DISCLAIMER

This report, including any enclosures and attachments, has been prepared by the Insurance and Pensions Commission (IPEC), solely for informative purposes to the insurance sector stakeholders. The report may not be reproduced, redistributed, communicated to a third party, or relied upon by any other person for any other purpose without the Commission's prior written consent. The Commission does not accept any liability if this report is used for any other purposes other than the above-mentioned intended purpose.

This report relates to short term insurance business written by short term insurers, short term reinsurers, brokers, reinsurance brokers and micro-insurers.

Growth referred to in this report is nominal growth unless stated otherwise.

* Income statement figures were adjusted using year-on-year inflation of 72.7% reported for March 2022. Source:

Executive Summary

The report provides an analysis of the performance of the short-term insurance industry, key economic indicators, investment markets and highlights of the Commission's regulatory activities for the quarter ended 31 March 2022.

All short-term insurers and reinsurers are commended for submitting their 2022 first quarter returns on the IPEC online portal.

Total Gross Premium Written (GPW) by short-term insurers increased by 87.62% from ZW\$3.99 billion in March 2021 to ZW\$7.49 billion during the comparative period in 2022. In terms of foreign-currency denominated business, the short-term insurers reported an increase of 33.32% from US\$18.37 million reported for the quarter ended 31 March 2021 to US\$24.49 million for the quarter ended 31 March 2022.

The total business written by short-term reinsurers increased by 93.33% from ZW\$2.17 billion for the quarter ended 31 March 2021 to ZW\$4.19 billion during the period under review. In terms of foreign-currency denominated business, the reinsurers reported an increase of 45.71% from US\$17.48 million reported for the quarter ended 31 March 2021 to US\$25.47 million for the quarter ended 31 March 2022.

Total assets reported by short-term insurers increased from ZW\$11.44 billion as at 31 March 2021 to ZW\$28.62 billion as at 31 March 2022. Investments in prescribed assets by short-term insurers increased by 49.82% from ZW\$354.72 million as at 31 March 2021 to ZW\$531.45 million as at 31 March 2022. None of the short-term insurers was compliant with the minimum prescribed asset ratio of 10%. Eighteen (18) out of nineteen (19) insurers reported capital positions above the minimum capital requirement (MCR) of ZW\$37.5 million.

Short-term reinsurers had an asset base of ZW\$17.66 billion as at 31 March 2022, reflecting a 132.53% increase from the ZW\$7.60 billion reported as at 31 March 2021. Investments in prescribed assets by short-term reinsurers increased from

ZW\$1.23 billion as at 31 March 2021 to ZW\$2.11 billion as at 31 March 2022. Three (3) out of the nine (9) short-term reinsurers were compliant with the minimum prescribed asset ratio of 10%. As at 31 March 2022, all the registered short-term reinsurers reported capital positions above the minimum capital requirement of ZW\$75 million.

The total business written by micro-insurers increased by 148.06% from ZW\$91.48 million reported for the quarter ended 31 March 2021 to ZW\$226.93 million reported for the same period in 2022. In terms of foreign-currency denominated business, the amount of business written increased by 194.56% from US\$239 reported for the quarter ended 31 March 2021 to US\$704 reported for the comparative period in 2022. The asset base for the micro-insurers increased by 168.41% from ZW\$205.47 million reported as at 31 March 2021 to ZW\$551.50 million reported as at 31 March 2022. The two micro-insurers who were operational in 2022 were compliant with the minimum capital requirement of ZW\$4.5 million as of the reporting period.

Brokers wrote a total of ZW\$4 billion in GPW registering an increase of 91% in nominal terms during the quarter ended 31 March 2022, compared to ZW\$2.1 billion for the same period in 2021. Reinsurance Brokers wrote a total of ZW\$2.8 billion during the quarter ended 31 March 2022 in GPW registering an increase of 45% from the ZW\$1.9 billion reported the same period in 2021.

The broking industry held total assets amounting to ZW\$3.1 billion as at 31 March 2022.

Due to increase in inflation and deterioration of exchange rate, the current ZWL denominated MCRs have been rendered inadequate. Pending ZICARP launch effective 1 January 2023 which will come with AMCR, the Commission is currently reviewing the MCR to index it to USD as a stop gap measure to protect our policyholders. We therefore urge all regulated entities to put in place measures to comply with the revised MCR pending ZICARP launch.

1. ECONOMIC DEVELOPMENTS

1.1. Global and Regional Economic Outlook

Global economic growth is projected at 3.6% in 2022, from 6.1% in 2021 (IMF, 2022), undermined by supply chain disruptions and economic fragmentation emanating from the Eastern Europe geopolitical conflict. Table 1 summarises the global economic outlook projections.

Table 1: World Economic Outlook Projections (%).

	2021	2022	2023
World Output	6.1	3.6	3.6
Advanced Economies	5.2	3.3	2.4
USA	5.7	3.7	2.6
Euro Area	5.3	2.8	2.3
Emerging Markets and Developing Economies	6.8	3.8	4.4
China	8.1	4.4	5.1
Sub-Saharan Africa	4.5	3.8	4.0
Nigeria	3.6	3.4	3.1
South Africa	4.9	1.9	1.4
Zimbabwe	6.3	3.5	3.0

Source: April 2022 World Economic Outlook Update, IMF Projections

Similarly, growth in sub-Saharan Africa is projected to contract to 3.8% in 2022 and 4% in 2023, from 4.5% in 2021, due to climate shocks and tightening of global financial conditions arising from the war in Ukraine.

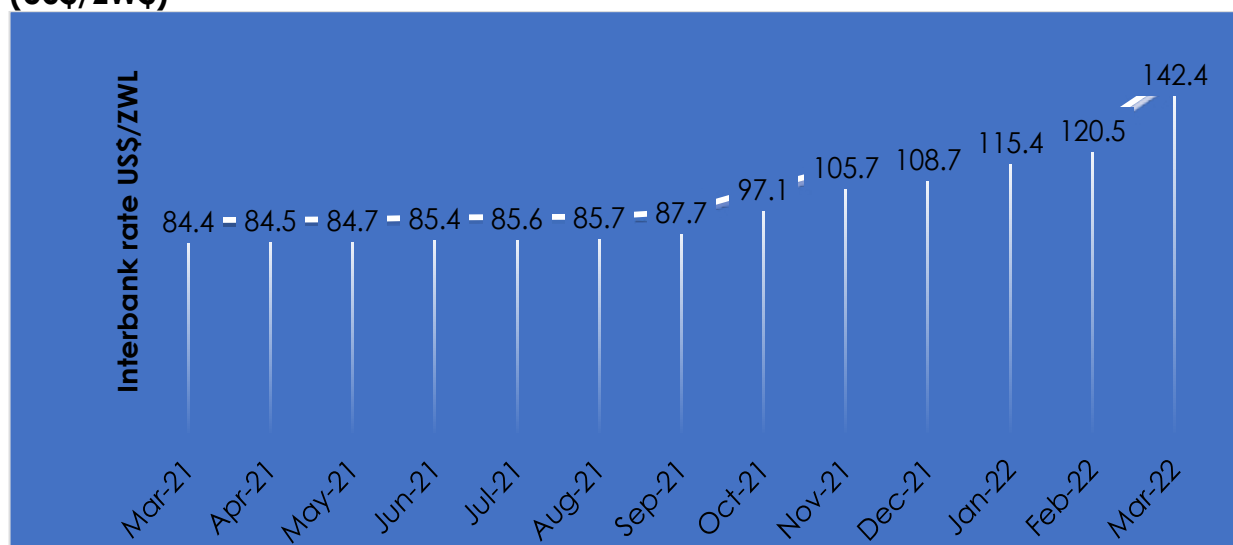

1.2. Domestic Economic Outlook

The economy is expected to grow by 5.5% in 2022 from 7.8% in 2021 (Ministry of Finance and Economic Development, 2021). Notwithstanding the subdued forecast, growth will be anchored on a pick-up in mining and buoyant construction. The International Monetary Fund, however, forecasts a lower economic growth rate of 3.5% in 2022 and 3% in 2023.

1.3. Exchange Rate Developments

The Zimbabwe dollar (ZW\$) depreciated against the US dollar, shedding 31%, from US\$1: ZW\$108.7 recorded at the end of the fourth quarter of 2021 to US\$1: ZW\$142.4, registered at the end of the quarter under review. Developments in the exchange rate are shown below.

Figure 1: Interbank Exchange Rate March 2021 to March 2022 (US\$/ZWL)

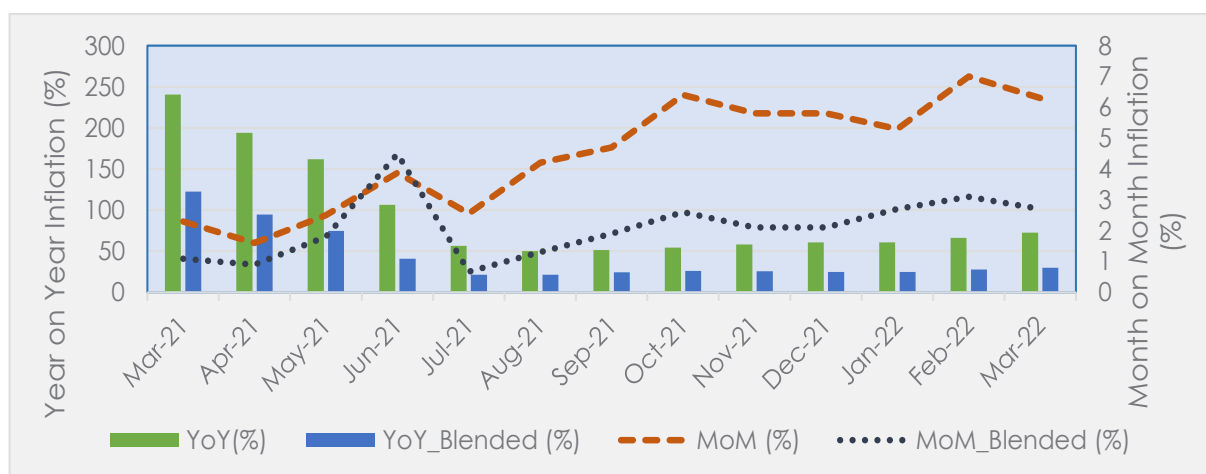

Source: Reserve Bank of Zimbabwe

1.4. Inflation Developments

The annual inflation rate rose to 72.7% in March 2022, from 60.7% recorded as at 31 December 2021. The upward trend was partly driven by increased fuel and food costs owing to the Russia and Ukraine war, and foreign exchange rate volatility, following the widening gap between the auction and alternative market rates. The month-on-month inflation stood at 6.3% as at 31 March 2022, up from 5.8% recorded as at 31 December 2021. Figure 2 illustrates the inflation trend from March 2021 to March 2022.

Figure 2: Inflation profile (%), March 2021 to March 2022

Source: Zimbabwe National Statistics Agency

1.5. Zimbabwe Stock Exchange Performance

During the quarter under review, the Zimbabwe Stock Exchange maintained positive momentum, resulting in the All-Share Index, Top 10 index, and Medium Cap index gaining 44%, 51%, and 26% respectively. The local bourse added 47% worth of capitalisation, from the previous quarter's value of ZW\$1.32 trillion to ZW\$1.94 trillion. The gains in the stock market are attributed to a combination of inflation, the good financial performance of underlying companies, and the growing appetite for equities as a value-preserving asset. Table 2 shows the quarterly change in the key stock market indicators.

Table 2: Changes in the Key Stock Market Indicators

ZSE Indicator	Dec-2021	Mar-2022	Change (%)
All share index (points)	10, 822.4	15, 581.9	44
Top 10 Index (points)	6, 811.4	10, 296.7	51
Medium Cap Index (points)	20, 407.3	25, 692.6	26
Small Cap Index (points)	402,753.1	399,696.2	-0.8
Market Capitalisation (ZW\$ billion)	1, 317.2	1, 935.2	47
Shares traded (million)	26.8	30.3	13
Market turnover (ZW\$ mil)	831.6	2, 189.5	163

Source: Zimbabwe Stock Exchange

Victoria Falls Stock Exchange (VFEX) Performance

VFEX ended the quarter with a total turnover amounting to US\$5.3 million, compared to US\$114, 544.74 recorded in the fourth quarter of 2021. However, market capitalisation declined in the quarter by 2.35% to US\$253.7 million.

1.6. Money Market Developments

Savings Deposit Rates

The annual inflation rate continues to be higher than the average savings deposit rates which were below 20% during the quarter, against an inflation rate of 72.7%. This implies that the real returns on money market investments remain negative thereby discouraging long-term savings.

1.7. COVID-19 Updates

The world Covid-19 cumulative cases reached 479.3 million at the end of March 2022, indicating a 72% increase from 278.9 million cases confirmed at the end of December 2021. Pandemic-related deaths also increased from 5.4 million to 6.1 cases (WHO, 2021). The resurgences of Covid-19 and lockdowns in several Chinese cities are of concern.

The total Covid-19 cases in Zimbabwe increased from 213, 258 as at 31 December 2021 to 246, 286 recorded as at 31 March 2022. The recovery rate also rose from 85% to 96% over the same period. The Covid-19 related deaths also increased from 5, 004 to 5, 444 cases. As at 31 March 2022, a total of 3, 529, 646 people had received their second dose.

1.8. Covid-19 Impact on Insurance and Pensions Industry

The Covid-19 pandemic provided impetus for insurance companies to increasingly adopt emerging technologies to drive efficiency, enhance cybersecurity, and expand capabilities. The adoption of emerging technologies should focus on improvement of customer experience by streamlining processes through automation as well as providing customised services where needed or preferred.

2. About the Commission

The Insurance and Pensions Commission (IPEC) is a statutory body mandated with regulating, supervising and developing the insurance and pensions industry for the protection of policyholders and pension scheme members in Zimbabwe. This report outlines short-term sector developments and IPEC's various activities in the short-term sector consistent with its statutory mandate during the quarter ended 31 March 2022.

2.1 Term of Reference

The activities of the Commission are guided by the following Acts and their Regulations:

- Insurance and Pensions Commission Act [*Chapter 24:21*];
- Pension and Provident Funds Act [*Chapter 24:09*];
- Insurance Act [*Chapter 24:07*];
- Money Laundering and Proceeds of Crime Act [*Chapter 09:24*];
- Finance Act [*Chapter 23:04*];
- Public Entities and Corporate Governance Act [*Chapter 10:31*];
- Public Finance Management Act [*Chapter 22:19*]; and
- Public Procurement and Disposal of Public Assets Act [*Chapter 22:23*]

3. The Architecture of the Short-Term Insurance Industry

There were nine hundred and sixty-seven (967) registered entities/persons in the short-term insurance industry as at 31 March 2022. The architecture of the industry is as shown in Table 3:

Table 3: Architecture of the Short-Term Insurance Industry

Type of institution	Number of registered entities/ Persons as at	
	31-March-2022	30-March-2021
Insurance Companies	19	18
Microinsurance Companies	8	2
Reinsurance Companies	10	8
Underwriting Management Entities	3	2
Insurance Brokers	28	31
Reinsurance Brokers	8	7
Loss Assessors	50	36
Corporate Agents	168	147
Sole Agents	673	483
Total	967	734

* Two insurers namely FBC Insurance Company and Alliance Insurance Company are composite insurers, however the figures in this report pertain to their short -term business only.

** The number of short-term reinsurers increased by one however, the report analysis pertains to nine reinsurers, and the newly registered entity has not yet started operation.

***Five reinsurers namely Emeritus Reinsurance Company, FBC Reinsurance Company, First Mutual Reinsurance Company, Grand Reinsurance Company and Zep Re are composite reinsurers who also write life business. However, the figures in this report pertain to their short-term business only.

4. Licensing

4.1 Newly Registered Players

During the quarter ended 31 March 2022, the Commission registered five (5) entities as listed in the table 4 below:

Table 4: Entities registered during the quarter ended 31 March 2022

Name of Entity	Class of Business	Date of Licensing
Connect Multiple Agent	Agent	19 January
Lions Risk Multiple Agent	Agent	14 February
Transaxis Reinsurance Company	Reinsurance	17 February
Clientsure Microinsurance	Microinsurance	28 February
Outrisk UMA	UMA	25 March

SECTION A

5. INSURANCE COMPANIES

5.1 Performance in terms of business written

The total business written by short-term insurers increased by 87.62% in nominal terms from ZW\$3.99 billion for the quarter ended 31 March 2021 to ZW\$7.49 billion for the period under review. The significant nominal growth is mainly attributable to insurance premiums tracking inflation. Figure 3 below shows the trend in the volume of the business generated by short-term insurers from 2017 to 2022.

Figure 3: Short-term insurers' trend in business written (March 2017 -2022)

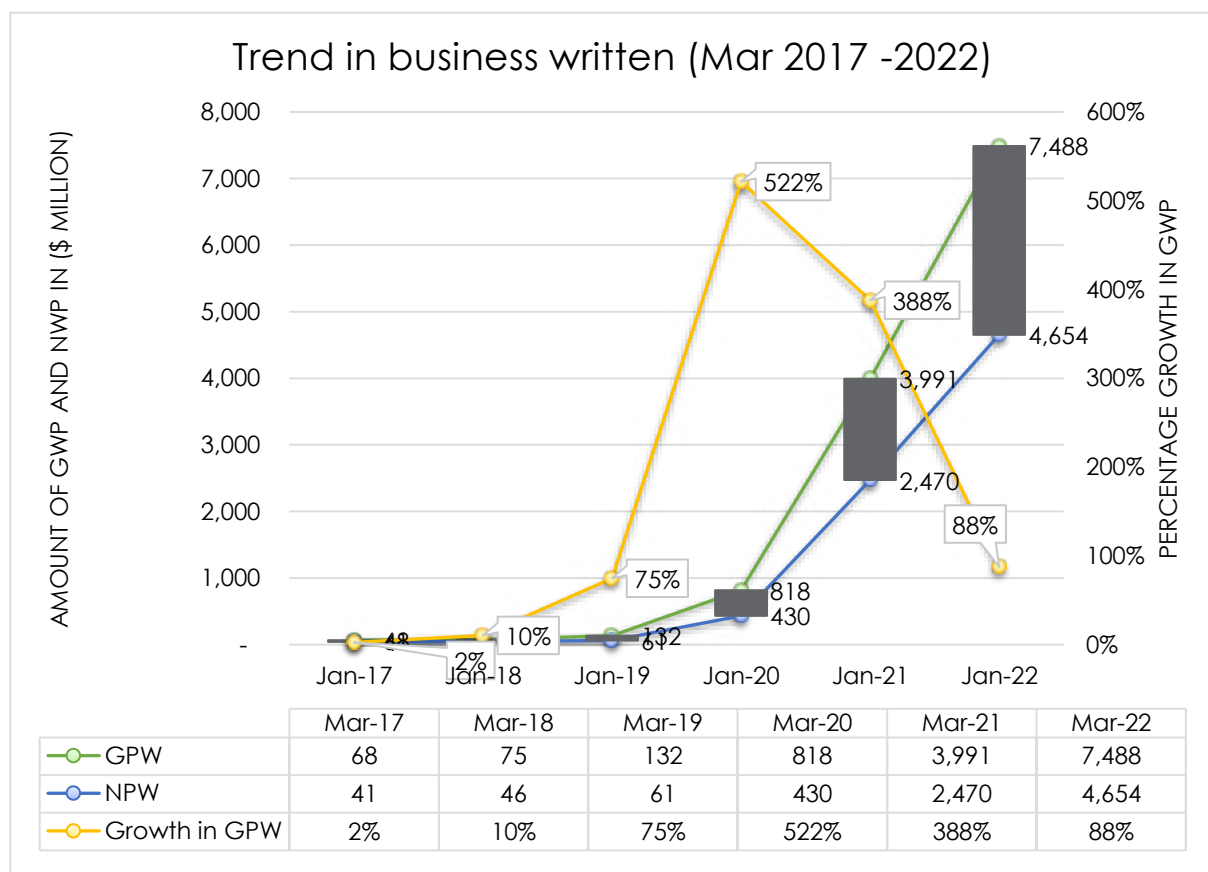

Table 5 below shows the percentage growth in GPW for different lines of business:

Table 5: Short-Term Insurers' GPW by Line of Business

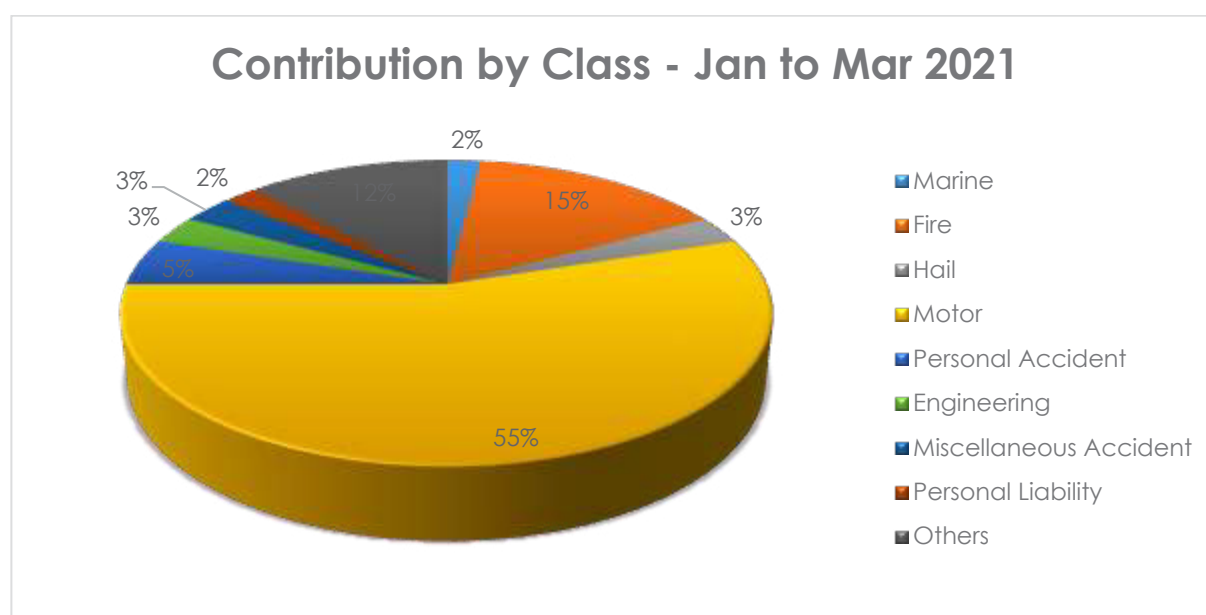

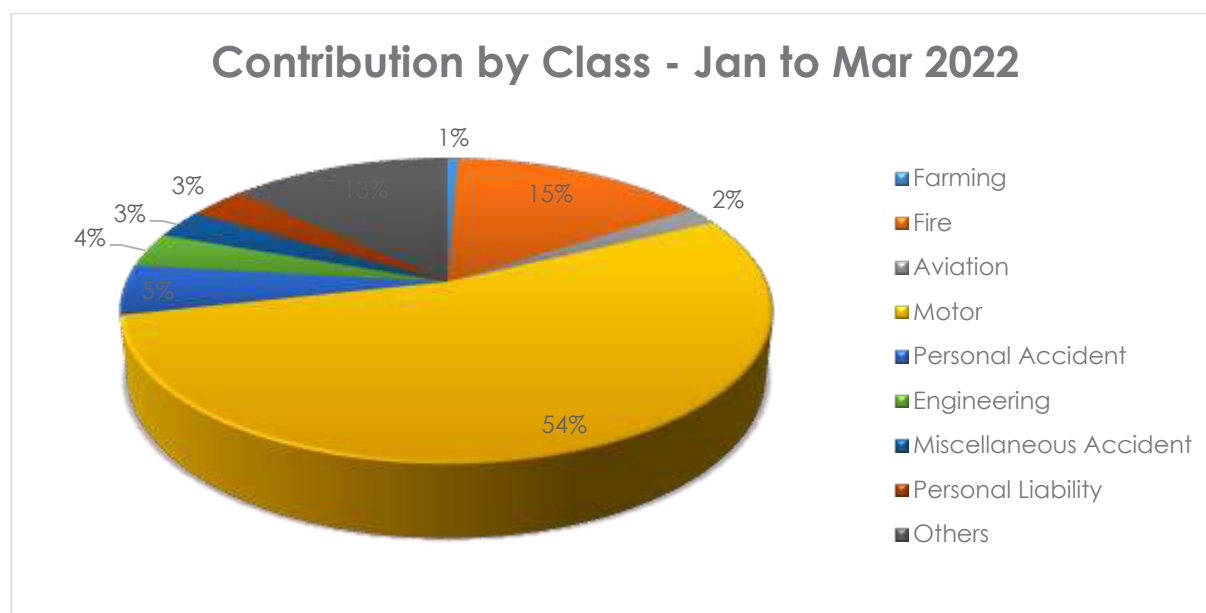

Line of Business	Gross Premium Written (ZWS Million)			Nominal % change	Inflation adjusted % change
	31-Mar-22 Inflation Adjusted	31-Mar-22 Nominal	31-Mar-21		
Aviation	85	146	57	157%	49%
Bonds/Guarantee	284	490	200	145%	42%
Engineering	158	274	142	93%	12%
Farming	28	49	134	-64%	-79%
Fire	660	1,139	604	89%	9%
Hail	102	177	108	64%	-5%
Marine	95	165	73	124%	30%
Misc. Accident	134	232	116	100%	16%
Motor	2,329	4,022	2,183	84%	7%
Personal Accident	229	396	201	97%	14%
Personal Liability	147	254	99	156%	48%
Others	84	145	74	97%	14%
Total	4,336	7,488	3,991	88%	9%

**Other comprise of casualty, directors' liability, health, hire purchase.*

As shown in Table 5 above, the real increase in GPW for the quarter ended 31 March 2022 was 9%. Farming and hail insurance lines of business decreased in real terms. The two lines of business contributed a meagre 2.9% of the total business generated by the industry in contrast to the agro-based structure of the Zimbabwean economy. The mismatch between the two indicators calls for more efforts to raise awareness in the agriculture value chain to harness existing opportunities and foster growth. Figure 4 below shows the contribution of GPW by line of business for short-term insurers.

Figure 4: Contribution to GPW by line of business for the quarter ended 31 March 2022 and 31 March 2021

*Others comprise of Aviation, Marine, Public liability, Directors' liability, Health, Hire Purchase

Motor and Fire lines of business remained the major sources of business for short-term insurers contributing 69% to the total business generated in 2022 down from 70% for the first quarter ending 31 March 2021.

5.2 Foreign currency denominated business

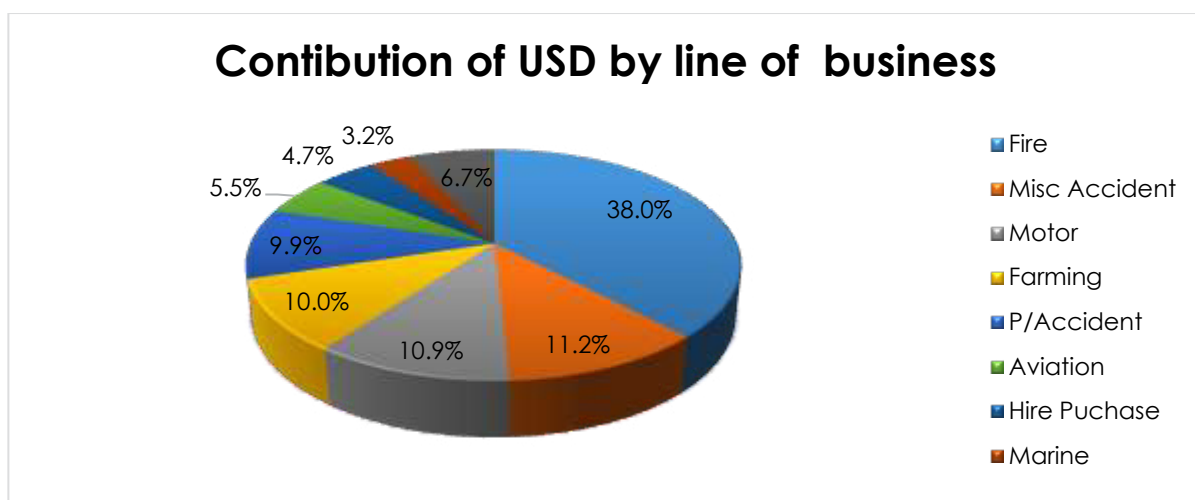

The foreign currency denominated Gross Premium Written for the quarter ended 31 March 2022 increased by 33.32% from US\$18.37 million reported during the first quarter in 2021 to US\$24.49 million reported for the comparative period in 2022. Foreign currency denominated business contributed 35% of the total business generated by short term insurers down from 38.85% recorded during the comparative period in 2021. The foreign currency denominated GPW by line of business for short-term insurers is shown in Table 6:

Table 6: Short-term insurers' USD GPW by line of business

Line of Business	USD('000) GPW		% change
	2021/03/31	2022/03/31	
Aviation	673,36	962,51	30,0%
Bonds	721,39	1 121,54	55,5%
Engineering	640,29	1 016,73	58,8%
Fire	3 326,91	4 173,87	25,5%
Hail	1 270,75	186,73	-85,3%
P/Liability	743,48	1 088,31	46,4%
Marine	899,72	985,41	9,5%
Miscellaneous Accident	644,41	511,08	-20,7%
Motor	7 476,31	11 312,58	51,3%
P/Accident	1 149,24	1 786,26	55,4%
Other	828,48	1 343,20	62,1%
Total	18 374,34	24 488,22	33,3%

*Other include Bankers Blanket Policy, Contractors All Risk, Directors and Officers liability, Employers Liability and Health

Figure 5: Short-term insurers' USD GPW by line of business for the January to March of 2022

*Others comprise of Aviation, Marine, Public liability, Directors' liability, Health, Hire Purchase

As shown in Figure 5 above and in line with ZWL denominated business, the major sources of foreign currency denominated business for short-term insurers were motor and fire lines of business, contributing a combined 63% of the total business written for the quarter ended 31 March 2022.

5.3 Capitalisation

Eighteen (18) out of the nineteen (19) operating insurers reported capital positions that were above the minimum capital requirement of ZW\$37.5 million as at 31 March 2022. The reported capital positions were computed without accounting for non-admissible assets as stipulated in Statutory Instrument 95 of 2017. The reported capital positions are shown in Table 7 below.

Table 7: Reported Capital Positions for Short-Term Insurers

Name of Insurance Company	Reported Capital Position (ZW\$ Million)	
	31-Mar-22	31-Mar-21
Alliance	1,675.02	699.57
Allied	295.25	193.98
CBZ	328.27	205.32
Cell	539.42	259.91
Champions	573.85	88.13
Clarion	196.58	104.09
CredSure	178.90	137.96
ECGC	402.75	134.30
Econet	1,126.62	396.80
Empaya	29.56	N/A
Evolution	662.49	538.05
FBC	494.03	252.62
Hamilton	169.13	51.30
Nicoz Diamond	1,253.23	539.57
Old Mutual	4,265.92	1,140.36
Quality	544.85	159.63
Safel	1,126.60	373.18
Sanctuary	207.51	220.08
Zimnat Lion	817.14	321.86
Total	14,887.14	5,816.71

* Empaya was registered in 2021. It was not part of the registered entities in March 2021.

All the nineteen insurers were compliant with the minimum solvency margin of 25% as stipulated in Section 24(1a) (ii) of the Insurance Act [Chapter 24:07] as shown in Appendix 1C.

Due to increase in inflation and deterioration of exchange rate, the current ZWL denominated MCRs have been rendered inadequate. Pending ZICARP launch effective 1 January 2023 which will come with AMCR, the Commission is currently reviewing the MCR to index it to USD as a stop gap measure to protect our policyholders. We therefore urge all regulated entities to put in place measures to comply with the revised MCR pending ZICARP launch.

5.4 Asset Quality

Total assets for short-term insurers increased by 150% from ZW\$11.44 billion reported as at 31 March 2021 to ZW\$28.62 billion reported as at 31 March 2022.

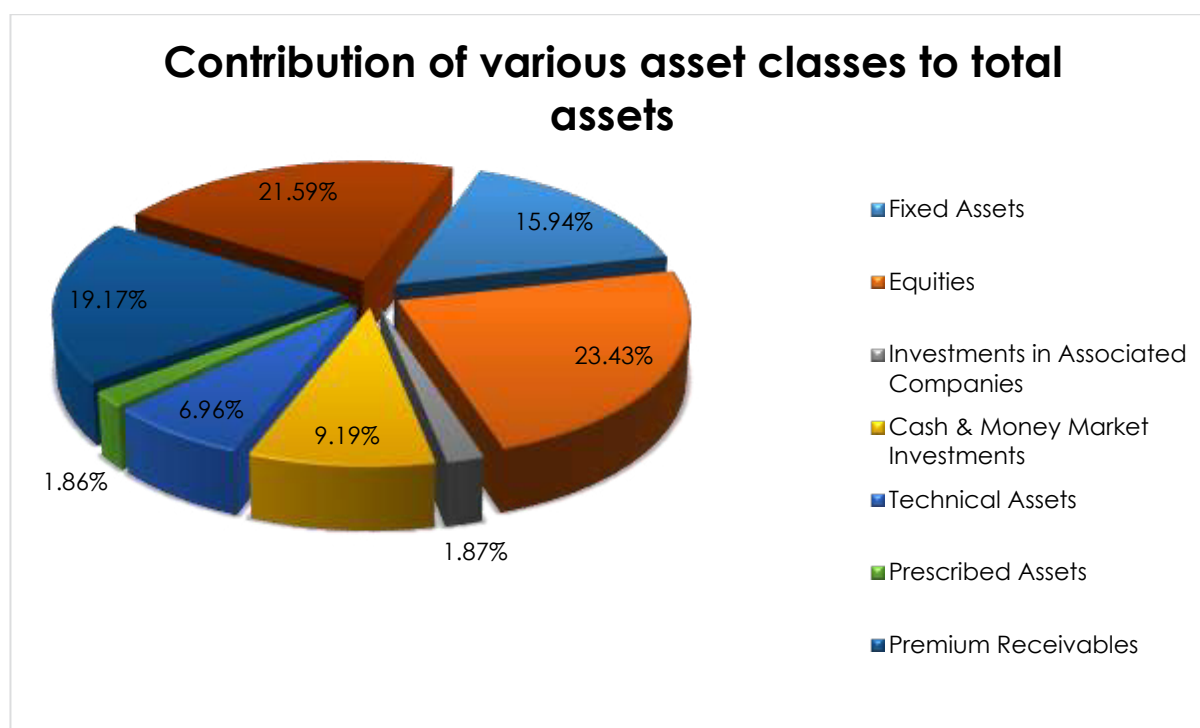

Premium debtors increased by 78% from ZW\$3.08 billion reported as at 31 March 2021 to ZW\$5.49 billion as at 31 March 2022. The increase in premium receivables is a sign of ineffective credit control systems by insurers in the management of credit risk. The increase in premium debtors is a cause for concern and the Commission is working on a No Premium No Cover Policy framework to regulate the issuance of policies on credit as an intervention to address this challenge.

Investments in prescribed assets increased by 49.82% from ZW\$354.72 million as at 31 March 2021 to ZW\$531.45 million as at 31 March 2022. Despite the increase in prescribed asset investments, none of the nineteen short-term insurers was compliant with the minimum prescribed asset ratio of 10% as at 31 March 2022.

Compliance with prescribed asset requirements remains significantly very low. IPEC wrote to the industry to submit their compliance roadmaps and the industry is sending their roadmaps which are being approved by the Commission. The Commission still expects the submission of project initiatives that speak to industry needs for the consideration in the conferment of prescribed asset status, as well as the submission of compliance roadmaps.

The breakdown of total assets by asset class as at 31 March 2022 is shown in Figure 6 below:

Figure 6: Breakdown of total assets by asset class

Fixed assets, equities and premium receivables were the three major asset classes accounting for 70% of total assets. Property and equipment alone constituted 16% against a limit of 10% while premium debtors and other assets contributed 19% and 22% respectively against a limit of 5% in violation of Circular 2 of 2013 on investment limits.

Short term insurance players are encouraged to structure their investment portfolios in ways that enable not only preservation of policyholder value but also promote a balanced investment mix in line with the Commission's investment limits and asset/liability profiles.

5.5 Reinsurance

The industry's average retention ratio increased slightly from 62.04% for the quarter ended 31 March 2021 to 62.15% for the quarter ended 31 March 2022. This shows a slight increase in the average risk appetite by the direct short-term insurers. Retention ratios for individual insurers ranged from 31.65% to 100%.

The average reinsurance share of outstanding claims to gross outstanding claims ratio was 58.26% as at 31 March 2022, compared to 10.89% reported as

at 31 March 2021. This indicates an increase in amounts owed to insurers by reinsurers. The development shows the adoption of prudent risk management practices by direct insurers which is expected especially during inflationary environments. (See Appendix 1C for more indicators).

5.6 Technical Position

Technical liabilities for the short-term sector increased by 239.58% from ZW\$1.94 billion as at 31 March 2021 to ZW\$6.59 billion as at 31 March 2022. The average liquid assets to technical reserves for the period under review decreased from 92.41% in March 2021 to 62.65% during the comparative period in 2022. The ratio measures the degree to which an insurer can cover its unexpected technical obligations by holding cash and other liquid investments without the sale of strategic investments that may result in realised losses. The decline in the average liquid assets to technical reserves indicates a decline in cautiousness by industry players, as less liquid assets were set aside for unexpected claims.

The technical assets for short-term sector increased by 542% from ZW\$0.31 billion as at 31 March 2021 to ZW\$1.99 billion as at 31 March 2022. Technical assets were ZW\$4.60 billion lower than the technical liabilities. The industry is encouraged to improve on their claims settling pattern to reduce their outstanding liabilities.

5.7 Earnings

The short-term insurers reported a total profit after tax of ZW\$2.96 billion for the quarter ending 31 March 2022, indicating a nominal increase of 183.13% in from the ZW\$1.04 billion reported in the comparative period in 2021.

There was an increase in the combined ratio for the short-term insurers from 84.41% during the twelve months of 2021 to 105.01% during the same period in 2022. The increase in the combined ratio to levels above 100% is undesirable as it indicates underwriting losses by players.

In line with the increase in the combined ratio, the short-term insurers made an underwriting loss of ZW\$674.36 million for the period ending 31 March 2022 as

compared to a profit of ZW\$449.18 million recorded during the same period in 2021. Thirteen (13) out of the nineteen (19) short-term insurers reported underwriting losses during the period under review compared to three (3) reported for the first quarter of 2021.

The average net commission ratio was 11.98% for the period under review compared to 17.52% for the twelve months of 2021. The decrease shows that the industry reduced the commissions paid to intermediaries as compared to the previous reporting period. The decrease in average commission rate is in line with the Commission's corrective measures following the thematic offsite inspection on commissions. The highest net commission paid by a short-term insurer for the period under review was 38.10% of earned premiums. Players are reminded to observe the dictates of Circular 2 of 2009 with regards to commissions. (For individual short-term insurers' net commission ratios, please refer to Appendix 1C).

The industry's average return on assets (ROA) and return on equity (ROE) were 20.54% and 39.51% for the period under review, compared to 18.26% and 35.93% respectively for the quarter ended 31 March 2021. The increase in ROA shows that the short-term insurance sector is fairly utilising its investment assets to increase profitability. (For more performance indicators on profitability refer to Appendix 1C under earnings).

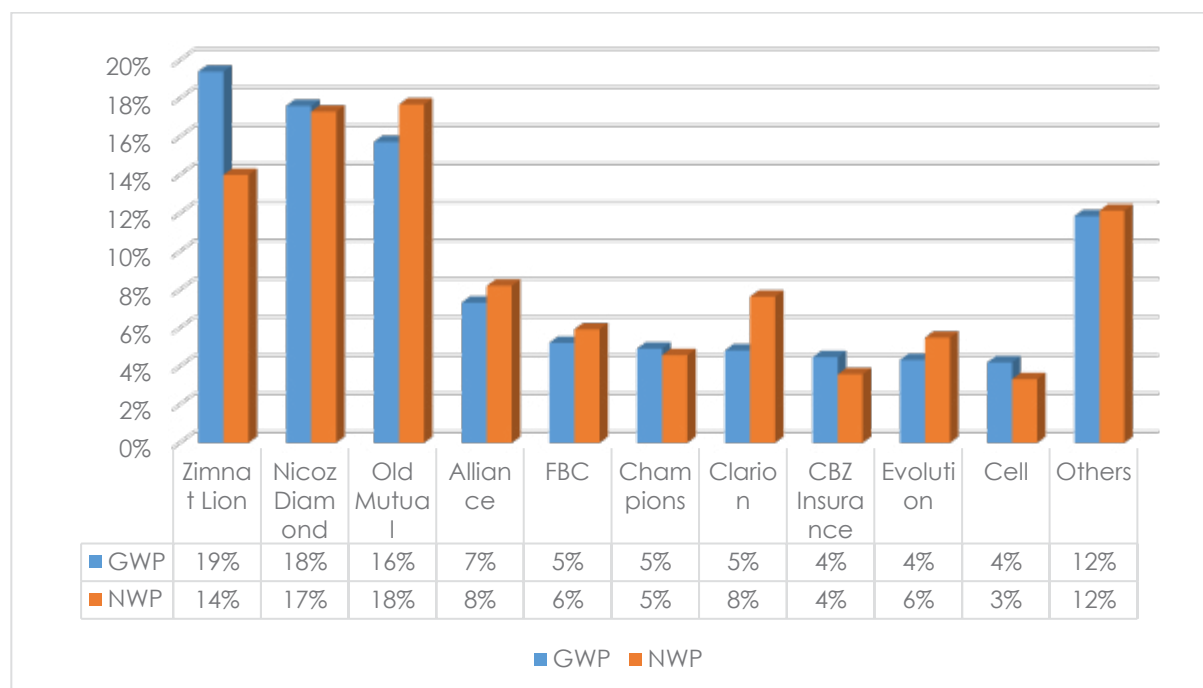

5.8 Liquidity

Liquid assets in the form of cash and cash equivalents, money market instruments and short-term prescribed assets increased by 51.19% from ZW\$2.09 billion as at 30 March 2021 to ZW\$3.16 billion as at 31 March 2022. Eight (8) out of the nineteen operational short-term insurers had negative working capital ratios while the industry's acid test ratio averaged 26.08% as at 31 March 2022. The low ratio is a cause for concern as short-term insurers face a high liquidity risk leading to low capacity to meet short-term financial obligations. The acid test ratio for individual insurers as at 31 March 2022 ranged from 7.94% to 355.02% as shown in Appendix 1C.

5.9 Market share for short-term insurers

Consistent with the trend in 2021, Zimnat Lion, Nicoz Diamond and Old Mutual have remained the market leaders in terms of GPW with a combined market share of 52.78% for the quarter ended 31 March 2022. Figure 7 below shows market share in terms of GPW and NPW for all insurers:

Figure 7: Market Share for Short Term Insurers in Terms of GPW

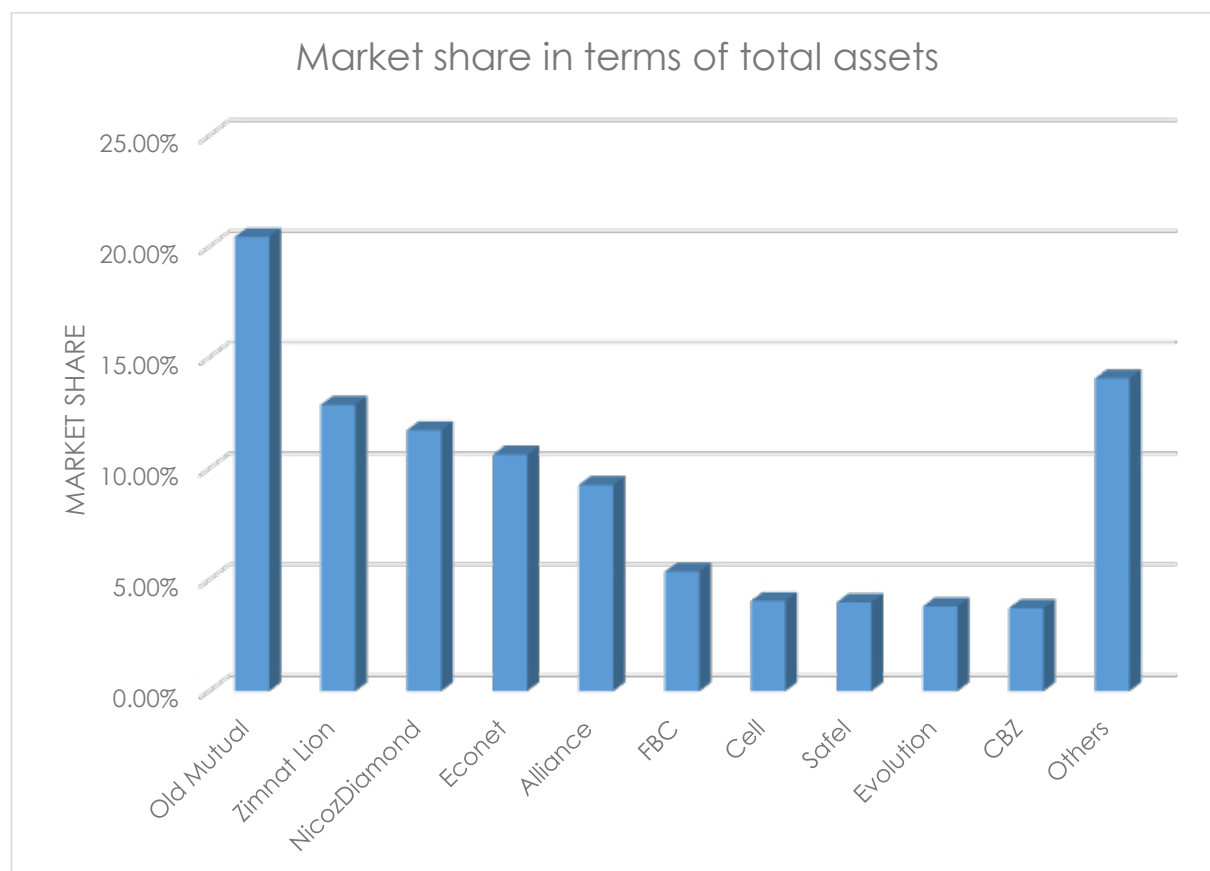

Other include Allied, Empaya, Credit Insurance, ECGC, Evolution, Hamilton, Quality, Safel and Sanctuary

In terms of total assets, the market leaders were Old Mutual, Zimnat Lion and Nicoz Diamond with a combined market share of 45.05% as shown in figure 8.

Figure 8: Market Share for Short Term Insurers in Terms of Assets

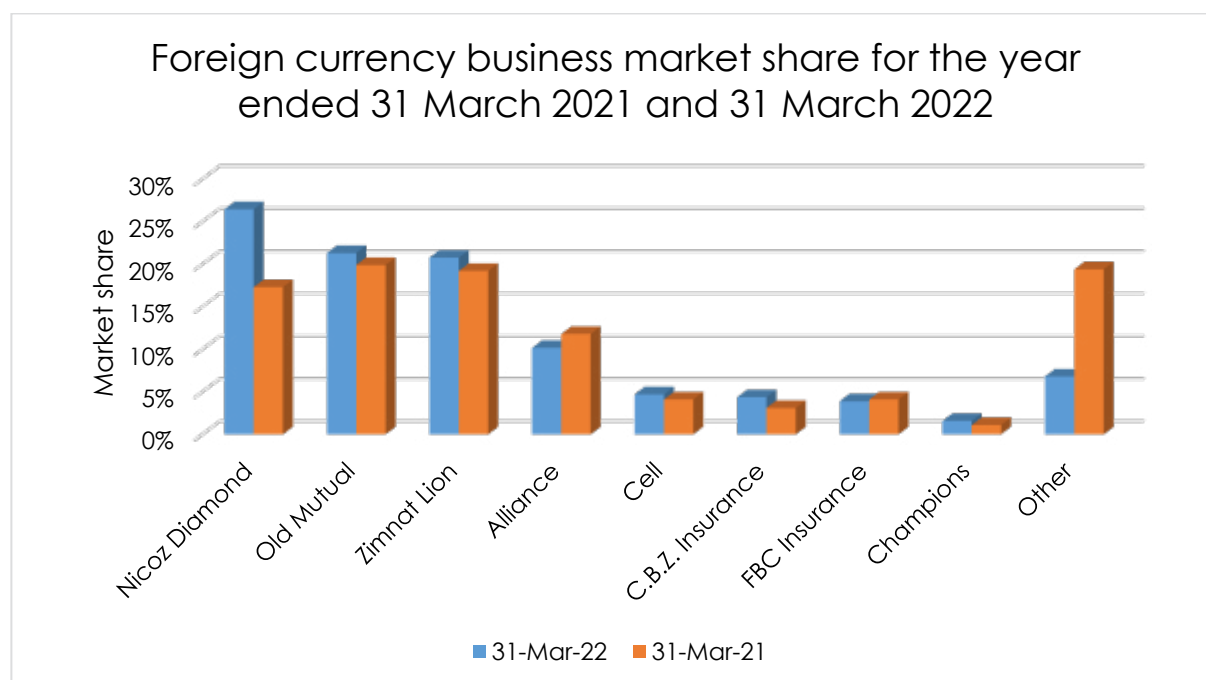

*Other include Allied, Empaya, Champions, Clarion, Credit Insurance, ECGC, Hamilton, Quality, Safel and Sanctuary.

5.10 Market Share for Short-term Insurers in terms of Foreign Currency Denominated Business

During the quarter ended 31 March 2022, Nicoz Diamond, Old Mutual and Zimnat Lion Insurance dominated the market with a combined market share of 68% in terms of foreign currency denominated GPW. The market share in terms of foreign currency denominated business is shown in figure 9 below.

Figure 9: Market Share of USD Business for Short-Term Insurers for the quarter ended 31 March 2022 and 31 March 2021

*Others include Allied, Champions, Clarion, Credsure, Econet, ECGC, Hamilton, Quality, Safel and Sanctuary.

** Empaya did not write any foreign currency denominated business.

***Evolution did not submit their forex return for the quarter ended 31 March 2022.

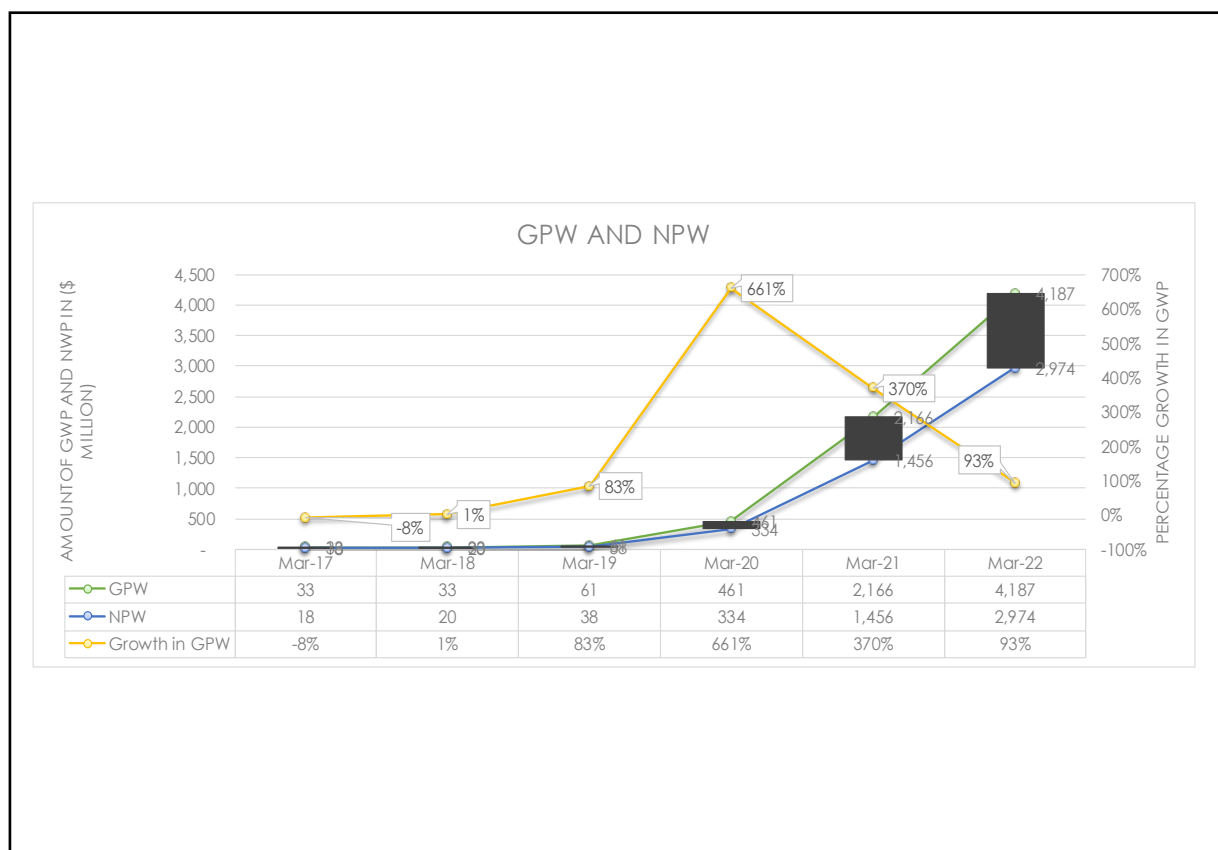

SECTION B

6. REINSURANCE COMPANIES

6.1 Performance in terms of business written

The total business written by short-term reinsurers increased by 93.33% in nominal terms from ZW\$2.17 billion for the quarter ended 31 March 2021 to ZW\$4.19 billion for the comparative period in 2022. Figure 10 below shows the trend in volume of business written by short-term reinsurers from 2017 to 2022:

Figure 10: Short-term reinsurers' trend in business written from 2017 to 2022

The significant increase in business written between 2019 and 2022 is attributed to premium reviews as insurers sought to align with inflation developments and exchange rate volatility.

Table 8 below shows the percentage growth in GPW for different lines of business.

Table 8: GPW by line of business for the quarter ended 31 March 2022 and 31 March 2021

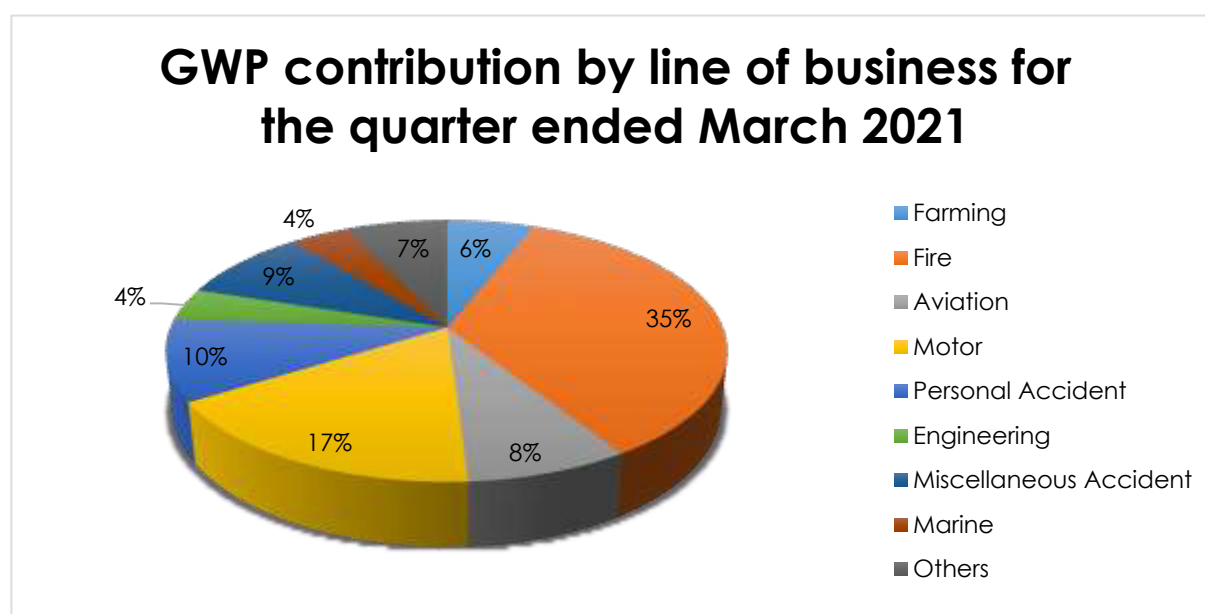

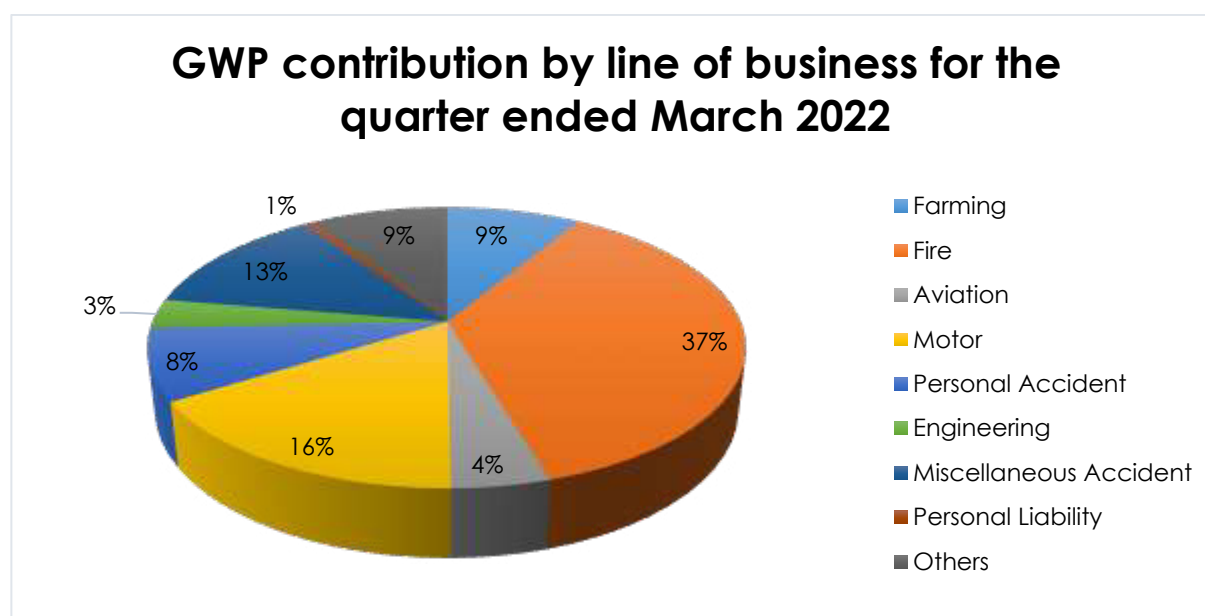

Class of Business	Gross Premium Written (ZW\$ Million)			Nominal % change	Inflation adjusted % change
	31-Mar-22 Inflation Adjusted	31-Mar-22 Nominal	31-Mar-21		
Aviation	105	181	163	11.28%	-35.56%
Bonds/Guarantee	59	103	15	595.15%	302.52%
Casualty	-	-	66	-100.00%	-100.00%
Engineering	79	136	84	61.84%	-6.29%
Farming	202	349	132	165.18%	53.55%
Fire	859	1,484	764	94.16%	12.43%
Marine	66	114	87	30.05%	-24.70%
Miscellaneous Accident	300	519	187	178.19%	61.08%
Motor	379	654	379	72.76%	0.04%
Personal Accident	193	333	219	52.23%	-11.85%
Personal Liability	15	26	43	-38.99%	-64.67%
Others	166	287	10	2834.56%	1599.22%
Total	2,424	4,187	2,166	93.29%	11.92%

*Other comprises of hire purchase, hail, health and casualty.

As seen in Table table 8 above, the real increase in GPW for the quarter ended 31 March 2022 was 8%. Six (6) lines of business experienced a decrease in income. Figure below shows the contribution to GPW by line of business for short-term reinsurers.

Figure 11: The contribution to GPW by line of business for short-term reinsurers

**Other comprises of hire purchase, hail, health and casualty.*

In line with developments in the short-term direct business, Motor and Fire lines of business were the major sources of business for the quarter ended 31 March 2021 and 31 March 2022 contributing 52% and 53 respectively to the GPW. While fire insurance was the major source of business for reinsurers, motor

insurance was the major source of business for direct underwriters indicating that direct underwriters retained the major portion of motor insurance risk confirming that third party motor insurance has remained the major source of business in the local market.

6.2 Foreign currency denominated business

The total foreign currency denominated business written by short-term reinsurers increased by 45.71% from US\$17.48 million reported during 2021 to US\$25.47 million for the comparative period in 2022. Table 9 shows the GPW by line of business for the quarter ended 31 March 2022 and 31 March 2021.

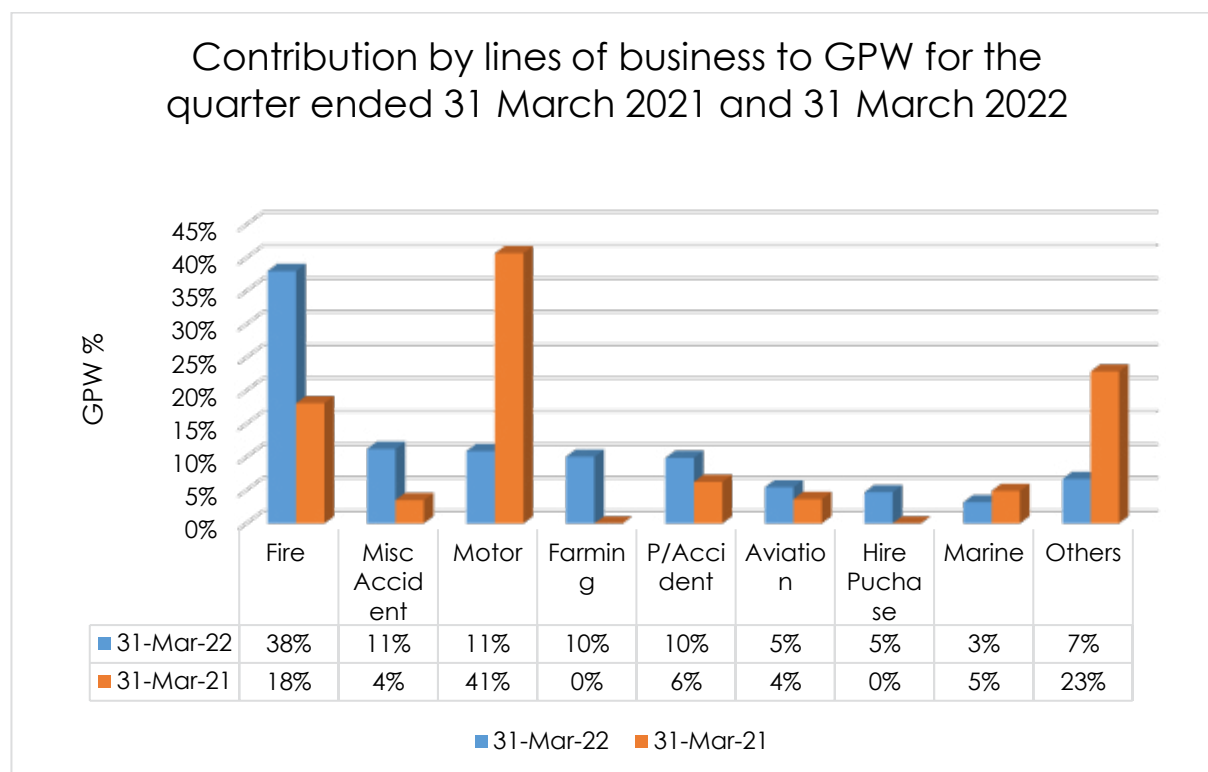

Table 9: GPW by line of business (31 March 2022 and 31 March 2021)

Line of business	GPW (USD'000) 31 March 2022	GPW (USD'000) 31 March 2021	% Change
Aviation	1 389,09	1 321,00	5,2%
Bonds	657,07	82,95	692,1%
Engineering	503,41	574,08	-12,3%
Farming	2 557,91	910,06	181,1%
Fire	9 679,48	6 147,65	57,5%
Health	99,30	143,67	-30,9%
Hire Purchase	1 194,33	9,98	11867,2%
Marine	811,91	1 043,61	-22,2%
Miscellaneous Accidents	2 859,75	1 416,66	101,9%
Motor	2 774,45	2 400,69	15,6%
P/Accident	2 516,00	2 408,25	4,5%
P/Liability	76,91	373,27	-79,4%
Other	353,80	651,73	-45,7%
Total	25 473,41	17 483,60	45,7%

*Other comprises of hire purchase and casualty.

All the other classes of business except engineering, health, marine, public liability and 'Other' had growth in business.

Figure 12: Contribution by line comparison 31 March 2022 and 31 March 2021

Other include Hail, Assets All Risks, Business combined policy, Professional indemnity and Directors and Officers liability

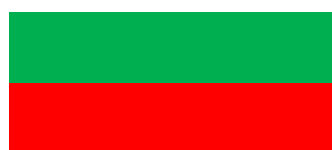

Consistent with 2021 trend in foreign currency denominated business, the major class of business written by short-term reinsurers was fire business contributing 38% of the gross premium written for the quarter ended 31 March 2022.

6.3 Capitalisation

As at 31 March 2022, all the registered short-term reinsurers reported capital positions that were above the minimum capital requirement of ZW\$75 million. However, the reported capital positions were not adjusted in line with the provisions of Statutory Instrument (SI) 95 of 2017, which, among other things, discount non-permissible assets. The reported capital positions as at 31 March 2021 and 31 March 2022 for short-term reinsurers are shown in Table 10 below.

Table 10: Reported capital position for short term reinsurers

Name of Reinsurance Company	Reported Capital Position (ZW\$Million)	
	31-Mar-22	31-Mar-21
Emeritus Re	1,020.57	228.13
FBC Re	1,184.37	632.76
FM RE	942.08	319.17
Grand Re	475.98	304.51
Tropical Re	619.46	439.48
WAICA Re	1,543.25	396.14
ZB Re	1,701.86	621.12
Muca Re	281.54	NA
Zep - Re	1,194.26	774.84
Total	8,963.37	3,716.15

Key

Above minimum capital requirement of ZW\$75 million

Below minimum capital requirement of ZW\$75 million

All the reinsurers were compliant with the minimum solvency margin of 25% as stipulated in Section 24(1a) (ii) of the Insurance Act [Chapter 24:07]. The solvency margin for individual reinsurers as at 31 March 2022 ranged from 177% to 2 025% as shown in Appendix 2C.

Due to increase in inflation and deterioration of exchange rate, the current ZWL denominated MCRs have been rendered inadequate. Pending ZICARP launch effective 1 January 2023 which will come with AMCR, the Commission is currently reviewing the MCR to index it to USD as a stop gap measure to protect our policyholders. We therefore urge all regulated entities to put in place measures to comply with the revised MCR pending ZICARP launch.

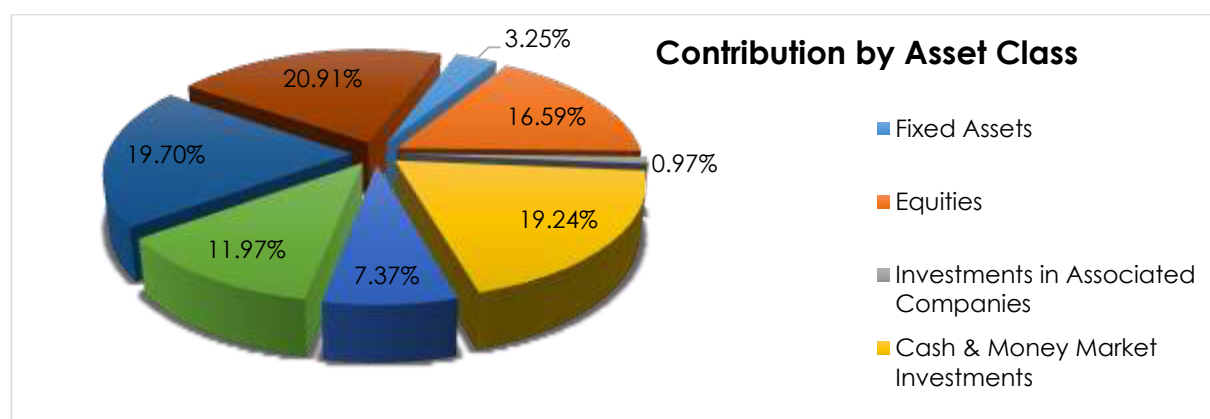

6.4 Asset quality

The asset base for short-term reinsurers increased by 132.53% from ZW\$7.60 billion reported as at 31 March 2021 to ZW\$17.66 billion as at 31 March 2022. Investments in prescribed assets increased from ZW\$1.23 billion as at 31 March 2021 to ZW\$2.11 billion as at 31 March 2022. However, only three (3) out of the nine (9) reinsurers were compliant with the requisite prescribed asset threshold of 10%.

Premium receivables increased from ZW\$1.54 billion as at 31 March 2021 to ZW\$3.48 billion as at 31 March 2022, indicating an increase of 125.61%. The increase in premium receivables is a cause for concern as it indicates ineffectiveness of credit control systems to manage credit risk by players.

The contribution of various asset classes to total assets as at 31 March 2022 is shown in Figure13 below:

Figure13: Short-Term Reinsurers' Total Assets: Contribution by Asset Class

Cash & money market instruments, premiums receivables and equities were the major asset classes making up 55.53% of total assets. Premium debtors and other assets contributed 19.70% and 20.91% respectively against a limit of 5% in violation of Circular 2 of 2013 on investment limits.

6.5 Technical Position

Total technical liabilities increased from ZW\$2.25 billion as at 31 March 2021 to ZW\$4.76 billion as at 31 March 2022 indicating an increase of 111.42%. Gross Outstanding Claims and Unearned Premium Reserves, which amounted to ZW\$3.49 billion accounted for 73% of the total technical liabilities.

The technical assets increased from ZW\$0.34 billion as at as at 31 March 2021 to ZW\$1.30 billion as at 31 March 2022 indicating an increase of 283.27%. Technical assets are ZW\$3.45 billion lower than the technical liabilities. The industry is encouraged to improve on their claims settling pattern so as to reduce their outstanding liabilities.

6.6 Retrocession

The sector's average retention ratio was 71.03% for the quarter ended 31 March 2022 compared to 67.24% during the comparative period in 2021. This reflects a slight increase in risk appetite by the short-term reinsurance companies. The individual reinsurers' reported retention ratios ranged from 43.54% to 93.92% for the period under review. (See Appendix 2C for more ratios)

6.7 Earnings

Total profit after tax for short-term reinsurers increased by 287.80% from ZW\$0.41 billion for the period ended 31 March 2021 to ZW\$1.59 billion for the period ended 31 March 2022.

The average net commission ratio was 27.25% for the period under review compared to 33.77% for the quarter ended 31 March 2021. This shows that the average commission paid by short-term reinsurers decreased when compared to the same period in 2021. The highest net commission ratio paid by a short-term reinsurer during the period under review was 41.01% of earned premiums, in violation of the limits prescribed by Circular 9 of 2009.

The average combined ratio for the short-term reinsurers decreased from 100.76% for the quarter ended 31 March 2021 to 95.80% for the period under review. The decrease indicates improved operational profitability by the sector. The combined ratio and other ratios that relate to profitability for short-term reinsurers is shown in Appendix 2C under earnings.

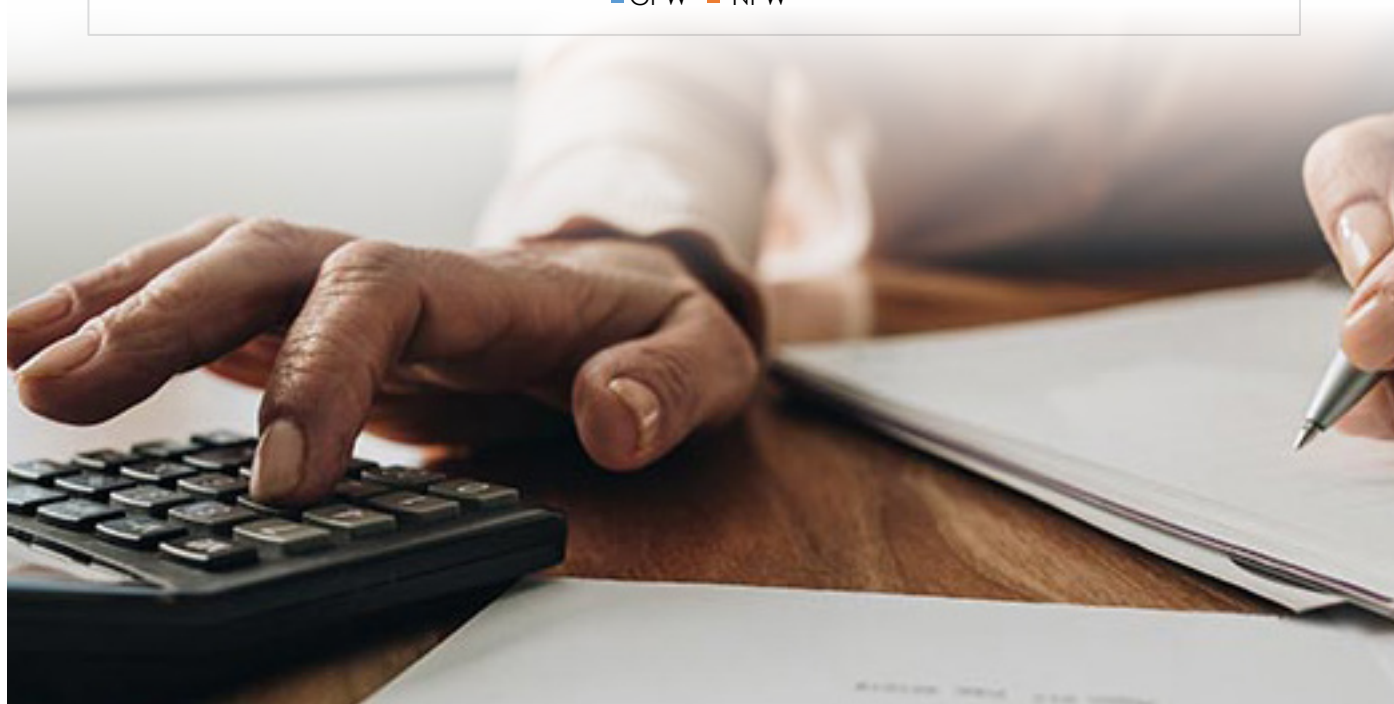

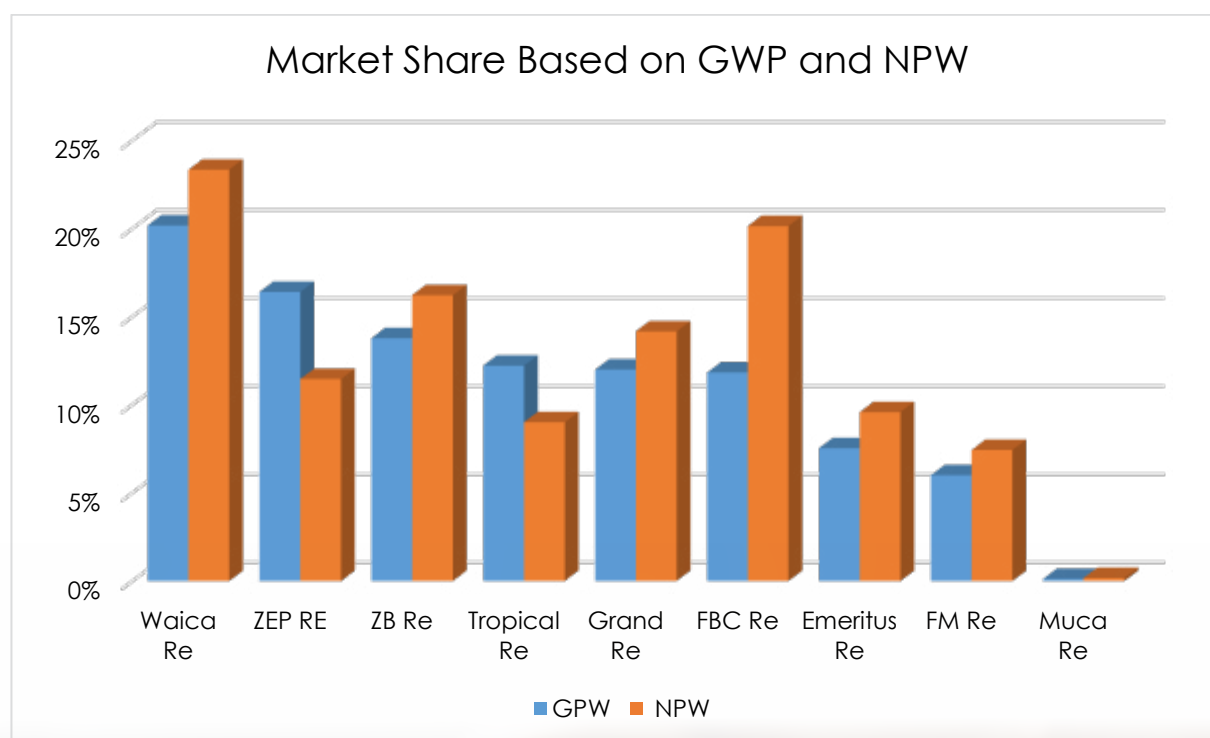

6.8 Liquidity

Liquid assets in the form of cash and money market instruments held by short-term reinsurers increased by 85.18% from ZW\$2.16 billion as at 30 March 2021 to ZW\$3.40 billion as at 31 March 2022. The average acid test ratio for short-term reinsurers increased from 47.30% as at 31 March 2021 to 70.60% as at 31 March 2022. The increase in average acid test ratio indicates a decrease in liquidity risk for short term reinsures. The acid test ratios for short-term reinsurers are shown in Appendix 2C under liquidity.

6.9 Market share for reinsurers

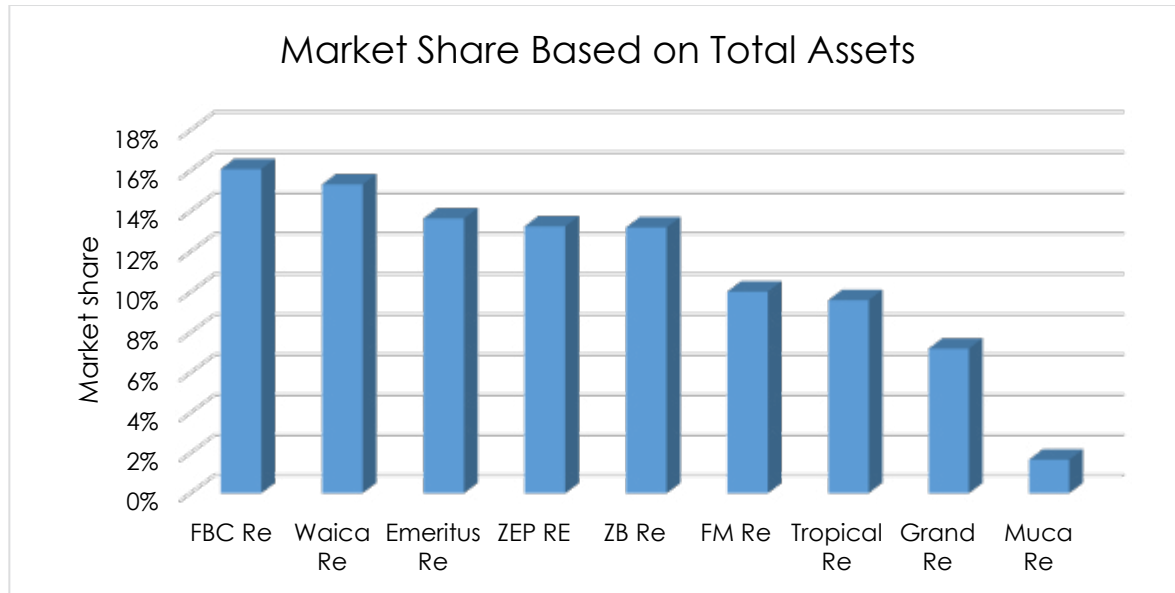

As shown in Figure 14 below, the market leaders in terms of GPW were Waica Re, Zep Re and ZB Re. These reinsurers controlled 48.6% of the market in terms of Gross Premium Written (GPW) for the quarter ended 31 March 2022. The market leaders in terms of the Net Premium Written (NPW) were Waica Re, FBC Re and Emeritus Re who collectively controlled 52.9% of the NPW for the quarter ended 31 March 2022.

Figure 14: Market Share for Short -Term Reinsurers in Terms of GPW and NPW

In terms of total assets, Waica Re, Zep-Re and ZB Re were the market leaders for the quarter ended 31 March 2022, with a combined market share of 45% as depicted in Figure15.

Figure15: Market Share for Short -Term Reinsurers in Terms of Assets

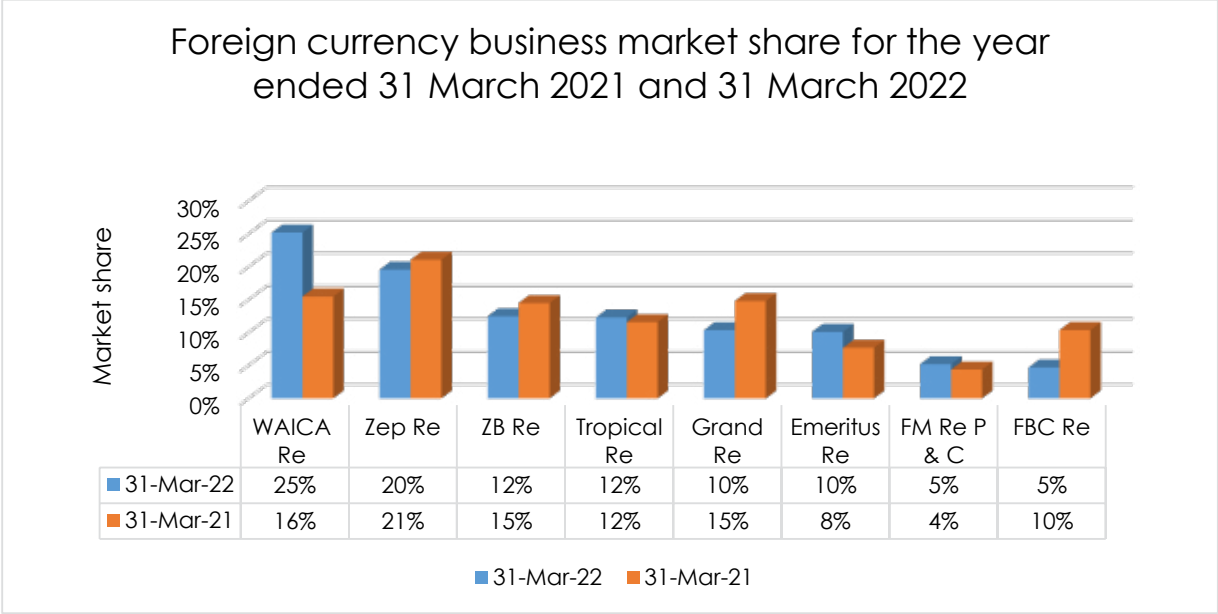

6.10 Foreign Currency Denominated Business

In terms of foreign currency denominated business for the quarter ended 31 March 2022, all reinsurers submitted their forex returns. However, one of the reinsurers did not write any USD business. The market leaders in terms of foreign currency denominated GPW were Waica Re, Zep Re and ZB Re. These reinsurers controlled 57.3% of the market during the quarter ended 31 March 2022 as shown in Table 11 below.

Table 11: Foreign currency denominated GPW for quarter ended 31 March 2022

Reinsurer	GPW (USD)	Market share
WAICA Reinsurance Company	6,421,817.26	25,2%
Zep Reinsurance Company	4,985,722.95	19,6%
ZB Reinsurance Company	3,183,971.20	12,5%
Tropical Reinsurance Company	3,132,796.00	12,3%
Grand Reinsurance	2,645,104.18	10,4%
Emeritus Reinsurance Company	2,577,132.42	10,1%
FMRE Property and Casualty	1,329,146.85	5,2%
FBC Reinsurance Company	1,197,721.89	4,7%
Muca Reinsurance Company	0.00	0,0%
Total	25 473 412,75	100%

Figure 16: Market Share for Short-Term Reinsurers in Terms of Foreign Currency Business for the quarter ended 31 March 2022 and 31 March 2021

SECTION C

7. MICROINSURANCE COMPANIES

7.1 Introduction

There were eight (8) micro-insurance companies that were registered as at 31 March 2022. These were Coverlink Micro-insurance, Golden Knot Micro-insurance, EBA Micro-insurance, Microsure Micro-insurance Company, Rise Capital Micro-insurance, Clientsure Micro-insurance, Zambuko Micro-insurance and Ethical Micro-insurance. However, only Coverlink and Golden Knot were operating during the quarter ended 31 March 2022. The other micro-insurers were recently registered and not yet operating.

7.2 Business Written

The total Gross Premium Written by the two (2) micro-insurers increased by 148.07% from ZW\$91.48 million reported for the year ended 31 March 2021 to ZW\$226.93 million reported for the same period in 2022. In terms of foreign currency denominated business, Golden Knot did not write any foreign denominated business. Coverlink reported foreign currency denominated business amounting to US\$704.00 for the year ended 31 March 2022 which was a 194.56% increase from US\$239.00 reported the same period in 2021.

7.3 Capitalisation

As shown in Table 12 below, both micro-insurers were compliant with the minimum capital requirement of ZW\$4.5 million as at 31 March 2022.

Table 12: Reported Capital Positions for Micro-insurers

Microinsurer	Reported Capital Position (ZW\$ Million)	
	31 March 2022	31 March 2021
Coverlink	157,07	129,08
Golden Knot	101,85	24,86
Total	258,92	153,94

Due to increase in inflation and deterioration of exchange rate, the current ZWL denominated MCRs have been rendered inadequate. Pending ZICARP

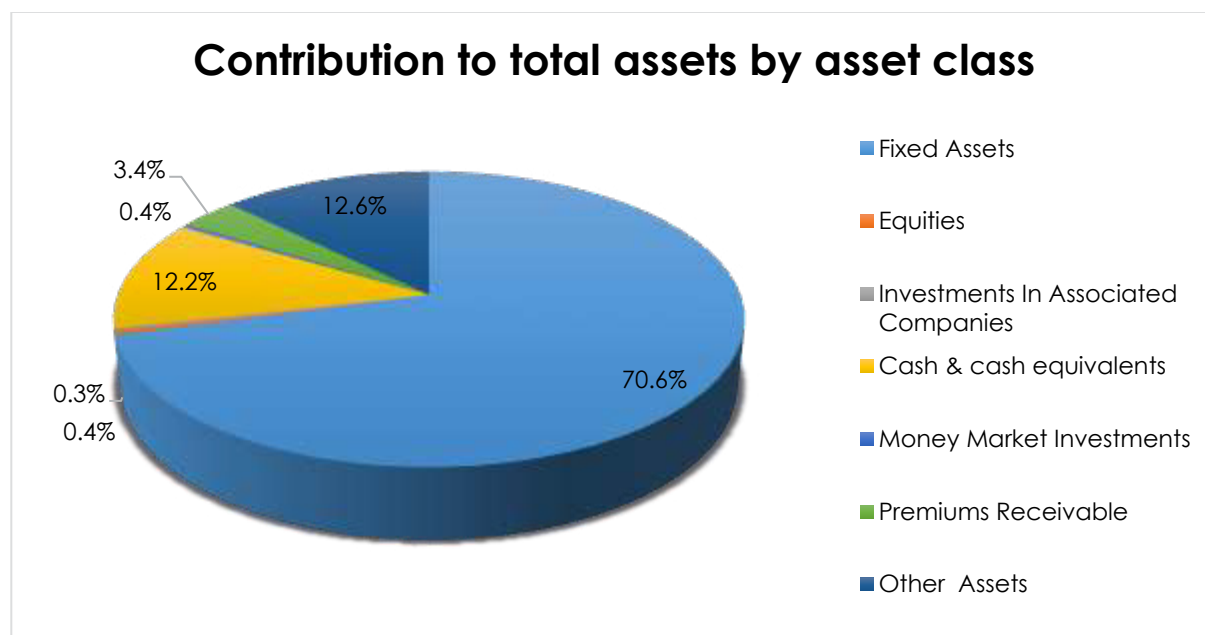

launch effective 1 January 2023 which will come with AMCR, the Commission is currently reviewing the MCR to index it to USD as a stop gap measure to protect our policyholders. We therefore urge all regulated entities to put in place measures to comply with the revised MCR pending ZICARP launch.

7.4 Asset Quality

The micro-insurers reported a total asset base of ZW\$551.50 million as at 31 March 2022, which was an increase of 168.41% from the ZW\$205.47 million reported as at 31 March 2021. Both micro-insurers had no investments in prescribed assets as at 31 March 2022.

Premium receivables significantly increased from ZW\$2.01 million as at 31 March 2021 to ZW\$18.86 million as at 31 March 2022, indicating a percentage change of 838.31%. Microinsurers are encouraged to effectively manage premium debtors for the protection of both the policyholders and the sector. The contribution of various asset classes to total assets as at 31 March 2022 is shown in Figure 17 below:

Figure 17: Microinsurance: Breakdown of Total Assets by Class

Fixed assets were the major asset class, constituting 70.6% of total assets.

7.5 Earnings

The two micro-insurers recorded a total profit after tax of ZW\$32 million for the year ended 31 March 2022 compared to ZW\$33.79 million reported the same period in 2021. This indicates a 5.30% decrease in profit after tax.

7.6 Liquidity

The two micro-insurers reported cash and near-cash assets amounting to ZW\$69.52 million as at 31 March 2022 which was an increase from the ZW\$5.29 million reported as at 31 March 2021. The average acid test ratio was 57.63 as at 31 March 2022 which was an increase from 15.82% as at 31 March 2021. The increase in average acid test ratio indicates a decrease in liquidity risk for Microinsurers.

7.7 Market Share for Micro-Insurers

As shown in Figure 18 and 19 below, Coverlink Microinsurance Company has remained the market leader in terms of both GPW and total assets controlling 60.6% and 73.1% of the market respectively during the quarter ended 31 March 2022.

Figure 18: Market Share for Micro-insurers in Terms of GPW

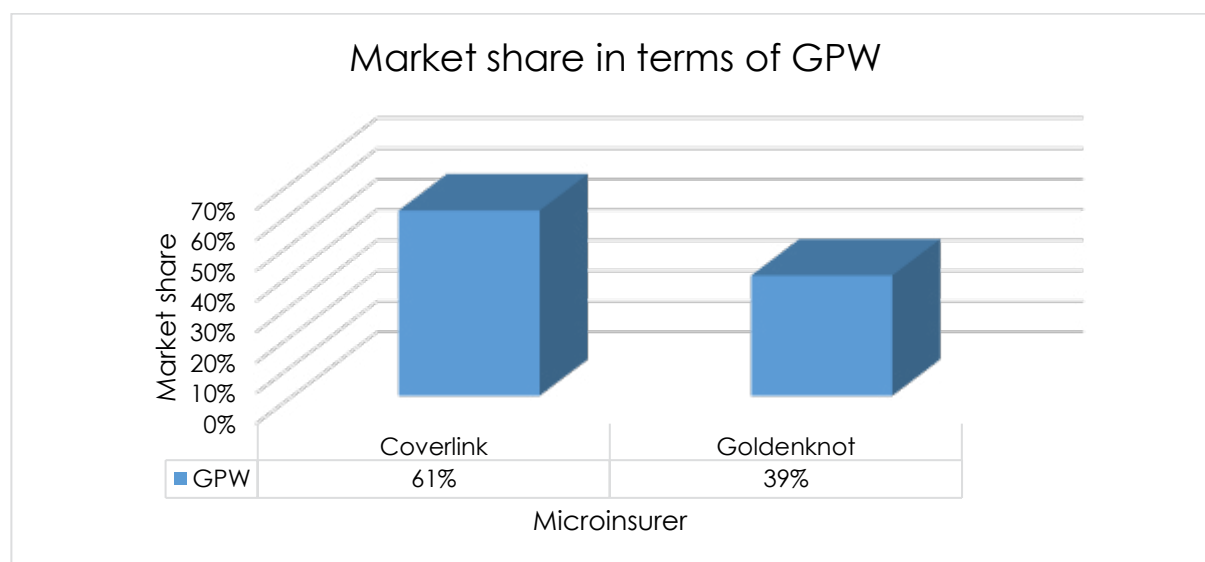

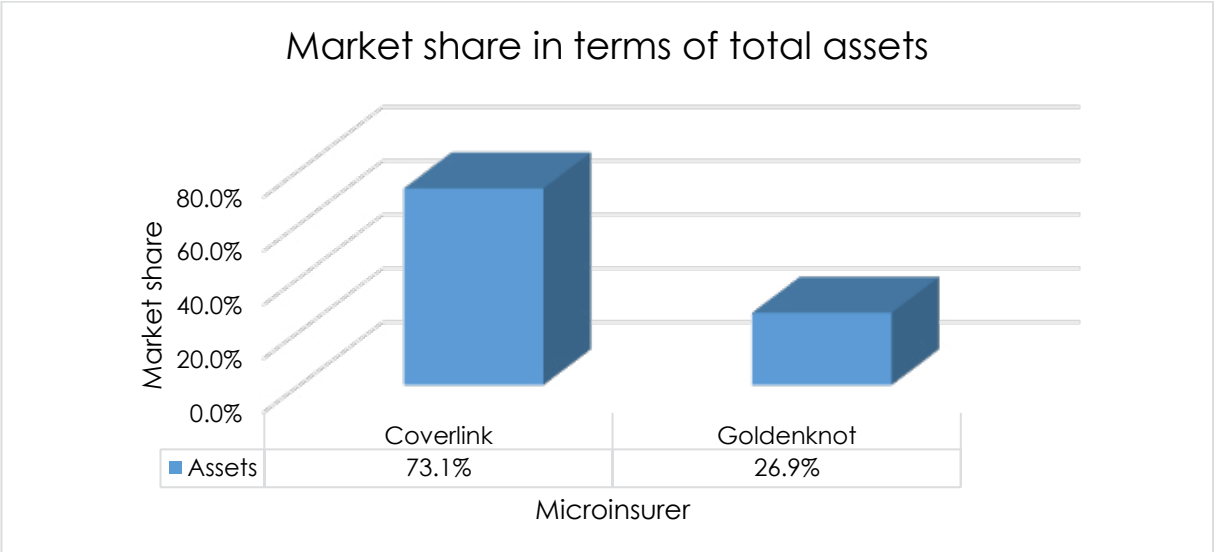

Figure 19: Market Share for Micro-insurers in Terms of Total Assets

SECTION D

8. BROKERS SECTION

8.1 Introduction

This section analyses the business performance of insurance brokers for the period ending 31 March 2022. During the period under review there were no changes in the number of registered insurance brokers. However, the operating environment remained unstable due to exogenous macroeconomic factors emanating from the ongoing Russia and Ukraine war. This has contributed to the high inflation and volatility in the foreign exchange market affecting the entire economy. However, notwithstanding the challenges, all the 28 registered insurance brokers submitted their 2022 first quarter returns.

8.2 Business Written by Direct Insurance Brokers

Gross premium receivable by the direct insurance brokers for the period ended 31 March 2022 increased by 91% from ZW\$2.1 billion in March 2021 to ZW\$4 billion. Inflation remained the major driver of growth in gross premium receivable by brokers as insurers review premiums in line with inflation developments. The table below shows the key performance indicators by direct insurance brokers during the period under review.

Table 13: Key Indicators for the business brokered by the Insurance Brokers for the period ended 31 March 2022.

Indicator	31-Mar-22	31-Mar-21	Percent change
	ZW\$ 000 000	ZW\$ 000 000	
Premium Written	3,996	2,089	91%
Premium Payable	3,339	1,760	90%
Brokerage Commission	653	329	99%
Commission Paid	58	30	92%
Net Brokerage Commission	599	299	100%
Other Income	31	14	124%
Operating Expenses	453	205	121%
Profit Before Tax	237	124	90%
Taxation	40	22	82%
Profit After Tax	247	102	141%

8.3 Capitalisation

As at 31 March 2022, all direct brokers reported capital positions above the ZW\$1.5 million minimum threshold. To avoid frequent reviews as well as ensure that the sector is sound, the Commission is working on benchmarking minimum capital requirements to the United States Dollar. Capital positions for the direct brokers as at 31 March 2022 are as illustrated in Table 14 below.

Table 14: Capital Positions for Insurance Brokers as at 31 March 2022.

Broker	31-Mar-22 (ZW\$000 000)	31-Mar-21 (ZW\$000 000)
Amour Khan	14	2
Broksure	4	4
Capitol Insurance	101	39
Care	17	2
CBZ Risk Advisory	200	73
Coverlink	11	7

SATIB	22	60
TIB	10	7
Victory	92	14
WFDR	93	40
ZIB	75	39

Key:

	Below minimum capital requirement of ZW\$1.5 million
	Above minimum capital requirement of ZW \$1.5 million

Due to increase in inflation and deterioration of exchange rate, the current ZWL denominated MCRs have been rendered inadequate. Pending ZICARP launch effective 1 January 2023 which will come with AMCR, the Commission is currently reviewing the MCR to index it to USD as a stop gap measure to protect our policyholders. We therefore urge all regulated entities to put in place measures to comply with the revised MCR pending ZICARP launch.

8.4 Distribution of Assets

As at 31 March 2022 the direct insurance brokers held total assets amounting to ZW\$3.1 billion. Most of these assets were held in cash and cash equivalents, as shown in the graph below.

Figure 20: Asset distribution for insurance brokers as at 31 March 2022.

8.5 Earnings

The direct brokers reported a combined profit after tax of ZW\$247 million for the quarter ending 31 March 2022, representing a nominal increase of 141% from ZW\$102 million reported during the comparative period in 2021. The major contribution to the significant increase in profit was on account of premium adjustments in response to the dynamic macroeconomic operating environment.

8.6 Market Share for Insurance Brokers in terms of Gross Premium Written (ZW\$)

The figure below depicts the distribution of market share among insurance brokers for the quarter ending 31 March 2022. In terms of gross premium receivable, HRIB, Minerva, Marsh, Hunt Adams, CBZ Risk Advisory, and ZIB dominated the market during the period under review.

Figure 21: Market share in terms Gross Premium for insurance brokers for the year ended 31 March 2022

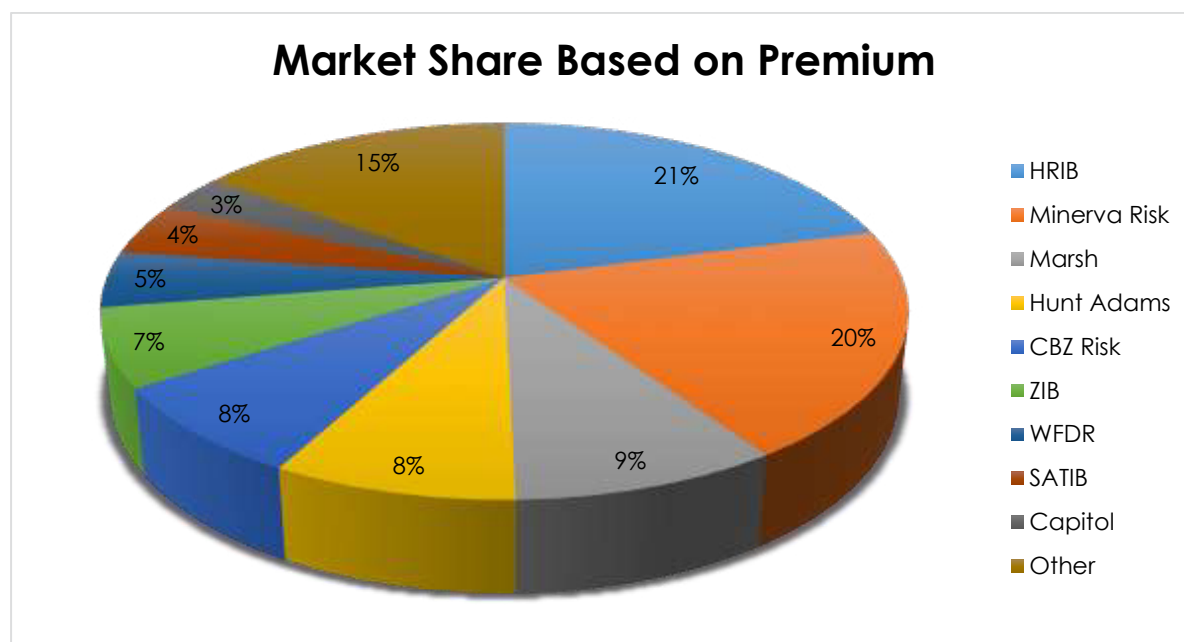

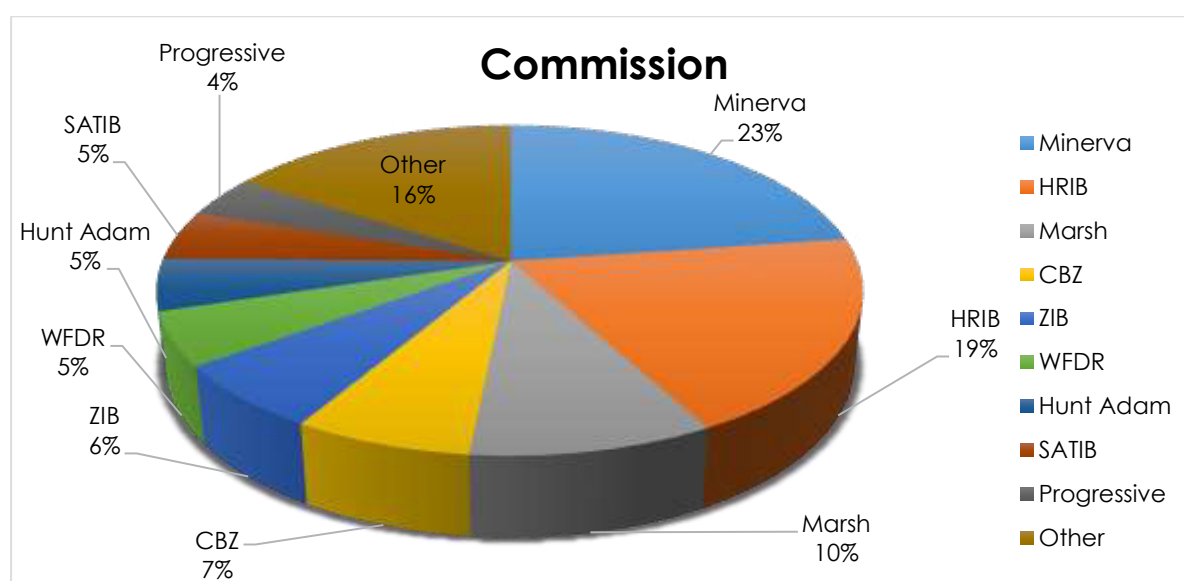

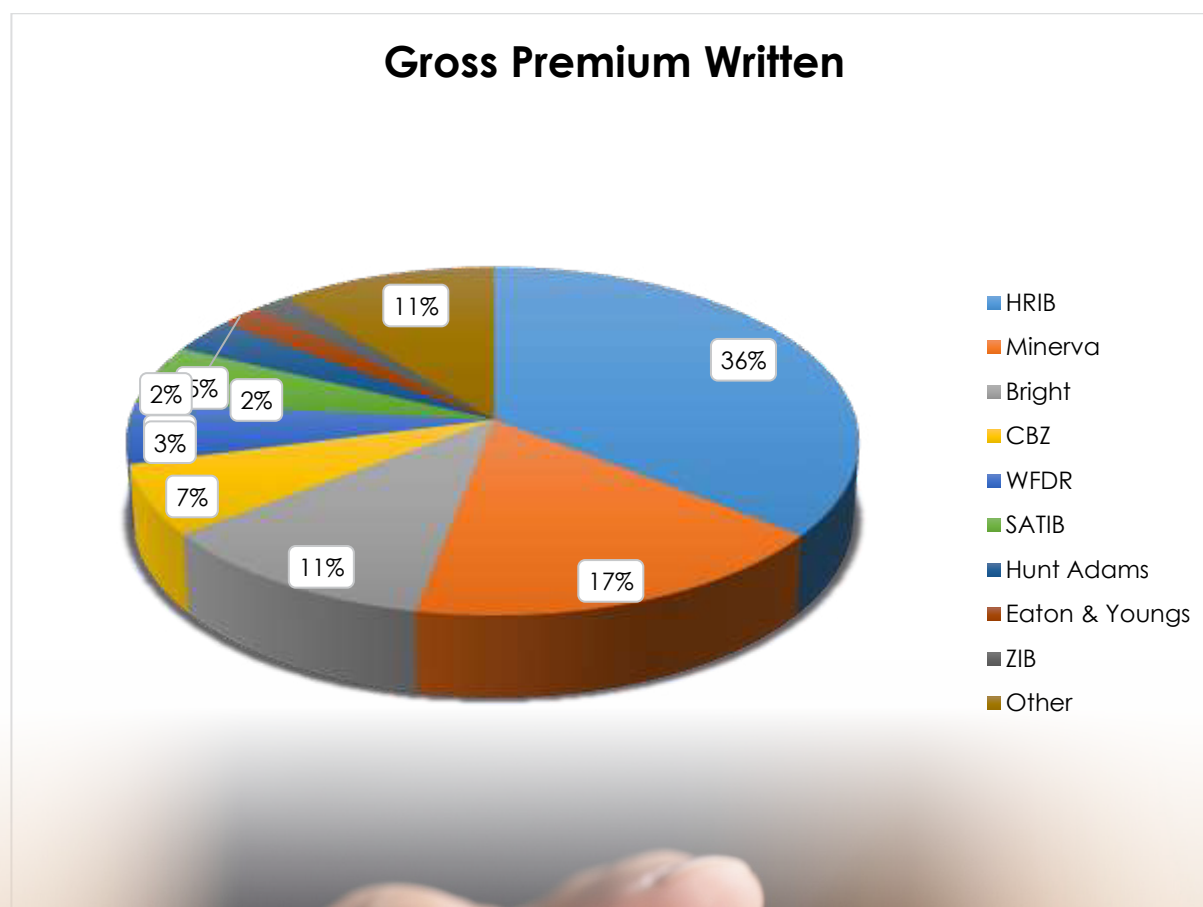

Figure 22: Market share in terms of Commission for insurance brokers for the Quarter ended 31 March 2022

8.7 Foreign Currency Denominated Business by Insurance Brokers

All 28 insurance brokers, managed to file their 2022 first quarter USD returns. The twenty-eight direct brokers recorded a total of US\$15.2 million gross premium receivable during the period under review. The figure below shows the USD market share for the direct brokers as at 31 March 2022.

Figure 23: Short-term Insurance Brokers USD-Denominated Market Share for the quarter ended 31 March 2022.

SECTION E

9. REINSURANCE BROKERS

9.1 Premium Written

During the quarter ending 31 March 2022, reinsurance brokers reported gross premium written of ZW\$2.8 billion, representing an increase of 45% from ZW\$1.9 billion recorded during the comparative period in 2021. Table 15 below shows key indicators of business written by reinsurance brokers.

Table 15: Key Performance Indicators for Reinsurance Brokers for the period ended 31 March 2022.

Indicator	31-Mar-22 (ZW\$ 000 000)	31-Mar-21 (ZW\$ 000 000)	Percent change
Premium Written	2,790.45	1,929.82	45%
Premium Payable	2,549.53	1,680.07	52%
Brokerage Commission	240.93	249.76	-4%
Commission Paid	134.08	192.55	-30%
Net Brokerage Commission	106.85	57.21	87%
Other Income	44.06	6.15	617%
Operating Expenses	73.52	34.85	111%
Profit Before Tax	87.31	32.53	168%
Taxation	18.71	4.54	312%
Profit After Tax	68.60	27.99	145%

9.2 Capitalisation

As at 31 March 2022, all reinsurance brokers reported capital positions that exceeded the minimum capital requirement of ZW\$1.5 million. The capital positions reported by the reinsurance brokers are shown in Table 16 below.

Table 16: Capitalisation levels of reinsurance brokers as at 31 March 2022.

Reinsurance Broker	31-Mar-22	31-Mar-21
Afro-Asian	18,487,670	12,297,867
Capitol	26,336,283	10,803,995
Classic	44,357,452	10,005,700

Reinsurance Brokers International	15,778,744	3,960,247
Skybridge	2,688,536	0

Key:

	Above minimum capital requirement ZW\$1.5 million
	Below minimum capital requirement ZW\$1.5 million

Due to increase in inflation and deterioration of exchange rate, the current ZWL denominated MCRs have been rendered inadequate. Pending ZICARP launch effective 1 January 2023 which will come with AMCR, the Commission is currently reviewing the MCR to index it to USD as a stop gap measure to protect our policyholders. We therefore urge all regulated entities to put in place measures to comply with the revised MCR pending ZICARP launch.

9.3 Market share for Reinsurance Brokers in terms of Gross Premium Receivable (ZW\$)

Figure 24 below shows the total gross premium written and the market share for Reinsurance Brokers for the period ending 31 March 2022.

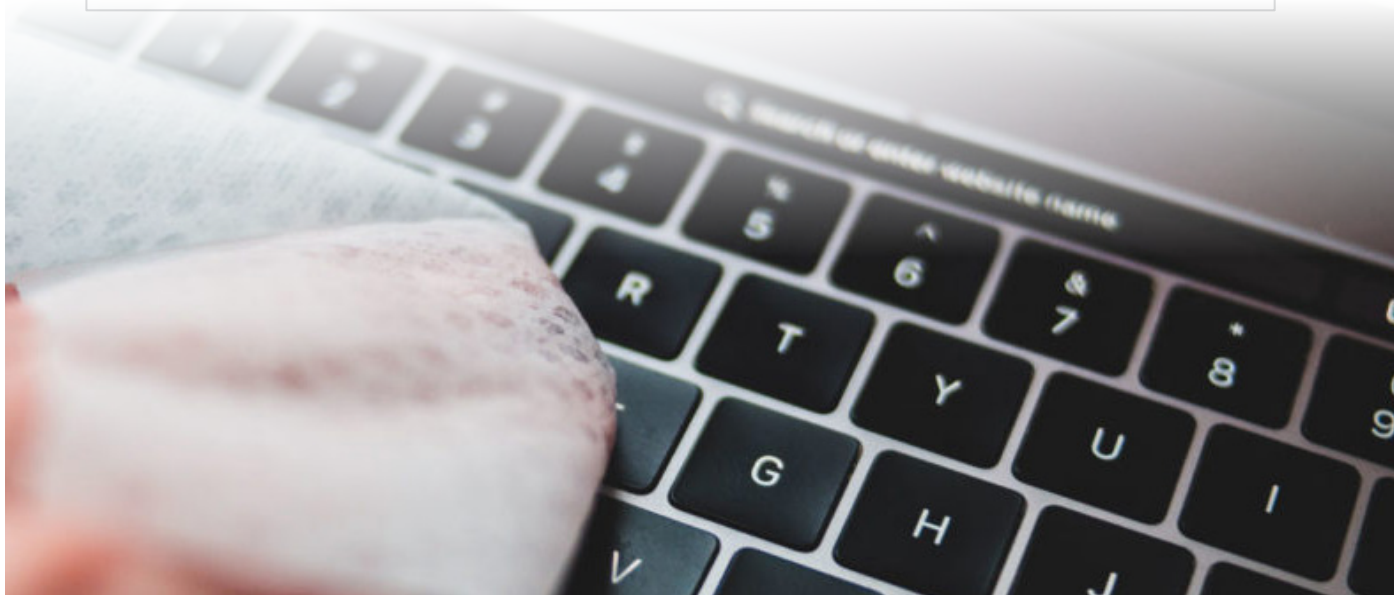

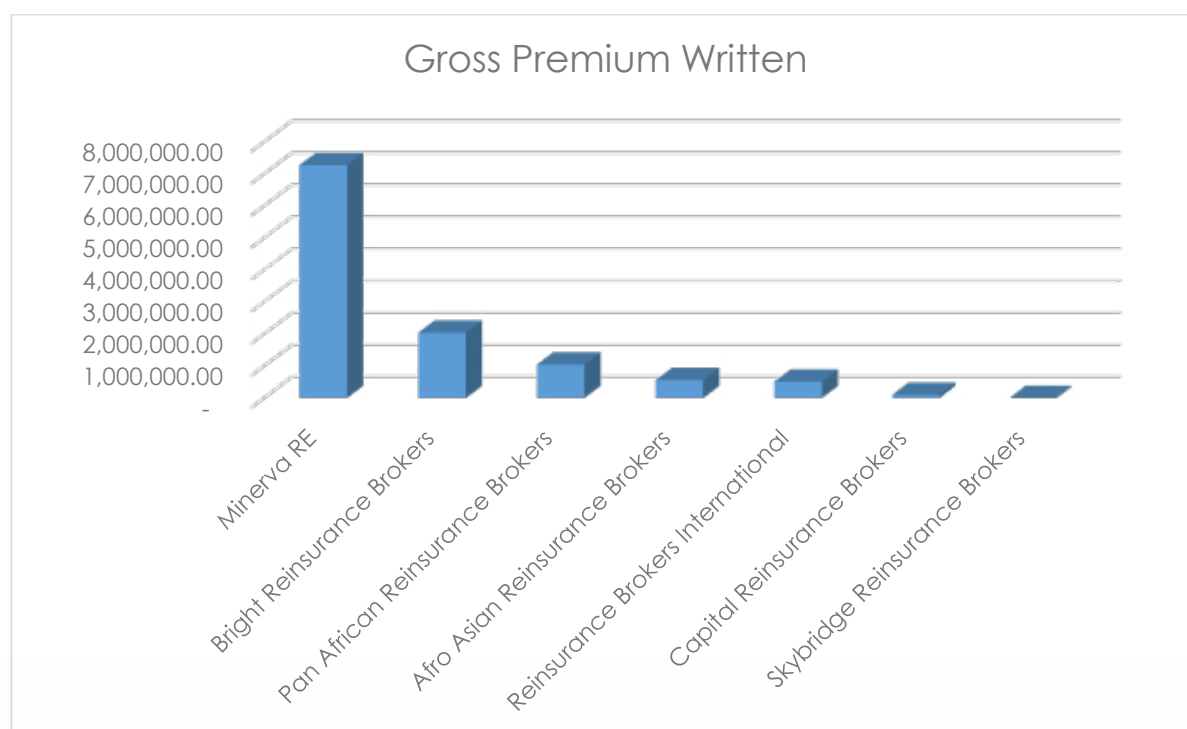

Figure 24: Market share distribution for reinsurance brokers (ZW\$)

9.4 Foreign Currency-denominated business

Reinsurance Brokers reported US\$11.5 million in gross premium receivable during the period ending 31 March 2022. The market leader in terms of foreign currency premiums was Minerva Re, followed by Bright Reinsurance. Figure 25 below shows USD premium received from the reinsurance business.

Figure 25: Gross Premium in USD for reinsurance brokers for the period ended March 2022.

SECTION F

10. Complaints handling

During the quarter under review, the Commission received 31 short term insurance complaints, and of these complaints 24 complaints were resolved while 7 are still outstanding. The major source of complaints is delay in settlement by insurance companies, constituting 45 percent of the complaints, while repudiation of claims constituted the remaining 19 percent of total complaints.

Nature of complaints	Number of complaints	% of total
Delay in settlement	14	45%
Unsatisfactory service offered	5	16%
Repudiation of claims	6	19%
Inquiry on RTA premium increases	3	10%
Other	3	10%
Total	31	100%

There is need for insurance companies to be sensitive to the plight of policyholders and expeditiously settle policyholders claims to avoid inconveniencing policyholders, especially with the sustained erosion of the purchasing power of the local currency. The Commission also underscores the need for insurers to educate their agents and their clients regularly to avoid incidences of mis-selling.
