Section A | EXECUTIVE
SUMMARY

1 Executive Summary

- 1.1 The report provides an analysis of the Funeral Assurance sector, a high-level summary of key economic indicators and financial markets and highlights the Commission's key regulatory activities for the year ended 31 December 2025.
- 1.2 As at 31 December 2025, there were eight (8) registered Funeral Assurance companies in Zimbabwe. Of the eight registered entities, six (6) were operational. Kings and Queens Real Funeral Assurers was not yet operational, and Orchid Funeral Assurance did not submit the quarterly returns; the Commission initiated the license cancellation for the assurer.
- 1.3 The Funeral Assurance Industry had 114,651 policies for the year ending 31 December 2025, a 14% decrease from 133,728 policies reported as at 31 December 2024. The reduction in policy count reflects a contraction in business volumes during the period under review. This development may be attributable to subdued new business generation and or increased policy lapses, and requires close regulatory monitoring given its implications on industry growth, premium generation capacity, and long-term sustainability of the sector.
- 1.4 The sector reported a consolidated nominal Insurance Revenue of ZWG 286.4 million for the year ended 31 December 2025, which translated to US\$11.2 million at the prevailing official exchange rate. This represents a 37.8% increase from US\$8.13 million recorded during the comparable period in the prior year. The growth reflects an improvement in revenue generation capacity during the period under review, owing to the stability in macroeconomic conditions. Of this amount, foreign currency denominated business amounted to US\$6 million, representing 53.6% of the total revenue collected for the year.
- 1.5 As at 31 December 2025, five (5) entities were compliant with the Minimum Capital Requirements of US\$500,000 or its equivalents in terms of S.I 67 of 2025.

- 1.6 Total assets for the sector amounted to ZWG874.2 million as at 31 December 2025, equivalent to US\$33.65 million at the prevailing official exchange rate. This represents a 10.7% increase from US\$30.4 million recorded in the prior period. The growth in asset base reflects an expansion in the sector's resource capacity during the period under review.
- 1.7 Compliance with Prescribed Asset requirements remained critically low, with all six reporting assurers recording 0.01% against the statutory minimum of 10%.
- 1.8 Sector key financial highlights are indicated below:

Section B

ABOUT THE COMMISSION

2 Introduction

- 2.1 Insurance and Pensions Commission (IPEC) is a Statutory Body, mandated with regulating, supervising, and developing the Insurance and Pensions Industry for the protection of policyholders and pension scheme members in Zimbabwe.
- 2.2 This report outlines the Funeral Assurance sector developments and IPEC's various activities in the sector, consistent with its statutory mandate for the period ending 31 December 2025.

2.3 Terms of Reference

The activities of the Commission are guided by the following Acts and their Regulations:

- 2.3.1 Insurance and Pensions Commission Act [*Chapter 24:21*];
- 2.3.2 Pension and Provident Funds Act [*Chapter 24:32*];
- 2.3.3 Insurance Act [*Chapter 24:07*];
- 2.3.4 Money Laundering and Proceeds of Crime Act [*Chapter 09:24*];
- 2.3.5 Finance Act [*Chapter 23:04*];
- 2.3.6 Public Entities and Corporate Governance Act [*Chapter 10:31*];
- 2.3.7 Public Finance Management Act [*Chapter 22:19*]; and
- 2.3.8 Public Procurement and Disposal of Public Assets Act [*Chapter 22:23*]

Section C | ECONOMIC OVERVIEW

3.1 Economic Overview

- 3.1.1 The year 2025 marked a consolidation phase for Zimbabwe's macroeconomic stabilisation agenda, with gains achieved earlier in the year in inflation and exchange rate stability largely sustained. The Reserve Bank of Zimbabwe (RBZ) maintained a disciplined and tight monetary policy stance throughout the year, reinforcing confidence in the domestic currency and anchoring inflation expectations.
- 3.1.2 Economic activity in 2025 was supported by resilient performance in the mining sector, particularly gold and platinum, alongside steady agricultural output following favourable seasonal conditions earlier in the year.
- 3.1.3 Real GDP growth for 2025 is projected to remain strong at around 6%, consistent with the broad-based recovery observed across primary, manufacturing, and service sectors.

3.2 Global Outlook

- 3.2.1 In the year 2025, global economic activity settled into a "lower-growth equilibrium," following the fading of temporary early-year boosts and adjustments to a more fragmented trade environment.
- 3.2.2 The IMF revised the global growth forecast for 2025 slightly upward to 3.2%, up from 3.0% in July, reflecting resilient activity in the first half of the year. Growth is projected to ease to 3.1% in 2026, indicating steady but moderate expansion below pre-pandemic averages.

3.3 Inflation Developments

- 3.3.1 According to ZIMSTAT, month-on-month (MoM) inflation remained subdued during year 2025, reflecting continued price stability under the prevailing tight monetary policy environment.

3.4 Exchange Rate Developments

3.4.1 In December 2025, the Zimbabwe Gold (ZWG) closed at approximately ZWG26.10:US\$1 on the willing-buyer willing-seller interbank market. This represents a depreciation relative to December 2024, when the exchange rate stood at about ZWG25.60:US\$1. Overall, the ZWG weakened by 2.0% year-on-year.

3.4.2 Despite the year-on-year depreciation, exchange rate movements in 2025 were characterised by relative stability, with only modest adjustments compared to earlier periods.

3.5 Zimbabwe Stock Exchange (ZSE)

- 3.5.1 The Zimbabwe Stock Exchange (ZSE) sustained its positive momentum in 2025, with market capitalization remaining elevated, despite a moderation in trading activity. This performance reflects continued investor reliance on equities as a store of value, alongside emerging signs of liquidity tightening toward year-end.
- 3.5.2 Market Capitalization: ZSE market capitalization increased to ZWG87.26 billion in December 2025, representing a 31.73% growth from ZWG66.24 billion in 2024.
- 3.5.3 Turnover: Total turnover value increased by 147% from ZWG2.28 billion in 2024 to ZWG5.43 billion in 2025.

3.6 Victoria Falls Stock Exchange Market (VFEX)

- 3.6.1 The Victoria Falls Stock Exchange (VFEX) maintained a positive performance trajectory during the year 2025, supported by continued foreign currency-denominated listings and sustained investor interest in offshore-facing assets. Market outcomes reflect the VFEX's growing role as a platform for value preservation and capital inflows.
- 3.6.2 Market Capitalization: VFEX market capitalization increased to US\$2.1 billion, marking a 64% increase from US\$1.28 billion in 2024, underpinned by price gains in key counters and sustained investor demand for foreign currency-denominated assets.
- 3.6.3 Turnover: Turnover value on the VFEX increased to US\$111.05 million over the 2025 period, reflecting a 95.02% growth from US\$56.94 million in 2024. Turnover volume surged to 1.46 billion shares, indicating broader market participation and improved depth.

Section D

PERFORMANCE OF FUNERAL ASSURANCE COMPANIES

4.1.0 Performance in Terms of Business Written

4.1.1 The Funeral Assurance sector recorded nominal consolidated Insurance Revenue of ZWG286.4 million for the year ended 31 December 2025, which was equivalent to US\$11.2 million at the prevailing exchange rate.

4.1.2 The total foreign currency insurance revenue for all the funeral assurance players recorded US\$6 million, a 62% increase from US\$3.7 million reported in the same period ended 31 December 2024.

4.1.3 A detailed breakdown of the consolidated inflation adjusted Insurance Revenue per funeral assurer is shown in Table 2 below.

Table 2: Insurance Revenue Per Company

Name of Company	Dec-25 (ZWG000)	Dec-24 (ZWG000)	Change	Market Share
Sunset	3,812.51	1,863.97	105%	1%
Foundation Mutual	12,856.48	8,405.55	53%	4%
First Funeral	36,287.11	61,663.76	-41%	13%
Vineyard	25,014.44	22,306.89	12%	9%
Moonlight	207,179.04	113,882.73	82%	72%

Total	286,358.84	209,784.15	37%	100%

3 Earnings

4.2.1 For the period under review, Funeral Assurers reported a combined Insurance Service Result of ZWG137.2 million, reflecting the underwriting profit generated by the funeral assurance sector during the period. The positive insurance service outcome reflects the sector's ability to generate surplus from core broking operations, prior to the impact of investment income and other non-insurance activities.

4.2.2 The Funeral Assurance sector average combined ratio was 52% for the period ending 31 December 2025, an improvement from 92% recorded in the same period ending 31 December 2024. While the

industry underwriting remains profitable, it is important for the sector players to effectively manage cash outflows to ensure industry sustainability.

- 4.2.3 Profit before and after tax for the period under review were ZWG0.79 million and ZWG0.75 million, respectively.
- 4.2.4 The funeral industry recorded an average insurance contract expense ratio of 26.5%, indicating that 26.5 cents per premium dollar was allocated towards insurance service expenses separately from claims incurred, an increase from 15%, which was 15 cents per dollar recorded in the same period of 2024.
- 4.2.5 It is important for all sector players to continuously monitor their insurance service expenses so that they are sustainable.
- 4.2.6 The industry's average Return on Assets (ROA) and Return on Equity (ROE) improved to 0.09% and 0.12%, respectively, , compared to negative 19% and negative 15% recorded in 2024.
- 4.2.7 The positive outturn reflects a recovery in profitability and improved capital utilisation compared to the prior year. The detailed performance metrics are presented in Table 1 above.

4.3.0 Liquidity

As at 31 December 2025, liquid assets amounted to ZWG118.01 million (US\$4.5million) compared to US\$2.8 million recorded as at 31 December 2024, a year-to-date increase of 61%.

- 4.3.2 The funeral industry recorded an average current ratio of 1.07 times, an increase from 0.53 times reported as at 31 December 2024. This improvement shows industry's preparedness to meet short-term obligations. However, three (3) out of six entities had a negative working capital and a current ratio below 1.

4.4.0 Capitalisation

- 4.4.1 As at 31 December 2025, five (5) funeral assurers were compliant with the prescribed regulatory Minimum Capital Requirement (MCR) of

US\$500,000, as stipulated in Statutory Instrument 67 of 2025. One (1) entity remained non-compliant with the minimum capital threshold as at the reporting date. The Commission continues to closely monitor the capital position of the non-compliant entity to ensure timely restoration of solvency in line with regulatory requirements.

4.4.2 The industry recorded a total average capital change of 35% from the December 2024 position.

4.4.3 Below are the reported capital positions for the funeral assurers.

4.5.0 Asset Quality

4.5.1 Total assets for the sector amounted to ZWG874.2 million as at 31 December 2025, equivalent to US\$33.6 million which was a 12% increase from 31 December 2024, which was US\$30 million. The asset

base for the sector remained highly concentrated in non-current assets, which constituted 85% of the total assets, demonstrating that the sector's assets were skewed towards funeral service provision.

4.5.2 The distribution of assets for the Funeral Assurance sector is shown in Figure 2 below.

Figure 2: Breakdown of Assets as at 31 December 2025

4.5.3 As at 31 December 2025, Funeral Assurers collectively recorded an average of 0.01% investment in Prescribed Assets. Consequently, the entire sector was non-compliant with the minimum Prescribed Asset ratio of 10%, as stipulated in Statutory Instrument 206 of 2019. The significant shortfall against the regulatory threshold remains a matter of supervisory concern and requires urgent corrective action by the industry to align investment portfolios with statutory requirements.

4.5.4 Table 4 below shows the compliance levels with Prescribed Assets for each Funeral Assurance player.

Table 4: Prescribed Assets (PA) Levels as at 31 December 2025

Name of Company	Prescribed Assets (ZWG 000)	Total Assets (ZWG 000)	Prescribed Asset Ratio
Sunset	-	9,847.12	0.00%
Foundation Mutual	89.59	60,211.84	0.15%
First Funeral	-	127,942.71	0.00%
Vineyard	-	43,197.00	0.00%
Moonlight	-	600,862.49	0.00%
Ruvimbo	-	32,102.46	0.00%
Total/Average	89.59	874,163.63	0.01%

4.6.0 Reassurance

None of the six (6) Funeral Assurers had reinsurance arrangements in place during the period ending 31 December 2025.

4.6.2 The Commission, therefore, encourages the sector players to utilize reinsurance as a risk mitigatory tool in case of unexpected spikes in claims.

4 Insurance Contract Liabilities

4.7.1 Insurance contracts liabilities as at 31 December 2025 amounted to ZWG76.6 million under current liabilities and long-term insurance contract surplus of ZWG12.4 million, representing the mixture of funeral contracts within the industry.

4.8.0 Number of policies

4.8.1 The Funeral Assurance Industry had 114,651 policies for the year ending 31 December 2025, a 14% decrease from 133,728 policies reported as at 31 December 2024. The reduction in policy count reflects a contraction in business volumes during the period under review.

4.8.2 This development may be attributable to subdued new business generation and/or increased policy lapses, and requires close regulatory monitoring given its implications on industry growth, premium generation capacity, and long-term sustainability of the sector.

4.9 Market Share

4.9.1 For the period ended 31 December 2025, Moonlight Funeral Assurance and First Funeral Assurance dominated the Funeral Assurance sector in terms of consolidated Insurance Revenue, with a market share of 72% and 13%, respectively.

4.9.2 The distribution of the market share in terms of consolidated Insurance Revenue for the six (6) Funeral Assurers is shown in Figure 3 below.

Figure 3: Market Share in Terms of Consolidated Insurance Revenue for the Period ended 31 December 2025

4.9.3 In terms of total assets, the Funeral Assurance sector was dominated by one (1) player, Moonlight Funeral Assurance, with a total market share of 69%. The other five (5) players shared the remaining 31%. This is illustrated in Figure 5 below.

Section F

COMPLAINTS HANDLING AND CONCLUSION

6. Funeral Assurance Sector Complaints

6.1.1 As at 31 December 2025, the Commission received fifty-four (54) complaints against the funeral assurers. The Commission resolved fifty-two (52) complaints, whilst two (2) were still work in progress by the end of the year.

6.1.2 Fifteen (15) of the complaints received during the period under review were related to unsatisfactory service, eleven (11) concerned claim repudiations, and twenty-eight (28) were attributable to delays in claims settlement.

6.1.3 Sector players are hereby reminded to strictly adhere to the provisions of Circular 3 of 2024 on the timely processing and payment of claims. Failure to comply with the prescribed requirements may result in regulatory action and the imposition of appropriate sanctions.

7. Conclusion

7.1.1 The Funeral Assurance sector experienced moderate growth in business volumes and maintained underwriting profitability for the period ending 31 December 2025.

7.1.2 However, the sector players continued to face significant challenges, including a weak liquidity position, poor asset diversification, low capital adequacy, persistent non-compliance with Prescribed Asset requirements, an increase in complaints from policyholders and the continued dominance of the sector by one player.

7.1.3 The Commission urges all Funeral Assurers to strengthen governance frameworks, improve liquidity management, diversify asset portfolios, and implement robust risk-based business models to enhance resilience and ensure long-term policyholder protection.
