

FUNERAL ASSURANCE SECTOR REPORT

FOR THE QUARTER ENDED 30 SEPTEMBER 2025

Email: enquiry@ipec.co.zw

Protecting the Interests of Insurance and Pension Consumers

Disclaimer

- i. This report, including any enclosures and attachments, has been prepared by the Insurance and Pensions Commission (IPEC), solely for informative purposes to the insurance sector stakeholders.
- ii. The report may not be reproduced, redistributed, communicated to a third party, or relied upon by any other person for any other purpose without the Commission's prior written consent. The Commission does not accept any liability if this report is used for any other purposes other than the above-mentioned intended purpose.
- iii. This report relates to the Funeral Assurance business written by Funeral Assurers only and does not relate to the Funeral Assurance business written by Life Assurers. The Funeral Assurance business generated by Life Assurers is reported in the Life Assurance Report.
- iv. Growth referred to in this report is nominal growth, unless stated otherwise.
- v. These statistics are based on the International Financial Reporting Standard (IFRS) 17, Insurance Contracts, which became effective 1 January 2023.
- vi. Please Note: All Monetary Figures are in ZWG except stated otherwise.

Background

This report is being issued belatedly due to technical challenges faced by the Funeral Assurance sector in transitioning to the International Financial Reporting Standard (IFRS) 17, which became effective on 1 January 2023. The implementation of IFRS 17 required significant system and process adjustments across the Funeral Assurance sector, resulting in delays in compiling and submitting IFRS 17-compliant returns for the third quarter of 2025. Despite these challenges, the Insurance and Pensions Commission (IPEC) remains committed to providing stakeholders with accurate and comprehensive insights into the performance of the Funeral Assurance sector for the third quarter of 2025. This report reflects the latest available data and regulatory developments, ensuring transparency and alignment with international best practices.

EXECUTIVE SUMMARY

1 Executive Summary

- 1.1 The report provides an analysis of the Funeral Assurance sector, a high-level summary of key economic indicators and financial markets and highlights the Commission's key regulatory activities for the third quarter ended 30 September 2025.
- 1.2 As at 30 September 2025, there were eight (8) registered Funeral Assurance companies in Zimbabwe. Of the eight registered entities, seven (7) were operational. Six (6) of the operational assurers submitted their third-quarter regulatory returns, whilst Orchid Funeral Assurance did not submit.
- 1.3 The Funeral Assurance Industry had 124,851 policies for the third quarter, a 7% decrease from 133,728 policies reported as at 31 December 2024.
- 1.4 The sector reported a consolidated nominal Insurance Revenue of ZWG 214.4million, which was equivalent to US\$8.05 million at the prevailing official exchange rate as at 30 September 2025. Of this amount, foreign currency denominated business amounted to US\$4.5 million, representing 56% of the total revenue collected for the quarter.
- 1.5 Moonlight Funeral Assurance recorded ZAR686,850.78 from the foreign currency denominated business, a 92% increase from the ZAR 356,190.74 recorded in the same period in September 2024.
- 1.6 As at 30 September 2025, four (4) entities were compliant with the Minimum Capital Requirements of US\$500,000 or its equivalents in terms of S.I 67 of 2025.
- 1.7 Total assets for the sector amounted to ZWG816.6 million, equivalent to US\$30.6 million.
- 1.8 Compliance with Prescribed Asset requirements remained critically low, with all six reporting assurers recording 0.01% against the statutory minimum of 10%.
- 1.9 Sector key financial highlights are indicated below:

Section B

ABOUT THE COMMISSION

2 Introduction

- 2.1 Insurance and Pensions Commission (IPEC) is a Statutory Body, mandated with regulating, supervising, and developing the Insurance and Pensions Industry for the protection of policyholders and pension scheme members in Zimbabwe.
- 2.2 This report outlines the Funeral Assurance sector developments and IPEC's various activities in the sector, consistent with its statutory mandate for the Quarter ending 30 September 2025.

2.3 Terms of Reference

The activities of the Commission are guided by the following Acts and their Regulations:

- 2.3.1 Insurance and Pensions Commission Act [*Chapter 24:21*]
- 2.3.2 Pension and Provident Funds Act [*Chapter 24:32*]
- 2.3.3 Insurance Act [*Chapter 24:07*]
- 2.3.4 Money Laundering and Proceeds of Crime Act [*Chapter 09:24*]
- 2.3.5 Finance Act [*Chapter 23:04*]
- 2.3.6 Public Entities and Corporate Governance Act [*Chapter 10:31*]
- 2.3.7 Public Finance Management Act [*Chapter 22:19*]; and
- 2.3.8 Public Procurement and Disposal of Public Assets Act [*Chapter 22:23*]

Section C | ECONOMIC
OVERVIEW

SECTION B: ECONOMIC OVERVIEW

3 ECONOMIC OVERVIEW

3.1 Introduction

3.1.1 The third quarter of 2025 marked a period of notable macroeconomic consolidation for Zimbabwe, characterised by strengthening confidence, declining inflationary pressures, and sustained exchange rate stability. The combination of disciplined monetary policy, prudent fiscal management, and favourable external developments contributed to a more stable operating environment across sectors. The tight monetary policy from the Reserve Bank of Zimbabwe (RBZ) successfully entrenched price stability, with the local currency (ZWG) month-on-month inflation turning negative at -0.25% in September 2025.

3.2 Domestic Macro-Prudential Analysis

3.2.1 In the third quarter of 2025, Zimbabwe's economy sustained positive momentum, building on the growth achieved earlier in the year.

3.2.2 This performance was underpinned by robust agricultural output, favourable global commodity prices, particularly in gold and tobacco and continued implementation of structural reforms.

3.2.3 The economy is expected to record around 6.6 % real GDP growth in 2025, reflecting a broad-based recovery across both primary and value-added sectors.

3.2.4 Following the GDP rebasing completed by ZIMSTAT in the second quarter of 2025, the national economy was recalibrated from US\$35.2 billion in 2024 to approximately US\$45.7 billion, raising per capita GDP above US\$3,000.

3.3 Inflation Developments

3.3.1 According to ZimStat, the country recorded month-on-month (MoM) deflation in September of -0.25%, down from 0.4% in August 2025.

3.3.2 The slowdown in inflation was largely driven by falling prices in the food and non-alcoholic beverages category, which constitutes over 30% of the CPI basket.

3.3.3 On an annual basis, ZWG inflation slowed to 82.7% in September 2025, down from 92.5% in June 2025, signalling a continued moderation in price pressures.

Figure 3-1: Monthly Inflation Rates (% Monthly)

3.4 Exchange Rate Developments

3.4.1 In September 2025, the Zimbabwean dollar (ZWG) appreciated by 0.4% against the US dollar on the willing-buyer willing-seller (WBWS) interbank market, closing at ZWG26.64:US\$1.

3.4.2 This marked the third consecutive month of gains in the official market, with an average monthly appreciation of 0.4% from July to September.

3.4.3 On the parallel market, the ZWG also strengthened, gaining approximately against the US dollar, to close the month at an average rate of ZWG32:US\$1, compared to ZWG34:US\$1 in August.

3.4.4 This represented the tenth consecutive month of relative stability in the parallel market, leading to a decline in the average parallel market premium from around 27% in August 2025 to 20% in September 2025.

3.4.5 For the quarter under review, the ZWG recorded a cumulative gain of 1.1% against the US dollar, reversing losses of 0.7% and 3.7% observed in Q2 and Q1, respectively.

Figure 3-2: Average Official Exchange Rates

3.5 Zimbabwe Stock Exchange (ZSE)

3.5.1 Market Capitalisation: The market capitalisation of the ZSE shows an 7.73% increase from ZWG 60.97 billion in June to ZWG 65.68 billion in September 2025, indicating continuous renewed interest in equities and improved confidence in local asset valuations from Q2.

3.5.2 Turnover: Turnover on the Zimbabwe Stock Exchange (ZSE) continued on an upward trajectory in the third quarter of 2025, recording a total of ZWG 1.95 billion, up from ZWG 1.40 billion in Q2. This growth in trading activity reflects improved investor sentiment, increased liquidity, and sectoral rotation among institutional investors.

3.6 Victoria Falls Stock Exchange Market (VFEX)

3.6.1 Market Capitalisation: The VFEX recorded a substantial increase in market capitalisation to US\$1.798 billion by September 2025, up from the Q2 closing figure of US\$1.250 billion. This strong performance reflects a reversal of the Q2 trends, signalling growing investor risk appetite and significant capital inflows back into the market, driving the VFEX All Share Index up by 40.69% over the quarter.

3.6.2 Turnover: During the third quarter of 2025, total turnover on the VFEX amounted to US\$16.44 million, reflecting a moderate 10.86% increase in trading activity compared to the US\$14.83 million recorded in Q2. Total volume traded stood at 65.49 million shares, showing a slight decrease in shares traded but a significant increase in higher value trades, consistent with the sharp rise in asset prices and overall market growth.

Section D

PERFORMANCE OF FUNERAL ASSURANCE COMPANIES

4 Performance in Terms of Business Written

- 4.1 The Funeral Assurance sector recorded nominal consolidated Insurance Revenue of ZWG214.4 million for the third quarter ended 30 September 2025, which was equivalent to US\$8.05 million at the prevailing exchange rate.
- 4.2 The total foreign currency insurance revenue across the funeral assurance players grew significantly by 96% from US\$4.1 million reported in the same period ended 30 September 2024.
- 4.3 A detailed breakdown of the consolidated inflation-adjusted Insurance Revenue per funeral assurer is shown in Table 2 below.

Table 2: Insurance Revenue Per Company

Name of Company	September-25 (ZWG000)	September-25 (US\$000)	September-24 (US\$000)	Change	Contribution to Total Insurance Revenue
Sunset	2,780.53	104.36	41.22	153%	1%
Foundation Mutual	9,417.61	353.46	189.17	87%	4%
First Funeral	32,264.03	1,210.93	1,162.47	8%	15%
Vineyard	21,926.52	822.95	545.62	51%	10%
Moonlight	146,493.46	5,498.20	2,130.85	158%	68%
Ruvimbo	1,515.26	56.87	37.39	52%	1%
Total	214,397.41	8,046.77	4,106.71	96%	100%

5 Earnings

- 5.1 For the period under review, Funeral Assurers reported a combined Insurance service result of ZWG28.8 million, which indicates an underwriting profit made by the funeral assurance sector during the period under review.
- 5.2 The Funeral Assurance sector average combined ratio was 87% for the period ending 30 September 2025, an improvement from 92% recorded in the same period ending 30 September 2024. While the industry underwriting remains profitable, it is important for the sector

players to effectively manage cash outflows to ensure industry sustainability.

- 5.3 Profit before and after tax for the period under review were negative ZWG 276, 560 and negative ZWG 192,450, respectively.
- 5.4 The funeral industry recorded an average insurance contract expense ratio of 27%, indicating that 27 cents per premium dollar was allocated towards insurance service expenses separately from claims incurred, an increase from 20%, which was 20 cents per dollar recorded in the same period of 2024.
- 5.5 It is important for all sector players to continuously monitor their insurance service expenses so that they are sustainable.
- 5.6 The industry's average return on assets (ROA) and return on equity (ROE) were both 1% as compared to 7% and 5% reported in 2024, respectively for the period under review, as shown in Table 2 above.
- 5.7 The decrease in ROE and ROA both to 1% suggests that the industry started to record a decline in returns from their assets and ultimately to equity holders, a key measure for sustainability.

6 Liquidity

- 6.1 As at 30 September 2025, liquid assets amounted to ZWG98.92 million (US\$3.67 million) compared to US\$2.8 million recorded as at 31 December 2024, a year-to-date increase of 31%.
- 6.2 The funeral industry recorded an average current ratio of 1.25 times, an increase from the 0.53 times reported as at 31 December 2024. This improvement shows industry's preparedness to meet short-term obligations. However, four (4) out of six entities had a negative working capital and a current ratio below 0.44 times.

7 Capitalisation

- 7.1 As at 30 September 2025, four (4) funeral assurers were compliant with the regulatory Minimum Capital Requirement (MCR) of US\$500,000 as required by Statutory Instrument 67 of 2025.
- 7.2 The industry recorded a capital increase of 73% from the December 2024 position.
- 7.3 Below are the reported capital positions for the funeral assurers.

Table 3: Capitalisation Levels as at 30 September 2025.

Entity	September 2025 ZWG (000)	September 2025 US\$ Indexed (000)	December 2024 US\$ Indexed (000)	US\$ Change
Sunset	8,297.29	311.41	220.00	42%
Vineyard	16,779.80	629.78	0.28	224,821%
Moonlight	732,405.85	27,488.69	9,677.00	184%
Foundation	40,341.92	1,514.11	3,446.00	-56%
Ruvimbo	25,667.39	963.35	1,887.00	-49%
First Funeral	(2,002.31)	(75.15)	2,624.00	-103%
Total	821,489.94	30,832.20	17,854.28	73%

Key

	Capitalised
	Undercapitalised

8 Asset Quality

- 8.1 Total assets for the sector amounted to ZWG816.6 million as at 30 September 2025, equivalent to US\$30.6 million, which was a 2% increase from 31 December 2024, which was US\$30 million. The asset base for the sector remained highly concentrated in non-current assets, which constituted 84% of the total assets, demonstrating that the sector's assets were skewed towards funeral service provision.

8.2 The distribution of assets for the Funeral Assurance sector is shown in Figure 2 below.

Figure 2: Breakdown of Assets as at 30 September 2025

8.3 As at 30 September 2025, all Funeral Assurers recorded 0.01% investment in Prescribed assets, hence the whole sector was non-compliant with the minimum Prescribed Asset ratio of 10%, as stipulated in Statutory Instrument 206 of 2019.

8.4 Table 4 below shows the compliance levels with Prescribed Assets for each Funeral Assurance player.

Table 4: Prescribed Assets (PA) Levels as at 30 June 2025

Name of Company	Prescribed Assets - ZWG 000	Total Assets - ZWG 000	Prescribed Asset Ratio
Sunset	-	10,086.76	0.00%
Foundation Mutual	89.59	60,291.51	0.15%
First Funeral	-	50,806.23	0.00%
Vineyard	-	33,235.38	0.00%
Moonlight	-	630,178.43	0.00%
Ruvimbo	-	32,030.63	0.00%
Total/Average	89.59	816,628.95	0.01%

9 Reassurance

- 9.1 None of the six (6) Funeral Assurers had reinsurance arrangements in place during the third quarter ended 30 September 2025.
- 9.2 The Commission, therefore, encourages the sector players to utilize reinsurance as a risk-mitigating tool in case of unexpected spikes in claims.

10 Insurance Contract Surplus

- 10.1 Insurance contracts surplus as at 30 September 2025 amounted to ZWG75.2 million under current assets.
- 10.2 The funeral assurance sector's insurance term contracts are expected to be highly profitable, resulting in a surplus. This situation is attributable to the design of funeral products, which have long-term benefit obligations but are typically priced as annually renewable contracts.

11 Number of policies

- 11.1 As at 30 September 2025, funeral assurers had 124,851 policies, a 7% decrease from 133,728 policies as at 31 December 2024.

12 Market Share

- 12.1 For the period under review, Moonlight Funeral Assurance and First Funeral Assurance dominated the Funeral Assurance sector in terms of consolidated Insurance Revenue, with a market share of 68% and 15%, respectively.
- 12.2 The distribution of the market share in terms of consolidated Insurance Revenue for the six (6) Funeral Assurers is shown in Figure 3 below.

Figure 3: Market Share in Terms of Consolidated Insurance Revenue for the Period ended 30 September 2025

12.3 In terms of total assets, the Funeral Assurance sector was dominated by one (1) player, Moonlight Funeral Assurance, with a total market share of 77%. The other five (5) players shared the remaining 23%. This is illustrated in Figure 5 below.

Figure 4: Market Share in Terms of Assets as at 30 September 2025

Section E

REGULATORY DEVELOPMENTS

13 Regulatory Developments for the period ended 30 September 2025

13.1 Statutory Instruments and Circulars

13.1.1 The Commission issued one (1) Circular to the Insurance sector during the period under review as shown in Table 5 below.

Table 5: Statutory Instruments and Circulars Issued During the Third Quarter Ended 30 September 2025

Circular	Date	Purpose
Circular 28 of 2025	15/8/2025	Registration of Financial Statement Preparation with the Public Accounts and Auditors Boards

Section F

COMPLAINTS HANDLING AND CONCLUSION

14 Funeral Assurance Sector Complaints

- 14.1 For the quarter ended 30 September 2025, the Commission received thirty-eight (38) complaints against the funeral assurers. The Commission managed to resolve in full thirty-five (35) of these complaints, whilst three (3) were still in progress by the end of the Quarter.
- 14.2 Eleven (11) of the complaints were related to unsatisfactory service, eight (8) were with respect to repudiations, and nineteen (19) were for delays in claim settlements.
- 14.3 The sector players are reminded of the need to adhere to the provisions of Circular 3 of 2024 on the timely payment of claims to avoid regulatory sanctions.

15 Conclusion

- 15.1 The Funeral Assurance sector experienced moderate growth in business volumes and maintained underwriting profitability in the third quarter of 2025. However, the sector players continued to face significant challenges, including a weak liquidity position, poor asset diversification, low capital adequacy, persistent non-compliance with Prescribed Asset requirements, an increase in complaints from policyholders and remained highly dominated by a single assurer.
- 15.2 The Commission urges all Funeral Assurers to strengthen governance frameworks, improve liquidity management, diversify asset portfolios, and implement robust risk-based business models to enhance resilience and ensure long-term policyholder protection.
