

PENSIONS INDUSTRY REPORT

FOR

THE QUARTER-ENDED 31 MARCH 2023

Head Office

160 Rhodesville Avenue, Greendale, Harare

Tel: (0242) 443358/61/22 or 0772 154 281-4

Email: enquiry@ipec.co.zw

Website: www.ipec.co.zw

WhatsApp: 0772 154 281

Disclaimer

- i. This Report, including enclosures and attachments, has been prepared by the Insurance and Pensions Commission (IPEC) solely for informative purposes to the pension sector stakeholders, and may not be reproduced, redistributed, communicated to a third party, or relied upon by any other person for any other purpose without the Commission's prior written consent.
- ii. The Commission does not accept any liability, if this report is used for any other purposes other than the above-mentioned intended purpose.
- iii. This report relates to pension business conducted by Private Occupational Pension Schemes.
- iv. Please Note: All Monetary Figures are in ZW\$ except stated otherwise.
- v. All ZW\$ amounts are expressed in nominal terms, except where specifically stated to be in real terms.

Table of Contents

1.	Executive Summary	3
2.	Economic Overview	6
3.	Regulatory Developments	9
4.	Registered Pension Funds	11
5.	Assets	17
6.	Income	20
7.	Expenditure	21
8.	Soundness Indicators	21
9.	Unclaimed Benefits	25
10.	Suspended Pensioners	29
11.	Non- resident Pensioners	30
12.	Commutations	32
13.	Anti-money Laundering and Combating the Financing of Terrorism and Proliferation Financing	36

1. Executive Summary

- 1.1. The pensions industry comprised 978 registered occupational pension funds as at 31 March 2023 compared to 984 funds as at 31 March 2022.
- 1.2. The decrease was a result of funds whose dissolution was concluded during the second to the fourth quarter of 2022 as well as consolidation of small funds to already existing umbrella funds.
- 1.3. Of these, 552 were active, constituting 56% of the industry's funds while the remaining 426 were inactive. A total of 373 funds among those classified as inactive were undergoing dissolution while the rest were in paid-up status.
- 1.4. The industry's total membership including beneficiaries, decreased to 952,444 as at 31 March 2023 from 954,403 as at 31 March 2022. The decrease was mainly attributable to dissolutions and exits by fund members during the period under review.
- 1.5. The industry's assets as at 31 March 2023 stood at ZW\$1.95 trillion, which was a nominal increase of 299% from a value of ZW\$488 billion as at 31 March 2022. The nominal increase in the asset base was mainly driven by quoted equities and investment property. The real¹ increase in industry assets was 113%.
- 1.6. Investment properties accounted for ZW\$924 billion as at 31 March 2023 compared to ZW\$163 billion during the comparative period last year, which was a nominal increase of 467%.
- 1.7. Equities nominally increased by 375% from ZW\$261 billion as at 31 March 2022 to ZW\$626 billion as at 31 March 2023. This was mainly attributable to fair value gains and additional investments in equities from the contributions received by pension funds.
- 1.8. Prescribed assets amounting to ZW\$115 billion, constituted 6% of the industry's total assets as at 31 March 2023. This was a nominal increase of 541% from the prescribed assets investments of ZW\$18 billion, which constituted 5% of total asset as at 31 March 2022. The increase was attributed to the additional investments, returns and fair value gains in prescribed assets investments towards achieving the regulatory minimum

¹ Real growth calculated using the CPI – Source [Inflation \(rbz.co.zw\)](https://rbz.co.zw/inflation)

compliance level of 20%. The Commission continues to enforce industry compliance with the approved instruments.

1.9. The total income for the year to 31 March 2023 was ZW\$387 billion compared to ZW\$136 billion for the year to 31 March 2022. This translates to a nominal increase of 185% and a real increase of 52%. Total income was mainly driven by fair value gains on investments, contributions and profit on disposals, which constituted 68%, 11% and 6% of total income, respectively. The remaining 15% comprises interest from investments and other income.

1.10. Total expenditure was ZW\$28 billion, with 75% of the total amount going towards benefits payments. Total expenditure growth reflected a nominal increase of 261% from ZW\$8 billion for the same period during the prior year. Total expenditure increased by 92% in real terms.

Key Performance Indicators

1.11. The key performance indicators for the pensions industry as at 31 March 2023 are shown in the table below: -

Table 1: Key Performance Indicators

Indicator	Insured Funds	Self-Administered Funds	Stand-Alone Self-Administered Funds	Total
Number of Funds	798	166	14	978
DB	20	16	3	39
DC	778	150	11	939
Active funds	411	128	13	552
Members (Incl Beneficiaries)	365,786	159,686	456,427	981,899
Members (Excl Beneficiaries)	364,007	155,164	438,373	957,544
Share of total membership	37%	16%	46%	100%
Total Income (Billion \$)	124	165	98	387
Total Contributions (Billion \$)	11	14	16	42
Rental Income (Billion\$)	1	1	6	8
Investment Income (Billion\$)	109	127	66	302
Total Expenditure (Billion \$)	5	9	13	28
Total Benefits Incurred (Billion \$)	4	8	9	21
Expenses/Contributions	10%	8%	26%	16%
Expenses/Total Income	1%	1%	4%	2%
Total Assets (Billion \$)	513	650	791	1953
Total Assets per member	1,401,096	4,069,678	1,733,002	1,989,370
Percentage of Total Assets	26%	33%	40%	100%
Prescribed Assets (Billion \$)	39	62	14	115
Prescribed Assets Ratio	8%	9%	2%	6%
Contribution Arrears (Billion \$)	6	8	34	47

Notes:

1. Total investment income is made up of rental income, dividends, interest on investments, profit on disposal of assets and fair value gains.
2. Total expenditure for the industry includes benefits paid, transfer to reserves, revaluation losses and provisions.
3. Expenses are calculated as total expenditure excluding items such as expenditure on benefits, transfers to reserves and revaluation losses.

2 . Economic Overview

Global and Regional Economic Outlook

Inflation Peaking Amid Low Growth

2.1. Global growth is projected to fall from an estimated 3.4 percent in 2022 to 2.9 percent in 2023, and to 3.1 percent in 2024 (IMF). The forecast for 2023 is 0.2 percentage points higher than predicted in the October 2022 World Economic Outlook but below the historical (2000–19) average of 3.8 percent. The increase in central bank rates to fight inflation and Russia's war in Ukraine continue to weigh on economic activity. The rapid spread of COVID-19 in China dampened growth in 2022, but the recent reopening has paved the way for a faster-than-expected recovery. Global inflation is expected to fall from 8.8 percent in 2022 to 6.6 percent in 2023 and 4.3 percent in 2024, still above pre-pandemic (2017–19) levels of about 3.5 percent.

Table 2: World Economic Outlook Projections

	2022	2023	2024
World Output	3.4	2.9	3.1
Advanced Economies	2.7	1.2	1.4
USA	2.0	1.4	1.0
Euro Area	3.5	0.7	1.6
Emerging Markets and Developing Economies	3.9	4.0	4.2
China	3.0	5.3	4.5
Sub-Saharan Africa	3.8	3.8	4.1
Nigeria	3.0	3.2	2.9
South Africa	2.6	1.2	1.3
Zimbabwe	4.0	3.8	4.8

Source: January 2023 World Economic Outlook Update, IMF Projections

Domestic Economic Outlook

2.2. Domestic GDP growth is projected to slowdown from 4% in 2022 to 3.8% in 2023, sustained primarily by mining, agriculture, and enhanced activity in the manufacturing, wholesale, and retail trade sectors. 75% of domestic transactions are now denominated in foreign currency. As a result of the growing dominance of the USD in the economy, authorities resolved to measure inflation using a weighted average of goods and services priced in local currency and USD. The local currency continued to depreciate against the US dollar.

Figure 1 : Interbank Exchange Rate vs Alternative Rate Mar 22 to Mar 23 (US\$/ZWL)

Inflation Developments

2.3. Weighted annual inflation for both US\$ and ZW\$ eased from 101.5% in January this year to 87.6% at the end of the first quarter. Monthly Inflation has decelerated from 0.7% in January to -1.6% in February and 0.1% in March. Despite the slowdown in official inflation figures, the local currency has depreciated against the US dollar on the parallel market. The local currency has depreciated 58% against the dollar during the first quarter on the alternative market. The alternative market premium also widened to 61% at the end of the quarter. The devaluation of the local currency and widening of the alternative market premium, imply serious adverse risks on both inflation outturn and economic growth in 2023. The figure below illustrates the inflation trend from March 2022 to March 2023.

Figure 2: Inflation Profile (%) Mar 2022 to Mar 2023

Source: RBZ

Zimbabwe Stock Exchange Performance

2.4. The Zimbabwe Stock Exchange registered improved performance over the first quarter. Year to date, the Zimbabwe Stock Exchange All-Share Index ("ZSE ALSI") rose 98% to 38,568.48 points at the end of March. The Top 10 Index rose 87% year to date, to close March at 12,311.13 points. Market capitalisation grew 66% over the quarter from ZW\$2.04 trillion to ZW\$3.38 trillion as shown in the figure below.

Figure 3: ZSE Market Capitalisation Trend

2.5. Notwithstanding the regaining of the stock exchange, the ZSE has seen an increase in de-listings by top counters in favour of the rapidly expanding US dollar denominated Victoria Falls Exchange as the bourse continues to attract migration of big companies. Migration of quality stocks from the ZSE to the VFEX, as opposed to new listings, may however be detrimental to the viability of the local currency denominated bourse.

Victoria Falls Stock Exchange (VFEX) Performance

2.6. The Victoria Falls Exchange continues to gain momentum as issuers chase broadened capital sources, tax incentives, and brand positioning. Market capitalisation has grown 75% year to date to US\$992.88 million. Moving into the next quarter, it is expected that more companies will migrate to the VFEX as it offers investors value preservation. Liquidity challenges remain a major drawback, limiting pronounced investor participation. Resultantly, the All-Share Index had fallen 7% year to date, closing the month of March 2023 at 91.76 points.

3. Regulatory Developments

3.1. During the first quarter, the Insurance and Pensions Commission issued seven circulars, specifically for the pensions industry. These circulars are targeted at guiding and informing the industry of the latest developments and regulatory expectations in pension fund management and administration with much focus on the interest of pension fund members. Table 2 shows the circulars issued to industry during the first quarter.

Table 3: Circulars Issued in the First Quarter of 2023

Document	Issue date	Content
Circular 1 of 2023	10 January 2023	Assessment of annual reporting requirements
Circular 2 of 2023	27 January 2023	Request for information on Board of funds and terms of office
Circular 4 of 2023	16 February 2023	Compliance with section 64(4) of the Pension and Provident Funds Act Relating to Compliance of Fund Rules to the Act
Circular 5 of 2023	17 February 2023	Interim measures pending Gazetting of 2009 compensation regulations
Circular 6 of 2023	3 March 2023	Call for Comments on the micro-pension's framework
Circular 8 of 2023	16 March 2023	Annual publication of Financial Statements
Circular 10 of 2023	08 March 2023	Issuance of the directive for the Insurance and Pensions industry on Equities and Properties Valuations

Prescribed Assets

- 3.2. As at 31 March 2023, five applications were accorded prescribed asset status by the Minister of Finance and Economic Development.
- 3.3. The instruments that were approved during the year to 31 March 2023 are listed in the table below: -

Table 4: Approved Prescribed Asset Instruments during the Year to 31 March 2023

Issuer	Amount (millions)	Purpose	Date Approved
African Century	USD\$15	Onward lending	17 January 2023
Pure Oil	USD\$5	Import Soya Beans and Crude oil	20 March 2023
Centra West	USD\$42.5	Power generation	24 March 2023
ZEIPF	USD\$6.5	Construction of Marondera shopping mall	24 March 2023
DATVEST	USD\$7.5	Development of stands	24 March 2023

- 3.4. The industry is urged to invest in projects or financial instruments that suit their investment objectives to comply with the prescribed asset threshold. Furthermore, the approved prescribed assets present an opportunity for the industry to diversify its portfolio.

4. Registered Pension Funds

- 4.1. There were 978 registered occupational pension funds as at 31 March 2023 compared to 984 funds as at 31 March 2022.
- 4.2. The decline was due to a decrease of 18 funds as a result of transfers, mergers, dissolutions and the exclusion of funds, which had previously been double counted as a result of dual reporting while on the other hand 11 new funds were registered. The detailed movements are shown in the table below: -

Table 5: Movements in Number of Registered Pension funds

	Q1 2022	Registrations	Dissolutions	Transfers	Mergers	Dual reporting	Q1 2023
Insured	801	8	-8	-3	0	0	798
Self Admin	170	2	-1	-1	0	-4	166
Stand Alone	14	0	0	0	0	0	14
Totals	984	10	-9	-4	0	-4	978

- 4.3. Of the 978 funds, 552 were active, accounting for 56% of the industry's funds. The remaining 426 funds were inactive as they were either paid up or undergoing dissolution. In addition, 39 pension funds were defined benefit schemes whilst the remainder were defined contribution schemes.
- 4.4. Only 14 of the 978 registered funds conduct their own in-house fund administration business. The remainder, which are insured and self-administered funds, outsource the services to fund administrators.
- 4.5. There were 13 fund administrators registered with IPEC as at March 31, 2023. Five of the 13 administrators were independent administrators, while the remaining eight were registered life assurance companies conducting fund administration business.
- 4.6. The table below shows the allocation of pension funds managed by the respective administrators: -

Table 6: Distribution of Funds Administered by Type of Administration Model

Name of Administrator	31 March 2023		31 March 2022	
	Insured funds	Self-Administered funds	Insured funds	Self-Administered funds
CBZ Life	6	-	6	-
Fidelity Life	38	1	38	1
First Mutual Life	134	6	132	6
Old Mutual Life	345	19	351	19
Nyaradzo Life	-	3	-	3
ZB Life	108	1	108	1

Econet Life	1	1	-	-
Comarton Consultants	-	22	-	26
Bright Employee Benefits	-	40	-	40
Minerva Benefit Consulting	-	64	-	65
Capitol Insurance Broker	-	1	-	1
Zimbabwe Insurance Brokers	-	5	-	5
Stand-alone	-	14	-	14
Total	798	180	801	183

Pension Fund Administrators

4.7. Total income earned by fund administrators in Q1/2023 was ZW\$6 billion.

Forex business income worth US\$0.43 million, amounting to the local currency equivalent of ZW\$398 million as at the reporting date constituted 6% of total income earned. During the period under review, six (6) out of the 13 administrators recorded USD business.

4.8. Income from fund administration fees earned by administrators for services rendered during the quarter to 31 March 2023 were ZW\$2 billion, constituting 27% of the total income. Of the administration fees earned, 13% was transacted in foreign currency. Capitol Insurance Brokers was the only fund administrator which did not conduct any business, either in forex or local currency as it has since relinquished fund administration business while awaiting the transfer or dissolution of the fund under its purview.

4.9. The table below shows the administration fees earned by administrators.

Table 7: Sources of Income for Administrators

Source of income	Value in ZW\$ millions		Total	%age of Total Income
	ZW\$	USD (ZW Equivalent)		
Investment Income	3,591	25	3,615	57%
Fund Administration fees	1,468	216	1,684	27%
Cost of Guarantee	562	-	562	9%
Commission	136	110	247	4%
Actuarial Fees	73	33	106	2%
Other income	85	0	84	1%
Ill Health Fees	9	15	24	0%
Fair value gains	16	-	16	0%
Rent receivable	1	-	1	0%
Interest Received	0	-	0	0%
Totals	5,941	399	6,340	100%

4.10. Total expenditure incurred was ZW\$6.73 billion, which mainly comprised staff costs, advertising and rentals, resulting in a loss of ZW\$378 million. In spite of the overall loss made by the administrators, it is worth noting that four out of the 13 incurred losses. The major expense drivers were staff expenses which were funded from borrowings.

4.11. It was noted that two of the four administrators that reported losses are part of group structures, calling for the need to review cost allocation within the Group. The Commission is now requiring submission of transfer pricing document that would have been lodged with Zimra.

4.12. The table below shows the administration fees as a component of total income and the extent to which such fees are in forex.

Table 8: Independent Administrators' Income and Administration Fees

Administrator	Total income	Admin Fees	Forex Component	Exposure
Old Mutual Life Assurance Company	3,482	381	68	18%
Zimnat Life	974	30	11	37%
Minerva Benefits consulting	840	547	108	20%
First Mutual life	649	424	-	0%
Bright Employee benefits	181	129	10	8%
Cormaton Consultants	145	134	19	14%
Fidelity Life Assurance	33	13	-	0%
ZB Life	25	15	-	0%
Nyaradzo Life Assurance	7	7	-	0%
CBZ	4	3	-	0%
Zimbabwe Assurance Brokers	0	0	-	0%
Econet Life	0	0	0	0%
Capitol Insurance Brokers	-	-	-	0%
Total	6,340	1,684	216	13%

Amount in ZW\$ millions

4.13. Total assets for independent administrators, excluding life assurers, amounted to ZW\$697 million and US\$19,972 with only property, plant and equipment and cash denominated in USD.

4.14. The breakdown of assets for independent administrators is as shown in the following table:

Table 9: Independent Administrators' Asset Distribution

Asset Class	ZW\$	US\$
Equities	298,258,963	-
Intercompany receivables	200,972,716	-
Property plant and equipment	110,306,764	15,500
Receivables	33,921,080	-
Cash	27,177,716	4,472
Prepayments	11,870,389	-
Other	15,046,855	-
Totals	697,554,483	19,972

4.15. As shown on the above table, administrators are mainly invested in equity investments and property, plant and equipment.

Fund Registrations

4.16. During the period from 01 January 2023 to 31 March 2023, 1 pension fund was registered, namely Buhera RDC.

Transfer of Fund Business

4.17. During the period to 31 March 2023, the Commission approved a total of four transfers. Of these, three transfers were concluded with only the transfer of Powerspeed Pension Fund assets still in the process of finalising.

4.18. The Commission will continue to monitor the transactions to ensure compliance with the Act and guideline on transfer of business between funds and fund administrators.

Dissolutions

4.19. No dissolutions were completed during the quarter ended 31 March 2023.

Membership

4.20. The table below show the distribution of members as at 31 March 2023 and 31 March 2022, respectively.

Table 10: Membership Classes as at 31 March 2023

Membership Class	Insured Funds	Self-Administered Funds	Stand Alone Funds	TOTAL 31/03/2023	TOTAL 31/03/2022
New Entrants	1,529	1,628	3,925	7,082	8,827
Active members (excluding new entrants)	98,437	103,130	156,941	358,508	347,138
Pensioners (Excluding beneficiaries)	9,028	5,201	22,140	36,369	39,660
Deferred Pensioners	240,445	31,739	163,618	436,146	372,706
Suspended Pensioners (Excluding beneficiaries)	2,874	4,985	6,187	14,046	12,310
Unclaimed benefits (number)	11,694	8,481	85,562	105,393	146,370
Total Members excluding beneficiaries	364,007	155,164	438,373	957,544	927,011
Widows and Children (Pensioners)	594	3,846	11,895	16,335	18,789
Widows and Children (suspended Pensioners)	1,185	676	6,159	8,020	8,603
Total Number of beneficiaries	1,779	4,522	18,054	24,355	27,392
Total members including beneficiaries	365,786	159,686	456,427	981,899	954,403
Total Number of Exits	1,806	2,594	2,595	2,596	2,597

4.21. There was a 3% increase in total membership (including beneficiaries) from 954,403 to 981,889. This increase was mainly due to new entrants of newly registered funds.

4.22. There was also a significant decline of 28% in members with unclaimed benefits from 146,370 to 105,393. The decline was mainly driven by transfer of 132 members to the Guardian Fund, as well as reclassification of membership in line with Circular 28 of 2022.

4.23. There was a decline in pensioners of 3%, which was attributed to full commutations processed during the period under review.

5. Assets

- 5.1. The industry's assets stood at ZW\$ 1.95 trillion, which was a nominal increase of 299% from ZW\$488 billion reported in March 2022.
- 5.2. In comparison to the nominal increase in the industry's asset base, the value of assets in real terms increased by 113% when compared to the previous year.
- 5.3. The trajectory of industry assets and inflation is shown in the graph below.

Figure 3: Trajectory of Assets and Rate of Inflation

- 5.4. As can be seen in the graph above, the industry assets have been increasing in line with the increase in inflation.
- 5.5. Industry asset values in US\$ terms is shown in the figure below:

Figure 4: US\$ Equivalent Asset Values

- 5.6. As can be seen above, assets in US\$ terms for the pensions industry has been growing since Q3 of 2022 which is consistent with what has been observed for the inflation adjusted figures.
- 5.7. The asset composition of the industry is as shown on the figure below:

Figure 5: Asset Composition

- 5.8. As shown above, the industry's assets are concentrated in investment properties and quoted equities which constituted 77% of the industry's total portfolio.
- 5.9. Investment property constituted 47% compared to 33% for the same period the previous year, indicating the industry's investment preference of the asset class and the higher rate of increase in property values in line with inflation compared to other asset classes.
- 5.10. Whilst there was a nominal increase in quoted equity investments by 134% for the period under review, its share to the industry total assets shrank from 51% to 30%. This was in response to the revised investment guidelines through Circular 2 of 2022 as the industry makes an effort to align itself with regulatory requirements and a bullish trend in the stock market that was experienced mid-2022.
- 5.11. Investments in unquoted equities increased by 242% from ZW\$14 billion to ZW\$49 billion. Its share to total assets remained constant at 3%. The Commission will continue to monitor the valuation of private equity investments to ensure consistency and comparability within the industry.

5.12. Prescribed assets amounting to ZW\$115 billion, constituted 6% of the industry's total assets. This was a nominal increase of 541% from the prescribed assets investments of ZW\$18 billion, which constituted 4% of total assets reported in March 2022. The increase was attributed to additional investments worth ZW\$10.4 billion as well as fair value gains and return on investments to the tune of ZW\$87.5 billion in prescribed assets investments.

5.13. As at 31 March 2023, the industry acquired an additional 73 coins to bring the total investment to 1,835 bullion coins of varying denominations worth ZW\$ 3.5 billion. The table below shows the investment in gold coins by the industry.

Table 11: Gold Coin Investments

Denomination	Insured	Self Admin	Stand Alone	Total
0.10z	-	2	10	12
0.250z	-	1	32	33
0.50z	9	35	2	46
10z	27	1293	424	1744
Number of Coins	36	1,331	468	1,835
Value of Gold Coins (ZW\$ billions)	0.06	2.61	0.86	3.54

5.14. The coins were acquired at an aggregate cost of ZW\$1.96 billion and appreciated in value because of the increase in the price of gold and exchange rate movements.

Forex Assets

5.15. Foreign currency-denominated assets amounted to US\$257 million, constituting 12% of industry total assets. The holding of foreign currency-denominated assets helps in cushioning the assets from being eroded by inflation in the current hyperinflationary environment.

5.16. The figure below illustrates the composition of foreign currency-denominated assets.

Figure 6: Industry Foreign Currency Assets

5.17. As shown in figure 5 above, foreign currency-denominated assets of the industry were mainly invested in quoted equities, prescribed assets and money market investments, which collectively constituted 82%.

5.18. The quoted equity investments are mainly on the Victoria Falls Stock Exchange.

5.19. The list of investments in prescribed assets is as detailed in table 3 above.

5.20. Contribution arrears stood at US\$8.5million, thus constituting 5.5% of the industry's foreign currency-denominated assets.

5.21. The Commission calls upon the boards of funds to follow up with sponsoring employers to ensure that contributions are timeously remitted to the funds to avoid the prejudice on fund members. Furthermore, it is crucial for the sponsoring employers to remit contributions in time to avoid their accounts being garnished by the Regulator.

6. Income

6.1. The total income for the period under review was ZW\$387 billion compared to ZW\$136 billion for the same period during the previous year. Of the ZW\$387 billion, total income earned in foreign currency was US\$5.2 million, which is equivalent to ZW\$3.5 billion, thus constituting 1% of the industry's total income.

- 6.2. Notwithstanding the nominal increase in income by 185%, in USD terms, there was a real increase of 51.86%.
- 6.3. The major sources of income were fair value gains on investments, contributions and profit on disposals amounting to ZW\$262 billion, ZW\$42 billion and ZW\$21 billion, respectively. These three had nominal increases of 335%, 467% and 498%, respectively, compared to the prior year.
- 6.4. The proportion of contribution arrears to contributions was 113%, the major contributor being Stand Alone section with arrears twice their contributions received, implying that the income that can be directed towards investments is significantly reduced since it is tied up in arrears. This means that the opportunity cost of the investment is forgone.

Table 12: Proportion of Contribution Arrears to Contributions

	Insured Funds	Self-Administered Funds	Stand Alone Funds
Contributions	11,034,324,267	14,465,666,722	16,443,437,569
Contribution Arrears	6,089,466,354	7,654,225,691	33,703,614,530
Proportion of Contributions arrears to Contribution	55%	53%	205%

7. Expenditure

- 7.1. Total expenditure for the period under review was ZW\$28 billion. Of that amount, ZW\$21 billion, which was 75% of expenses went towards the core mandate of paying benefits to members.
- 7.2. Total administrative expenses incurred were ZW\$7 billion and were mainly driven by administration fees, asset management fees and staff costs, which constituted 71.49% of the administration expenses. To reduce the expenses, the Commission will continue to enforce compliance with the Expenses Framework.
- 7.3. The expense ratios for all funds used in assessing compliance with the expense's framework are shown in annexure 9.

8. Soundness Indicators

- 8.1. Financial soundness indicators are used in assessing and determining the financial health of the pensions industry. They provide insight into the

financial condition of a pension fund or the pensions industry, as well as supporting financial stability analysis.

- 8.2. Financial soundness indicators can act as a trigger to identify, dictate and predict financial distress as well as the risks a fund or sector are susceptible to.
- 8.3. Following the use of the tool for the quarter ended 31 March 2023, the pensions industry was determined to be at a medium risk level.
- 8.4. The following risks were assessed in order to come up with the industry's risk rating: -

Solvency Risk

- 8.1. This applies to defined benefit plans. It is the risk that the pension fund's assets are insufficient to meet its liabilities.
- 8.2. Based on the assessment of the industry's position, this risk was low as the industry's weighted average funding level which was above the regulatory minimum of 75%.
- 8.3. The Commission will continue to engage the funds with low funding levels to ensure that the sponsoring employers inject capital into the pension funds to offset the actuarial deficit.

Market Risk

- 8.4. Under this category, the industry continued to be rated at medium risk due to non-compliance with investment guidelines.
- 8.5. A cumulative 87% of industry assets were invested in two asset classes, namely investment property and equities.

Credit Risk

- 8.6. This is the risk of default by debtors of the pensions industry, resulting in a loss from non-settlement of dues.
- 8.7. Given that the bonds, rental arrears, contribution arrears and other debts of the industry are relatively low proportion of the total assets, the risk was rated as medium-low.

Investment Risk

- 8.8. This is the risk that investment returns are either negative or lower than inflation.
- 8.9. Following the assessment of the investment performance, the risk was rated as medium-low. Both nominal and real returns were positive as inflation was considerably lower than the returns.
- 8.10. The industry continues to prioritise investments in assets that yield positive real returns so that member benefits increase in line with inflation.

Agency Risk

- 8.11. With the greater portion of funds rated under this category between the medium and high category, the risk was rated to be medium-high as average expenses are gradually falling within prescribed limits compared to a prior rating in the high-risk category.
- 8.12. The Commission continues to encourage the industry to comply with the Expenses Framework.

Liquidity Risk

- 8.13. This is the risk of failure by the industry to make payments as they fall due because of lack of liquid assets that can be easily converted to cash.
- 8.14. The risk was rated to be low because of the high investments in liquid assets mainly listed equity, cash and money markets.

Systemic Risk

- 8.15. Risk of industry assets being concentrated in a few funds such that lack of performance of those funds will have a huge impact on the industry's reputation and stability.
- 8.16. This risk was determined to be medium as 49% of the industry assets are under National Railways of Zimbabwe Contributory Pension Fund (NRZ), Mining Industry Pension Fund, Local Authorities Pension Fund and Old Mutual Insured Funds. This means that if anything happens to these 3 stand-alone funds and Old Mutual Life Assurance Company this may result in a tremendous impact on the industry.

8.17. The industry soundness ratings explained above are summarised in the tables below under the two fund class types.

Table 13: Soundness Ratings for Defined Benefit Funds

Defined Benefit Funds							
		Number of Funds with rating...					
		Low	Medium-Low	Medium	Medium-High	High	Overall rating for DB funds
Defined benefit Funds Risks	Weights	1	2	3	4	5	
Solvency risk	15%	13	4	1	3	6	1.07
Market risk / Asset quality	10%	5	0	22	0	0	2.88
Credit risk	5%	27	0	0	0	0	1
Investment risk	20%	27	0	0	0	0	1
Agency risk	30%	4	0	8	0	15	4.91
Liquidity	15%	26	0	0	0	1	1
Systemic	5%	21	2	1	0	3	4.54
DB Funds with Average Rating of	100%	0	18	9	0	0	2.55

Table 14: Soundness Ratings for Defined Contribution Funds

Defined Contribution Funds							
		Number of Funds with rating...					
		Low	Medium-Low	Medium	Medium-High	High	Overall rating for DC funds
Defined Contribution Funds Risks	Weights	1	2	3	4	5	
Market risk / Asset quality	15%	198	0	731	0	0	2.42
Credit risk	10%	220	0	374	0	335	1.13
Investment risk	25%	911	0	0	0	18	1.02
Agency risk	30%	220	0	374	0	335	3.97
Liquidity	15%	746	6	8	4	165	1.59
Systemic	5%	896	17	12	3	1	2.69
DC Funds with Average Rating..	100%	166	457	293	13	0	2.3

8.18. As a result of the above assessment, the overall risk rating for the pensions industry was determined to be at a medium risk level as at 31 March 2022.

9. Unclaimed Benefits

- 9.1. At the end of March 2023, pension funds held unclaimed benefits assets amounting to ZW\$15 billion on behalf of 105 726 principal members and beneficiaries. This was an increase of 23% compared to ZW\$11.6 billion as at 31 December 2022. It is important to note that the increase in asset value of unclaimed benefits is not only because of an increase in the number of unclaimed benefits, but also due to investment income and revaluation gains passed on to unclaimed benefits which are still within the funds. In comparison with Quarter 1 2022, the amount of unclaimed benefits increased by 241%, from ZW\$4.4 billion to ZW\$15 billion in Quarter 1 2023.
- 9.2. Total membership for unclaimed benefits during the quarter under review decreased by 27.77% to 105,726 compared to 146,370 as at 31 March 2022. The decrease was as a result of Clothing industry pension fund reclassifying 18,334 of unclaimed benefits membership to suspended pensioners.

Figure 7: Distribution of Unclaimed Benefits

Industry Unclaimed Benefits Consolidated Age

- 9.3. In the quarter under review, Standalone funds reported a total amount of ZW\$7.75 billion, with Catering Industry Pension Fund leading with a total amount of ZW\$5.3 billion. In terms of membership, the Standalone are also on the top with 85,406. Membership number of unclaimed benefits excludes Catering Industry Pension Fund which did not report the number of unclaimed benefits.

Figure 8: Industry Unclaimed Benefits Age Analysis

9.4. It was observed that unclaimed benefits with more than 10 years amounted to ZW\$8 billion during the quarter under review. The unclaimed benefits which are more than 5 years must be transferred to the Guardian Fund as per Section 99 of the Administration of Estate Act [Chapter 6:01]. However, the administrators are contravening this section by not transferring the benefits.

Unclaimed Benefits Aging for Insured Funds

9.5. Number of members with unclaimed benefits increased by 1,053 members for the period under review from 10,639 for the quarter ending December 2022 to 11692. During first quarter 2022, insured funds had unclaimed benefits amounting to ZW\$417.5 million, which has since increased by 800% to ZW\$3.76 billion. The unclaimed benefits constituted 25% of the total unclaimed benefits for the industry.

Figure 9: Unclaimed Benefits Aging for Insured Funds

Unclaimed Benefits Aging for Self-Administered Funds

9.6. Self-Administered funds recorded unclaimed benefits amounting to ZW\$3.73 billion owed to 9,252 members. During the same quarter 2022, ZW\$588 million was report with 11,384 members.

9.7. Minerva Employee Benefits' unclaimed benefits membership was 6,784 contributing about 73% of the Self-Administered fund total membership. In monetary values, the 0-2 year reported the bulk of the unclaimed benefits amounting to ZW\$2.0 billion with a total membership of 23,509 for the period under review.

Figure 10: Unclaimed Benefits Aging for Self-Administered Funds

Unclaimed Benefits Aging for Stand-Alone Funds

- 9.8. Unclaimed benefits membership for the quarter under review was 85,406, which was a decline from the December 2022 recorded figure of 94,223. This was due to Clothing Industry Pension Fund reclassification of unclaimed benefits to suspended members. This was a decrease of 8,817 membership of unclaimed benefits translating to 10.3%.
- 9.9. The Standalone funds accounted for ZW\$7.75 billion out of ZW\$15 billion of the total industry unclaimed benefits for the period under review.

Figure 11: Unclaimed Benefits Aging for Stand-Alone Funds

10. Suspended Pensioners

10.1. The benefits liability for suspended pensioners for the first quarter was ZW\$607 million, The figure below shows the distribution of suspended pensioners' amounts during the quarter under review:

Figure 12: Distribution of Suspended Pensioners

10.2. In terms of membership, there were 33,072 members under suspended pensioners. Insured funds and stand-alone funds had the highest number of suspended pensioners. The graph below shows the distribution of suspended pensioners' membership by fund model.

Figure 13: Suspended Pensioners Membership by Administration Model

10.3. Insured funds had 18,941, followed by stand-alone funds with 11,094 as at the first quarter of 2023. The self-administered funds had a suspended

membership of 3,037 as at the first quarter of 2023. The Commission continues to monitor the industry's communication with members and beneficiaries whose benefits are suspended for want of life certificates.

11. Non- resident Pensioners

11.1. For the first quarter of 2023, pension benefits due to non- resident pensioners amounted to ZW\$122 million. This is an increase of ZW\$25 million when compared with the balance due as at 31 December 2022. In terms of membership there were 3,286 non-resident pensioners. The figure below shows the breakdown of amounts which were due to non-resident pensioners during the quarter under review:

Figure 14: Amounts Due to Non-Resident Pensioners

11.2. The highest level of benefits due to non-resident pensioners were reported under standalone funds, which accounted for 65% of the submissions, followed by insured funds which accounted for 30%, while self-administered funds accounted for 5% of the non-resident pensioners.

11.3. The figure below shows the distribution of membership for non- resident pensioners.

Figure 15: Distribution of Membership for Non-resident Pensioners

11.4. The highest number of members was recorded under the stand alone and insured funds with Old Mutual Life Assurance company and Mining Industry Pension Fund having the highest number of non-resident pensioners of 1,428 and 1,034 respectively. Old Mutual indicated that they paid 1,346 non-resident pensioners during the quarter under review, these non-resident pensioners were paid in local currency. The issue of unpaid non-resident members continues to be a challenge, due to lack of data integrity and legacy debt issues.

Figure 16: Cumulative Amounts Due to Non-Resident Pensioners

11.5. The total amount due at the end of March 2023 amounted to ZW\$514 million. Standalone pension funds had the largest amount of ZW\$319 million, followed by Insured funds with ZW173 million. These amounts have continued to accumulate due to non-payment.

12. Commutations

Distribution of Commutations by Type

12.1. The total amount commuted during the quarter to 31 March 2023 was about ZW\$999 million. The total number of commutations paid was 515 resulting in average commuted benefits paid of ZW\$1.94 million. The industry distribution of the commutations by type is shown in the figure below.

Figure 17: Distribution of Commutation by Type

- 12.2. An analysis of the total commutations approved in the quarter under review revealed that 67% related to full commutations, followed by one third commutations accounting for 20%, whilst partial commutations were at 12% and exit top-ups at 1%.
- 12.3. A total of ZW\$ 118 million was paid for partial commutations, of which 12% ZW\$ 121 million went towards educational purposes. Whilst ZW\$667 million was paid for full commutations and ZW\$ 12 million went towards building and home improvement. The chart below shows the distribution of amounts paid for commutations by purpose: -

Figure 18: Distribution of Commutation by Purpose

12.4. The top three reasons for commutations in the quarter were due to balance capital below minimum, in which 307 members commuted their money, followed by retirement with a total number of 110 members and lastly education which had a total of 73 members.

Complaints Report

12.5. The complaints received in the 1st Quarter of 2023 and their status are as follows:

Table 156: Summary of Complaints Received

	No. of Complaints	Status	
		In Progress	Closed
January	13	8	5
February	9	5	4
March	15	10	5
Total:	37	23	14

12.6. Of the 37 complaints received, 14 of them were resolved, 23 are still in progress, 3 of the complaints for unpaid benefits were for funds which are under dissolution whilst 2 were pre-2009 loss of value related complaints. The unpaid benefits complaints can only be closed once we get the confirmation from the complainant of receipt of funds, but at times people forget to update the Commission, therefore more follow ups are required from the Commission.

12.7. The distribution of complaints is illustrated in the figure below:

Figure 19: Distribution of Complaints

12.8. Most of the complaints reported were under Insured funds with 27 complaints, these accounted for 73% of all received complaints. Stand-alone funds had 6 complaints whilst self-administered funds had 4 complaints.

Figure 20: Distribution by Fund/Administrator

12.9. First Mutual Life had the highest number of complaints with 14 complaints, 10 of these were for unpaid benefits. OMLAC had the second highest complaints with 8 complaints, 5 of which, were for unpaid benefits as well.

Figure 21: Distribution of Complaints by Nature of Complaint

12.10. Most of the complaints received during the quarter were for unpaid benefits, accounting for 65% of all complaints received. They were followed by 2019 Currency reform complaints accounting for 11% of the total complaints received and the nature of complaints with the 3rd highest number were for 2009 Commission of Inquiry, accounting for 8% of the total complaints received.

13. Anti-money Laundering and Combating the Financing of Terrorism and Proliferation Financing

Institutional Risk Assessments and Mitigation

13.1. The third round of the Eastern and Southern Africa Anti-Money Laundering Group (ESAAMLG) mutual evaluation process is expected to commence in 2025. The evaluation focus shall be on the effectiveness of a county's anti-money laundering and combating financing of terrorism (AML/CFT)

systems, that is the extent to which the FATF recommendations outcomes are being achieved in a country.

13.2. In terms of immediate outcome 4 (IO-4) of the Financial Action Task Force (FATF) methodology, financial institutions are required to adequately apply AML/CFT preventive measures commensurate with their risks, and report suspicious transactions. Therefore, risk-based approach is central to AML/CFT.

13.3. Section 12B of the Money Laundering and Proceeds of Crime Act [Chapter 9:24], hereafter referred to as the MLPC Act, requires every financial institution to assess the money laundering and terrorist financing risks to which it is exposed and maintain adequate records thereof.

Risk Assessment

13.4. Pension funds and fund administrators are required to take appropriate steps to identify, assess, and understand their money laundering and terrorism financing (ML/TF) risks (for customers, countries or geographic areas; and products, services, transactions or delivery channels). Pension funds and fund administrators must:

- (a) document their risk assessments.
- (b) consider all the relevant risk factors before determining what is the level of overall risk and the appropriate level and type of mitigation to be applied.
- (c) keep these assessments up to date.
- (d) provide risk assessment information to their supervisors or competent authorities for feedback.

13.5. The pension fund and/or administrator should implement prescribed AML/CFT measures, commensurate with the identified risks, that is to say—

- shall implement **enhanced measures** for high-risk customers, products, services or situations, as appropriate; and
- may implement **simplified or reduced measures** for low-risk customers, products, services or situations, as appropriate.

Risk Mitigation

13.6. Pension funds and fund administrators should:

- (a) have policies, controls and procedures, which are approved by senior management, to enable them to manage and mitigate the risks that have been identified (either by the country through the national or sectoral and/or institutional risk assessments);
- (b) monitor the implementation of those controls and to enhance them if necessary; and
- (c) take enhanced measures to manage and mitigate the risks where higher risks are identified.

Simplified Due Diligence Measures

13.7. Simplified measures to manage and mitigate risks, are permissible only if lower risks have been identified, following an entity's risk assessment.

13.8. Please note that simplified measures are not permitted whenever there is a suspicion of ML/TF even when the risk is considered to be low.

13.9. It is not permissible for a pension funds and fund administrators to dispense with any prescribed anti-money laundering measures on the grounds that it considers the risk to be low.

Review and Update of Institutional Risk Assessments

13.10. IPEC has been issuing circulars requesting industry to update their institutional risk assessments on an annual basis, however the frequency of review can be more than once annually should there be material changes in ML/TF risk. In terms of Section 12B (3) pension funds and fund administrators must review and update its risk assessments **regularly** to take into account material changes in risk factors and shall maintain records of such reviews and updates.

13.11. Review of an IRA must also be conducted:

- (a) Before launching any new product, service or business practice, and
- (b) Before the use of any new technological innovation, for both new and existing products, every financial institution, shall assess and document the money laundering and terrorist financing risk posed by such product,

service, business practice or technology, and put in place adequate measures to mitigate the risk.

13.12. In January 2021, the Financial Intelligence Unit issued a '**Guideline to Financial Institutions and Designated Non-Financial Businesses and Professions on the Risk Based Approach to Implementation of AML/CFT Obligations**'. The Commission has also developed a general AML/CFT industry guideline, which is currently at review stage and will be shared with industry once finalised.

Penalties for Non-Compliance

13.13. Section 12B (6) of the MLPC Act states that any financial institution, which fails to comply with the provisions of the section, including the requirements of any directive or guidelines issued thereunder by the Director General, shall be guilty of an offence and liable to a fine not exceeding level fourteen or imprisonment for a period not exceeding two years or to both such fine and imprisonment.

Key Observations From 2022 IRA Submissions

13.14. From submissions made, the Commission has noted the following issues of concern:

- a. Several entities are not conducting customer risk assessments as part their institutional risk assessment. The risk assessments were limited to products offered only.
- b. There is limited understanding of geographic risk with majority of entities limiting this to foreign jurisdictions associated with terrorism, or on the FATF grey and blacklists. It is important to note that geographic risk also involves domestic areas as informed by NRA.
- c. Most entities did not consider the findings of the NRA when conducting their self-assessments, even in instances where their clients are exposed to high-risk activities identified therein. The NRA provides a broad context of national ML/TF risks, though it does not take into account detailed factors and peculiarities of the institution.
- d. Some entities demonstrated a limited understanding of the nature and level of ML and TF risks they are exposed to. Whist the Commission issued

a guiding template to assist entities assess their ML and TF risks, some simply ticked the boxes to comply with IPEC requirement and did not internalise the assessments. Therefore, the submitted assessments may not be accurately reflecting the ML/TF risks as well as informing their AML/CFT mitigation.

- e. AML/CFT policies, internal controls, and programmes for some entities not necessarily being informed by the level of risk, hence may be in some instances inadequate or inappropriate.
- f. A significant number of registered entities are not adequately detecting and reporting suspicious transactions.

Other General Observations

13.15. Entities are not reviewing their IRAs before (i) launching of new products, services or business practise and (ii) use of any new technological innovation, for both new and existing products. This is in violation of Section 12B (4) of the MLPC Act.

13.16. Where such reviews have been carried out, only a few submissions have been made to the Regulator.

Conclusion

Reporting entities must comply with the provisions of the Act so that their AML/CFT systems are effective, and they fulfil their obligations, and also avoid being penalised for non-compliance. Issues of concern observed from 2022 IRA submissions must be addressed in future assessments. The reporting entities are reminded to apply a risk-based approach in managing risks relating to money laundering and terrorism financing.

Annexures

Annexure 1: Consolidated Industry Statement of Comprehensive Income for the year ended 30 March 2023

	Insured Funds	Self Administered Funds	Stand Alone Funds	Q1 2023 Total
Income				
Year to date Contributions (Including arrears)	11,034,324,267	14,465,666,722	16,443,437,569	41,943,428,558
Interest on contribution arrears	583,865,499	-	6,518,433,836	7,102,299,335
