Economic Overview

- 1.1 **Economic Growth** - In his midyear budget review, the then Minister of Finance Hon. Chinamasa maintained a 3.7% Gross Domestic Product (GDP) growth forecast for 2017. The forecast was premised on growth particularly in agriculture and mining. However, the cyclical nature of agriculture and mining growth drivers, particularly weather and price fluctuations may compromise the sustainability of near-term growth prospects.
- 1.2 **Inflation** – Officially, Inflation for August 2017 was unchanged from the previous month, closing at 0.14%. Month on month inflation increased from -0.36% in July 2017 to -0.13% in August 2017. Year to date inflation eased from 0.36% to 0.23%. Near zero inflation seems out of sync with generalised reports of price increases, more so after factoring in reports of multi-pricing tendencies which have remerged. This implies devaluation of non US\$ cash payment methods.

Executive Summary

- 1.1 The majority of life assurance institutions are compliant with the minimum capital requirements and prescribed asset status. The remaining non-compliant assurers are instituting various measures towards compliance.
- 1.2 The life assurance industry was made up of 1594 agents, 11 direct life assurance companies, 4 composite reinsurance companies and 1 life reinsurer as at 30 September 2017.
- 1.3 During the period under review the aggregate Zimbabwe life assurance industry gross premiums written totalled USD 272 million. Life assurers accounted for USD266 million, an increase of 4% over the 257 million written during the previous reporting period. Reinsurers accounted for USD5.9 million, an increase of 1% over USD5.9 million in premiums written during the previous comparative quarter.
- 1.4 Total assets of life assurers and life reinsurance increased by 80% from USD1.5 billion in the third quarter of 2016 to USD2.8 billion in the current comparative quarter.
- 1.5 The life assurance sector's average prudential liquidity ratio was 433% as at 30 September 2017. The ratio implies that the industry has sufficient assets to meet claims when they fall due. The industry also recorded a capital to liability ratio of 181% in the current reporting period giving a growth of 113% largely as a result of the increase in money markets.
- 1.6 Investments in prescribed assets for both life assurance companies and life reinsurers rose by 33% as at 30 September 2017.

2017 Third Quarter Life Report

- 1.7 The Capital for life assurance companies increased by 139% from USD218 million to USD520 million while that for life reinsurers rose by 81% from USD13 million to USD23 million between 30 September 2016 and 30 September 2017.
- 1.8 The combined ratio for life assurance companies showed no change and stood at 80% as at 30 September 2017 against 80% recorded as at 30 September 2016.

PART A

LIFE ASSURANCE

1. Architecture of the Life Assurance Sector

As at 30 September 2017, there were 11 registered primary life assurers, 4 composite reinsurers and 1 life reassurer under the supervision of the Insurance and Pensions Commission (IPEC).

1.1. Life Assurance Agencies

All insurance agents employed by a company are registered in terms of the Insurance Act [Chapter: 24:07]. As at 30 September 2017, life companies had 1594 agents as shown in table 2 below:

Table 2: Life insurers Agency statistics as at 30 September 2017

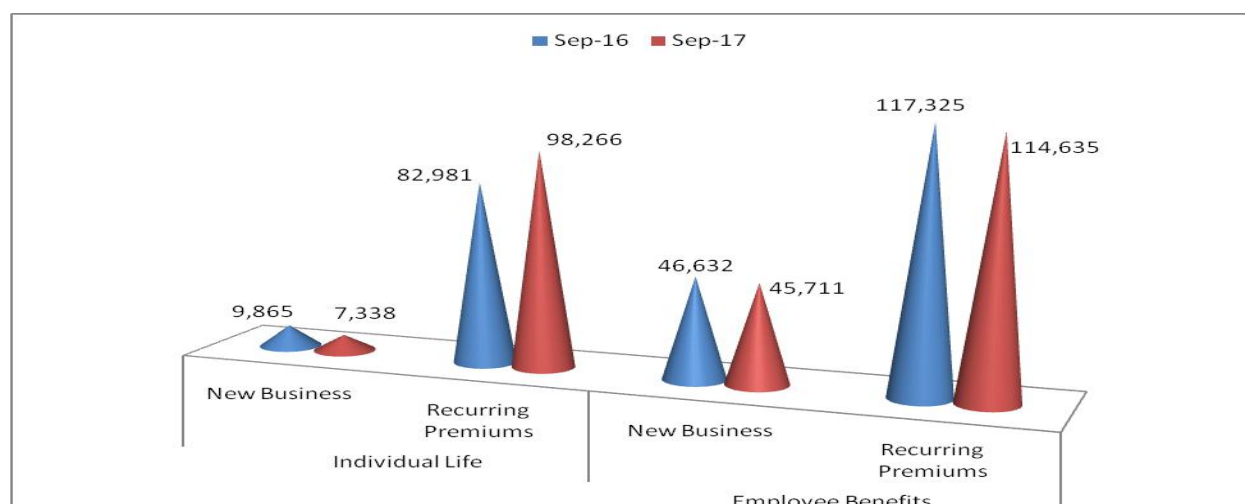

Co. Name	Corporates Agents		Individuals Agents		Total
	Fully Registered	Provisionally Licensed	Fully Registered	Provisionally Licensed	
CBZ Life	4	-	32	47	83

Total	22	-	1,056	516	1,594

1.2. Business Composition by Company for the quarter ended 30 September 2017

During the quarter under review the new business written by the life assurance sector for both individual life and group business decreased by 26% and 2% respectively. The liquidity challenge is largely responsible for the decrease. In terms of competing interests, insurance ranks low on the priority list of customers.

An increase of 18% was recorded on recurring business for the individual business. A decrease of 2% was recorded for group business.

Figure 1: Life Assurance Business Composition by Company- 30 Sept 2017

1.3. Business Composition by Class of product

The life assurance sector is on an upward trajectory with the gross written premium increasing by 4% from USD257 million in the previous period to USD266 million in the quarter under review.

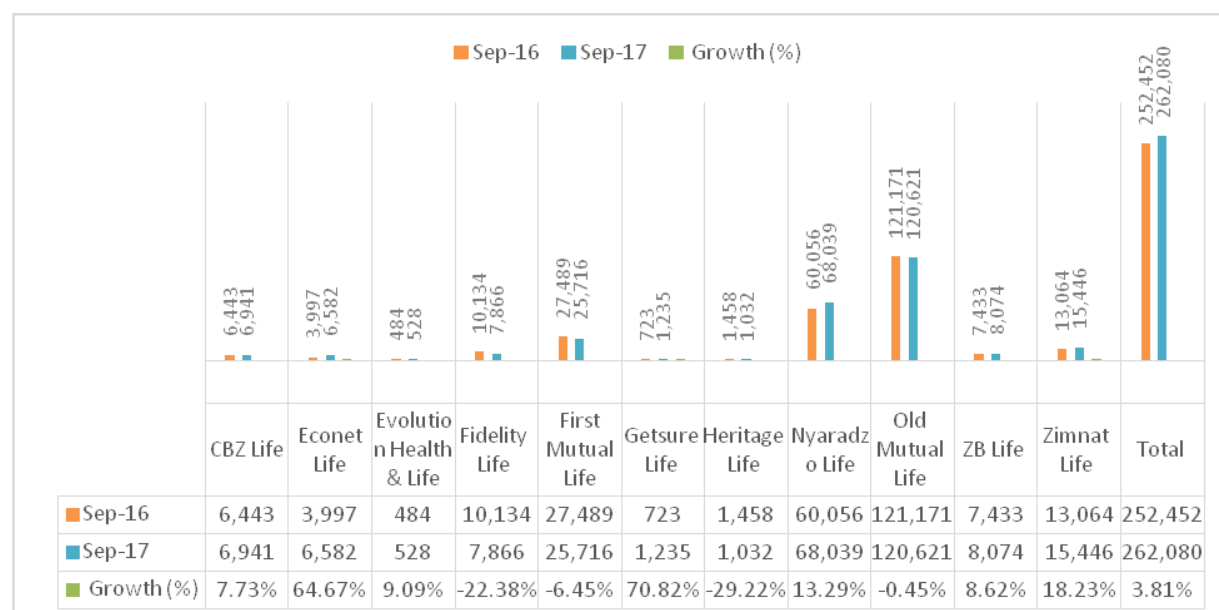

Table 3: Business composition by product line – 30 Sept 2017

Product	Sep-16	Sep-17	Growth (%)
Annuities	14,279	12,149	-15%
Term Insurance	14,698	6,907	-53%
Endowment	353	1,317	273%
Pure Endowment	62	2,333	3663%
Whole Life	10,018	7,462	-26%
Funeral	83,832	95,569	14%
Fund Business	91,427	105,498	15%
Other/GLA	42,117	34,715	-18%
Total	256,786	265,950	4%

1.4. Premium Income Distribution

During the reporting period the life assurance market generated a combined net written premium of USD262.080 million, which was an overall increase of 3.81% from the previous reporting quarter(2016: USD252.452 million) as illustrated in figure 2.

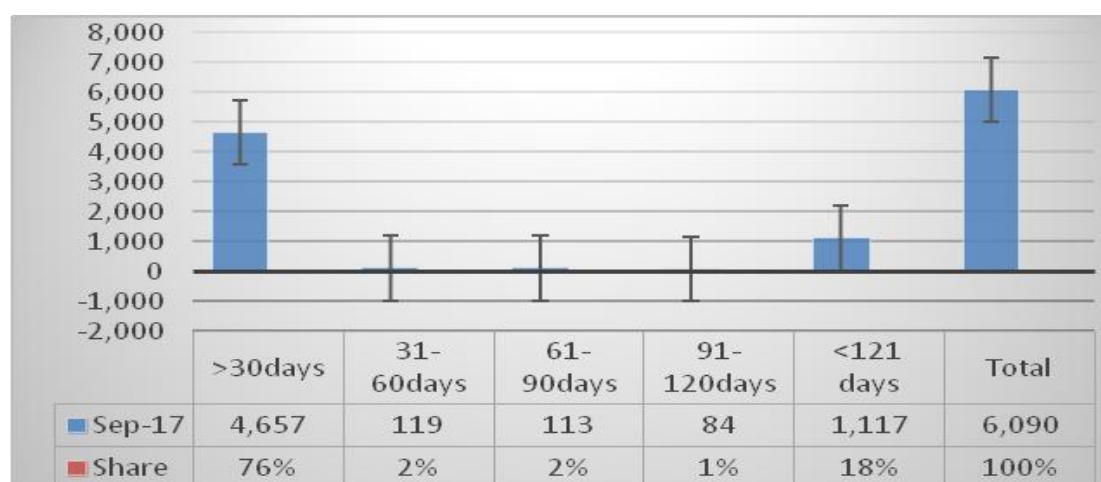

Figure 2: Net Written Premium (NWP) Distribution by Company as at 30 September 2017

1.5. Claims Age Analysis

Claims age statistics showed that some players reported claims in excess of 121 days whilst the majority had outstanding claims aged in excess of 30 days. The Commission expects players to pay legitimate claims on time and as per the policy conditions.

Figure 3: Claims Aged Analysis as at 30 September 2017

1.6. Earnings

For the quarter under review, total costs are reported at USD223 million a decrease from USD246 million for the same comparative period in 2016. It consisted of total net claims of USD142 million, management and administration expenses of USD 68 million and commissions of USD13 million. Nine (9) of the eleven (11) life assurers shown in the table

below, reported positive underwriting profit whilst two (2) life assurers reported underwriting losses.

Table 4: Combined ratios for Life Assurers as at 30 September 2017

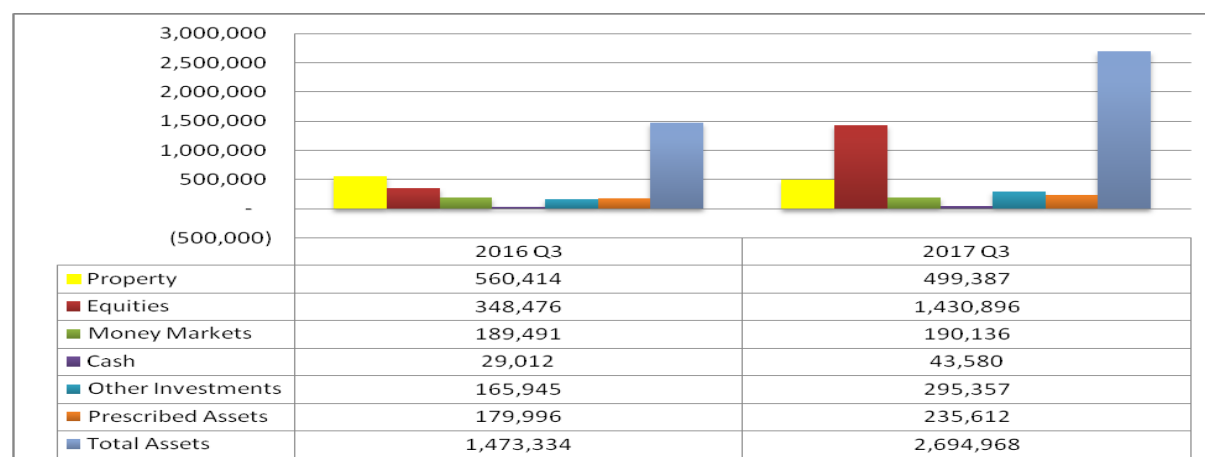

Company	Total Net Claims	Management and Admin Expenses	Commissions	Total Costs	Underwriting Profit and Loss	Expense Ratio	claims ratio	Combined ratio	Net Premiums Written
CBZ Life	2,550	2,228	791	5,569	1,372	43%	37%	80%	6,941

1.7. Asset Quality

1.7.1. Life Assurance assets composition

There was a decrease of 11% in the value of properties from USD560 million in 2016 to USD499 million in the quarter under review. Property and equities constitute 72% of the assets which is a high level of concentration. It is therefore encouraged for the industry to prudently diversify the portfolio.

Figure 4: Life Assurance assets composition as at 30 September 2017

(*Please note from the table above, "other investments" comprises of receivables and unquoted shares.)

1.7.2. Growth in Industry Asset Values

As at 30 September 2017, the industry assets base grew by 83% as compared to the same comparative quarter of 2016. The total life assurance industry assets were USD2.7 billion compared to USD1.5 billion as at 30 September 2016. Individually, property asset values decreased by 11%, while equities increased by 311%. Money market values marginally increased also further declined by USD0.645 thousand indicating no significant change in

terms of money market investments compared to 2016. Life assurers however are obliged by law to invest in prescribed assets to augment Government efforts in economic and sustainable development.

Table 5: Industry Analysis as at 30 September 2017

Assets	2016 Q3	2017 Q3	Growth Rate
Property	560,414	499,387	-11%
Equities	348,476	1,430,896	311%

Other Investments	165,945	295,357	78%
Prescribed Assets	179,996	235,612	31%
Total Assets	1,473,334	2,694,968	83%

1.7.3. Capital Adequacy

During the quarter under review, 8 out of 11 operating life assurance companies were compliant with the prescribed minimum capital requirement of USD5 million in terms of the Statutory Instrument 95 of 2017. Please note that, the discounts prescribed in the SI were not applied to the figures in the table below.

Table 6: Industry Analysis as at 30 September 2017

PART B LIFE REASSURANCE BUSINESS

2. Number of Operational Institutions

For the quarter under review, the architecture for the life reinsurance business stood as in table 8 below:

Table 8: Number of operating institutions.

Reinsurer	Composite Reinsurers	Life Reinsurer
Baobab Re		
FBC Re		
FM Re		
Grand Re		
Zep Re		
Total	4	1

2.1. Market Share by GPW

In terms of Gross Premium Written, Baobab Re was the market leader having written nearly USD3 million in the 2017 third quarter, followed by FM Re with a GPW of USD1.5 million against USD2 million in 2016. Baobab Re, FBC Re and FM Re experienced negative growth rates of 7.5%, 5.9% and 27.3% respectively.

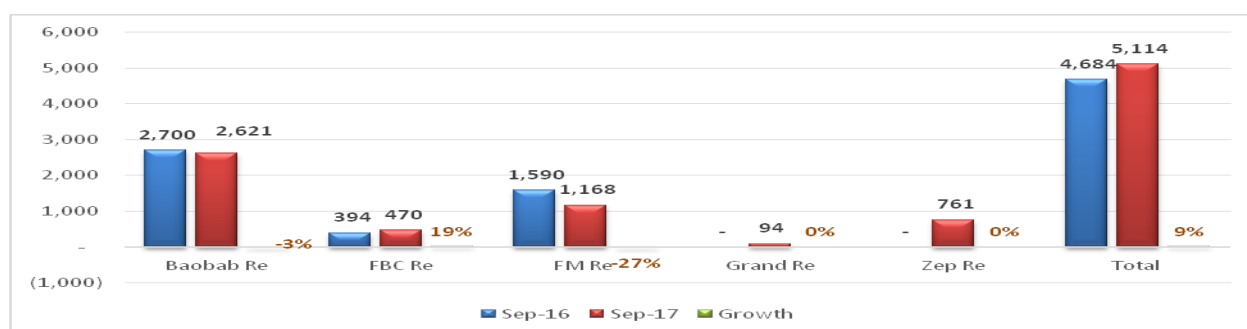

Table 9: Market Share by Gross Premium Written of Life Reassurers as at 30 September 2017

	Sep-16	Sep-17	Growth
Baobab Re	3,194	2,955	-7.5%
FBC Re	555	522	-5.9%
FM Re	2,066	1,502	-27.3%
Grand Re	-	123	0.0%
Zep Re	-	781	0.0%
Total	5,815	5,883	1%

2.2. Reassurance Business Written

Reassurers wrote business amounting to USD5 million in net premiums compared to USD4.7 million in the same period in 2016. For the quarter under review, the total of reinsurance business written translated to a positive growth of 9% attributable to Grand Re and Zep Re coming on board.

Figure 6: Market Analysis by Net Premiums for the quarter ended 30 September 2017

2.3. Cost Drivers

The life reinsurance business had a combined ratio of 104%, which was mainly attributed to an increase in claims that were not reported on time and had to be settled in the current review period. Total costs for reinsurers stood at USD5.3 million and underwriting profit was USD102 thousand. Industry players are advised to employ cost cutting measures in order to increase profitability. (See table below).

Table 10: Cost Drivers for the quarter ended 30 September 2017

Company	Total Net Claims	Management and Admin Expenses	Commissions	Total Costs	Underwriting Profit and Loss	Expense Ratio	Claims ratio	Combined ratio	Net Premiums
Baobab Re	1,298	610	747	2,655	-34	52%	50%	101%	2,621

2.5. Asset Quality

As at 30 September 2017, total reassurers assets base grew by 3% (USD52.7 million in 2016 to USD54.3 million in 2017) in 2017. Equities and money markets were major movers while other assets like fixed properties had a negative growth of 79%.

Figure 7: Life Reassurers Total Assets as at 30 September 2017

* other investments below include plant and equipment, receivables and unquoted shares.

2.6. Compliance in Prescribed Assets

Baobab Re, FBC Re, FM Re, Zep Re and Grand Re had prescribed asset ratios of 8.44%, 10.26%, 11.99%, 0% and 0% respectively. From the table below, only three (3) of five (5) reassurers are in compliant with the prescribed asset status.

Table 12: Variance in compliance in prescribed assets

Reinsurer	Prescribed asset	Total assets	Prescribed	Amount required	Variance in
	Investments		asset ratio	to be compliant	compliance%
Baobab Re	1,001.00	11,862.00	8.44%	889.65	0.9%
FBC Re	2,282.00	22,245.00	10.26%	1,668.38	2.8%
FM Re	409.00	3,411.00	11.99%	255.83	4.5%
Grand Re	-	35.00	0.00%	2.63	-7.5%
Zep Re	-	322.00	0.00%	24.15	-7.5%
Total	3,692.00	37,875.00	9.75%	2,840.63	2.2%

CONCLUSION

The Commission would want to advise the life industry players to adopt a proactive approach in the wake of risks identified in the second quarter report of 2017. Furthermore, life assurers should pay particular attention to key performance indicators such as average time to settle claims, severity, components of claim costs, underwriting speed and number of referrals for example.

Such factors would aid the business in making key strategic decisions that would be critical in ensuring relevance in an ever changing business environment. The life insurance industry should consider new markets such as informal and low income sectors.

DISCLAIMER

This report, including any enclosures and attachments, has been prepared by the Insurance and Pensions Commission solely for informative purposes to the insurance industry stakeholders, and may not be reproduced, redistributed, communicated to a third party or relied upon by any other person or for any other purpose without the Commission's prior written consent. The Commission does not accept any liability if this report is used for any other purpose other than for the abovementioned intended purpose.
