SHORT TERM REPORT

**FOR THE THIRD QUARTER
ENDED 30 SEPTEMBER 2021**

DISCLAIMER

the Insurance and Pensions Commission (IPEC), solely for informative purposes to the insurance sector stakeholders. The report may not be reproduced, redistributed, communicated to a third party, or relied upon by any other person for any other purpose without the Commission's prior written consent. The Commission does not accept any liability if this report is used for any other purposes other than the above-mentioned intended purpose.

This report relates to short term insurance business written by short term insurers, short term reinsurers, brokers, broker reinsurers and micro-insurers.

Growth referred to in this report is nominal growth unless stated otherwise.

* Income statement figures were adjusted using year-on-year inflation of 51.5 % reported for the month of September 2021. Source:

<https://www.rbz.co.zw/index.php/research/markets/inflation>

**Balance sheet figures were not adjusted due to the unavailability of quarterly inflation figures. Therefore, balance sheet figures are compared on a nominal basis.

SECTION A

EXECUTIVE SUMMARY

1. Executive Summary

The report provides an analysis of the performance of the short-term insurance industry, key economic indicators, investment markets and highlights of the Commission's regulatory activities for the nine months ended 30 September 2021.

All short-term insurers and reinsurers managed to submit their third quarter 2021 returns on the IPEC online portal and this is commendable.

Total Gross Premium Written (GPW) by short-term insurers increased nominally by 205.6% from ZW\$4.63 billion reported in September 2020 to ZW\$14.14 billion reported the comparative period in 2021. The total business written by short-term reinsurers amounted to ZW\$8.13 billion reflecting a 295% nominal increase from ZW\$2.06 billion reported the comparative period in 2020.

Total assets reported by short-term insurers increased by 7.96% in nominal terms from ZW\$13.95 billion reported as at 30 June 2021 to ZW\$15.06 billion as at 30 September 2021. Investments in prescribed assets by short-term insurers decreased by 54.22% from ZW\$482.22 million as at 30 June 2021 to ZW\$220.75 million as at 30 September 2021. As at 30 September 2021, none of the short-term insurers were compliant with the minimum prescribed asset ratio of 10%. However, all eighteen (18) insurers reported capital positions above the minimum capital requirement (MCR) of ZW\$37.5 million as at 30 September 2021.

Short-term reinsurers had an asset base of ZW\$11.06 billion as at 30 September 2021, reflecting a 16.30% nominal increase from the ZW\$9.51 billion reported as at 30 June 2021. Investments in prescribed assets by short-term reinsurers declined by 9.21% from ZW\$1.41 billion as at 30 June 2021 to ZW\$1.28 billion as at 30 September 2021. Three (3) out of the eight (8) short-term reinsurers were compliant with the minimum prescribed asset ratio of 10%. As at 30 September

2021, all the registered short-term reinsurers reported capital positions above the minimum capital requirement of ZW\$75 million.

The total business written by micro-insurers amounted to ZW\$393.24 million for the period under review. The micro-insurers had total assets of ZW\$328.82 million as at 30 September 2021. Both micro-insurers were compliant with the minimum capital requirement of ZW\$4.5 million.

Brokers wrote a total of ZW\$7.5 billion in GPW registering an increase of 214% in nominal terms during the half year ended 30 September 2021, compared to ZW\$2.4 billion for the same period in 2020. The broking industry held total assets amounting to ZW\$2.3 billion as at 30 September 2021.

SECTION B

ABOUT THE COMMISSION

2. About the Commission

The Insurance and Pensions Commission (IPEC) is a statutory body mandated with regulating, supervising and developing the insurance and pensions industry for the protection of policyholders and pension scheme members in Zimbabwe. This report outlines short-term sector developments and IPEC's various activities in the short-term sector consistent with its statutory mandate during the nine months ended 30 September 2021.

Term of Reference

The activities of the Commission are guided by the following Acts and their Regulations:

- Insurance and pensions Commission Act [Chapter 24:21];
- Pension and Provident Funds Act [Chapter 24:09];
- Insurance Act [Chapter 24:07];
- Money Laundering and Proceeds of Crime Act [Chapter 09:24];
- Finance Act [Chapter 23:04];
- Public Entities and Corporate Governance Act [Chapter 10:31];
- Public Finance Management Act [Chapter 22:19]; and
- Public Procurement and Disposal of Public Assets Act [Chapter 22:23]

3. Architecture of the Short-Term Insurance Industry

There were nine hundred and forty-one (941) registered entities/persons in the short-term insurance industry as at 30 September 2021. The architecture of the industry is as shown in Table 1:

Table 1: Architecture of the Short-Term Insurance Industry

Type of institution	Number of registered entities/ Persons as at	
	30-Sept-2021	30-June-2021
Insurance Companies	19	18
Microinsurance Companies	4	2
Reinsurance Companies	8	8
Underwriting Management Entities	2	2
Insurance Brokers	30	30
Reinsurance Brokers	8	7
Loss Assessors	49	36
Multiple Agents	10	8
Corporate Agents	160	157
Sole Agents	651	651
Total	941	920

* FBC Insurance Company is a composite insurer, however the figures in this report pertain to short-term business only.

**The number of short-term insurers increased by one however the figures in the report pertain to eighteen insurers, the newly registered entities have not yet started operation.

***Five reinsurers namely Emeritus Reinsurance Company, FBC Reinsurance Company, First Mutual Reinsurance Company, Grand Reinsurance Company and Zep Re are composite reinsurers who also write life business. However, the figures in this report pertain to their short-term business only.

The model appears to be a miniature city or industrial site with various structures. The entire image is overlaid with a semi-transparent blue filter. The text 'SECTION C' is centered in the middle of the image in a large, white, sans-serif font.

SECTION C

ECONOMIC DEVELOPMENTS

4. ECONOMIC DEVELOPMENTS

4.1 COVID-19 Updates

The global cumulative number of Covid-19 cases stood at 233.2 million as at 30 September 2021, up from a cumulative total of 180 million cases recorded as at 30 June 2021. The death toll rose close to 5 million in the third quarter of 2021, up from 4 million recorded as at 30 June 2021 (WHO, 2021).

By the end of the third quarter, about 2.5% of the Sub-Saharan population was fully vaccinated. Regrettably, this is well below the level needed to reach herd immunity and far short of vaccination rates seen in advanced economies (60%) and other emerging markets and developing economies (35%) (IMF 2021). The IMF has a proposed plan to vaccinate at least 40% of the population in every country by the end of 2021 and 70% by mid-2022, alongside ensuring adequate diagnostics and therapeutics (Agarwal and Gopinath 2021). The plan is jointly endorsed by the World Health Organization, the World Bank, and the World Trade Organization and is at an estimated cost of about \$50 billion. There is an urgent call for countries with high vaccination levels to donate vaccines. To reach the 40% goal by 31 December 2021, the G20/G7 countries are expected, among other measures to: (i) fulfil existing donations to COVAX of about 550 million doses, (ii) swap vaccine delivery schedules with COVAX to bring forward 400 million doses by year end, (iii) ensure AVAT can deliver over 70 million Johnson and Johnson doses also by year end and (iv) eliminate trade and regulatory barriers to trade of vaccine raw materials and finished doses as well as other Covid-19 health equipment.

Zimbabwe had a cumulative total of 130,820 Covid-19 cases as at 30 September 2021, up from 49,864 cases recorded as at 30 June 2021. A total of 2, 271, 135 people, which translate to 22.7% of the targeted population had been fully vaccinated as at 30 September 2021 and this is significantly higher than 777,161 people fully vaccinated as at 30 June 2021. The national recovery

rate at the end of the third quarter was 94%, which is 16 percentage points higher than the end of the second quarter recovery rate of 78%.

4.2 Covid-19 Impact on Businesses at Global and National Level

Global tourism remains subdued, with travel restrictions depressing cross-border tourist activity. The tourism-dependent countries in the Sub-Saharan region such as Cabo Verde, Mauritius, and Seychelles remain vulnerable to the international travel and tourism shocks emanating from the pandemic. In the case of Zimbabwe, however, the level of regional and domestic tourism activity is likely to improve following the relaxation of Covid-19 restrictions owing to improved vaccination levels during the quarter under review. As a result, the Victoria Falls and Kazungula border posts were re-opened, and the ban on sit-in patrons for restaurants was lifted, allowing them to re-open for fully vaccinated sit-in patrons.

Activities in sectors such as mining and agriculture were not severely affected by Covid-19 lockdown measures, as they were categorised as essential services. The construction sector also remained strong under Covid-19, on the backdrop of Government projects such as, institutional accommodation for the public sector, roads rehabilitation, and dam construction.

Capacity utilisation in the manufacturing sector increased from 54% reported in the second quarter of 2021 to 58%, following the opening up of the economy owing to improved Covid-19 vaccination uptake. The increased capacity was also supported by improved access to foreign currency and output in the agricultural sector.

Covid-19 also impacted the insurance value chain in Zimbabwe as regulated entities embraced remote-working. The transition to remote working led to the adoption of digital technologies, which increased data security and privacy risks in the insurance sector.

4.3 Global and Regional Growth Prospects

The global economic recovery has weakened, hobbled by the resurging pandemic. IMF projected the global economy to grow by 5.9% in 2021 and 4.9% in 2022, while the World Bank's global growth forecast is 2.4% in 2021 and 4.9% in 2022. The downward revision for 2021 reflects a downgrade for advanced economies and low-income countries.

The advanced economies' growth rate is forecast to reach 5.2% in 2021 and 4.5% in 2022. The growth prospects for 2021 was revised downwards by 0.4 percentage points compared to the July 2021 forecast, at the backdrop of inventory drawdowns caused by supply chain disruptions and shortages of key manufacturing inputs.

IMF's 2021 growth forecast for the Emerging Markets and Developing Economies (EMDEs) was reviewed upwards by 0.1 percentage points from the July 2021 projections to 6.4%, attributed to improved prices for commodity exports. Table 1 below, summarises the world economic outlook projections.

Table 2: World Economic Outlook Projections

	2020	2021*	2022*
World Output	-3.3	5.9	4.9
Advanced Economies	-4.7	5.2	4.5
USA	-3.5	6.0	5.2
Euro Area	-6.6	5.0	4.3
Emerging Markets and Developing Economies	-2.2	6.4	5.1
China	2.3	8.1	5.7
Sub-Saharan Africa	-1.9	3.7	3.8
Nigeria	-1.8	2.6	2.7
South Africa	- 7.0	5.0	2.2
Zimbabwe	-4.1	5.1	3.1

Source: October 2021 World Economic Outlook Update, IMF. * Projections

Sub-Saharan Africa is set to grow by 3.7% in 2021 and 3.8% in 2022, supported by increased agricultural production, improvement in global trade, and commodity prices.

4.4 Domestic Economic Performance

The Government's growth forecast of 7.8% in 2021 and 5.4% in 2022, will be supported by:-

- i. Continued stable macroeconomic environment through prudent fiscal and monetary policies;
- ii. A bumper agricultural output on the back of relatively good 2020/2021 and 2021/2022 seasonal rains;
- iii. A global commodity price boom; and
- iv. A successful Covid-19 vaccination programme among others.

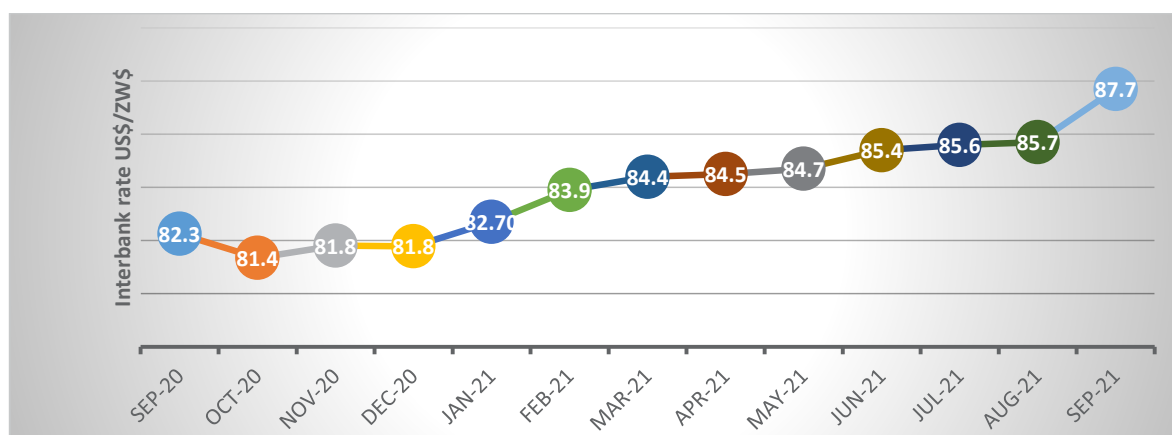

The country's efforts to stabilise the local currency, lower inflation, and contain budget deficits will also enhance domestic growth.

The IMF projects a growth rate of 5.1% in 2021 and 3.1% in 2022 for Zimbabwe, largely supported by increased agricultural output, energy production and manufacturing, and construction activities. On the other hand, the World Bank forecasts a conservative growth of 2.9% in 2021 and a more significant growth of 5.1% in 2022.

4.5 Exchange Rate Movements

The Zimbabwe dollar (ZW\$) remained relatively stable against the US dollar during the third quarter, sliding by 2.7%, from an average of US\$1:ZW\$85.4 recorded at the end of the second quarter to US\$1:ZW\$87.7 recorded at the end of the third quarter of 2021. However, the parallel market exchange rate increased from about US\$1: ZW\$140 as at 30 June 2021 to about US\$1: ZW\$160 as at 30 September 2021. The foreign currency auction system is contributing immensely to bringing transparency in the trading of foreign currency, thus fostering stability in the exchange rate and engendering price stability. The interbank exchange rate movements during the period of September 2020 to September 2021 are illustrated in Figure 1.

Figure 1: Interbank Exchange Rate September 2020 to September 2021 (US\$/ZW\$) – End of Period

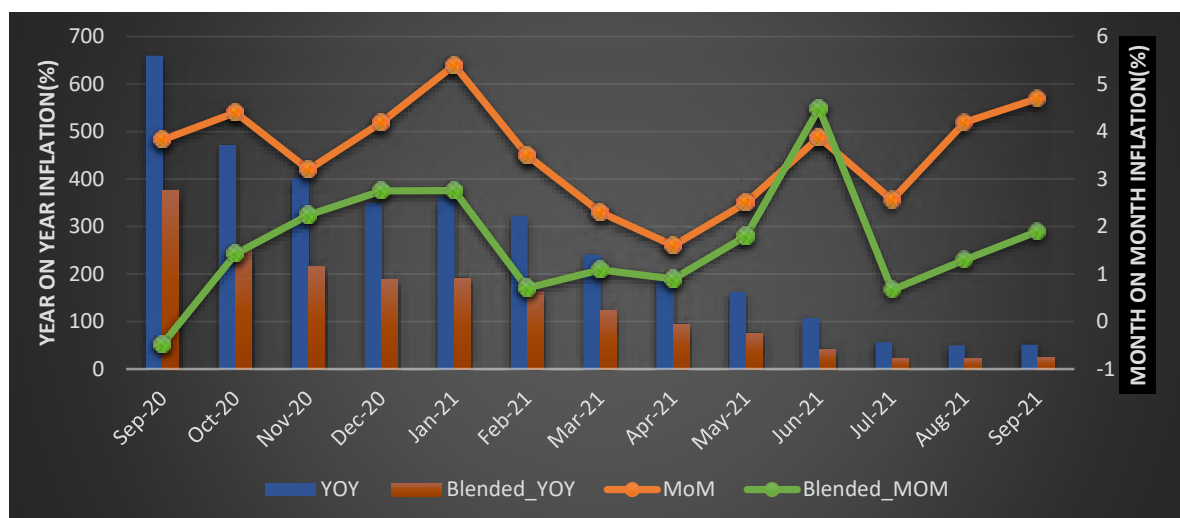

Source: Reserve Bank of Zimbabwe

4.6 Inflation Developments

According to the Zimbabwe National Statistics Agency, the annual headline inflation decelerated from 106.64% registered in June 2021 to 51.50% recorded at the end of the third quarter of 2021. A combination of tight monetary policy, non-monetisation of fiscal deficits, and fiscal policy consolidation measures implemented by the Government to date, has contributed to a sustained decline in annual inflation. Going forward, the Government seeks to ensure inflation is maintained within the SADC macroeconomic convergence benchmark of 3-7%.

The month-on-month inflation rose to 4.7% in the third quarter, from 3.88% recorded at the end of the second quarter of 2021 (ZIMSTAT, 2021). The inflationary pressure emanated from an increase in international food and oil prices and indexation of prices of goods and services to parallel market exchange rates. Figure 2 illustrates the inflation profile between September 2020 and September 2021.

Figure 2: Inflation profile (%), September 2020 – September 2021

Source: Zimbabwe National Statistics Agency

The slowing down of annual inflation enhances investor confidence in the economy. The insurance and pensions industry continues to be heavily invested in investment property and quoted equities, as a way of hedging against inflation and preserving value. Therefore, the downward trend is a welcome development.

4.7 Zimbabwe Stock Exchange Performance Highlights

The Old Mutual Zimbabwe's Stock Exchange Top 10 Exchange Traded Funds (ETF) is a development that provides the platform for the insurance and pensions industry to diversify its investment portfolio. According to the rebalancing that was done by the Zimbabwe Stock Exchange on 30 September 2021, Delta Corporation Limited (21.15%) has the highest ETF weights in terms of shares that are held by the Old Mutual ZSE Top 10 ETF followed by Econet Wireless Zimbabwe Limited (19.81%), and Cassava SmarTech Zimbabwe Limited (11.98%).

Bullish sentiments characterised the Zimbabwe Stock Exchange (ZSE), during the third quarter of 2021. Resultantly, major indices increased except the mining index. The All-Share, Top 10, and Medium Cap gained 38.50%, 53.98%, and 19.12% to close at 8580.16 points, 4857.20 points, and 20599.24 points,

respectively. The mining index shed 4.66% to close at 6014.53 points. The volume of shares traded increased by 51.80%, translating to an 88.68% increase in the market turnover. Table 2 shows the quarterly changes in the key stock market indicators.

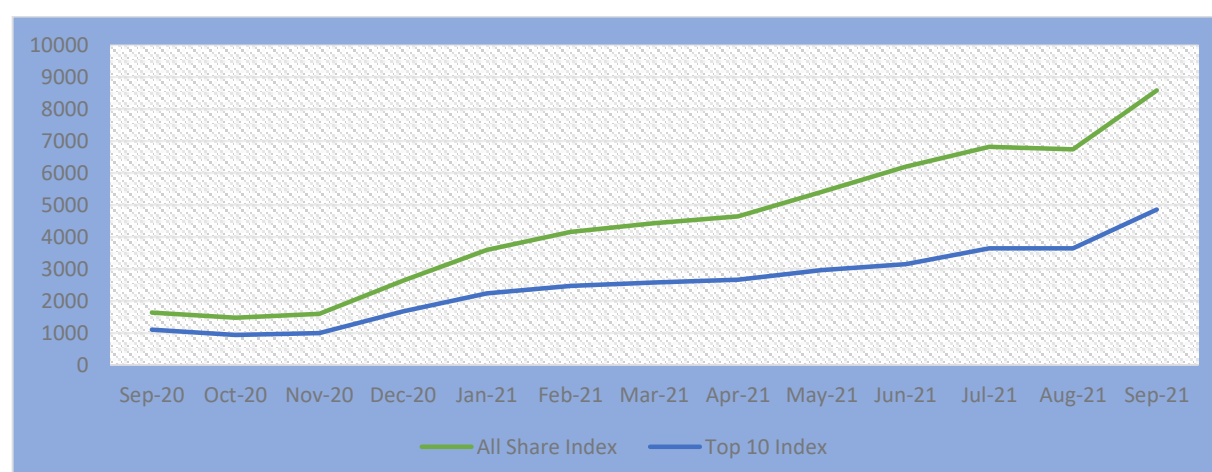

Table 3: Changes in the Key Stock Market Indicators

ZSE Indicator	Jun-2021	Sept-2021	Change (%)
All-share index (points)	6194.88	8580.16	38.50 ▲
Top 10 Index (points)	3154.44	4857.20	53.98 ▲

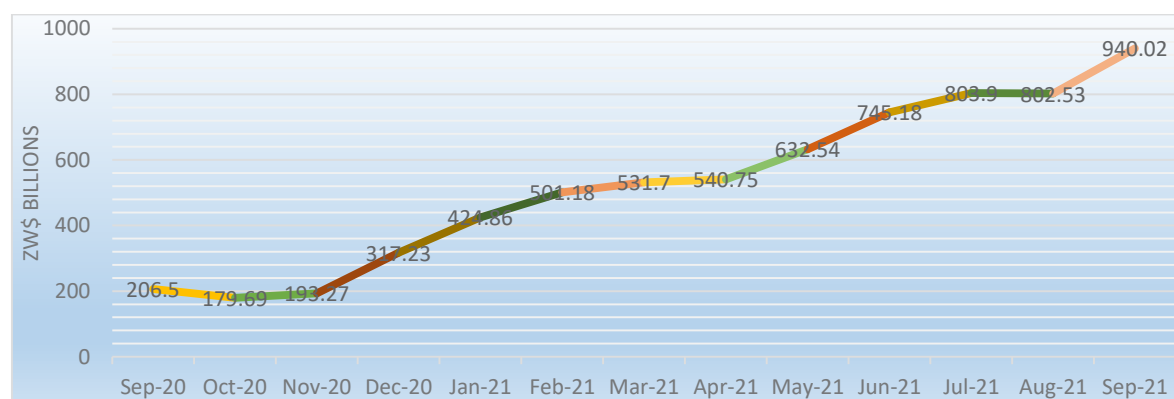

Figure 3: Zimbabwe Stock Exchange All Share and Top 10 Indices

Source: Zimbabwe Stock Exchange

The local bourse gained ZW\$194.84 billion, or 26.15% worth of capitalisation to close at ZW\$940.02 billion during the quarter ending September 2021, from ZW\$745.18 billion recorded in the second quarter. Figure 4 shows the market capitalisation trend for the period of September 2020 to September 2021.

Figure 4: Daily Market Capitalisation in ZW\$ Billions

Source: Zimbabwe Stock Exchange

4.8 Victoria Falls Stock Exchange (VFEX) Performance Highlights

A new addition Padenga Holdings has now been listed on the Victoria Falls Stock Exchange (VFEX) effective July 2021, joining Seedco International which was already trading at VFEX. As of 30 September 2021, the two counters recorded a turnover of US\$473, 336.01 from a cumulative volume of trades of 1, 833, 829 shares. During the quarter under review, the total number of trades recorded was ninety-six (96) and capitalisation was US\$208, 321, 441.69.

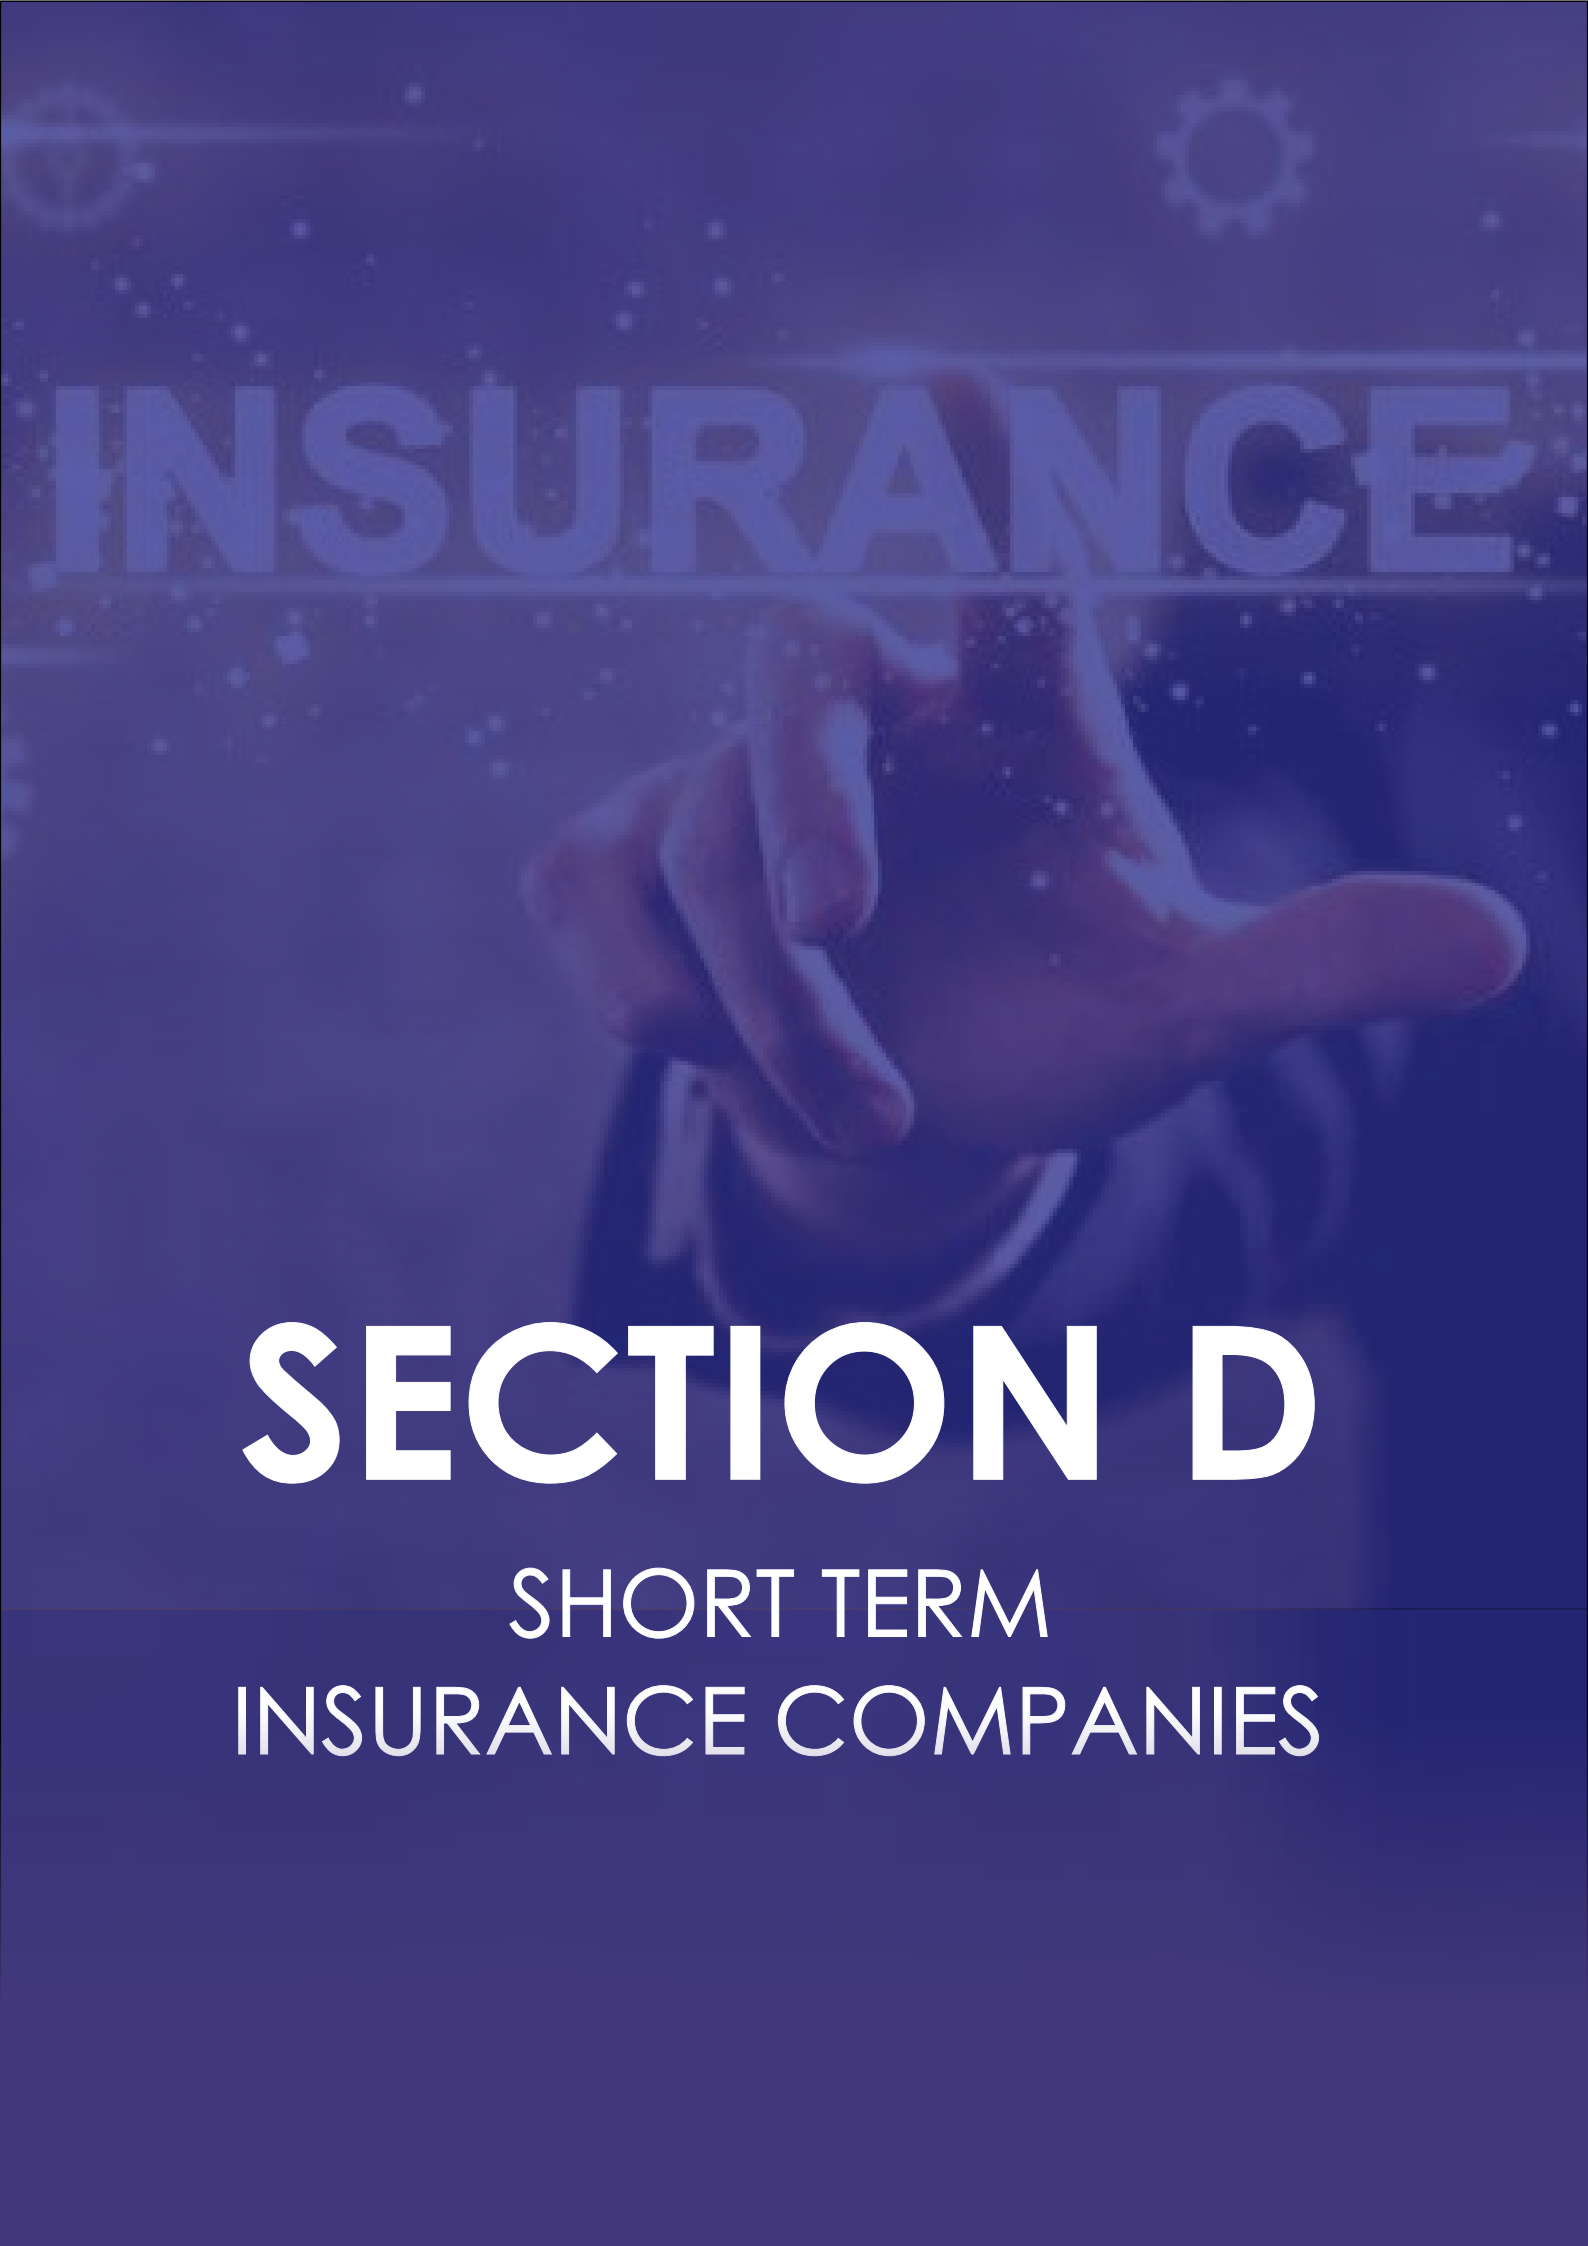

The Victoria Falls Stock Exchange signed a strategic Memorandum of Understanding with the Dubai Gold and Commodities Exchange (DGCX) in September 2021 to strengthen bilateral cooperation around commodities trading. As part of the agreement, the DGCX will extend technical support, knowledge and skills to VFEX, with the ultimate aim of establishing an international commodities exchange in Zimbabwe.

4.9 Money Market Developments

4.9.1 Savings Deposit Rates

The average nominal savings deposit rates were lower than the annual inflation rate of 51.5% recorded as at 30 September 2021, implying a reduced margin of negative real returns because of falling inflation experienced during the entire quarter under review. There was an increase in average maximum nominal savings deposit rates from 4.24% as at 1 July 2021 to 8.36% as at 24 September 2021, translating to a negative end of quarter real return of 28%. The maximum one-month nominal deposit rate increased to 12.83% as at 24 September 2021 from 10.77% as at 1 July 2021, with a negative end of quarter real return of 26%. The three-month nominal deposit rate increased to a maximum of 14.03% as at 24 September 2021, 11.72% recorded at the beginning of the quarter, translating to an end of quarter real return of -25%.

INSURANCE

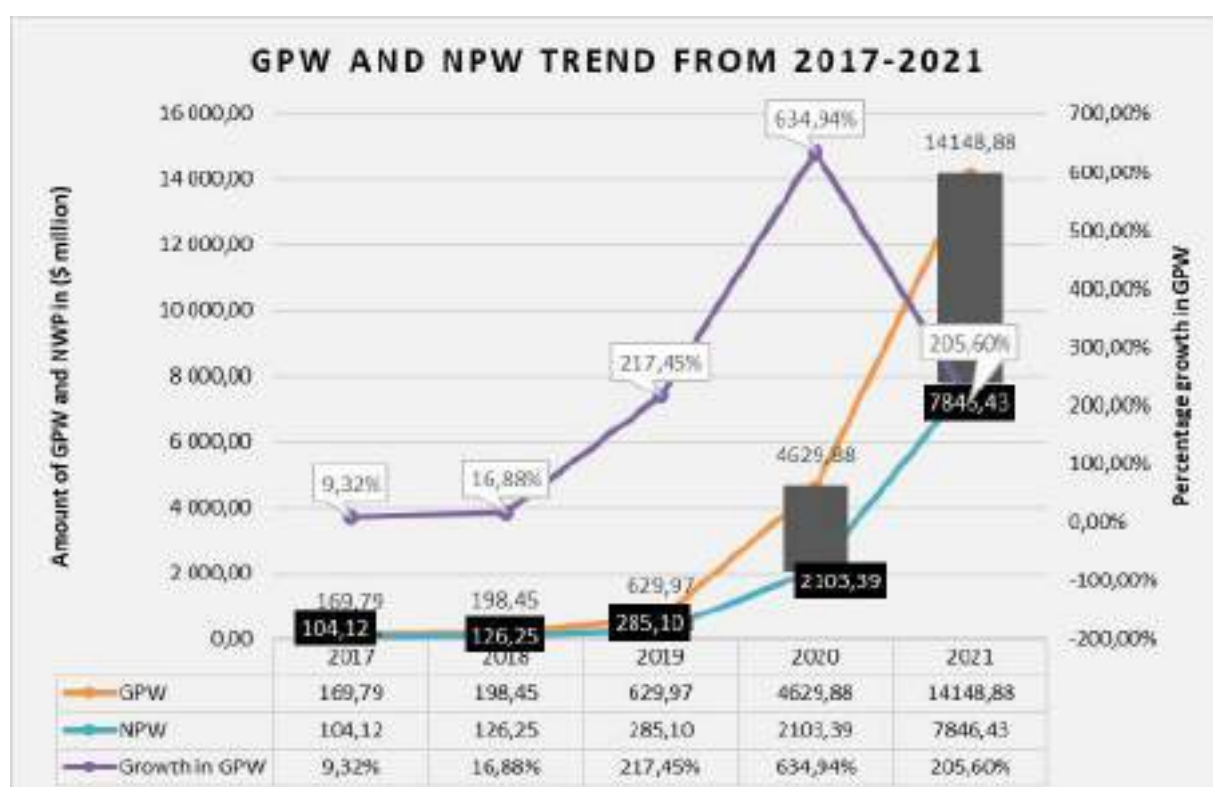

SECTION D

SHORT TERM
INSURANCE COMPANIES

5. Performance in terms of Business Written

Total Gross Premium Written (GPW) by short-term insurers increased by 205.60% in nominal terms from ZW\$4.63 billion in September 2020 to ZW\$14.14 billion, during the comparative period in 2021. The significant nominal growth in gross premium written is mainly attributable to insurance premiums closely tracking inflation. Figure 5 below shows the trend in the volume of the business generated by short-term insurers from 2017 to 2021.

Figure 5: Trend in Short-Term Insurance Written Business (Sept 2017 – Sept 2021)

The sizeable jump in the nominal volume of business written by the short-term insurance companies between 2019 and 2021, as seen in Figure 5 above, was on account of premiums tracking inflation. However, there has been a sharp drop in terms of GPW growth from 634.94% reported during the first nine months ending 30 September 2020 to 205.60% reported during the comparative period ending 30 September 2021. The decrease in GPW growth is partly on account of the Covid 19 pandemic as economic activities slowed down in response to

covid health protocols. Table 4 below shows the percentage growth in GPW for different classes of business:

Table 4: Short-Term Insurers' GPW by Class of Business

Class of Business	Gross Premium Written (ZW\$ Million)				Inflation adjusted % change
	30-Sep-21	30-Sep-21	30-Sep-20	Nominal change %	
	Inflation Adjusted	Nominal	Nominal		
Aviation	115.83	175.48	0.86	20,305%	13,368.60%
Bonds/Guarantee	441.69	669.16	239.74	179%	84.24%
Engineering	861.50	1,305.18	718.66	82%	19.88%
Farming	372.17	563.83	172.39	227%	115.89%
Fire	1,774.33	2,688.11	1,016.85	164%	74.49%
Hail	73.66	111.59	15.11	639%	387.49%
Marine	185.14	280.49	85.61	228%	116.25%
Misc Accident	292.51	443.16	94.36	3701%	209.99%
Motor	4,285.82	6,493.01	1,919.60	238%	123.27%
P-Accident	441.64	669.08	230.06	191%	91.97%
P Liability	198.99	301.47	87.95	243%	126.25%
Others	295.92	448.32	48.68	821%	507.89%
Total	9,339.19	14,148.88	4,629.87	206%	101.72%

*Others comprise of casualty, directors' liability, health and hire purchase

As shown in Table 4 above, the real increase in GPW during the first nine months of 2021 was 101.72%, which shows that there was real growth in short-term insurance business.

The contribution of GPW by class of business for short-term insurance is illustrated in Figure 6.

Figure 6: Contribution to GPW by class of business for the nine months ended 30 September 2021

**Others comprise of casualty, directors' liability, health, hire purchase.*

Figure 7: Contribution to GPW by class of business for the nine months ended 30 September 2020

**Others comprise of casualty, directors' liability, health, hire purchase.*

Motor, Fire and Engineering classes were the major sources of business for the first nine months of 2020 and 2021 contributing 79% and 74% respectively to the GPW.

6. Foreign currency denominated business

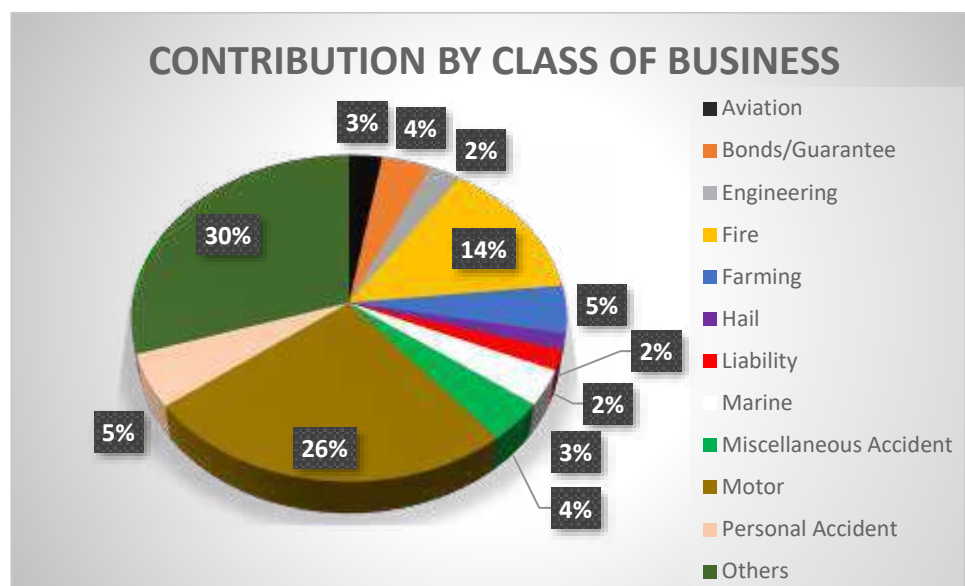

The foreign currency Gross Premium Written for the nine months ended 30 September 2021 increased by 457.51% from US\$13.32 million reported as at 30 September 2020 to US\$74.26 million reported for the comparative period in 2021. The increase in foreign currency denominated business was partly on account of improved disclosure in reporting as more entities submitted their US\$ returns. During the September 2020 reporting period only 2 entities submitted their US\$ returns compared to 18 entities during the comparative period ending September 2021.

Table 5: Short-Term Insurers' USD GPW by Class of Business

Class of Business	GPW (US\$ million)	GPW %
Aviation	2.03	2.70%
Bonds/Guarantee	2.86	4.00%
Engineering	1.92	2.60%
Fire	10.5	14%
Farming	3.48	4.70%
Hail	1.21	1.60%
Liability	1.51	2.00%
Marine	2.62	3.50%
Miscellaneous Accident	2.72	4.00%
Motor	19.04	25.60%
Personal Accident	3.92	5.30%
Others	22.44	30.00%
Total	74.25	100%

**Others comprise of casualty, directors' liability, health, hire purchase.*

Figure 8: Contribution to US\$ GPW by class of business

**Others comprise of casualty, directors' liability, health, hire purchase.*

Consistent with trends in Zimbabwe dollar-denominated business, motor and fire insurance business classes were the major contributors of foreign currency denominated business, accounting for a total of 40% of GPW for the first nine months of 2021.

7. Capitalisation

All eighteen (18) insurers reported capital positions that were above the minimum capital requirement of ZW\$37.5 million as at 30 September 2021. The reported capital positions were computed without accounting for non-admissible assets as stipulated in Statutory Instrument 95 of 2017. The reported capital positions are shown in Table 6.

Table 6: Reported Capital Positions for Short-Term Insurers

Name of Insurance Company	Reported Capital Positions (ZW\$ Million)	
	30-Sept-2021	30-Sept-2020
Alliance	616.22	107.16
Allied	196.99	203.25
CBZ	204.59	147.02
Cell	417.39	266.62
Champions	84.67	47.08
Clarion	110.44	47.96
Credsure	136.19	129.95
ECGC	155.71	313.50
Econet	573.18	78.63
Evolution	530.33	83.02
FBC	245.91	82.18
Hamilton	95.31	296.64
Nicoz Diamond	543.93	375.49
Old Mutual	1, 831.81	550.69
Quality	241.88	116.77
Safel	418.73	79.42
Sanctuary	203.91	231.42
Zimnat Lion	491.35	284.35
Total	7, 098.58	3, 441.15

Key

	Above minimum capital requirement of ZW\$37.5 million
	Below minimum capital requirement of ZW\$37.5 million

8. Asset Quality

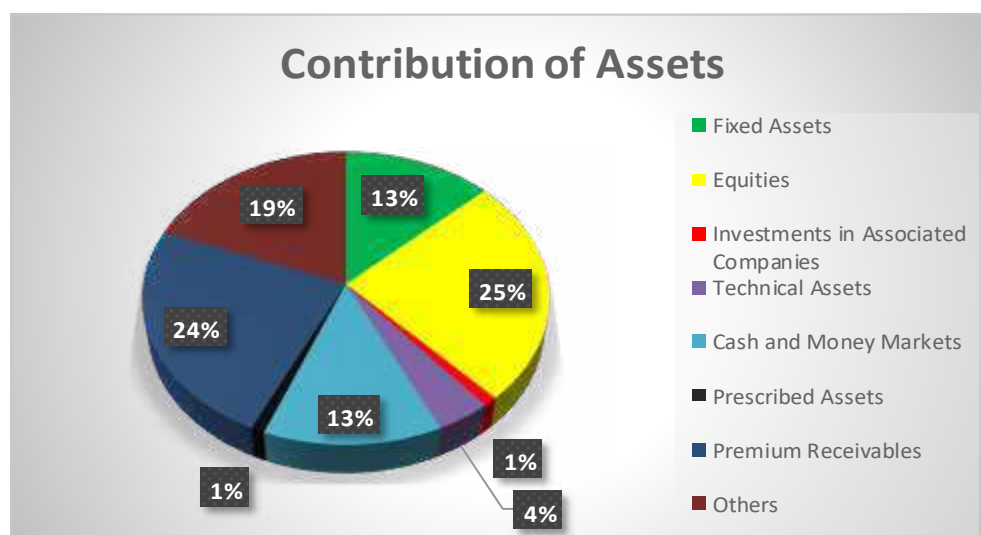

Total assets for short-term insurers increased by 7.96% in nominal terms from ZW\$13.95 billion as at 30 June 2021 to ZW\$15.06 billion reported as at 30 September 2021.

Premium debtors declined by 11.82% from ZW\$4.06 billion reported as at 30 June 2021 to ZW\$3.58 billion as at 30 September 2021. The decrease in premium receivables is a sign of an improvement in credit control systems by insurers in the management of credit risk. The development of the No Premium No Cover framework to regulate the issuance of policies on credit is still work in progress.

Investments in prescribed assets decreased from ZW\$482.22 million as at 30 June 2021 to ZW\$220.75 million as at 30 September 2021. None of the eighteen short-term insurers were compliant with the minimum prescribed asset ratio of 10% as at 30 September 2021.

Compliance with prescribed asset requirements remains significantly very low. The Commission still expects the submission of project initiatives that speak to industry needs for the consideration of prescribed asset status. The contribution of various asset classes to total assets as at 30 September 2021 is shown below:

Figure 9: Contribution of asset classes to total assets as at 30 September 2021

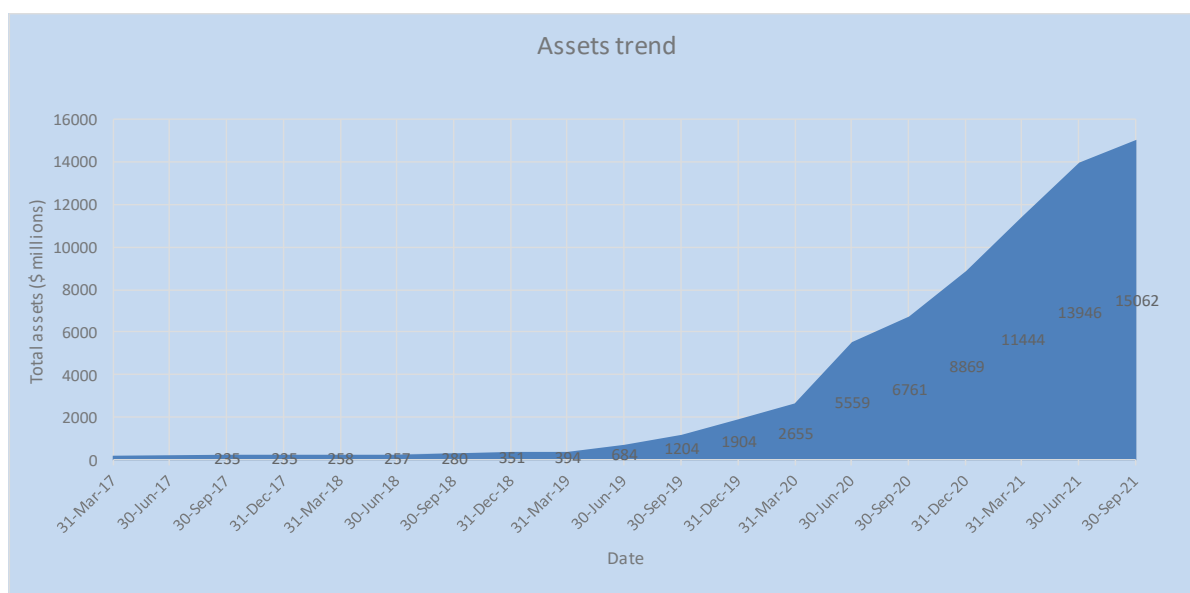

*Other Assets include Mortgages, Loans, Fixed Deposits, Intangible Assets and Related Party Receivables.

Premium receivables, investment in properties and equipment, and equities were the three major asset classes accounting for 62% of total assets. Property and equipment alone constituted 13% against a limit of 10% while premium

debtors contributed 24% against a limit of 5% in violation of Circular 2 of 2013 on investment limits.

Short term insurance players are encouraged to structure their investment portfolios in ways that enable not only preservation of policyholder value but also promote a balanced investment mix in line with the Commission's investment limits and asset/liability profiles.

Figure 10 below shows the trend in short-term insurance industry assets from 2017 to 2021

The sizeable jump in total industry assets between 2018 and 2021 as shown in Figure 10 above was on account of revaluation gains.

9. Reinsurance

The industry's average retention ratio increased from 45.43% for the nine months ended 30 September 2020 to 55.46% for the nine months ended 30 September 2021. This shows an average increase in the risk appetite by the direct short-term insurers.

Retention ratios for individual insurers ranged from 12.76% to 99.14%. This shows that reinsurance companies have significantly improved the settlement of claims and the bulk of the outstanding claims are now due to the direct insurers. (See Appendix 1C for more indicators).

10. Actuarial Matters

Technical liabilities for the short-term sector slightly increased by 6.63% from ZW\$3.13 billion as at 30 June 2020 to ZW\$3.40 billion as at 30 September 2021. The average liquid assets to technical reserves for the period under review decreased from 179.57% in September 2020 to 104.69% during the comparative period in 2021. The ratio measures the degree to which an insurer can cover its unexpected technical obligations by holding cash and other liquid investments without the sale of strategic investments that may result in realised losses. The decline in the average liquid assets to technical reserves indicates a decline in cautiousness by industry players, as less liquid assets were set aside for unexpected claims.

11. Earnings

The short-term insurers reported a total profit after tax of ZW\$2.38 billion for the first nine months of 2021, indicating an increase of 22.05% from the ZW\$1.95 billion reported in the comparative period in 2020.

There was an increase in the combined ratio for the short-term insurers from 85.83% during the first nine months of 2020 to 99.23% during period ended 30 September 2021. Generally, a combined ratio above 100% is undesirable as it indicates underwriting losses while the opposite is true for a combined ratio below 100%.

As at 30 September 2021, the underwriting profit for the short-term insurers decreased by 152.19%. The short-term insurers made an underwriting loss of ZW\$118.41 million as compared to an underwriting profit of ZW\$226.88 million

reported in the previous period in 2020. Eleven (11) out of the eighteen (18) short-term insurers posted underwriting losses during the period under review.

The average net commission ratio was 11.37% for the period under review compared to 3.27% for the first nine months of 2020. The increase in average commission rate is in line with the Commission's findings from the thematic offsite inspection on commissions. The inspection established that some industry players were paying commissions above the statutory limits outlined in Circular 2 of 2009. The highest net commission paid by a short-term insurer for the period under review was 58.09% of earned premiums. (For individual short-term insurers' net commission ratios, please refer to Appendix 1C).

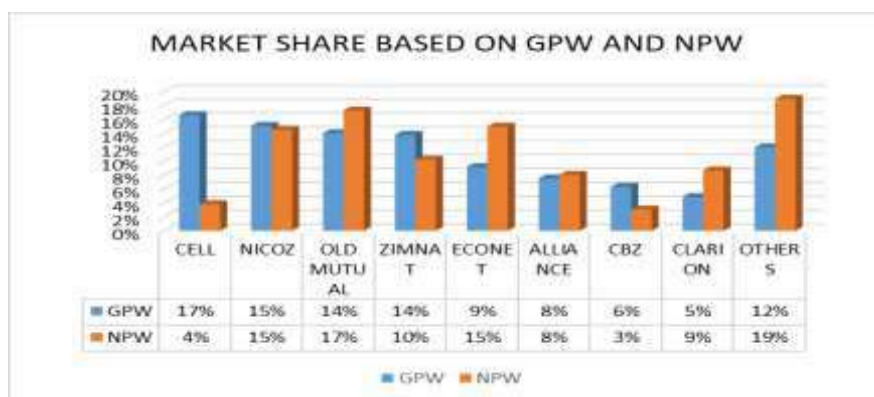

The industry's average return on assets (ROA) and return on equity (ROE) were 31.18% and 66.14% for the period under review, compared to 56.02% and 110.20% respectively for the nine months ended 30 September 2020.

12. Liquidity

Total cash and near-cash assets in the form of money market instruments increased by 13% from ZW\$1.77 billion as at 30 June 2021 to ZW\$2 billion as at 30 September 2021. Seven (7) out of the eighteen short-term insurers had negative working capital ratios while the industry's acid test ratio averaged 28.61% as at 30 September 2021. The low ratio is a cause for concern as short-term insurers face a high liquidity risk leading to low capacity to meet short-term financial obligations. Refer to Appendix 1C.

13. Market share for short-term insurers

Cell Insurance, Nicoz, Old Mutual and Zimnat Lion were the market leaders in terms of GPW with a combined market share of 60% for the nine months ended 30 September 2021. Figure 11 below shows market share in terms of GPW and NPW for all insurers:

Other include Allied, Champions, Credsure, Evolution, ECGC, FBC, Hamilton, Quality, Safel and Sanctuary

In terms of total assets, Old Mutual, Econet, Nicoz Diamond and Zimnat Lion were the market leaders with a combined market share of 52% as shown in Figure 12:

Figure 12: Market Share for Short-Term Insurers in Terms of Total Assets as at 30 September 2021

*Others comprise Allied, CBZ, Champions, Clarion, Credsure, ECGC, Hamilton, Safel, Sanctuary and Quality.

14. Market Share for Short-Term Insurers in terms of Foreign Currency Denominated Business

During the first nine months of 2021, Cell Insurance, Old Mutual and Zimnat Lion were the market leaders in terms of foreign currency-denominated business with a combined market share of 56.2%. The market share for foreign currency-denominated business is shown in Figure 13.

Figure 13: USD Business Market share for Short-Term Insurers as at 30 September 2021

*Others comprise of Credsure, Evolution, Quality, Champions, ECGC, Allied, Sanctuary, Clarion, Safel and Hamilton.

Figure 14

Figure 14:

The background of the slide features a blue-tinted image of two hands, one above the other, cupping a stylized white icon of a house. The hands appear to be belonging to a person in a professional setting, possibly a business suit. The overall composition suggests themes of protection, support, and insurance.

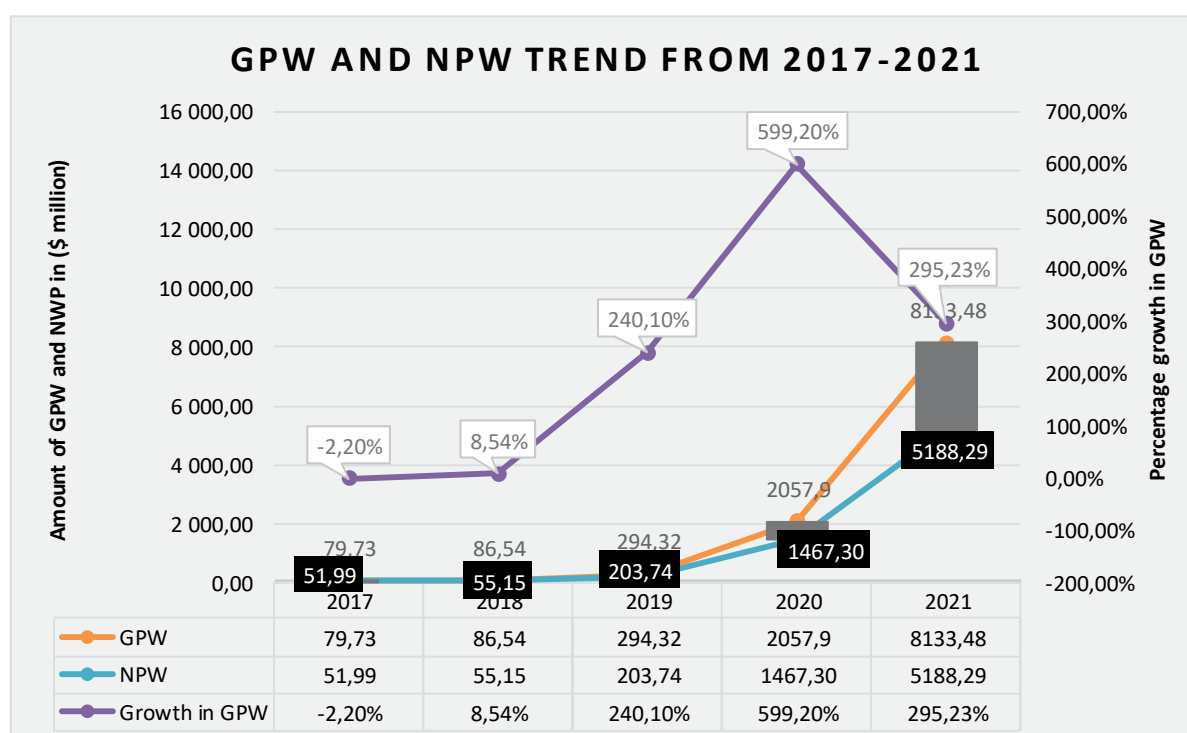

SECTION E

REINSURANCE COMPANIES

15. Performance in terms of business written

The total business written by short-term reinsurers increased by 295.23% in nominal terms from ZW\$2.06 billion for the first nine months of 2020 to ZW\$8.13 billion for the period under review. The increase is in line with the 205.6% nominal growth in the business written by short-term insurers in the two comparative periods. Figure 14 below shows the trend in volume of business written by short-term reinsurers from 2017 to 2021:

Figure 14: Trend in GPW and NPW for Short-Term Reinsurers from 2017 to 2021:

The significant increase in business written for the first nine months of 2021 is attributed to premium reviews in line with inflation developments.

Table 7 below shows the percentage growth in GPW for different classes of business.

Class of Business	Gross Premium Written (ZW\$ Million)			Inflation adjusted % change
	30-Sep-21	30-Sep-21	30-Sep-20	
	Inflation Adjusted	Nominal	Nominal	
Aviation	223.62	338.79	34.65	877.75%
Bonds/Guarantee	61.56	93.27	6.26	1,389.94%
Engineering	223.43	338.49	128.27	163.89%
Farming	364.74	552.58	179.75	207.42%
Fire	2,506.93	3,798.00	867.59	337.76%
Hail	14.83	22.47	-	-
Marine	102.88	155.87	43.33	259.73%
Misc Accident	428.95	649.86	174.57	272.26%
Motor	797.25	1,207.83	402.44	200.13%
P-Accident	363.58	550.83	61.74	792.18%
P Liability	56.56	85.69	157.33	-45.53%
Others	224.3	339.81	2.01	16,805.97%
Total	5,368.64	8,133.49	2,057.94	295.22%

As shown in Table 7 above, the Gross Premium Written by short-term reinsurers during the first nine months of 2021 grew by 160.87% in real terms. Only Personal Accident class of business experienced a decrease in income.

Class of Business	Gross Premium Written (ZWS\$ MILLIONS)		Percentage Change
	30-Sep-21	30-Sep-20	
Aviation	338,79	34,65	877,75%
Bonds/Guarantee	93,27	6,26	1389,94%
Engineering	338,49	128,27	163,89%
Farming	552,58	179,75	207,42%
Fire	3 798,00	867,59	337,76%
Hail	22,47	-	0
Marine	155,87	43,33	259,73%
Miscellaneous Accident	649,86	174,57	272,26%
Motor	1 207,83	402,44	200,13%
Personal Accident	550,83	61,74	792,18%
Personal Liability	85,69	157,33	-45,53%
Others	339,81	2,01	16805,97%
Total	8 133,49	2 057,94	295,22%

Table 9: Market share by class of business

Class of Business	Gross Premium Written (ZWS\$ Million)	
	30-Sep-21	Market share
Fire	3, 798	47%
Motor	1, 207.83	15%
P-Accident	550.83	7%
Misc Accident	649.86	8%
Aviation	338.79	4%
Farming	552.58	7%
Marine	155.87	2%
Engineering	338.49	4%
Bonds/Guarantee	93.27	1%
Other	447.97	6%
Total	8, 133.49	100%

**Other comprises of casualty, hire purchase, health, hail and liability insurance business*

Table 9 above shows that fire and motor classes of business were the major sources of reinsurance business in terms of GPW contributing 62% of the overall business written for the nine months ended 30 September 2021.

16. Foreign currency denominated business

The total foreign currency denominated business written by short-term reinsurers increased by 97.84% from US\$33.81 million for the nine months ended 30 September 2020 to US\$66.89 million for the period under review. The increase in the foreign currency denominated business is partly on account of improved compliance in disclosure by industry players.

17. Capitalisation

As at 30 September 2021, all the registered short-term reinsurers reported capital positions above the minimum capital requirement of ZW\$75 million. However, the reported capital positions were not adjusted in line with the provisions of Statutory Instrument (SI) 95 of 2017, which, among other things, discount non-permissible assets. The reported capital positions as at 30 September 2020 and 30 September 2021 for short-term reinsurers are shown in Table 10 below.

Table 10: Reported Capital Positions for Short-Term Reinsurers

Name of Reinsurance Company	Reported Capital Position (ZW\$ Million)	
	30-Sep-21	30-Sep-20
Emeritus Re	814.76	583.34
FBC Re	776.00	416.62
First Mutual Re	614.97	180.35
Grand Re	330.64	177.22
Tropical Re	432.26	325.26
Waica Re	808.46	221.33
ZB Re	761.83	456.80
ZEP RE	801.17	863.58
Total	5, 340.10	3, 224.50

Key

	Above minimum capital requirement of ZW\$75 million
	Below minimum capital requirement of ZW\$75 million

18. Asset quality

The asset base for short-term reinsurers increased by 16.30% in nominal terms from ZW\$9.51 billion reported as at 30 June 2021 to ZW\$11.06 billion as at 30 September 2021. Investments in prescribed assets slightly decreased from ZW\$1.41 billion as at 30 June 2021 to ZW\$1.28 billion as at 30 September 2021. However, only three (3) out of eight (8) reinsurers were compliant with the requisite prescribed asset threshold of 10%.

Premium receivables decreased from ZW\$2.32 billion as at 30 June 2021 to ZW\$2.09 billion as at 30 September 2021, indicating a decrease of 9.91%. The decrease in premium receivables is a sign of implementation of effective credit control systems to manage credit risk by players. The Commission expects that the approval of the No Premium No Cover Policy will provide a lasting solution to the challenge of premium debtors facing the industry. The contribution of various asset classes to total assets as at 30 September 2021 is shown in Figure 15 below:

Figure 15: Short-Term Reinsurers' Total Assets: Contribution by Asset Class

Cash & money market instruments, premiums receivables and equities were the major asset classes making up 54.24% of total assets.

19. Actuarial Matters

Total technical liabilities increased from ZW\$3.14 billion as at 30 June 2021 to ZW\$3.58 billion as at 30 September 2021 indicating an increase of 14.01%. Unearned Premium Reserves, which amounted to ZW\$2.04 billion accounted for 57% of the total technical liabilities.

20. Retrocession

The sector's average retention ratio was 63.79% for the nine months ended 30 September 2021 compared to 71.30% during the comparative period in 2020. This reflects a slight decrease in risk appetite by the short-term reinsurance companies. The individual reinsurers' reported retention ratios ranged from 46.11% to 84.40% for the period under review.

21. Earnings

Total profit after tax for short-term reinsurers increased by 40.71% from ZW\$1.13 billion for the period ended 30 September 2020 to ZW\$1.59 billion for the period ended 30 September 2021.

The average net commission ratio was 29.32% for the period under review compared to 30.15% for the first nine months of 2020. This shows that the average commission paid by short-term reinsurers slightly decreased when compared to the same period in 2020. The highest net commission ratio paid by a short-term reinsurer during the period under review was 33.28% of earned premiums.

The average combined ratio for the short-term reinsurers decreased from 118.62% for the nine months ended 30 September 2020 to 71.98% for the period under review. The decrease indicates improved operational profitability by the sector. The combined ratio and other ratios that relate to profitability for short-term reinsurers is shown in Appendix 2C under earnings.

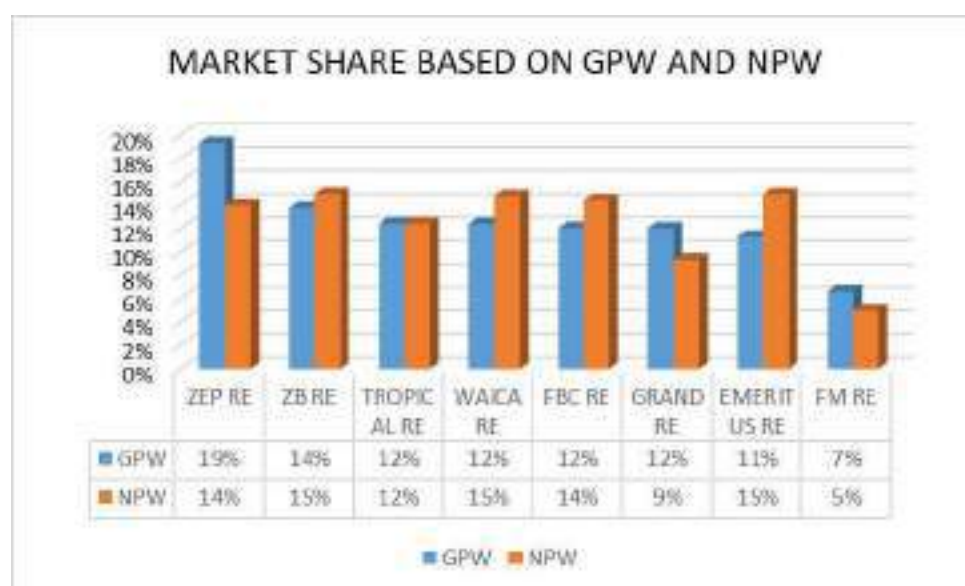

22. Liquidity

Liquid assets held by short-term reinsurers increased from ZW\$1.77 billion as at 30 June 2021 to ZW\$3.44 billion as at 30 September 2021. The average acid test ratio for short-term reinsurers fell from 102.66% as at 30 September 2020 to 63.42% as at 30 September 2021. The significant drop in the average acid test ratio is a cause for concern as this indicates an increase in liquidity risk for short term reinsures. The acid test ratios for short-term reinsurers are shown in Appendix 2C under liquidity.

23. Market share for reinsurers

As shown in Figure 16 below, the market leaders in terms of GPW were Zep Re and ZB Re. These reinsurers controlled 33% of the market in terms of Gross Premium Written (GPW) for the nine months ended 30 September 2021. The market leaders in terms of the Net Premium Written (NPW) were Emeritus Re, ZB Re and Waica Re who collectively controlled 45% of the NPW for the nine months ended 30 September 2021.

Figure 16: Market Share for Short -Term Reinsurers in Terms of GPW and NPW for the nine months ended 30 September 2021

In terms of market share based on total assets, FBC Re, Emeritus and Zep-Re were the market leaders for the nine months ended 30 September 2021, with a combined market share of 49% as depicted in Figure 17.

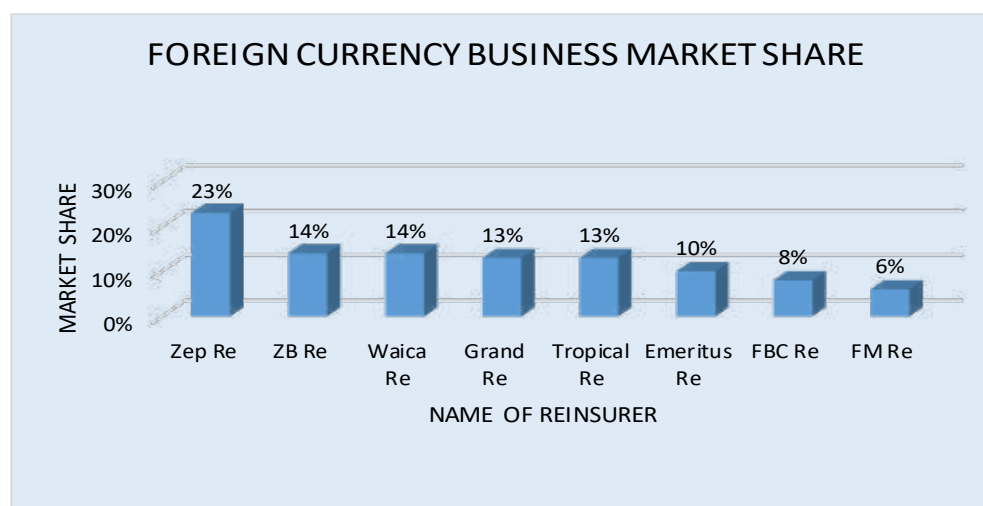

Figure 17: Market Share for Short -Term Reinsurers in Terms of Assets

24. Foreign Currency Denominated Business

The market leaders in terms of foreign currency denominated GPW were Zep Re, ZB Re and Waica Re. These reinsurers controlled 51% of Gross Premium Written (GPW) for the nine months ended 30 September 2021 as shown in Figure 18 below.

Figure 18: Market Share for Short -Term Reinsurers in terms of Foreign Currency Business

A hand is holding a small, detailed model of a two-story house with a porch and multiple windows. The background is a solid blue color with faint, stylized white clouds. The text 'SECTION F' is overlaid in large, white, sans-serif capital letters.

SECTION F

MICRO INSURANCE COMPANIES

Micro-insurance Companies

Introduction

There were four (4) micro-insurance companies that were registered as at 30 September 2021. These were Coverlink Micro-insurance, Golden Knot Micro-insurance, EBA Micro-insurance and Microsure Micro-insurance Company. However, only Coverlink and Golden Knot were operating during the first nine months of 2021. EBA and Microsure were recently registered and not yet operating.

25. Business Written

The total Gross Premium Written by the two (2) micro-insurers in the nine months ended 30 September 2021 was ZW\$393.24 million. In terms of foreign currency denominated business, Golden Knot did not write any foreign currency denominated business. Coverlink reported foreign currency denominated business amounting to US\$1, 326.62.

26. Capitalisation

As shown in Table 11 below, both micro-insurers were compliant with the minimum capital requirement of ZW\$4.5 million as at 30 September 2021.

Table 11: Reported Capital Positions for Micro-insurers

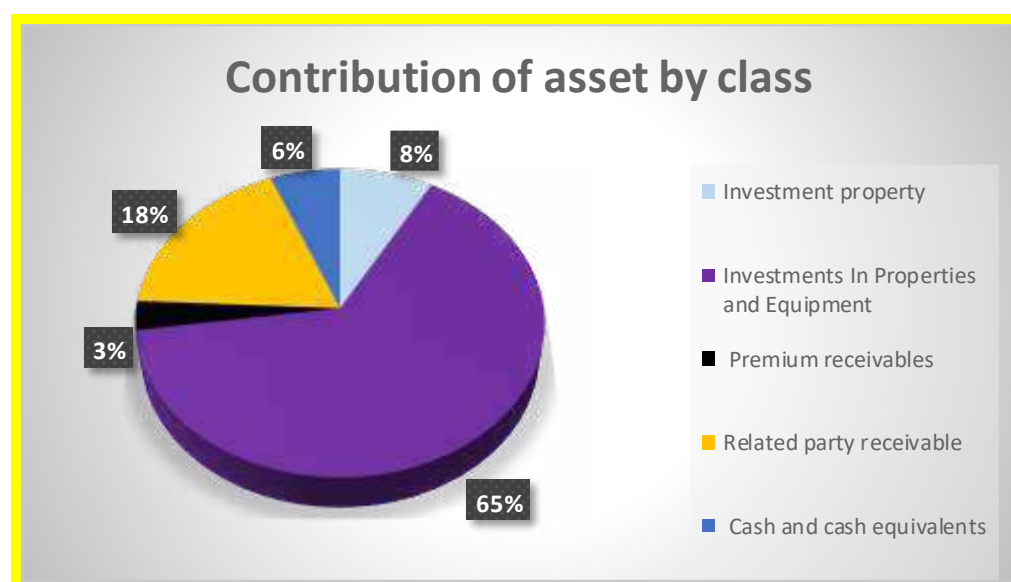

Name of Microinsurer	Reported Capital Position (ZW\$ Million) as at September 2021
Coverlink	146.21
Golden Knot	58.55
Total	204.76

27. Asset Quality

The micro-insurers reported a total asset base of ZW\$328.82 million as at 30 September 2021, which is an increase of 24.79% from the ZW\$263.49 million reported as at 30 June 2021.

Premium receivables significantly increased from ZW\$3.66 million as at 30 June 2021 to ZW\$8.54 million as at 30 September 2021, indicating a percentage change of 133.33%. The contribution of various asset classes to total assets as at 30 September 2021 is shown in Figure 19 below:

Figure 19: Microinsurance: Breakdown to Total Assets by class

Investments in properties and equipment were the major asset class, constituting 65% of total assets.

28. Earnings

The two micro-insurers recorded a total profit after tax of ZW\$113.33 million for the period under review.

29. Liquidity

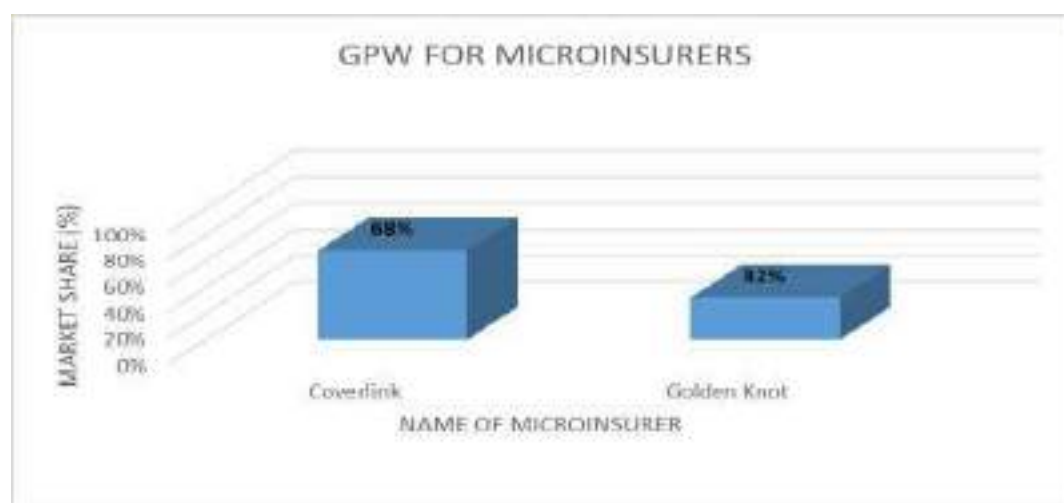

The two micro-insurers reported cash and near-cash assets amounting to ZW\$20.58 million as at 30 September 2021 which was a decrease from the ZW\$26.65 million reported for 30 September 2020. The acid test ratio was 35.71%

as at 30 September 2021 which was an decrease from 60.99% as at 30 September 2020. The decrease in liquidity levels shows that the micro-insurers liquidity position has declined.

30. Market Share for Micro-Insurers

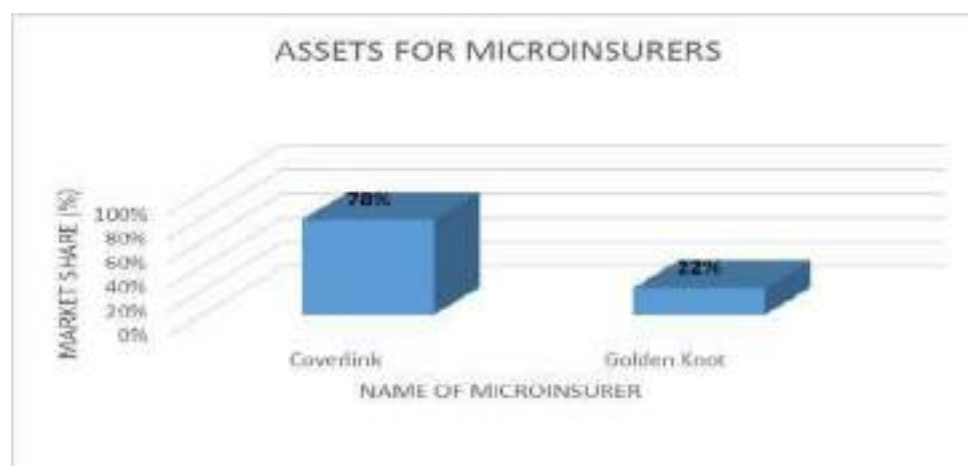

As shown in Figure 20 below, the market leader in terms of GPW was Coverlink, which controlled 68% of Gross Premium Written (GPW) for the nine months ended 30 September 2021.

Figure 20: Market Share for Micro-insurers in Terms of GPW

In terms of market share based on total assets, Coverlink was the market leader for the nine months ended 30 September 2021, with a market share of 78% as depicted in Figure 21.

Figure 21: Market Share for Micro-insurers in Terms of Total Assets

A man in a light-colored shirt and patterned tie is writing on a clipboard. He is standing next to a white car. The entire image is covered with a semi-transparent blue overlay. The text "SECTION G" and "INSURANCE BROKERS" is written in white, bold, sans-serif font over the image.

SECTION G

INSURANCE BROKERS

BROKERS SECTION

This section analyses the business performance of insurance brokers for the period ending September 30, 2021.

During the period under review, Revival Insurance Brokers was deregistered, bringing the number of brokers whose licences have been cancelled in 2021 to two (2) including Ambassador Insurance Brokers. Licences for Auto and General Insurance Brokers and Hostcare Insurance Brokers are under cancellation after the two brokers continuously failed to comply with regulatory requirements. No new insurance brokers were registered during the period under review. Out of the 30 registered insurance brokers, 28 submitted their third quarter returns with the Commission. The operating environment is slowly improving following relaxation of Covid-19 restrictions, coupled with the adoption of digital platforms in doing business by most entities.

31. Business Written by Insurance Brokers

Gross Premium Written by insurance brokers increased by 214% in nominal terms from ZW\$2.4 billion in September 2020 to ZW\$7.5 billion in September 2021. Inflation remained the major driver in the growth of GPW by brokers as premiums keep tracking inflation developments.

Table 12: Key Indicators for the business brokered by the Insurance Brokers for the period ended 30 September 2021.

Indicator	30/9/2021 (ZW\$ Million)	30/9/2020 (ZW\$ Million)	Percentage change
Gross Premium Receivable	7,467	2,377	214%
Gross Premium Payable	6,362	2,023	214%
Brokerage Commission	1,099	354	210%
less Commission paid	62	12	419%
Net Brokerage Commission	1,043	342	205%
Other Income	55	66	-17%
Operating Expenses	732	220	233%
Profit Before Tax	408	188	117%
Taxation	83	42	99%
Profit After Tax	325	146	122%

32. Capitalisation

Despite the negative impact of the Covid-19 pandemic on overall economic performance, brokers managed to maintain their capital positions above the minimum threshold of ZW\$1.5 million except Rainbow Insurance Brokers, which has continuously struggled to raise the required minimum capital. The Commission will continuously monitor the progress of Rainbow Insurance Brokers towards compliance with statutory requirement.

Table 13: Capital positions for insurance brokers for the quarter ended September 2021.

Name	30-Sep-21 (ZW\$)	30-Sep-20 (ZW\$)

33. Assets Distribution

As at September 30, 2021 direct brokers held total assets amounting to ZW\$2.3 billion. Most of these assets were held in the form of cash and cash equivalents, as shown in figure 22.

Fig 22: Asset distribution for insurance brokers for the quarter ended September 2021.

34. Earnings

For the period ended September 30, 2021, insurance brokers reported a combined profit after tax of ZW\$324 million, representing a nominal increase of 122% from ZW\$146.13 million reported during the same period in 2020. The primary contributors to the significant increase in profit during the period under review were premium adjustments tracking inflation developments.

35. Market Share for Insurance Brokers in terms of Gross Premium and Commission

In terms of Gross Premium Written and commission, Minerva, Marsh, Firstlink, HRIB, CBZ Risk Advisory, and Hunt Adams, dominated the market during the period under review. The graph below depicts the distribution of the market share amongst insurance brokers for the first nine months ending September 30, 2021.

Figure 23: Marker share for insurance brokers for the quarter ended September 2021

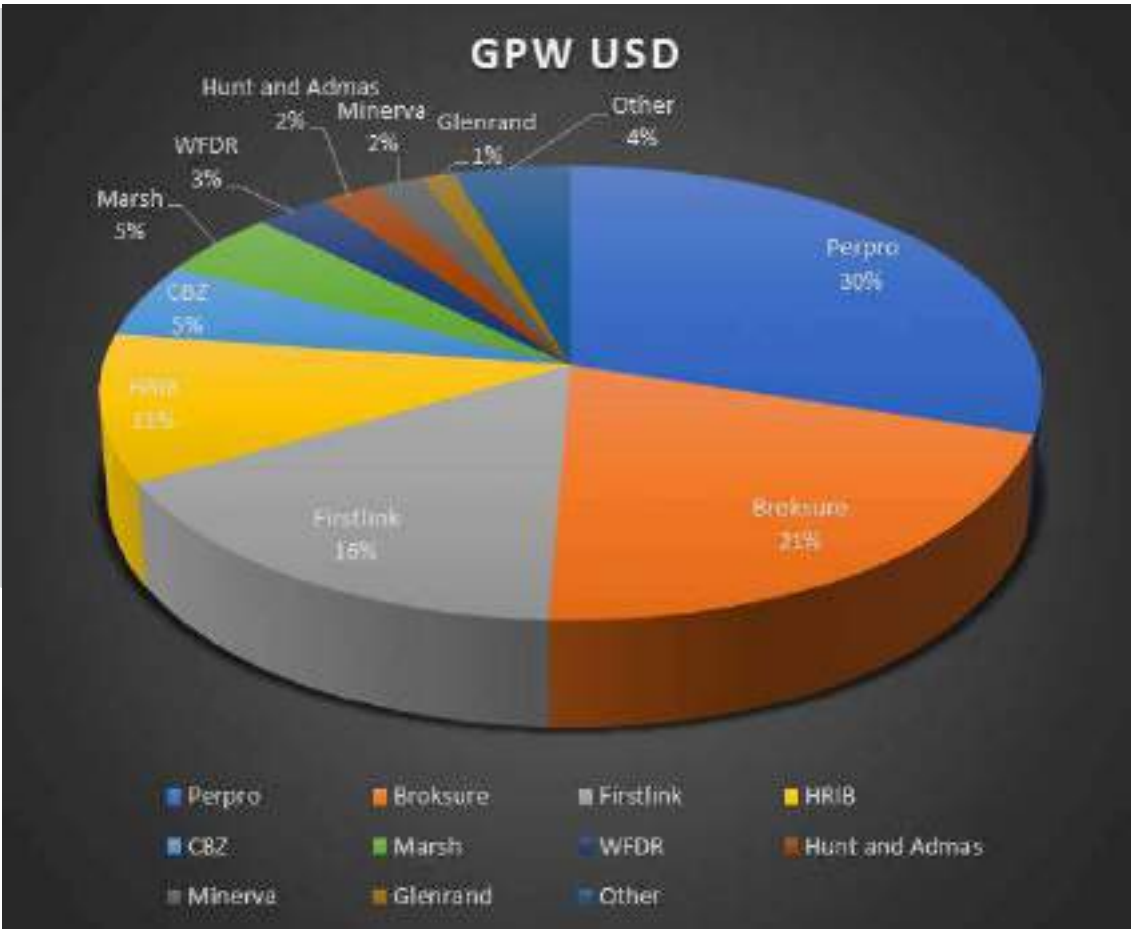

36. Foreign Currency Denominated Business by Insurance Brokers

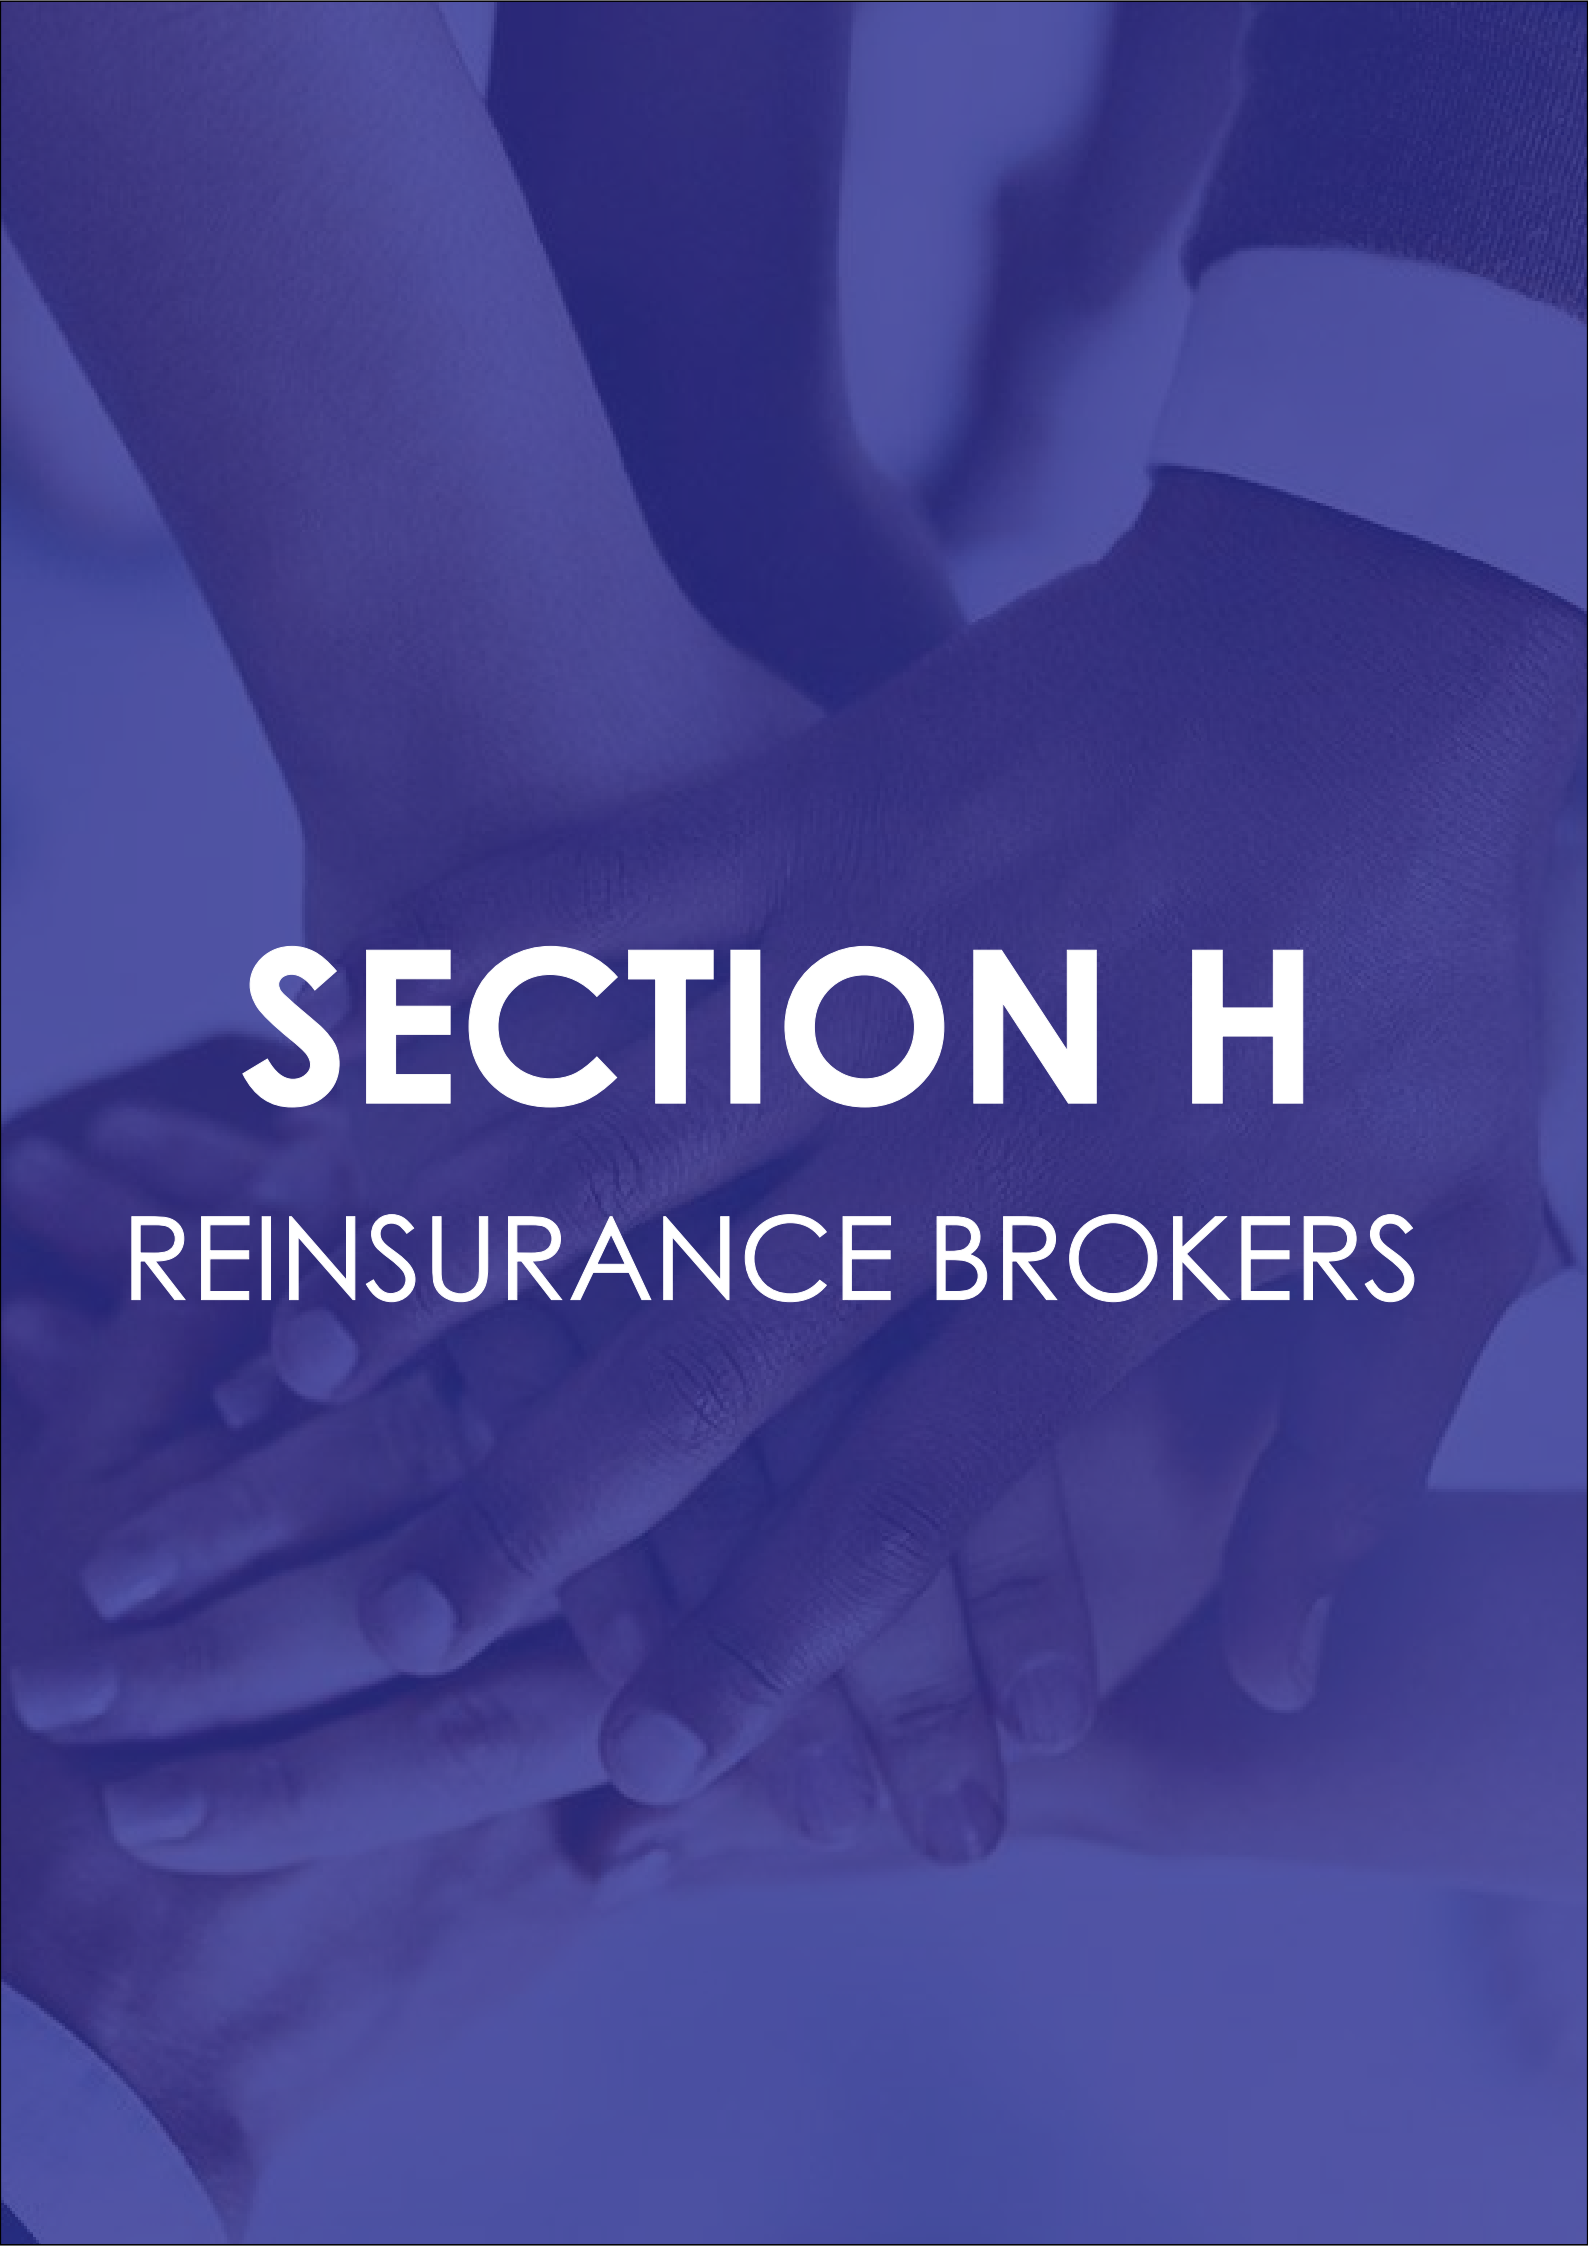

Out of the registered 30 insurance brokers, 28 managed to file their USD returns with the Commission for the quarter ended September 30, 2021. The twenty-eight short-term insurance brokers recorded a total of US\$58.6 million Gross Premium Written during the period under review.

The graph below shows the USD market share for the short-term insurance brokers as at September 30, 2021.

Figure 24: Short-term Insurance Brokers USD-Denominated Market Share for the third quarter ended 2021.

SECTION H

REINSURANCE BROKERS

37. Premium Written

For the period ending 30 September 2021, reinsurance brokers reported a significant nominal increase of 277% in Gross Premium Written from ZW\$1.4 billion recorded in September 2020 to ZW\$5.3 billion in 2021. Table 14 below shows key indicators of business written by reinsurance brokers.

Table 14: Key Indicators for Reinsurance Brokers - 30 September 2021.

Indicator	30-Sep-21 (ZW\$)	30-Sept-20 (ZW\$)	Percentage change
Gross Premium Written	5, 278, 633, 995	1, 401, 302, 645	277%
Brokerage Commission	1, 190, 811, 031	114, 852, 333	937%

39. Market share for Reinsurance Brokers in terms of Gross Premium Receivable and Net Brokerage Commission (NBC)

Fig 25 below shows the total gross premium written and the market share for reinsurance brokers as at September 30, 2021.

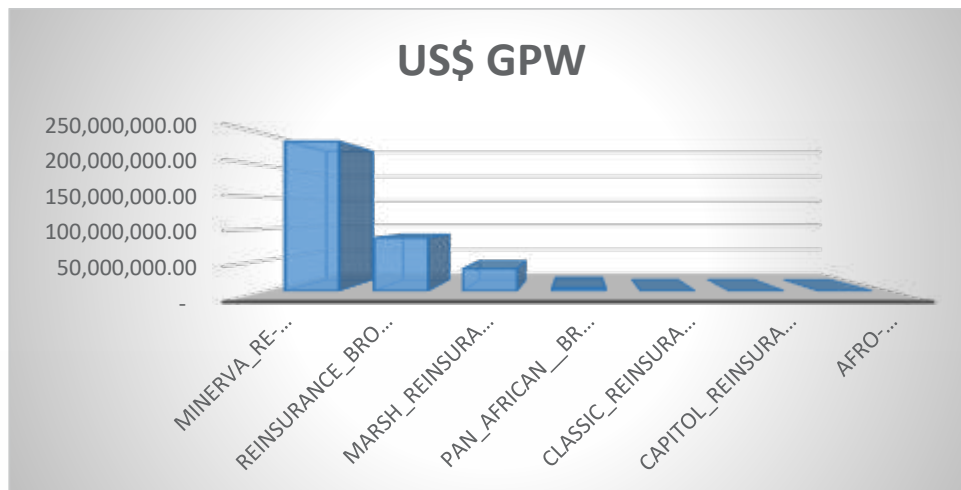

Figure 25: Market share distribution for reinsurance brokers

40. Foreign Currency-denominated business

Reinsurance Brokers reported US\$366 million in Gross Premium Written for the period ending 30 September 2021. The table below shows USD GPW generated by reinsurance brokers.

Figure 26: Gross Premium in USD for reinsurance brokers for the period ended September 2021.

SECTION I

REGULATORY DEVELOPMENTS

Regulatory Developments for the Period Ending 30 September 2021

41. Circulars and Statutory Instruments

The Commission issued the following Statutory Instruments and Circulars to the insurance sector as shown in Table 16 below.

Table 16: Statutory and Circulars issued

Circular/Statutory Instrument (SI)	Date Issued/ Gazetted	Purpose
Circular 1 of 2021	04 January 2021	Provision of necessary services during the lockdown.
Circular 2 of 2021	12 January 2021	Delivery of electronic mail to IPEC
Circular 3 of 2021	19 January 2021	Request of information on foreign currency denominated business
Circular 4 of 2021	28 January 2021	Request for currency reforms compensation framework proposals
Circular 5 of 2021	17 February 2021	2021 Global Money Week Commemorations
Circular 8 of 2021	24 February 2021	Issuance of the treating customers fairly framework
Circular 9 of 2021	04 March 2021	Submission of monthly management accounts by funeral assurers to the Commission
Circular 10 of 2021	05 March 2021	Deadline extension for the submission of 2020 Audited Financial Statements and Actuarial Valuation Reports.
Circular 11 of 2021	09 March 2021	ZICARP Programme – Own Risk and Solvency Assessment (ORSA).
Circular 12 of 2021	29 March 2021	Notification of publication of IPEC Levy regulations.
Circular 13 of 2021	09 April 2021	Sector feedback session on the implementation of the Guidance Paper.
Circular 14 of 2021	16 April 2021	Request for information on externalised risks.
Circular 15 of 2021	27 April 2021	Postponement of the launch of ZICARP.
S.I. 85 of 2021	26 March 2021	Revision of fees payable to the Commission
S.I. 86 of 2021	26 March 2021	Revision of levies payable to the Commission
Circular 17 of 2021	07 May 2021	Requests for inputs into the 2021 mid-term budget and economic review and the 2022 budget strategy paper.
Circular 18 of 2021	31 May 2021	Issuance of the revised guideline on adjusting insurance and pensions values in response to the 2019 currency reforms.
Circular 21 of 2021	11 June 2021	Launch of ZICARP framework.
Circular 23 of 2021	30 June 2021	ZICARP Framework.

SECTION J

COMPLAINTS

42. Complaints

Table 17: Short term Complaints

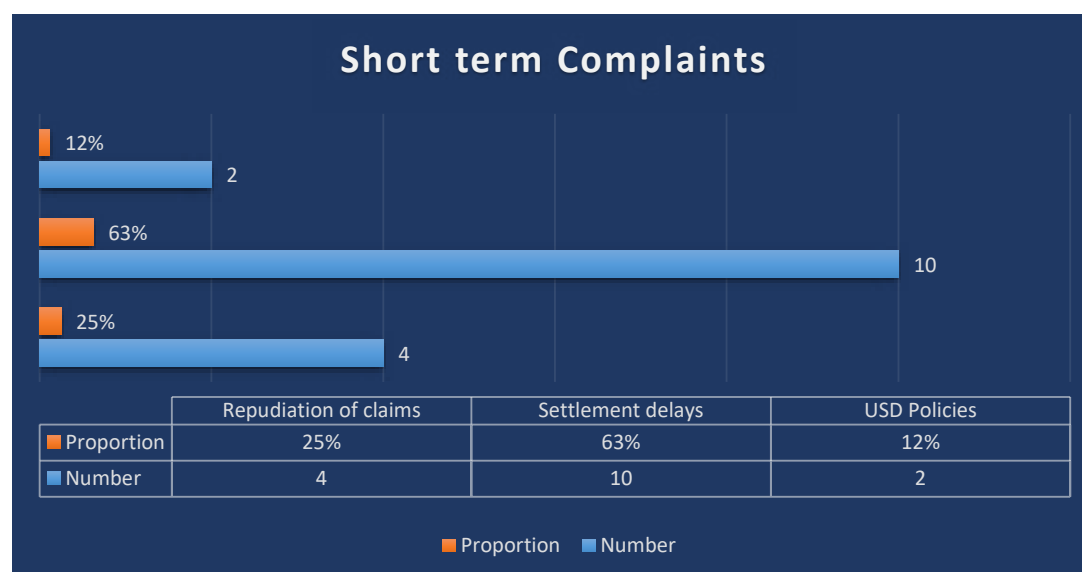

Short term Nature of complaints	Number of complaints	Proportion
Repudiation of claims	4	25%
Delay in settlement claims	10	63%
USD denominated policies	2	12%
Total	16	100%

The commission received a total of 16 complaints in the period under review and 13 of them were resolved and the other 3 were still under investigation.

The major source of complaints was the delay in settlement of claims, that accounted for 63%, followed by claims repudiation at 25%, and lastly USD denominated policies at 12%.

The delay in settlement is attributed to investigations by the insurer where there are suspicions of fraudulent claims or where there is insufficient documentation to enable claim settlement.

Figure 27: Distribution of the complaints received.

Another source of complaints was the treatment of USD denominated policies written at the beginning of 2019 but were affected by SI 142 of September 2019 which banned the use of the USD.

This issue has been resolved by the reintroduction of foreign currency denominated policies whereby claims are now settled in the currency used at the policy inception.

Insurance Brokers

The Commission received one complaint in this category in the 3rd quarter of 2021. The source of the complaint was claim repudiation. However, the complaint has since been resolved.
