Insurance and Pensions Commission

The Commission supervises and regulates the operations of life and non-life insurance companies, mutual societies, funeral assurance companies and insurance brokers. It issues licenses to insurance agents, general agents, underwriters, brokers, loss adjusters. It has also the authority to suspend or revoke such licenses.

a) IPEC Mission Statement

To regulate and supervise the Insurance and Pension industry so as to protect the interests of policy holders and pension scheme members to facilitate industry growth.

b) IPEC Vision

A vibrant Insurance and Pension Industry contributing towards a safe and stable financial system

c) IPEC Core Values

▪ ***Integrity***

We are fair, ethical and honest in our dealings with all our stakeholders. In doing so, we apply agreed policies equally to all, maintain the highest of personal, professional and ethical conduct.

▪ ***Fairness***

We shall apply rules, regulations and procedures equally without fear and favour.

▪ ***Transparency and accountability***

We disclose full information, on time to relevant stakeholders where applicable. We take full responsibility and are answerable for our decisions and actions.

▪ ***Accessibility***

We endeavour to deliver justice to all using different methods and strategies.

▪ ***Responsive***

We timely, efficiently and effectively attend to the needs of our clients and stakeholders.

▪ ***Empathy***

In serving our clients and stakeholders, we will put ourselves in their circumstances, so as to appreciate their requirements.

▪ ***Confidentiality***

We shall handle our clients and their information in confidence.

▪ ***Discipline***

We shall act in accordance with our code of conduct.

▪ ***Equal opportunity employer***

We do not discriminate potential employees on the basis of any ism.

▪ ***Professionalism***

In undertaking our jobs, we are guided by the tenets of our professions

H1	Half Year
Var	Variance

Please Note

All Monetary Figures are in USD and in Thousands (000) except stated.

Economic Overview

- 1.1 Month-on-month inflation slowed down to -0.24% in June 2017 from 0.03% in May 2017. The decline was driven by decreases in both food and non-food inflation.
- 1.2 Foreign investor participation, however, continued to decline, registering a net outflow of US\$4.43 million in June 2017. (Source RBZ)
- 1.3 The economy remains on track to achieve the set growth target of 1.7 percent, buttressed by a bumper harvest for the 2016/2017 season which ensures food security in the coming year. Agriculture being the main stay of the economy, the bumper harvest will increase activity in the food and other processing industries downstream further strengthening economic growth. Year on year inflation at the end of June stood at 0.31 percent, the first drop since the upward trend which started in February 2017. (Source World Bank Country review 21 June 2017)

Executive Summary

- 1.1 The Insurance sector remained safe and sound and continued to play a significant role in the economy.
- 1.2 The sector recorded improvements in key financial indicators on the back of a number of measures instituted by the Insurance and Pensions Commission.
- 1.3 All operating life insurance and life reinsurance institutions were in compliance with the prescribed minimum capital requirements.
- 1.4 The life assurance industry was made up of 1542 agents, 11 direct life companies and 4 composite reinsurance companies as at 30 June 2017.
- 1.5 The sector recorded an aggregate net premiums of \$174 million compared to \$177 million recorded in the same period ended 30 June 2016.
- 1.6 The life insurance sector registered a 28% growth in total assets over the year from \$1.49 billion as at 30 June 2016 to \$1.91 billion as at 30 June 2017. This was attributable to increased uptake of equities and new capital injection by some companies.
- 1.7 Life Insurance institutions maintained high liquidity buffers during the quarter partly reflecting a cautious approach in meeting claims. The average prudential liquidity ratio was 342% as at 30 June 2017, against a prescribed one of above 100%.
- 1.8 Total costs grew by 8% to the current \$152 million due to increased operating expenses and commissions. Resultantly, the technical profit fell by 9% from \$37 million as at 30 June 2016 to the current \$33 million.
- 1.9 For the quarter under review, the industry was compliant in terms of the prescribed asset ratio at 15% from 11% as at 30 June 2016 reflecting a 27% growth in prescribed asset uptake.
- 1.10 For a summarised key financial indicators and trends, see table 1 below:

Table 1: Financial Summary of the Life Assurance industry – 30 June 2017

PART A

LIFE ASSURANCE

1. Architecture of the Life Insurance Sector

As at 30 June 2017, there were 11 registered primary insurers and 5 composite reinsurers under the supervision of the Insurance and Pensions Commission (IPEC). The numbers of licensed institutions are expected to increase as there are a number of applications received for micro insurance.

1.1. Curatorship/Liquidation

At the beginning of the financial year, only one long-term insurer (Altfin Life Assurance) was placed under liquidation and the position remains the same as at 30 June 2017. The long-term insurer is still under liquidation. The liquidation and the statutory management of the respective long-term insurer are still ongoing.

1.2. Life Assurance Agencies

All insurance agents employed by a company to be registered in terms of the Insurance Act [Chapter: 24:07]. As at 30 June 2017, life companies had 1542 agencies as shown in table 3, below:

Figure 1: Life insurers Agency statistics as at 30 June 2017

1.3. Business Composition by Company for the quarter ended 30 June 2017

Due to the premium affordability constraints and exclusion of the ever-growing informal sector during the current review period, recurring business contributed 81% of total business whilst the balance of 19% was new business. Therefore, the Commission continues to encourage innovation by sector players in line with the micro insurance strategy (See Figure 2, below).

Figure 2: Business Composition by Company

1.4. Business Composition by Class of product

For the period under review, fund business, funeral policies and group life assurance products contributed 88% of gross written premiums at 35%, 41% and 12% respectively.

Figure 3: Business composition by product line – 30 June 2017

From the figure above, there is an overreliance on fewer income streams. The Commission continues to encourage players to diversify their product menu. Innovation in both product and distribution channels is highly encouraged and IPEC is prepared to support such developments. (See Figure 3 above and Annexure 3, below)

1.5. Premium Income Distribution

For the period ending 30 June 2017, life companies wrote USD171 million in net premiums reflecting a 2% decrease from USD173 million realized in the quarter ending 30 June 2016.

Table 2: Net Written Premium (NWP) Distribution by Company as at 30 June 2017

	NPW (USD 000)		
Name Of Company	Net Premium Written (NPW)		Growth
	Jun-16	Jun-17	(%)
CBZ Life	4,493	4,537	1%
Econet Life	2,363	4,053	72%
Evolution Health & Life	305	313	3%
Fidelity Life	7,658	4,528	-41%
First Mutual Life	18,182	16,512	-9%
Getsure Life	414	778	88%
Heritage Life	1,153	778	-33%
Nyaradzo Life	39,492	44,401	12%
Old Mutual Life	86,120	79,753	-7%
ZB Life	4,672	5,193	11%
Zimnat Life	8,479	9,867	16%
Total	173,331	170,713	-2%

1.6. Claims Age Analysis

Claims age statistics showed that some players reported claims in excess of 121 days whilst the majority had outstanding claims aged in excess of the 30 day period. The Commission continuously encourages players to pay legitimate claims as it is a serious offence.

Figure 4: Claims Aged Analysis as at 31 March 2017

1.7. Earnings

For the quarter ended 30 June 2017, the industry realised an 87% combined ratio compared to 79% for the same period in 2016. In the light of a challenging investment climate, the Commission

encourages prudent cost cutting measures (effective cost rationalization measures) on the part of players to safeguard sustainability of the pools together with the profitability of the business.

Table 3: Combined ratios for Life Insurers as at 30 June 2017

Company	Total Net Claims	Management and Admin Expenses	Commissions	Total Costs	Underwriting Profit and Loss	Expense Ratio	claims ratio	Combined ratio	Net Premiums
CBZ Life	1,655	1,473	552	3,680	1084	45%	36%	81%	4,537
Econet Life	2,393	1,397	0	3,790	365	34%	59%	94%	4,053
Evolution Life	40	243	62	345	-18	97%	13%	110%	313
Fidelity Life	1,949	2,418	267	4,634	-105	59%	43%	102%	4,528
First Mutual	7,100	5,157	817	13,074	3438	36%	43%	79%	16,512
Getsure Life	74	239	116	429	587	46%	10%	55%	778
Heritage Life	99	391	99	589	188	63%	13%	76%	778
Nyaradzo Life	22,563	17,159	3676	43,398	11502	47%	51%	98%	44,401
Old Mutual Life	57,774	8,559	907	67,240	12514	12%	72%	84%	79,753
ZB Life	2,171	1,792	791	4,754	422	50%	42%	92%	5,193
Zimnat Life	3,039	2,728	1166	6,933	2933	39%	31%	70%	9,867
Totals	98,857	41,556	8,453	148,866	32,910	29%	58%	87%	170,713

1.8. Asset Quality

1.8.1. Life Assurance assets composition

Equities and properties constitute 63% of the life industry total assets despite a decrease by 9% in the value of properties from USD545 million in 2016 to USD493 million in the current quarter. Players are encouraged to be prudent in their asset spread strategies in order to manage the investment risk. The industry should ensure compliance with investment guidelines.

Table 4: Life Assurance assets composition as at 30 June 2017

Assets	2016 Q2	2017 Q2	% Growth Rate
Property	545,102	493,374	-9%
Equities	346,873	690,861	99%
Money Markets	198,920	181,368	-9%
Cash	15,384	51,676	236%
Other Investments	176,563	177,810	1%
Prescribed Assets	169,654	273,801	61%
Total Assets	1,452,496	1,868,890	29%

*Please note from the table above, “other investments” comprises of Plant and Equipment, receivables and unquoted shares.

1.8.2. Growth in Industry Asset Values

Total assets as at 30 June 2017 were USD1.87 billion compared to USD1.45 billion for the same period in 2016. This gave a growth to 29% in the industry's combined asset base which was due to the current rally on the fixed property and equities as shown in figure 5 below:

Figure 5: Industry Analysis as at 30 June 2017

1.8.3. Capital Adequacy

As at 30 June 2017, all operating life assurance companies were compliant with the prescribed minimum capital requirement of USD2 million. The majority of life assurers are geared towards the proposed new capital requirement in the Statutory Instrument 95 of 2017 which became effective on the 25th August 2017. (See table 5 below and annexure 5 below).

Table 5: Industry Analysis as at 30 June 2017

Assets	2016 Q2	2017 Q2	Growth Rate
Current Assets	314,231	338,814	8%
Current Liabilities	119,491	91,273	-24%
Total Assets	1,452,496	1,868,599	29%
Total Liabilities	1,238,922	1,550,581	25%
Capital (Net Assets)	213,574	318,018	49%
Capital to Liability Ratio	17%	21%	3%
Liquidity Ratio	263%	371%	108%

1.8.4. Prescribed asset status

For the current reporting period, 8 players are fully compliant with the prescribed minimum prescribed ratio of 7.5% with the exception of Econet Life, Evolution Health and Life, Heritage Life, and Zimnat Life. The Commission will not hesitate to take regulatory action against non-compliant players. (See table 6 below)

Table 6: Life Insurers Prescribed Asset Ratio Status as at 30 June 2017

Insurer	Prescribed asset	Total assets	Prescribed	Amount required	Variance in
	Investments		asset ratio	to be compliant	compliance%
CBZ Life	2,839.00	20,101.00	14.12%	1,507.58	6.6%
Econet Life	631.00	10,694.00	5.90%	802.05	-1.6%

Total	273,801.00	1,868,890.00	14.65%	140,166.75	7.2%

PART B

LIFE REINSURANCE BUSINESS

2. Number of Operational Institutions

As at 30 June 2017, there were five (5) life reinsurers namely Baobab Re, Grand Re, FBC Re, Zep Re and FM Re. These reinsurers are composite reinsurers writing both short and long term business.

2.1. Reassurance Business Written

For the quarter under review, reinsurers wrote business amounting to USD3 million in net premiums compared to USD3.8 million in the same period for 2016. This translated to a negative growth of 21% despite Grand Re and Zep Re coming on board.

Table 7: Market Analysis by Net Premiums for the quarter ended 30 June 2017

	Jun-16	Jun-17	Growth
Baobab Re	1,939	1,356	-30%
FBC Re	229	221	-3%
FM Re	1,593	748	-53%
Grand Re	-	85	0%
Zep Re	-	545	0%
Total	3,761	2,955	-21%

*From the table above, Baobab Re and FML Re controlled 71.2% of the total premium income for the period under review.

2.2. Cost Drivers

Total costs for reinsurers reduced by 14.7% from USD3.4 million in June 2016 to the current USD2.9 million. This was mainly due to a 31% reduction in claims from the previous reported figure (See Table 8, below).

Table 8: Cost Drivers for the quarter ended 30 June 2017

Company	Total Net Claims	Management and Admin Expenses	Commissions	Total Costs	Underwriting Profit and Loss	Expense Ratio	claims ratio	Combined ratio
Baobab Re	482	368	451	1,301	55	60%	36%	96%
FBC Re	217	-	107	324	110	48%	98%	147%
FM Re	315	274	153	742	6	57%	42%	99%
Grand Re	133	-	16	149	-114	19%	156%	175%

Totals	1,260	659	970	2,889	365	55%	43%	98%

2.3. Capitalization and Solvency Indicators

As at 30 June 2017, all composite life reinsurers were fully capitalized in terms of statutory instrument 21 of 2013, however these players are working towards compliance with the new statutory instrument 95 of 2017. Players reported a current ratio of 154% which is a decrease from 200% the previous year and a capital to liability ratio of 158%, which is an increase from 123%. (See table 9, below)

Table 9: Capitalisation, Solvency and Liquidity Indicators for the Life Reinsurers as at 30 June 2017

2.4. Asset Quality

Due to a current improvement in performance of the stock and property markets, total assets for the life re-assurers grew by 6% from USD35 million at 30 June 2016 to USD37 million. This is likely to continue for some time as investors seek to hedge against currency risk. (See Figure 6 and annexure 6 below)

Figure 6: Life Reassurers Total Assets as at 30 June 2017

**other investments include plant and equipment, receivables and unquoted shares.*

2.5. Compliance in Prescribed Assets

Grand Re and Zep Re were not fully compliant with the prescribed assets requirement. Baobab Re, FBC Re, FM Re, Zep Re and Grand Re complied with prescribed asset ratios of 8.15%, 9.46%, 14.98%, 0% and 0% respectively. (See figure 7 and annexure 2 below)

Figure 7: Variance in compliance in prescribed assets

CONCLUSION

The Commission encourages players to be compliant with the prescribed asset and all regulatory requirements. The insurers are also encouraged to invest prudently in the wake of risks confronting the market. There are ten major risks confronting the industry namely liquidity risk, underwriting risk, market risk, operational risk, compliance risk, legal risk, corporate governance risk, claims risk, reinsurance risk and affiliated investment & venture risk. Insurance companies are therefore encouraged to take proactive measures to mitigate against such risks.

DISCLAIMER

This report, including any enclosures and attachments, has been prepared by the Insurance and Pensions Commission solely for informative purposes to the insurance industry stakeholders, and may not be reproduced, redistributed, communicated to a third party or relied upon by any other person or for any other purpose without the Commission's prior written consent. The Commission does not accept any liability if this report is used for any other purpose other than for the abovementioned intended purpose.
