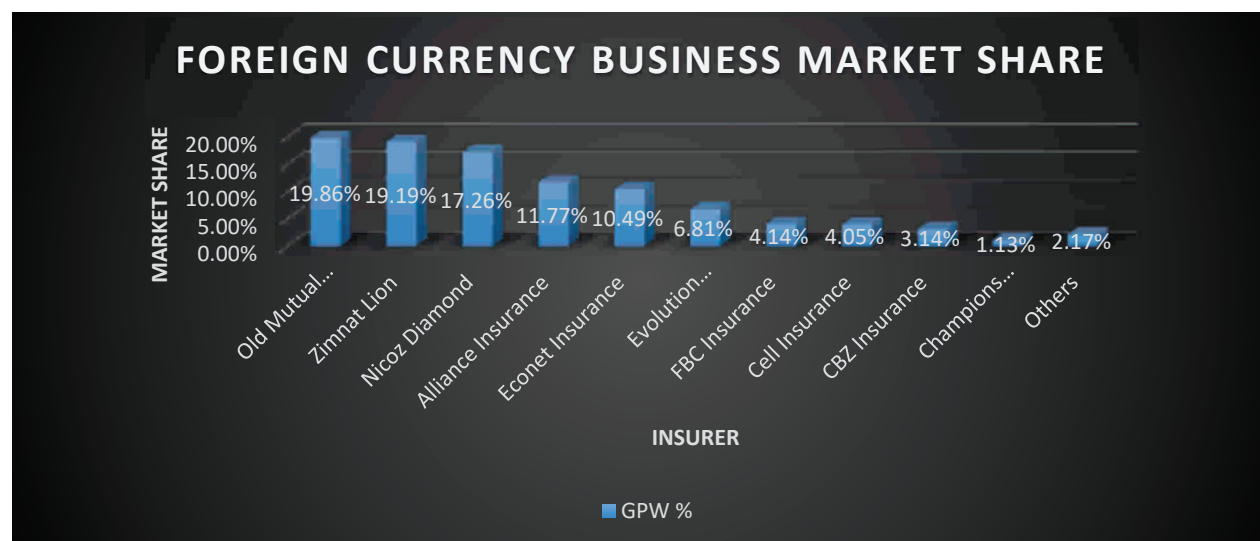

\*Others comprise of Champion, Clarion, Credsure, ECGC, Hamilton and Quality.

## Market Share for Short-Term Insurers in terms of Foreign Currency Denominated Business

During the quarter ended 31 March 2021, Old Mutual, Zimnat Lion and Nicoz Diamond were the market leaders in terms of foreign currency denominated business with a combined market share of 56.31%. The market share of foreign currency denominated business is shown in Figure 12 below.

**Figure 12: USD Business Market share for Short-Term Insurers as at 31 March 2021.**

\*Others comprise of Credsure, Quality, ECGC, Allied, Sanctuary, Clarion, Safel and Hamilton.

## 5. Reinsurance Companies

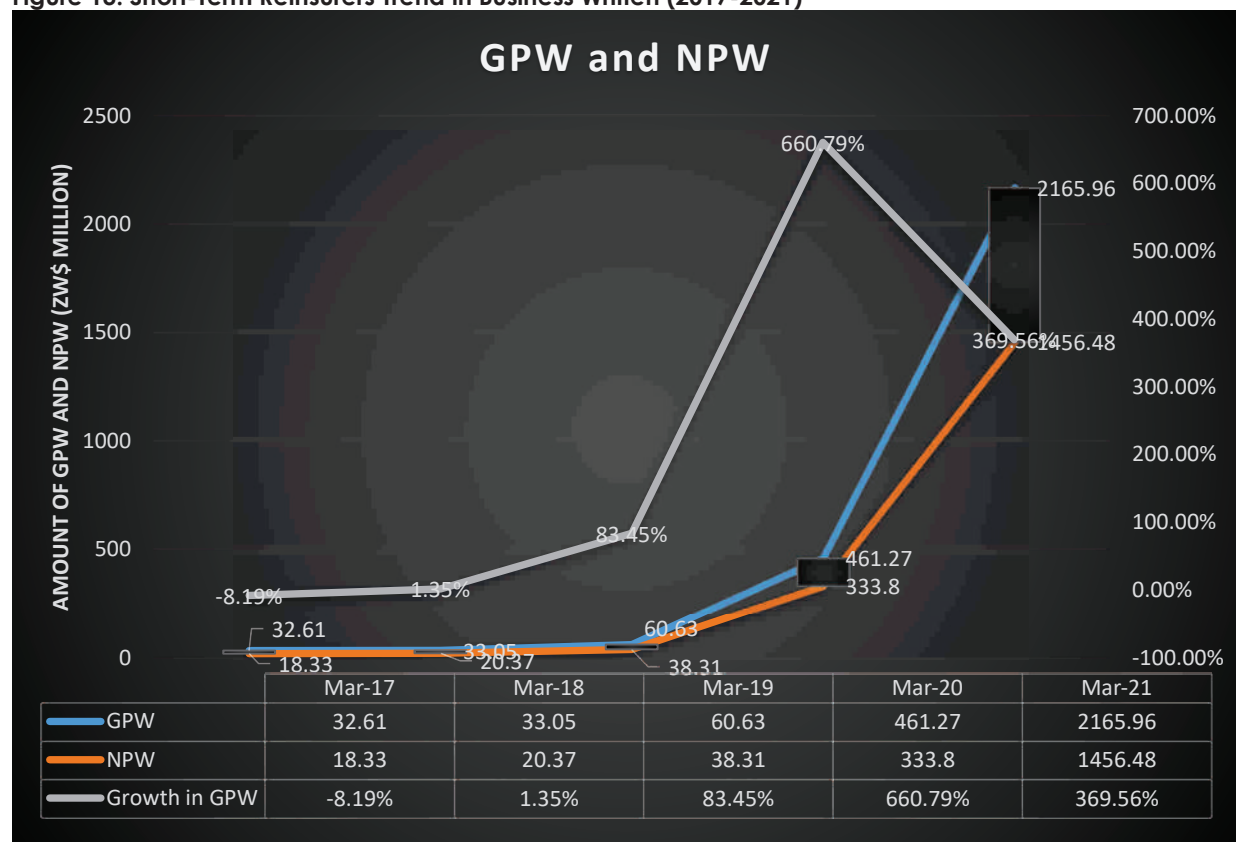

Please note that the figures for Zep-Re contained in this report are only for the institution's Regional Hub Office located in Zimbabwe.

Detailed statistics for all reinsurers are shown in Appendix 2A-C.

## Performance in Terms of Business Written

The total business written by short-term reinsurers increased by 369.56% in nominal terms from ZW\$461.27 million for the quarter ended 31 March 2020 to ZW\$2.17 billion for the period under review. The increase is in line with the 387.97% nominal growth in the business written by short-term insurers in the two comparative periods. Figure 13 below shows the trend in volume of business written by short-term reinsurers from 2017 to 2021:

**Figure 13: Short-Term Reinsurers Trend in Business Written (2017-2021)**

The significant increase in business written for the first quarter of 2021 is attributed to premium reviews in line with inflation developments in response to currency reforms. Table 7 below shows the percentage growth in GPW for different classes of business.

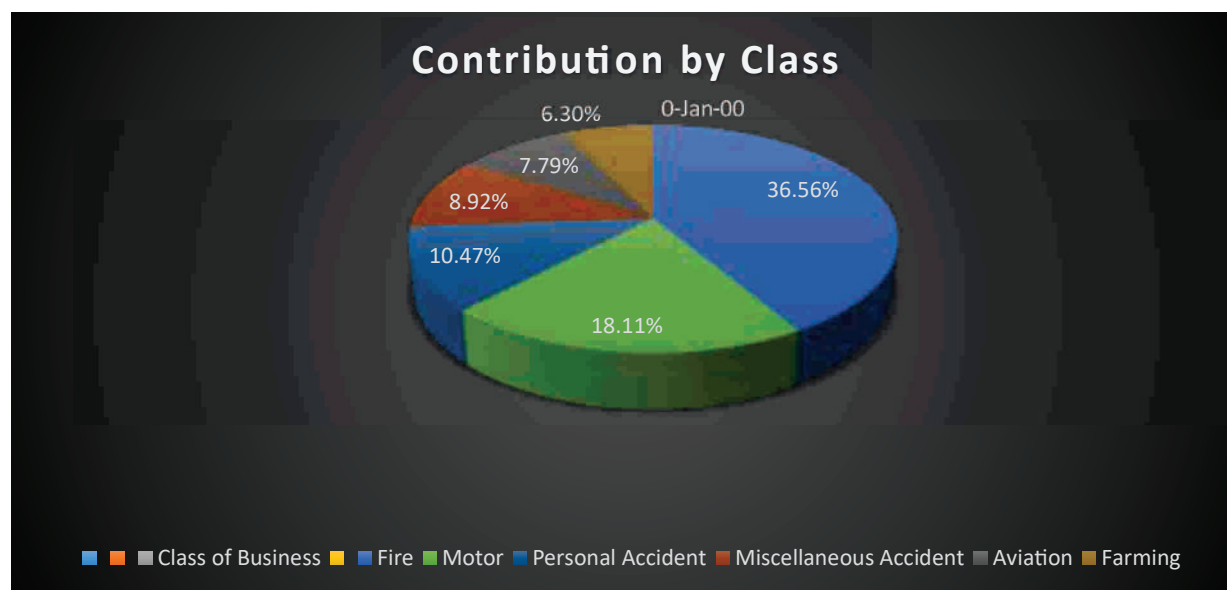

**Table 7 : Short-Term Reinsurers' GPW By Class of Business for the Quarter ending 31 March 2021.**

| Class of Business | Gross Premium Written (ZW\$ MILLION) |                       |                 | Nominal<br>% change | Inflation<br>adjusted<br>% change |

| Personal Accident | 52.50                                | 64.28                 | 218.93          | 317.02%             | 22.44%                            |
| Others            | 18.73                                | 2.87                  | 9.78            | -47.79%             | -84.67%                           |
| <b>Total</b>      | <b>461.27</b>                        | <b>635.92</b>         | <b>2,165.96</b> | <b>369.57%</b>      | <b>37.86%</b>                     |

As shown in Table 7 above, the Gross Premium Written for short-term reinsurers grew by 37.86% in real terms for quarter ended 31 March 2021. Only three classes of short-term reinsurance experienced a decrease in income.

Figure 14 below shows the contribution of GPW by class of business for short term reinsurers.

**Figure 14: Reinsurers GPW Contribution by Class of Business for the Quarter ending 31 March 2021.**

\*Other comprises of farming hire purchase, bonds/guarantee, health and liability insurance business.

Fire and motor classes of business were the major sources of reinsurance business in terms of GPW contributing 52.76% of the overall business written for the quarter ended 31 March 2021.

### **Foreign Currency Denominated Business**

GPW written in foreign currency for the quarter ended 31 March 2021 was US\$17.48 million as shown in Table 8 below. This amounted to 68.13% of the total GPW for the period under review.

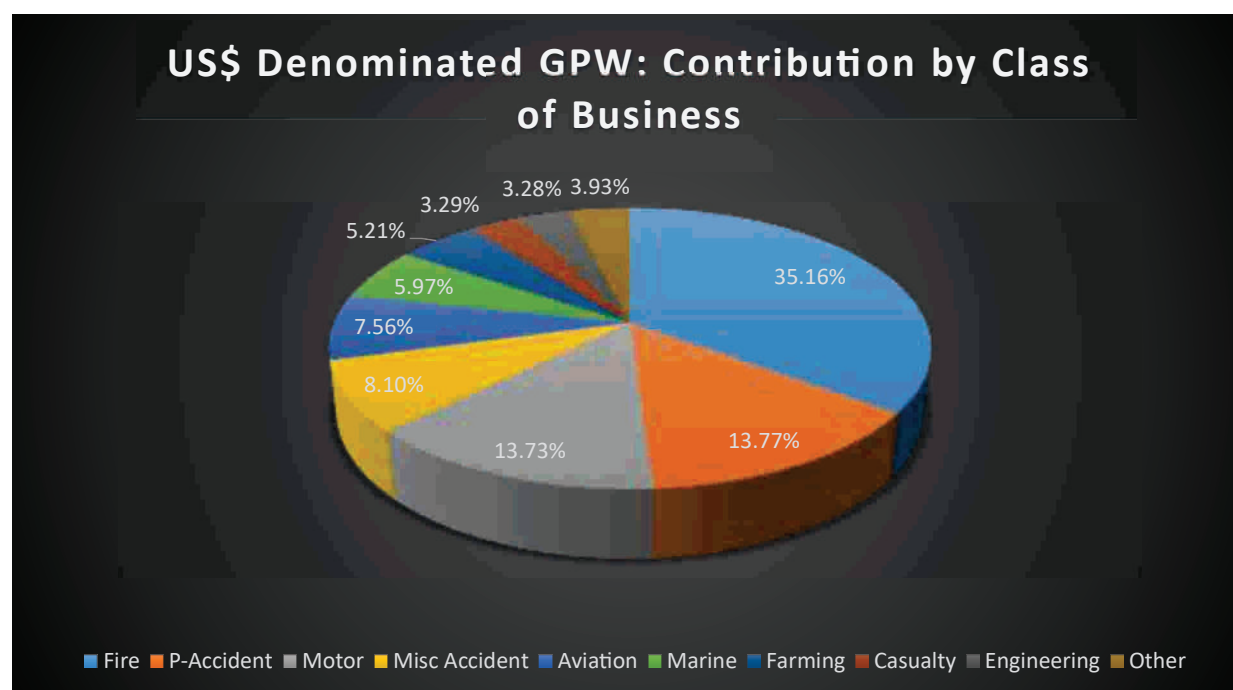

Table 8: Short-Term Reinsurers' USD GPW by Class of Business for the Quarter ending 31 March 2021.

| Class of Business | GPW<br>(US\$'000) |
|-------------------|-------------------|
| Aviation          | 1,321.00          |
| Bonds/Guarantee   | 82.95             |
| Casualty          | 574.35            |
| Engineering       | 574.08            |
| Farming           | 910.06            |
| Fire              | 6,147.65          |
| Health            | 143.67            |
| Hire Purchase     | 9.98              |
| Marine            | 1,043.61          |
| Misc Accident     | 1,416.66          |
| Motor             | 2,400.69          |
| P-Accident        | 2,408.25          |
| Liability         | 373.27            |
| Other             | 77.38             |
| <b>Total</b>      | <b>17,483.58</b>  |

Figure 15 below shows the contribution to foreign currency GPW for short-term reinsurers by class of business.

Figure 15: Contribution of Short- Term Reinsurers' USD GPW by Class of Business

Fire, personal accident and motor were the major contributors of foreign currency denominated business for short-term reinsurance, accounting for 62.66% of GPW for the quarter ended 31 March 2021.

## Capitalisation.

As at 31 March 2021, all the registered short-term reinsurers reported capital positions above the minimum capital requirement of ZW\$75 million including First Mutual Re which was undercapitalised as at 31 March 2020.

However, these reported capital positions were not adjusted in line with the provisions of Statutory Instrument (SI) 95 of 2017 which, among other things, discount non-permissible assets. The reported capital positions as at 31 March 2020 and 31 March 2021 for short-term reinsurers are shown in Table 9 below.

**Table 9: Reported Capital Positions for Short-Term Reinsurers**

| Name of Reinsurance Company | Reported Capital Position (ZW\$ MILLION) |                 |
|-----------------------------|------------------------------------------|-----------------|

### Key

|  |                                                     |
|--|-----------------------------------------------------|
|  | Above minimum capital requirement of ZW\$75 million |
|  | Below minimum capital requirement of ZW\$75 million |

The average solvency margin for short-term reinsurers was 255.15% as at 31 March 2021, which was slightly below 277.21% reported as at 31 March 2020. All the reinsurers were compliant with the minimum solvency margin of 25% as stipulated in Section 24(1a) (ii) of the Insurance Act [Chapter 24:07]. The solvency margin for individual reinsurers as at 31 March 2021 ranged from 121.36% to 509.33% as shown in appendix 2C.

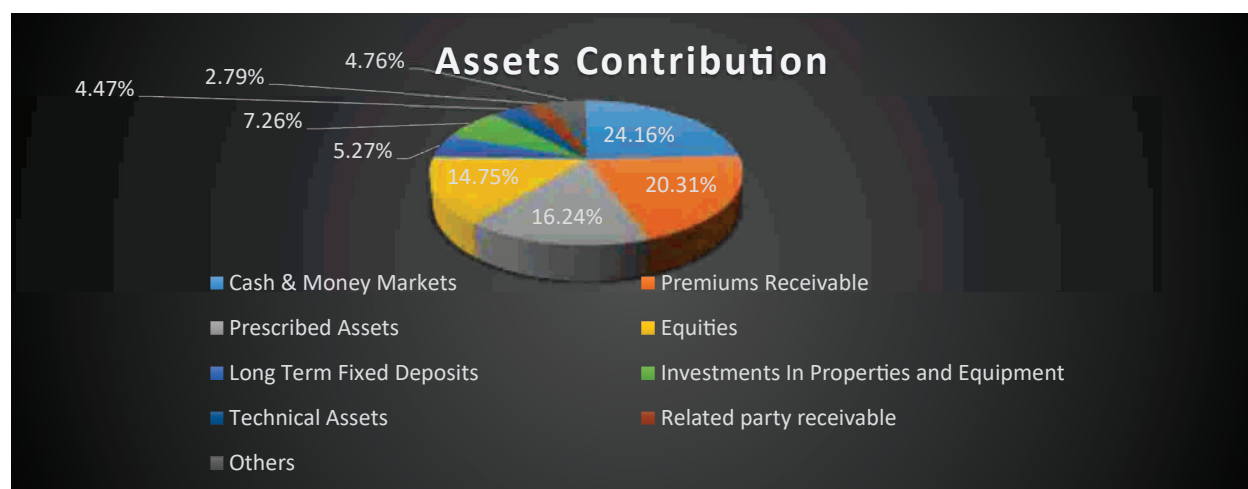

## Asset Quality

The asset base for short-term reinsurers increased by 18.59% from ZW\$6.40 billion reported in December 2020 to ZW\$7.59 billion as at March 2021. Investments in

prescribed assets slightly improved from ZW\$1.08 billion as at 31 March 2020 to ZW\$1.23 billion as at 31 March 2021. However, only three out of eight reinsurers were compliant with the requisite prescribed asset threshold of 10%.

Premium receivables rose from ZW\$1.40 billion as at 31 December 2020 to ZW\$1.54 billion as at 31 March 2021, indicating a percentage change of 10%. The increase in premium receivables continues to be a huge challenge and the Commission encourages players to ensure that they continuously design effective credit control systems to manage credit risk. It is the Commission's expectation that deliberations on the No Premium No Cover issue will provide a lasting solution to the challenge of premium debtors especially to reinsurance business. The contribution of various asset classes to total assets as at 31 March 2021 is shown in Figure 16 below:

**Figure 16: Short-Term Reinsurers' Total Assets: Contribution by Asset Class**

\*Others comprise of investment in associated companies, intangible assets and other receivables.

Cash & money market instruments, premiums receivables and prescribed assets were the major asset classes making up 60.71% of total assets.

### Actuarial Matters

Total technical liabilities increased from ZW\$1.85 billion as at 31 December 2020 to ZW\$2.25 billion as at 31 March 2021. Unearned Premium Reserves, which amounted to ZW\$1.06 billion accounted for 46.94% of the total technical liabilities.

## **Retrocession**

The sector's average retention ratio was 67.24% for the quarter ended 31 March 2021 compared to 72.37% that was reported for the comparative period in 2020. This reflects a slight decrease in risk appetite by the short-term reinsurance companies. The individual reinsurers' reported retention ratios ranged from 44.46% to 89.94% for the period under review.

## **Earnings**

Total profit after tax for short-term reinsurers increased from ZW\$250.36 million for the period ended 31 March 2020 to ZW\$412.26 million for the period ended 31 March 2021. The significant contributor to the increase in profit were unrealised gains from assets revaluations

The average underwriting margin for the short-term reinsurers was 5.24%, with two out of the eight short term reinsurers having underwriting losses of -20.45% and -44.48%. The low underwriting margin is a cause for concern as it shows that the reinsurers had high underwriting risk as the underwriting profits are low.

The average net commission ratio was 33.37% for the period under review compared to 27.09% for the first quarter of 2020. This shows that the average commission paid by short-term reinsurers increased when compared to the same period in 2020. The highest net commission ratio paid by a short-term reinsurer for the period under review was 44.24% of earned premiums. (For individual short-term insurers' net commission ratios, refer to Appendix 2C).

The average combined ratio for the short-term reinsurers increased from 94.03% for the quarter ended 31 March 2020 to 100.76% for the period under review. The increase indicates low profitability by the sector. The combined ratio and other ratios that relate to profitability for short-term reinsurers is shown in Appendix 2C under earnings.

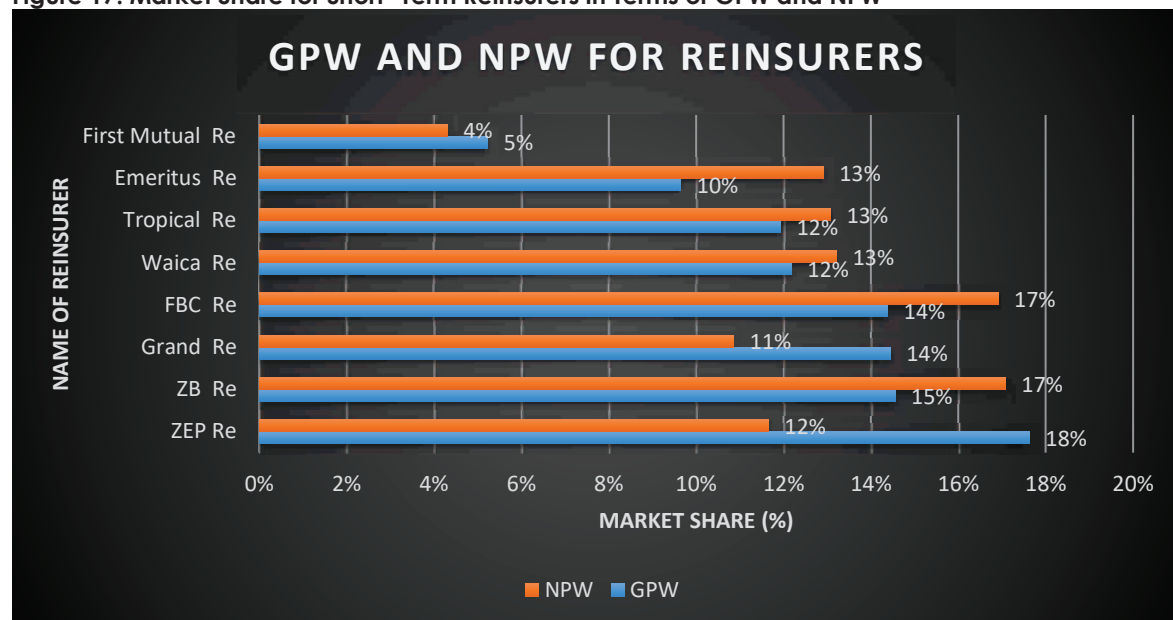

## Liquidity

Liquid assets held by short-term reinsurers increased from ZW\$1.63 billion as at 31 December 2020 to ZW\$1.83 billion as at 31 March 2021. The average acid test ratio for individual short-term reinsurers fell from 76.76% as at 31 March 2020 to 47.30% as at 31 March 2021. The significant drop in the average acid test ratio is a cause for concern as this indicates an increase in liquidity risk for short term reinsurers. The acid test ratios for short-term reinsurers are shown on Appendix 2C under liquidity.

## Market Share for Reinsurers

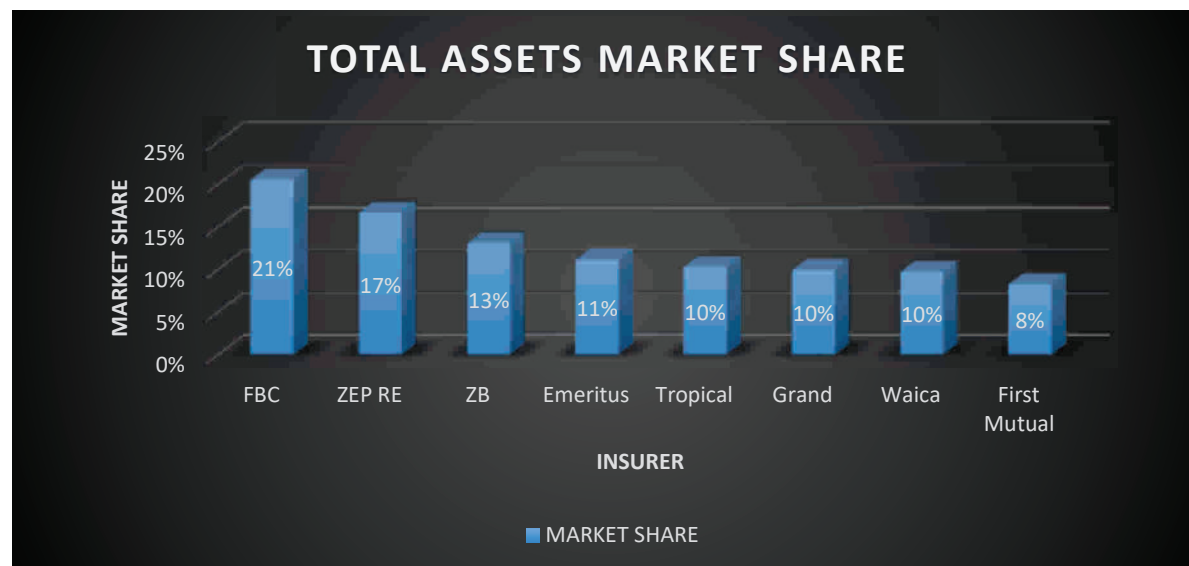

As shown in Figure 17 below, the market leaders in terms of GPW were Zep Re, ZB Re, Grand Re and FBC Re. These reinsurers controlled 61% of Gross Premium Written (GPW) for the three months ended 31 March 2021. The market leaders in terms Net Premium Written (NPW) were ZB Re, and FBC Re who collectively controlled 34% of the NPW for the three months ended 31 March 2021.

Figure 17: Market Share for Short -Term Reinsurers in Terms of GPW and NPW

In terms of market share based on total assets, FBC Re, Zep-Re and ZB Re were the market leaders for the quarter ended 31 March 2021, with a combined market share of 21% as depicted in Figure 18.

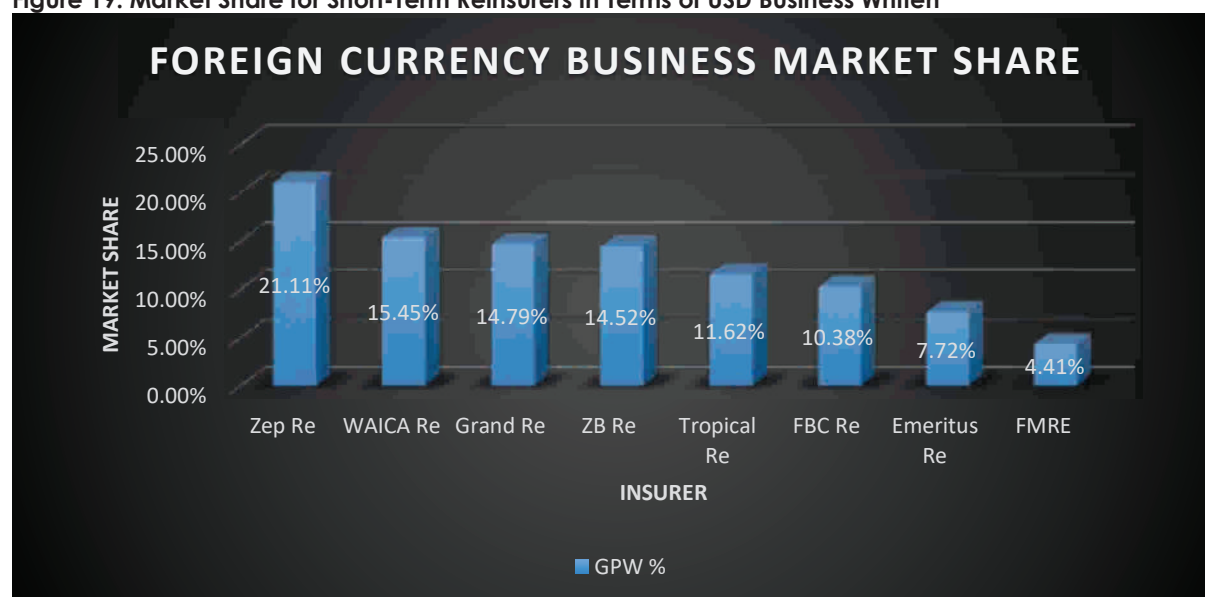

**Figure 18: Market Share for Short-Term Reinsurers in Terms of Total Assets**

### Foreign Currency Denominated Business

The market leaders in terms of foreign currency denominated GPW were Zep Re, Waica Re and Grand Re. These reinsurers controlled 51.3% of Gross Premium Written (GPW) for the quarter ended 31 March 2021 as shown in Figure 19 below.

**Figure 19: Market Share for Short-Term Reinsurers in Terms of USD Business Written**

## 6. Microinsurance Companies

There are two micro-insurance companies registered with IPEC, which are Coverlink Microinsurance and Golden Knot Microinsurance.

### Business Written

The total Gross Premium Written by the micro-insurers in the quarter ended 31 March 2021 is ZW\$91.48 million. Foreign currency denominated business written by Coverlink amounted to US\$239 and Golden Knot did not write any foreign currency denominated business during the quarter ended 31 March 2021.

### Capitalisation

As shown in table 10 below, both micro-insurers were compliant with the minimum capital requirement of ZW\$4.5 million as at 31 March 2021.

Table 10: Reported Capital Positions for Micro-insurers

| Microinsurer | Reported Capital Position (ZW\$ MILLION) |
|--------------|------------------------------------------|
|              | 31-03-21                                 |
| Coverlink    | 129.08                                   |
| Golden Knot  | 24.86                                    |
| Total        | 153.94                                   |

### Asset Quality

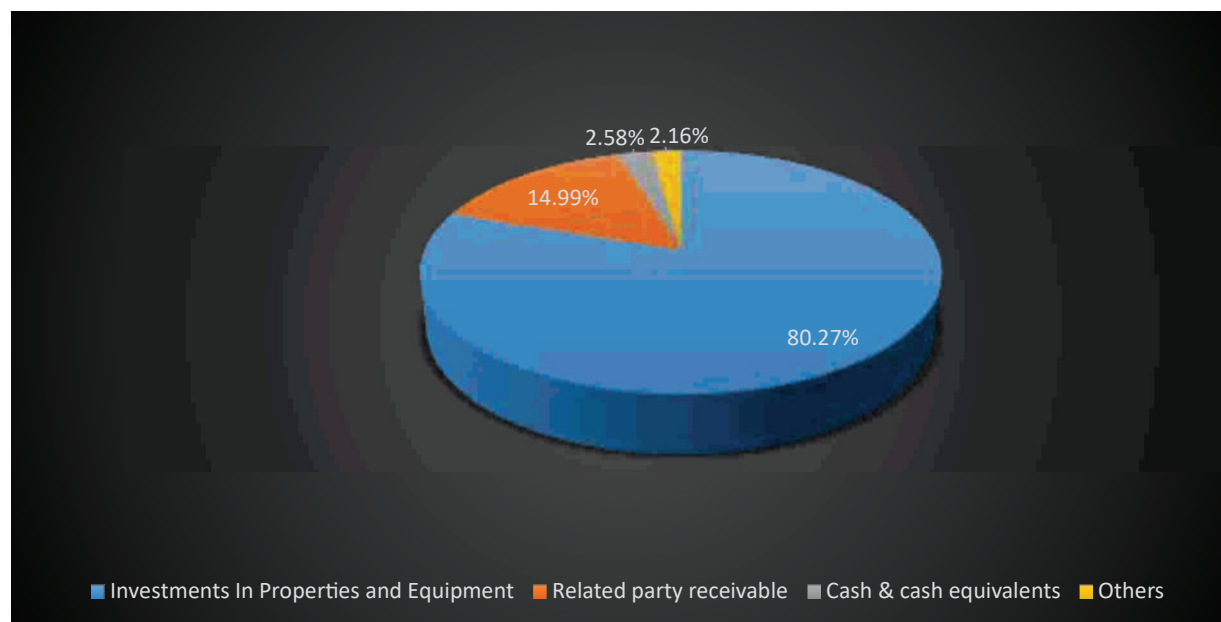

The Micro-insurers reported a total asset base of ZW\$205.47 million as at 31 March 2021, which is an increase of 56.85% from the ZW\$131.00 million reported as at 31 December 2020. Both micro-insurers had no investments in prescribed assets as at 31 March 2021.

Premium receivables significantly decreased from ZW\$17.63 million as at 31 December 2020 to ZW\$2.01 million as at 31 March 2021, indicating a percentage

change of 88.60%. The contribution of various asset classes to total assets as at 31 March 2021 is shown in Figure 20 below:

**Figure 20: Microinsurance: Breakdown to Total Assets by class**

Investments in properties and equipment was the major asset class, constituting 80.27% of total assets.

## Earnings

The micro-insurers recorded total profit after tax of ZW\$33.79 million for the period under review.

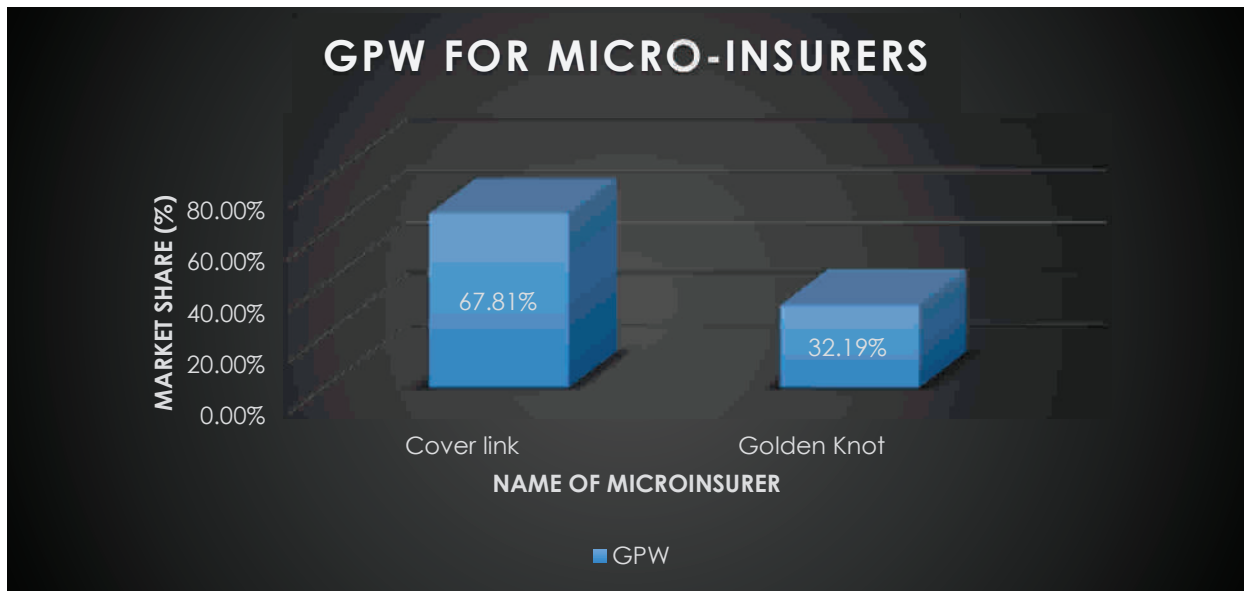

## Liquidity

The micro-insurers cash and near cash assets amounted to ZW\$5.29 million and the acid test ratio was 15.82% as at 31 March 2021 which was a decrease from ZW\$9.91 million and 69.27% as at 31 December 2020. The low liquidity levels show that the micro-insurers may face difficulties in meeting their short-term financial obligations.

## Market Share for Micro-Insurers

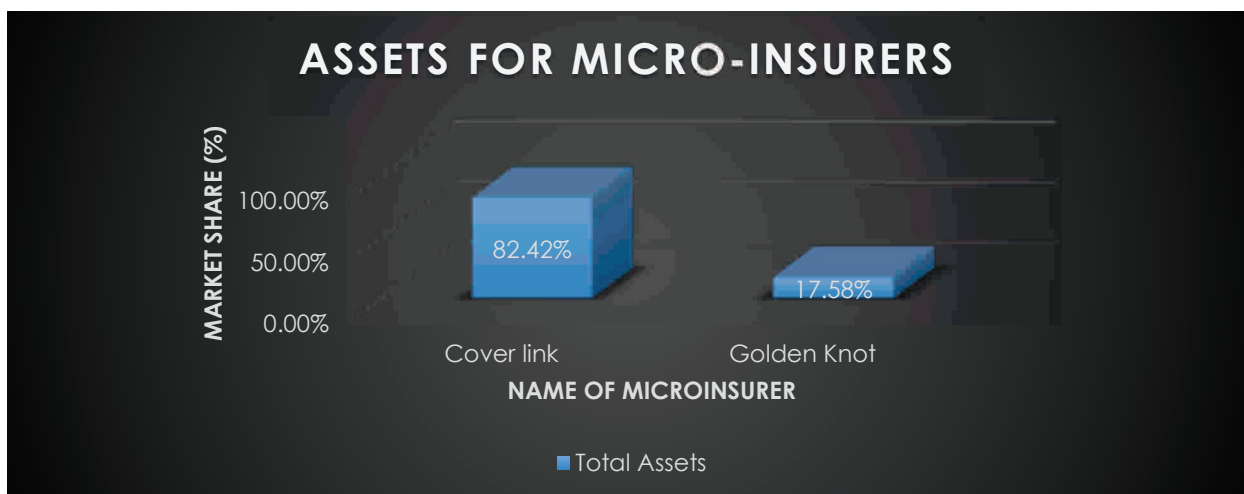

As shown in Figure 21 below, the market leader in terms of GPW was Coverlink which controlled 67.81% of Gross Premium Written (GPW) for the quarter ended 31 March 2021.

Figure 21: Market Share for Micro-insurers in Terms of GPW

In terms of market share based on total assets, Coverlink was the market leader for the quarter ended 31 March 2021, with a market share of 82.42% as depicted in Figure 22.

Figure 22: Market Share for Micro-insurers in Terms of Total Assets

## 7. Insurance Brokers

Please refer to Appendix 3A-B for detailed statistics for each of the short-term insurers.

### **Introduction**

The following is an analysis of the business performance of insurance brokers for the quarter ended March 31, 2021. This report includes statistical information for insurance brokers who filed returns with the Commission. Out of the 32 brokers who were registered by 31 December 2020, Ambassador Insurance Broker was de-registered during the first quarter of 2021. Out of the 31 remaining registered brokers, 30 submitted their returns on or before the deadline.

### **Business Written by Insurance Brokers**

Premium income by insurance brokers increased by 426% in nominal terms in the first quarter ended March 31, 2021, compared to the same period in 2020. This means that 413% of the increased business volumes reported by insurance brokers was primarily driven by inflationary trends, which remained persistently high during the review period.

**Table 11: Key indicators for the business written by the insurance brokers for the quarter ended March 2021**

| <b>Indicator</b>         | <b>31-Mar-20<br/>(ZWS) 000</b> | <b>31-Mar-21<br/>(ZWS) 000</b> | <b>Nominal<br/>change</b> |

| <b>Profit After Tax</b>  | <b>13,242</b>                  | <b>102,434</b>                 | <b>674%</b>               |

## **Capitalisation**

Despite the negative impact of the Covid-19 pandemic on overall economic performance, the capital positions of all insurance brokers improved significantly. As of 31 March 2021, twenty-nine (29) of the thirty (30) brokers who submitted returns reported capital positions in excess of the \$1.5 million minimum capital requirement as shown in Table 12 below.

**Table 12: Capital positions for insurance brokers for the quarter ended March 2021**

| <b>Name of Broker</b>                | <b>31-Mar-21 (ZW\$ 000)</b> | <b>31-Mar-20 (ZW\$) 000</b> |

|  | Above minimum capital requirement of \$1.5 million |

## Assets Distribution

The majority of assets were held in land and buildings during the quarter under review, as shown in the figure below.

**Figure 23: Asset distribution for insurance brokers for the quarter ended March 2021**

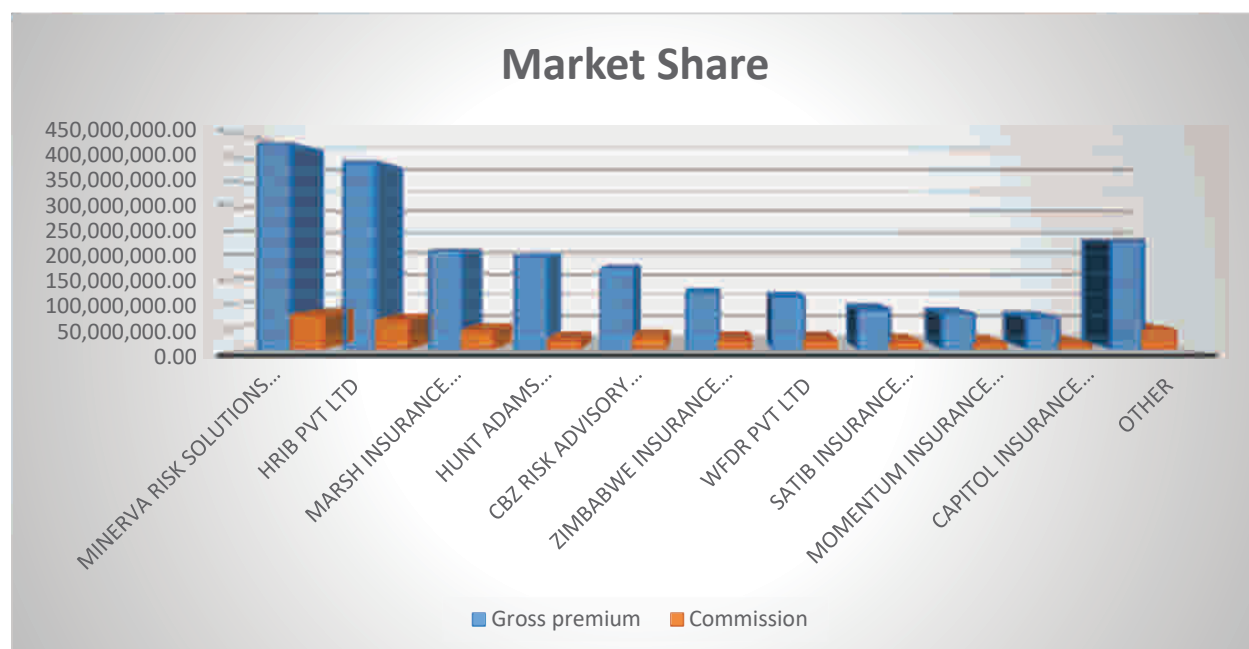

## Earnings

The insurance brokers reported a combined profit after tax of ZW\$102 million for the first quarter ended 31 March 2021, representing a 674% annual nominal increase over the previous first quarter of March 2020. Premium adjustments tracking inflation developments were the primary contributors to significant increases in profit reported by brokers during the review period.

## Market Share for Insurance Brokers in terms of Gross Premium and Commission

The table below depicts the distribution of market share among insurance brokers for the quarter ending March 31, 2021. In terms of gross premium written, Minerva, HRIB, Marsh insurance brokers, Hunt Adams and CBZ Risk Advisory dominated the market during the period under review.

**Figure 24: Market share for insurance brokers for the quarter ended March 2021**

### Foreign Currency Business by Insurance Brokers

Only seventeen (17) out of the thirty-one (31) registered insurance brokers submitted USD income returns. The seventeen short-term insurance brokers wrote total Gross Premiums (GPW) amounting to US\$7.85 million for the quarter ended 31 March 2021. The total Commission translated to an industry average commission rate of 16% for the first quarter. Table 13 below shows the USD income statement for the seventeen short-term insurance brokers who lodged their USD returns as at 31 March 2021.

Table 13: Short-term Insurance Brokers USD-Denominated Income Statement for the quarter-ended 31 March 2021

| RIB                            | 3,960,247   | 405,578    |

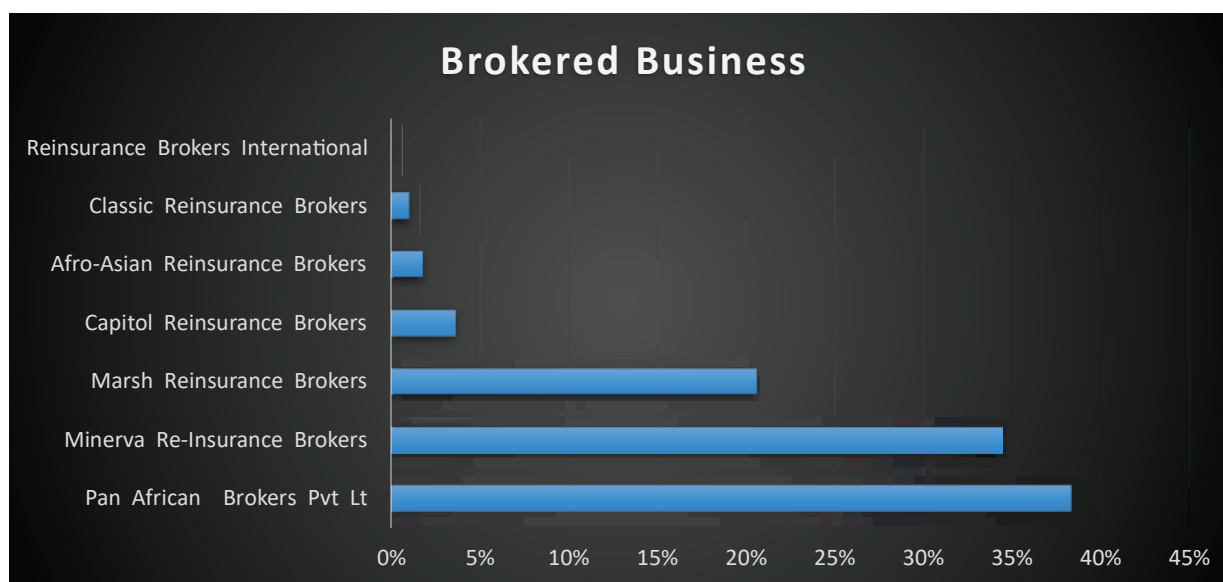

**Key:**

|  |                                                                         |
|--|-------------------------------------------------------------------------|
|  | Capitalisation level above minimum capital requirement of \$1,5 Million |
|  | Capitalisation level below minimum capital requirement of \$1,5 Million |

### Market Share for Reinsurance Brokers in terms of Brokered Business

The figure below shows the total gross premium written and market share for reinsurance brokers as at March 31, 2021.

**Figure 25: Market share distribution for reinsurance brokers for the quarter ended March 2021**

## Reinsurance Brokers

Only one reinsurance broker submitted foreign currency denominated returns in line with Circular Number 15 of 2020, which provides for the submission of information on Foreign Currency Denominated Business by registered insurance entities.

The reinsurance broker reported USD5.47 million in gross premium for the first quarter of 2021. The commission ratio for reinsurance broker was 18.25%. Table 16 below shows the key indicators of business written by reinsurance brokers.

**Table 16: Reinsurance Brokers USD-Denominated Income Statement quarter ended March 2021**

| Indicator                | 31-Mar-2021 (\$) |
|--------------------------|------------------|
| Premium Written          | 5,462,036        |
| Premium Payable          | 4,465,068        |
| Brokerage Commission     | 996,968          |
| Commission Paid          | 715,581          |
| Net Brokerage Commission | 281,387          |
| Other Income             | 1,433            |
| Operating Expenses       | 53,997           |
| Profit Before Tax        | 228,823          |
| Taxation                 | 56,634           |
| Profit After Tax         | 172,190          |

## **Complaints handled**

The commission handled eight (8) complaints against short-term insurers during the period under review, seven (7) of which were resolved while one (1) was still under investigation.

The major source of complaints was the delay in settlement of motor claims, which accounted for 50% of the complaints, followed by disputes on USD-denominated policies and repudiation of claims, both of which were at 25% each.

The delay in settlement of claims was attributed to investigations by the insurers where they suspected fraudulent claims or where there was insufficient documentation to enable timeous claim settlement.

With respect to repudiation of claims, this was attributed to the fact that the assets in question were not covered at the time of the losses.
