Disclaimer

- i. This report, including the appendices, has been prepared by the Insurance and Pensions Commission (IPEC) solely for informative purposes to the pension sector stakeholders, and may not be reproduced, redistributed, communicated to a third party, or relied upon by any other person for any other purpose without the Commission's prior written consent.
- ii. The Commission does not accept any liability, if this report is used for any other purposes other than the above-mentioned intended purpose.
- iii. This report relates to private occupational pension funds in the second quarter of 2024 and the figures are based on unaudited accounts submitted by regulated entities.
- iv. The statistics in this report were based on the International Accounting Standard 26 (IAS 26)-Accounting and reporting by retirement benefit plans.
- v. All ZWG amounts are expressed in nominal terms, except where specifically stated to be in real terms.
- vi. Please note that all monetary figures are in ZWG unless stated otherwise. There are no June 2023 ZWG comparatives since this currency was introduced on 5 April 2024. To provide June 2023 comparatives, the Commission converted the ZWL reported amounts to US\$ using the official average exchange rate and the closing rate for that period. Consequently, these amounts may reflect exchange rate distortions.
- vii. ZWG income statement figures were converted to US\$ using the official average exchange rate for the period and statement of financial position figures were converted using the closing rate.
- viii. Except for the foreign business section, the amounts in this report are presented in US\$ equivalents, therefore they are not pure US\$.

1. Executive Summary

- 1.1. The pensions industry had 967 registered occupational pension funds as at 30 June 2024 compared to 970 funds in June 2023.
- 1.2. The decrease was due to the finalization of eight dissolutions during the year. Additionally, there were four transfers, one merger, and nine new funds registered during the review period.
- 1.3. Of the 967 registered funds, 471 were active, constituting 48.7% of the industry's funds while the remaining 496 (51.3%) were inactive. A total of 372 funds out of the 496 (75%) inactive had been earmarked for dissolution.
- 1.4. The industry's total membership, excluding beneficiaries was 968,337 as at 30 June 2024 an increase from 955,653 as at 30 June 2023.
- 1.5. The total industry assets for fund business stood at ZWG 29.82 billion, which is approximately US\$2.18 billion using the official exchange rate. This was an increase of 37.11% from US\$1.59 billion as at 30 June 2023. However, the increases were from revaluation gains on operating assets, fair value gains on investment properties and equity instruments as well as exchange rate distortions over the review period.
- 1.6. The value of investment properties amounted to US\$992.98 million (ZWG13.61 billion), being 45.55% of total assets as at 30 June 2024, compared to US\$828.52 million, which was 52.11% of total assets in the comparative period.
- 1.7. Quoted and unquoted equities increased by 14.12% from US\$475.50 million as at 30 June 2023 to US\$542.65 million (ZWG7.44 billion) as at 30 June 2024. This was attributable to fair value gains and investments in newly approved instruments.
- 1.8. Prescribed asset investments increased from 7.65% to 11.44% of total assets during the period under review.
- 1.9. The total income for the six months ended 30 June 2024 was US\$1.39 billion (ZWG 18.72 billion) compared to US\$2.75 billion last year. This translated to a decrease of 49.45%. However, of this amount, the realised income was US\$292.08 million (ZWG 3.94 billion) which was 21% of the total income.

1.10. Total expenditure was US\$41 million (ZWG 553.05 million), with 40.36% of the total amount going towards administrative expenditure and the other 59.64% towards benefits payments.

2. About the Commission

2.1. Overview

2.1.1. The Insurance and Pensions Commission (IPEC) is a statutory body mandated to regulate, supervise, and develop the insurance and pensions industry, for the protection of policyholders and pension scheme members in Zimbabwe.

2.1.2. This report outlines pensions industry developments and IPEC's supervisory activities in the pensions sector for the half year ended 30 June 2024, consistent with its statutory mandate.

2.1.3. The activities of the Commission are guided by the following Acts and their respective regulations:

- Insurance and Pensions Commission Act [*Chapter 24:21*]
- Pensions and Provident Fund Act [*Chapter 24:32*]
- Insurance Act [*Chapter 24:07*]
- Money Laundering and Proceeds of Crime Act [*Chapter 09:24*]
- Finance Act [*Chapter 23:04*]
- Public Entities and Corporate Governance Act [*Chapter 10:31*]
- Public Finance Management Act [*Chapter 22:19*]
- Public Procurement and Disposal of Public Assets Act [*Chapter 22:23*]
- Administration of Estates Act [*Chapter 6:01*]

3. Key Performance Indicators

3.1. The key performance indicators for the pensions industry as at 30 June 2024 are shown in the table below: -

Table 1: Key Performance Indicators

Indicator	Insured Funds	Self-Administered Funds	Stand-Alone Self-Administered Funds	Total 30 June 2024	Total 30 June 2023
Number of Funds	800	153	14	967	970

Total Assets per Member (ZWG)	21,432.36	54,003.58	27,771.30	30,071.92	
Percentage of Total Assets	25.28%	31.14%	43.58%	100%	100%
Prescribed Assets (Billion ZWG)	0.94	1.41	1.0601	3.41	
Prescribed Assets Ratio	12.47%	15.19%	8.16%	11.44%	7.65%
Contribution Arrears (Million ZWG)	77.93	188.27	472.19	738.39	

Notes:

*Total investment income is made up of rental income, dividends, interest on investments, profit on disposal of assets and fair value gains.

**Total expenditure for the industry includes benefits paid, transfer to reserves and provisions.

***Expenses are calculated as total expenditure excluding items such as expenditure on benefits, transfers to reserves and revaluation losses.

4. Economic Overview

4.1 Economic Outlook

4.1.1. The IMF forecasts that the Zimbabwean economy will grow by 2% in 2024, a decrease from the 5.3% growth in 2023. This lower GDP growth is primarily due to below-average agricultural output caused by the El Niño weather phenomenon.

4.1.2. Mining output is also expected to remain subdued because of lower international mineral prices.

4.1.3. Growth is, however, expected to recover in 2025, supported by a rebound in agriculture and ongoing capital projects in manufacturing.

4.2 Inflation Developments

4.2.1 Inflation remained subdued during the first half of 2024 as reflected by both annual and monthly inflation. US\$ annual inflation for June 2024 was 3.8% whilst month on month inflation was in the negative territory at -0.3%, down from the positive rates reported for April and May 2024.

4.2.2 The graph below shows month-on-month inflation developments from June 2023 to June 2024: -

4.3 Exchange Rate Developments

- 4.3.1. Whilst the first quarter of 2024 was characterised by high exchange rate depreciation, the second quarter witnessed exchange rate stability following the introduction of the Zimbabwe Gold Currency (ZWG) in April.
- 4.3.2. From 8 April to end of June, the US\$/ZWG exchange rate remained stable, as it slightly moved from US\$1/ZWG13.5616 to US\$1/ZWG13.7031.
- 4.3.3. The developments were a relief to members as their benefits denominated in local currency maintained value during that period.

4.4 Stock Market Performance:

4.4.1. Zimbabwe Stock Exchange

The ZSE's performance in Q2 2024 indicates a mixed outlook for the pensions sector. While market volatility and changing foreign investor sentiment pose challenges, the overall growth in market capitalisation and potential long-term opportunities warrant careful consideration. Pension funds should adopt prudent risk management strategies and maintain a long-term investment perspective to navigate this dynamic market environment successfully.

4.4.2. Victoria Falls Exchange

The VFEX performance during Q2 2024 presented a mixed picture, with both opportunities and challenges for the pension sector. While foreign investor interest signals positive prospects, the volatile market conditions emphasize the need for prudent risk management and a long-term investment approach.

5. Regulatory Developments

- 5.1. The Insurance and Pensions Commission issued three circulars for the pensions industry in the second quarter of 2024. Two circulars were targeted at guiding the industry on the conversion of insurance and pension assets and liabilities from ZWL to ZWG and the other one was for information regarding AML/CFT training.
- 5.2. The table below shows the circulars issued to the industry in Q2 2024.

Table 2: Circulars Issued for the Quarter ended 30 June 2024

Document	Issue date	Content
Circular 8 of 2024	10 May 2024	Guideline on 2024 Currency Changes
Circular 10 of 2024	17 June 2024	IPEC AML/CFT/CPF Industry Training Calendar
Circular 11 of 2024	27 June 2024	Amendments to Circular 8 - Guideline on 2024 Currency Changes

6. Prescribed Assets Applications

- 6.1. A total of three applications were conferred prescribed asset status by the Minister of Finance, Economic Development, and Investment Promotion within the second quarter of 2024.
- 6.2. The instruments that were approved during the first half of the year are listed in the table below: -

Table 3: Approved Prescribed Asset Instruments for the Six Months to 30 June 2024

Issuer	Amount (millions)	Currency	Purpose	Date Approved
Lamcent	41.10	US\$	Infrastructure development	17-Jan-24
NMB	20.00	ZW\$	Agriculture – Summer cropping	18-Jan-24
	10.00	US\$		
Okavhango	13.00	US\$	Solar Energy	18-Jan-24
Fidelity Asset Manager	60.00	US\$	REIT	6-Feb-24
Mining Industry PF	25.70	US\$	Infrastructure development	6-Feb-24
Dabuka Village	45.00	US\$	Infrastructure development	6-Feb-24
Sunrise	12.40	US\$	Agriculture	8-Mar-24
Penhalonga Energy	3.25	US\$	Hydro-power generation	17-May-24
Silverback/Mombemari	6.76	US\$	Agriculture - Cattle project	21-May-24
ZEIPF	49.30	US\$	REIT	7-June-24

6.3. The approved prescribed assets present an opportunity for the industry to diversify its portfolio whilst promoting investments in projects that foster national growth and align with the National Development Strategy (NDS1). The industry is, therefore, urged to invest in prescribed assets to ensure compliance with the regulatory minimum requirement of 20% of total assets.

7. Registered Pension Funds

7.1. There were 967 registered occupational pension funds as at 30 June 2024 compared to 970 funds as at 30 June 2023.

7.2. The change was attributed to eight dissolutions finalised during the year. In addition, there were four transfers, one merger and nine new funds, which were registered during the period under review. *Refer to table 6 for transfers and mergers.*

7.3. Of the 967 funds, 471 were active, accounting for 48.7% of the industry's funds. The remaining 496 funds were inactive as they were either paid up or earmarked for dissolution. Of the total funds, 37 pension funds were defined benefit schemes, three were hybrid (both defined benefit and defined contribution) and the remainder were defined contribution schemes.

7.4. Only 14 of the 967 registered funds conduct their own in-house fund administration. The remainder comprising 800 insured funds and 153 self-administered funds, outsource the services to fund administrators.

7.5. There were 14 fund administrators registered with IPEC as at 30 June 2024. Five of the 14 administrators are independent, while the other nine are registered life assurance companies conducting fund administration business. This follows the addition of Doves Life which registered as a pension fund administrator.

7.6. The table below shows the distribution of pension funds managed by the respective administrators: -

Table 4: Distribution of Funds Administered by Type of Administration Model

Name of Administrator	30-June-24		30-June-23

Total	800	167	798	172

Fund Registrations

7.7. During the first half of the year, ending on 30 June 2024, nine pension funds were registered. These include Lupane Local Board, Gutu RDC, Chipper, Nkayi RDC, Econet Life drawdown, Bubi RDC, Contact Family Counselling Centre Provident Fund, Donhodzo Micro-Pension Fund, and Mashonaland Tobacco Company Pension Fund.

7.8. Fund administrators and pension scheme sponsors must ensure that funds are fully registered before starting operations and that they are subsequently reported on, regardless of their status and position.

Transfer of Fund Business

7.9. During the period under review, the Commission approved a total of four transfers. The transfers are shown in the table below.

Table 5: Fund Transfers and Mergers

Pension Fund	From	To
Powerspeed	Old Mutual	Minerva
Girls College	FML	Minerva
CPL	Minerva	Minerva Umbrella Fund
CRP	Minerva	Minerva Umbrella Fund

¹ Refer to Annexure 5 for the comprehensive schedule of Stand-alone funds.

Pension Fund	From	To
Mergers		
Mandel Training Centre	Old Mutual	Delta under Old Mutual

7.10. The Commission will continue to monitor the transfer of business between administrators to ensure compliance with the provisions of the Pensions and Provident Funds Act and the guideline on transfer of business.

Dissolutions

7.11. As at the reporting date, 372 funds were designated for dissolution. However, the Commission has postponed the dissolution of funds established before 2009 until the pre-2009 compensation is concluded to ensure fairness among members.

Membership

7.12. The table below shows the distribution of members as at 30 June 2024 and 30 June 2023, respectively.

Table 6: Membership Classes as at 30 June 2024

Membership Class	Insured Funds	Self - Administered Funds	Stand Alone Funds	Total Q2 2024	Total Q2 2023
New Entrants	1,290	4,785	2,117	8,192	6,793
Active members (excluding new entrants)	100,939	110,642	150,677	362,258	362,103
Pensioners (Excluding beneficiaries)	7,606	4,706	20,197	32,509	34,929
Deferred Pensioners	225,722	40,672	181,563	447,957	441,675

Exit on early retirement due to retrenchment or ill health	192	85	318	277	495
Exit on death	27	62	58	89	87
Transfer to other funds	-	28	37	28	516
Other (Specify) e.g. Full Commutation	15,049	1,963	250	17,012	2,207
Total Number of Exits	15,717	4,148	797	20,662	16,427

7.13. The membership trend for the past five years is shown in the figure below: -

Figure 1: Trend in Membership

7.14. There was an increase of 1.30% in total membership (including beneficiaries) from 978,896 to 991,594. This increase was attributed to new members.

8. Assets

- 8.1. The industry's total assets stood at US\$2.18 billion (ZWG29.82 billion) as at 30 June 2024, an increase of 37.11% from US\$1.59 billion as at 30 June 2023.
- 8.2. Contribution arrears were US\$53.88 million (ZWG738.39 million), constituting 2.47% of the industry's assets. This was an increase of 133.75% from US\$23.05 million in the prior year wherein contribution arrears constituted 1.45% of total industry assets.
- 8.3. The increase, though affected by exchange rate distortions, is also an indicator of a growing challenge of non-remittance of contribution by fund sponsors as

they fall due. The industry is being reminded that the Commission can garnish the bank accounts of the defaulting sponsoring employers.

8.4. The asset composition of the industry is as shown in the figure below:

Figure 2: Asset Composition

8.5. The pension industry assets were concentrated in investment properties and quoted equities, which constituted a combined position of 69% of the industry's total assets portfolio.

8.6. Investment property amounted to US\$992.98 million (ZWG13.61 billion), being 46% of total assets as at 30 June 2024, compared to US\$828.52 million which was 52% of total assets in the comparative period.

8.7. Quoted equities increased by 20.18% in US\$ terms from US\$421.41 million as at 30 June 2023 to US\$506.47 million (ZWG6.94 billion) as at 30 June 2024. This was mainly attributable to fair value gains.

8.8. Investments in unquoted equities decreased to the equivalent of US\$36.17 million (ZWG495.69 million), down from US\$54.09 million in the same period last year. This resulted in a decline in the proportion of unquoted equities to total assets from 3.40% to 1.66%.

8.9. The five-year asset trend is depicted in the diagram below: -

Figure 3: Trend in Assets (US\$ Equivalent)

8.10. The irregular trend in industry assets was influenced by exchange rate distortions and delays in valuing direct property holdings.

8.11. Prescribed assets increased by 104.33% from US\$121.81 million as at 30 June 2023 to US\$248.90 million as at the reporting date, with revaluation gains being the primary driver. Prescribed assets constituted 11% of the industry's assets as at 30 June 2024. This was an increase from 7.65% recorded at the same time last year.

8.12. Notwithstanding the increase in prescribed assets, the ratio is still below the regulatory minimum of 20% and the industry is urged to invest in a pool of instruments conferred prescribed asset status to meet the minimum prescribed threshold.

8.13. The number of gold coins acquired by the pensions industry remained constant from the previous quarter, with 1,995 coins of various denominations. However, the value of the coins increased by 5.97% to reach US\$4.70 million as at 30 June 2024 up from US\$4.44 million reported as at 31 March 2024. This increase in value was driven by gains in the price of gold. The tables below show the extent of gold-backed investments by the industry: -

Table 7: Gold Coin Investments

Denomination	Insured	Self Admin	Standalone	Total
0.1Oz	0	2	20	22
0.25Oz	0	1	32	33
0.5Oz	9	35	2	46
1Oz	55	1411	428	1894
Number of coins	64	1449	482	1995
Value (ZWG millions)	1.99	47.77	14.68	64.44

Table 8: Gold Backed Digital Tokens

Sector	Value	Tokens held
	(ZWG millions)	(MG in millions)
Insured	0.14	0.13
Self-Admin	4.57	4.27
Standalone	0.63	0.59
Total	5.34	4.99

9. Income

- 9.1. The total income for the period under review was US\$1.39 billion (ZWG18.72 billion), representing a 49.48% decline from the US\$2.75 billion reported in the same period the previous year. Of the total income, US\$101.9 million was in foreign currency, making up 7.33% of the industry's total income. To address challenges related to reporting in hyperinflation and the exchange rate distortions, the Commission will reintroduce the requirement for pension funds to adopt full IFRS.
- 9.2. The major source of income was fair value gains on investments, constituting 79% of total income, amounting to US\$1.1 billion (ZWG14.83 billion). However, the realised income was US\$292.08 million (ZWG 3.94 billion) which was 21.05% of the total income.
- 9.3. Contributions constituted 6.11% of total income with a total of US\$84.98 million (ZWG1.15 billion).

The general trend in contributions is shown in the figure below.

Figure 4: Trend in Contributions (US\$ Equivalent)

9.4. Pension contributions showed a gradual increase from Q2 2020 to Q2 2024, with a notable decline in Q2 2023.

10. Expenditure

10.1. Total expenditure for the period under review was US\$41 million (ZWG553.05 million), a decline of 2.14% from US\$41.9 million in the prior year. Of that amount, US\$24.45 million (ZWG329.81 million) that is, 59.64% of expenses went towards the payment of benefits.

10.2. Total administrative expenses incurred were US\$16.55 million (ZWG223.24 million) and were driven by administration fees, staff costs, investment management fees and property expenses, which collectively accounted for 70.76% of the total administration expenses. The Commission will continue to enforce compliance with the Expenses Framework.

10.3. The trend for expenses is shown in the figure below:-

Figure 5: Trend in Expenditure

10.4. The expense ratios for all funds against thresholds set in the Expense Framework are shown in Annexure 3.

10.5. The table below shows the industry proportion of total expenditure to total contributions and contribution arrears to total assets.

Table 9: Proportion of Expenses and Contribution Arrears

	Q2 2020	Q2 2021	Q2 2022	Q2 2023	Q2 2024
Contributions (US\$ millions)	20.72	65.33	58.81	89.57	84.98
Total Expenses (US\$ millions)	4.61	61.55	53.03	24.28	16.55
Total Expenses/Contributions	22%	94%	90%	27%	19%
Contributions Arrears (US\$ millions)	1.35	35.76	24.36	23.05	53.88
Total Assets (US\$ millions)	303.77	2,322.35	2,154.71	1,592.07	2,176.12
Contribution Arrears to Total Assets	7%	3%	3%	1%	2%

10.6. Over the years expenses significantly increased in proportion to contributions with a marked decline in the current reporting period as the ratio fell to 19% from 27% of the prior year.

10.7. Notwithstanding the ebb and flows over the years, the average proportion of contribution arrears to total assets continued to hover at 3%. This indicates that contributions are not a priority among the obligations of fund sponsors. The

Commission is engaging all key stakeholders to resolve the issue of contribution arrears.

11. Forex Assets

- 11.1. Foreign currency-denominated assets increased by 38.97% from US\$287.81 million as at Q2 2023 to US\$399.98 million as at Q2 2024, thus commanding 18.38% of total assets.
- 11.2. The major asset classes were listed equities, prescribed assets, money market investments and investment property, which constituted 34%, 19%, 12% and 11%, respectively. The respective asset classes in the prior year stood at 52%, 16%, 8% and 5% as proportions of the total forex assets.
- 11.3. The Victoria Falls Stock Exchange (VFEX) has enhanced diversification and sustainable value for pension funds by enabling investments in foreign currency-denominated securities.
- 11.4. The holding of foreign currency-denominated assets has helped in cushioning the investment portfolios from being eroded by inflation.
- 11.5. Pension funds should ensure that the income generated by foreign currency denominated assets is equitably allocated to members to improve member benefits and accumulations.
- 11.6. Contribution arrears as at 30 June 2024 stood at US\$37.5 million, constituting 9.4% of the industry's foreign currency-denominated assets and 71% of US\$ contributions received. Pension funds are encouraged to verify whether the sponsoring employer has the contribution liability reported in their audited financial statements.
- 11.7. When compared to the contribution arrears for the previous quarter there was a 29.8% increase from US\$28.9 million to US\$37.5 million. Boards of funds and employers are urged to address the challenge of US\$ arrears, which are impacting adversely on reasonable expectations of members.
- 11.8. The timely remittance of contributions is a critical aspect of managing pension funds and ensuring the financial security of employees. Boards of funds are encouraged to establish clear guidelines aimed at facilitating prompt and consistent remittance of contributions. Engaging with sponsoring employers is also essential to safeguard the interests of members.

11.9. The table below shows the asset composition in foreign currency business.

Figure 6: Foreign Currency Assets

11.10. As shown above, foreign currency-denominated assets were in equities, prescribed assets, money market investments and investment property, which collectively constituted 76% of total foreign currency denominated assets. The major investments are VFEX counters, the Eastern and Southern African Trade Fund (ESATF), Afrexim, Nedbank, Quilter Plc shares and Anglo America.

12. Foreign Currency Income and Expenditure

12.1. Total foreign currency income as at 30 June 2024 amounted to US\$101.9 million compared to US\$51.4 million as at 30 June 2023. This was a 98.2% increase from Q2 2023. The realised income amounted to US\$92.7 million, which is 90.97% of total income.

12.2. Total forex contributions amounted to US\$53.1 million up from US\$18.56 million. As at 30 June 2024, forex contributions accounted for 52% of the total forex income.

12.3. Total forex benefits expenditure as at 30 June 2024 amounted to US\$13.04 million compared to US\$3.31 million of the previous year.

12.4. Administrative expenditure accounted for 49.07% of the total expenditure, which is lower than the percentage allocated to benefits paid. This is an improvement from the previous period, where administrative costs were 52.6% of the total expenditure. This shift indicates that a greater portion of foreign currency resources is now being directed towards the core function of the industry that is, the payment of benefits.

12.5. The table below shows key forex business matrices: -

Table 10: Key Indicators

Indicator	US\$ (Millions)
Total contributions	53.1
Total income	101.9
Total benefits expenditure	13.04
Total administrative expenditure	12.6
Total expenditure	25.6
Total assets	399.98

13. Pension Fund Administrators

13.1. Total income earned by fund administrators from fund administration business for the period was US\$7.15 million (ZWG96.47 million) compared to US\$1.97 million as at 30 June 2023. Of that amount, pure US\$ income was US\$2.93 million (ZWG39.48 million), thus constituting 40.92% of total income earned. During the period under review, 11 out of the 14 administrators recorded US\$ business.

13.2. Income from fund administration fees earned by administrators for services rendered was ZWG40.43 million, constituting 41.91% of the total income. The total US\$ income earned from administration fees was 4.06% of the total US\$ contributions for administered funds. The table below shows the sources of income earned by administrators for the period under review.

Table 11: Sources of Income for Administrators

Source of income	Pure ZWG 'millions'	US\$ - (ZWG equivalent in millions)	Combined Total (ZWG millions)	Percentage to total income
Admin fees	20.91	19.52	40.43	41.91%
Investment Income	8.52	13.47	21.99	22.80%
Fair Value gains	17.16	0.02	17.18	17.81%
Cost of Guarantee	6.05	-	6.05	6.27%

Source of income	Pure ZWG 'millions'	US\$ - (ZWG equivalent in millions)	Combined Total	Percentage to total income
			(ZWG millions)	
Consultancy Fees	3.22	2.03	5.25	5.44%
Commission	1.03	3.48	4.51	4.67%
Other Income	0.06	0.96	1.01	1.05%
Rentals	0.05	-	0.05	0.05%
Total Income	57.00	39.48	96.47	100%

13.3. Total expenditure incurred as at 30 June 2024 was ZWG107.3 million, and comprised salaries and wages, operating expenses, commissions, management fees and rentals, resulting in a loss of ZWG10.82 million. The table below shows the major cost drivers and their proportion to the total expenses.

Table 12: Major Cost Drivers for Fund Administrator

Expense Item	Amount (ZWG)	% of Total Expenses
Salaries and Wages	52,722,792	49%
Operating Expenses	10,732,434	10%
Commission	8,214,072	8%
Management Fees	5,443,667	5%
Rentals	4,697,053	4%

13.4. Administrators are urged to rationalise the expenditure in line with the operating environment to keep the expenses within sustainable limits. Of the administration fees earned, 48% was transacted in foreign currency. The table below shows the administration fees as a component of total income for each administrator and the extent to which such fees are in forex.

Table 13: Administrators' Administration Fees

Administrator	Total Income ZWG	Administration Fees			Proportion of Forex component to Total Admin Fees
		Combined US\$ + ZWG	US\$	US\$ Converted	
Econet	17,128	17,128	1,270	17,128	100%

Total	96,474,844	2,927,935	100%

13.5. Total assets for independent administrators, excluding life assurers and brokers, amounted to ZWG23.08 million and US\$70,173 with property, debtors, cash, and staff loans denominated in US\$.

13.6. The breakdown of assets for independent administrators is as shown in the following table:

Table 15: Independent Administrators' Asset Distribution

Asset class	ZWG	US\$(Converted)	% of Total assets
Property and equipment	18,584,144	182,799	78%
Debtors	2,200,324	586,458	12%
Equities	1,505,702	-	6%
Money market	305,456	-	1%
Bank and cash balances	304,660	31,963	1%
Staff loans	35,846	160,364	1%
Prepayments	92,054	-	0%
Deferred tax	56,340	-	0%
Total	23,084,525	961,584	100%

13.7. As shown in the above table, the major asset class for independent administrators was property and equipment.

14. Unclaimed Benefits

14.1. Unclaimed benefits for the six months ended 30 June 2024 amounted to US\$6.6 million (ZWG90.1 million) a 40% increase from the US\$4.7 million reported during the same period in 2023. Membership with unclaimed benefits was 100,531 which was a 5.83% increase from 94,994 recorded for 30 June 2023.

14.2. Though the total membership for unclaimed benefits during the quarter under review made a 5.83% increase compared to 30 June 2023, it should be noted that the increase in members with unclaimed benefits was compounded by the figures for Catering Industry Pension Fund, which were not included for the same period last year.

Distribution of Industry Unclaimed Benefits

14.3. For the period under review stand-alone funds had the largest membership with unclaimed benefits at 78%, followed by self-administered funds accounting for 16% and insured funds at 6%.

Figure 7: Unclaimed Benefits by Administration Model**Figure 8: Industry Unclaimed Benefits Age Analysis**

14.4. It was observed that unclaimed benefits with 6-10 years accounted for 40%, followed by ten years and above at 31%. All unclaimed benefits aged five years and above should be transferred to the Guardian Fund under the Master of the High Court as per the requirement of the Estate Act.

Figure 9: Trend of the Industry Unclaimed Benefits (US\$ Equivalent)

15. Suspended Pensioners

15.1. The benefits liability for suspended pensioners stood at US\$711,013 (ZWG9,743,086) as of 30 June 2024.

15.2. Total number of suspended pensioners increased from 21,787 in the previous quarter to 25,999 in the period under review. This indicates a 19% increase in the number of suspended pensioners. The diagram below illustrates the trend of the reported suspended pensioners from Q1 2023 to Q2 2024.

Figure 10: Trend of Suspended Pensioners

15.3. The number of suspended pensioners has shown variability, reaching its lowest point in Q4 2023. The noticeable spikes in Q1 coincide with the submission of Certificates of Existence to Fund Administrators.

Suspended Pensioners by Administration Models.

15.4. Over the past three quarters, insured funds have consistently had the highest number of suspended pensioners, followed by self-administered funds and stand-alone funds. In the current quarter, stand-alone funds held the largest ratio with 61%, followed by self-administered funds with 20% and lastly insured funds at 19%.

Figure 11: Distribution of Suspended Pensioners by Administration Model

15.5. In The distribution of suspended pensioners liability by administration model, insured funds had the largest suspended benefit liability of ZWG7,087,748, followed by stand-alone funds with a liability of ZWG1,570,544 and lastly self-administered with ZWG1,084,794.

15.6. The Commission expects all administrators to have the essential data to locate every member and ensure the submission of Certificates of Existence, aiming to decrease the quantity of suspended pensioners.

16. Non-Resident Pensioners

16.1. As at 30 June 2024 the total cumulative amount due to non-resident pensioners was ZWG2.74 million (US\$200 thousand) owed to 3,886 non-resident pensioners. This amount was an increase from US\$141 thousand owed

to 3,258 members as at 30 June 2023 which was 42% increase in the US\$ amount owed to non-resident pensioners. These amounts have continued to accumulate due to non-payments.

16.2. The figure below shows the cumulative outstanding non-resident amounts as at 30 June 2024.

Figure 12: Cumulative Benefits due to Non-Resident Pensioners

17. Commutations

17.1. The total amount commuted during the period under review, was ZWG 6.6 million.

Figure 13: Distribution of Commutations by Type

17.2. Full commutations constituted the biggest portion of payments as 30 June 2024. There was no change from the previous quarter as full commutations occupied the largest portion of the payments.

Commutations By Purpose

17.3. The top three reasons for commutations were retirement followed by retrenchment and lastly medical as compared to the previous quarter in Q1 2024 which the top three were school fees, retirement, and retrenchment.

Figure 14: Commutations by Purpose

18. Complaints

18.1. In the second quarter of 2024, the Commission received a total of 98 complaints. Of these, the Commission resolved 73 complaints, while the remaining 25 complaints were awaiting resolution. This was an improvement on resolution rate from 30% to 74%. Of the non-resolved complaints, 13 were categorised as complex whilst 12 were non-complex.

Key Observations.

18.2. The significant increase in the number of complaints received the dominance of unpaid pension benefits as the primary issue. Some of the unpaid pension benefit complaints were due to non-submission of exit forms to administrators or were later resolved with proof of payment, suggesting

administrative issues or miscommunications rather than actual non-payment of benefits.

18.3. The Commission was able to successfully resolve 73 out of the 98 complaints received, a resolution rate of 74%. This was an improvement from the previous quarter, where the resolution rate was only 30%.

18.4. The non-resolved complaints comprised the following nature of complaints: non-remittance of contributions, 2009 compensation, disputes over revaluation gains awarded, low benefits, and unpaid benefits due to funds dissolving.

18.5. The highest number of complaints (27%) were received from OMLAC (Old Mutual Life Assurance Company), reflecting their larger scale of operations and customer base.

18.6. In the second quarter of 2024, the industry experienced an increase in pension-related complaints, a total of 98 compared to 57 in the previous quarter. The complaints were distributed as follows: 23 in April, 41 in May, and 34 in June.

Figure 15: Nature of the Complaints Received

18.7. The largest category was unpaid pension benefits, with 49 complaints compared to 24 in the previous quarter, accounting for 50% of the total complaints, up from 42% in the prior quarter. The second largest category was inadequate benefits, constituting 21% of the complaints, followed by the 2009 compensation category, making up 8% of the total. The remaining

"Others" category encompassed various issues such as non-remittance of contributions, deferred pension management, and payment of one-third commutation in US dollars.

18.8. Delving deeper into the breakdown of the complaints, it was found that the largest category, related to unpaid pension benefits, was partly due to non-submission of exit forms to administrators. Additionally, some of these complaints were regarding pension benefits that had already been paid, but later provided with proof of payment by the administrators. This suggests that a portion of the unpaid pension benefit complaints may have been the result of administrative issues or miscommunications, rather than actual non-payment of benefits.

Table 16: Distribution of Complaints by Entity

Entity	April	May	June	Total	Resolved	Non resolved
Bright	1	1	1	3	3	0
Communications and Allied	2	1	0	3	1	2
Catering Industry	0	0	1	1	2	0
Clothing Industry	0	0	1	1	1	0

ZB life	0	1	1	2	1	0
Zimnat	2	3	0	5	3	2
Total	23	41	34	98	73	25

18.9. The data shows that the highest number of complaints, accounting for 27% of the total, were received from OMLAC (Old Mutual Life Assurance Company), followed by 19% from FML and 12% from Minerva.

Resolved and pending complaints.

Figure 16: Status of Complaints

19. Anti-Money Laundering and Combating the Financing of Terrorism and Proliferation Financing

In the second quarter of 2024, two out of three independent fund administrators and twelve out of fourteen stand-alone pension funds submitted their AML/CFT/CPF quarterly returns. Entities that fail to submit returns will face penalties for non-compliance. The following key observations were made from the submissions received during the period under review.

Inherent Risks

19.1. Customer Risk

19.1.1. In the second quarter of 2024, five out of twelve stand-alone pension funds identified politically exposed persons (PEPs). The presence of high-risk clients like PEPs necessitates that pension funds and administrators apply enhanced due diligence measures when dealing with these clients, their family members, or associates to mitigate the risks of money laundering, terrorist financing, and proliferation financing.

19.1.2. Customer due diligence must be conducted for all clients at the payout stage to verify their identity, including that of beneficiaries, to mitigate the

risk of terrorist financing. This ensures that benefits are directed to the intended recipients and not to unrelated third parties.

19.2. Product Risk

Pension fund contributions primarily consisted of regular contributions, with a few instances of voluntary contributions. Therefore, pension funds must apply enhanced due diligence measures when voluntary contributions are not deducted at the source, such as through payroll. Voluntary contributions from other sources may expose pension funds to the risk of money laundering.

19.3. High-Risk Jurisdictions

Pension funds must comply with the Financial Intelligence Unit's Directive No. PFIU8/07/2024, circulated through Circular 13 of 2024 on High-Risk Jurisdictions for all cross-border transactions. Enhanced due diligence and monitoring must be conducted when making cross border transactions for member benefits or service providers based in high-risk jurisdictions.

19.4. AML/CFT Controls

Control measures must continuously be enhanced relative to risks being identified by pension funds and fund administrators. Improvement in AML compliance programs help strengthen defences against financial crime.

19.5. Suspicious Transaction Reports (STRs) and Cash Transaction Reports (CTRs)

One pension fund filed an STRs during the quarter under review.

A total of 13 CTRs were reported during the quarter by three pension funds, an improvement from the six filed in the first quarter of 2024. Entities should note that any cash payouts to pensioners that have reached the stipulated thresholds must be reported to the FIU as CTRs.

All entities should be registered on GoAML to facilitate filing of STRs and CTRs.

19.6. Refresher Training

The Commission shall be conducting a refresher training for pension funds on the AML/CFT/CPF template.

20. Regulatory Breaches

- 20.1.** During the first half of 2024, no pension fund was penalised for regulatory breaches. Compliance with regulatory requirements is of utmost importance and the industry is always required to comply with statutes.
- 20.2.** Additionally, industry players are reminded that failure to submit, late submissions, or partial submissions of quarterly returns and audited financial statements, as required by Section 31 of the Pensions and Provident Funds Act [Chapter 24:32] and Circular 34 of 2022, will result in regulatory sanctions for non-compliant funds

21. Conclusion

The Commission calls on all pension stakeholders to collaborate in addressing the industry's challenges and improving member outcomes. Key issues include declining pension contributions, contribution arrears, and low economies of scale due to smaller pension funds. Enhancing communication with fund members through improved benefit statements, annual general meetings, staff addresses, and consumer education is essential

22. Annexures

Annexure 1: Consolidated Industry Statement of Comprehensive Income for the six months ended 30 June 2024

	Insured Funds	Self-Administered Funds	Stand Alone Funds	Total Q2 2024
