ACKNOWLEDGEMENT

The insurance information contained in this report has been extracted from the quarterly unaudited returns submitted to the Commission in line with Section 30 of the Insurance Act (Chapter 24:07). No adjustments have been made to the returns' data except where necessary in consultation with the insurer(s) or reinsurer(s).

EXECUTIVE SUMMARY

During the year under review, the non-life industry recorded growth and resilience despite the challenging environmental pressures. Non-life insurers reported total gross premium written (GPW) amounting to \$236.47 million for the twelve months ended 31 December 2017 compared to \$215.97 million reported during the same period in 2016 resulting in a 9.49% growth.

In addition, sixteen out of twenty insurers were compliant with the minimum capital level of \$2.5 million, whilst four insurers reported capital levels below the required minimum in line with Statutory Instrument 95 of 2017. Accordingly, the Commission shall continue to engage such non-compliant player to ensure parity with the law as well as carrying out capital verification exercises in our various onsite inspections.

Largely buoyed by the bull run in the stock market, total assets for non-life insurers grew from \$197.43 million as at 31 December 2016 to the current \$235.42 million. Insurers are required to abide by our investment guidelines in order to sustain their capacity to liquidate their contractual obligations on time.

The industry average prescribed assets ratio for the non-life insurance companies as at 31 December 2017 was 10.02% which was largely compliant with the minimum requirement of 5%. The Commission has engaged the non-compliant players with a view to enforce consistency with Statutory Instrument 26 of 2016.

For the year ended 31 December 2017, Insurance brokers wrote \$97.2 million in premium income. The business written by insurance brokers was 7.96% higher than the \$90.06 million reported for the year ended 31 December 2016. Insurance brokers recorded \$14.36 million net brokerage commission since 1 January 2017. Compared to the same period in 2016, this was a decrease of 6.44% from \$15.34 million reported in 2016.

The volume of business written by non-life reinsurers grew by 7.86% from US\$99.93 million reported in the comparative period last year to the current US\$107.86 million which has largely

been attributable to improved use of ICT systems in the collection of motor insurance premiums.

Reinsurance brokers reported \$74.31 million in gross premium for the year ended 31 December 2017 reflecting a decrease of 8.44% from the \$81.16 million reported for the year ended 31 December 2016.

Architecture of the Non-Life Insurance Industry

There were five hundred and seventy-six (576) registered entities/persons in the non-life insurance industry as at 31 December 2017. The architecture of the industry is shown in Table 1 below.

Table 1 : Architecture of the Non-Life Insurance Industry

Type of Institution	Number of Registered Entities/Persons				Number of Suspended/ Non-Operating Entities

Total	575	577	577	576	0

*Four reinsurers namely FBC Reinsurance Company, First Mutual Reinsurance Company, Baobab Reinsurance Company and Grand Reinsurance Company are composite reinsurers who also write life business. However, the figures in this report pertain to their non-life business only. One broker downgraded to become a multiple agent.

**Two insurers namely FBC Insurance Company and Alliance Insurance Company are composite insurers, however the figures in this report pertain to their non-life business only.

SECTION A

1. SHORT-TERM (NON-LIFE) INSURANCE COMPANIES

Please note that the analysis of the performance of the non-life insurance sector does not include statistics for companies which were under suspension as at the reporting date. Please refer to Appendix 1A-C for detailed statistics for all the non-life insurers.

1.1. Performance in Terms of Business Written

Total Gross Premium Written (GPW) by non-life insurers amounted to \$236.47 million for the twelve months which ended on 31 December 2017 reflecting a 9.49% increase from \$215.97 million reported for the comparative period in 2016. Figure 1 below shows the trend in volume of the business generated annually by non-life insurers since December 2013.

Figure 1 : Trend in written business since 2013.

1.2. Gross Premium Written by Class of Business

In terms of business distribution, motor and fire insurance remained the key drivers, as the two classes accounted for 63.80% of the total gross premium written during the period under review. Notable health business was written by the insurance players as show in the table below.

Players are encouraged to also take advantage of COMESA yellow card business which poses great opportunities if appropriate market sensitization programmes are scaled up.

Table 2 below shows the distribution of gross premiums written for the twelve months which ended on 31 December 2017 and the comparative period in 2016.

Table 2 : Non-Life Insurers' Gross Premium Written by Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	31-Dec-16	31-Dec-17	
Aviation	2,845,666	2,113,051	-25.74%
Bonds/Guarantee	9,931,501	12,566,157	26.53%
Engineering	10,272,157	10,628,310	3.47%
Farming	1,903,008	3,816,269	100.54%
Fire	47,026,675	47,562,863	1.14%
Hail	3,636,609	7,457,381	105.06%
Health	-	19,696	100.00%
Hire Purchase	1,140,772	3,123,494	173.81%
Marine	5,585,349	5,647,890	1.12%
Miscellaneous Accident	18,166,417	14,981,727	-17.53%
Motor	93,143,960	103,300,734	10.90%
Personal Accident	19,927,550	19,786,251	-0.71%
Personal Liability	2,393,080	5,465,496	128.39%
Total	215,972,744	236,469,319	9.49%

1.3. Capitalization

For the period under review, sixteen out of twenty insurers were compliant with the minimum capital level of \$2.5 million. The reported capital positions were computed without accounting for the dictates of Statutory Instrument 95 of 2017 which deals with non-admissible assets.

Currently, the Commission is in the process of checking compliance of Statutory Instrument 95 of 2017 by regulated entities through physical on-site inspections.

Compliance with minimum capital levels is a solvency indicator for insurers which gives additional cushion to policyholder funds. (See Appendix 1B for the composition of each insurer's asset base). The reported capital positions for non-life insurers are shown in table 3 below.

Table 3 : Reported Capital Positions for Non-Life Insurers

Name of Insurance Company	Reported Capital Position (\$)			
	31-Dec-16	30-Jun-17	30-Sep-17	31-Dec-17
1. Alliance Insurance	5,072,004	4,432,633	5,021,683	6,412,157
2. Allied Insurance	1,671,164	1,804,316	1,897,208	2,044,665
3. C.B.Z Insurance	5,108,606	5,897,032	8,282,086	7,220,301
4. Cell Insurance	4,184,007	5,087,053	5,355,557	5,806,891
5. Champions Insurance	3,102,802	2,908,747	2,980,732	3,322,001
6. Clarion Insurance	1,634,918	2,067,792	2,523,747	1,771,732
7. Credit Insurance	1,206,266	1,716,901	1,899,991	2,913,620
8. Evolution Insurance	6,553,460	6,628,782	4,468,607	4,512,844
9. ECGC	3,364,620	4,335,703	2,889,770	3,021,051
10. FBC Insurance	3,160,996	2,871,557	6,833,876	7,163,586
11. Hamilton Insurance	2,029,696	1,745,763	1,849,167	1,699,295
12. Nicoz Diamond Insurance	12,123,000	13,728,426	16,242,810	15,353,594
13. Old Mutual Insurance	22,676,652	25,985,269	39,533,128	34,070,698
14. Quality Insurance	1,727,000	2,220,943	4,322,158	2,902,158
15. Regal Insurance	3,032,468	3,535,639	2,637,929	2,513,027
16. Safel Insurance	1,673,534	2,137,237	2,600,613	2,872,964
17. Sanctuary Insurance	1,564,233	1,593,188	1,542,122	1,886,708
18. THI Insurance	1,846,570	2,237,207	1,014,125	2,530,808
19. Tristar Insurance	2,294,938	2,109,733	2,057,298	3,135,239
20. Zimnat Lion Insurance	8,158,327	8,674,046	10,616,739	11,565,964

Key:

	The insurer reported a capital position that was above the requirement of \$2.5 million.
	The insurer reported a capital position which was below \$2.5 million.

1.4. Asset Quality

Total assets for non-life insurers grew by 19.24% from \$197.43 million as at 31 December 2016 to the current \$235.42 million. This considerable growth in total assets was mainly due to a bull-run in equity investments, fixed assets revaluations and premium receivables which constituted 16.82%, 15.04% and 19.24% of the total assets respectively.

Premium debtors remain a huge challenge to the insurance players and the Commission continuously encourage the institutions to devise effective credit control mechanisms as well as designing affordable products in order to manage the increasing debtors book.

Figure 2 : Trends in total assets from 31 March 2013 to 31 December 2017

The distribution of assets base for non-life insurers is shown in Figure 3 below.

Figure 3 : Distribution Non-life Insurers' Total Assets as at 31 December 2017

NB: Technical assets refer to reinsurers' share of outstanding claims and deferred acquisition costs.

The industry average prescribed assets ratio as at 31 December 2017 was 10.02% which was compliant with the minimum requirement of 5%, although a total of ten (10) insurers were not compliant with the minimum prescribed assets ratio. Appendix 1C shows other indicators of asset quality.

1.5. Reinsurance

The industry average retention ratio rose from 59.59% as at 31 December 2016 to 60.82% for the twelve months which ended on 31 December 2017 partly demonstrating an improvement in risk appetite among the non-life insurance industry.

The industry is encouraged to pay reinsurance premiums to ensure that they enjoy stable and sustainable growth. As at 31 December 2017, the average reinsurance creditors to reinsurance premium ratio was 26.81%, compared to the same period in 2016 when the ratio was 20.53%.

Quite a number of the players retained significant portions of the business which they wrote as shown in Figure 4 below. This was as a result of the increase in their underwriting capacity and stronger balance sheets.

Figure 4 : Retention Ratios for Non-Life Insurance Companies as at 31 December 2017.

The Commission will continuously enforce payment of such premiums as they have a bearing on the industry's financial soundness and safety. (See Appendix 1C for more indicators).

1.6. Actuarial Matters

The non-life insurance industry reported an increase in total technical liabilities from \$55.38 million as at 31 December 2016 to \$68.03 million as at 31 December 2017. The industry was considered to have adequate liquid assets to match its total technical liabilities as shown by the industry average liquid assets to total technical reserves of 111.35% reported as at 31 December 2017, despite this being a decline from 126.47% reported as at 31 December 2016.

Notwithstanding the industry average liquid assets to reserves ratio recorded, some insurers reported ratios which were significantly below 100%, indicating that the reserves were not

backed by liquid assets. (See Appendix 1C for the performance indicators of insurance companies in terms of Actuarial matters).

1.7. Earnings

Total profit after tax reported for non-life insurers for the 12 months ended 31 December 2017 was \$33.63 million reflecting a remarkable increase of 250.97% from \$13.40 million reported in the comparative period in 2016. The key driver was increase in Gross Premium Written (GPW) and investment income which grew by 9.49% and 47.60% respectively.

The industry average return on assets (ROA) and return on equity (ROE) improved sharply from 7.06% and 15.35% in the comparative period last year to 15.38% and 30.84% for the period under review. (For more performance indicators on profitability see Appendix 1C).

1.8. Liquidity

Total cash and near cash assets in the form of money market and short term prescribed assets decreased from \$70.03 million as at 31 December 2016 to \$65.48 million as at 31 December 2017. This is evidenced by a marginal decrease in the acid test ratio from 80.37% to 65.67% for the twelve months ended 31 December 2017. Such a movement was mainly caused by significant reduction in money market investments from US\$30.70 million as at 31 December 2016 to US\$20.56 million as at 31 December 2017. The acid test ratio for individual insurers as at 31 December 2017 ranged from 0.66% to 626.32% as shown in Appendix 1C.

1.9. Market Share for Non-life Insurers

Old Mutual Insurance Company, Nicoz Diamond Insurance Company and Alliance Insurance Company were the market leaders in terms of GPW with a combined market share of 42.77%. The market players are encouraged to ensure that the unserved insurance markets are targeted and products that suits their segmental variables are designed. Figure 5 below shows market share in terms of GPW and NPW for the insurers.

Figure 5 : Market Share for Insurers in Terms of GPW and NPW as at 31 December 2017

In terms of total assets, Old Mutual Insurance Company, Nicos Diamond Insurance, Alliance Insurance Company and Zimnat Lion Insurance were the market leaders during the period under review, with a combined market share of 54.19% as shown in Figure 6 below.

Figure 6 : Market Share for Insurers in Terms of Total Assets as at 31 December 2017

These market players continue to dominant the industry in terms of business written and assets, they were also the dominant leaders in 2016.

SECTION B

2. REINSURANCE COMPANIES

Please note that the figures for PTA Reinsurance Company (Zep-Re) contained in this report are only for the institution's Regional Hub Office located in Zimbabwe and not for the company as a whole. The Regional Hub Office writes business in Zimbabwe, Swaziland, Botswana, Namibia, and South Africa among others. PTA Reinsurance Company was formed under the auspices of COMESA and writes business in all COMESA member states. The Regional Hub Office is supported by the balance sheet of Zep-Re as a whole.

Detailed statistics for all reinsurers are shown in Appendix 2A-C.

2.1. Performance in Terms of Business Written

The volume of business written by non-life reinsurers rose marginally by 7.86% from US\$99.93 million as at 31 December 2016 to US\$107.86 million as at 31 December 2017. The increase in GPW for the comparative period was attributed to significant uptake of health and hire purchase insurance policies that rose by 111.48% and 147.85% in the period under review.

Though fire and motor insurance business marginally declined by 4.25% and 4.36% respectively, they remained dominant classes of insurance business as they accounted for over 45% of the total gross premium for the twelve months ended 31 December 2017. Figure 7 below shows the trend in volume of business written by non-life reinsurers for the twelve months ended 31 December 2017 of each year from 2013 to 2017.

Figure 7 : Trend in Business Written Since 2013 to 2017

The Commission encourages the industry to engage product in innovation not only to manage affordability issues but also to address concentration risk related to overreliance on a few product lines especially motor insurance.

The Commission has further tightened externalisation processes by primary insurers through maximum use of local reinsurers. Table 4 below shows the growth of business during the period under review in terms of business classes.

Table 4 : Reinsurers' Gross Premium Written By Class of Business

Class of Business	Gross Premium Written (\$)		Percentage Change
	31-Dec-16	31-Dec-17	
Aviation	3,385,611	3,059,677	-9.63%
Bonds/Guarantee	699,577	701,580	0.29%
Engineering	6,083,699	5,110,696	-15.99%
Farming	9,849,677	12,535,534	27.27%
Fire	41,572,801	39,804,103	-4.25%
Hail	335,700	140,080	-58.27%
Health	735,860	1,570,879	113.48%
Hire Purchase	103,562	256,674	147.85%
Marine	3,340,864	2,735,670	-18.11%
Miscellaneous Accident	11,203,091	18,670,702	66.66%
Motor	15,676,216	14,992,981	-4.36%
Personal Accident	4,143,818	5,330,390	28.63%
Personal Liability	2,801,630	2,947,849	5.22%
Total	99,932,106	107,856,815	7.93%

Figure 8 below shows GPW distribution by business class.

Figure 8 : Distribution of Reinsurers' GPW by Business Class

2.2. Capitalization

As at 31 December 2017, all the registered non-life reinsurers except for Colonnade Reinsurance Company and Tropical Reinsurance Company reported capital positions which were compliant with the minimum capital requirement of \$5 million. The minimum capital required shown in the table below were not stress tested against the dictates of Statutory Instrument (SI) 95 of 2017 which discounts non-permissible assets.

The preliminary results of the capital verification exercise which the Commission is undertaking appear to suggest that a number of non-life reinsurers may not be fully compliant with SI 95 of 2017 in terms of minimum capital required for regulatory and compliance purposes. Such players are required to proactively engage the Commission with relevant compliancy plans in line with the law. Table 5 below shows the capital positions for non-life reinsurers.

Table 5 : Reported Capital Positions for Non-Life Reinsurers

Insurance Company	Reported Capital Position (\$)			
	31-Dec-16	31 Jun 2017	30-Sep-17	31-Dec-17
1. Baobab Re.	33,016,919	36,498,233	37,375,064	37,217,605
2. Colonnade Re.	1,176,658	694,191	604,337	635,489
3. FBC Re.	12,755,334	13,443,336	14,141,340	13,564,028
4. FMRE	9,194,578	5,927,618	8,852,503	8,108,635
5. Grand Re.	5,320,775	6,865,005	7,616,393	9,290,172
6. Tropical Re.	4,634,960	3,123,610	3,321,310	4,773,920
7. ZB Re.	10,036,060	10,316,376	12,100,686	10,221,561
8. PTA Re.	2,947,813	6,571,541	5,825,917	5,890,118

The industry average solvency margin for reinsurers was 125.41% which was above the minimum regulatory requirement of 25%. The solvency margin for reinsurers as at 31 December 2017 ranged from 42.51% to 493.98% as shown in appendix 2C. This demonstrates that as at 31 December 2017, the industry's assets at fair value, exceeded liabilities and other comparable commitments. This marginal movement is an indication that players are trying to re-align their balance sheets in line with Statutory Instrument 95 of 2017.

2.3. Asset Quality

Total assets for non-life reinsurers amounted to \$140.83 million as at 31 December 2017, reflecting a 6.01% increase from \$132.85 million for the comparative period in 2016.

The growth in total assets was mainly due to increased investment in the money markets, equities, investments in associated companies, premium debtors and technical assets. Figure 9 below shows the trend in total assets since 2013.

Figure 9 : Trend in Total Assets

Reinsurance companies are required to re-align the architecture of their balance sheets in line with Statutory Instrument 95 of 2017. Figure 10 below shows a breakdown of total assets as at 31 December 2017.

Figure 10 : Breakdown of Non-life Reinsurers’ Total Assets

Only one non-life reinsurer was not compliant with the minimum prescribed asset ratio of 5% as at 31 December 2017. The reinsurer had 2.18% prescribed asset ratio. The non-life reinsurance industry average prescribed asset ratio as at 31 December 2017 was 11.14%, the average percentage was marginally lower than the 12.26% as at 31 December 2016.

2.4. Retrocession

The industry average retention ratio was 62.83% for the year ended 31 December 2017 compared to 68.02% that was reported for the year ended 31 December 2016. Individual reinsurers reported retention ratios ranging from 52.59% to 82.11% for the year to 31 December 2017 as shown in Figure 11 below.

Figure 11 : Retention Ratios for Reinsurers

The non-life reinsurers were fairly up to date with their retrocession premium remittance though the performance indicator, which is the average reinsurance creditors to reinsurance premiums ratio marginally rose by 1% in the period under. The same ratio ranged from nil to 304.42% for the period under review for the individual non-life reinsurers.

2.5. Actuarial Matters

As at 31 December 2017, non-life reinsurers' total technical liabilities amounted to \$28.59 million, reflecting a 5.74% decrease from US\$30.33 million reported as at 31 December 2016. The largest proportion of total reserves was attributable to unearned premium reserve (UPR) which amounted to 11.88 million and accounted for 41.55% of the total technical liabilities.

The Commission requires players to employ actuarial expertise because financial soundness of an insurer and policyholders' security is also dependent on adequate valuation of the insurance technical liabilities. The non-life reinsurance sector's average total liquid investments to reserves ratio was 137.43% as at 31 December 2017.

This implies that the sector was largely adequately resourced to match their technical liabilities as at that date. Appendix 2C shows the ratio of liquid assets to technical liabilities for individual reinsurers which ranged from 20.96% to 234.69%.

2.6. Earnings

Total profit after tax for non-life reinsurers increased marginally from US\$8.63 million for the year ended 31 December 2016 to US\$9.46 million for the year ended 31 December 2017. The increase in total profit after was mainly attributable to associated increase in investments income for the period under review.

As a result of the growth in profit after tax, the industry average return on equity (ROE) and return on assets (ROA) improved from 10.77% and 6.46% for the year ended 31 December 2016 to 11.26% and 6.83% respectively, for the year under review.

The industry average loss ratio was 47.05% for the twelve months ended 31 December 2017 which was a significant increase from the 40.78% reported for the comparative period in 2016. There was a decrease in the net expenses ratio from 22.40% recorded for the previous year to 22.23% for the year ended 31 December 2017. This resulted in the combined ratio improving from 92.67% for the year ended 31 December 2016 to 98.10% for the year under review.

The Commission examines such movements in loss ratios with a cautiously to manage insurance fraud cases which have been increasing recently.

2.7. Liquidity

The liquid assets held by non-life reinsurers decreased from US\$47.32 million as at 31 December 2016 to US\$39.75 million as at 31 December 2017. The decrease in liquid assets could be attributable efforts by players to manage perceived inflationary pressure in the year.

The average acid test ratio for individual non-life reinsurers as at 31 December 2017 was 92.42%. Given the short-term nature of the insurance business, this indicated satisfactory asset positions to meet obligations to policyholders as they were incurred. The acid test ratios for non-life reinsurers was as shown on Appendix 2C under liquidity.

2.8. Market Share for Reinsurers

As shown in Figure 12 below, FBC Re, FM Re, Tropical Re and ZB Re reportedly controlled over 60% of net premiums for the period under review.

Figure 12 : Market Share for Non-life Reinsurers in terms of GPW and NPW

In terms of total assets, Baobab Reinsurance Company, FBC Reinsurance Company, and FMRE were the market leaders, with a combined market share of 60.81%. Figure 13 below shows the market shares of each reinsurer (See Figure 13, below).

Figure 13 : Market Share for Non-life Reinsurers in terms of Total Assets

SECTION C

3. INSURANCE BROKERS

4.1. Business Written

For the year ended 31 December 2017, Insurance brokers wrote \$97.2 million in premium income. The business written by insurance brokers was 7.96% higher than the \$90.06 million reported for the year ended 31 December 2016. Insurance brokers recorded \$14.36 million net brokerage commission since 1 January 2017. Compared to the same period in 2016, this was a decrease of 6.44% from \$15.34 million reported in 2016.

The total commission translated to an industry average commission rate of 14.77% for the year ended 31 December 2017, this is lower than the 17.04% reported for the same period in 2016. Table 6 below shows key indicators for the business written by the insurance brokers (in US\$).

Table 6 : Indicators of Business Written for Insurance Brokers

Indicator	31 Dec 2016 (\$)	31 Dec 2017 (\$)	% Change
Premium Written	90,060,234	97,224,926	7.96%
Brokerage Commission	15,824,473	17,861,606	12.87%

30. WFDR Risk Services	367,083	485,758	284,215	279,358
31. Zimbabwe Ins. Brokers	200,071	196,790	243,290	114,994

*Entwide Insurance Brokers started business operations on 31 March 2017 therefore it was yet to submit returns as at that date.

Key:

	The insurer reported a capital position that was above the requirement of \$100,000.
	The insurer reported a capital position that was below the requirement of \$100,000.

4.3. Asset Quality

The asset base for insurance brokers increased to \$28.25 million as at 31 December 2017 from the \$26.84 reported at 31 December 2016. This was caused by increases in cash and cash equivalence by 71% from \$4.49 million reported as at 31 December 2016 to the current \$7.71 million. A further increase of 33% was recorded in premium receivables as at 31 December 2017 in comparison to the same period in 2016.

Figure 14 : Insurance Brokers' breakdown of Total Assets

As shown above, the asset base for insurance brokers remained skewed towards property and equipment, as well as cash and cash equivalents.

4.4. Earnings

Insurance brokers reported a 53.43% decrease in total profit after tax from \$1.02 million for the year ended 31 December 2016 to \$0.47 million for the current period. This was due to a sharp increase in commissions paid under the current period. The industry average return on equity (ROE) and return on assets (ROA) for the reporting period were 4.52% and 1.68% respectively.

4.5. Market Share for Insurance Brokers

For the year ended 31 December 2017, Minerva Risk Solutions, Marsh Insurance Brokers Zimbabwe and HRIB maintained their market dominance throughout the year in terms of both business written as well as brokerage income. Figure 15 below shows the market share for insurance brokers in terms of net brokerage commission and premium written.

Figure 15 : Market Share in Terms of Net Brokerage Commission and Gross Premium

Written

Figure 16 : Market Share for Insurance Brokers in Terms of Total Assets

In terms of total assets, Minerva Risk Solutions, Progressive Insurance Brokers, Safari Insurance Brokers and Marsh Insurance Brokers were the market leaders as shown in Figure 16 above.

SECTION D

5. REINSURANCE BROKERS

5.1. Business Written

Reinsurance brokers reported \$74.31 million in gross premium for the year ended 31 December 2017 reflecting a decrease of 8.44% from the \$81.16 million reported for the year ended 31 December 2016. The industry average commission ratio for reinsurance brokers was 4.32% for the year ended 31 December 2017, a slight increase from 4.17% reported for the same period in 2016.

The table below are key indicators of business written by reinsurance brokers (in US\$).

Table 8 : Indicators of Business Written for Reinsurance Brokers

Indicator	31-Dec-16	31-Dec-17	% Change
Premium Written	81,156,272	74,309,914	-8.44%
Brokerage Commission	17,887,712	16,615,068	-7.11%
Premium Written Less Commission	63,268,559	57,694,846	-8.81%
Commission Paid	14,501,436	13,408,231	-7.54%
Net Brokerage Commission	3,386,276	3,206,837	-5.30%
Other Income	75,450	74,511	-1.24%
Operating Expenses	2,455,222	2,492,143	1.50%
Profit Before Tax	1,006,504	789,205	-21.59%
Taxation	299,186	245,051	-18.09%
Profit After Tax	707,318	544,154	-23.07%

5.2. Capitalisation

All the reinsurance brokers reported capital positions which were above \$100,000 as at 31 December 2017. Table 9 below shows the capital positions reported by all reinsurance brokers:

Table 9 : Capital Levels for Reinsurance Brokers

Reinsurance Broker	31-Mar-17 (\$)	30-Jun-17 (\$)	30-Sep-17 (\$)	31-Dec-17 (\$)
1.Afro-Asian Re. Brokers	125,579	125,877	110,044	106,312
2.Classic Re. Brokers	115,732	115,282	114,777	114,599
3.Marsh Ins. Brokers	141,864	155,895	132,751	105,472
4.Minerva Re (Pvt) Ltd	1,825,379	1,560,987	2,794,987	2,680,412
5.Pan African Re	787,551	318,315	310,092	422,716
6.Re. Brokers International	177,375	113,404	198,572	177,044

5.3. Asset Quality

Reinsurance brokers reported total assets amounting to \$26.01 million as at 31 December 2017, reflecting a 22% increase from \$21.31 million reported for the same period last year. This increase was mainly attributed to increases in premium receivables, debtors and cash and cash equivalents by 8.2%, 71.3% and 34.2% respectively when compared to the same period in 2016.

The asset distribution for reinsurance brokers included cash and cash equivalents, land and buildings and other assets which were evenly distributed though the above assets rose significantly over the period under review.

5.4. Earnings for Reinsurance Brokers

Total profit after tax for reinsurance brokers decreased by 23.07% from \$0.71 million for the year ended 31 December 2016 to \$0.54 million for the year ended 31 December 2017. This decrease in profit after tax was a result of a 8.44% decrease in premium written and a 5.30% decrease in net brokerage commission for the year ended 31 December 2017. The slowdown in growth witnessed in profit after tax was also confirmed by the industry average return on equity (ROE) which fell from 19.98% as at 31 December 2016 to 15.1%, while return on assets (ROA) eased from 3.32% to 2.09 in the current period.

5.5. Market Share for Reinsurance Brokers

Minerva Re (Private) Limited remained dominant throughout the year in terms of business written, net brokerage commission and total assets for the reinsurance broking market. The market share for all the reinsurance brokers for the period under review is as shown in Table 10 below.

Table 10 : Market Share for Reinsurance Brokers

Name of Reinsurance Broker	Net Brokerage Commission	Premium Written	Total Assets
1.Minerva Re (Private) Limited	69.99%	66.14%	73.52%
2.Pan African Reinsurance Brokers	13.62%	16.75%	7.76%
3.Marsh	13.57%	14.92%	15.12%
4. Afro-Asian Reinsurance Brokers	2.53%	1.91%	2.25%
5.Reinsurance Brokers International	0.29%	0.28%	0.90%
6.Classic Reinsurance Brokers*	-	-	0.44%
Total	100%	100%	100%

**The reinsurance broker did not write any business during the period under review.*

SECTION E

6. CONCLUSION

6.1. Conclusion

The insurance players have been continuously encouraged to ensure full compliance with regulatory requirements to avoid penalties and fines. In some cases, some regulated entities have been giving loss assessing and adjusting business to external companies in violation of the resident regulatory laws which says they must first exhaust the local loss insurance market. The Commission have intensified inspections on such areas.

Despite environmental challenges, the report shows that the industry is resilient and primed for sustainable growth. Further opportunities are envisaged in line with various initiatives and interventions as the Government of Zimbabwe makes more effort in enhancing the business environment. Industry players are also encouraged to be highly innovative in terms of both product offerings as well as business models.

The Commission need not to overemphasize the need to also take advantage of technological advancement which in some cases offer business opportunities especially for those entities that are ready to change and adapt in line with the everchanging and evolving business environment.
