

Insurance and Pensions Commission (IPEC)

Pensions Report

For the Quarter Ended

31 March 2018

Disclaimer

This report is based on unaudited financial statements of insured, stand-alone self-administered funds as well as self-administered funds under insurers and professional fund administrators. This report does not cover the public-sector pension scheme, National Social Security Authority (NSSA). The report, including any enclosures and attachments, has been prepared by the Insurance and Pensions Commission solely for informative purposes to the pensions industry stakeholders, and may not be reproduced, redistributed, communicated to a third party or relied upon by any other person or for any other purpose without the Commission's prior written consent. The Commission does not accept any liability if this report is used for any other purpose other than for the above mentioned intended purpose.

Definition of Terms

Insured Fund – A fund whose contributions are used to buy assets which are registered in the name of the insurer and not the fund.

Self-Administered Fund – For the purposes of this report, self-administered funds are those under fund administrators and insurers but their assets are registered in the respective names of the funds.

Stand Alone Fund – These are self-administered funds which own and control their administration structures (having own employees) for the purpose of operating the fund.

Pension Fund member – in relation to a fund, means any person who is a member of that fund in terms of the rules thereof.

Active members – Members of a fund who are actively contributing to the fund, including those on contribution holiday for a period of time.

Pensioner – a person in receipt of pension benefits from a pension fund.

Deferred Pensioner – A member whose pension benefits are preserved within the fund until the members attains the retirement age.

Suspended pensioner – A pensioner whose pension benefits are withheld by the pension fund on account of not providing proof of his/her existence.

Members with unclaimed benefits – Members of a fund who have not claimed their benefits when they were entitled to receive such benefits and cannot be located by the fund.

1 Industry Overview

The key performance indicators for the pensions industry as at 31 March 2018 are as shown in Table 1.

Table 1: Key Highlights of the Pensions Industry as at 31 March 2018

Indicator	Insured Funds	Self-Administered Funds	Stand-Alone Self-Administered Funds	Total
Number of Funds	1,119	170	15	1,304
Active funds	738	117	15	870
Members ¹	129,588	119,902	337,266	586,756
Share of total membership	22.09%	20.43%	57.48%	100.00%
Total Income (\$)	47,875,121	(10,410,088)	61,945,677	99,410,710
Total Contributions (\$)	25,000,546	26,765,870	35,888,874	87,655,289
Rental Income (\$)	581,482	2,310,193	9,143,639	12,035,315
Investment Income ²	24,272,445	(38,785,862)	13,501,151	(1,012,266)
Investment Income over total assets	2.21%	(2.89%)	0.79%	(0.02%)
Total Expenditure (\$) ³	16,402,451	36,368,349	37,185,624	89,956,423
Total Benefits Incurred (\$)	14,871,597	23,327,644	23,220,002	61,419,243
Monthly pension benefits per pensioner	60	134	170	159
Expenses/Contributions ⁴	6.11%	22.09%	23.90%	18.27%
Expenses/Total Income ⁴	3.16%	-56.79%	13.19%	16.14%
Income Surplus(Deficit)	31,472,669	(46,778,436)	24,760,054	9,454,287
Total Assets (\$)	1,096,606,637	1,343,309,514	1,715,092,000	4,155,008,151
Total Assets per member	8,462	11,203	5,085	7,081
Percentage of Total Assets	26.39%	32.33%	41.28%	100.00%
Prescribed Assets (\$)	91,412,018	159,314,974	56,202,307	306,929,300
Prescribed Assets Ratio	8.34%	11.86%	3.28%	7.39%
Contribution Arrears (\$)	42,423,934	84,600,141	491,859,463	618,883,539

Notes :

1. Total membership excludes fund beneficiaries (widows and orphans of members).
2. Total Investment income is made up of rental income, dividends, interest on investments, profit on disposal on assets and fair value gains.
3. Total Expenditure for the industry includes benefits incurred.
4. Expenses are calculated as total expenditure excluding items such as expenditure on benefits, transfers to reserves and revaluation reserves.

The pensions industry had 1,304 registered private occupational pension funds as at 31 March 2018, a decrease of 6 funds from the 1,310 reported as at 31 December 2017. The decline was mainly a result of the dissolution of 5 funds. There were 870 pension funds reported to be actively receiving contributions as at 31 March 2018, while 434 funds were reported to be inactive. The Commission was concerned by the fact that some sponsoring employers had not remitted contributions since the dollarisation of the Zimbabwean economy.

Defined contribution schemes accounted for 1,255 of the industry's total number of schemes as at 31 March 2018 and 49 were defined benefit schemes.

1.1 Membership

The pensions industry's total membership was 586,756 as at 31 March 2018, reflecting an increase from 578,801 members reported as at 31 December 2017. The increase in membership was mainly attributable to new entrants to the industry.

The breakdown of membership from 31 December 2017 to 31 March 2018 is shown in Table 2 below.

Table 2: Quarterly breakdown in membership

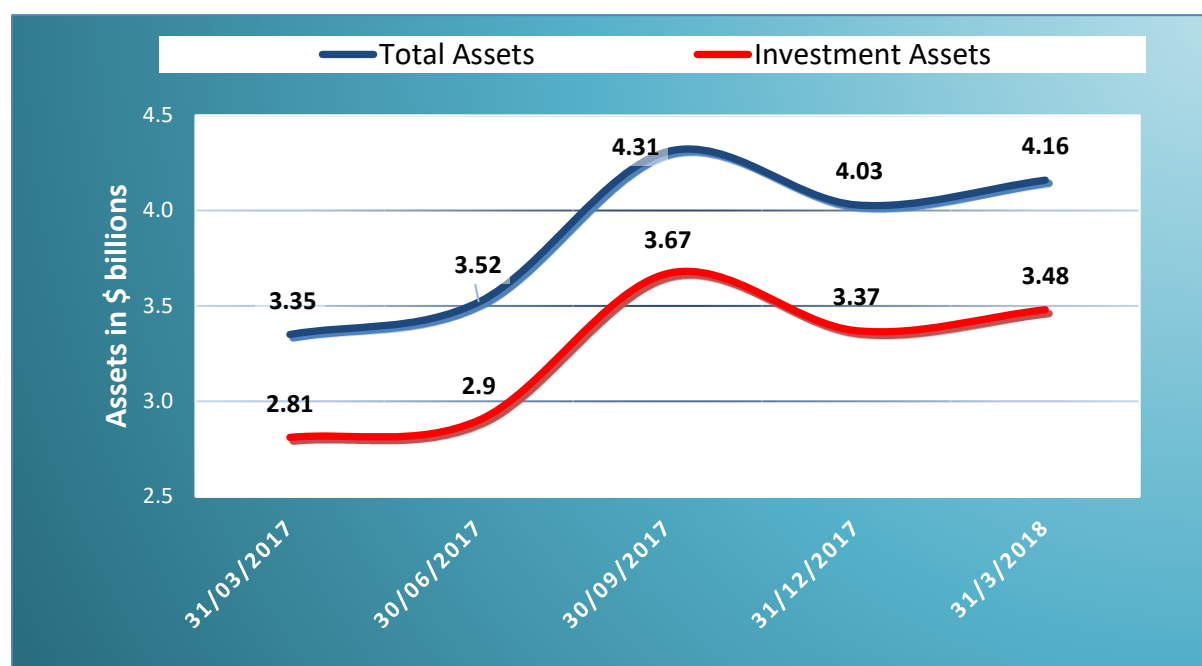

Membership type	Number of Members as at..	
	31 December 2017	31 March 2018
Actives	356,077	362,150
Pensioners	30,096	32,628
Deferred Pensioners	123,251	123,175
Suspended Pensioners	16,713	16,990
Unclaimed Benefits	52,664	51,813
Total	578,801	586,756

1.2 Asset Quality

Total assets for the pensions industry increased by 3.04% from \$4.03 billion as at 31 December 2017, to \$4.16 billion as at 31 March 2018. The increase was mainly buoyed by the growth in investment assets from \$3.37 billion as at 31 December 2017, to \$3.48 billion as at 31 March 2018.

The trend in the growth of the asset base and investment assets from 31 March 2017 to 31 March 2018 is shown in figure 1 below.

Figure 1: Trend in asset base

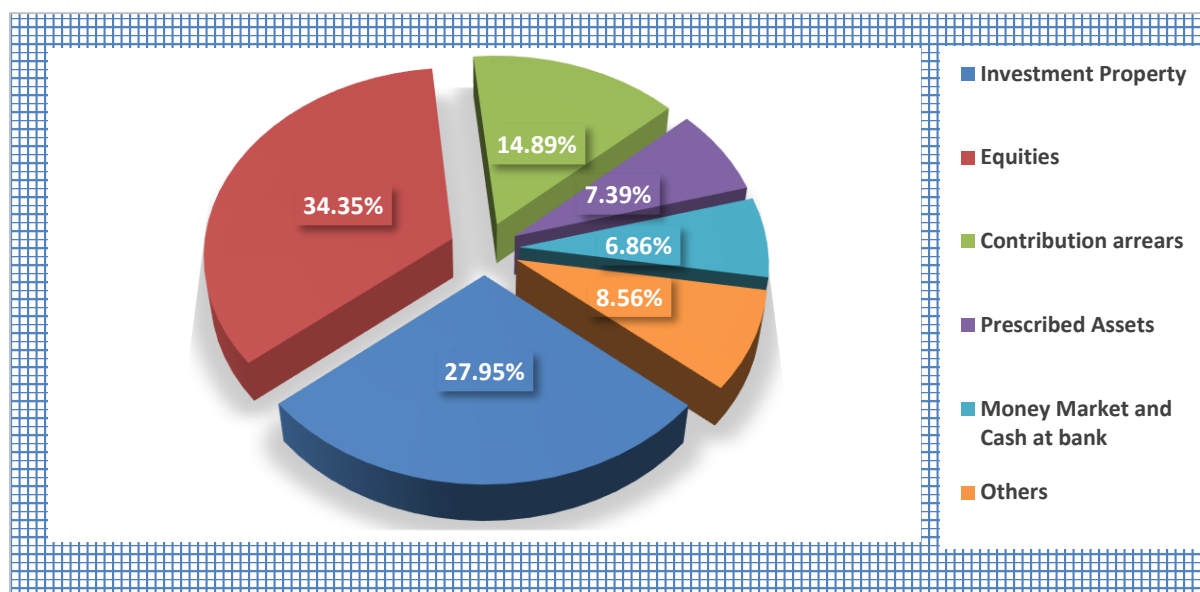

The increase in the asset base and investment assets was mainly a result of an increase in investment property values from \$1.05 billion as at 31 December 2017, to \$1.16 billion as at 31 March 2018.

The total assets translated to an industry average capital accumulation per member of \$7,067 as at 31 March 2018, compared to the \$6,967 per member reported as at 31 December 2017. The increase in the average capital accumulation was mainly due to the afore-mentioned increase in total assets.

The distribution of the industry's asset base as at 31 March 2018 is shown in figure 2 below.

Figure 2: Distribution of Total Assets for the Pensions Industry

Of the total assets as at 31 March 2018, investment property and equities accounted for a combined \$2.59 billion. The two asset classes accounted for 62.30% of the total assets.

Contribution arrears amounted to \$618.88 million as at 31 March 2018, that is 14.89% of the asset base. The contribution arrears figure increased from \$600.31 million reported as at 31 December 2017. The high level of contribution arrears compromises the asset quality and liquidity of pension funds.

Stand-alone funds reported \$491.86 million of the contribution arrears, accounting for 79.48% of total contribution arrears. The Commission is encouraging trustees and administrators to create strategies for the collection of the arrears and possibly amortise them over a long-term period. There is also need to ensure that there is clear documentation of the arrears in a manner that reflect the acknowledgement of debt by the sponsoring employers and a disclosure of the same in the financial statements of employer.

The pensions industry had \$306.93 million invested in prescribed assets as at 31 March 2018, a 7.94% increase from the \$284.36 million as at 31 December 2017. This translated into a prescribed asset ratio of 7.39% of total assets, a marginal improvement the 7.05% reported as at 31 December 2017. Although, the prescribed asset ratio improved during the quarter under review, it was still below the regulatory minimum of 10% for pension funds.

1.3 Liabilities

The industry reported arrear pension benefits of \$79.66 million as at 31 March 2018. The arrear pension benefits liabilities decreased by 5.61% from the \$84.39 million reported as at 31 December 2017. Stand Alone funds accounted for 94.69% of the arrear pension benefits as at 31 March 2018.

Unclaimed benefits liabilities decreased by 4.87% from \$28.03 million as at 31 December 2017 to \$26.66 million as at 31 March 2018. The Commission is encouraging funds to come up with strategies for contacting the members with unclaimed benefits, as well as improving data integrity and communication with members to reduce the likelihood of cases of unclaimed benefits.

1.4 Earnings

The industry reported a surplus of \$9.45 million for the quarter ended 31 March 2018. The surplus was the difference between total income amounting to \$99.41 million and total expenditure amounting to \$89.96 million for the quarter ended 31 March 2018. The \$9.45 million surplus was 69.48% lower than the \$30.96 million surplus reported for the 3 months ended 31 March 2017. The relatively lower surplus was mainly a result of fair value losses on equities totaling \$42.73 million as well as pension benefits totaling \$61.42 million for the quarter ended 31 March 2018. The fair value losses were a result of the decline in equities values on the Zimbabwe Stock Exchange during the quarter under review.

Furthermore, the pensions industry reported total administration expenses of \$22.54 million for the 3 months ended 31 March 2018. The administration expenses translate to average expense ratios of 18.10% and 16.14% based on total contributions and total income respectively (please note that the calculations exclude benefits paid, expenses related to disposal of assets, revaluations, and transfer to reserves and provisions).

The Commission has come up with a draft paper to address the high expense ratios, among other reforms.

2 INSURED SCHEMES

2.1 Industry Architecture

As at 31 March 2018, there were 6 life offices administering pension funds. The sector had 1,119 insured pension funds as at 31 March 2018, reflecting no significant change from the 1,124 funds as at 31 December 2017. The number of pension funds under the different insurers as at 31 December 2017 and 31 March 2018 is shown in Table 3 below:

Table 3: Breakdown of Insured Schemes by Insurer

	Number of Insured Funds	
Life Assurer	31 December 2017	31 March 2018
1. CBZ Life	2	3
2. Fidelity Life	71	71
3. First Mutual Life	183	186
4. Old Mutual Life	551	548
5. ZB Life	152	152
6. Zimnat Life	165	159
Total	1,124	1,119

2.2 Membership

Insured schemes had 129,588 members as at 31 March 2018. The membership was higher than the 127,196 members reported as at 31 December 2017. The growth in membership was mainly a result of new members joining insured pension funds. The breakdown of membership for insured funds as at 31 December 2017 and 31 March 2018 is shown in Table 4 below.

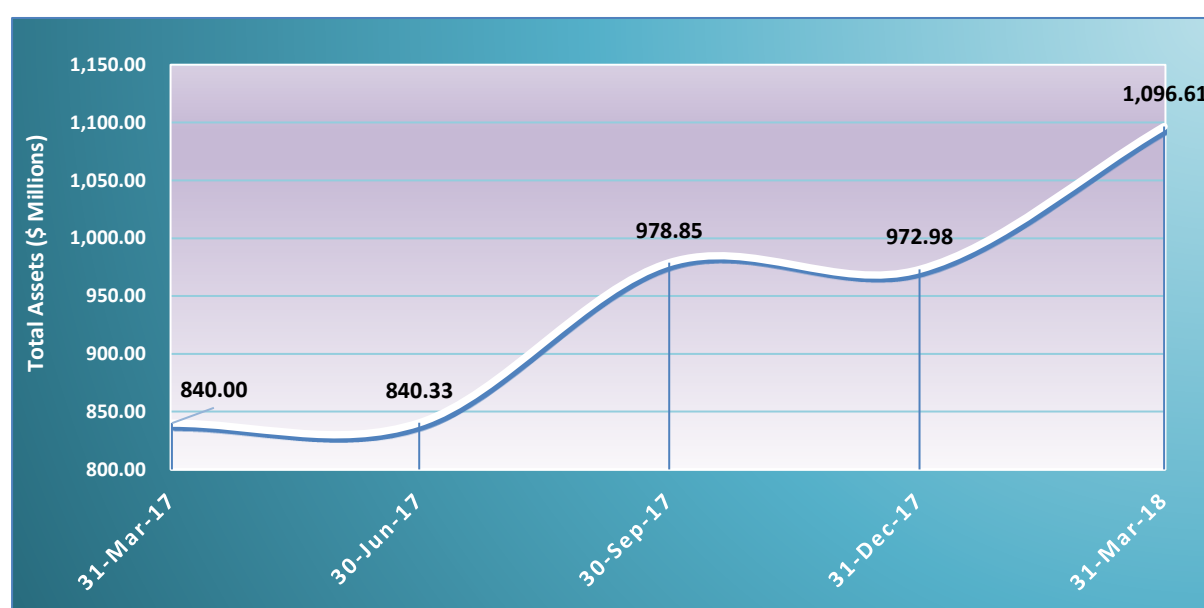

Table 4: Insured Funds Membership

Membership Class	Number of Insured Schemes as at	
	31 December 2017	31 March 2018
New Entrants	2,742	1,218
Active Members (Excluding New Entrants)	116,402	119,445
Pensioners	5	538
Deferred Pensioners	4,733	4,989
Members with Unclaimed Benefits	3,314	3,398
Total Membership	127,942	129,588

2.3 Asset Quality

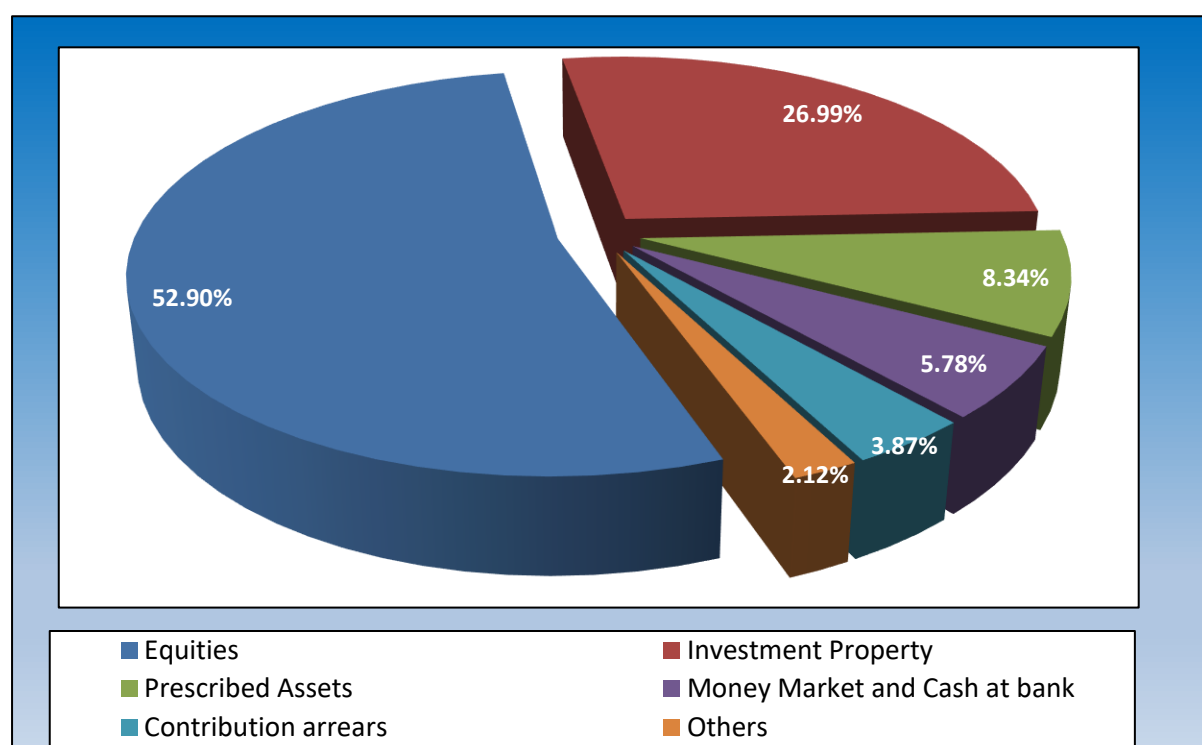

The total assets base for the insured schemes was \$1.10 billion as at 31 March 2018, indicating a 13.09% increase from the \$972.98 million reported as at 31 December 2017. The increase in the asset base was mainly due to an increase in the values of the funds' equities and investment property holdings. The two asset classes increased by a total of \$165.15 million from the values reported as at 31 December 2017.

The trend of asset growth from 31 March 2017 to 31 March 2018 is show in figure 3 below.

Figure 3: Trend in asset growth from 31 March 2017 to 31 March 2018

The asset base was mainly skewed towards equities and investment property with a combined total of \$876.08 million, accounting for 79.89% of the total asset base as at 31 March 2018. The remaining 20.11%, representing \$220.52 million of the total assets for insured funds, was invested in various asset classes. The distribution of total assets for insured funds is as show in Figure 4 below.

Figure 4: Distribution of Total Assets for Insured Funds

Insured funds increased their investment in prescribed assets from \$87.93 million as at 31 December 2017 to \$92.06 million as at 31 March 2018. The prescribed asset investment was 8.37% of total assets as at 31 March 2018. The prescribed asset ratio was however below the 10% regulatory threshold.

2.4 Earnings

Insured schemes reported a \$31.47 million surplus for the 3 months ended 31 March 2018. The surplus was a result of total income amounting to \$47.88 million and total expenditure amounting to \$16.40 million for quarter ended 31 March 2018.

The income was mainly driven by contributions and fair value adjustments on assets which amounted to \$25.00 million and \$22.00 million respectively. The total income for insured funds for the quarter ended 31 March 2018 was 135.61% higher than the \$20.53 million total income reported for the quarter ended 31 March 2017.

The relative increase in total income was mainly a result of the increase in fair value gains from \$194,628 for the quarter ended 31 March 2017 to \$22.00 million for the quarter ended 31 March 2018.

Total expenditure totaling \$16.40 million was mainly attributable to total benefits incurred which amounted to \$14.87 million for the period under review, accounting for 90.67% of total expenditure.

The total benefits incurred for the quarter under review were 23.59% lower than the \$19.46 million incurred for the same period in the year 2017. The comparative decline was mainly due to a decline in benefits paid to members withdrawing from pension funds, from \$12.31 million as for the quarter ended 31 March 2017 to \$5.47 million for the quarter ended 31 March 2018.

Insured funds reported average expense to contributions and total income ratios of 6.11% and 3.19% respectively for the 3 months under review. The expense ratios for insured pension funds were an improvement from the 8.54% and 8.27% of contributions and total income respectively reported for the same period during the year 2017. The Income Statements for Insured Schemes for the quarter ended 31 March 2018 are shown on Annexure 3.

3 SELF-ADMINISTERED FUNDS

3.1 Industry Architecture

There were 5 operational administrators and 5 life offices administering 170 self-administered pension funds as at 31 March 2018. There was no significant change from the 171 funds reported as at 31 December 2017. The architecture of the sector as at 31 March 2018 and 31 December 2017 are shown in Table 5 below.

Table 5: Number Self-Administered Funds

Name of Administrator/Insurer*	Number of Pension funds as at...	
	31 December 2017	31 March 2018
Professional Administrators		
1. Capitol Insurance Brokers	1	1
2. Comarton Consultants	29	29
3. Marsh Employee Benefits	44	44
4. Minerva Benefits Consulting	56	56
5. Zimbabwe Insurance Brokers	5	5
Sub-total	135	135
Life Companies		
1. Fidelity Life Assurance Company	1	1
2. First Mutual Life Assurance Life Company	5	5
3. Old Mutual Life Assurance Company	26	25
4. Nyaradzo Life Assurance Company	2	2
5. Zimnat Life Assurance Company	2	2
Sub-total	36	35
Grant Total	171	170

*Not all registered life offices (life assurance companies) are involved in pension administration

3.2 Membership

The total membership for self-administered funds was 119,902 as at 31 March 2018, a 1.06% decline from the 121,170 members as at 31 December 2017. The decline was mainly a result of exits from pension funds, who totalled 3,567 members as at 31 December 2017. The distribution of membership according to class as at 31 December 2017 and 31 March 2018 is detailed in table 6 below.

Table 6: Self-Administered Funds Membership

	Number of members as at...	
Membership Class	31 December 2017	31 March 2018
New Entrants	3,056	1,284
Active Members (Excluding New Entrants)	87,003	91,871
Pensioners	6,941	7,418
Deferred Pensioners	13,393	11,597
Suspended Pensioners	3,456	3,248
Members with Unclaimed Benefits	7,321	4,484
Total Membership	121,170	119,902

3.3 Asset Quality

There was a 4.96% decline in the asset base for self-administered pension funds, from \$1.41 billion reported as at 31 December 2017 to \$1.34 billion as at 31 March 2018. The decrease in the asset base for the sector was mainly due to a reduction in the value of equities investments from \$731.14 million as at 31 December 2017 to \$628.47 million as at 31 March 2018.

Figure 5 below shows the distribution of self-administered funds' assets as at 31 March 2018. See Annexure 6, the Consolidated Statement of Financial Position for more details.

Figure 5: Distribution of Total Self-Administered Fund Assets

Long-term investments, in the form of equities and investment properties totaled \$878.99 million and accounted for a combined 65.44% of the total assets as at the reporting date. The investment in assets with long-term horizons was deemed to be in line with the sector's liabilities' tenor. Only liabilities arising from pending exits, unclaimed benefits, arrear pension benefits, withdrawals, suspended pensioners and service providers were deemed to be short-term in nature, and accounted for 2.41% of self-administered pension funds' liabilities as at 31 March 2018.

There was an increase in the uptake of prescribed assets as at 31 March 2018 with self-administered funds' having \$159.31 million investment in prescribed assets as at 31 March 2018, reflecting an increase of 18.34% from the \$134.62 million as at 31 December 2017. This resulted in the prescribed asset ratio increasing by 231 basis points, from 9.55% as at 31 December 2017 to 11.86% at the end of the period under review.

The sector's contribution arrears increased from \$75.77 million as at 31 December 2017, to \$84.60 million as at 31 March 2018, which accounted for 6.30% of total assets.

As at 31 March 2018 the average capital accumulation per member was \$11,203. This was 3.73% lower than the \$11,637 per member reported as at 31 December 2017.

3.4 Liabilities

The liabilities for self-administered funds were mainly composed of reserves for member accumulations, which were deemed long-term in nature. However, arrear pension benefits amounted to \$4.23 million as at 31 March 2018, decreasing from the \$5.32 million reported as at 31 December 2017.

The unclaimed benefits liability also decreased from \$9.87 million as at 31 December 2017 to \$7.94 million as at 31 March 2018. There is need for trustees and administrators to prioritise efforts to locate the members with unclaimed benefits or remit the assets related to the members to the Guardian Fund at the expiration of the prescribed 5-year period. There is also need to increase member data management in order to avoid the escalation of the number and liability attributable to members with unclaimed benefits.

See Annexure 6 for a detailed breakdown of self-administered funds' liabilities.

3.5 Earnings

Self-administered funds reported a deficit of \$46.78 million for the 3 months ended 31 March 2018. While the sector reported accrued contributions amounting to \$26.77 million and profit from the disposal of investment assets totaling \$12.82 million, the deficit was mainly a result of unrealized losses of \$61.66 million reported for the quarter under review. The sector also reported total expenditure amounting to \$36.37 million, driven by benefits and administrative expenses amounting to \$13.33 million and \$13.04 million respectively. The administrative expenditure translated to expense ratios of 11.31% and 22.09% of total income and total contributions respectively.

4 STAND ALONE PENSION FUNDS

4.1 Overview of Stand Alone Funds Sector

There were 15 stand-alone pension funds as at 31 March 2018. The sector was composed of 11 defined contribution funds and 4 defined benefit schemes.

4.2 Membership

The total membership increased 330,435 members reported as at 31 December 2017 to 337,266 members as at 31 March 2018. The increase in membership was mainly due to new members joining stand-alone funds and the reinstatement of former members. The distribution of membership by class in the sector as at 31 March 2018 is shown in table 7 below.

Table 7: Membership Statistics for Stand-Alone Pension Funds

Membership Category	Number of Member as at	
	31 December 2017	31 March 2018
New entrants	7,086	2,292
Active members	139,788	146,040
Pensioners	23,150	24,672
Deferred Pensioners	105,125	106,589
Suspended Pensioners	13,257	13,742
Unclaimed benefits	42,029	43,931
Totals	330,435	337,266

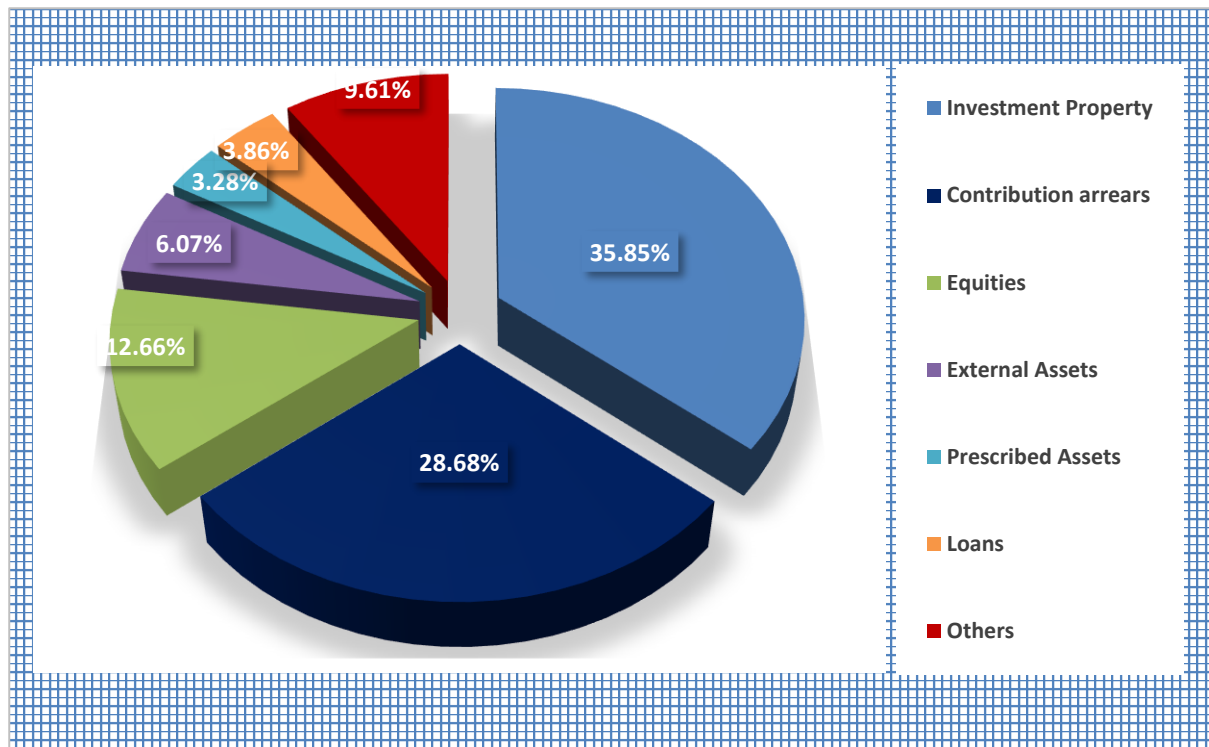

4.3 Asset Base

The total asset base for stand-alone funds as at 31 March 2018 was \$1.72 billion, indicating a 3.97% increase from the \$1.65 billion reported as at 31 December 2017. The increase in the asset base as at 31 March 2018 was mainly due to increases in the values of investment property, loans and money market investments.

The average asset accumulation was \$5,085 per member for the period under review.

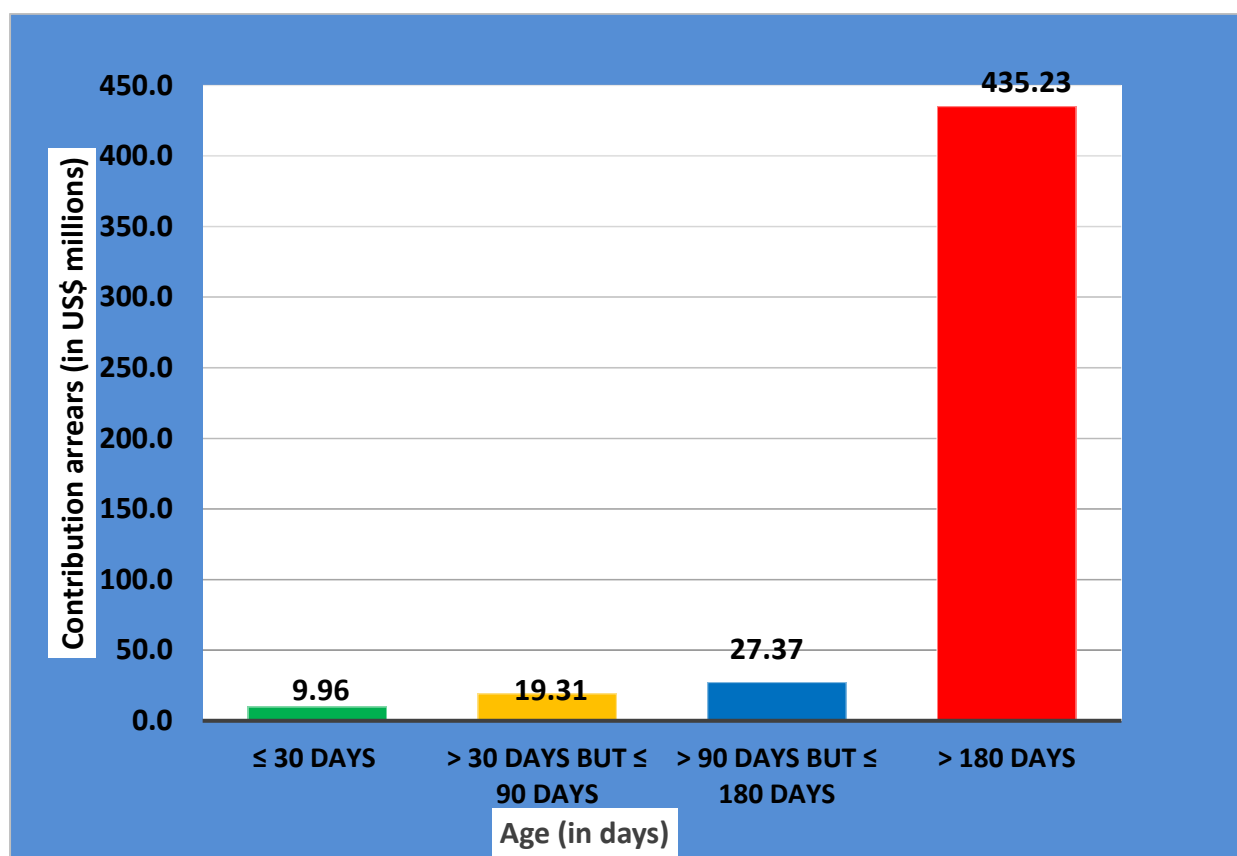

The distribution of assets for Stand Alone pension funds as at 31 March 2018 is illustrated in Figure 6 below. See Annexure 8 for further details.

Figure 6: Distribution of Assets for Stand Alone Funds

The sector reported \$491.86 million contribution arrears (including interest on the same), constituting 28.68% of the total assets as at 31 March 2018. Contribution arrears increased from the \$473.39 million reported as at 31 December 2017. Among the stand-alone pension funds, the contribution arrears were mainly concentrated in three funds. The three pension funds accounted for a combined 75.92% of total contribution arrears for stand-alone funds. The increase in contribution arrears continues to be a concern for the Commission. Of these, 88.49% were aged more than 180 days. Furthermore, stand-alone funds had rental arrears totaling \$42.73 million as at 31 March 2018. The age analysis for contribution arrears, including interest on the same is shown in figure 7 below.

Figure 7 : Contribution arrears age analysis

As at 31 March 2018, stand-alone funds had \$56.27 million invested in prescribed assets, translating to 3.28% of the total assets. This was below the regulatory requirement of 10%. The Commission urges stand-alone funds to comply with prescribed assets regulations or risk facing penal measures.

4.4 Liabilities

Stand-alone funds reported arrear pension benefits of \$75.43 million, a 4.47% decrease from the \$78.96 million reported as at 31 December 2017. The arrear pension benefits for stand-alone funds was mainly attributable to three funds. The three funds had arrear pension benefits totalling \$74.29 million, attributable to 93.26% of the pensions industry's total arrear pension benefits. The arrear three fund's arrear pension benefits were mainly a result of low liquidity emanating from contribution arrears and investments in long-term assets that cannot be readily liquidated to meet pension benefits.

The sector reported unclaimed benefits totaling \$18.41 million as at 31 March 2018. The amount of unclaimed benefits marginally increased from the \$18.15 million reported as at 31 December 2017. The Commission noted that \$11.62 million, accounting for 63.12% of the \$18.41 million unclaimed benefit liabilities pertain to members of one fund. Efforts are being made by the fund to locate the affected members.

See Annexure 8 for a detailed breakdown of Stand Alone pension funds' liabilities.

4.5 Earnings

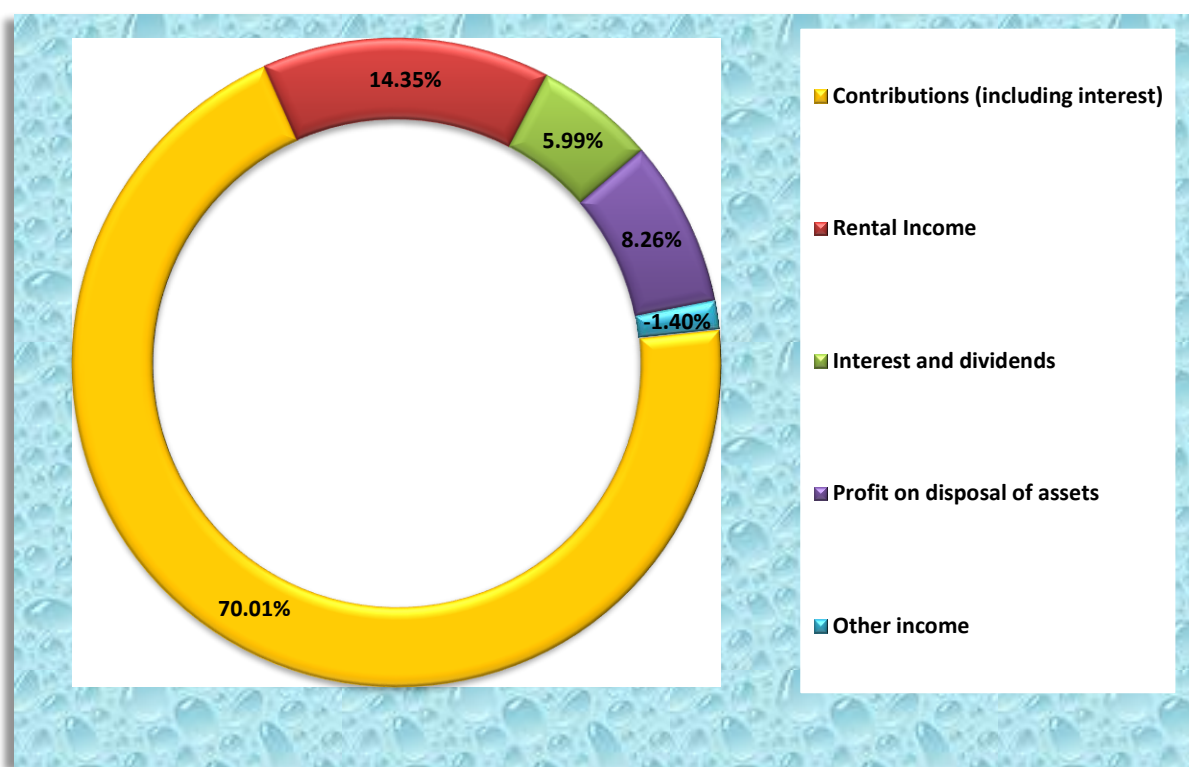

Stand-alone funds accrued total income of \$61.95 million and incurred expenditure totaling \$37.19 million resulting in a surplus of \$24.76 million for the quarter ended 31 March 2018.

Total income for the sector was mainly driven by accrued contribution income and interest on contribution arrears which amounted to \$35.97 million and \$8.73 million respectively, accounting for a combined 72.03% of total income for the quarter. Stand-alone funds also reported rental income totaling \$9.27 million for the quarter ended 31 March 2018, attributable to 14.76% of total income.

Total income for the quarter under review was 28.45% higher than the \$48.23 million reported for the quarter ended 31 March 2017. The relatively higher total income was mainly due to a 20.83% increase in accrued contribution income, from \$29.77 million reported as for the quarter ended 31 March 2017 to \$35.97 million reported for the quarter ended 31 March 2018. There was also an increase in profits from the disposal of investments, from \$98,573 as at 31 March 2017 to \$5.26 million as at 31 March 2018.

The sources of income for stand-alone pension funds for the quarter ended 31 March 2018 were as detailed in Figure 8 below. See Annexure 7 for further details.

Figure 8 : Income Distribution for Stand Alone Funds

The breakdown of the \$37.19 million total expenditure for stand-alone pension funds for the quarter ended 31 March 2018 is shown in Figure 9 below. The detailed Statements of comprehensive Income are shown on annexure 7.

Figure 9 : Expenditure Distribution for Stand-Alone Funds

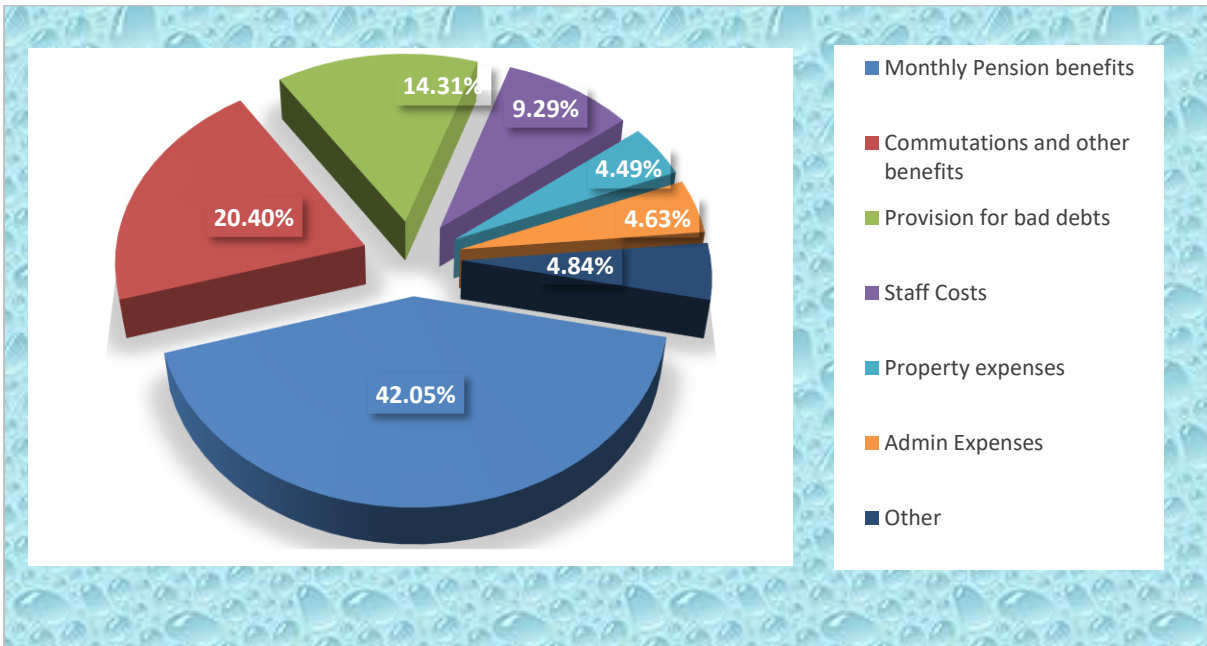

Figure 9 indicates that member benefits amounting to \$23.15 million accounted for 62.45% of total expenditure for stand-alone funds. Of this figure, \$15.64 million was incurred in paying monthly pensioners' benefits. This was in line with the fact that stand-alone funds had a combined 24,672 pensioners on their monthly payrolls as at 31 March 2018.

Staff cost amounting to \$3.48 million accounted for 9.29% of total income and was deemed to be unsustainably high. The high staff costs and other administration expenses for the quarter ended 31 March 2018 resulted in stand-alone pension funds having administrative expenses to contributions and total income ratios of 23.97% and 13.89% respectively.

The high expense ratios are not sustainable in the long-run as they are resulting in fund members losing value on their contributions over time.

The total expenditure for stand-alone pension funds was 9.93% higher than the \$33.83 million reported for the quarter ended 31 March 2017. The comparative increase in total expenditure was a result of an increase in pension benefit payments during the quarter ended 31 March 2018.

5 CONCLUSION

The pensions industry's \$4.16 billion asset base as at 31 March 2018 was plagued by contribution arrears totalling \$618.88 million and high administrative expenses. The arrears and expenses have resulted in some pension funds not meeting the members' legitimate expectations.

Though pension funds play a pivotal role in the sourcing of funds for national development through prescribed assets, insured funds and stand-alone pension funds were below the 10% regulatory prescribed asset threshold.

To address the concerns raised above, the Commission has come up with a raft of proposals in its Pensions Reforms Paper.

6 SECTION D: ANNEXURES

Annexure 1: Consolidated Industry Statement of Comprehensive Income for the 3 months ended 31 March 2018
