## Disclaimer

- i. This report has been prepared by the Insurance and Pensions Commission (IPEC) solely for informational purposes to the pension sector stakeholders and may not be reproduced, redistributed, communicated to a third party, or relied upon by any other person for any other purpose without the Commission's prior written consent.
- ii. The Commission does not accept any liability if this report is used for any purposes other than the above-mentioned intended purpose.
- iii. This report relates to the operations of private occupational pension funds as reported to IPEC in the third quarter of 2025, and the figures are based on unaudited accounts submitted by pension funds and pension fund administrators.
- iv. The statistics in this report were based on the International Accounting Standard 26 (IAS 26)-Accounting and Reporting by Retirement Benefit Plans.
- v. All ZWG amounts are expressed in nominal terms, except where specifically stated to be in real terms.
- vi. The income and expenses figures were compared to the same period of the prior year, as the transactions are cumulative and not directly comparable every quarter. In contrast, assets and liabilities are compared to the previous quarter, as this provides a clearer indication of the sector's performance over the two quarters.
- vii. The conversion of ZWG income and expenses to United States Dollar (US\$) equivalents was done using the average exchange rate of ZWG26.6851 for the review period, and the assets and liabilities were converted using the closing interbank rate of ZWG26.6439. The exchange rate during the quarter under review remained stable.
- viii. Apart from the foreign currency business section, the amounts in this report are presented as US dollar equivalents, meaning they are not purely in US\$.

## 1. Executive Summary

- 1.1. As at 30 September 2025, there were 968 registered occupational pension funds, unchanged from the 968 recorded as at 30 June 2025.
- 1.2. Out of 968 registered funds, 479 (49.5%) were active, while 489 (50.5%) were inactive. Among the inactive funds, 372 (76%) were awaiting dissolution.
- 1.3. Total membership in the pensions sector, excluding beneficiaries, increased by 17.82% to 1,171,852, up from 994,572 reported on 30 June 2025. The increase was mainly due to the reinstatement of 178,988 dormant members under the Construction Industry Pension Fund, who were subsequently reclassified as unclaimed members. There were also 6,582 new entrants since the last quarter.
- 1.4. Total assets in the pensions sector grew by 5% to equivalent US\$2.77 billion (ZWG73.84 billion) at the official exchange rate. This increase from US\$2.63 billion as at 30 June 2025 was primarily driven by new investments and positive fair value adjustments in investment properties and equity instruments resulting from recoveries on the ZSE and VFEX.
- 1.5. As at 30 September 2025, the value of investment properties increased by 12%, reaching US\$1.30 billion (ZWG34.65 billion), up from US\$1.16 billion in the previous quarter.
- 1.6. Quoted equity investments increased by 15% from US\$460.37 million in the previous quarter to US\$528.85 million (ZWG14.09 billion). Conversely, unquoted equity investments increased by 149%, from US\$108.17 million to US\$269.17 million (ZWG7.17 billion) since the last quarter.
- 1.7. As at the reporting date, prescribed asset investments increased by 7.53% to US\$294.63 million (ZWG 7.85 billion), up from US\$274 million reported in the last quarter.
- 1.8. During the review period, pension contributions totalled US\$225.89 million (ZWG6.03 billion), reflecting an increase from US\$148.35 million recorded in September 2024.
- 1.9. Pension contribution arrears decreased by 9%, down from US\$110.43 million in the previous quarter to US\$100.18 million. This decrease is attributed to payments made by sponsoring employers in the current period. The

Commission is still working with sponsoring employers who have arrears to clear the outstanding contributions.

1.10. For the nine months ended 30 September 2025, total income was US\$557.26 million (ZWG 14.87 billion), an 88.60% change from the US\$295.47 million (ZWG 7.87 billion) recorded in the comparative period. The change was largely due to the stable exchange rate during the reporting quarter, which led to a significant drop in nominal fair value gains.

1.11. Total expenditure for the period amounted to US\$186.93 million (ZWG 4.99 billion), with 30% attributed to administrative expenses and 70% to member benefits. Total expenditure of the comparative period was US\$91.35 million, of which 60% was allocated to benefit payments and 40% to administrative expenses.

### Asset Trend

## 2. About the Commission

### Overview

2.1. The Insurance and Pensions Commission (IPEC) is a statutory body mandated to regulate, supervise, and develop the insurance and pensions sector for the protection of policyholders and pension scheme members in Zimbabwe.

2.2. This report outlines pensions sector developments and IPEC's supervisory activities in the pensions sector for the nine months ended 30 September 2025, consistent with its statutory mandate.

2.3. The activities of the Commission are guided by the following Acts and their respective regulations:

- Insurance and Pensions Commission Act [*Chapter 24:21*]
- Pensions and Provident Fund Act [*Chapter 24:32*]
- Insurance Act [*Chapter 24:07*]
- Money Laundering and Proceeds of Crime Act [*Chapter 09:24*]
- Finance Act [*Chapter 23:04*]
- Public Entities and Corporate Governance Act [*Chapter 10:31*]
- Public Finance Management Act [*Chapter 22:19;*] and
- Public Procurement and Disposal of Public Assets Act [*Chapter 22:23*]
- Administration of Estates Act [*Chapter 6:01*].

### 3. Key Performance Indicators

3.1. The key performance indicators for the pensions sector as at 30 September 2025 are shown in the table below.

**Table 1: Key Performance Indicators**

|                                          | Insured   | Self-Administered | Stand-alone | Total            |
|------------------------------------------|-----------|-------------------|-------------|------------------|

#### Notes:

\*Total investment income is made up of rental income, dividends, interest on investments, profit on disposal of assets and fair value gains.

\*\*Total expenditure for the sector includes benefits paid, transfer to reserves, revaluation losses and provisions.

\*\*\*Expenses are calculated as total expenditure excluding items such as expenditure on benefits, transfers to reserves and revaluation losses.

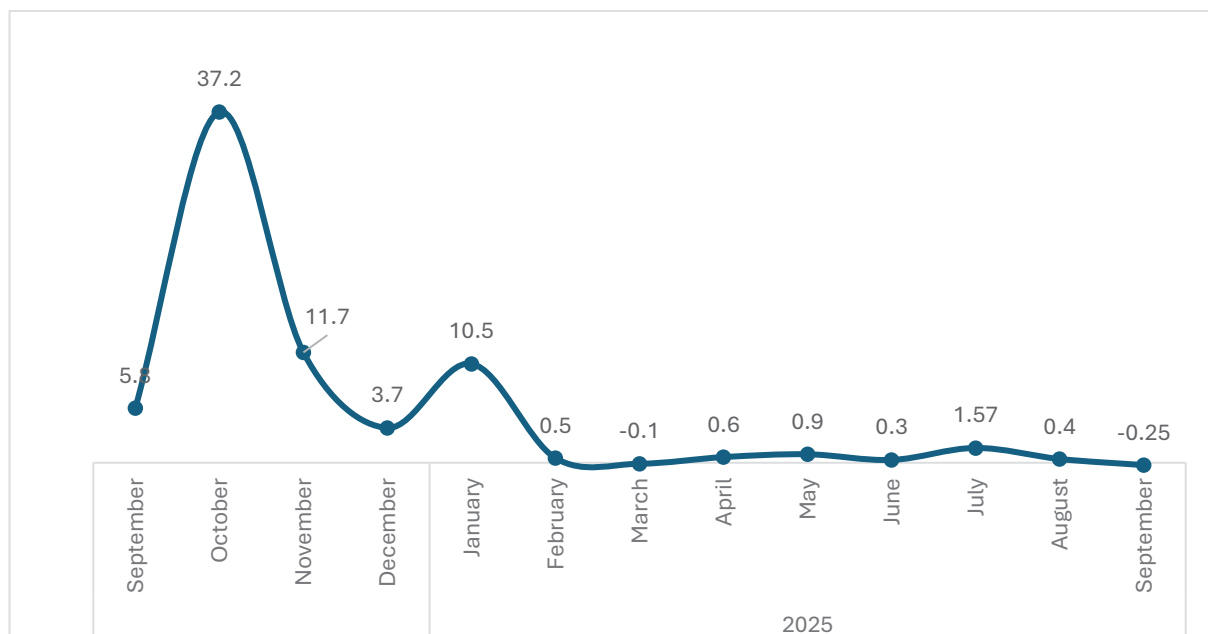

#### 4. Economic Overview

- 4.1. The third quarter of 2025 marked a period of notable macroeconomic consolidation for Zimbabwe, characterised by declining inflationary pressures and exchange rate stability. The combination of tight monetary policy, prudent fiscal management, and favourable external developments contributed to a more stable operating environment. The Reserve Bank of Zimbabwe (RBZ) has successfully entrenched price stability, with the local currency (ZWG) month-on-month inflation turning negative at -0.25% in September 2025.
- 4.2. The economy is expected to record around 6.6 % real GDP growth in 2025, reflecting a broad-based recovery across both primary and value-added sectors. This performance is underpinned by robust agricultural output, favourable global commodity prices, particularly in gold and tobacco and continued implementation of structural reforms.
- 4.3. Following the GDP rebasing completed by ZIMSTAT in Q2, 2025, the national economy was recalibrated from US\$35.2 billion in 2024 to approximately US\$45.7 billion, raising per capita GDP above US\$3,000.

#### Inflation Developments

- 4.4. According to ZIMSTAT, the country recorded a month-on-month deflation of -0.25%, down from 0.4% in August 2025.
- 4.5. The slowdown in inflation was driven mainly by falling prices in the food and non-alcoholic beverages category, which constitutes over 30% of the CPI basket.
- 4.6. On an annual basis, ZWG inflation slowed to 82.7% in September 2025, down from 92.5% in June 2025, signalling a continued moderation in price pressures.

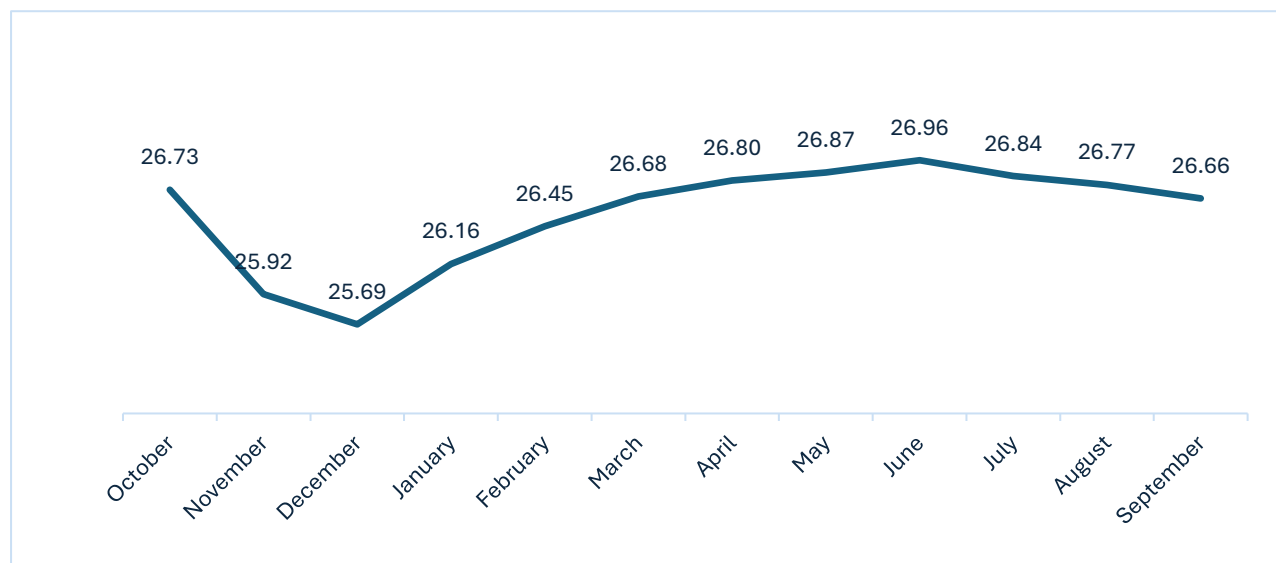

Figure 1: Inflation Rate (% Monthly)

### Exchange Rate Developments

- 4.7. In September 2025, the Zimbabwe Gold (ZWG) appreciated by 0.4% against the US dollar on the willing-buyer willing-seller (WBWS) interbank market, closing at ZWG26.64:US\$1.
- 4.8. This marked the third consecutive month of gains in the official market, with an average monthly appreciation of 0.4% from July to September.
- 4.9. On the parallel market, the ZWG also strengthened, gaining approximately 5.9% against the US dollar, to close the month at an average of ZWG32:US\$1, compared to ZWG34:US\$1 in August.
- 4.10. This represented the tenth consecutive month of relative stability in the parallel market, leading to a decline in the average parallel market premium from around 27% in August 2025 to 20% in September 2025.
- 4.11. For the quarter, the ZWG recorded a cumulative gain of 1.1% against the US dollar, reversing losses of 0.7% and 3.7% observed in Q2 and Q1, respectively.

Figure 2: Official Month-on-Month Exchange Rates

### Zimbabwe Stock Exchange (ZSE) Market Capitalisation

- 4.12. The market capitalisation of the ZSE increased by 7.73% from ZWG60.97 billion (US\$2.3 billion) in June to ZWG 65.68 billion (US\$2.5) in September 2025, indicating renewed interest in equities and improved confidence in local asset valuations from Q2.
- 4.13. Turnover on the ZSE continued its upward trajectory in the third quarter of 2025, reaching ZWG1.95 billion, up from ZWG1.40 billion in Q2. This growth in trading activity reflects improved investor sentiment, increased liquidity, and sectoral rotation among institutional investors.

### Victoria Falls Stock Exchange Market (VFEX)

- 4.14. The VFEX recorded a substantial increase in market capitalisation to US\$1.798 billion by September 2025, up from the Q2 close of US\$1.250 billion. This aggressive movement reflects a strong reversal of the Q2 trends, signalling growing investor risk appetite and significant capital inflows back into the market, driving the VFEX All Share Index up by 40.69% over the quarter.
- 4.15. During the third quarter of 2025, total turnover on the VFEX amounted to US\$16.44 million, a moderate 10.86% increase from US\$14.83 million in Q2. Total volume traded stood at 65.49 million shares, down slightly but with higher-value trades rising significantly, consistent with the sharp rise in asset prices and overall market growth.

## 5. Regulatory Developments

5.1. During the nine months ending 30 September 2025, the Commission issued 16 circulars to the pensions sector, aimed at sharing key information and providing regulatory guidance.

5.2. The following table displays the circulars issued to the pensions sector during the first nine months of 2025.

**Table 2: Circulars Issued for the Nine Months Ended 30 September 2025**

| Circular            | Issue date       | Content                                                                                   |
|---------------------|------------------|-------------------------------------------------------------------------------------------|
| Circular 1 of 2025  | 2 January 2025   | Pension Funds Reporting Requirements.                                                     |
| Circular 2 of 2025  | 15 February 2025 | Submission of Quarterly Levy Computations and Due Dates.                                  |
| Circular 4 of 2025  | 7 February 2025  | 2025 IPEC AML/CFT/CPF Industry Training Calendar.                                         |
| Circular 6 of 2025  | 24 February 2025 | Engagement with the Consultant on Financial Sector Development Policy.                    |

| Circular 24 of 2025 | 10 September 2025 | Guideline on Revised Reporting Requirements for Pension Funds           |
| Circular 25 of 2025 | 16 September 2025 | Board of Fund Members (Trustee) Toolkit                                 |
| Circular 26 of 2025 | 15 September 2025 | Guideline on Self-insurance and Underwriting of Annuities by DC Funds   |

### Prescribed Assets Applications

5.3. The Minister of Finance, Economic Development and Investment Promotion approved 12 prescribed assets applications during the review period.

5.4. The following table presents the instruments accorded prescribed asset status during the period under review.

**Table 3: Approved Prescribed Asset Instruments for the Review Period**

| Issuer                           | Amount (millions) | Currency | Purpose                                                        | Date Approved    |
|----------------------------------|-------------------|----------|----------------------------------------------------------------|------------------|
| AFC Agrobills                    | 33.6              | US\$     | Agriculture-Winter Cropping                                    | 15 January 2025  |
| Zimgold Commercial Paper         | 10.0              | US\$     | Working Capital                                                | 17 January 2025  |
| Willowmead Bio Pvt Ltd           | 2.0               | US\$     | Establishment of a Cannabidiol Extraction and Processing Plant | 4 February 2025  |
| Agrowth Debenture                | 7.5               | US\$     | Agriculture                                                    | 20 February 2025 |
| OMLAC DREIT                      | 109.3             | US\$     | Developmental REIT                                             | 13 March 2025    |
| Vakayi Capital                   | 10.0              | US\$     | Private Equity Fund                                            | 17 March 2025    |
| Zimbabwe Women Microfinance Bank | 10.0              | US\$     | Bank Recapitalisation                                          | 24 March 2025    |
| Empower Bank Housing bills       | 14.4              | US\$     | Housing Bills                                                  | 24 March 2025    |
| Gutu Solar                       | 3.77              | US\$     | Solar Project                                                  | 2 April 2025     |
| Solar Century                    | 7.99              | US\$     | Solar Project                                                  | 30 April 2025    |

| Issuer                         | Amount (millions) | Currency | Purpose                                       | Date Approved     |
|--------------------------------|-------------------|----------|-----------------------------------------------|-------------------|
| Frontier Convertible Debenture | 40.00             | US\$     | Development of Highland Park Phase 2          | 5 June 2025       |
| Water Vlei Burial Project      | 3.83              | US\$     | Development of a Burial Site for War Veterans | 11 September 2025 |

5.5. Projects granted prescribed asset status provide opportunities for portfolio diversification while promoting investments that support national development and align with the objectives of the National Development Strategy 1. Therefore, the Commission encourages pension funds to meet the regulatory minimum threshold of 20% of total assets through investing in a wide array of assets conferred with prescribed asset status.

5.6. Prescribed assets, inclusive of gold-backed investments, increased by 7.53%, from US\$274 million as at 30 June 2025 to US\$294.63 million (ZWG7.85 billion) as at the reporting date.

5.7. As at the reporting date, compliance with prescribed asset requirements was at 10.64% of the stipulated 20% minimum.

5.8. The number of gold coins, of varying denominations, held by the pensions sector remained unchanged from the last quarter. However, the value of these coins increased by 16% to ZWG204.08 million as at 30 September 2025, from ZWG176.46 million as at 30 June 2025. Gains in the gold price drove the increase.

5.9. The tables below illustrate the gold-backed investments by the sector.

**Table 4: Gold Coin Investments**

| Denomination         | 1Oz    | 0.5Oz | 0.25Oz | 0.1Oz | Total Number of coins | Value (ZWG millions) |

## 6. Registered Pension Funds

6.1. There were 968 registered occupational pension funds, the same as in the previous quarter.

6.2. Out of a total of 968 funds, 479 were active, accounting for 49.5% of the sector. The remaining 489 were inactive, having either been paid up or earmarked for dissolution. Of these 968 funds, 931 were defined contribution, 34 were defined benefit and 3 were hybrid schemes.

6.3. As at the reporting date, the sector included 953 funds that outsourced fund administration services. Of these, 797 were insured funds, and 156 were self-administered, while the remaining 14 operated as stand-alone entities.

6.4. As at 30 September 2025, there were 14 registered fund administrators. Of these, five (5) were independent, while the remaining nine (9) were registered life assurance companies engaged in fund administration.

6.5. The table below details the allocation of pension funds under the management of each respective administrator.

Table 6: Distribution of Funds Administered by Type of Administration Model

| Name of Administrator | 30 September 2025 |                         | 30 June 2025  |                         |

| <b>Total</b>               | <b>797</b>        | <b>171</b>              | <b>798</b>    | <b>169</b>              |

### Fund Registrations & De-registrations

6.6. Four new pension funds were registered this quarter, comprising three insured funds (Instatoll Zimbabwe, DFA Zimbabwe, and ZADT) and one self-administered fund (Minerva Micro Provident Pension).

6.7. Sponsors and administrators of pension schemes are required to ensure that all funds are appropriately registered with the Insurance and Pensions Commission and hold a valid registration certificate. Registration must precede remittance of contributions and commencement of any administrative activities or operations. Moreover, each fund must be reported on, regardless of its status or condition.

6.8. Four funds were deregistered, namely, National Aids Council, Trust Holdings, ZBC and Zera.

6.9. Funds that cease operations must have their certificates cancelled with the Commission; otherwise, ongoing reporting is required.

### Membership

6.10. The table below shows the sector's membership as at 30 September 2025 and 30 June 2025, respectively.

<sup>1</sup>Refer to Annexure 7 for the comprehensive schedule of Stand-alone funds

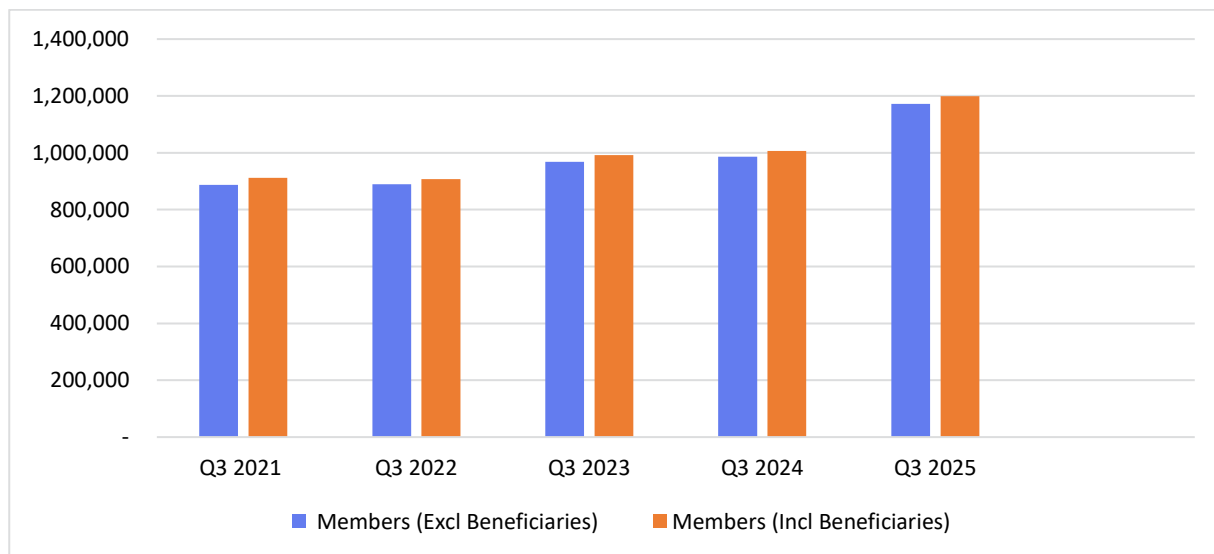

Table 7: Membership Categories as at 30 September 2025

| Membership Class                               | Insured Funds  | Self-Administered Funds | Stand-alone Funds | Total Q3 2025    | Total Q2 2025    |
|------------------------------------------------|----------------|-------------------------|-------------------|------------------|------------------|
| New Entrants                                   | 1,979          | 2,042                   | 2,561             | 6,582            | 12,057           |

| <b>Total members, including beneficiaries</b>  | <b>368,557</b> | <b>177,534</b>          | <b>652,505</b>    | <b>1,198,596</b> | <b>1,021,045</b> |
| <b>Total Number of Exits</b>                   | <b>1,876</b>   | <b>2,858</b>            | <b>1,558</b>      | <b>6,292</b>     | <b>6,489</b>     |

6.11. There was a 17% increase in total membership (including beneficiaries) from 1,021,045 to 1,198,596. This increase was mainly attributed to the reinstatement of 178,988 dormant members under the Construction Industry Pension Fund, who were subsequently reclassified as unclaimed benefits alongside 6,582 new entrants.

6.12. The membership trend for the past five years is shown below.

Figure 3: Trend in Membership

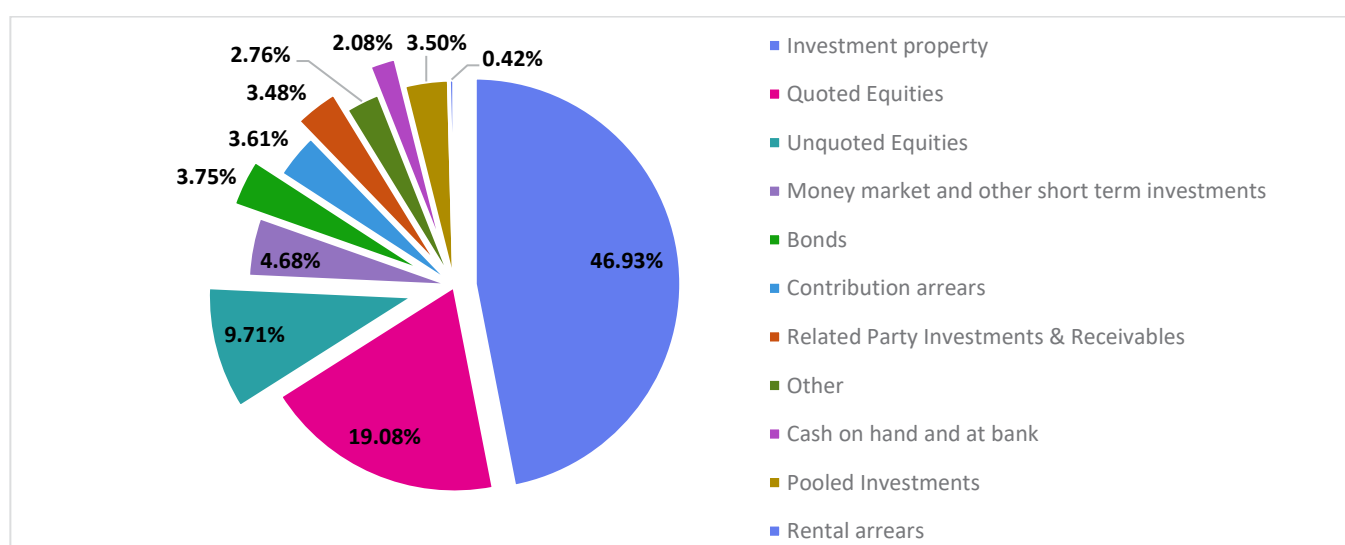

6.13. Membership in pension funds has been steadily growing in recent years, primarily because of new entrants and data sanitisation.

## 7. Assets

- 7.1. Total assets increased by 5%, reaching US\$2.77 billion (ZWG 73.84 billion), up from US\$2.63 billion recorded on 30 June 2025. New acquisitions and fair value adjustments on property investments and equities explain the growth.
- 7.2. As at 30 September 2025, the value of investment properties stood at US\$1.3 billion (ZWG 34.65 billion), accounting for 46.93% of total assets. Investment property increased from US\$1.16 billion recorded in the prior quarter.
- 7.3. Quoted equities during the review period registered an increase of 15%, to US\$528.85 million (ZWG 14.09 billion) from US\$460.37 million reported on 30 June 2025. The asset class's proportion to total assets also increased to 19.08% from 17.50% in the previous quarter.
- 7.4. Contribution arrears totalled US\$100.18 million (ZWG 2.67 billion), accounting for 3.61% of the sector's total assets. This marks a 9% decrease from the previous quarter's figure of US\$110.43 million, though prior quarters' arrears also represented 3.5% of total assets.
- 7.5. The fund's sponsoring employers are encouraged to remit pension contributions to their respective pension funds. Sponsoring employers need to be reminded that the Commission will be engaging with defaulting employers, in line with Section 16 of the Pensions and Provident Funds Act [Chapter 24:32].
- 7.6. The sector's asset composition is illustrated in the figure below.

**Figure 4: Asset Composition**

*Pooled investments include Market-Linked, Special and Multi-Manager Funds.*

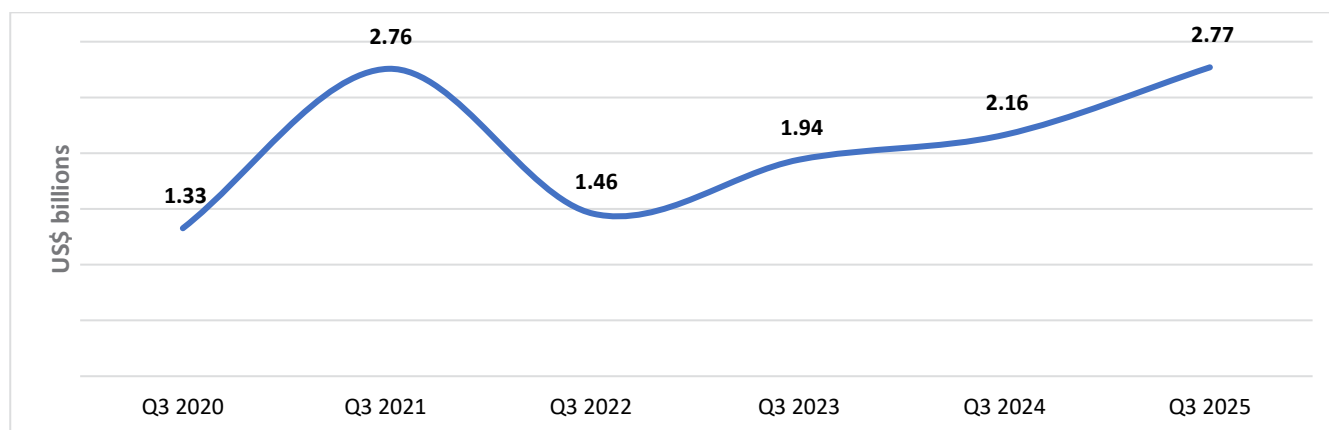

7.7. The pension sector's assets were concentrated in investment properties, equities (quoted and unquoted) and money market investments, which collectively made up 80.04% of the total asset portfolio.

7.8. Investments in unquoted equities increased by 149% to US\$269.17 million (ZWG 7.17 billion) during the quarter under review from US\$108.17 million reported in the last quarter. This resulted in an increase in the proportion of unquoted equities to total assets from 4.11% to 9.72%.

7.9. The noticeable shift in various asset classes stems from the reclassification of previously aggregated pooled<sup>2</sup> and prescribed asset investments, which were broken down into their fundamental components.

7.10. The five-year asset trend is depicted in the diagram below.

**Figure 5: Trend in Assets (US\$ Equivalent)**

7.11. The figure above highlights the trend in assets over the five years, with a severe decline in Q3 2022 owing to exchange rate volatilities. Subsequent years, however, reflect a gradual uptrend following suppressed exchange rate volatility and related asset revaluations in line with inflationary trends, marginally surpassing the Q3/2021 high by a mere 1%.

## 8. Financial Performance

8.1. The industry's income and expenditure profile is supported by three core operational pillars. This section examines income and expenditure across membership activities, such as contributions and benefits, investment activities that measure performance, asset growth, and administrative activities

<sup>2</sup> Guaranteed Fund investments only.

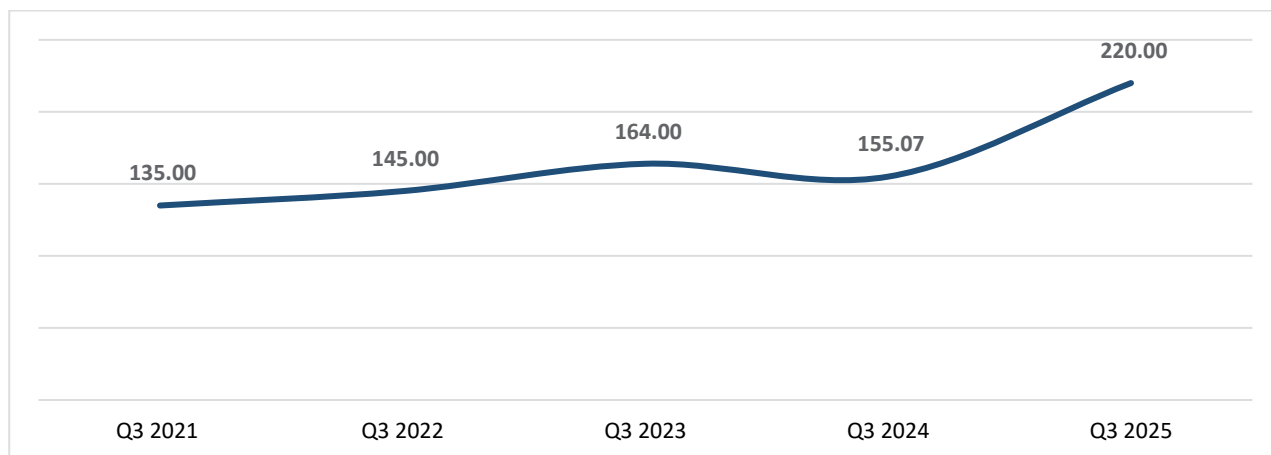

necessary to manage operations, which together define the overall financial performance of the funds.

- 8.2. Total income for the review period was US\$557.26 million (ZWG14.87 billion), representing a 78.70% decrease from the US\$2.61 billion reported during the same period last year. The significant drop in fair value gains and other income categories was mainly due to the stable exchange rate during the reporting quarter.
- 8.3. Of the total income, US\$339.92 million was earned in foreign currency, accounting for 61% of the sector's total revenue.
- 8.4. Contributions and investment income were the main sources of revenue, making up 93% of the total income, which amounted to US\$538.44 million (ZWG 14.37 billion), while other membership income, including transfers from other funds and sources, accounted for the remaining 7%.
- 8.5. On the other hand, total expenditure for the period under review was US\$186.93 million (ZWG4.99 billion), up from US\$91.35 million in the prior year. Of this total, US\$65.37 million, representing 38% of the industry's expenditure, was in foreign currency.

### **Membership Activities**

- 8.6. Total income earned from membership activities was US\$246.56 million (ZWG 6.58 billion). Of this amount, contributions accounted for 92% of membership income, totalling US\$225.89 million (ZWG 6.03 billion).
- 8.7. Contributions for the period amounted to US\$82.9 million (ZWG 2.21 billion) while contributions made by employers amounted to US\$123.68 million (ZWG 3.30 billion), a ratio of 1:1.5 respectively.
- 8.8. Benefit payments for the period amounted to US\$130.68 million (ZWG 3.49 billion), accounting for 53% of membership income. Consequently, the industry generated a net membership income of US\$115.87 million (ZWG 3.49 billion), significantly surpassing benefit payouts while fulfilling its core mandate.
- 8.9. The general trend in contributions is shown in the figure below.

Figure 6: Trend in Contributions (US\$ Equivalent)

### Investment Activities

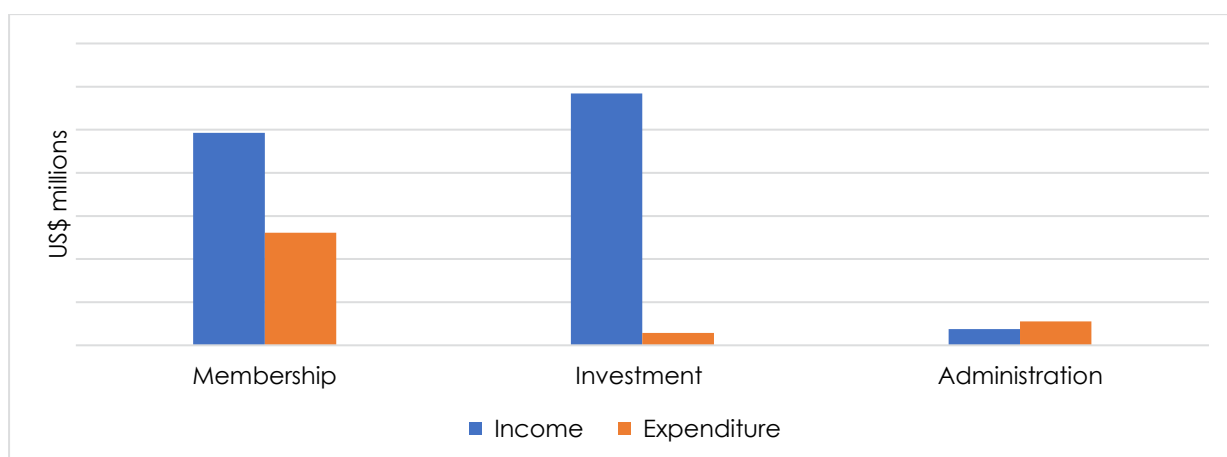

8.10. Total income earned from investment activities was US\$291.89 million (ZWG 7.79 billion), with fair value gains contributing 56% of investment income, that is, US\$162 million (ZWG 4.32 billion).

8.11. Total investment expenses amounted to US\$14.54 million (ZWG 388.10 million), which is 5% of investment income, resulting in a net investment profit of US\$277.35 million (ZWG 7.40 billion).

8.12. Income from investment activities was the industry's primary source of revenue and significantly boosted its overall performance.

8.13. The figure below shows income levels and related expenditures for the industry's three operational pillars.

Figure 7: Operational Income and Expenditure by Category

### Administration Activities

8.14. Income earned from administration activities was US\$18.82 million (ZWG 502.19 million). Employers' contributions toward expenses, totalling US\$14.95 million

(ZWG 398.83 million), were the primary source of administration income, accounting for 79% of total administration income.

8.15. Administration-related expenditure, totalling US\$27.64 million (ZWG 737.50 million), resulted in a loss of US\$8.82 million (ZWG 235.31 million) under this activity.

8.16. The major administrative expense drivers were salaries, administrative fees, and bank charges, which contributed 34%, 32%, and 7%, respectively.

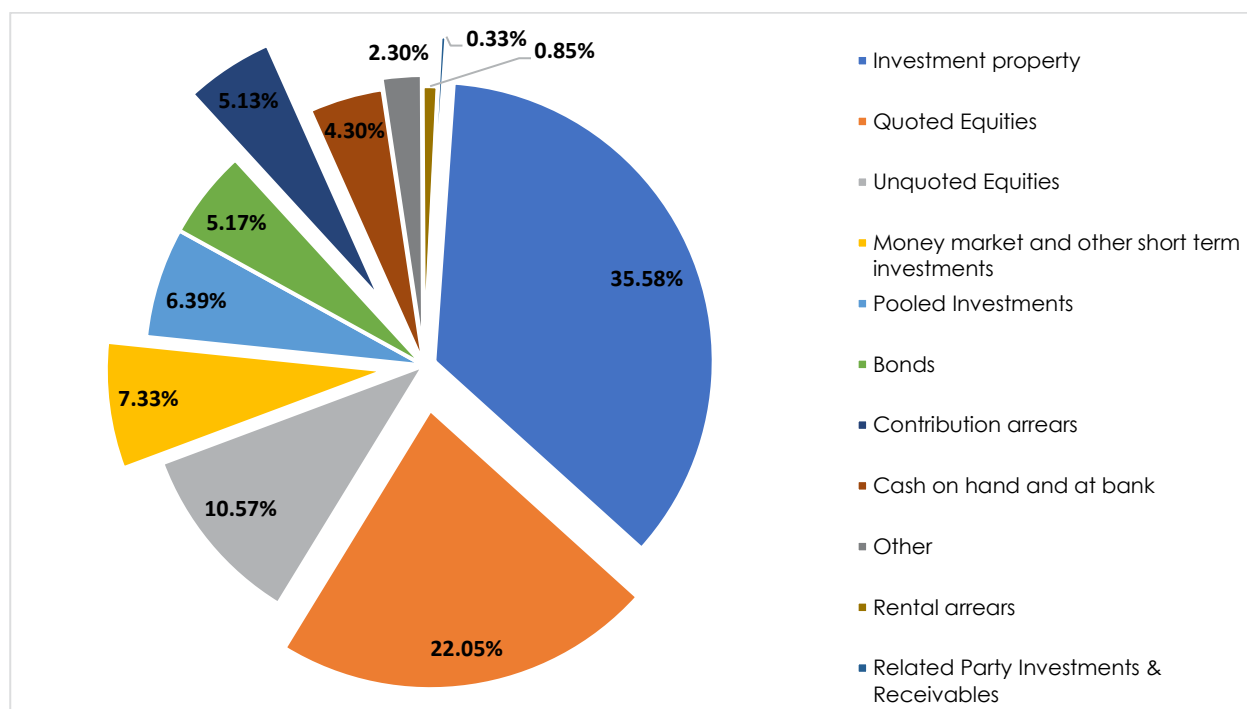

8.17. The Commission will continue to enforce compliance with the Expenses Framework.

## 9. Foreign Currency-Denominated Assets

9.1. Foreign currency-denominated assets increased by 43.3%, from US\$687.51 million reported in the previous quarter to US\$984.89 million as at 30 September 2025, representing 34.7% of the total pension sector assets. The increase was driven by new acquisitions and the reclassification of ZWG-denominated assets into US\$.

9.2. The table below shows the asset composition in foreign currency business.

Figure 8: Foreign Currency Assets

*Pooled investments include Market-Linked, Special and Multi-Manager Funds.*

9.3. Investing in foreign currency assets has been key to preserving and growing member value.

- 9.4. Pension funds must ensure that the income from foreign currency-denominated assets is equitably distributed to boost members' benefits and savings.
- 9.5. Contribution arrears declined by 13%, decreasing to US\$50.51 million from US\$58.28 million last quarter. This represents 5.13% of the sector's foreign currency-denominated assets. The Board of Fund members is encouraged to work closely with sponsoring employers to resolve these arrears.
- 9.6. The reduction in contribution arrears shows that some employers are paying their outstanding amounts. To protect the pension funds' assets, the Commission is proactively working with defaulting sponsoring employers to ensure they remit their contributions. As a last resort, garnishing bank accounts will be considered if employers do not cooperate.
- 9.7. Boards of Funds should set clear contribution guidelines and collaborate with sponsoring employers to guarantee consistent and prompt remittance of contributions, protecting the interests of fund members.

## **10. Foreign Currency Income and Expenditure**

- 10.1. Total foreign currency income earned for the nine months was US\$339.92 million, a 127% increase from the US\$149.50 million reported on 30 September 2024.
- 10.2. Total foreign currency contributions reached US\$116.23 million, an increase of 38% from US\$84 million. During the review period, these contributions accounted for 34% of total foreign income.
- 10.3. For the nine months of the year, total foreign currency benefits incurred were US\$46.01 million, marking a 63% increase from US\$28.14 million in the previous year. Benefits constituted 70% of total expenditure.
- 10.4. Administrative expenditure accounted for 24% of the total expenditure, with the remaining 6% of foreign currency spending allocated to the investment expenses.
- 10.5. The table below shows key forex business matrices.

Figure 9: Key Indicators for Forex Business

| Indicator                        | US\$ (Millions) |
|----------------------------------|-----------------|
| Total contributions              | 116.23          |
| Total income                     | 339.92          |
| Total benefits expenditure       | 46.01           |
| Total investment expenditure     | 3.67            |
| Total administrative expenditure | 15.69           |
| Total expenditure                | 65.37           |
| Total assets                     | 984.89          |

## 11. Pension Fund Administrators

11.1.Total income earned by fund administrators from fund administration business was US\$14.52 million (ZWG387.48 million) compared to US\$10.50 million as at 30 September 2024.

11.2.Of the total income earned, foreign currency income amounted to US\$6.02 million, representing 41%. During the period under review, 10 out of the 14 administrators recorded US\$-denominated business. First Mutual Life did not submit its administrator return. The Commission is reiterating the importance of submitting all the reports on time to ensure the timely production of the report. Furthermore, the Commission will continue to impose regulatory sanctions on non-compliance.

11.3.Income from fund administration fees earned by administrators for services rendered was US\$6.8 million (ZWG181.55million), constituting 47% of the total income. The table below shows the sources of income for administrators during the period under review.

Table 8: Sources of Income for Administrators

| Source of income    | ZWG 'millions' | US\$ - (ZWG Equivalent in millions) | Combined ZWG & US\$ | Percentage of total income |
|---------------------|----------------|-------------------------------------|---------------------|----------------------------|
|                     | (ZWG millions) |                                     |                     |                            |
| Administration Fees | 90.85          | 90.7                                | 181.55              | 46.86%                     |
| Investment Income   | 84.29          | 44.18                               | 128.47              | 33.16%                     |
| Guarantee Fees      | 38.93          | -                                   | 38.93               | 10.05%                     |
| Commission          | 7.92           | 17.61                               | 25.53               | 6.59%                      |

|                                                                               |               |               |               |             |
|-------------------------------------------------------------------------------|---------------|---------------|---------------|-------------|
| Sundry Income (Includes Exchange Rate fluctuations, Policy Fees Recovered...) | 0.68          | 6.26          | 6.94          | 1.79%       |
| Fair Value Gains                                                              | 2.91          | 1.83          | 4.73          | 1.22%       |

| Comarton                      | 18,761,197          | 300,719   | 8,024,717      | 43%                                                           |
| ZB Life                       | 2,389,718           | 64,109    | 1,710,754      | 72%                                                           |
| CBZ                           | 420,485             | 8,344     | 222,664        | 53%                                                           |
| Nyaradzo                      | 1,247,311           | 31,478    | 840,005        | 67%                                                           |
| Zimbabwe Insurance<br>Brokers | 76,136              | -         | -              | 0%                                                            |
| Econet                        | 754,394             | 14,133    | 377,127        | 50%                                                           |
| Totals                        | 181,553,670         | 3,398,982 | 90,702,162     |                                                               |

11.5. The total expenditure amounted to US\$28.07 million (ZWG749.21 million), resulting in a loss of US\$13.55 million. Zimnat, Old Mutual Life Assurance and ZB Life posted losses. This expenditure primarily included salaries, staff costs, commissions and general office running expenses. The administrators are urged to remodel their businesses in line with the new environment. Furthermore, the industry should consider leveraging technology to streamline operations, increase efficiency and reduce costs. The Commission will continue to monitor compliance with the Expense Framework.

11.6. The table below outlines the main cost drivers and their respective proportions of the total expenses.

**Table 11: Major Cost Drivers for Fund Administrators**

| Expense Item                        | Amount (ZWG) | % of Total Expenses |
|-------------------------------------|--------------|---------------------|
| Salaries and Wages                  | 353,490,073  | 47%                 |
| General Office Expenses             | 228,159,995  | 30%                 |
| Commission                          | 42,860,849   | 6%                  |
| Rentals                             | 34,230,006   | 5%                  |
| Advertising and business promotions | 19,084,253   | 3%                  |

11.7. The performance of the Fund Administrators for the period under review is shown in the table below.

**Table 12: Administrators' Performance**

| Administrator              | Total Income  | Total Expenditure | Profit/ Loss |
|----------------------------|---------------|-------------------|--------------|
| Minerva                    | 75,194,508.64 | 66,984,876.35     | 8,209,632.29 |
| Zimbabwe Insurance Brokers | 76,135.78     | -                 | 76,135.78    |

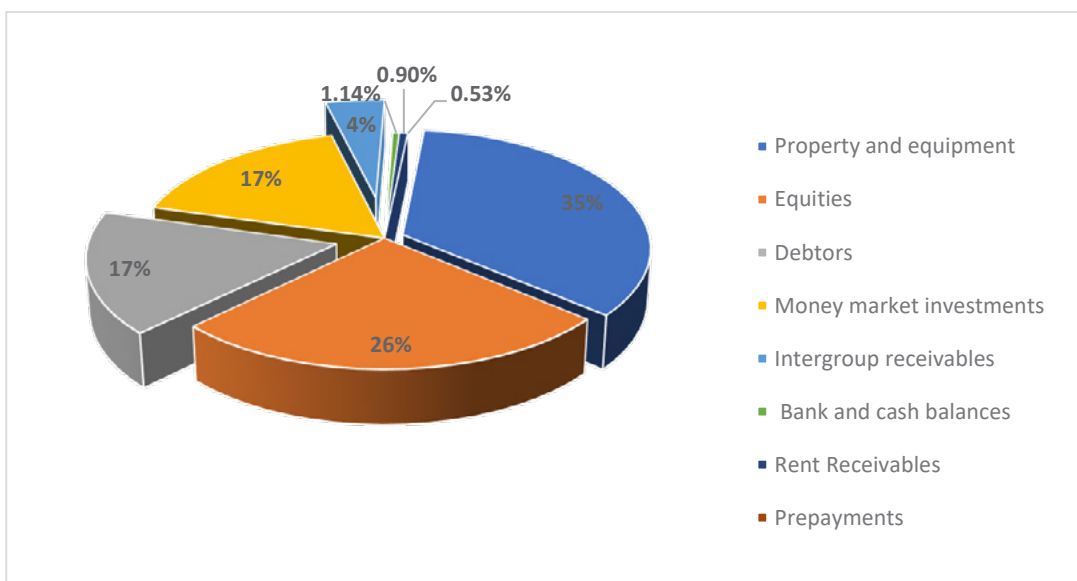

| Administrator            | Total Income          | Total Expenditure     | Profit/ Loss           |
|--------------------------|-----------------------|-----------------------|------------------------|
| ZB Life                  | 3,749,384.61          | 4,409,833.99          | -660,449.37            |
| Comarton                 | 19,790,101.92         | 19,050,552.19         | 739,549.72             |
| Bright Employee Benefits | 22,614,818.09         | 22,036,290.78         | 578,527.31             |
| Nyaradzo                 | 1,247,311.39          | -                     | 1,247,311.39           |
| Capitol                  | -                     | -                     | -                      |
| Old Mutual               | 238,095,601.83        | 410,869,607.00        | -172,774,005.17        |
| First Mutual Life        | -                     | -                     | -                      |
| Fidelity                 | 3,443,063.97          | 2,845,201.19          | 597,862.78             |
| CBZ                      | 420,485.22            | -                     | 420,485.22             |
| Econet                   | 754,393.59            | -                     | 754,393.59             |
| Zimnat                   | 22,090,522.83         | 223,010,521.90        | -200,919,999.07        |
| <b>Total</b>             | <b>387,476,327.87</b> | <b>749,206,883.40</b> | <b>-361,730,555.53</b> |

11.8. Administrators are urged to align their expenditures with prevailing revenue levels to ensure long-term financial sustainability.

11.9. Total assets for independent administrators, excluding life assurers and brokers, amounted to US\$2.75 million (ZWG73.4 million). The US\$-denominated assets primarily comprised property and equipment, money market, debtors, and cash and bank.

11.10. The breakdown of assets for independent administrators is shown in the following figure.

**Figure 10: Independent Administrators' Asset Distribution**

11.11. For independent administrators, property and equipment, debtors, money market, and equities were the most significant asset classes, accounting for 95% of their total assets.

## 12. Unclaimed Benefits

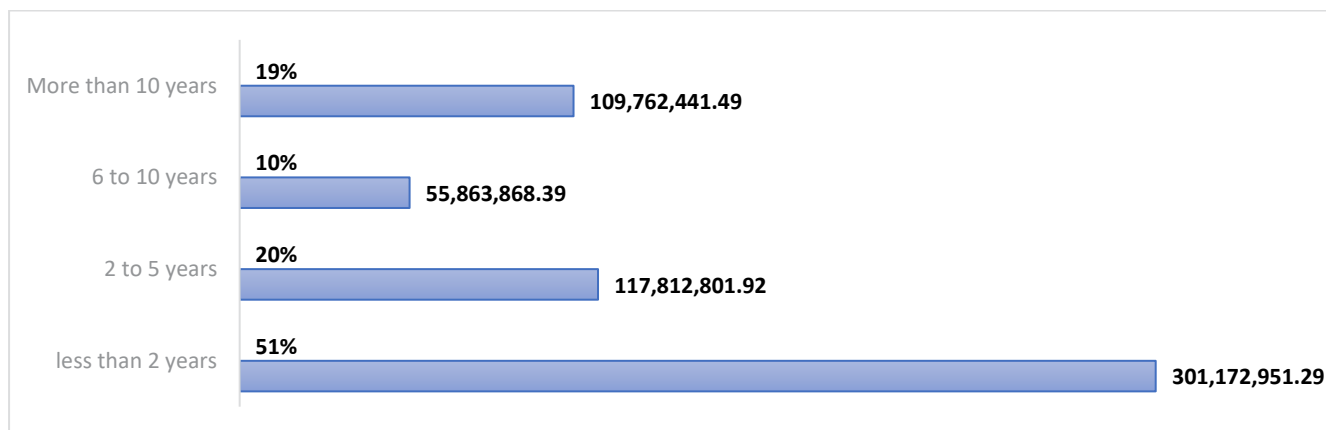

- 12.1. Unclaimed benefits totalled US\$21.94 million (ZWG584.61 million), a 38% increase from US\$15.90 million in the previous quarter. The increase reflects both investment returns on unclaimed benefit assets and new unclaimed membership, as well as the Construction Industry Pension Fund's reclassification of 178,988 members to unclaimed benefits status.
- 12.2. The unclaimed membership ballooned by 180% to 281,217 members from 100,354 reported in the last quarter, primarily because the Construction Industry Pension Fund reclassified 178,988 dormant pensioners to the unclaimed membership status. This reclassification is the result of a data sanitisation exercise conducted by the Construction Industry Pension Fund. It accounted for 98.7% of the total increase in unclaimed membership.
- 12.3. Below is the table showing unclaimed membership by administration model and amount.

**Table 13: Unclaimed Membership & Monetary Value**

| Administration Model | Number of Members | Amount (ZWG)          |
|----------------------|-------------------|-----------------------|
| Insured              | 7,938             | 122,297,890.57        |
| Self-Administered    | 10,264            | 335,990,481.06        |
| Stand-Alone          | 263,015           | 126,323,691.47        |
| <b>Total</b>         | <b>281,217</b>    | <b>584,612,063.10</b> |

- 12.4. Stand-alone funds held the majority of members (94%), but in terms of amount, it is less because of the seasonal nature of the work in the construction industry. Self-administered funds had the greatest monetary value (57%), again reflecting the long-term nature of work in this sector and, hence, higher individual benefit amounts in the latter.
- 12.5. Unclaimed benefits aged less than two years accounted for 52% of the total, followed by those aged two to five years at 20%.
- 12.6. The figure below shows unclaimed benefit ageing.

Figure 11: Unclaimed Benefits Aged Analysis in Percentage &amp; ZWG Amount

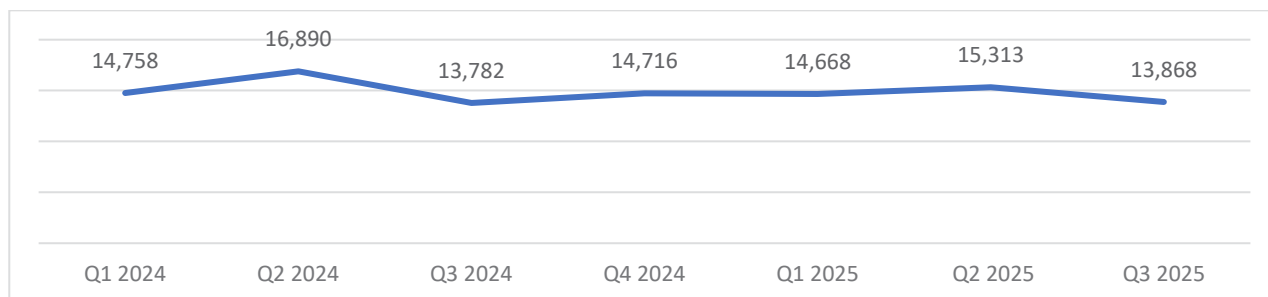

12.7. Benefits that are aged five years or more (29%) and should have been transferred to the Guardian Fund in terms of the Administration of Estates Act [Chapter 6:01]. However, only ZWG287 thousand was moved during the quarter, indicating widespread non-compliance and systemic member tracing issues. The industry is being reminded to transfer all unclaimed benefits that are over 5 years to the Guardian Fund.

### Suspended Pensioners

12.8. The liability for suspended pensioners decreased marginally to US\$3.20 million (ZWG86.6 million) from US\$3.34 million reported in the last quarter. Furthermore, the number of suspended pensioners decreased from 15,313 in the previous quarter to 13,868 in the current quarter.

12.9. The figure below shows the trend in suspended membership from Q1 2024 to Q3 2025.

Figure 12: Suspended Membership Trend

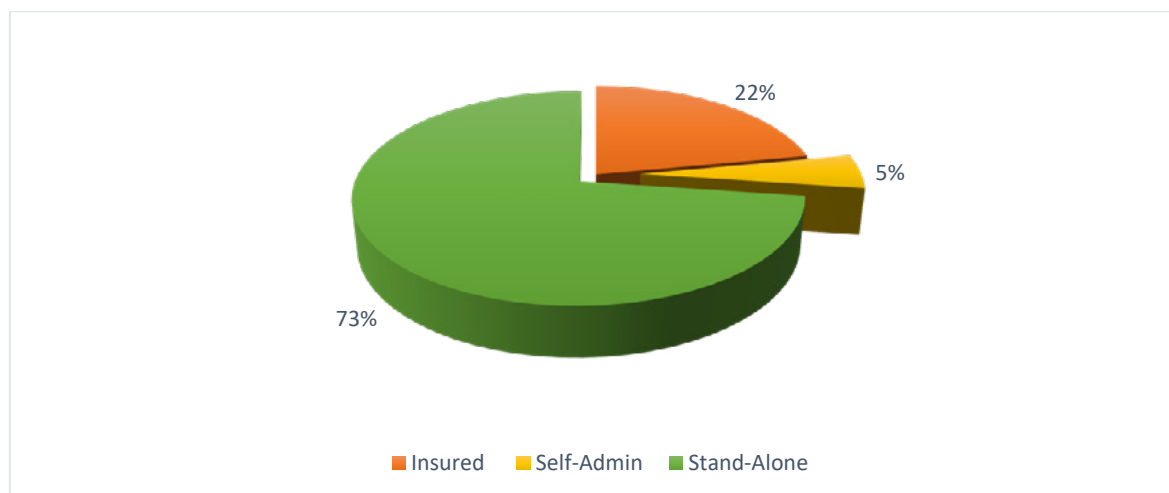

### Suspended Membership by Administration Model

12.10. Stand-alone funds held the most significant suspended benefits liability at US\$2.4 million (ZWG63 million), followed by insured funds at US\$0.72 million (ZWG19 million) and self-administered funds at US\$0.17 million (ZWG4.5 million).

12.11. The figure below shows suspended membership by administration model.

**Figure 13: Suspended Membership by Administration Model**

12.12. The liability and member count represent a delay in retirement security for a vulnerable population.

12.13. To reduce the number of suspended pensioners, the Commission encourages administrators to harness technology and enable pensioners to submit their Life Existence Certificates via mobile apps and web portals. Administrators should also enhance their KYC, communication, and support systems by holding AGMs and sending reminders to pensioners well in advance via SMS, calls, and emails.

### Non-Resident Pensioners

12.14. During the quarter ended 30 September 2025, benefits amounting to US\$2.3 million (ZWG 62.06 million) were paid to 3,115 non-resident pensioners. This represents a 2.98% (90 members) increase from the 3,025 pensioners reported as at 30 June 2025.

12.15. The table below shows non-resident pensioners by administration model.

**Table 14: Non-Resident Pensioners by Administration Model**

|              | Amount               | Membership   |
|--------------|----------------------|--------------|
| Insured      | 21,005,332.00        | 1,031        |
| Self-Admin   | 217,809.00           | 169          |
| Stand-Alone  | 40,833,106.00        | 1,915        |
| <b>Total</b> | <b>62,056,247.00</b> | <b>3,115</b> |

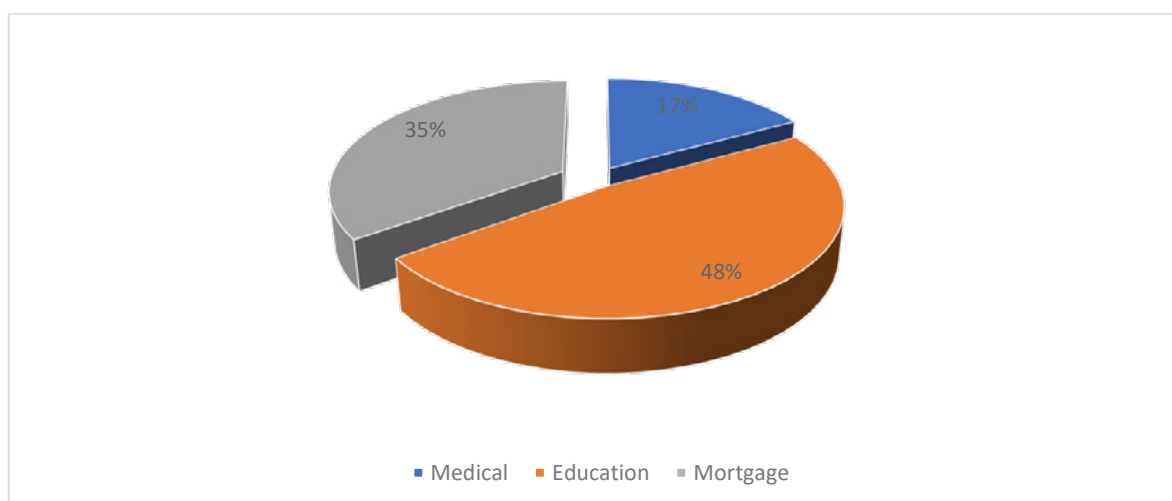

12.16. Standalone had the largest share, 65.8%, owed to non-resident pensioners, followed by insured funds at 33.8% and, lastly, self-administered at 0.4%.

### Commutations

12.17. The total value of commutations during the period under review was ZWG163.11 million, equivalent to US\$6.11 million, with one-third of commutations constituting the majority at ZWG80.63 million, US\$3.02 million (49.43%), followed by full commutations with ZWG66.85 million (US\$2.51 million). Partial commutations had the least amount, ZWG15.63 million (US\$0.585 million).

12.18. A total of 827 commutation applications were received during the review period. Of these, 189 were approved by the Commission, representing 22.84%.

12.19. The figure below shows the commutations by purpose.

**Figure 14: Commutation by Purpose**

12.20. High proportions of commutations were due to resignation and low capital accumulation, which point to portability issues and inadequate savings.

12.21. The most common reasons for Commission-approved commutations were education fees and property expenses, indicating members are using retirement savings for current, non-retirement needs.

### Complaints Management

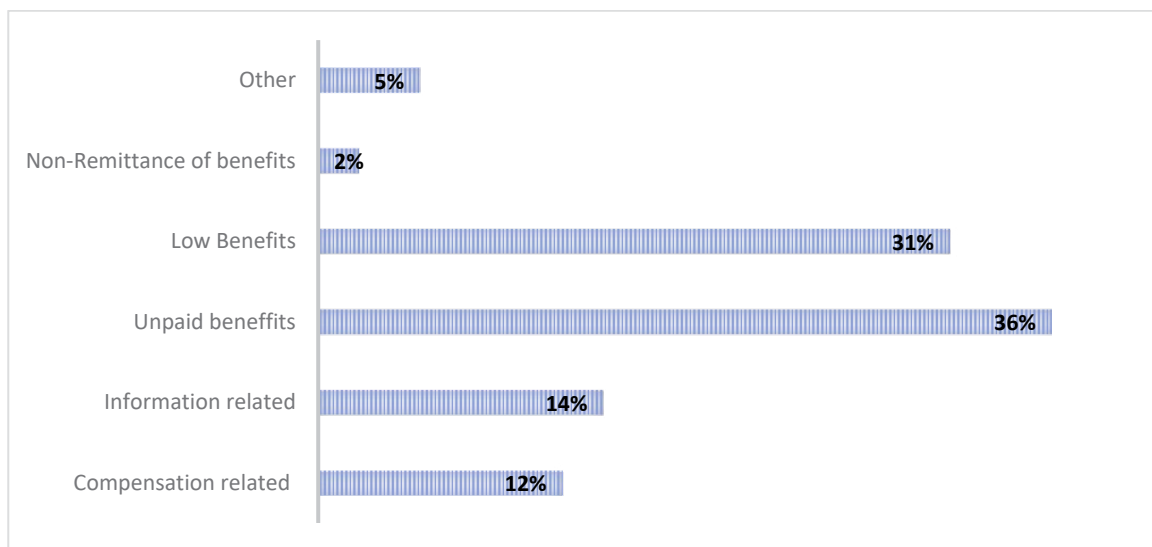

12.22. The Commission received 170 complaints, of which 131 were successfully resolved, achieving an overall resolution rate of 77%. However, 39 complaints (23%) remained outstanding.

12.23. In contrast, the complex complaints, which numbered 38, had a considerably lower resolution rate: only three were resolved, leaving 35 unresolved. The high number of unresolved complex complaints shows that these cases require more time, resources, and specialised attention, particularly those related to compensation.

12.24. Most complaints (67%) related to unpaid benefits and low pension benefits, highlighting significant administrative failures, employer non-compliance, and the negative impact of currency reforms on benefit values.

12.25. The figure below depicts complaints by nature.

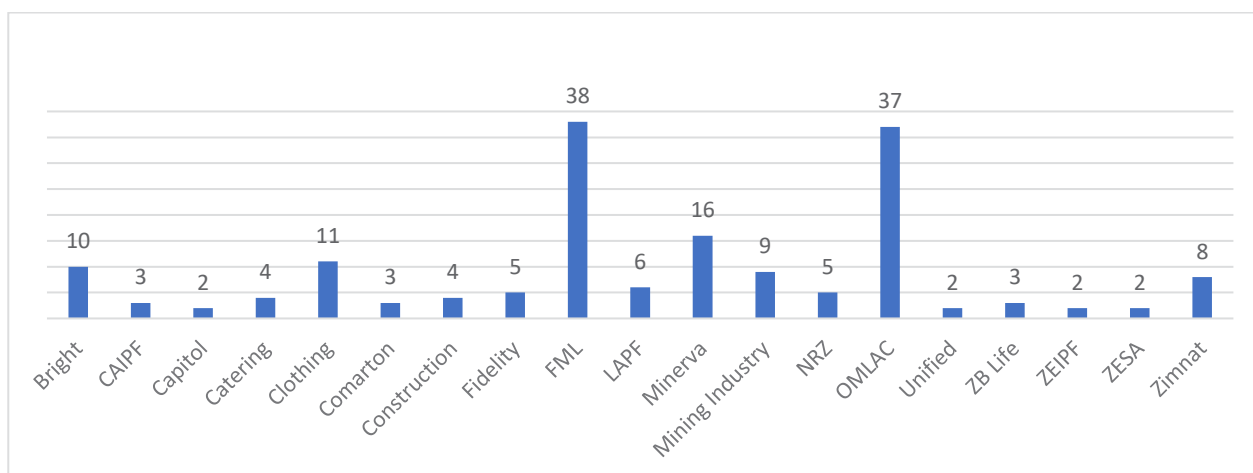

**Figure 15: Complaints by Nature**

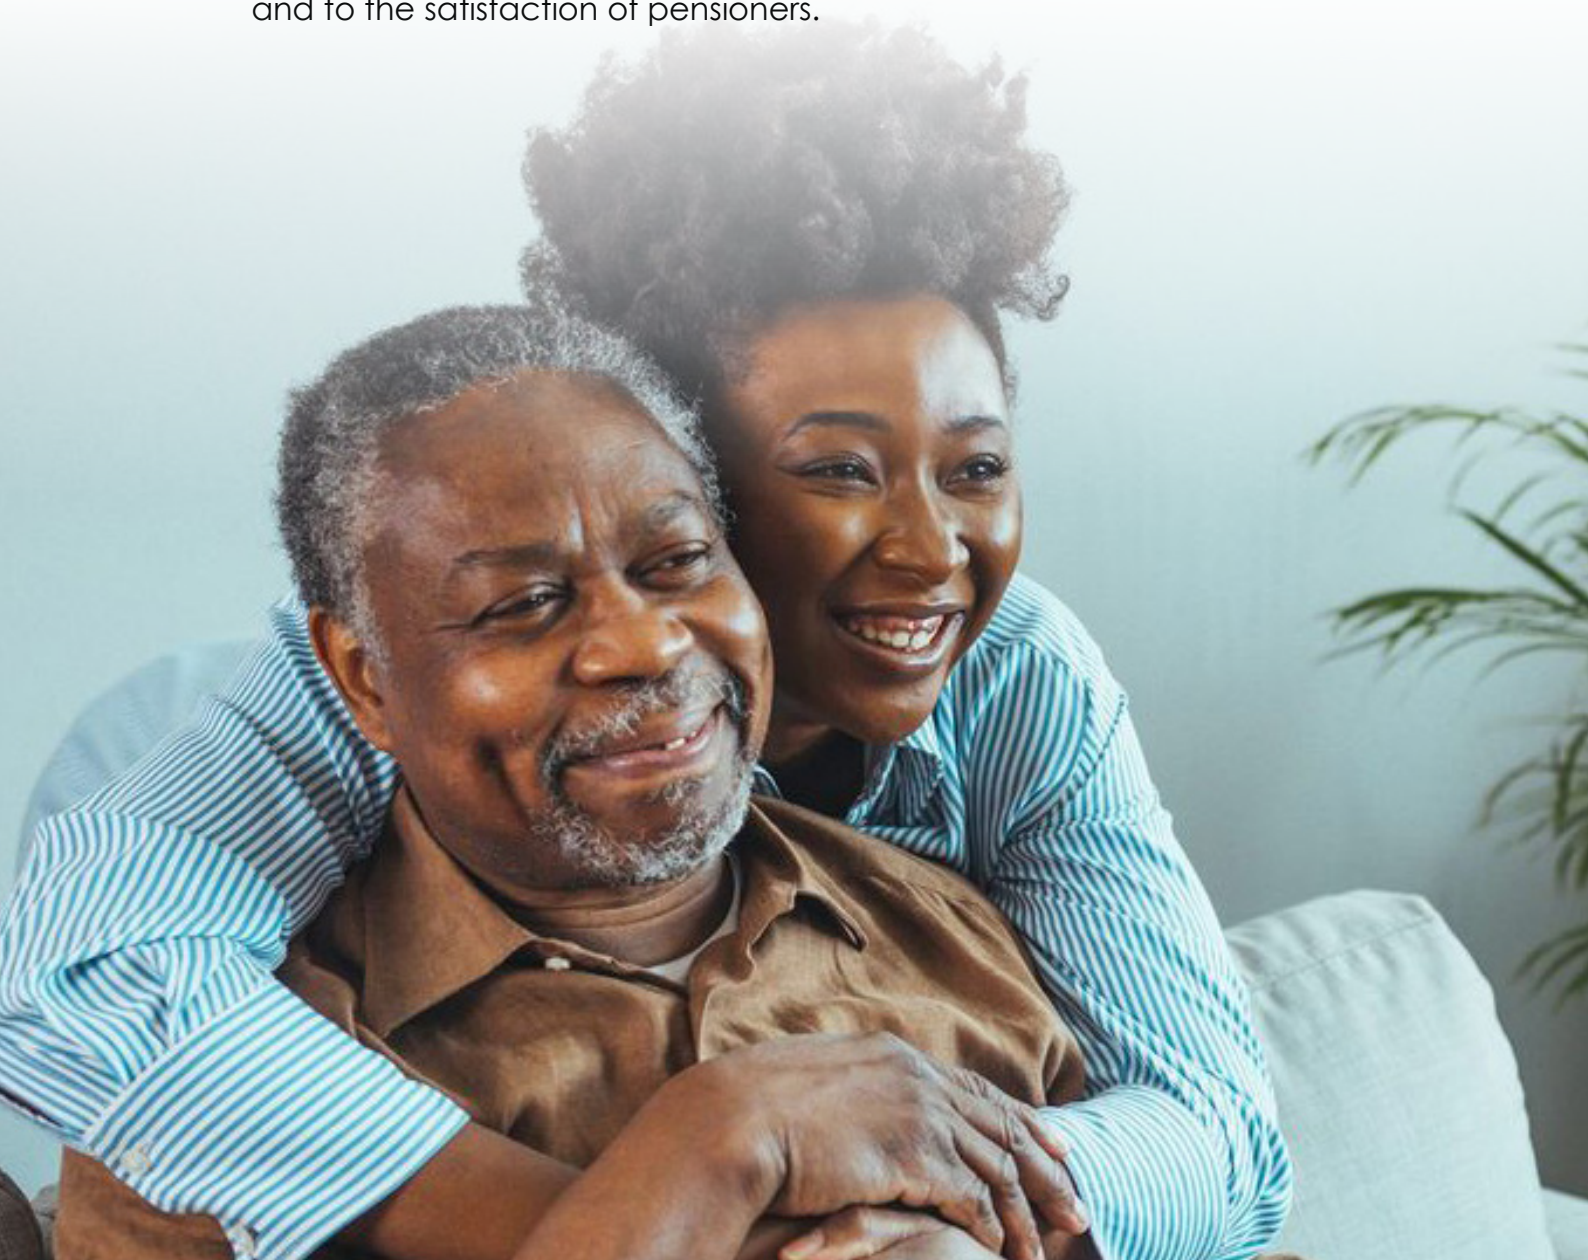

### Complaints by Entity

12.26. First Mutual Life Assurance received the highest number of complaints at 38 (22.35%), followed by Old Mutual Life Assurance Company with 37 (21.76%) and Minerva Employee Benefits with 16 (9.41%).

Figure 16: Number of Complaints by Entity

12.27. The Commission expects entities to investigate the causes of these complaints and implement improvement plans so that they can be addressed promptly and to the satisfaction of pensioners.

### 13. Anti-Money Laundering, Combating the Financing of Terrorism and Proliferation Financing (AML/CFT/CPF)

13.1. The third quarter of 2025 saw a significant improvement in reporting, with all fourteen stand-alone pension funds and three independent fund administrators submitting their AML/CFT/CPF returns on time. However, two pension funds failed to provide the requested supporting information on controls being implemented.

#### Assessment of ML, TF and PF Inherent Risks and Controls

- 13.2. **Customer Risk:** Two stand-alone pension funds reported high-risk clients and identified Politically Exposed Persons (PEPs) during the third quarter of 2025, a decrease from three funds in the previous quarter. Pension funds should risk profile the domestic PEPs identified and apply enhanced due diligence measures only for those falling into the high-risk category.
- 13.3. **Mode of Payment and Source of Funds:** The sector primarily conducts its transactions through the banking system, using electronic transfers, reflecting a high level of transparency. 100% of ZWG transactions were electronic, while US\$ cash transactions accounted for 0.5% of contributions. Sources of funds are known to be direct deductions from salary and employer contributions.
- 13.4. **Geographic Risk:** One entity reported having pension fund members, pensioners and beneficiaries resident in domestic jurisdictions classified as high-risk, namely towns associated with artisanal mining activities. Appropriate customer due diligence measures must be conducted for contributions and benefit payouts to mitigate the risks of money laundering and terrorist financing.
- 13.5. **Product Risk:** Only one pension fund reported the receipt of additional voluntary contributions deducted directly from salaries, as was the case in the previous quarter.
- 13.6. **Suspicious and Cash Transaction Reports:** No suspicious transaction reports were filed from the subsector during the third quarter of 2025.
- 13.7. A total of 9 Large Cash Transaction reports, totalling US\$25,183, were filed. However, the amounts were from aggregated employer contributions, not

from individual members. Pension funds and administrators must also report any cash benefit payouts to members that reach the US\$5,000 threshold.

- 13.8. **Record-Keeping Obligations:** Pension funds and administrators should maintain accurate, complete, and up-to-date records for all members and pensioners. Proper record management forms a key element of ongoing due diligence and adherence to AML/CFT compliance standards. Additionally, complete CDD information including beneficial ownership information relating to sponsoring employers must be appropriately documented and retained.

### **Information Supporting Controls Being Implemented**

- 13.9. The supporting document submitted by entities on control measures being implemented showed improved awareness of AML, CFT and CPF obligations, as indicated by records of trainings conducted and attended, filing of CTRs, including nil returns.
- 13.10. However, the following issues of concern that need urgent attention were observed in some entities:
- Use manual templates to file CTRs on GoAML by one administrator.
  - Reviewed policies that are not board approved.
  - Existence of unreviewed policies in some funds.
  - Sanctions screening is being limited to the implementation of Directives from the Financial Intelligence Unit, and not continuously when onboarding new members.
- 13.11. The sector registered a notable improvement in the submission of returns, with all entities complying. Overall, the sector continues to exhibit low-risk money laundering and terrorist financing, largely due to the payroll-deduction model for contributions, which ensures transparency and traceability of funds. IPEC will continue to engage with entities to address identified gaps and enforce compliance in the subsector.

## 14. Conclusion

- 14.1. The industry's path forward is defined by the need to capitalise on macroeconomic stability while urgently addressing structural and governance deficits.
- 14.2. Funds must shift their focus from passive capital preservation via property holdings and fair value gains to generating positive real returns through active management and strategic diversification.
- 14.3. Administrators must improve operational efficiency to reduce the high volume of complaints related to unpaid or low benefits and address member tracing issues to comply with the Administration of Estates Act concerning the Guardian Fund.
- 14.4. The Commission will continue its engagement with defaulting employers to resolve the US\$100.18 million arrears, with the ultimate recourse being the invocation of garnishing powers to protect member contributions.
- 14.5. The nine-month period ended 30 September 2025 lays the groundwork for a potentially transformative 2026. The industry's future success will be judged not only by asset growth but also by its capacity to deliver sustainable, positive real returns and ensure a stable retirement for its members through disciplined governance and proactive regulatory compliance.

## 15. Annexures

### Annexure 1: Consolidated Industry Statement of Comprehensive Income for the Nine Months Ended 30 September 2025 – ZWG

|                                                        | Insured                 | Self-Administered       | Standalone              | Total Q3 2025           |
|--------------------------------------------------------|-------------------------|-------------------------|-------------------------|-------------------------|
