

Insurance and Pensions Commission (IPEC)

Pensions Report

For the Quarter Ended

30 June 2018

Disclaimer

This report does not cover the public-sector pension scheme, National Social Security Authority (NSSA). The report is based on unaudited financial statements of insured, stand-alone self-administered funds as well as self-administered funds under insurers and professional fund administrators. This report, including any enclosures and attachments, has been prepared by the Insurance and Pensions Commission solely for informative purposes to the pensions industry stakeholders, and may not be reproduced, redistributed, communicated to a third party or relied upon by any other person or for any other purpose without the Commission's prior written consent. The Commission does not accept any liability if this report is used for any other purpose other than for the above mentioned intended purpose.

Definition of Terms

Insured Fund – A fund whose contributions are used to buy assets which are registered in the name of the insurer and not the fund.

Self-Administered Fund – For the purposes of this report, self-administered funds are those under fund administrators and insurers but their assets are registered in the respective names of the funds.

Stand Alone Fund – These are self-administered funds which own and control their administration structures (having own employees) for the purpose of operating the fund.

Pension Fund member – in relation to a fund, means any person who is a member of that fund in terms of the rules thereof.

Active member – Members of a fund who are actively contributing to the fund, including those on contribution holiday for a period of time.

Pensioner – a person in receipt of pension benefits from a pension fund.

Deferred Pensioner – A member whose pension benefits are preserved within the fund until the members attains the retirement age.

Suspended pensioner – A pensioner whose pension benefits are withheld by the pension fund on account of not providing proof of his/her existence.

Members with unclaimed benefits – Members of a fund who have not claimed their benefits when they were entitled to receive such benefits and cannot be located by the fund.

1 Industry Overview

The key performance indicators for the pensions industry as at 30 June 2018 are as shown in Table 1.

Table 1: Key Highlights of the Pensions Industry as at 30 June 2018

Indicator	Insured Funds	Self-Administered Funds	Stand-Alone Self-Administered Funds	Total
Number of Funds*	860	172	15	1,047
Active funds	354	117	15	486
Members ¹	130,002	120,813	334,645	585,460
Share of total membership	22.21%	20.64%	57.16%	100.00%
Total Income (\$)	52,017,559	111,188,098	115,457,068	278,662,765
Total Contributions (\$)	46,818,981	54,199,268	76,900,905	177,919,155
Rental Income (\$)	460,136	4,917,557	18,467,304	23,844,997
Investment Income ²	7,494,222	52,494,890	31,571,209	91,560,321
Investment Income over total assets	0.67%	3.53%	1.78%	2.09%
Total Expenditure (\$) ³	36,487,361	53,611,035	67,548,505	157,646,902
Total Benefits Incurred (\$)	32,170,397	39,447,191	47,410,181	119,027,768
pension benefits per pensioner	52	145	161	157
Expenses/Contributions ⁴	9.09%	23.91%	22.50%	19.13%
Expenses/Total Income ⁴	8.18%	11.65%	12.22%	11.24%
Surplus(Deficit) (\$)	15,530,197	57,577,063	47,908,563	121,015,824
Total Assets (\$)	1,117,807,142	1,487,748,755	1,777,947,844	4,383,503,742
Total Assets per member	8,598	12,314	5,313	7,487
Percentage of Total Assets	25.50%	33.94%	40.54%	100.00%
Prescribed Assets (\$)	82,447,868	182,351,617	58,240,135	323,039,620
Prescribed Assets Ratio	7.38%	12.26%	3.28%	7.37%
Contribution Arrears (\$)	46,732,928	87,083,190	502,533,288	636,049,407

Notes :

1. Total membership excludes fund beneficiaries (widows and orphans of members).
2. Total Investment income is made up of rental income, dividends, interest on investments, profit on disposal on assets and fair value gains.
3. Total Expenditure for the industry includes benefits incurred.
4. Expenses are calculated as total expenditure excluding items such as expenditure on benefits, transfers to reserves and revaluation reserves.

As shown in Table 1 above, the pensions industry had 1,047 registered private occupational pension funds as at 30 June 2018, decreasing from the 1,304 reported as at 31 March 2018. The decrease was mainly a result of data correction by one insurer who had been reporting sponsoring employers of umbrella funds as individual insured pension funds.

The industry was composed of 998 defined contribution schemes and 49 defined benefit schemes. The high number of defined contribution schemes indicates that employers prefer to have known and fixed pension contribution obligations under defined contribution schemes, rather than opting for defined benefit schemes, which may result in unsustainable pension liabilities.

1.1 Membership

The pensions industry's total membership marginally decreased from 586,756 members as at 31 March 2018, to 585,460 members as at 30 June 2018. The decline was mainly a result of exits from pension funds during quarter under review. The breakdown of membership from 31 March 2018 to 30 June 2018 is shown in Table 2 below.

Table 2: Quarterly breakdown in membership

Membership type	Number of Members as at..	
	30 June 2018	31 March 2018
Actives	365,018	362,150
Pensioners	29,742	32,628
Deferred Pensioners	121,625	123,175
Suspended Pensioners	17,351	16,990
Unclaimed Benefits	51,724	51,813
Total	585,460	586,756

1.2 Asset Quality

The pensions industry had an asset base of \$4.38 billion as at 30 June 2018, reflecting a 5.29% increase from the \$4.16 billion reported as at 31 March 2018. The growth in the asset base was mainly a result of an increase in the value of quoted equities from \$1.38 billion as at 31 March 2018 to \$1.60 billion as at 30 June 2018. The trend in the growth of the asset base from 31 March 2017 to 30 June 2018 is shown in figure 1 below.

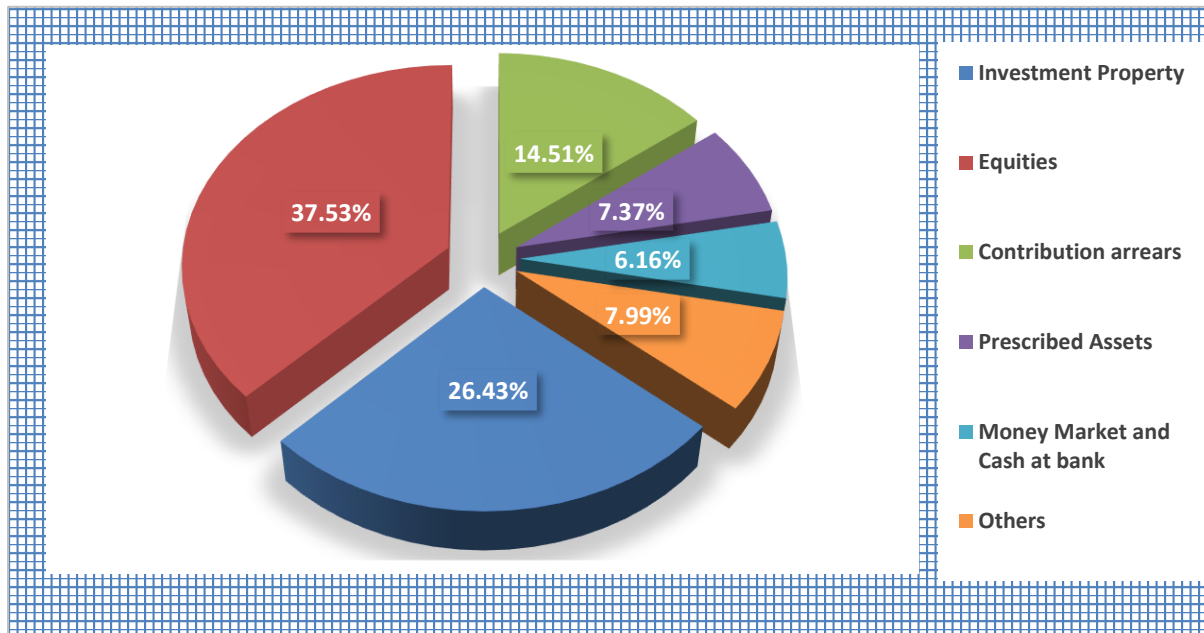

Figure 1: Trend in asset base

The total assets translated to an industry average capital accumulation per member of \$7,487 as at 30 June 2018. The average capital accumulation per member was 5.73% higher than the \$7,081 per member reported as at 31 March 2018. The increase in the average capital accumulation was mainly due to the afore-mentioned increase in total assets.

The distribution of the industry's asset base as at 30 June 2018 is shown in figure 2 below.

Figure 2: Distribution of Total Assets for the Pensions Industry

As shown in figure 2 above, equities and investment properties totalling \$2.81 billion accounted for 63.97% of the total assets. The two asset classes are in line with the long-term nature of pension funds.

The industry continued to be plagued by contribution arrears, which increased from \$618.88 million as at 31 March 2018, to 636.36 million as at 30 June 2018. Contribution arrears accounted for 14.51% of the industry's asset base. Stand-alone funds reported \$502.53 million of the contribution arrears, accounting for 78.97% of total contribution arrears. The high level of contribution arrears reduce the level of investible assets for funds and heightens the liquidity risk in industry. The Commission continues to be attentive to developments on the matter.

Prescribed assets amounted to \$323.13 million as at 30 June 2018 from \$306.93 million reported as at 31 March 2018. This constituted 7.37% of total assets, which was not compliant with the minimum regulatory requirement of 10%.

The Commission noted however, that self-administered pension funds were compliant with the 10% regulatory threshold. Stand-alone and insured pension funds are encouraged to comply with the regulatory requirements.

Liabilities

The industry's total liabilities totalled \$4.61 billion as at 30 June 2018, indicating a deficit of \$221.46 million. The deficit was mainly a result of defined benefit liabilities which were not being supported by the requisite investment returns and sponsoring employer funding.

The industry reported pension benefits arrears of \$83.97 million as at 30 June 2018. The benefit arrears increased by 5.41% from the \$79.66 million reported as at 31 March 2018. The Commission noted that stand-alone funds accounted for 93.46% of the pension benefit arrears as at 30 June 2018. The arrear pension benefits for the sector were mainly a result of low liquidity emanating from contribution arrears and investments in properties that cannot be readily converted into cash to meet pension benefits.

The industry reported unclaimed benefit liabilities totalling \$28.73 million as at 30 June 2018. The Commission continues to encourage funds to come up with strategies for locating the members with unclaimed benefits, as well as improving data integrity and communication with members to reduce the likelihood of cases of unclaimed benefits.

1.3 Earnings

The industry reported a net surplus of \$121.01 million for the 6 months ended 30 June 2018. The surplus was mainly driven by contribution income totaling \$177.92 million and investment income totaling \$91.56 million. The two income streams accounted for 96.70% of the \$278.66 million total income for industry during the period under review.

The total income was 12.80% lower than the \$319.55 million reported for the same period in 2017. The relative decline in total income was mainly a result of a decrease in investment income from \$135.19 million for the 6 months ended 30 June 2017 to \$91.56 million for the period under review. The relative decline in investment income was mainly a result of lower fair value gains on equities for the 6 months ended 30 June 2018 when compared to the same period in 2017.

The total expenditure for the industry amounted to \$157.65 million for the 6 months ended 30 June 2018. The expenses were mainly driven by pension benefits totaling \$119.03 million, accounting for 75.50% of total expenditure. The industry also reported total administration expenses amounting to \$38.62 million for the period under review. The administration expenses translated to average expense ratios of 19.09% and 11.23% based on total contributions and total income respectively. The Commission is concerned about the unsustainable administrative expenses and encourages trustees to consider necessary cost containment measures.

2 INSURED SCHEMES

2.1 Industry Architecture

The pensions industry had 6 life offices insuring 860 pension funds as at 30 June 2018. The number of insured pension funds decreased from 1,119 funds reported as at 31 March 2018. The decline in the number of insured pension funds was mainly due to the correction of reported insured funds by Old Mutual Life Assurance Company, who had been reporting more than 250 sponsoring employers of umbrella funds as individual pension funds. The number of pension funds under the different insurers as at 31 March 2018 and 30 June 2018 is shown in Table 3 below:

Table 3: Breakdown of Insured Schemes by Insurer

	Number of Insured Funds	
Life Assurer	30 June 2018	31 March 2018
1. CBZ Life	3	3
2. Fidelity Life	71	71
3. First Mutual Life	186	186
4. Old Mutual Life	289	548
5. ZB Life	151	152
6. Zimnat Life	160	159
Total	860	1,119

2.2 Membership

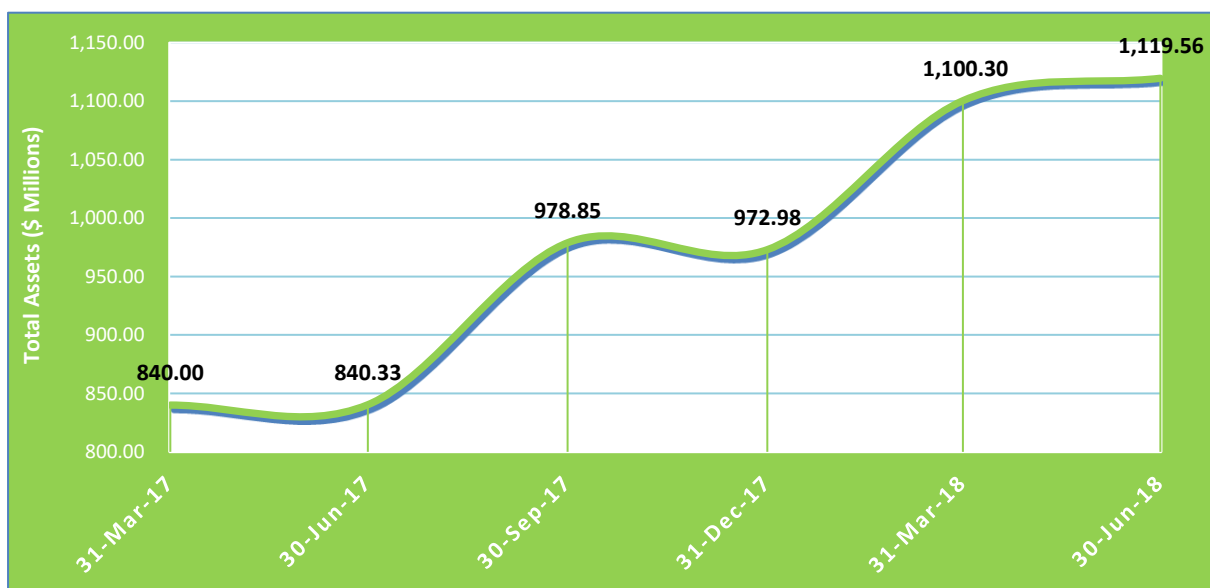

Insured pension funds had 130,002 members as at 30 June 2018, accounting for 22.21% of the pension industry's total membership. The membership decreased from 129,588 members reported as at 31 March 2018 due to new members joining the sector during the quarter under review. The breakdown of membership for insured funds as at 30 June and 31 March 2018 is shown in Table 4 below.

Table 4: Insured Funds Membership

Membership Class	Number of Insured Schemes as at	
	30 June 2018	31 March 2018
New Entrants	1,596	1,218
Active Members (Excluding New Entrants)	119,065	119,445
Pensioners	543	538
Deferred Pensioners	5,142	4,989
Suspended Pensioners	63	0
Members with Unclaimed Benefits	3,593	3,398
Total Membership	130,002	129,588

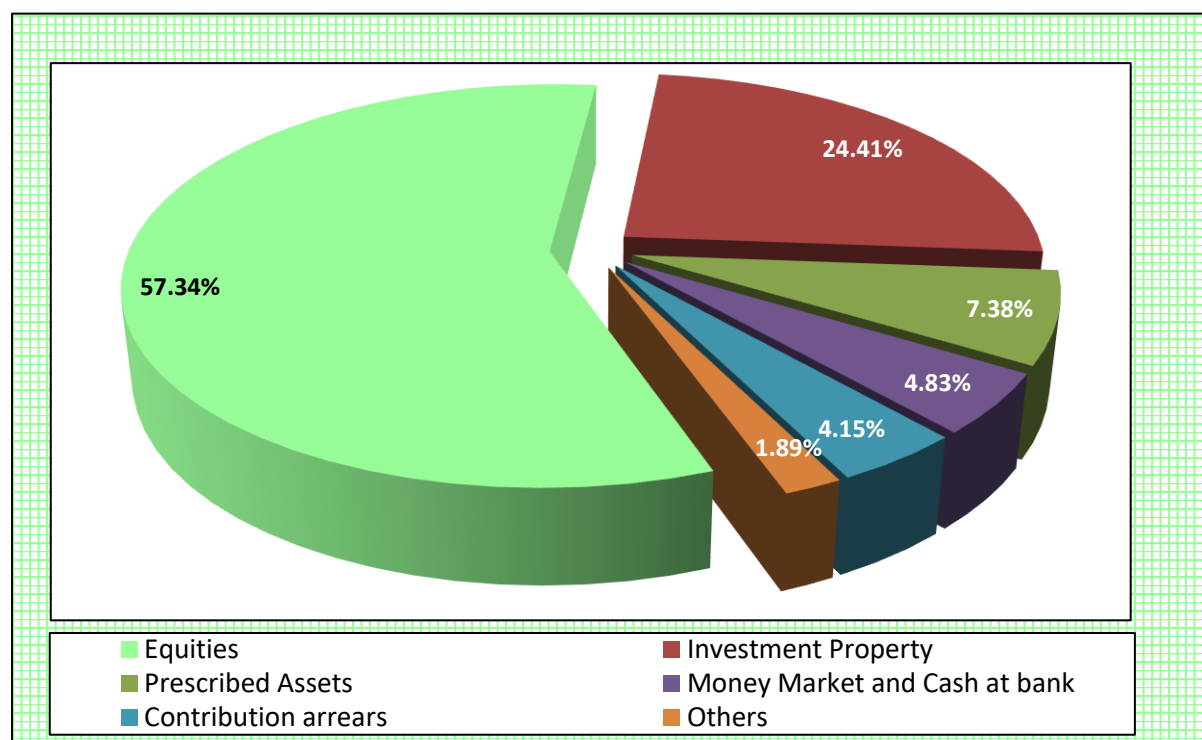

2.3 Asset Quality

Insured funds reported total assets amounting to \$1.12 billion as at 30 June 2018, attributable to 25.50% of the pension industry's \$4.38 billion asset base. The total assets for the sector marginally increased from \$1.10 billion as at 31 March 2018 to \$1.12 billion as at 30 June 2018. The trend of asset growth from 31 March 2017 to 30 June 2018 is shown in figure 3 below.

Figure 3: Trend in asset growth from 31 March 2017 to 30 June 2018

Equities and investment property amounted to \$913.87 million, attributing 81.76% of the total asset base as at 30 June 2018. The remaining 18.24%, representing \$203.94 million of the total assets was invested in various other asset classes as shown in Figure 4 below.

Figure 4: Distribution of Total Assets for Insured Funds

As depicted in figure 4 above, insured funds had \$82.47 million, 7.38% invested in prescribed assets as at 30 June 2018, below the 10% regulatory threshold. The prescribed assets investment declined from the \$91.41 million, which represented 8.37% of the total assets as at 31 March 2018. The Commission encourages insurers to ensure that they comply with prescribed assets.

2.4 Earnings

Insured schemes reported total income amounting to \$52.02 million and total expenditure amounting to \$36.49 million for the 6 months ended 30 June 2018, resulting in a surplus of \$15.84 million.

The income was mainly driven by contributions, which totalled \$46.82 million, accounting for 90.01% of the total income for the period under review. The total income for the 6 months ended 30 June 2018 was 43.78% higher than the \$36.18 million reported for the 6 months ended 30 June 2017. The comparative increase was a result of higher investment income and accrued contributions during the period under review.

Total pension benefits incurred totaled \$32.17 million for the period under review, attributable to 88.17% of the \$36.49 million total expenditure.

The sector's administrative expenses totaling \$16.40 million for the 6 months under review translated to average expense ratios of 9.09% and 8.18% to contributions and total income respectively.

The Statements of Comprehensive Income for Insured Schemes for the six months ended 30 June 2018 are shown on Annexure 3.

3 SELF-ADMINISTERED FUNDS

3.1 Industry Architecture

There were 172 registered self-administered funds as at 30 June 2018. The funds were being administered by 5 administrators and 5 life offices. The number of self-administered pension funds as at 30 June and 31 March 2018 are shown in Table 5 below.

Table 5: Number Self-Administered Funds

Name of Administrator/Insurer*	Number of Pension funds as at...	
	30 June 2018	31 March 2018
Professional Administrators		
1. Capitol Insurance Brokers	1	1
2. Comarton Consultants	28	29
3. Marsh Employee Benefits	44	44
4. Minerva Benefits Consulting	59	56
5. Zimbabwe Insurance Brokers	5	5
Sub-total	137	135
Life Companies		
1. Fidelity Life Assurance Company	1	1
2. First Mutual Life Assurance Life Company	5	5
3. Old Mutual Life Assurance Company	25	26
4. Nyaradzo Life Assurance Company	2	2
5. Zimnat Life Assurance Company	2	2
Sub-total	35	36
Grant Total	172	171

*Not all registered life offices (life assurance companies) are involved in pension administration

3.2 Membership

The total membership for self-administered funds increased from 119,902 as at 31 March 2018, to 120,813 members as at 30 June 2018. The increase in total membership was a result of new entrants, which outstripped exits during the period under review.

Self-administered pension funds accounted for 20.64% of the pension industry's 585,460 members as at 30 June 2018. The various categories of self-administered fund membership as at 30 June and 31 March 2018 are depicted in table 6 below.

Table 6: Self-Administered Funds Membership

Membership Class	Number of members as at...	
	30 June 2018	31 March 2018
New Entrants	1,982	1,284
Active Members (Excluding New Entrants)	92,104	91,871
Pensioners	6,897	7,418
Deferred Pensioners	11,866	11,597
Suspended Pensioners	3,582	3,248
Members with Unclaimed Benefits	4,382	4,484
Total Membership	120,813	119,902

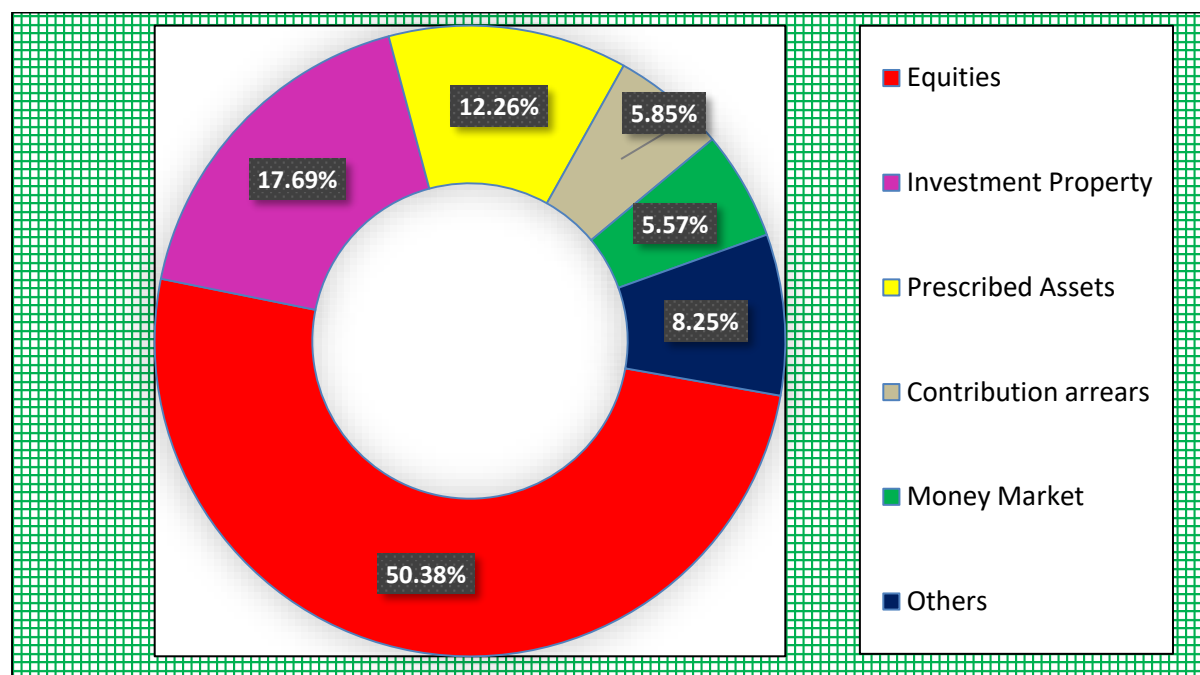

3.3 Asset Quality

There was a 10.75% increase in the asset base for self-administered pension funds, from \$1.34 billion as at 31 March 2018 to \$1.49 billion as at 30 June 2018. The sector's assets contributed 33.94% of the pension industry's \$4.38 billion asset base. The sector's asset base translated to an average capital accumulation of \$12,314, a growth of 9.92% from the \$11,203 as at 31 March 2018.

The increase in the asset base for the sector was mainly due to an increase in the value of equities investments from \$628.47 million as at 31 March 2018 to \$749.59 million as at 30 June 2018. The increase in equity investments was mainly due to increases in share values on the Zimbabwe Stock Exchange.

Figure 5 below shows the distribution of self-administered funds' assets as at 30 June 2018. See Annexure 6, the Consolidated Statement of Financial Position for more details.

Figure 5: Distribution of Total Self-Administered Fund Assets

As shown in Figure 5 above, the total asset base for self-administered funds was mainly skewed towards equities investments, totaling \$749.59 million and accounting for 50.38% of total assets as at 30 June 2018. Please note that the weight of equities investments was mainly a result of the 2017 Zimbabwe Stock Exchange Bull Run.

Self-administered funds' had a total of \$182.35 million invested in prescribed assets as at 30 June 2018, translating to 12.26% of the total asset base. This was a 14.46% increase from \$159.31 million value of prescribed assets as at 31 March 2018.

The sector's contribution arrears increased by 2.91% to \$87.08 million as at 30 June 2018 from \$84.60 reported as at 31 March 2018. The arrears accounted for 5.85% of total assets. It is of concern that the arrears are on an upward trend. .

3.4 Earnings

Self-administered funds' reported a total surplus of \$57.58 million for the period under review. The surplus was buoyed by total income amounting to \$111.19 million for the 6 months ended 30 June 2018.

The income for the sector was mainly driven by accrued contributions and profits from the disposal of investment assets. The two income drivers accounted for a combined \$82.00 million, translating to 71.95% of total income for the period under review. The disposal of investment assets income was mainly a result of the disposal of equity investments by pension funds in the sector.

Total income for self-administered pension funds for the 6 months ended 30 June 2018 was however 37.19% lower than the \$177.04 million reported for same period in 2017. The relatively lower income was mainly a result of a decline in fair value gains from \$91.58 million for the 6 months ended 30 June 2017, to a loss of \$0.40 million for the 6 months under review.

The sector reported total expenditure amounting to \$53.61 million for the 6 months ended 30 June 2018. The expenditure was mainly driven by benefit payments totaling \$39.45 million which accounted for 73.58% of total expenditure for the 6 months under review. See annexure 5 for detailed Statements of Comprehensive Income for self-administered pension funds.

The total expenditure for the period under review was 10.22% higher than the \$48.64 million total expenditure reported for the 6 months ended 30 June 2017. The comparative increase was mainly due to higher investment and administration expenses during the 6 months ended 30 June 2018.

Administrative expenditure for self-administered pension funds totalled \$19.08 million, translating to expense ratios of 11.16% and 23.91% of total income and total contributions respectively.

4 STAND ALONE PENSION FUNDS

4.1 Overview of Stand Alone Funds Sector

The pension industry had 15 stand-alone pension funds as at 30 June 2018. There were 11 defined contribution schemes and 4 defined benefit within the sector as at the same date.

4.2 Membership

The total membership for stand-alone pension funds decreased from 337,266 members as at 31 March 2018 to 334,645 as at 30 June 2018. The decline in membership was mainly because of exits from the pension funds which were more than new entrants during the period under review.

The sector accounted for 57.16% of the industry's total membership of 585,460 members, as well as having 74.98% of the industry's 29,742 pensioners, making the sector of strategic importance in terms of the Commission's mandate to protect fund members' rights.

The distribution of membership by class in the sector as at 30 June 2018 is in table 7 below.

Table 7: Membership Statistics for Stand-Alone Pension Funds

Membership Category	Number of Member as at	
	30 June 2018	31 March 2018
New entrants	3,155	2,292
Active members	147,116	146,040
Pensioners	22,302	24,672
Deferred Pensioners	104,617	106,589
Suspended Pensioners	13,706	13,742
Unclaimed benefits	43,749	43,931
Totals	334,645	337,266

As shown in Table 7 above, the sector had 43,749 members with unclaimed benefits, attributable to 84.58% of the industry's 51,724 members with unclaimed benefits as at 30 June 2018. The number was considered unacceptably high and required urgent attention from trustees and management of the respective stand-alone funds through tracing and

advertising. The Commission is also notifying people of the existence of the unclaimed benefits through its consumer education and awareness campaigns.

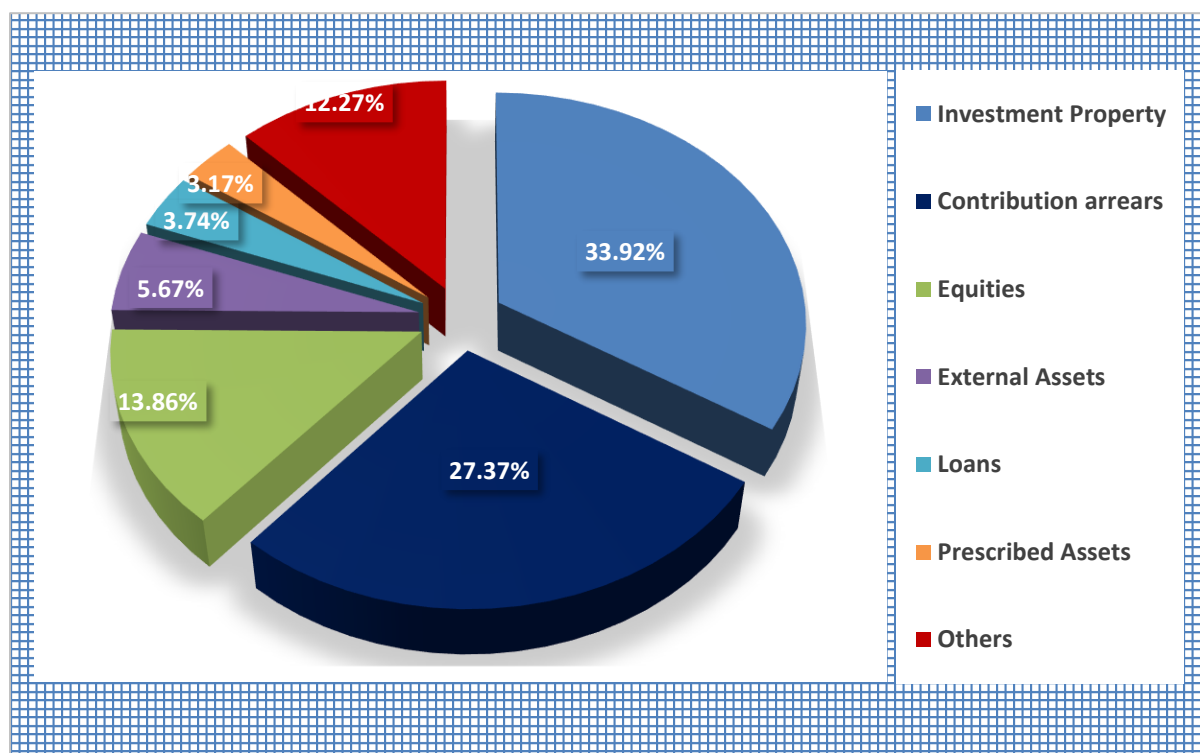

4.3 Asset Base

Stand alone pension funds reported total assets amounting to \$1.78 billion as at 30 June 2018, constituting 40.56% of the industry's total assets.

The total asset base increased by 3.66% from the \$1.72 billion reported as at 31 March 2018. The growth in the asset base was mainly a result of increases in the values of equities, contribution arrears and investment property by \$37.40 million, \$10.67 million and \$8.00 million respectively.

The total assets as at 30 June 2018 translated to an average asset accumulation of \$5,313 per member. The distribution of assets for stand-alone pension funds as at 30 June 2018 is shown in Figure 6 below. See Annexure 8 for further details.

Figure 6: Distribution of Assets for Stand Alone Funds

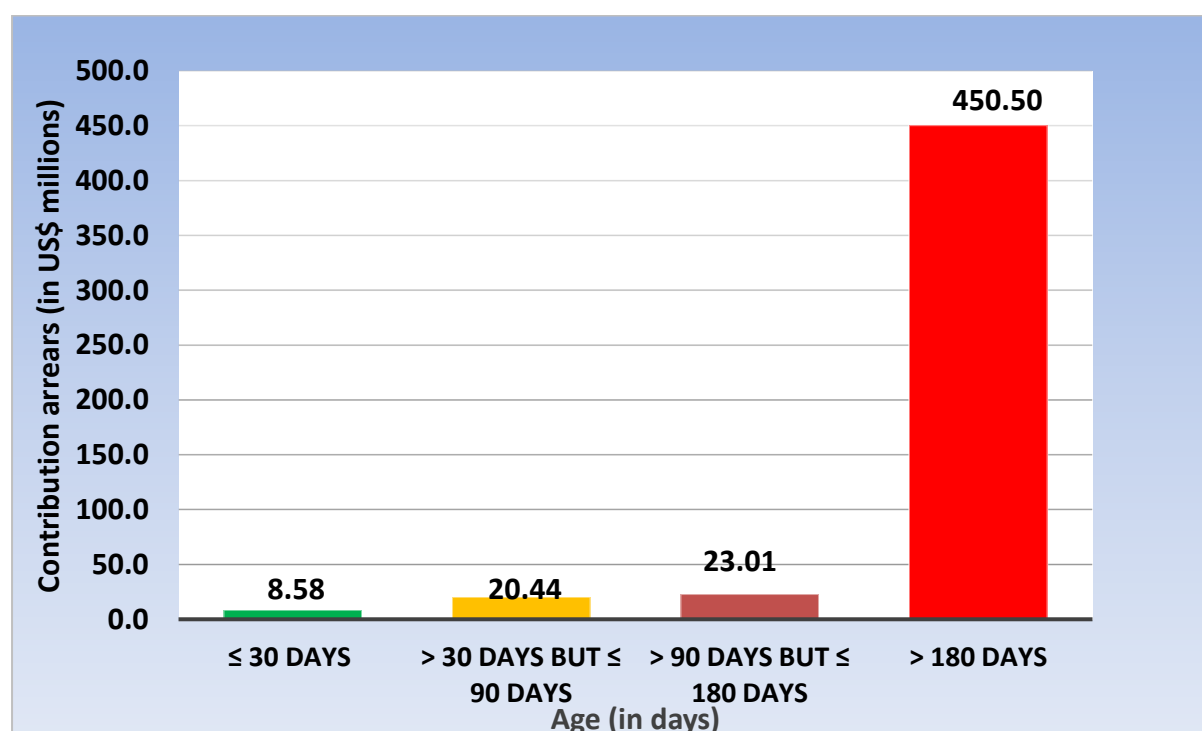

Stand-alone pension funds reported contribution arrears inclusive of interest thereon, totaling \$502.53 million as at 30 June 2018. The arrears constituted 27.37% of the total assets. Contribution arrears, which were at \$491.86 million as at 31 March 2018 continued on account of viability challenges being faced by some of the sponsoring employers of stand-alone pension funds.

The contribution arrears were mainly concentrated in 5 pension funds, that contributed \$447.94 million, equivalent to 89.14% of the total contribution arrears for the sector. It is also of concern that \$450.50 million, attributable to 89.65% of the contribution arrears for stand-alone pension funds as at 30 June 2018 were aged more than 180 days.

The contribution arrears have caused liquidity challenges for the affected pension funds. The liquidity challenges were further increased by rental arrears totaling \$44.10 million for stand-alone funds as at 30 June 2018.

The age analysis for contribution arrears, including interest on the same is shown in figure 7 below.

Figure 7 : Contribution arrears age analysis

As at 30 June 2018, stand-alone funds had \$58.24 million invested in prescribed assets, translating to 3.28% of the total assets. This was below the regulatory requirement of 10%. The non-compliance with the prescribed requirement is mainly being attributable to issue of contribution arrears and investment in properties that are adversely affecting the liquidity position of pension funds in this sector.

4.4 Liabilities

Stand-alone funds reported arrear pension benefits totaling \$78.49 million, as at 30 June 2018. The amount of arrear pension benefits may be a result of low liquidity within the affected pension funds.

The sector reported unclaimed benefits totaling \$20.83 million as at 30 June 2018, increasing from the \$18.41 million reported as at 31 March 2018. The amount of unclaimed benefits liabilities increased from the \$18.15 million reported as at 31 March 2018. Note that \$11.62 million, attributable to 55.78% of the \$20.83 million unclaimed benefits liabilities pertain to members from one pension fund. Efforts continue to be made by the fund to locate the affected members. See Annexure 8 for a detailed breakdown of Stand Alone pension funds' liabilities.

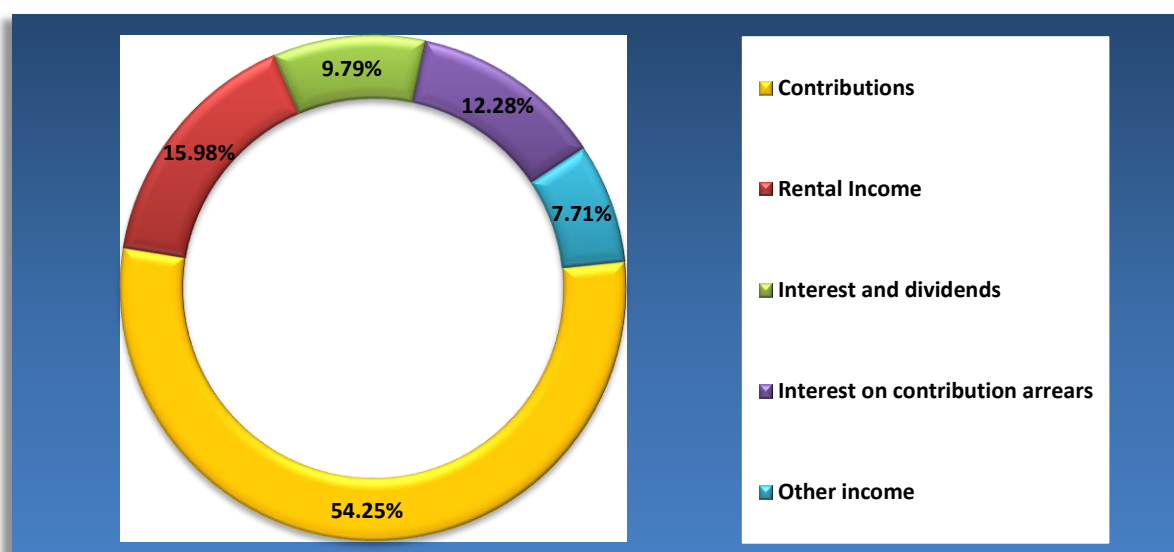

4.5 Earnings

Stand-alone funds reported total income and total expenditure amounting to \$115.46 million and \$67.55 million respectively, resulting in a surplus of \$47.91 million for the 6 months ended 30 June 2018.

The income was mainly driven by contribution and rental income totaling \$62.71 million and \$18.47 million respectively, accounting for a combined 70.31% of total income for the sector. The income for stand-alone funds for the 6 months ended 30 June 2018 was marginally lower than the \$116.10 million earned for the same period in 2017.

The sources of income for stand-alone pension funds for the 6 months ended 30 June 2018 are detailed in Figure 8 below. See Annexure 7 for further details.

Figure 8 : Income Distribution for Stand Alone Funds

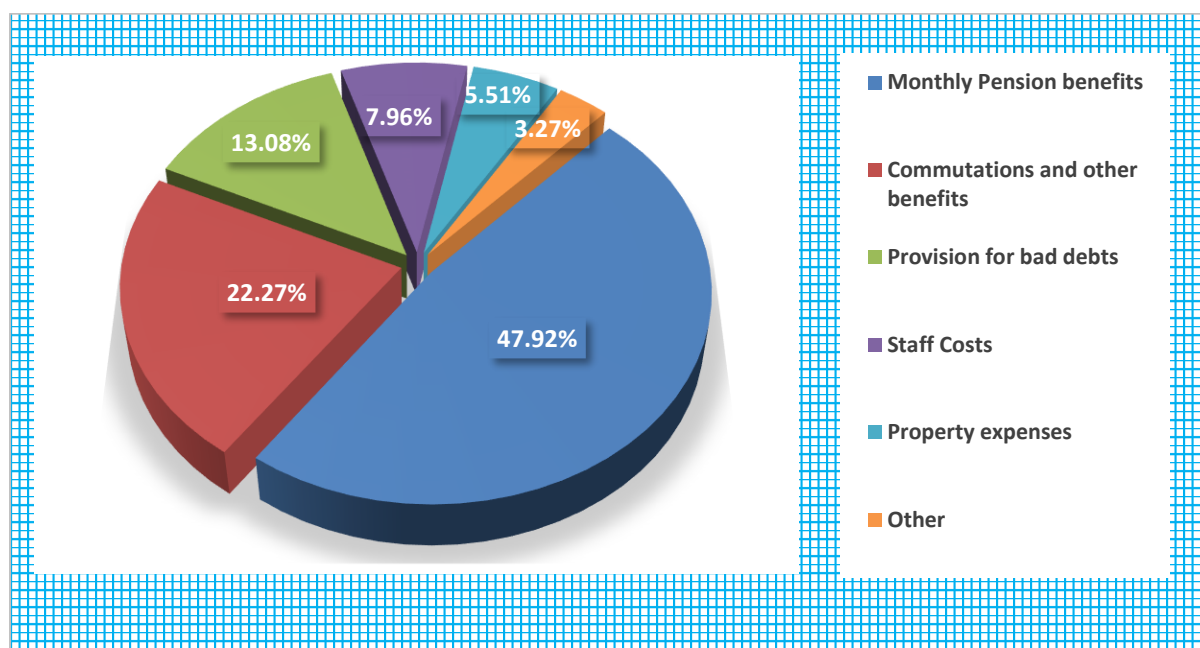

The \$67.55 million total expenditure for stand-alone pension funds was also marginally lower than the \$67.68 million total expenditure reported by stand-alone pension funds for the 6 months ended 30 June 2017.

The expenditure for the period under review was mainly driven by pension benefits amounting to \$47.41 million, accounting for 70.19% of total expenditure for the sector. Of this figure, \$32.37 million was incurred in paying monthly pensioners' benefits. This was in line with the fact that stand-alone funds had a combined 22,302 pensioners as at 30 June 2018.

The breakdown of the total expenditure for stand-alone pension funds for the period under review is shown in Figure 9 below. The detailed Statements of comprehensive Income are shown on annexure 7.

Figure 9 : Expenditure Distribution for Stand-Alone Funds

Stand-alone pension funds reported \$20.14 million in administrative expenses, translating to administrative expenses to contributions and total income ratios of 22.50% and 12.22% respectively. On average, staff costs amounting to \$5.37 million accounted for 26.68% of total administrative costs. The high expense ratios are not sustainable in the long-run as they may result in fund members losing value on their contributions over time. The Commission has drafted a raft of proposals to curb the high expense ratios and other problems plaguing the industry.

4 SECTION D: ANNEXURES
